

January 25, 2023

AT A JOINT PUBLIC HEARING BY THE BOARD OF SUPERVISORS AND PLANNING COMMISSION OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE COURTHOUSE THEREOF, ON WEDNESDAY, THE 25TH DAY OF JANUARY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-THREE AND IN THE 247TH YEAR OF THE COMMONWEALTH:

PRESENT FOR THE BOARD:

STEVE W. BOWEN, CHAIRMAN
JOHN A. ROARK, VICE CHAIRMAN
HELEN M. SIMMONS
SHERMAN C. VAUGHN
LYNN K. SHEKLETON

PRESENT FOR THE PLANNING COMMISSION:

BEN PERRY, CHAIRMAN
KIRBY WOOLFOLK, VICE CHAIRMAN
STEVE W. BOWEN
JIM BRUCE
PAUL CARTER
HUGH JONES
JEFF LAVELLE
CHANDRA LEWIS
SANDRA PETTIS
FRANKIE WILLIAMSON

MEMBERS ABSENT: CLARENCE ALLEN

STAFF PRESENT: P. S. T. (TED) COSTIN, COUNTY ADMINISTRATOR
GREGG ZODY, PLANNING & ECON. DEV. DIRECTOR

STAFF ABSENT: KATY J. TOMER, ASSISTANT CO. ADMINISTRATOR

Board of Supervisors Chairman Bowen calls the Board of Supervisors to order at 7:00 p.m. He announces that this Public Hearing is to hear citizen input regarding the Comprehensive Plan.

Planning Commission Chairman Perry calls the Planning Commission to order. The Planning Commission, with 9 citizen members present, has a quorum.

The invocation is provided by Chairman Perry. Chairman Bowen leads everyone in the Pledge of Allegiance to our flag.

Chairman Bowen seeks approval or amendments to the Agenda. Supervisor Roark makes a motion to approve the Agenda. The motion receives a second from Supervisor Simmons. Following a voice vote, the motion carries as follows:

S. W. Bowen	Yes
J. A. Roark	Yes
H. M. Simmons	Yes
L. K. Shekleton	Yes
S. C. Vaughn	Yes

Chairman Bowen informs everyone that the working committee began April 2021, and he appreciates the time and effort the committee and Planning Commission gave to the task. Tonight's meeting is to receive public input on the draft Comprehensive Plan. He thanks Todd Fortune, Deputy Director of the CRC, for his leadership on the project and also Gregg Zody and Ted Costin. Vice Chairman Roark adds that Nottoway citizens are watching but so are developers, and he would like them to see that Nottoway is approachable for conversation.

Chairman Perry reminds everyone that tonight is a public hearing and that the Planning Commission will not be making recommendations or voting on anything tonight.

Gregg Zody, Planning and Economic Development Director, reviews the purpose of a Comprehensive Plan and reads portions of *Code of Virginia* Section 15.2-2223. He thanks Todd

Fortune for his work on the Plan. The last update was in 2006, but *Code* Section 15.2-2230 requires the Comprehensive Plan be reviewed every five years. The purpose of tonight's meeting is to hear the concerns of the public. Staff will then create a report based on tonight's comments to share with the Planning Commission and Board of Supervisors in February.

Todd Fortune remarks that the working committee was good to work with during the process. He notes that this draft looks different than the 2006 Plan as the current draft was basically started from scratch. He then reviews each section of the draft.

Section I is a short introduction that covers the need for and process of creating a Comprehensive Plan.

Section II provides the community profile. It includes where Nottoway is geographically located and a brief history of the County. Maps are included here along with data that presents what Nottoway is along with population projections for what it will be.

Section III provides a lot of data including the topics of housing, affordable housing, transportation, community facilities including Fort Pickett, waste sites, water, and sewer services, climate, and more. Before inclusion, the transportation data was sent to VDOT for review and approval as required by the State.

Section IV covers land use and zoning. A general future land use map has been created and will be used as a guide for future zoning decisions. The Comprehensive Plan is a guide while the Ordinances are the tools.

Section V covers special policy areas that needed additional discussion. Renewable energy, cell towers, and broadband are included.

Section VI presents goals, objectives, and strategies. These are things the County would like to achieve. Goals are longer range of maybe 10-20 years, objectives are 5-10 years, and strategies are shorter term.

Section VII is a brief implementation plan for use in amending Ordinances and planning for the future.

Chairman Bowen opens the Public Hearing for the Board of Supervisors.

Chairman Perry opens the Public Hearing for the Planning Commission. He reminds everyone that the Planning Commission will not be making any recommendations to the Supervisors or voting on any issues tonight.

Supervisor Roark moves to open the Public Hearing for the joint meeting between the Board of Supervisors and Planning Commission. A second is provided by Supervisor Simmons. The motion passes unanimously.

1 – Alexander Hamilton – landowner on Lewiston Plank Road: Chairman Bowen notes that Mr. Hamilton has a close friend in the audience and asks that he introduce him. Mr. Hamilton introduces the best state forester in the world, here in Nottoway County, Dick Starnes. Mr. Hamilton has not read the Comprehensive Plan. He is very concerned about the solar farm known as the Dickerson Creek project. He suggests limiting utility-scale solar to small acre sites so as not to impact the viability of agriculture and forestry and to protect the rights of property owners. He is concerned with run off, the devastation to the forestry business, and surrounding property devaluation. He asks the members of the Board and Planning Commission to put themselves in his shoes, being boxed in on three sides by a potential large-scale solar project. He asks them to limit solar to small acreage parcels, allow homeowners and businesses to use solar, and develop strict guidelines to protect surrounding property owners from utility-scale solar.

Chairman Bowen asks Mr. Hamilton what he considers small acreage. Mr. Hamilton considers 50-80 acres as noted in House Bill 206.

2 – Rose Wootton – landowner on Lewiston Plank Road: She lives .15 miles from the proposed solar site. She read the draft Comprehensive Plan several times and still has many questions regarding what is included regarding solar. Why were five- and two-mile buffers not included? This would prevent landowners from joining together to create one massive site.

Should it state that a third-party environmental consultant must study the environmental impacts on the proposed sites before approval of an application? There is a statement regarding the loss of 11,000 acres of farmland; how is the land being used? Why consider a large-scale solar site before HB 206 has set guidelines for the state? What are Nottoway's future plans for solar, and where will it be located?

She appreciates the work that has gone into the Plan and thanks Mr. Zody for inviting her to the meetings so she could learn.

Supervisor Roark states that the Comprehensive Plan can be adopted and then updated at any time. Mrs. Wootton says in reference to HB 206 that the state is still deciding guidelines, and her concern is that Nottoway will accept the Plan that will need to be changed once those guidelines are in place.

3 – Sheila Mason – landowner near Cary Shop Road: She feels the solar discussions have been a shell game. The Ordinance was repealed because "the citizens do not want it", but a new one was introduced once citizens were led to believe industrial solar was banned. She likens this to a shell game. Solunesco's website considers the Burkeville project a done deal, and, a solar site of that magnitude would decimate agricultural and forested land. She asks the Board and Commission to change the Plan to state that industrial solar has no place on agricultural or forest land and should be limited to industrial-zoned sites.

Mr. Woolfolk asks what was meant by a new solar ordinance being put in place? Mrs. Mason recollects that Supervisor Roark asked the Board to vote it down because the citizens did not want it. Then shortly thereafter, a new ordinance was presented.

4 – Tyler Scott – landowner on Brunswick Avenue: She is against solar and moved to Nottoway for its beauty. Solar will have an impact on the land, and it cannot be reclaimed. The green industry is about money. The tough times we are in may get worse, and Nottoway should protect its land for food production as no one knows the future impacts of solar.

5 – Kelsey Redmond – county resident on Genito Road: She applauds the County's work on the draft Comprehensive Plan, specifically for repeatedly mentioning the importance of maintaining the rural and agricultural nature of the County. She asks the Board and Commission for transparency, stewardship, and a strong emphasis on research and education. Transparency keeps the citizens informed. Stewardship considers readiness of emergency personnel who would handle possible fire situations at the sites. It also takes landfill capacity into consideration during decommissioning. Research and education includes going the extra mile to protect the land, going above DEQ minimum standards which are sometimes found faulty and later revised.

Chairman Bowen mentions that someone from the Fire Department will be available at the February 15th solar forum to address her concern about handling possible fires at solar sites.

6 – Bryan Wright – landowner on Cottage Road: He begins by saying that having these two bodies together tonight is a good idea. In his recent travels, he has seen several working solar farms. He requests that the County be able to consider a solar project which takes adoption of the Plan and enacting a solar ordinance. The County can then review any project on its own for approval or denial. While some tonight have spoken about a specific solar project, his remarks are for solar projects in general.

7 – Mike Mason – landowner adjacent the Cherry Tree Timber project: He thanks Mr. Zody and Mr. Fortune for their work on this monumental task. He has 2,000 feet of common border with the Cherry Tree property. He is confused on how this can be an industrial site on agricultural land. He has observed the Board craftily position itself to be able to approve a solar farm near his property. While the project is not a problem for Crewe or Blackstone, those adjacent to the site are very concerned. If approved, this land will never be the same, and neighboring property values will drop. He speaks to emissions, green energy, and China's coal power plants. He asks the Board and Commission to say no to industrial solar on agricultural and forested land. He notes the towns get their water supply from the river that will receive the toxic runoff and silt of this industrial site.

Chairman Bowen remarks that one of his constituents told him about the industrial solar site in his district, and he then talked with County Administration regarding the referenced project, and there is no application on file for any solar project. Nothing has been done craftily.

8 – Ricky Rash – landowner on W. Courthouse Road: He lives a half mile from the Cherry Tree site. He is not anti-solar but does not like industrial solar. He would be interested in hearing more about the 11,000 acres of land noted in the Plan. Every Comprehensive Plan should set high expectations, identity, purpose, and means. The language is sometimes ambiguous. The Plan sets only minimum standards to be able to begin negotiations with the County, and if someone meets those but is denied a permit, the County could be sued. He suggests setting higher standards. From page 96, re-evaluating the Ordinances for unnecessary restrictions on new housing. If this is to consider smaller lot size, consider the skyrocketing costs of community services from increased population density. Does solar fit the Comprehensive model, protecting open land, forest and farmland? How long will it take a thousand acres to reclaim itself after decommissioning? The Plan should go above the state minimums because it is not protecting the water resources as closely as is needed.

9 – Dicky Ingram – landowner on Courthouse Road: He notes that his previous list of questions went unanswered by the Board but a solar representative answered some of them. (Chairman Bowen asks for a copy of the questions.) He reads quotes from DEQ and the Farm Bureau, and presents two incidents of other businesses in Nottoway that were defeated. Light bills will not be lower if solar comes to Nottoway; the energy will be transferred out of the area. He notes a pro-solar lobbyist is holding a social event in Blackstone with free food and drink. He presents regulations from Amelia's ordinance. Designating 1 mile on either side of transmission lines consumes a lot of farm and forest land. He asks that a specific amount of land be specified for solar and that the County protect our land and resources.

Mr. Woolfolk asks for the source of information on Amelia County. Mr. Ingram says it is titled Section 1 – Comprehensive Plan Amendment.

Chairman Bowen asks staff to answer Mr. Ingram's list of questions and copy the Board.

10 – Seth Maughn – representative of Solunesco: Solunesco is a solar developer hoping to bring their business to Nottoway. In 2019, they were working with the County toward a Special Exception permit. They do not have an application with the County nor do they intend to force one until the County is ready to receive it. He notes that other counties have adopted ordinances and approved solar projects without any mention of solar in their Comprehensive Plans. The concerns being expressed are common and well-intentioned but factually incorrect. Specifics should be addressed at the Special Exception level as each project is different. The Comprehensive Plan should not get too specific.

Chairman Bowen invites Mr. Maughn to his town hall on February 15th at the Burkeville Firehouse to be available to answer questions if needed.

11 – Blake Cox – Energy Right: He invites everyone to an event to be held at the Blackstone Inn on Monday, February 6, 2023 from 4-7 p.m. It is an educational event for citizens to have their questions answered. There will be food and drink.

12 – Dianna Mitchell – business owner in Blackstone: She has many questions regarding solar. She thinks there is a lack of information on the specifics of solar which is concerning. She suggests stepping back until the General Assembly has decided so Nottoway knows what it can act on.

13 – Sue Yeatts – business owner in Crewe: She is impressed by all the research the citizens have presented tonight. She believes solar companies would be benefited if Nottoway had loose ordinances. She is opposed to industrial scale solar facilities but is open to hearing how solar might benefit the County. With all the other issues Nottoway has, she feels taking on industrial solar is premature.

The Public Hearing continues with speakers who had not signed in.

14 – Sonny Abbott – landowner on Little Creek Road: The demographics presented in the Plan note the County's population is decreasing which means Nottoway needs to draw new residents. Will solar draw residents? There are things that need to happen in a County as part of a Comprehensive Plan to identify the means to achieve goals and objectives. Are the goals to just get along or to achieve something greater? There is no discussion of revenue streams in the Comprehensive Plan. How are the funds we need to generate going to achieve the goals listed?

Those appointed and elected need to establish trust with the citizens that correct decisions will be made and that all steps of this strategic plan will achieve the expectations.

15 – Sharon Jennings- business owner in Nottoway: Someone noted the Plan did not have to have everything down and should have less boundaries. A lawyer will say that if boundaries are not set at the beginning, the County set a precedent by leaving it out. Mecklenburg County has a solar facility, and the town is still dead. The one in Buckingham has received nothing but complaints from the locals. If the County has problems in the Towns, why not fix that before considering solar. Do the research and do not go by just the numbers but rather consider the opinions of citizens living near industrial solar. The precedent needs to be set in the beginning, so set the bar high.

Sue Yeatts speaks from the audience to thank Chairman Bowen for letting the people speak freely without limitations because of the importance of the issue. Chairman Bowen acknowledges that Chairman Perry had to agree, so thanks go to him as well.

Before Administrator Costin speaks to Mrs. Mason's comment of a shell game, Chairman Bowen reviews the solar timeline. Chairman Bowen made the motion to put the moratorium in place because solar was happening too fast. There was a presentation by Mecklenburg County Administrator Wayne Carter who advised the Board of Supervisors to get the Comprehensive Plan right prior to taking solar applications. Mr. Anzivino advised the Board of Supervisors to get the Zoning right to begin accepting solar applications.

Administrator Costin adds that the solar facility placement issue has been ongoing since the prior staff was in place, before Mr. Zody's or Administrator Costin's or Mr. Anzivino's arrival. There was a solar application started under the then Zoning Ordinance provisions of Renewable Energy, but there was basically an agreement reached between County representatives and the applicant (Solunesco) to hold the application until the Zoning Ordinance could be revised. After Mecklenburg Administrator Carter's presentation, the moratorium was put in place, so the application was never processed. Administrator Costin returned the check to the company by Certified Mail. There is no active application anywhere in the County by any company. Last year, there were talks of an application coming in for a project near Crewe, but the application never came in. Mr. Anzivino spoke with that company, and they were advised that the Board would not be receptive to receiving their application.

A Zoning Ordinance amendment was developed along with a siting and revenue sharing ordinance. The Zoning Ordinance went to Public Hearing with the Planning Commission and the Board of Supervisors which at the same time heard the other two ordinances. The end result was the repeal of the Renewable Energy provisions in the Zoning Ordinance without replacement. The reference was made to one of the Board members saying three times "the people don't want it", and what happened was the Zoning Ordinance amendment was not accepted but the existing Zoning Ordinance provisions were repealed. However, there was a caveat: "until the Comprehensive Plan could be brought up to date and solar addressed". There was some confusion about how far along the Comprehensive Plan was, but it is now in its final stages. There is currently no avenue to a solar application, but there was no shell game.

He repeats that the Comprehensive Plan is a guide. The Zoning Ordinance is the regulatory language that could allow for a Special Exception on a site-by-site consideration. It is a Board decision to leave out language or put in language that would allow the County to consider projects on an individual site-by-site basis. If the solar language is left out, there will be no way to bring forward solar.

Vice Chairman Roark moves to close the Joint Public Hearing for the Board of Supervisors and Planning Commission. A second is provided by Supervisor Simmons. Following a voice vote, the motion carries as follows:

S. W. Bowen	Yes
J. A. Roark	Yes
H. M. Simmons	Yes
L. K. Shekleton	Yes
S. C. Vaughn	Yes

January 25, 2023

Mr. Woolfolk moves to close the Public Hearing for the Planning Commission. A second is provided by Mr. Jones. The motion passes with a unanimous show of hands by the Planning Commission members.

Chairman Perry thanks Chairman Bowen for allowing the joint hearing. He feels much has been accomplished by hearing from the citizens. He encourages citizens to trust the elected officials because they all love Nottoway County; and trust God as the officials do the best they can.

Chairman Bowen encourages everyone to read through the Comprehensive Plan; it can be found on the website. Call County Administration to leave any feedback. He then thanks Mr. Fortune for his work on the Plan.

Vice Chairman Roark moves to adjourn both the Board of Supervisors and Planning Commission. The motion receives a second from Supervisor Simmons. The motion passes unanimously.

The Planning Commission and the Board of Supervisors adjourn at 9:20 p.m.

Chairman, Board of Supervisors

Clerk

January 7, 2025

AT THE ORGANIZATIONAL MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE EMERGENCY OPERATIONS CENTER THEREOF, ON THURSDAY, THE 7TH DAY OF JANUARY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: RICHARD H. INGRAM, JR.
JOHN A. ROARK
DAPHNE V. NORTON
GEORGE G. TOTH, III
WILLIAM J. COLLINS, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR

Administrator Bowen called the meeting to order at 12:48 p.m.

Supervisor Toth provides the invocation. Administrator Bowen leads everyone in the Pledge of Allegiance to our flag.

Election of Chairman: Supervisor Roark moves to open the floor for nominations for Chairman. A second is provided by Supervisor Ingram. Following a voice vote, the motion to open nominations passes as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Supervisor Roark nominates Supervisor Collins to be Chairman. A second is provided by Supervisor Ingram. With no further nominations, Supervisor Roark moves to close nominations. A second is provided by Supervisor Norton. Following a voice vote, the motion to close nominations passes as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Following a voice vote, the motion to appoint Supervisor Collins as Chairman carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Election of Vice Chairman: Supervisor Roark moves to open the floor for nominations for Vice Chairman. Following a voice vote, the motion to open nominations passes as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Supervisor Toth moves to nominate Supervisor Norton for Vice Chairman. A second is provided by Supervisor Ingram. With no further nominations, Supervisor Roark moves to close nominations with a second provided by Supervisor Ingram. Following a voice vote, the motion to close carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Following a voice vote, the motion to elect Supervisor Norton as Vice Chairman carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Set Date, Time, Place of Monthly Meetings: Administrator Bowen notes the regular monthly meetings are typically the third Thursday at 7:00 p.m. in the General District Courtroom. A consensus is to keep the regular meetings on third Thursdays at 7:00 p.m. in the General District Courtroom.

Decision on Monthly/Quarterly Work Sessions: Worksessions were recently changed to second Thursdays at 7:00 p.m. A consensus is to keep this schedule. Worksessions will be held in the Emergency Operations Center unless otherwise noticed by the Chairman, in conjunction with the County Administrator.

Rules of Procedure/Code of Ethics: Administrator Bowen introduces the previously adopted Rules of Procedure and the new, recently provided Code of Ethics from Mr. Elder. Either can be amended. The Code will provide guidelines for Board members to hold each other accountable.

Supervisor Roark moves to adopt the Rules of Procedure for 2025 as presented. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Supervisor Toth moves to adopt the Code of Ethics and Conduct for 2025 as presented. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Appointments to Community Boards: Chairman Collins recommends each Supervisor remain in their current appointments as each now has one year's experience. He also suggests reviewing the Zoning & Subdivision Ordinances.

STEPS needs a replacement as there is a conflict with a county meeting, but a citizen can serve on that Board.

Vice Chair Norton would like to volunteer as an appointment to the Extension Leadership Council, led by Terry Abston.

Chairman Collins would like to have reports from these Community Boards added to the regular meeting Agenda.

Chairman Collins mentions a new committee for the Courthouse construction issue. Supervisor Ingram and Supervisor Toth would serve on it. Discussion follows on the courthouse location, hiring an architect, a scope of work for the RFP, and grant funding. Gary Elder is signing the court order, and either he or Catherine Douglass will attend a worksession to discuss setting a timeline.

The following committees were set for 2025:

Capital Improvement Committee/Courthouse Complex	Chairman Collins Supervisor Roark
Public Safety/Dispatch	Supervisor Roark Supervisor Toth
Public Safety Radio Communications Committee	Chairman Collins Supervisor Toth
Finance Committee	Vice Chair Norton Supervisor Ingram
Personnel Committee	Vice Chair Norton Supervisor Roark
Ordinance Committee	Chairman Collins Supervisor Roark
Courthouse Revitalization Committee	Supervisor Ingram Supervisor Toth

Gary Elder suggested there be several members for the Revitalization Committee. Administrator Bowen would like to ask Clerk of the Circuit Court Jane Brown and Sheriff Jones. The Board agrees with those suggestions.

To the Health Department moving, Administrator Bowen has an appointment with Dr. Almond to discuss a move. She has stated a move would depend on the effect on her budget.

LRA Campground: Administrator Bowen presents research showing the campground was in place prior to the adoption of the current Zoning Ordinance. According to the referenced Zoning Ordinance sections, a sale would allow the campground to both remain and be eligible for improvements. The attorney should be asked for confirmation on whether the campground could continue if the property is sold.

There are two properties up for sale that should be on the next agenda. As specific properties are considered, they can be discussed in Closed Meeting at worksessions or regular meetings. A public hearing would be held if anything is being sold.

Biannual Tax Payments: A citizen inquired as to why Nottoway does not have this in place. The topic was discussed previously, and citizens are able to voluntarily pay throughout the year. The Board considers hearing citizen input on this topic. The Finance Committee can further discuss this topic as well as pro-rating personal property tax on items owned or sold throughout the year.

School Surplused Property – Town of Crewe: Administrator Bowen informs the Board that there was an issue with the Tax Map number listed on the School's surplus resolution. A correction is needed prior to the transfer from the School to the County, so this property is not eligible for sale by the County at this time.

Also, vandals have created issues at 186 Reservation Road. This property needs to be cleaned up and then put back on the market.

Emergency Services: Buddy Hyde has met with the Sheriff regarding Dispatch. Mr. Hyde suggests creating a nine-person stakeholder committee to guide any needed changes.

January 7, 2025

Supervisor Toth received notice from his selection for STEPS and moves to accept Nathaniel Miller's willingness to serve on the STEPS Board for Nottoway County. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Supervisor Roark suggests citizens serving on a committee could draft a report for inclusion in the Board package.

Courthouse Committee: Administrator Bowen will alert Gary Elder of the Committee members. The next step is to put out an RFP for an architect.

VACo Local Government Day: Administrator Bowen asks for a list of those who plan to attend. He will be scheduling a meeting with Delegate Ware and Senator Mulchi. Topics to discuss with the representatives include locality's losing authority over solar siting and PRJ's VCBR-related costs.

Solar: Discussion on various concerns is on Thursday's worksession agenda, including setbacks, agrivoltaics, percentage cap, agreements with adjacent landowners, and others. Comprehensive Plan language already limits production to no more than that consumed. If agreement is reached, there would then be a public hearing held to amend the Ordinance.

Supervisor Ingram encourages the Board to continue its ongoing work. Supervisor Roark looks forward to another good year moving forward. Vice Chair Norton looks forward to the new year, moving more quickly, and appreciates the confidence placed in her for Vice Chair. Supervisor Toth looks forward to working with each member individually and collectively toward making the County a better place. Chairman Collins thanks the Board for its confidence in electing him Chairman.

Supervisor Roark moves to adjourn with a second provided by Supervisor Ingram. Chairman Collins adjourns the meeting at 2:10 p.m.

Motion to Adjourn

Adjournment

January 16, 2025

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 16TH DAY OF JANUARY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
CATHERINE DOUGLASS, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:03 p.m.

Pastor Steven Snodgrass, Crenshaw United Methodist Church, provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Administrator Bowen would like to amend the agenda to include a Closed Meeting for the sale of LRA property and assets. Supervisor Roark moves to approve the agenda with the amendment. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Approval of the Minutes: Minutes are presented from the regular Board meeting held December 19, 2024. Vice Chair Norton moves to approve the minutes as presented. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins begins the Delegations from the Public with a reminder that the topics should be from tonight's or last month's agenda.

1 – Sonny Abbott: Begins by complimenting the Board for adopting a Code of Ethics. He expresses concern over the restrictions placed on Delegations limiting topics to regular monthly meetings while excluding other meetings of the Board. He asks if rent for the BB&T bank is in the FY25 budget. Administrator Bowen states this will be discussed tonight during New Business.

Chairman Collins begins the first public hearing.

1 – Sale of Public Property

a. Tax Parcel # 52-1-1-I - 225 Butterwood Trail, Blackstone

Supervisor Roark moves to open the public hearing for the sale of Tax Parcel #52-1-1-I, 225 Butterwood Trail, Blackstone. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen notes this parcel was the site of the FDCE fire.

With no one wishing to speak either for or against the sale of this parcel, Supervisor Ingram moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Sale of Public Property

b. Part of Tax Parcel # 43-130 - Dominy Corner Road and Route 40

Supervisor Roark moves to open the public hearing for the sale of Part of Tax Parcel # 43-130, Dominy Corner Road and Route 40. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against the sale of this parcel, Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen explains that the first parcel, approximately twenty-three (23) acres, is the site of an operating farm-to-fuel project, and the business owner would like to expand his operations into the second parcel. The parcels' proximity to the existing railroad spur is ideal for shipping the fuel.

Selling price for tax parcel # 52-1-1-I is \$135,000; selling price for the part of tax parcel # 143-30 is \$130,000. The business owner thinks his expansion will bring with it ten to fifteen jobs. Ms. Douglass believes all criteria have been met for this sale, though deeds and contracts need to be finalized.

With the attorney's assurance that the Board is legally able to sell tonight, Supervisor Roark moves to approve the sale of tax parcel # 52-1-1-I, otherwise known as 225 Butterwood Trail, Blackstone, for the price of \$135,000. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Ingram moves to agree to sell part of tax parcel # 43-130, Dominy Corner Road and Route 40, Blackstone, for the price of \$130,000, approximately 8.4 acres. A second is provided by Supervisor Rorak. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
---------------	-----

D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Not seeing a legal description in tonight's package, Supervisor Toth asks if this land has been surveyed. Ms. Douglass explains that the legal description is part of the hold up with the deeds, but they have been in contact with the surveyor to obtain that. In the event a survey is needed, Supervisor Toth asks who should incur that cost. A consensus is that it should be the purchaser and that it be written into the sales contract as such. The purchaser needs to know he can purchase as he will be applying for grant funding in addition to his loan.

Supervisor Roark moves to authorize County Administrator Bowen to execute all documents as long as legal counsel has authorized all pertinent information in the form of documents pertaining to real estate. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board receives the following Department reports:

1 – Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for December 2024. Aaron French, Assistant Residency Administrator, reports that crews are busy on the Route 46 project which is still on schedule for spring completion. He recently met with the construction manager to discuss the set of plans for the 723/460 R-cut project and has a pre-construction meeting on February 3. Paving contracts for 2025 secondary routes will be advertised next week. Traffic engineers are still looking at the Schutt Road speed study, but they now hold a list of every bus stop on that road to see if signs or site distance improvements are needed. Thanks to the work of Dianna Bryant and Buddy Hyde, mile marker signs are being installed on Highway 460 from Dinwiddie to Prince Edward. Supervisor Ingram thanks VDOT for filling the potholes on Route 49. Supervisor Toth commends VDOT for the great job on snow removal. Mr. French reports that during the two weeks of weather issues, they had no injuries or accidents. Supervisor Roark asks if VDOT could check Sunnyside Road for a shady place that is still icy. Administrator Bowen mentions the current VDOT sign directing traffic to the Voter Registrar's office. Mr. French can help move that sign closer to the new location when the time comes.

2 – Solid Waste: No report provided.

3 – Building Inspection/Erosion & Sediment Control: December 2024 report; 34 building permits issued for \$33,241.16 in permit fees with \$5,518,345.43 in construction value; 16 inspections performed.

4 – Animal Control: December 2024 report; 138 animal control calls; 0 summons issued; 0 convictions; 1 compliance notification issued; 1 dog held over 40 days (in foster care). Included in tonight's package are pictures of donations received in December. Also included are reports showing how many animals came through the shelter in several previous years, ranging from 304 animals in 2020 to 508 animals in 2024.

5 – Piedmont Health District: No report provided by VDH. In the package is a report on the opioid settlement funds distribution and a letter from LOC Family Services. Surrounding counties are coming together to find ways to best use the opioid revenue.

6 – Nottoway County Public Library: Board of Trustees Meeting Packet for January 15, 2025. Nottoway County Public Library System Monthly Report for January 2025; and Board of Trustees Meeting Packet for December 18, 2024. Nottoway County Public Library System Monthly Report for December 2024.

7 – Nottoway County School Board: Dr. Grimes is present and shares how the school makes a determination on opening during a weather event. She commends Mr. Buddy Hyde on his level of communication during the decision-making process.

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for December 2024. Mr. Zody would like the Board to consider raising or instating fees on certain services. A 2232 review, a Comprehensive Plan amendment, and a review of minor subdivisions have no associated fees but should. He will compare fees from surrounding counties. He does not want fees to hinder commercial development in the County. Mr. Zody is asked to bring current and proposed fees to the next worksession.

Mr. Zody has completed the annual reports for the County's Petco grants. He has had two previous submissions awarded to the County. Before the Planning Commission and the Board of Supervisors in February, Mr. Zody has two to three public hearings including a request from Cross Creek Nursery to remove conditions from its previous Special Exception and a review for the new courthouse complex radio tower. He speaks to how often he receives notices from neighboring Brunswick County regarding updates to its Solar Ordinance. Lastly, Mr. Zody spoke with a LoopNet representative to create a marketing brochure for the website, and Nottoway's listing has received 7,577 views in the last ninety days. Chairman Collins encourages Mr. Zody to list all available Pickett Park properties.

10 – Emergency Services: Emergency Services Coordinator's Report for January 2024. Fire & EMS Working Group Planning Meeting Agenda for January 7, 2024. Mr. Hyde reports that several counties came together virtually to discuss GIS maps. He was involved in multiple weather calls, and he thanks VDOT and Public Works for their work. He applied for a \$15,000 no-match state grant for the Incident Reporting System. He received notice of a \$33,581 50/50 grant award for Emergency Medical Dispatch.

Supervisor Roark inquires about an EMS tax and asks for a projection on when hirees will be needed for the fire departments. Discussion follows on the tax and its uses for maintenance and operations. Mr. Hyde will research and report.

Administrator Bowen says that Burkeville is seeking a building permit to expand the firehouse, and he asks the Board to consider waiving the building permit fees. Supervisor Roark moves to waive the building permit fees for the Burkeville Fire Department's expansion project. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

11 – Piedmont Regional Jail Authority: Chairman Collins reports that the jail is taking federal inmates and revenue, as of yesterday, is set to exceed expenses. Also, there is support from DBHDS for additional state funding for VCBR-associated inmates at the jail.

12 – Local Redevelopment Authority: Lease Actions Income Report dated January 15, 2025. Officer's Club Income Report dated January 15, 2025.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Present but nothing to report.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package. Vice Chair Norton points out that the tax collection rate is at 96.37%.

4 – Christy A. Hudson, Commissioner of the Revenue: No report provided.

5 – Leanne Watrous, Commonwealth’s Attorney: Case reports provided in the package.

The Board considers the following unfinished business.

1a – Animal Shelter Update: Administrator Bowen reviews a draft list of CARES and County’s funding responsibilities. Supervisor Ingram notes that CARES met its goal of \$50,000 for the gift match. The architect is to provide a final sketch, and the goal is to advertise for bid the second week of February.

1e – Public Safety Radio Project: Administrator Bowen mentions a mock site photo of the proposed tower in Blackstone that could aid the Planning Commission in approval. Mr. Zody has requested pictures for the Planning Commission’s 2232 review next week.

1f – Supervisor Roark would like to advertise for courthouse tours. Administrator Bowen has arranged with Buckingham for Tuesday, January 28th.

2 – CEDS Committee Appointment: This is a new committee being organized by the CRC. Phil Miskovic has agreed to participate. Administrator Bowen would like to add Gregg Zody as well. The CRC is hoping for three appointments, but he has not secured a third.

Chairman Collins says as part of compliance with the judge’s order, the Board has formed a Courthouse Revitalization Committee comprised of:

Steve Bowen	Supervisor Ingram	Supervisor Toth
Woodson Irby	Jane Brown	Sheriff Jones

Supervisor Roark moves to set the Courthouse Revitalization Committee with the members mentioned. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark makes a motion to add Phil Miskovic and Gregg Zody to the CEDS Committee sponsored by the CRC. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Ingram reports that he has seen a RiverStreet Network vehicle in the County.

Supervisor Roark would like to check on touring the Appomattox Courthouse the same day as Buckingham.

The Board considers the following new business:

1 – BZA Vacancy Recommendation: Gregg Zody informs the Board that Roger Norton resigned his seat on the Board of Zoning Appeals leaving a vacancy. While there is no district requirement, Mr. Norton was from District 1. Supervisor Ingram has spoken with Greg Wolven who is willing to serve. Supervisor Ingram makes a motion to appoint Greg Wolven. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes

R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

2 – Office Relocation Rent Allocation: Administrator Bowen states the rent for the former BB&T bank for the remainder of FY25 totals \$22,500. Having met with Logan Presley, he suggests moving funds from two line items to cover this unbudgeted expense. There is \$13,805 in Capital Outlay line item 4-100-043020-7002 that was budgeted for a second sally port. The judge has indicated this is not necessary. The additional \$8,695 can be pulled from Capital Outlay line item 4-100-043020-7003 that was budgeted for courthouse improvements that are not as pressing now that the Treasurer is moving out of the basement.

Supervisor Toth makes a motion to move those line items to take care of the rent of the former BB&T building for the three offices being relocated there. A second is provided by Supervisor Roark. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Toth clarifies that the rent is being paid from tax dollars, but the owner is providing the electricity. The County benefits further with utilities included in the rent.

3 – RAM Event Allocation: Though this event is separate from PSR, Justine Young presented this request to the Board. It came well after the FY25 budget was adopted, so the funds were not included. All local departments were cut at that time. Administrator Bowen pulled from the Board's discretionary fund to correct a cut to the library budget, and there is money still in that line.

Vice Chair Norton makes a motion that the Board allocate \$2,500 to the RAM Event. A second is provided by Supervisor Roark. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen receives a consensus of the Board that the \$2,500 will come from the Board's discretionary fund line item.

4 – Citizen Appointment to Courthouse Committee: This committee was established earlier in tonight's meeting.

The Board considers the following Consent Items.

1 – December Expenditures – All Funds

2 – Refund Request \$4,359.51

Supervisor Roark moves to accept the recommendations on the Consent Items. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins begins a discussion on page 43 of the Expenditure report regarding Caterpillar Financial Services. He would like to know if any negotiations or savings can be found with these equipment leases. Administrator Bowen reports that three of the four pieces of landfill equipment are on lease. Discussion turns to what equipment may be needed should the landfill be downsized to a transfer station. Administrator Bowen has contacted TRC to again request a cost comparison on landfill options.

Vice Chair Norton asks regarding November's charges for Parker Oil listed as Vehicle Repairs. Sheriff Jones explains that those charges are for gasoline for County vehicles. Every department utilizes the gas pump. The descriptions in the accounting system are often confusing. Parker Oil owns the tank and is the one to fill it.

The following information items are presented in the package:

- 1 – CRC – December 2024 Items of Interest
- 2 – Fort Barfoot MTC Change of Command Ceremony
- 3 – Timber Contract
- 4 – Letter – John M. Boswell, Non-Judicial Sale of Real Estate
- 5 – Dominion Energy – (2) Orders/Notices

Administrator Bowen has a goal for moving the Treasurer and Commissioner of the Revenue, but there is still work ongoing at their new location. He reminds Board members that their Statement of Economic Interest is due the first of February. Appointments are set to meet with Delegate Ware and Senator Mulchi during VACo County Government Day. Budget requests were sent to County departments. The Finance Committee meets January 22nd. Crewe is having a meeting regarding its Revitalization efforts in both February and March.

Administrator Bowen adds that the Commissioner of the Revenue is researching the Fire and EMS taxes. Prince Edward County collects it. It is earmarked for Fire and EMS, and figures will be provided once they are ready.

Vice Chair Norton and Chairman Collins interviewed with Billy Coleburn today to report on the state of the County.

Supervisor Ingram met with the Mayor of Burkeville and Mr. Wolven. They have lost revenue due to the school closing and a factory shutdown, so discussion was had regarding economic development. Supervisor Ingram is pleased with progress on the animal shelter and is encouraged that its location may help Burkeville.

Supervisor Roark would like this Board to complete all large projects before their terms end and asks the members to consider one large loan to fund them all. With that loan, the Board would know its debt service for several decades. Chairman Collins does not like a long amortization, particularly on equipment, but is open to having that discussion.

Supervisor Toth looks forward to this year and the budget. He is encouraged to see citizens from his district getting involved in the community.

Chairman Collins discussed revenues, expenses, and the judge's order for a new courthouse during the interview with Mr. Coleburn. A citizen alerted him to a USDA facilities grant for help with the courthouse, and he has contacted CRC regarding that.

Vice Chair Norton moves that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(3) Discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body, specifically real property located near Fort Barfoot. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

January 16, 2025

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 8:49 p.m.

The Board reconvenes in Open Session at 9:04 p.m.

Supervisor Toth reads the certification announcement:

WHEREAS, the Nottoway County Board of Supervisors has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, § 2.2-3712 (D) of the *Code of Virginia* requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

A roll call vote is taken with responses as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Supervisor Toth makes a motion to accept the high bid from Brown's Forest Products on a tract of timber the County owns at Fort Barfoot of \$197,700 and giving legal rights to Administrator Steve Bowen to sign the contract on behalf of the County pertaining to this sale of timber to be accepted with the terms and conditions set forth in the timber sale prospectus, deed and contract with review of legal counsel. A second is provided by Supervisor Roark. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins notes that Brandon Martin was hired as a consultant to represent the County and handle the timber sales. There will be some additional timber sold throughout the year. He follows best management practices of the State of Virginia Forestry Department.

Supervisor Roark moves to adjourn. A second is provided by Supervisor Toth. Chairman Collins adjourns the meeting at 9:06 p.m.

O. Closed Meeting

I move that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2–3711 (A)(8) Consultation with legal counsel employed or retained by a public body regarding specific legal matters requiring the provision of legal advice by such counsel, specifically relating to matters now pending in County Administration.

Motion to Adjourn

C

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 19TH DAY OF DECEMBER IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FOUR AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: JOHN A. ROARK, CHAIRMAN
WILLIAM J. COLLINS, III, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
DAPHNE V. NORTON
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
N. GARRISON ELDER, COUNTY ATTORNEY

Chairman Roark calls the meeting to order at 7:02 p.m.

Damien Rowe provides the invocation. Chairman Roark leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Administrator Bowen would like to amend the agenda to move the following: Presentations to follow Employee Recognitions, then hear the Department Reports for VDOT and the School Board. Supervisor Ingram moves to approve the agenda with the amendments. A second is provided by Vice Chairman Collins. Following a voice vote, the motion carries as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

Approval of the Minutes: Minutes are presented from the regular Board meeting held February 15, 2024; November 21, 2024; and December 5, 2024. Supervisor Toth moves to approve the minutes as presented. A second is provided by Vice Chairman Collins. Following a voice vote, the motion carries as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

**** Employee Recognitions **** Chairman Roark recognizes the following employees who have reached milestones in their County employment.

Congratulations with recognition and a 5-Year Certificate:

Carl Dagner – Convenience Site Attendant (not present)
Michael Hayes – Convenience Site Attendant (not present)
Arnold Jennings – Convenience Site Attendant (not present)
Barbara Rothgeb – Convenience Site Attendant (in attendance)

Congratulations with recognition and a 20-Year Plaque:

Agnes McCormick – Nottoway County Public Library System (not present)

The Board hears the following presentation:

School Bus Safety: Ricky Rash, a Nottoway County citizen and school bus driver, speaks on safety concerns on his route on Schutt Road. His understanding is that law enforcement would have difficulties setting up with radar and that VDOT has been requested to perform a traffic study. If a speed study is done, it needs to be during the usual bus route times in the morning and afternoon.

The Board receives the following Department reports:

1 –Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for November 2024. Aaron French, Assistant Residency Administrator, reports that Engineering is looking at a traffic study on Schutt Road, and he will check with them to make sure the school buses/stops are being considered. Traffic cams are not permitted in rights-of-way, radar feedback signs are. – The Route 46 bridge is still on schedule for spring completion. The 723/460 R-cut received two acceptable bids and meetings are being scheduled ahead of spring construction. The Darvills roundabout is still on schedule for advertisement in early 2026. Paving is nearing completion as is primary mowing. Shoulder work is ongoing with grading and addition of materials. VDOT is recruiting for a Maintenance Operations Manager position for the Petersburg Residency, and he hopes to have an announcement next month. VDOT worked with Fort Barfoot in the early phases of the Darvills roundabout project and will coordinate with the leaders once the construction stage is nearer.

7 – Nottoway County School Board: Superintendent Grimes thanks Mr. Rash for presenting his concerns. School leadership prioritizes safety and that if you “see something, say something”. Schools and offices will be closed for two weeks after tomorrow. Chairman Roark suggests alerting citizens to schools re-opening after the holidays as is done prior to schools opening after summer break.

The schools have requested a joint budget worksession with the Board of Supervisors on February 18, 2025, at 7:00 p.m. in the mini auditorium.

The Board hears the following presentation:

Remote Area Medical Program: Justine Young, Piedmont Senior Resources, informs the Board of an upcoming RAM event providing dental, vision and medical services on a first-come, first-served basis. All services are free, and follow-up care will be provided. Dr. Maria Almond, VDH, has planned this seven-county event. She is requesting \$2,500 per County to help fund it. The event that includes Nottoway will be held March 28-29, 2025, at the Cumberland County High School. They also need volunteers to assist with parking, etc. Information will be sent out after the holidays.

With no one to speak during Delegations from the Public, Chairman Roark begins the first public hearing.

1 – Landfill Solid Waste Management Plan: Administrator Bowen explains that DEQ requires the Board hold a public hearing to accept the major amendment to the Nottoway County Solid Waste Management Plan. This plan includes the recycling program and the County’s requirements.

Vice Chairman Collins moves to open the public hearing for the acceptance of a major amendment to the Nottoway County Solid Waste Management Plan. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against the acceptance of a major amendment to the Nottoway County Solid Waste Management Plan, Vice Chairman Collins moves to close the Public Hearing. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

Vice Chairman Collins moves to approve the Resolution for Acceptance of a Major Amendment to the Nottoway County Solid Waste Management Plan. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

2 – Solar: Mr. Zody introduces the four components of solar being heard tonight: the Ordinance, Revenue Sharing, Planning & Zoning Fees, and Building Fees. Each should be heard on its own and have its own vote.

Ordinance: Mr. Zody reviews changes to the originally drafted ordinance made by the Planning Commission and Board. These changes include the definitions of Buffer and Setback, how many acres allowed under panel, exceptions due to topography, gravel on interior roads, 800' setbacks, and surface water buffer. Staff advertised this under the repealed Zoning Ordinance Article 4, Division 19.

Revenue Share: Mr. Zody reads portions of the proposed Ordinance. This includes adoption of an ordinance to assess a revenue share of up to \$1,400.00 per megawatt per state Code Section 58.1-2636.

Planning & Zoning Fees: Mr. Zody explains this allows the County to charge "\$1,500 in addition to the base \$300 Special Exception Permit application fee".

Building Fees: Mr. Zody explains this amends the Building Code permit fee schedule as advertised in relation to solar energy facilities.

Chairman Roark confirms with Mr. Elder that there is a need for four public hearings and four votes if the Board chooses to vote. Administrator Bowen notes that Mr. Zody has introduced all four items, but the first public hearing is for the Solar Ordinance.

Vice Chairman Collins notes that the Planning & Zoning Fee Ordinance reads "Small and Medium Scale Solar Energy" but could simply read "Permit for Solar Energy". Supervisor Ingram would be agreeable to the public hearings for all four items but would suggest tabling all but the Ordinance.

a. Solar Ordinance: Vice Chairman Collins moves to open the Public Hearing on the proposed Solar Ordinance. A second is provided by Supervisor Norton. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

Chairman Roark is limiting the public hearing speakers to ninety (90) seconds per speaker, per item. Each Board member agrees.

1 – William Berry: Supports the introduction of solar to Nottoway as demand for power is rising. While the Board is considering how to bring in solar, he is concerned with what the County will look like years from now, believing developers will not return the land to original.

2 – Bill Outlaw: As the 13th Amendment abolished slavery, his concern is that Chinese slave labor is the major producer of solar panels.

3 – Paul Cozens: Project Manager, CEP Solar, thanks the Board for its efforts. Solar allows landowners to earn passive income and keep their land in their family. While their

projects would fit within the parameters of the draft Ordinance, he urges the Board not to pass it until setbacks are reconsidered.

4 – Tito Anyanwu: Ampliform. His company is developing a project on Rocky Ford. There is a responsible way to adopt an ordinance, and there is much needed revenue at stake.

5 – Jerry Spence: For him, this is not about money but rather Nottoway's resources, and they are priceless.

6 – Dennis Tatum: Urges the Board to consider adoption. He has a potential project and wants to help the citizens by bringing in revenue.

7 – Mike Mason: The citizens do not want it. Northern Virginia data centers are driving solar. Passage of House Bill 636 will usurp Southside Virginia's authority unless Nottoway has something in place.

8 – Alexander Hamilton: Supports the draft Ordinance to preserve the character of Nottoway County.

9 – Woodson Irby: He does not support the draft Ordinance. The County's need to dip into reserves to balance the FY25 budget is concerning. He is concerned the County has many capital projects and no revenue stream.

10 – Ricky Rash: He has concerns that if Nottoway does not act, the General Assembly may take away the County's rights in the upcoming session. He urges the Board to pass the Ordinance and amend it later if necessary. He attended a recent presentation on energy; Dominion Energy and demand for Northern Virginia data centers has caused him concern.

11 – Robert Hawthorne: Scolds the Board for its 90-second limit. The draft Ordinance is basically a ban on solar. It will not seem reasonable to the State.

12 – Shawn Haney: Neither for nor against solar. He would like the Board to have a sensible and flexible plan that will work with the State while protecting Nottoway's citizens.

Supervisor Toth moves to close the Public Hearing for the Solar Ordinance. A second is provided by Vice Chairman Collins. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

Supervisor Ingram moves to adopt the Solar Ordinance as presented tonight. A second is provided by Vice Chairman Collins. Supervisor Toth would like to table this vote until several issues can be resolved, such as 800-foot setbacks, vegetative buffers, and add a 4% cap. Vice Chairman Collins is agreeable to fifty-acre projects but disagrees with 800-foot setbacks. Supervisor Norton says only 13% of Nottoway County's land is usable for solar and reads portions of a proposed legislative bill. After further discussion, Chairman Roark calls for a roll call vote on adoption of the Solar Ordinance which passed as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	No

b. Planning & Zoning Fees: Supervisor Toth moves to open the Public Hearing on the proposed Solar Planning & Zoning Fees. A second is provided by Vice Chairman Collins. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
-------------	-----

W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

With no one to speak for or against the fees, Vice Chairman Collins moves to close the Public Hearing for the Planning & Zoning Fees. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

Supervisor Ingram would like to table the fees to allow time for further review. Administrator Bowen receives confirmation from Mr. Zody that should an application be received soon there would only be the standard Special Exception fee for said application.

Vice Chairman Collins moves to approve the Planning & Zoning Fees. A second is provided by Supervisor Norton. With a roll call vote, the motion to approve the fees passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

c. Building Fees: Supervisor Toth moves to open the Public Hearing on the proposed Solar Building Fees. A second is provided by Vice Chairman Collins. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

With no one to speak for or against the fees, Vice Chairman Collins moves to close the Public Hearing for the Building Fees. A second is provided by Supervisor Norton. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

Presented is what building fees would be charged should a solar energy facility application be received. Tabling the matter or failing to pass the fee ordinance would not hinder or prohibit the processing of an application. There would simply be no fee received for it.

d. Revenue Share: Supervisor Toth moves to open the Public Hearing on the proposed Solar Revenue Share Ordinance. A second is provided by Vice Chairman Collins. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

With no one to speak for or against the Revenue Share Ordinance, Vice Chairman Collins moves to close the Public Hearing for the Revenue Share Ordinance. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

c. Building Fees: Administrator Bowen clarifies that the building fees as related to solar are for the electrical permits. Again, if someone applies, there are currently no fees in place for the permit. Vice Chairman Collins moves to approve the Building Fees. A second is provided by Supervisor Norton. With a voice vote, the motion to approve the fees passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

It is mentioned that fees can be amended later with the concern being they may be too low.

d. Revenue Share: Supervisor Norton moves to approve the Revenue Share Ordinance. A second is provided by Vice Chairman Collins. With a voice vote, the motion to approve the Revenue Share Ordinance passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

The Board receives the following Department reports:

2 – Solid Waste: November 2024 Nottoway County Sanitary Landfill waste report: an average of 51.09 tons of waste per day received.

Administrator Bowen contacted Mike Lawless of TRC for a cost comparison of landfill options, and the Board should have that information by February. There is an issue with the retaining pond being too low which factors into the cost comparison. Also, tonight's presentations to the employees marks the five-year anniversary of the Convenience Centers. He commends those employees for the work they do.

3 – Building Inspection/Erosion & Sediment Control: November 2024 report; 18 building permits issued for \$2,351.61 in permit fees with \$262,187.62 in construction value; 134 inspections performed.

4 – Animal Control: November 2024 report; 142 animal control calls; 0 summons issued; 0 dismissals; 3 compliance notifications issued; 2 dogs held over 40 days (in foster care).

5 – Piedmont Health District: No report provided.

6 – Nottoway County Public Library: No report provided.

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for November 2024. Mr. Zody speaks to holding a 15.2-2232 Review for public utilities. This would be done for solar projects, but the Planning Commission will be holding one in

January regarding a cell tower for the public safety radio communications system. The Planning Commission will send the results to the Board of Supervisors.

10 – Emergency Services: Emergency Services Coordinator’s Report for December 2024. Fire & EMS Working Group Planning Meeting Agenda for December 3, 2024. Mr. Hyde is working towards the high school offering a firefighter class. GIS mapping is progressing well and will benefit dispatch. The mass casualty drill last week at Fort Barfoot went well, simulating a downed helicopter with five injuries and one death. The state inspector came last week to inspect the Burn Building; the inspection will allow for grant applications to move forward. He then presents Four for Life, the pass-through funding for disbursement to the County’s licensed EMS agencies.

Supervisor Ingram moves to approve the consent request as presented for the authorization to distribute the Virginia Department of Health – Office of EMS “Four for Life” funding, received by the County on October 2, 2024, to the four state licensed FMS agencies in Nottoway County. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

11 – Piedmont Regional Jail Authority: Vice Chairman Collins reports on the budget shortfall due to VCBR residents. The County hopes to recoup some of the cost through a state budget amendment. The Superintendent and Nottoway’s Commonwealth’s Attorney met, and there was agreement to make an effort to get VCBR offenders heard or taken to trial as soon as possible to reduce the number of days Nottoway is charged for those from VCBR. Also, it appears that when the VCBR residents are transferred to the jail, their medications are not transferred, meaning Nottoway citizens pay for duplicate medications. The Board would like to find ways to track the length of stays of Nottoway citizens and those from VCBR.

The Farmville newspaper reported that Longwood University and Hampden-Sydney are putting money towards the Prince Edward radio system. Discussion follows on asking the state to pay towards the Nottoway radio system since the state facilities are aided by Nottoway’s 911 center.

12 – Local Redevelopment Authority: Lease Actions Income Report dated December 9, 2024. Officer’s Club Income Report dated December 9, 2024. Administrator Bowen reviews the timber contract included in tonight’s package. Bids should be coming in by early 2025. Also, he reports that the LRA campground is zoned General Business which does not allow campgrounds. Mr. Zody and Mr. Elder will bring a plan of action to the next worksession. Fort Barfoot would be alerted of any Special Exception.

Brian Welch provides information regarding the Prince Edward radio system. He states that Prince Edward receives money from Longwood University and Hampden-Sydney because they are direct users of the radio system. State facilities inside Nottoway County are not direct users.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Reports statistics for 2024. Dispatch has logged 25,992 calls to date. Deputies have made over 590 arrests and issued 481 traffic citations. He provides the number of court days, emergency custody orders, and detention orders. He mentions community events, including the grant-funded Summer Camp with 41 attendees. Twelve children will be taken Christmas shopping because of his department’s fundraising through No Shave November and the Softball Tournament. Sheriff Jones commends and thanks his deputies, dispatchers, and admin staff for their willingness to make these events a success.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package.

4 – Christy A. Hudson, Commissioner of the Revenue: Erroneous assessment report provided in tonight's package.

5 – Leanne Watrous, Commonwealth's Attorney: Case reports provided in the package. Ms. Watrous reports she had a good meeting with Superintendent Townsend at Piedmont Regional Jail but believes tracking of Nottoway stays would be more easily done by the jail. She has reviewed jail reports to determine each offender's stage in the process. Should offenders be considered Prince Edward residents when new charges are incurred during a jail stay could be discussed with PRJA. The Board asks her to consider ways of helping the County guard against excess costs.

The Board considers the following unfinished business.

Administrator Bowen acknowledges the Board's request to keep broadband, landfill, and dispatching under Unfinished Business. Having had those discussions just last week, he will begin next month having those on the agenda.

1 – Animal Shelter Update: Administrator Bowen informs the Board of a meeting with CARES and the architect that will be held January 13th. CARES had an anonymous donor pay the \$5,500 fee for the architect to design an inviting entrance which will likely cost \$54,000 to build. The full shelter project should be out for bid in February. Supervisor Ingram mentions several fundraising ideas to help pay for specific items in the shelter, such as adding plaques with donor names to gifted items or selling personalized bricks for the sidewalk.

2 – Public Safety Radio Project: Administrator Bowen reports that the first payment has been made on the public safety radio system. There are many steps taken in the payment process.

There is a need for the addition of a radio tower in the Town of Blackstone to ensure good line of sight between towers. To accomplish this, the Board should approve the presented MOA between the County and the Town. Vice Chairman Collins moves to accept the Memorandum of Agreement between the Town of Blackstone and the County of Nottoway regarding the tower in the Blackstone Police Department parking lot pending review by the County Attorney. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

3 – Commendation Committee Appointments: Chairman Roark would like to table this until January.

With tonight's 4-1 vote on the Solar Ordinance, Administrator Bowen asks a consensus for holding a dedicated worksession on solar. Setbacks were mentioned by Board members tonight as still being an issue. After the Board members come to an agreement, Administrator Bowen will consult with Mr. Elder as to next steps. Topics to discuss include setbacks, current fee schedules from adjacent counties, a cap on acreage, vegetative buffers, third-party environmentalist paid by the developer, agrivoltaics, and others. If the members would e-mail concerns to Administrator Bowen, specifics could be researched for productive discussion. The January worksession will be dedicated to solar.

4 – School Resource Officer Grant: Administrator Bowen would like a consensus of the Board on the County supporting the cost of a sixth SRO position. The school is not willing to pick up this new position, but the Sheriff's office needs direction for this grant. The Sheriff will apply again for this grant. Any vehicle for an SRO must be retrofitted because the SRO needs the resources available for any incident. With each school staffed with an SRO and the County's portion not budgeted in FY 2025, the Board chooses to table the topic until funding is sure.

5 – ARPA Funds – STEPS: Administrator Bowen has received an update from Sharon Harrup that this project will be moving forward. The previous Board had earmarked \$75,000 of ARPA funds to the STEPS project which stands in need of a formal vote.

Vice Chairman Collins moves to authorize the County Administrator to give \$75,000 of ARPA funds to STEPS for its homeless shelter project. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

The Board considers the following new business:

1 – Courthouse Committee Appointment: Chairman Roark, with the Sheriff present, addresses the possibility of Deputies writing tickets under the County Code to allow the paid fines to stay with the County. Sheriff explains that in years past when that was in practice, the County was responsible for any court-appointed attorney which cost the County more than the fine recovered. The Courthouse Committee could be more than infrastructure but could look for revenue as well.

Vice Chairman Collins reads from a list of last year's committees and that these will be discussed at the upcoming organizational meeting, January 7th at noon. He would consider keeping the appointments the same now that the Supervisors have one year of experience on each committee. There is a conflict for the Board appointment with the regular STEPS meetings.

Bill Outlaw is given time to speak and expresses disgust with the ninety-second speaking time limit that was instituted during tonight's public hearing.

2 – Subdivision Approval: A subdivision has been created on Lewiston Plank Road, zoned Conservation, and the final plat is before the Board for approval. It has been approved by the Health Department and VDOT, and it has been reviewed by the County Attorney who states that it appears to meet requirements.

Supervisor Toth moves to accept the plat as presented. Vice Chairman Collins provides a second. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

3 – Prince Edward Boundary Line: Prince Edward County's Board voted to accept the boundary survey by Hurt & Proffit, dated May 10, 2024. The County Attorney has prepared a resolution for this Board stating it has reviewed and approved the plat. Each County will record the plat in its own Clerk's office. Commissioner Hudson has reviewed the survey results and stated that Nottoway County gained land.

Supervisor Toth moves to approve the resolution as presented, pertaining to the survey work on the Prince Edward/Nottoway County line by Hurt & Proffit. A second is provided by Vice Chairman Collins. Following a voice vote, the motion passes as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

4 – CEDS Committee: Administrator Bowen presents a new committee being formed by the CRC. The CRC is looking for three appointments from each County to the new Comprehensive Economic Development Strategy Committee. Phil Miskovic has agreed to be one of the three for Nottoway. Administrator Bowen would like the Board to advise on two more appointees. Chairman Roark would like to keep this item on next month's agenda.

As the meeting has reached the three-hour mark, Chairman Roark polls each member to ask if the meeting should continue. The Board members respond as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

The Board takes a recess and returns at 10:11 p.m.

The Board considers the following Consent Items.

1 – November Expenditures – All Funds

Vice Chairman Collins moves to approve the Consent Items as presented. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

The following information items are presented in the package:

1 – CRC – November 2024 Items of Interest

2 – Crossroads Patient Report – October 2024

3 – Nottoway County Electoral Board Appointment

4 – Erroneous Assessment Refund

5 – VDOT Right of Way Agreement Acceptance Letter

6 – Synagro – September Report for Land Application

7 – Dominion Energy – (7) Various Orders and Notices (full documents available in County Administration)

8 – Quarterly FOIA Request List

Administrator Bowen notes T. J. Oliver has been appointed by the Judge to serve on the Electoral Board as shown in item L-3 Electoral Board Appointment.

Before beginning his report, Administrator Bowen asks the Board to amend the Closed Session motion to include the sale of property. Chairman Roark confirms with the Attorney that the Board has the authority to amend the agenda to include the sale of property. Vice Chairman Collins moves to amend the agenda to include the sale of real estate in the Closed Session. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes

G. G. Toth Yes

Mr. Elder provides an explanation for the resolutions presented tonight regarding the sale of the Bowling Alley and of 186 Reservation Road. When the Board authorizes a sale, a vote is needed to approve the sale, but a vote is also needed to approve the execution of the sale documents. Mr. Elder has prepared and provided the Board with a resolution for each property that authorizes Administrator Bowen to take all legal measures necessary to finalize the sale.

Vice Chairman Collins moves to approve the two documents giving the County Administrator the authority to sign on behalf of the County for the sale of 4 acres, tax map number 51-94, the Bowling Alley, and 4.48 acres, tax map number 43-131, 186 Reservation Road. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

Administrator Bowen reports that the Bright system has been moved to the Administration building so it will be on the generator. He had a conversation with the Commonwealth's Attorney and the Treasurer to discuss shared services, whether sharing a Victim Witness Director with another County or a new Treasurer's employee also performing Accounts Payable in Administration. The Board is complimentary of this idea.

RiverStreet Networks has agreed to the contract amendment that gives the County some assurance it will meet definite goals by certain dates. Vice Chairman Collins moves to authorize the County Administrator to sign the amended contract with RiverStreet with a timeline and promise this County will not lose money with RiverStreet pending legal review. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

Administrator Bowen would like the Board to consider adopting a Code of Ethics with the Rules of Procedure whenever Mr. Elder can have that ready. Statewide there is an issue with Board members not attending meetings and that topic should be included.

Vice Chairman Collins speaks to the judge's order for a new courthouse. He would like to complete the task with the most economic benefit to the citizens, wherever it is located. Vice Chairman Collins prefers it remain at the Complex.

Supervisor Ingram also would like to keep the courts at the Complex and keep the project as economical as possible.

Supervisor Norton attended the SVCC meeting at the Blackstone Occupational Center. SVCC is expanding the lineman program and adding solar education. This expansion has created a need for construction of a new building whose cost will be partially funded by Nottoway.

Supervisor Toth voted his heart on solar but believes the Ordinance needs more work.

To the topic of a new courthouse, Chairman Roark suggests moving forward with drafting a description of the work for an engineer or architect. The 90-second time limit on public comments was agreed to by all Board members. He appreciates the Board's trust in him as Chairman over the past eighteen months.

Vice Chairman Collins moves that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(8) Consultation with legal counsel employed or retained by a public body regarding specific legal matters requiring the provision of legal advice by such counsel, specifically relating to matters now pending in County Administration and a potential real estate sale. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

J. A. Roark	Yes
W. J. Collins	Yes
R. H. Ingram	Yes
D. V. Norton	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 10:35 p.m.

The Board reconvenes in Open Session at 11:06 p.m.

Supervisor Norton reads the certification announcement:

WHEREAS, the Nottoway County Board of Supervisors has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, § 2.2-3712 (D) of the *Code of Virginia* requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

Supervisor Ingram provides a second. A roll call vote is taken with responses as follows:

J. A. Roark	I Certify
W. J. Collins	I Certify
R. H. Ingram	I Certify
D. V. Norton	I Certify
G. G. Toth	I Certify

Chairman Roark would like a consensus of the Board to give Mr. Elder the authority to execute the resolution presented regarding the disrepair of the courthouse system. Each of the five members agrees in turn.

Supervisor Toth moves to adjourn with a second provided by Supervisor Ingram. Chairman Roark adjourns the meeting at 11:08 p.m.

Letter of Intent

The Nottoway County Virginia Local Redevelopment Authority located at 3951 Military Road, Pickett Park, Blackstone, VA 23824 / Fort Barfoot, offers this Letter of Intent to sell land, buildings, and structures. Any formal negotiations will be made through Nottoway County Board of Supervisors in conjunction with The Nottoway County Local Redevelopment Authority. The Property to be offered for sale is approximately 8.4 acres at the intersection of Dominy Corner Rd. and Rt. 40. Nottoway County Local Redevelopment Authority and Nottoway County Board of Supervisors has the expressed legal authorization to offer any designated and owned land, buildings, and property for sale or trade of land and acquisitions between parties.

The agreed upon sale price is \$130,000K and would be an AS IS sale

The buyer is Mr. Fred Circle, ~~FDC Enterprises~~ P.O. Box 189 New Albany, Ohio 43054

~~FDC HOLDINGS LLC~~

Please feel free to contact me with any further questions.

Please publish this so it will appear in the newspaper the weeks of January 1, 2025, and January 8, 2025.

The public is hereby notified that the Nottoway County Board of Supervisors will conduct the following public hearings on January 16, 2025, at 7:00 p.m. in the General District Courthouse, 328 W. Courthouse Road, Nottoway, to receive public comments and to consider the following:

The proposed sale of approximately twenty-three (23) acres of real property, pursuant to Section 15.2-1800 of the *Code of Virginia*, known as 225 Butterwood Trail, Blackstone, Virginia, and designated as Tax Parcel # 52-1-1-I.

The proposed sale of approximately eight and four tenths (8.4) acres of real property, pursuant to Section 15.2-1800 of the *Code of Virginia*, near the intersection of Dominy Corner Road and Route 40, Blackstone, Virginia, and designated as part of Tax Parcel # 43-130.

All persons desiring to be heard on these matters are urged to be present on the date and hour aforementioned. It is the intention of the Nottoway County Board of Supervisors to comply with the Americans with Disabilities Act. Should you need special accommodations, please contact the County Administration Office prior to 5:00 p.m. on Friday, January 10, 2025.

December 2, 2024

Nottoway County Board of Supervisors
County Administrator/ Mr. Ted Costin
P.O. Box 92
Nottoway, Virginia 23955

Dear Board of Supervisors and Mr. Costin:

I am writing to request a contribution of \$70,000 from the Opioid Abatement Authority, or an alternative contribution of your choosing to enhance LOC Family Services' (LOCFS) efforts in reducing opioid use and misuse within Nottoway County. As a dedicated Community Based Reentry Service provider within Planning District 14, our six-year record speaks volumes—we have successfully empowered individuals to regain stability and reclaim their roles as productive members of our community.

Consider for a moment that currently 77% of the returning citizens LOCFS serve deal with substance misuse or co-occurring disorders. This reality demands urgent action, and your contribution can significantly impact our efforts to combat this pressing public health crisis. LOCFS aims to broaden our comprehensive support network for struggling individuals, focusing on three key areas:

Expanding Case Management: We will enhance our recovery support by facilitating access to residential and outpatient treatment services, providing follow-up care, and implementing thorough reporting systems.

Hosting Community Outreach Events: By organizing at least two peer-led events in Nottoway in 2025, we will disseminate crucial information and success stories, fostering a supportive environment for those embarking on their recovery journey.

Enhancing Recovery Support Services: LOCFS plan to reinforce our assistance for individuals in recovery by helping them secure vital records, driver's education, and support to meet their basic needs.

Our history of grant management and program implementation demonstrates our capability to utilize funds effectively. For instance, our Changing Lanes Project, funded by the Department of Justice (\$500,000), generated a notable reduction in recidivism, evidenced by 49 participants avoiding re-incarceration within a year of follow-up. Our recent partnerships, such as the FLIPPS Accelerated Clean Energy Reentry Program (\$1.9 million), further affirm our commitment to fostering economic opportunities and meaningful community integration.

Moreover, LOCFS has successfully navigated partnerships with various local, state, and federal

LOC FAMILY SERVICES
P.O. Box 37
FARMVILLE VA 23901
PHONE:434-248-0568

organizations. Our collaborations span the Virginia Department of Health, Piedmont Regional Jail, and multiple community stakeholders, enhancing our outreach and service-delivery capacities. This network and your contribution will significantly increase the effectiveness of our programs aimed at reducing opioid misuse and prevention.

The contribution of \$70,000 will directly enable LOCFS to execute these impactful strategies, promoting healthier futures for individuals and families in Nottoway County. Together, we can drive meaningful change and uplift our community in this time of opioid crisis.

I would be grateful for the opportunity to discuss this further and answer any questions you have. Thank you for considering this essential contribution; together, we can make a profound difference.

Sincerely,

Shelley Mays-Couch, LCSW, CSOTP, NLP

Library System Monthly Report

To: Members of the Nottoway County Board of Supervisors
From: Jacqueline Zatawski, Public Library System Director
Date: December, 2024

The following summarizes the activities and projects that have taken place since I last provided a report mid-November.

- On November 26, I met with Ranger Davis about providing activities at Twin Lakes' Crafting Hours on Dec 8 and Dec 22. We also discussed providing a mystery "kit" (like our "break in bags") to be used in a Ranger-led geocaching program.
- On November 29, we distributed 80 "break in bags" at the Grand Illumination. Recipients are encouraged to solve the mystery and return to the library with their solution to receive a small prize. Additional bags were given out December 7 after the Burkeville parade. Twenty-eight bags were later given to Lauren Watkins for distribution, and excess bags were shared with the Charlotte and Lunenburg Directors.
- I attended the regional library directors' meeting in Buckingham on Dec 5. The next one will be held in Nottoway.
- Due to a schedule conflict with the Buckingham meeting, I was unable to attend a webinar brought to my attention by Gregg Zody (Libraries as Community Building Spaces), but he shared his notes with me. The topic was Libraries as Community Building Spaces.
- Work on the Bibliostat report continues and must be completed by January 17. I am still waiting for the Common Government Funds report from Burkeville.
- I have continued to work toward our migration from TLC to Bibliostat and staff has worked to become as comfortable as possible with the new system. The migration is scheduled to take place the night of Wednesday, December 18.
- We have completed the action items in Section D of the SLI certification program and we are halfway through Section E. Overall, we have completed 34% of the action items required for certification.

In addition to the above, the usual tasks regarding deposits and invoices, staff schedules and payroll were completed, as were promotional activities such as creating social media posts, newsletters, calendars, and other printed materials. I'm also continuing work on the succession binder and have been supervising two individuals performing community service.

Acting as the primary contact for the Imagination Library, I continue to confirm addresses of and approve new registrants. As of December 3, there are 258 participants and 111 children have "graduated".

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *qz*

SUBJECT: Planning and Economic Development Monthly Update – December 2024

DATE: January 9, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances. Please note these discussions may consist of follow-up via email or phone at least four times or more after the initial meeting and before applying a special exception or rezoning.
2. The Planning Commission did not hold any public hearings in December.
3. The Board of Supervisors adopted the solar ordinance and related fee schedules (including the siting agreement) on December 19th. Solar developers can now apply for a special exception request for solar development in permitted districts
4. Participated in a Zoom meeting for planning software (Placer.ai) on December 4th.
5. Participated in a webinar regarding Libraries as Community Building Spaces on December 5th.
6. Participated in RSDC zoom meeting on December 17th regarding solar legislation and the upcoming General Assembly session.
7. Staff is processing multiple applications at this time: 1) Special Exception Request to remove a condition for a duplex; 2) 15.2 -2232 review for the public radio tower (both will be heard by the PC on January 21, 2025. The duplex case will be heard at the BOS' February meeting. Other cases for both the PC and BOS hearings in February include the

Radio Tower special exception request and a special exception request for placing a manufactured home on CCC Road.

Economic Development

1. Attending WPPDC East VATI Management Team Zoom Meeting held on December 3rd. VDOT permits have been issued, and most of the design work is nearly completed. The County signed the third amendment agreement with RiverStreet and a letter of support for the BEAD initiative to expand broadband availability.
2. Hosted a Zoom meeting with Luck Stone on December 10th regarding solar updates and the company's due diligence for their Crewe operation.
3. Participated in CRC's Project Management Team of the DHCD Regional Broadband group on December 16th.
4. Staff continues to work on a marketing brochure for County-owned property at Pickett Park and Fort Barfoot as time allows, including infrastructure availability and distance to interstates and ports, etc. Staff will work with GIS consultant to link all County-owned property inside and outside Fort Barfoot; the brochure will be linked within the LoopNet listing and VEDP's Industrial Site database.
5. Staff received several inquiries regarding the Ft. Pickett property through the LoopNet subscription, mostly suggesting marketing individual lots instead of the entirety of Tax Map # 43-130.

DRAFT - 1/8/2025

FUNDING RESPONSIBILITY FOR NEW NOTTOWAY COUNTY ANIMAL SHELTER

The purpose of the following is to clarify the areas of shared responsibility for funding the animal shelter building and the features/furnishings necessary for its operation.

- The County is responsible for construction of the animal shelter building that will be state code compliant and includes all parts essential to shelter operation.
- CARES will fund features/furnishings that are necessary to operate the shelter but beyond what the County will fund.
- Shelter features or parts not funded by the County or CARES will be funded through the solicitation of donations or grants.

FUNDING RESPONSIBILITY FOR SPECIFIC FEATURES

COUNTY

Interior - Animal Areas

Cats

- Stainless steel cages

Dogs

DONATIONS (in kind or monetary). (As needed)

- Fencing for exercise yard
- Landscaping
- Gravel for Parking area
- Generator

Date: January 1, 2025

Project Name: Nottoway County Public Safety Communications System (NPSCS)

Subject: Project Status Report

Tasks completed in December:

1. Correspondence and assistance with COPS Grants
2. Correspondence and assistance with invoice payments process
3. Discussion on proposed monopole
4. JVC provided site exhibits for review
5. Correspondence and quote for school radios
6. Correspondence and quote for fifth channel
7. Discussions on location of Blackstone Pole
8. Provided MOA for Blackstone/County
9. Tower Mapping for Blackstone Water Tower and Kenston Forest Sites completed
10. Tower Inspections for Blackstone Water Tower, Kenston Forest, Southside Electric sites completed
11. Microwave Path Survey Report and survey reports per site completed

Postings to SharePoint in December:

1. Project Schedule
2. Action Item List
3. Project Status Report
4. Site Exhibits
5. Project Review Meeting Recording
6. Tower Mapping for Blackstone Water Tower and Kenston Forest Sites
7. Tower Inspections for Blackstone Water Tower, Kenston Forest, Southside Electric sites
8. Microwave Path Survey Report and survey reports per site

Tasks in progress:

1. Review and approval of site exhibits
2. Tower Mapping
3. Microwave FCC Coordination
4. Microwave Hop from Blackstone PD to Blackstone Water Tower
5. Grounding Plan

6. Tower Structural Analysis (SAs)
7. Review of Microwave Path Profile Reports
8. Review Tower Mapping Reports
9. Review Feasibility Study
10. Assist with Grant funding for Nottoway Schools Radios
11. Detailed Design Documents from JVCK to review

Future Meetings:

1. Project Review Meeting January 9
2. Detailed Design Review (DDR) Meeting - April

Future Deliverables:

1. Microwave Path Survey Report
2. Structural Analysis Reports
3. Tower Mapping Report
4. DDR Package

Subject: CEDS Committee Group - Input Needed

Good morning all,

The CRC is in the process of putting together a Comprehensive Economic Development Strategy (CEDS) Committee. This regional stakeholder group plays an active role in the development and execution of the CEDS plan based on the challenges and strengths in the region. The Committee will meet regularly throughout the next year to create a SWOT Analysis, create a vision for the region, set goals, and propose projects and strategies. The goals developed within this plan can be used for potential future grant opportunities for EDA funded projects, therefore the stakeholders chosen for this committee is a very important step as we move forward.

As you consider CEDS committee members, this plan requires representation from:

- each County (can be County staff, Planning Commission, EDA/IDA/LRA members, BOS member)
 - Top Sector employers within your County
 - Business Owners
 - Chambers/Downtown Partnerships
-
- Non-profits
-
- Labor organizations

We will be reaching out to our three institutions of higher education to be a part of this committee as well.

Please let me know if you have any questions!

Thanks!

Lauren Jones Pugh

Subject: Re: CEDS Committee Group - Input Needed

Good Afternoon all,

I hope you all had a great Thanksgiving holiday. I was just sending a friendly reminder that I am still in need of at least three names from each County for the CEDS Committee. Please send me these names by December 9th.

Qualifications

Per §15.2-2308

- Every locality that has enacted or enacts a zoning ordinance pursuant to this chapter or prior enabling laws shall establish a board of zoning appeals that:
 - shall consist of either five or seven residents of the locality, or in a town with a population of 3,500 or less, either three, five, or seven residents of the locality,
 - appointed by the circuit court for the locality.
- Terms of office shall be for five years each.
- Original appointments shall be made for such terms that the term of one member shall expire each year.
 - The secretary of the board shall notify the court at least 30 days in advance of the expiration of any term of office and shall also notify the court promptly if any vacancy occurs.
 - Appointments to fill vacancies shall be only for the unexpired portion of the term.
 - Members may be reappointed to succeed themselves.
- Members of the board shall hold no other public office in the locality, except that one may be a member of the local planning commission, any member may be appointed to serve as an officer of election as defined in § 24.2-101, and any elected official of an incorporated town may serve on the board of the county in which the member also resides.

OFFICE LEASE

THIS LEASE is entered into on the 24th day of October, 2024 between Merben Properties, LLC (Landlord) and Nottoway County (Tenant).

DESCRIPTION OF PREMISES

Landlord leases to Tenant the building located at 200 South Main Street situated in the County of Nottoway, Commonwealth of Virginia, known and described as **200 South Main Street, Blackstone, VA 23824 (the "Premises")**.

TERM

This Lease will be for the term of five (5) years, commencing on February 1, 2025 and ending on January 31, 2030 at 12:00 midnight.

TERMS AND CONDITIONS

Section 1: Rental

A. Annual Rent

All annual rent is due upon the execution of this Lease, but it is divided into monthly installments for the convenience of the parties. Tenant shall pay to Landlord without notice or demand and without offset or reduction, rental as follows:

<u>Lease Term</u>	<u>Rent total</u>	<u>Monthly Rent</u>
February 1, 2025 – January 31, 2030	(\$54,000 X 5 years) \$270,000.00	\$4,500.00

Payment shall be made in equal monthly installments, in advance, on the first day of each month during said term. The rent shall be paid at the office of Horner and Newell, Inc. REALTORS ("Agent") or to such other address as the Landlord may direct in accordance with Section 19 below.

B. Commencement

Tenant shall occupy the premises on February 1, 2025 and will pay \$4,500.00 for the month of February and all other terms and conditions of this Lease shall apply beginning February 1, 2025.

C. Past Due Rents

Tenant recognizes and acknowledges that if rental payments are not received when due, Landlord will suffer damages and Tenant agrees that a late charge equal to ten percent (10%) of the basic monthly rent may be assessed by the Landlord as additional rent if Tenant shall fail to pay any rents by the 5th of each month when due and payable. Landlord has the right to require that rental payments be made by certified or cashier's check if Tenant fails to pay the rental payments in a timely manner three (3) times in any calendar year.

Section 2: Assignment and Subletting

Tenant covenants it will not assign this Lease or sublet the Premises without prior written consent of Landlord, which consent will not be unreasonably withheld or delayed.

Section 3: Quiet Enjoyment

Landlord agrees that upon compliance with the terms and conditions of this Lease, Tenant shall and may peaceable and quietly have, hold and enjoy the Premises for the term of this Lease and any renewal of said term.

Section 4: Use and Condition

Tenant shall use the Premises only for business or professional office purposes. Tenant has inspected and approves and /or knows the condition of the Premises. Tenant has confirmed to its satisfaction that the Premises can be lawfully used for purposes of Tenant's business. Tenant expressly acknowledges that there is no express or implied warranty, representation or agreement on the part of Landlord regarding the condition or usability of the Premises for the purposes contemplated by Tenant. The Premises shall not be used during the term or any extension or renewal term for any purpose other than those specified in this Lease.

Section 5: Alterations

Tenant shall make no structural alterations or other improvements to the Building or Premises without Landlord's prior written consent. Unless otherwise agreed, all such alterations and other improvements shall be made by Landlord at Tenant's sole expense and shall become the property of Landlord and be surrendered with the Premises upon expiration of this Lease. Tenant's office furniture, equipment and such supplies shall remain the property of Tenant. As long as Tenant is not in default under Section 15 of this Lease, such office furniture, equipment and supplies may be removed by Tenant (or shall be removed by Tenant if so directed by Landlord) at the expiration of this Lease, and Tenant shall repair any damage to the Building or Premises resulting from such removal.

Section 6: Care of Premises

A. Tenant shall take good care of the Premises, the fixtures and improvements and shall keep and maintain same in good repair and working order. Tenant will, at its own cost and to the Landlord's reasonable satisfaction, repair in a good and workmanlike manner all damage and injury to the Premises, fixtures and improvements to the extent caused by Tenant, its agents, employees, visitors, or licensees. Should Tenant fail to perform such repairs or replacements, Landlord may do so after ten (10) days' notice to Tenant, and the costs of such repairs or replacements shall become collectable as additional rent and shall be paid by Tenant within ten (10) days after presentation of statement. Upon the expiration of this Lease, Tenant shall return all keys and surrender the Premises in clean and good condition, with reasonable use, wear and tear excepted.

B. Tenant shall not store upon the Premises any combustible or explosive material or permit anything to be done on the Premises which is either directly or indirectly in conflict with or is a violation of public law, ordinance, governmental regulation or any insurance policy carried on the Premises, or the property of which it is a part.

C. Tenant shall not do or permit to be done any waste or nuisance upon the Premises or anything which obstructs or interferes with the rights of other tenants, or which is unreasonably offensive or annoying to them. Tenant further agrees to comply with and abide by such reasonable and non-discriminatory rules and regulations as the Landlord, upon written notice to Tenant, may adopt.

D. Landlord shall have the right to prescribe the weight, size and proper locations of safes and other weighty articles before they are admitted into the Building or Premises. Any damage done to the Building or Premises in the putting in or out of such articles or during the time they are in or on the Building or Premises, shall be made good by Tenant. All persons employed by or contracted with Tenant for repairs, alterations for the moving of safes, furniture or other bulky articles in and out of the Premises must be reasonably acceptable to Landlord and shall be at Tenant's sole costs and liability, and such work is to be done only at reasonable times during regular business hours.

E. Tenant shall not, without prior written consent of Landlord, which consent shall not be unreasonably withheld, conditioned or delayed, place any signs or advertising matter or material on the exterior or in the interior of the Premises. However, Tenant may place signs or advertising matter or material on the Premises. If Landlord approves any sign or advertising matter or material in writing, such sign or advertising matter or material shall be installed at Tenant's expense and Tenant shall remove at the termination or expiration of this Lease, repairing any damage caused by such removal.

Section 7: Liability

Landlord and its agents shall not be liable for any injury to persons or loss or damage to property resulting from any cause other than the gross negligence or willful misconduct of Landlord or its agents. Except as provided in the paragraph below Tenant shall indemnify defend and hold Landlord and/or its agent harmless from all suits, actions, damage liability and expense (including, without limitation, attorneys' or other professionals' fees) of every kind and nature to the extent arising from or out of any occurrence in, upon, at or from the Premises or the occupancy or use by Tenant, its contractors, employees, invitees, licensees or visitors. Tenant shall at all times during the term of this Lease, or any renewal period, carry with an approved insurance carrier licensed to operate in the Commonwealth of Virginia, public liability insurance, naming Landlord and Agents co-insured, with limits of liability of not less than \$500,000.00 with respect to personal injury and \$500,000.00 with respect to property damage. Certificates of such insurance shall be furnished to Landlord and/or Agent upon request. Tenant shall notify Landlord within twenty-four (24) hours of any accident or loss in the Building or Premises. Landlord agrees to maintain one hundred percent (100%) replacement value insurance on the Building. Landlord and Tenant release the other from any and all liability or responsibility to the other (or anyone claiming through or under them by way of subrogation or otherwise) for any loss or damage to property caused by fire or any of the all-risk coverage casualties (whether either party has such insurance in effect or not), even if such fire or other casualties shall have been caused by the fault or negligence of the other party, or policies of insurance will include such a clause or endorsement. Each party shall be responsible for its own deductibles and retentions.

Section 8: Claim for Damages

All personal property belonging to Tenant or to any person located in or about the Building or Premises shall be there at the sole risk of Tenant or other such person, and neither Landlord nor Landlord's agents shall be liable for the theft or misappropriation, nor for any damage or injury to Tenant, his employees, or to the other persons or to other property in and about the Building caused by water, fire, snow, frost or other elements, steam, heat or cold, dampness, falling plaster, sewers, gas odors, noise, the bursting or leaking of pipes, plumbing, electrical wiring and equipment and fixtures of all kinds, or by any act of neglect of other tenants or occupants of the Building or of any other person, or caused in any other manner whatsoever, unless caused by the gross negligence or intentional acts of Landlord, its agents or employees. Tenant shall give to Landlord, or its duly authorized agent immediate written and telephone notice of any accident to, or defects in any equipment or part of the Building or Premises and of any fire, to the extent that Landlord may promptly remedy such conditions if Landlord is responsible for such remedy under this Lease.

Section 9: Damage to Premises

If the Premises shall be damaged by fire, the elements, unavoidable accident or other casualty, but are not rendered untenable in whole or in part, Landlord shall promptly at its own expense cause such damage to be repaired and the rent shall not be abated; if by reason of such occurrence the Premises shall be rendered untenable only in part, Landlord shall promptly at its own expense cause the damage to be repaired, and the rent meanwhile shall be abated proportionately to the portion of the Premises rendered untenable; if by reasons of such occurrence the Premises shall be rendered wholly untenable, Landlord shall promptly at its own expense cause such damage to be repaired, and the rent meanwhile shall be abated in whole, unless within sixty (60) days after said occurrence Landlord shall give Tenant written notice that it has elected not to reconstruct the destroyed Premises, in which event this Lease and the tenancy shall cease as of the date of said occurrence that the rent shall be adjusted as of such dates. Landlord shall not be required to repair or replace any property which the Tenant may be entitled to remove from the Building. All rent paid in advance shall be apportioned in accordance with the foregoing provisions as of the date of such damage.

Section 10: Condemnation

If the whole or any part of the Premises or all means of access shall be condemned or should be under threat of condemnation, this Lease shall terminate and Tenant shall have no claim against Landlord or to any person of the award in compensation from the condemning authority for the value of any of Tenant's property taken (other than Tenant's leasehold interest in the Premises). In the event of a temporary taking, this Lease shall not terminate, except upon a subsequent agreement by the parties, but the term shall be extended by the period of the taking and the rent shall abate in proportion to the area taken for the period of such taking.

Section 11: Repairs

Landlord shall keep the Premises in good working order and condition and shall make all repairs and replacements not occasioned by the negligence of Tenant, its agents, contractor, employees or invitees. Should Landlord be prevented by Tenant from making repairs or replacements during regular hours, Tenant shall bear any increased expense. All maintenance requests should be made to Agent, Horner and Newell, INC, REALTORS by telephone number (804) 745-3000.

Section 12: Access Premises

Tenant and its agents and invitees shall have the right of ingress and egress to the Premises through the public ways of the Building, including public entrances, elevators and corridors, during normal business hours and at other times subject to Landlord's rules and regulations.

Section 13: Reserved Rights

Landlord reserves the following rights:

A. Change the name or street of the Building, without liability of Landlord to Tenant;

B. To designate all sources furnishing sign painting and lettering, ice, drinking water, towels and toilet supplies, or other like services used in the Building or Premises;

C. To enter the Premises (1) at reasonable times, upon reasonable notice, for the making of inspections, repairs, alterations, improvements or additions at or to the Premises or Building, as Landlord may deem necessary or desirable, and (2) without notice, for any purpose whatsoever related to the safety, protection or preservation of the Building or Premises;

E. At any time, Landlord, either voluntarily or pursuant to governmental requirement, may at Landlord's own expense make repair, alterations or improvements in or to the Building, and during operations, may close entrances, doors, corridors, elevators or other facilities; provided that such closures shall not materially adversely affect the visibility or access to the Premises.

F. Except as provided in this Lease, Landlord may exercise any or all of the foregoing rights reserved by Landlord without being deemed guilty of an eviction or disturbance of Tenant's use and possession and without being liable in any manner to Tenant and without elimination or abatement or rent, or other compensation, and such acts shall have no effect upon this Lease.

Section 14: Services

So long as Landlord has not terminated this lease pursuant to Section 15 below and the Tenant is not in default under any of the provisions of the Lease, Landlord shall furnish the following services to the Premises during normal business hours. Normal business hours shall be Monday - Friday from 8:30 a.m. to 6:00 p.m. and Saturday from 8:30 a.m. to 1:00 p.m.:

A. Heating and Air Conditioning

Landlord shall provide heating and air conditioning during the appropriate seasons

B. Electricity

Landlord shall provide electricity through the building circuits, but only for lighting purposes and for operating of ordinary office machines. Tenant shall not, without Landlord's prior written consent, use electricity for refrigeration, special lighting apparatus, x-ray equipment, large electronic computer equipment, or other special equipment or for any purpose other than ordinary office purposes, or other than normal business hours.

C. Water

Landlord shall furnish such water as is required for drinking, cleaning and lavatory purposes.

D. Discontinuance of Service

Landlord shall not be liable for the interruption of any of the above mentioned services caused by repairs, replacements, improvements, alterations, strikes, lockouts, accidents, inability of Landlord to procure such services or to obtain fuel or supplies, or other cause or causes beyond the reasonable control of Landlord. An interruption of service shall not be deemed an eviction or disturbance of Tenant's use and possession of the Premises, or render Landlord liable for damages, or relieve Tenant from performance of Tenant's obligations under this Lease.

E. Additional Services

Tenant shall reimburse Landlord at the rate paid by Landlord for any services or supplies used by Tenant in excess of those services customarily used for ordinary office purposes.

Section 15: Default

In the event of the occurrence of any of the following conditions:

- A. The rent (or additional rent) is not paid when due and Tenant fails to make such payment within ten (10) days after receipt of notice of such default;
- B. Any petition or other action is filed by or against Tenant under any section or chapter of the Federal Bankruptcy Act;
- C. Tenant shall become insolvent or transfer property in fraud of creditors;
- D. Tenant shall make an assignment for the benefit of creditors;
- E. A receiver or trustee is appointed for any of Tenant's assets and such appointment is not vacated within thirty days; or
- F. Tenant fails to comply with any provision or covenant of this Lease (other than the payment of rent) or any of the Rules and Regulations now or later established by Landlord and fails to correct or cure the same within fifteen (15) days after written notice, or, in the event such defect cannot reasonably be cured within the fifteen (15) day period, then if Tenant shall fail to commence to cure said defect within the fifteen (15) day period and diligently pursue the same to completion.

Landlord shall have the right and option to either (I) terminate this Lease by written notice to Tenant (in which event Tenant shall immediately surrender the Premises to Landlord) and retain all deposits, security for rent or other monies received from Tenant as liquidated damages in lieu of such rents as would have been received by Landlord subsequent to the termination (without prejudice to Landlord's right to recover as to any claims or causes of action arising prior to the date of termination) (ii) enter the Premises and remove Tenant in any manner whatsoever for any damages, and attempt to re-let the Premises for Tenant's account on such terms as Landlord alone shall determine; or (iii) to continue this Lease and sue for Tenant's performance (including payment of rent or additional rent as they become due), in which case Landlord shall also be entitled to recover from Tenant all cost of collection, including attorneys' fees. The proceeds of any re-letting during the term of this Lease shall be applied first to all expenses occasioned by such re-letting (including, without limitation, attorneys' fees and leasing commissions and such alterations and redecorating of the Premises as in Landlord's sole judgment may be desirable) and secondly to the rent and additional rent due. Tenant shall be liable for any deficiency (including costs of collection and attorneys' fees) but not entitled to any surplus so arising.

The above stated remedies of Landlord shall be deemed to be in addition to, and not in lieu of, any other rights and remedies provided Landlord either at law or in equity. No delay in enforcing the provisions of this Lease shall be deemed to constitute a waiver of such default by Landlord, and the pursuit by Landlord of one or more remedies shall not be deemed to constitute an election against other remedies.

Section 16: Abandonment

Should Tenant vacate the Premises with unpaid rent or charges due, Landlord may, in addition to any other remedies, enter the Premises and take possession of any and all goods, wares, equipment, fixtures, furniture, improvements and other personal property of Tenant situated on the Premises, without liability for trespass or conversion, and sell the same at public or private sale, with or without having such property at the sale, after giving Tenant reasonable notice of the time and place of any public sale or of the time after which any private sale is to be made, at which sale Landlord or its assigns may purchase unless otherwise prohibited by law. Unless otherwise provided by law, and without intending to exclude any other manner of giving Tenant reasonable notice, the requirement of reasonable notice shall be met if such notice is given in the manner prescribed in this lease at least ten (10) days before the time of sale. Any sale made pursuant to the provision of this section shall be deemed to have been a public sale conducted in a commercially reasonable manner if held in the above-described Premises or where the property is located after the time, place, method of sale and a general description of the types of property to be sold have been advertised in The Richmond Times Dispatch for three (3) consecutive days before the date of sale. The proceeds from any such disposition, less any and all expense connected with the taking of possession, holding and selling of the property (including reasonable attorneys' fees and legal expense) shall be applied as a credit against the indebtedness secured by the security interest granted in this section. Any surplus shall be paid to Tenant or as otherwise required by law and Tenant shall pay any deficiencies within ten (10) business days.

Section 17: Regulations and Exhibits

Tenant and Tenant's, employees, agents, contractor, licensees, and invitees shall observe faithfully, and comply strictly with the Rules and Regulations, if any, which may be attached and made a part of this Lease and with such other reasonable Rules and Regulation as Landlord or Landlord's agents may from time to time adopt. Landlord shall give Tenant notice of such additional Rules and Regulations in the manner prescribed in Section 19 below. Landlord shall not be liable for the non-observance or violation of any of the Rules and Regulations by any other tenant. The provisions of this Lease include the provisions of any exhibits attached to this Lease and identified by the signatures of the parties signing this Lease and shall also include the Rules and Regulations adopted from time to time by Landlord. With the exception of the Rules and Regulations later adopted by Landlord, no modification of this Lease shall be effective unless in writing and signed by both parties. The terms of this Lease shall supersede any conflicting rule or regulation.

Section 18: Agent's Disclosure

Landlord and Tenant acknowledge that Horner & Newell, Inc is and shall be the sole and exclusive broker in connection with the lease of the Premises. Horner and Newell, Inc. REALTORS represents the Landlord, Merben Properties, LLC. Oral and written disclosure of such representation was provided to both Tenant and Landlord prior to the signing of this Lease. The owner/agent of the property, (Merben Properties, LLC) has members who are licensed real estate agent/broker in the Commonwealth of Virginia.

Section 19: Notices

Any notices required to be served in accordance with the terms of this Lease shall be in writing and served by registered or certified mail, or delivered in person and duly acknowledged, as follows:

To Tenant: Nottoway County
 200 South Main Street
 Blackstone, VA 23824

To Landlord: Merben Properties, LLC
 608 Marx Street
 Richmond, VA 23224

To Agent: Horner & Newell, Inc. REALTORS
 Jack Horner
 9840 Oxbridge Place, Suite 100
 Richmond, VA 23236

Either party may at any time designate by written notice to the other a change in the above addresses or addressees.

Section 20: Holdovers

Any holding over after the expiration of this term or any renewal terms shall be construed to be a tenancy from month to month at the rents specified (prorated on a monthly basis) and shall otherwise be on the terms specified in this Lease. In the event such holding over is without the consent of Landlord, Tenant shall be obligated to pay double the monthly rental amount set forth in this Lease. No holding over by Tenant, whether with or without consent of Landlord, shall operate to extend this Lease. The provisions of this clause shall not be held as a waiver by Landlord of any right of re-entry, or any other rights of Landlord as provided under this Lease; nor shall the receipt of said payment or any part, or any other act in apparent affirmation of tenancy, operate as a waiver of

the right to forfeit this Lease and the term granted for the period still unexpired, for any breach of any covenants, or any other of Landlord's rights.

Section 21: Renewal Notice

A written notice of not less than three (3) months shall be given by Tenant should it desire **NOT** to extend the term of this Lease. It is further covenanted and agreed between the parties that in the event such notice is NOT given by Tenant, then this lease shall continue in force for a term of five (5) years at an increase of three (3%) percent for the (five) 5 year term, and subject to all conditions and covenants contained in this Lease. A notice to extend this lease must be served pursuant to Section 19 above.

Section 22: Miscellaneous

A. The failure of either party to enforce in any one or more instances any term, condition, rule, regulation or covenant as to which either party shall be guilty of a breach or be in default, shall not be deemed to waive the right of the either party to enforce the same or any subsequent breach or default notwithstanding such party had knowledge of such breach or default at the time of the receipt of any rent or other sums by the Landlord, whether the same be that originally reserved or that which may be payable under any of the covenants or agreements. The acceptance by the Landlord of checks or cash from persons other than the Tenant shall in no event evidence consent of the Landlord to any assignment or sublease by Tenant. No waiver or modification of this lease or any release or surrender of the same shall be claimed by either party unless such waiver or modification or release or surrender be in writing, signed by either party.

B. Each provision shall bind and inure to the benefit of Tenant and Landlord and as the case may be; if Tenant is an individual, Tenant's legatees, executors, and administrators; if Tenant is a corporation, its successors; and in the event that Landlord consents to the assignment of this lease, Tenant's assignees.

C. The parties agree that wherever the word "Tenant" and/or "party" is used it shall be construed to mean Tenant's and/or parties, if there be more than one, and generally, feminine or neuter pronouns shall be substituted for those of the masculine form, and vice versa, and the plural is to be substituted for the singular number in any place or places in which the context shall require such substitution.

D. Section headings for this Lease are used for convenience only, and are in no way to be construed as a part of this Lease or as a limitation on the scope of the particular provision to which they refer.

E. This Lease shall be construed in accordance with the laws of the Commonwealth of Virginia.

F. This Lease contains the entire agreement of the parties and all oral agreements and merged.

G. Landlord covenants and agrees that in exercising any of its rights and performing its obligations, Landlord shall use best efforts to minimize its inconvenience and interference with Tenant's business and operations and use and enjoyment of the common areas and shall cause or permit no obstruction or diminution of the Premises or access or egress. In addition, Landlord shall, at its own cost and expense, promptly repair and restore the Building to the condition it was in immediately prior to said exercise of rights or performance of obligations as is practicable.

H. Landlord shall hold in confidence all financial information obtained from Tenant or Tenant's records, except in respect of the normal kind of disclosure which in the regular course would be made to prospective bona fide mortgagees and purchasers of the Building.

I. Through the Term, Landlord agrees that the Premises will be managed, operated and maintained, and services provided in accordance with the highest and the best standards of quality generally followed in first class office buildings in the Nottoway, Virginia area.

J. Tenant and its employees shall be allowed twenty-four (24) hour access to the Building, Premises, and its parking spaces, 365 days per year, subject to such security and safety measures which Landlord may from time to time reasonably implement.

K. Wherever in this Lease Landlord's consent or approval is required, such consent or approval shall not be unreasonably withheld, delayed or conditioned. In the event Landlord fails to consent to or approve of, or not to consent to or disapprove of any item requiring consent or approval within fifteen (15) days (or such shorter period as set forth in this Lease) following Tenant's request, Landlord shall be deemed to have approved or consented to same.

L. Landlord represents and warrants to Tenant that as of the date of this lease Landlord has not received notification of any kind from any regulatory agency stating, and has or knowledge or belief, that the Building or appurtenant land is identified as containing, or targeted for cleanup of hazardous substances or toxic materials.

Section 23: Special Covenants

Special Covenants consisting of six (6) paragraphs as follows:

1. Tenant is responsible for all telephone/network wiring necessary for use.
2. Tenant agrees that the Building is to be designated as a "smoke free building".
3. Tenant agrees to remove any appurtenances (walls, partitions, etc.) upon vacating property and return the property to move-in condition.
4. Tenant responsible for all cost of tenant outfit (walls, partitions, etc.) other than what's agreed upon with Lessor.
5. Landlord agrees to pay all utilities Electricity, Water, Sewer and Oil.
6. Tenant agrees to pay the annual real estate taxes of the assessed value of the property.

IN WITNESS WHEREOF, the parties hereto have executed this Lease Agreement as of the day and year first above written.

CHG Talking Points, Interview Guide & PSAs

Communication with members of the media and interviews to spread the word about the services coming to a community is critical to Remote Area Medical's ability to carry out its mission of preventing pain and alleviating suffering by providing free, quality healthcare to those in need.

Media relations helps in the promotion of your clinic by:

- Ensuring that consistent and accurate information is conveyed to the public.
- Generating donations & volunteer interest that support your clinic and the work of RAM.

How to Talk About RAM

There is a standardized way that we talk about RAM programs, clinics, volunteers, etc. Below are some key statements, facts and quote examples that you can use when talking about RAM and your CHG with a media professional, colleague, etc.

With this said, during the interview, don't be afraid to talk about why you are excited to work with RAM and why you / your CHG / your campus chapter feel there is a need for RAM in your own community.

General Statements about RAM as an organization:

- "Since its foundation in 1985, Remote Area Medical has provided more than **\$189.5 million** worth of free care to more than **910,000 people**."
- "RAM is a major nonprofit operator of pop-up clinics that deliver free, quality dental, vision, and medical services to underserved and uninsured individuals."
- "RAM is a major nonprofit operator of pop-up clinics that deliver free, quality dental, vision, medical, and veterinary services to underserved and uninsured individuals."
- "All services are free, and no ID is required."
- "In 2022, RAM volunteers served nearly 22,000 individuals with a value of care worth more than \$7.9 million."
- "RAM only operates clinics in communities where it is invited by a Community Host Group (CHG)."
- "We are glad to be working with RAM to bring this important care to our community. There is a lot of need, so we look forward to seeing people come out to receive these free services."
- "Remote Area Medical is supported entirely by the kindness and generosity of donors."

COUNTY OF NOTTOWAY

COMMISSIONER OF THE REVENUE

Christy Hudson, Master Commissioner
April Blevins, Chief Deputy
Michelle Phillips, Deputy

PO BOX 5
Nottoway, VA 23955

434-645-9317

January 7, 2025

Board of Supervisors
Nottoway County

Dear Board & Mr. Bowen,

This refund request is for a 100% service-connected Veteran who qualified December 1, 2011. The Veteran passed away February 18, 2013, before he applied to my office for the exemption.

His wife has since come in with the proper paperwork and has qualified as the surviving spouse.

This refund request is for the years 2012-2022. There is no time limit for refunds for Veterans. The bills for 2023 & 2024 have been abated.

The total amount of this refund is \$4,399.44. This is NOT to include any interest, there is no interest paid on Veteran's refunds. There is a balance left on the 2024 RE taxes of \$39.93, apply some of the refund to cover that then issue a check for \$4,359.51.

This request is made in accordance with Section 58.1-3981 of the Code of Virginia.

Sincerely,

Christy A. Hudson
Master Commissioner of the Revenue

CRC'S DECEMBER 2024 ITEMS OF INTEREST

Grant Assistance:

- **FEMA, Assistance to Firefighter Grant (AFG):** the CRC assisted Prince Edward County with a grant application to purchase a Mobile Breathing Air Trailer that allows firefighters to refill their air packs.
- **FEMA, Assistance to Firefighter Grant (AFG):** the CRC assisted Keysville Volunteer Fire Department with a grant application to purchase SCBA packs.
- **VDACS, VFAIF:** the CRC is assisting Prince Edward County and 5 Pillar Meats with a grant application to purchase equipment for the development of a meat processing facility.

Upcoming Funding Opportunities:

- **VDACS, AFID Planning Grant:** Open; Rolling Basis
- **VDOF, Virginia Trees for Clean Water:** Open - Rolling Basis
- **Virginia Housing, Workforce Housing Investment Program:** Open 2/1/25
- **VDACS, Food Access Investment Fund (VFAIF):** Pre-application closes on 12/31/24; Full application opens on 2/3/25
- **DEQ, Pay For Outcomes Funding:** Mandatory Pre-app. Conference 1/6/25; closes on 2/3/25
- **VDEM, VA Emergency Shelter Upgrade Assistance Grant Fund:** closes on 2/14/25

The CRC provides free grant writing services for member localities and local 501C3 non-profits.

Lunenburg/Victoria/Kenbridge Joint Comprehensive Plan Update

CRC staff attended a work session to review the draft sections of the Transportation and Community Resources. CRC staff also set up and attended a virtual meeting to discuss the final revisions to these sections. CRC staff are planning to present the draft sections of the Introduction, Executive Summary, and Implementation plan at the next work session that will be held on January 2nd.

DHCD, Broadband Affordability and Adoption Plan Update

The CRC is in the process of creating a regional broadband affordability and adoption plan. As part of developing this plan, the CRC staff developed a community input survey and worked with regional partners to distribute these flyers throughout the region. The survey closed on November 30th. CRC staff collected all completed paper surveys and are working to develop a survey summary report for the plan. The CRC received 210 surveys. CRC staff held seven in-person community meeting in each member locality and one virtual meeting.

Tobacco Commission Strategic Planning

Christin Jackson, CRC Executive Director, attended the Tobacco Commission Southern Virginia strategic planning session in Danville. During this process, the Tobacco Commission asked fundamental questions about the organization's purpose, future and operating structure.

Regional Talent Pathways Initiative (TPI)

Christin Jackson, CRC Executive Director, attended an employer breakfast to provide an overview of the initiative and encourage employer participation. At this meeting, Christin welcomed Jaimie Francis, Vice President of Policy and Programs at the U.S. Chamber of Commerce Foundation. Jaimie provided an overview of the TPI model. Christin has partnered with the Institute for Advanced Learning and Research (IALR) and serves on a four-member Implementation Team to assist with the outlined GO Virginia Region 3 initiatives.

Drakes Branch Building Acquisition Project

Asbestos Abatement Activities: The Contractor, A&A Environmental, began asbestos abatement on the participating buildings on December 9th. The Contractor issued a 20-day notice with the proper regulatory agencies prior to beginning asbestos abatement at these properties.

Lead Abatement Activities: CRC and Town staff reviewed Hurt & Proffitt (one of our on-call consultants) scope of services to complete lead TCLP testing of the participating properties and asbestos abatement clearance services. TCLP testing will be performed by Hurt & Proffitt to ensure proper disposal of lead within the participating buildings.

Amelia County Modified Comprehensive Plan Update

CRC staff attended a working section on December 12th. At this meeting, CRC staff reviewed the revisions to the Agricultural section, the draft Transportation section, provided an update on the surveys, and reviewed maps in the natural resource section. At this meeting, the committee decided to expend the survey close date from December 15th to January 15th. As of December 20th, the CRC has received 473 survey responses. At the next work section, the CRC staff will present the requested changes to the Transportation section and review the draft of the natural resource section of the plan.

Buckingham County Comprehensive Plan Update

CRC staff attended a working section on December 16th. At this meeting, CRC staff reviewed the draft implementation plan, and the executive summary. At the next work section meeting in January, the CRC staff will present the requested changes to these sections and review the draft comprehensive plan in its entirety.

You are cordially invited

Subject: Timber Sale: January 16, 2025
Attachments: Wilson_JenningstownTract#2TimberDeed.pdf

Steve,

Happy Friday to you. Just a reminder, **we will have the timber sale on the Blackstone Army Airfield Tract this upcoming Thursday January 16th.** I have had a good amount of interest in the tract as a number of potential buyers have taken a look at the timber.

Looking back over my notes; I had a note in my file that you wanted a copy of a proposed timber deed (timber contract) that I typically use. I believe you mentioned that you might want to have the county attorney take a look over the document. I have attached an EXAMPLE timber deed for review. Depending on who the buyer is and their needs/wishes; the buyer may have an attorney draft a timber deed and execute a title search/insurance on thier behalf; if they so desire. Sometimes if timber buyers are buying tracts of timber on a credit line with a bank; the financial institution will require a title search, etc. We will just have to see how the details play out. If the buyer is comfortable with my documents; I will prepare them as part of my services. I also typically require proof of insurance be provided as part of needed closing documents.

Please let me know if you have any questions.

Best,

Brandon

P.S. Will you be able to sign the timber deed doucments as the Grantor?

Brandon Martin

THIS TIMBER DEED, made and entered into this ____ day of _____, 2024 by and between Terri Atkins Wilson, hereinafter known as grantor, whose address is, 533 Pleasant Valley Road, Farmville, VA 23901 and J.E. Kerr Timber Co. Inc, hereinafter known as grantee, whose address is 1005 Old Halifax Rd., Roanoke Rapids, NC 27870

WITNESSETH:

That for and in consideration of the sum of Ten Dollars (\$10.00) cash in hand paid, and other good and valuable consideration, the receipt of all of which is hereby acknowledged by the Grantor, the Grantor does hereby GRANT, BARGAIN, SELL and CONVEY with SPECIAL WARRANTY unto the Grantee, all of its interest in the merchantable timber, trees, pulpwood, and other forest products (herein referred to as "Timber and Pulpwood") of all sizes and species now standing or lying upon portions of those certain tracts or parcels of land and shown on the attached "EXHIBIT A", with the Timber Sale Area being approximately 13 acres described on "EXHIBIT B," which is attached hereto.

This conveyance is made subject to all easements, restrictions, reservations and other matters contained in duly recorded deeds, plats and other instruments constituting constructive notice in the chain of title, which have not expired by the time limitation therein contained or otherwise become ineffective, as well as to the following conditions:

1. No boundary line trees, whether chopped, painted, or flagged are to be cut, and designated property corners and survey monuments must be protected from logging damage.
2. Any roads and/or paths must be continuously maintained by Grantee in their present condition. Upon completion of logging operations the Grantee will leave any roads in a condition equal to or better than the original condition prior to the time of logging. Any newly constructed roads and log decks must be left in a graded condition upon completion of logging. Any new roads constructed by the Grantee are to be constructed and retired in accordance with Virginia's Forestry Best Management Practices for Water Quality by the Grantee. All decks must be located in pre-approved locations. All logging decks must be cleaned of logging slash and debris post-harvest.
3. Grantee shall be responsible for compliance with all guidelines set forth in the Best Management Practice Manual, as prescribed by the Virginia Department of Forestry, as well as all federal, state and local laws and regulations, which apply to the harvesting operations.
4. Grantee shall be responsible for complying with all sedimentation and pollution control laws.
5. Grantee shall promptly remove from the property any and all debris from the logging operation, including, but not limited

to skidder tires, beverage containers, food wrappers, paper, plastic or metal articles, oil, oil cans, etc. No oil shall be drained on the ground. In the event that any oil-based material is spilled, the environmental clean-up will be performed by Grantee, in accordance with all governmental regulations.

6. No trees, limbs, brush, tops or laps may remain in, across or over the property lines, or in drains, roadways, right of ways, streams, creeks or open fields; they must be pulled back and removed immediately.
7. The Grantee shall have a period of 18 months, commencing from the date of this deed, to cut and remove the above-described Timber and Pulpwood, after which time the timber rights revert back to the Grantor and the Grantee shall have no further right of interest in the Timber and Pulpwood defined herein. In the event the logging is completed prior to the end of the above described time period, Grantee agrees to execute a release relinquishing all rights in the Timber and Pulpwood, as well as the rights of ingress and egress set forth in Paragraph 14 below.
8. Upon the completion of timber harvesting operations, Grantee shall promptly give written notification to the Grantor of said completion.

9. Grantor reserves for itself the right to halt logging operations in the event of default.
10. Grantee shall notify the Timber Consultant at least forty-eight (48) hours prior to commencing logging operations.
11. Grantee agrees and warrants that it will at all times indemnify and save harmless Grantor against any claims, demands, actions or causes of action for injury or death of any person or persons which may be due in any manner to the logging operations of the Grantee on the property. Grantor will not be held responsible for the loss of harvestable timber covered by this deed due to theft, fire, wind, flood or act of God, provided the Grantor is in no way responsible for fire's origin. Grantor has not assumed any liability for losses, damages, etc. incurred by Grantee, directly or indirectly related to the harvesting of this Timber and Pulpwood. Grantee shall maintain adequate insurance protecting the Grantor from any and all workman's compensation claims, liability lawsuits and property damage claims throughout timbering operations.
12. Grantor assumes responsibility for compliance with the Virginia Seed Tree Law.
13. Grantor makes no guarantees as to the quality or quantity of the timber being conveyed.

14. For the purpose of cutting, removing and transporting the said Timber and Pulpwood during the harvest period, the Grantee, for itself, its servants, agents, and workmen, shall have the rights of ingress, egress and regress in, through, across, over and upon the subject property, with the full right to use such vehicles and other machinery usual for logging operations. Grantee shall use the proper equipment for all stream crossings in order to comply with BMPs and Water Quality laws. The Grantor and its successors and assigns, covenant that they will prevent any plowing, ditching or construction of fences across the farm roads, paths, or access areas on said property, and will prevent any plowing, ditching or construction of fences on the aforesaid property that would interfere with the cutting and removing of said Timber and Pulpwood, so long as Grantee is not in default.
15. Grantee agrees not to install a sawmill without prior written approval of the Grantor.
16. Grantee shall observe all laws and take reasonable precautions with regard to the Virginia forest fire laws.
17. All decking, skidding, and loading is to be done within the Timber Sale Area.
18. It is understood and agreed that the Grantee shall not be responsible for ad valorem taxes on the real property described herein above.

19. In the event that weather conditions become so severe that excessive damage is occurring at the property, the Grantor reserves the right to halt logging operations until such time as weather conditions become acceptable. The period of time that logging is halted will be added to the time allowed to harvest the Timber and Pulpwood.

20. Grantee agrees and warrants that it will at all times indemnify Grantor and hold Grantor harmless against any claims, demands, actions or causes of action for injury or death of any person or persons which may be due in any manner to Grantee's logging operations on Grantor's real property. Grantee agrees that it bears the risk of loss of any harvestable timber or pulpwood covered by this Timber Deed resulting from theft, fire, wind, flood or act of God unless such loss is proximately caused by a willful, reckless, or negligent act or omission on the part of the Grantor. Grantor assumes no liability for losses or damages incurred by Grantee directly or indirectly related to Grantee's logging. Grantee shall maintain adequate insurance protecting Grantor from any and all workers' compensation claims, liability lawsuits and property damage claims throughout the period of time when Grantee is entitled to engage in logging pursuant to this deed.

WITNESS, the following signatures and seals:

Terri Atkins Wilson, Grantor (SEAL)

Re: Non-Judicial Sale of Real Estate

Dear Mr. Bowen:

Some time back I bought a small tract of land that was sold by Nottoway County under the new statute allowing non-judicial sales of real estate. The *Code of Virginia* requires that many steps be met before the sale can be conducted, such as notification, value, etc., etc. I enclose the Code section for your review so you can understand what I am speaking of.

The deed that I received from James Elliott was in my opinion defective to some extent. I wrote to Mr. Elliott and pointed this out to him (copy enclosed) and got no response whatsoever. I then called the Treasurer's office and left a message asking her to call me back so I could explain to her the situation and I got no call back.

It is my opinion that continued execution of these deeds by the Treasurer may create liability on her and possibly the County, as the deed does not in my opinion recite the particular steps that were followed in order to enable the sale. The deed only states "in accordance with the statute." It does not spell out what was done and what wasn't done. We called the title company and asked them if they would insure the title and they said yes if we got an affidavit from the Treasurer saying that she or he had in fact done all of these steps. My question and Larry's question is – what happens in 10 or 20 years down the line when the Treasurer is no longer able to make that affidavit? It appears the only way that can be corrected would be by a possible lawsuit against the County.

Steven Bowen, County Administrator
County of Nottoway
Page 2 of 2
December 11, 2024

Again, maybe all of this makes no difference because the value of the properties are so small that a lot of purchasers will do exactly what I did and record the deed anyway. All of this is simply for your information.

Yours very truly,

A handwritten signature in black ink that reads "Jack Boswell". The signature is written in a cursive style with a large, looping initial "J".

Re: County of Nottoway v. Samuel Nance

Dear Mr. Elliott:

I have received your proposed Deed for recordation in regard to my purchase of the above property at the sale. I realize this is not a judicial sale, but what concerns me is that there is nothing in the deed to show that the statutory requirements were met. I probably could go down to the Treasurer's office and grill her on what she did and satisfy myself, but that wouldn't be any future notification to title examiners that the title is complete.

I am just afraid that there will be later problems with these conveyances, maybe not this one, but I think this would lay open some challenges to future deeds of this nature.

I point this out for your consideration and would appreciate any suggestion you may have how we can cure the situation.

Yours very truly,

John M. Boswell

Code of Virginia

Title 58.1. Taxation

Chapter 39. Enforcement, Collection, Refunds, Remedies and Review of Local Taxes

§ 58.1-3975. Nonjudicial sale of tax delinquent real properties of minimal size and value.

A. Notwithstanding any other provision of this title, the treasurer or other officer responsible for collecting taxes may sell, at public auction, any parcel of real property that is assessed at \$10,000 or less, provided that the taxes on such parcel are delinquent on December 31 following the third anniversary of the date on which such taxes have become due.

B. The treasurer or other officer responsible for collecting taxes may in addition sell, at public auction, any parcel of real property that is assessed at more than \$10,000 but no more than \$25,000, provided that the taxes on such parcel are delinquent on December 31 following the third anniversary of the date on which such taxes have become due, it is not subject to a recorded mortgage or deed of trust lien, and such parcel:

1. Is unimproved and measures no more than 43,560 square feet (1.0 acre);
2. Is unimproved and is determined to be unsuitable for building due to the size, shape, zoning, floodway, or other environmental designations of the parcel made by the locality's zoning administrator or other official designated by the locality to administer its zoning ordinance and carry out the duties set forth in subdivision A 4 of § 15.2-2286;
3. Has a structure on it that has been condemned by the local building official pursuant to applicable law or ordinance;
4. Has been declared by the locality a nuisance as that term is defined in § 15.2-900;
5. Contains a derelict building as that term is defined in § 15.2-907.1; or
6. Has been declared by the locality to be blighted as that term is defined in § 36-3.

For purposes of determining the area of any parcel, the area or acreage found in the locality's land book shall be determinative.

C. At least 30 days prior to conducting a sale under this section, the treasurer or other officer responsible for collecting taxes shall

1. Send notice by certified or registered mail to the record owner or owners of such property and anyone appearing to have an interest in the property at their last known address as contained in the records of the treasurer or other officer responsible for collecting taxes; and
2. Post notice of such sale at the property location, if such property has frontage on any public or private street, and at the circuit courthouse of the locality.

D. The treasurer or other officer responsible for collecting taxes shall also cause a notice of sale to be published in the legal classified section of a newspaper of general circulation in the locality in which the property is located at least seven days prior to the sale; however, if the annual taxes assessed on the property are less than \$500, such notice may be placed, in lieu of publication on the treasurer's or local government's website beginning at least seven days prior to sale and through the date of sale. The pro rata costs of posting notice, publication, and mailing shall become a part of the tax and shall be collected if payment is made in redemption of such real property.

E. The treasurer or other officer responsible for collecting taxes may advertise and sell multiple parcels at the same time and place pursuant to one notice of sale.

F. The treasurer or other officer responsible for collecting taxes may enter into an agreement with the owner of such parcel for payment over time.

G. The owner of any property, or other interested party, may redeem it at any time prior to the date of the sale by paying all accumulated taxes, penalties, interest, and costs thereon, including reasonable attorney fees. Partial payment of delinquent taxes

penalties, interest, or costs shall be insufficient to redeem the property and shall not operate to suspend, invalidate, or nullify any sale brought pursuant to this section.

H. At the time of sale, the treasurer or other officer responsible for collecting taxes shall sell to the highest bidder at public auction each parcel that has not been redeemed by the owner. Such sale shall be free and clear of the locality's tax lien, but shall not affect easements or other rights of record recorded prior to the date of sale or liens recorded prior to the date of sale unless the treasurer has given the lienholder written notice of the sale at least 30 days prior to the sale, at the lienholder's address of record and through his registered agent, if any. The treasurer or other officer responsible for collecting taxes shall tender a special warranty deed pursuant to this section to effectuate the conveyance of the parcel to the highest bidder.

I. If the sale proceeds are insufficient to pay the amounts owed in full, the treasurer or other officer responsible for collecting taxes may remove the unpaid taxes from the books and mark the same as satisfied. The sale proceeds shall be applied first to the costs of sale, then to the taxes, penalty, interest, and fees due on the parcel, and thereafter to any other taxes or other charges owed by the former owner to the jurisdiction.

J. Any excess proceeds shall remain the property of the former owner, subject to claims of creditors, and shall be kept by the treasurer or other officer responsible for collecting taxes in an interest-bearing escrow account. If any petition for excess proceeds is made to the treasurer or other officer responsible for collecting taxes under this section, the treasurer or officer holding the funds shall forward the funds to the locality's circuit court clerk to be interpleaded along with a copy of the claim for excess proceeds. A copy of such transmission shall be forwarded to the claimant. The burden of scheduling a hearing with the circuit court on the claim shall be that of the claimant and shall be made within two years of the date of the sale of the property that generated the excess funds. In the event that funds remain with the court two years after the date of the sale, the locality may petition to have the funds distributed to the locality's general fund. If no claim for payment of excess proceeds is made within two years after the date of sale, the treasurer or other responsible officer shall deposit the excess proceeds in the jurisdiction's general fund.

K. If the sale does not produce a successful bidder, the treasurer or other responsible officer shall add the costs of sale incurred by the jurisdiction to the delinquent real estate account.

BACKGROUND

4. Va. Code § 56-585.1:11 (“Subsection 11”) finds that certain utility-owned and utility-operated offshore wind projects are in the public interest:

[C]onstruction by a Phase II Utility of one or more new utility-owned and utility-operated generation facilities utilizing energy derived from offshore wind and located off the Commonwealth’s Atlantic shoreline, with an aggregate rated capacity of not less than 2,500 megawatts and not more than 3,000 megawatts, along with electrical transmission or distribution facilities associated therewith for interconnection is in the public interest.

5. Along with determining that certain offshore wind facilities are in the public interest, Subsection 11 contemplates cost recovery via a rate adjustment clause (“RAC”) to be filed pursuant to Va. Code § 56-585.1 A 6, with costs presumed to be reasonably and prudently incurred if certain competitive solicitation, levelized cost of energy, and construction timeline benchmarks are met:

In acting upon any request for cost recovery by a Phase II Utility or its offshore wind affiliate for costs associated with such a facility, the Commission shall determine the reasonableness and prudence of any such costs, provided that such costs shall be presumed to be reasonably and prudently incurred if the Commission determines that (i) the utility has complied with the competitive solicitation and procurement requirements pursuant to subsection E; (ii) the project’s projected total levelized cost of energy, including any tax credit, on a cost per megawatt hour basis, inclusive of the costs of transmission and distribution facilities associated with the facility’s interconnection, does not exceed 1.4 times the comparable cost, on an unweighted average basis, of a conventional simple cycle combustion turbine generating facility as estimated by the U.S. Energy Information Administration in its Annual Energy Outlook 2019; and (iii) the utility has commenced construction of such facilities for U.S.

income tax purposes prior to January 1, 2024, or has a plan for such facility or facilities to be in service prior to January 1, 2028.

The Va. Code further instructs that “[t]he Commission shall disallow costs, or any portion thereof, only if they are otherwise unreasonably and imprudently incurred” and directs the Commission to “give due consideration to (a) the Commonwealth’s renewable portfolio standards and carbon reduction requirements, (b) the promotion of new renewable generation resources, and (c) the economic development benefits of the project for the Commonwealth, including capital investments and job creation.”²

6. On August 5, 2022, by its Final Order in Case No. PUR-2021-00142,³ the Commission, among other things, approved the Company’s request for approval of a rate adjustment clause, designated Rider OSW, pursuant to Va. Code § 56-585.1 A 6, for the recovery of costs associated with the CVOW Commercial Project.

7. On July 25, 2024, in Case No. PUR-2023-00195, the Commission issued the 2023 Rider OSW Order approving the Company’s second annual update to Rider OSW. That Order directed the Company to “file its next Rider OSW application on or before November 1, 2024.”⁴

8. Pursuant to the provisions of the 2023 Rider OSW Order, the Applicants file this annual Rider OSW Update to inform the Commission of the status of the CVOW Commercial Project and to provide the proposed cost allocation, rate design, and accounting treatment for service rendered during a proposed rate year commencing September 1, 2025, and extending through August 31, 2026 (“Rate Year”) as related to proposed Rider OSW. The Applicants also

² Code § 56-585.1:11 C 1.

³ *Application of Virginia Electric and Power Company for approval and certification of the Coastal Virginia Offshore Wind Commercial Project and Rider Offshore Wind, pursuant to § 56-585.1:11, § 56-46.1, § 56-265.1 et seq., and § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2021-00142, Final Order (Aug. 5, 2022) (“CVOW Order”).

⁴ 2023 Rider OSW Order at 6.

present certain Project information in this Update as directed in the Commission's CVOW Order and as well as orders issued in prior Rider OSW annual update proceedings.

THE SECTION 1:11 PARTNERSHIP

9. The enactment of Section 1:11 G in 2023 provided an opportunity to establish a new offshore wind affiliate for purposes of securing a noncontrolling equity financing partner for the CVOW Project. In accordance with that section, on March 28, 2024, in Case No. PUR-2024-00045, the Company and Project Co, the offshore wind affiliate operating as a subsidiary of Dominion Energy Virginia, jointly filed with the Commission a petition requesting various approvals under Chapters 3, 4, 5, and 10.1 of the Va. Code (the "CVOW Financing Petition"). As part of and through this arrangement, the Company agreed to sell a 50% noncontrolling interest in the CVOW Project to Dunedin Member LLC ("Stonepeak Member"), an entity indirectly controlled by Stonepeak GP Investors Holdings Manager LLC ("Stonepeak Parent") (collectively, together with entities (other than portfolio companies), investment funds and investment vehicles, directly or indirectly owned, managed or controlled by Stonepeak Parent, "Stonepeak"), as authorized by statute, subject to Commission approval. As set forth in detail in the CVOW Financing Petition, the partnership will reduce the financial burdens and risks associated with the Project's development and operation.

10. On April 10, 2024, the Commission entered an Order bifurcating the issues presented in the CVOW Financing Petition. The Commission established Case No. PUR-2024-00053 to consider the requests made pursuant to the Affiliates Act and the Securities Act. In Case No. PUR-2024-00045, the Commission decided all other matters, including requests made under the Utility Transfers Act and the Utility Facilities Act. On June 26, 2024, and September 27, 2024, the Commission approved the respective requests in Case No. PUR-2024-00045 and

Case No. PUR-2024-00053. On October 22, 2024, the Company completed the sale of a 50% noncontrolling interest in the CVOW Project to Stonepeak.

11. As explained in further detail in the CVOW Financing Petition, all Project charges will continue to be collected through Rider OSW, and the Company and ProjectCo will file annual updates as co-applicants, with the Company acting as the billing agent for ProjectCo. From a customer perspective, the new structure will be seamless with respect to cost recovery and billing. Customers will continue to be billed pursuant to the approved Dominion Energy Virginia Rider OSW tariff. Customers will not experience a change in the way they are billed for CVOW Project-related costs. Costs will continue to be recovered from all non-exempt jurisdictional customers and the revenue requirement calculation will not fundamentally change. Customers will continue to pay the actual cost of service and approved return on equity, with any Project revenues credited against the revenue requirement. As the Company stated in the CVOW Financing Proceeding, it remains committed to bringing CVOW online on time and on budget, and to prudently operate the Project after it commences commercial operations. Its obligations and commitments in this regard have not changed and will not change.

CVOW COMMERCIAL PROJECT AND EXPENDITURES UPDATE

A. Status of CVOW Commercial Project

12. Company Witnesses Karl E. Humberson and Grant T. Hollett provide the status of construction for the Project. The CVOW Commercial Project is proceeding on time and on budget, consistent with the timelines and estimates the Company provided in its original filing, with minor schedule modifications as outlined by Company Witness Hollett. The total Project cost forecast remains \$9.8 billion (excluding financing costs), including approximately \$1.4 billion of combined transmission costs. As noted in the Company's Six-Month Status Report

filed on May 1, 2024 in Case No. PUR-2023-00195, and as explained in more detail by Company Witness Hollett, there have been minor modifications to certain timeline components, but these updated components are not expected to impact the planned project in-service in late 2026. Issuance of final permits occurred in Q1 2024. These permits allowed for the commencement of onshore and offshore construction in accordance with the Project schedule.

13. The Project is making considerable construction progress both onshore and offshore. The Company has now received the final remaining authorizations needed to fully commence offshore construction. Company Witness Hollett explains that construction activities have significantly accelerated since the last Rider OSW filing. The unexploded ordnance and debris campaign has been completed, monopiles have begun arriving at the Portsmouth Marine Terminal ("PMT"), and as of October 22, 2024, 78 monopiles have been installed. Foundation work is in progress and since May 19, 2024, 33 transition pieces have arrived at the PMT. Fabrication of other major components, including offshore substations, cables, and tower segments, is also proceeding on schedule, and nacelle and blade production is anticipated to begin in Q1 2025.

14. The Applicants are providing a Quarterly Report Regarding Construction Progress, Timeline, and Budget of the Coastal Virginia Offshore Wind Commercial Project ("Quarterly Report") with this filing. Enactment Clause 2 of Chapter 1279 of the 2020 Acts of the Virginia General Assembly requires the Company to provide the Commission with reports on the "facility's construction progress, including performance to construction timeline and budget, on no less than a quarterly basis throughout the construction period." The Company's first Quarterly Report was filed on August 1, 2024 in Case No. PUR-2023-00195. The second such report is included with this filing as Company Witness Hollett's Schedule 5.

B. Operation and Maintenance and Capital Expenditures

15. Company Witness Hollett details the Company's actual capital expenses for the Project through July 2024, as well as budget plans for the Project's capital expenditures up until the Project begins commercial operation, projected lifetime operations and maintenance costs, and expected lifetime capital expenditures.

16. Company Witness Hollett's testimony also identifies and explains variances for cost categories exhibiting a variance of greater than 5% from the respective budget. Reconciliation and explanation of any cost category variance that is greater than 5% of the budget presented in Case No. PUR-2021-00142 is included in Company Witness Hollett's Extraordinarily Sensitive Schedule 2.

17. As part of this Update proceeding, the Applicants respectfully request that the Commission approve the updated expenditures for the CVOW Commercial Project, subject to subsequent true-ups, and find that such expenditures are reasonable and prudent in order to fulfill the Company's service obligations as a public utility.

C. LCOE Update

18. The Company provides an update to the Levelized Cost of Energy ("LCOE") calculation with the most current financing assumptions, consistent with those used in the 2024 RPS proceeding (Case No. PUR-2024-00147) and incorporated the REC proxy value methodology approved by the Commission in the RPS Cost Allocation proceeding (Case No. PUR-2021-00156).

19. The CVOW Commercial Project's updated LCOE is \$56 per megawatt hour ("MWh") in 2027 dollars, inclusive of the 30% production tax credit (\$85 per MWh without

accounting for the value of RECs). The LCOE for the Project in 2018 dollars is \$47 per MWh (\$71 per MWh without accounting for the value of RECs).

20. In compliance with the 2022 Rider OSW Order,⁵ Company Witness Dennis W. Craft provides the LCOE sensitivity utilizing a 25-year life expectancy for the Project and another using a 35-year life expectancy for the Project.

21. As directed in the Commission's 2023 Rider OSW Order, Company Witness Craft also provides both the Virginia and Pennsylvania Tier 1 REC market price forecast as well as the levelized cost of energy values calculated using both forecasts.

D. Other Requirements of Final Orders

22. In the CVOW Final Order, the Commission required the Company in its annual update filings to provide certain Project-specific information or analyses. These requirements include advising of any material changes to the Project, including reports filed regarding Project-related affiliate matters, describing cost overruns, and providing projected lifetime bill impacts for the Project, among others. Company Witness Humberson's testimony addresses these requirements and refers to the testimony of other Company Witnesses where appropriate.

23. In addition to the long-term bill analysis sensitivities and the LCOE sensitivities described elsewhere herein, the 2022 Rider OSW Final Order also directed the Company to comply with certain uncontested recommendations made by the Commission Staff ("Staff"). Specifically, Staff recommended that the Company (i) incorporate the REC proxy value methodology approved by the Commission in the RPS Cost Allocation Case (Case No. PUR-2021-00156) in future proceedings; (ii) include the workpapers supporting the previous year's

⁵ *Application of Virginia Electric and Power Company, For revision of rate adjustment clause: Rider OSW, Coastal Virginia Offshore Wind Commercial Project, for the Rate Year commencing September 1, 2023, Case No. PUR-2022-00187, Final Order (July 7, 2023) ("2022 Rider OSW Order").*

LCOE calculations as part of future LCOE updates for comparison purposes and to reduce the discovery burden on Staff and other case participants; and (iii) in its direct testimony, report the LCOE calculations without adjusting for the value of the RECs. Company Witness Craft's direct testimony addresses these recommendations.

Tax Credit Election

24. In the 2023 Rider OSW Order, the Commission directed the Company in any Rider OSW application(s) filed before the Company makes its tax election, to continue to address the value to customers of the production tax credit election for the Project compared to the value of customers of the investment tax credit election. Company Witness Craft provides LCOE sensitivities that demonstrate the difference in customer value between a production tax credit election and an investment tax credit election. Company Witness Elizabeth B. Lecky also provides a long-term revenue requirement that quantifies customer value over time under each scenario. Both the LCOE calculations and long-term revenue requirement show that a production tax credit election yields greater customer value.

Cost Study

25. The 2023 Rider OSW Order directed the Company to (i) conduct a detailed analysis and study of the 2022 Rider OSW Costs for categories that were removed from Staff's revenue requirement as well as for additional cost categories that are of concern to Staff; and (ii) present the results of such analysis in the next Rider OSW proceeding. Company Witness Lecky presents the results of the detailed analysis and study, describes actions taken to address incorrect classifications to date, and identifies the processes the Company has put in place to verify cost allocations moving forward.

Percentage of Income Payment Plan ("PIPP")

26. The 2023 Rider OSW Order also directed the Company to address in the next Rider OSW proceeding the Company's legal interpretation of the "PIPP-eligible utility customer" exemption from being charged Rider OSW, in addition to any implementation considerations associated with this statutory exemption. The Company maintains its position as described during the 2023 Rider OSW evidentiary hearing. Specifically, it is important to consider the full picture of how a customer becomes eligible to receive the benefits of bill subsidies through PIPP. First, a customer must have a household income level that does not exceed 150% of the federal poverty level. Next, that customer must apply to the Virginia Department of Social Services ("VDSS") for the program and go through a verification process administered by that agency. Finally, per the rules and Program guidelines established by the VDSS pursuant to Va. Code § 56-585.6 C, a customer must make monthly on-time payments of the portion of their electric bill for which they continue to be responsible. If a customer does not make this on-time payment, they are no longer "PIPP-eligible." Thus, the Company respectfully submits that applying the Rider OSW exception to customers that are actively participating in PIPP is the most reasonable application of the statutory exemption.

ACCOUNTING UPDATE

A. Rate of Return on Common Equity

27. For the period up to February 27, 2024, the Company has calculated the revenue requirement using a 9.35% ROE, which is the Company's authorized ROE as set by the Commission in Case No. PUR-2021-00058. In addition, the capital structure used in the calculation of the revenue requirement reflects the methodology proposed by Staff and approved by the Commission in that Final Order. For the period beyond February 27, 2024, the Company

is utilizing the ROE of 9.7%, which is the Company's authorized ROE as set forth by the Commission in Case No. PUR-2023-00101.

B. Revenue Requirement Update

28. The revenue requirement calculation for the continuation of the Rider OSW RAC is described in detail in the testimony of Company Witness Elizabeth B. Lecky.

29. The proposed rate year for this proceeding is from September 1, 2025, through August 31, 2026. The two key components of the revenue requirement in this proceeding are the Projected Cost Recovery Factor and the Actual Cost True-Up Factor.

30. The Projected Cost Recovery Factor includes financing costs for rate base as well as projected operating expenses during the Rate Year. The Actual Cost True-Up Factor credits to, or recovers from, customers any over/under recovery of costs from the most recently completed calendar year. Actual revenues during the test year are compared to actual costs incurred during the test year. Any difference in these amounts becomes the Actual Cost True-Up Factor credited to, or recovered from, customers through the total revenue requirement requested for recovery during the Rate Year.

31. The total revenue requirement requested for recovery in this 2024 Annual Update is \$639,500,653.

32. There are several changes to the Company's revenue requirement calculation as compared to the calculations approved by the Final Order in Case No. PUR-2023-00195. First, the Company is utilizing an updated revenue lag based on calendar year 2023 for calculating the cash working capital component of rate base. After consultation with Commission Staff, the Company respectfully requests that any issues related to the revenue lag be litigated in the

Company's Rider GEN proceeding, Case No. PUR-2024-00097, which is currently pending before the Commission.

33. Second, the Company proposes to establish a decommissioning trust fund ("Trust") to manage for the future asset retirement obligation activity of the CVOW Project. The Company's Trust is discussed in Company Witness Elizabeth B. Lecky's direct testimony.

34. Lastly, in connection with the Stonepeak partnership approved by the Commission, and as described in Case No. PUR-2024-00045, there are two minor accounting changes that impact Rider OSW moving forward, both of which are cost-neutral to customers. These are related to certain costs currently recovered in base rates for generation and distribution services: (1) Operations and Maintenance expense charges for Project-related direct labor from (i) Dominion Energy Services, Inc., such as regulatory support, and (ii) Dominion Energy Technical Solutions, Inc., which provides technical support for Project transmission infrastructure; and (2) Rider OSW uncollectible expense. Specifically, to better isolate and track these expenses for the Project, these two cost items are proposed to be included in Rider OSW moving forward, with a corresponding and offsetting reduction to the cost of service included in base rates, where these costs are currently included.

35. Other than these changes, the revenue requirement presented in this proceeding is consistent with the calculations approved in the 2023 Rider OSW Order.

RATE DESIGN UPDATE

A. Revised Rider OSW Tariff

36. The Company is proposing an updated Rider OSW tariff, which is sponsored by Company Witness Christopher C. Hewett. Mr. Hewett identifies the rates, in either cents per kilowatt-hour or dollars per kilowatt, that will apply to each Company Rate Schedule. If approved as proposed, the revised Rider OSW will be effective for usage on and after September 1, 2025.

B. Rider OSW Impact on Customer Bills

37. The implementation of the proposed Rider OSW on September 1, 2025, will increase the typical residential customer's monthly bill, based on 1,000 kWh per month, by \$2.60 compared to the current Rider OSW. Mr. Hewett's testimony provides typical monthly bill impacts for Residential Schedule 1, General Service Schedules GS-1, GS-2, GS-3, and GS-4, and Church Schedule 5C at several representative levels of consumption and demand.

38. Company Witness Hewett provides the projected bill impact of Rider OSW, by year, over the life of the rider for a residential customer's monthly bill, as well as examples of projected bill impacts for small general service customers and large general service customers, as directed in the CVOW Order. As directed in the 2022 Rider OSW Order, Mr. Hewett also provides two long-term bill analysis sensitivities. One analysis accounts for projected load growth by applying projected allocation factors and sales growth rates derived from the Company's internal load forecast, while the other holds constant current allocation factors and customer load over the life of the rider.

C. Request for Rate Effective Date

39. As Mr. Hewett explains, the Company respectfully requests for billing purposes, a rate effective date for usage on and after the latter of September 1, 2025, or the first day of the month which is at least fifteen (15) days following the date of any Commission Order approving Rider OSW.

PRE-FILED DIRECT TESTIMONY AND EXHIBITS, FILING SCHEDULES, AND REQUEST FOR LIMITED WAIVER

40. In support of this Application, the Applicants present the pre-filed direct testimony and exhibits of the following witnesses: Karl E. Humberson, Grant T. Hollett, Elizabeth B. Lecky, Dennis W. Craft, and Christopher C. Hewett.

A. Filing Schedules

41. Rule 60 of the Rate Case Rules, 20 VAC 5-204-5 *et seq.*, provides that a rate adjustment clause application “shall include Schedule 46” and that, additionally, those “applications requiring an overall cost of capital shall include Schedules 3, 4, 5, and 8.”

42. With this Application, the Applicants file the following Filing Schedules:

- a. Filing Schedule 8, sponsored by Company Witness Elizabeth B. Lecky, provides information regarding the Company’s cost of capital.
- b. Filing Schedule 46A, sponsored by Company Witness Grant T. Hollett, consists of Statements 1 through 3. Filing Schedule 46A Statement 1 provides the projected and actual costs sought for recovery by type of cost and year, for the Project. Filing Schedule 46A Statement 2 provides transaction level details. Filing Schedule 46A Statement 3 provides key documents supporting the incremental costs for the Project.
- c. Filing Schedule 46B, sponsored by Company Witness Elizabeth B. Lecky, consists of Statements 1 through 3. Filing Schedule 46B, Statement 1, provides the estimated annual revenue requirement for the rate year ending August 31, 2026. Filing Schedule 46B Statement 2 provides the estimated annual revenue requirement over the duration of the project, by year on a total company basis and a Virginia jurisdictional basis. Filing Schedule 46B

Statement 3 provides the workpapers showing all supporting calculations and assumptions for the estimated annual revenue requirement.

- d. Filing Schedule 46C, sponsored by Company Witness Christopher C. Hewett, consists of Statements 1 and 2. Filing Schedule 46C Statement 1 provides the Company's methodology for allocating the proposed revenue requirement among the rate classes and the design of the class rates. Filing Schedule 46C Statement 2 provides the annual revenue requirement for Rider OSW by customer class over the duration of the RAC.

B. Request for Waiver of Filing Schedule 46 Requirements

43. The Applicants, for good cause shown and pursuant to Rate Case Rule 10 E, respectfully request that the Commission waive, in part, the requirements under Rule 60 to Filing Schedules 3 through 5. Pursuant to 20 VAC 5-204-60, the Applicants are required to submit Filing Schedules 3 through 5 and 8 for each rate adjustment clause proceeding supporting each overall cost of capital used in the application. However, after consultation with Staff, and in the interest of judicial economy, the Applicants are only submitting Filing Schedule 8 for the 2023 year-end capital structure as Filing Schedules 3-5 are being reviewed by the Commission in the Company's 2024 Rider GEN proceeding, Case No. PUR-2024-00097.⁶ To the extent necessary, the Applicants request a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2023 capital structure. Further, to the extent necessary, the Applicants request a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2022 capital structures, as those have already been reviewed and approved by the Commission in the Company's 2023 biennial review proceeding, Case No. PUR-2023-00101. The Applicants are submitting Filing

⁶ See *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider GEN, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders B, BW, GV, US-2, US-3, and US-4 pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00097, Application at 10 (June 4, 2024).

Schedule 8 for the year 2022. This request for waiver is consistent with the Commission's recent order granting a similar limited waiver.⁷

44. The Applicants, for good cause shown and pursuant to 20 VAC 5-204-10 E, respectfully request that the Commission waive, in part, the requirements under Rules 60 and 90 of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials. Specifically, the Rate Case Rules require the Applicants to provide key documents supporting the projected and actual costs of the Project, such as: economic analyses, support used by senior management for major cost decisions as determined by the applicant, contracts, results from requests for proposals, cost-benefit analyses, and other items supporting the costs that have not been provided in previous applications. The supporting documentation responsive to this requirement is voluminous and, often, not easily viewed in hard copy (*i.e.*, paper) format. Accordingly, the Applicants seek a waiver of the requirement to file 15 hard copies of this information. Instead, the Applicants propose to provide this documentation to Staff and any other future case participant in electronic format, and to provide the Commission with one hard copy and three electronic copies on compact discs. The Applicants will make these documents available via an electronic discovery site ("eRoom") contemporaneously with the filing of the Application, with immediate access available to Staff. This request for waiver is consistent with recent Commission orders granting similar limited waivers.⁸ Should the Commission deny this request, the Applicants ask for a reasonable allowance of time to print the requisite filing copies of this material and submit it to the Commission prior to the Applicants' Application being deemed incomplete.

⁷ *Petition of Virginia Electric and Power Company, For approval of its 2024 RPS Development Plan under § 56-585.5 D 4 of the Code of Virginia and related requests*, Case No. PUR-2024-00147, Order on Motions at 9 (Sept. 12, 2024).

⁸ See *e.g.*, *id.*

**REQUEST FOR CONFIDENTIAL TREATMENT AND ADDITIONAL PROTECTIVE
TREATMENT FOR EXTRAORDINARILY SENSITIVE INFORMATION**

45. The Application, including supporting documents, contains confidential and extraordinarily sensitive information as designated. Accordingly, in compliance with Rate Case Rule 10 F and Rule 170 of the Commission's Rules of Practice and Procedure,⁹ this filing is accompanied by a contemporaneously-filed Motion for Entry of a Protective Order and Additional Protective Treatment, including a Proposed Protective Order.

COMPLIANCE WITH RULE 10 OF THE RATE CASE RULES

46. The Applicants' 2024 Annual Update complies with the requirements contained in Rule 10 of the Rate Case Rules.

47. In accordance with Rule 10 A, the Company filed with the Commission its notice of intent to file this Application on August 30, 2024, and provided that notice to those listed in Rule 10 J 1, as required by that subsection.

48. The Applicants have included all information required by Rule 10 B in the Application, including a table of contents, direct testimonies with one-page summaries, and properly labeled exhibits and schedules.

49. In accordance with Rule 10 H, the Applicants will make a searchable PDF version of the Application, direct testimonies, and Filing Schedules available via an eRoom contemporaneously with this filing, with immediate access available to (i) Staff, including identified members of the Divisions of Utility Accounting and Financing and Public Utility Regulation; and (ii) identified members of the Office of the Attorney General's Division of

⁹ 20 VAC 5-204-10 F; 5 VAC 5-20-170.

Consumer Counsel (“Consumer Counsel”).¹⁰ Also, in accordance with Rule 10 H, the Applicants will make electronic spreadsheets supporting the schedules that contain calculations available via an eRoom contemporaneously with this filing, with immediate access available to Staff.

CONCLUSION

WHEREFORE, Dominion Energy Virginia and OSW Project LLC respectfully request that the Commission (i) find that the costs presented in this Rider OSW Annual Update are reasonable and prudent; (ii) approve the proposed revenue requirement, cost allocation, rate design, and accounting treatment for service rendered on or after September 1, 2025; (iii) approve the Applicants’ proposed Rider OSW effective for usage on or after September 1, 2025 or the first day of the month which is at least fifteen (15) days following the date of any Commission order approving Rider OSW; (iv) grant the Applicants’ requested limited waivers; and (v) grant such other relief as deemed appropriate and necessary.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY
and OSW PROJECT LLC

STATE CORPORATION COMMISSION

State Corporation Commission

AT RICHMOND, DECEMBER 13, 2024

*Document Control Center**12/13/2024 - 10:31 am*

APPLICATION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2024-00206

and

OSW PROJECT LLC,

For revision of rate adjustment clause: Rider OSW,
Coastal Virginia Offshore Wind Commercial Project,
for the Rate Year commencing September 1, 2025

ORDER FOR NOTICE AND HEARING

On November 15, 2024, pursuant to § 56-585.1 A 6 of the Code of Virginia ("Code"), Virginia Electric and Power Company ("Company") and OSW Project LLC (collectively, the "Applicants") completed the filing with the State Corporation Commission ("Commission") of an annual update with respect to Rider OSW for the Coastal Virginia Offshore Wind Commercial Project ("Application").¹ Through their Application, the Applicants seek to inform the Commission of the status of the Coastal Virginia Offshore Wind Commercial Project ("Project") and to provide the proposed cost allocation, rate design, and accounting treatment for service rendered during the proposed rate year commencing September 1, 2025, and extending through August 31, 2026 ("Rate Year").²

¹ The Applicants filed the Application on November 1, 2024. Subsequently, on November 15, 2024, the Applicants filed the supplemental direct testimony of Elizabeth B. Lecky to provide additional details regarding the Company's cost analysis as directed by the Commission in Case No. PUR-2023-00195, thereby completing the filing of their Application.

² Application at 4.

According to the Application, the Project is proceeding on time and on budget, with certain minor modifications to the permitting schedule, although the Applicants state those modifications are not expected to impact the planned in-service date of late 2026.³ The Applicants represent that the total Project cost forecast remains \$9.8 billion (excluding financing costs), including approximately \$1.4 billion of combined transmission costs.⁴ The Applicants request that the Commission approve the updated expenditures for the Project, subject to subsequent true-ups, and find that such expenditures are reasonable and prudent in order to fulfill the Company's service obligations as a public utility.⁵

In this proceeding, the Applicants are requesting a total revenue requirement of \$639,500,653 for recovery in Rider OSW for the Rate Year.⁶ The Company has provided several changes to its revenue requirement calculations approved by the Final Order in Case No. PUR-2023-00195: (1) the Company is utilizing an updated revenue lag based on calendar year 2023 for calculating the cash working capital component of rate base and the Company requests that any issues related to the revenue lag be litigated in the Company's currently pending Rider GEN proceeding, Case No. PUR-2024-00097;⁷ (2) the Company proposes to establish a decommissioning trust fund to manage for the future asset retirement obligation activity of the Project; and (3) the Company has made two accounting changes related to Operations and

⁴ *Id.* at 6.

⁵ *Id.* at 8.

⁶ *Id.* at 12.

⁷ *Petition of Virginia Electric and Power Company, For Approval of a rate adjustment clause, designated Rider GEN, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders B, BW, GV, US-2, US-3, and US-4 pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00097 ("2024 Rider GEN Proceeding").

Maintenance costs and uncollectible expenses currently recovered in base rates for generation and distribution services.⁸

If the proposed Rider OSW revenue requirement for the Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to the Applicants, implementation of the proposed Rider OSW on September 1, 2025 would increase the bill of a typical residential customer using 1,000 kilowatt hours per month by \$2.60 compared to the current Rider OSW.⁹ The Company indicates it has calculated the proposed Rider OSW rates in accordance with the same methodology approved by the Commission in the previous Rider OSW proceeding, Case No. PUR-2023-00195.¹⁰

The Applicants also request a waiver, in part, of Rule 20 VAC 5-204-60 ("Rule 60") of the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities ("Rate Case Rules")¹¹ with respect to Schedules 3 through 5.¹² Rule 60 states that an application for a rate adjustment clause filed pursuant to Chapter 23 of Title 56 of the Code, that requires an overall cost of capital, shall include Schedules 3, 4, 5, and 8. The Applicants provide that after consultation with Commission Staff ("Staff"), and in the interest of judicial economy, the Applicants are only submitting Schedule 8 for the 2023

⁸ Application at 12-13. The two accounting changes include: (1) Operations and Maintenance expense charges for Project-related direct labor from (i) Dominion Energy Services, Inc., such as regulatory support, and (ii) Dominion Energy Technical Solutions, Inc., which provides technical support for Project transmission infrastructure; and (2) Rider OSW uncollectible expense. *Id.* at 13. To better isolate and track these expenses for the Project, the Company has proposed to include them in Rider OSW moving forward, with a corresponding and offsetting reduction to the cost of service included in base rates, where those costs are currently included. *Id.*

¹² Application at 16.

year-end capital structure as Schedules 3 through 5 are being reviewed by the Commission in the Company's 2024 Rider GEN Proceeding. Here, the Applicants request a waiver of the requirement to file Schedules 3 through 5 for the year-end 2023 capital structure.¹³ The Applicants also request a waiver of the requirement to file Schedules 3 through 5 for the year-end 2022 capital structures, as those have already been reviewed and approved by the Commission in the Company's 2023 biennial review proceeding, Case No. PUR-2023-00101.¹⁴ The Applicants are submitting Schedule 8 for the year 2022 and provide that their request for waiver is consistent with the Commission's recent order granting a similar waiver.¹⁵

The Applicants also request a waiver, in part, of Rule 60 and 20 VAC 5-204-90 ("Rule 90") of the Rate Case Rules with respect to Schedule 46.¹⁶ Rule 60 states that an application for a rate adjustment clause filed pursuant to Chapter 23 of Title 56 of the Code shall include Schedule 46, "Rate Adjustment Clauses and Prudency Determinations Pursuant to Chapter 23 (§ 56-576 *et seq.*) of the Code of Virginia," as identified and described in Rule 90. Schedule 46 requires an applicant to provide certain information, including key documents supporting the projected and actual costs recovered through the rate adjustment clause, such as economic analyses, contracts, results from requests for proposals, and cost/benefit analyses.¹⁷ According to the Applicants, the supporting documentation responsive to this requirement is voluminous

¹⁵ *Id.* at 16-17. *Petition of Virginia Electric and Power Company, For Approval of its 2024 RPS Development Plan under § 56-585.5 D 4 of the Code of Virginia and related requests*, Case No. PUR-2024-00147, Order on Motions at 9 (Sept. 12, 2024).

¹⁶ Application at 17.

¹⁷ Rule 90, Schedule 46 instructions, § (c) (1) (iii).

and not easily reviewed in hard copy (paper) format, and, therefore, the Applicants seek waiver of the requirement to file 15 hard copies of the information.¹⁸ Instead, the Applicants propose to: (i) provide the Commission with one hard copy and three electronic copies on compact discs; and (ii) provide the documentation to Staff and any future case participants in electronic format.¹⁹

Finally, in conjunction with the filing of their Application on November 1, 2024, the Applicants filed the Motion of Virginia Electric and Power Company and OSW Project LLC for Entry of a Protective Order and Additional Protective Treatment ("Motion for Protective Ruling") and a proposed protective order that suggests procedures governing the use of confidential and extraordinarily sensitive information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; the Applicants should provide public notice of their Application; a hearing should be scheduled for the purpose of receiving testimony from public witnesses and evidence on the Application; interested persons should have an opportunity to file comments on the Application or to participate as respondents in this proceeding; and Staff should be directed to investigate the Application and file testimony and exhibits containing its findings and recommendations thereon. We also find that a Hearing Examiner should be appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Applicants' Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations. Further, based on the particular facts of this case, we find that the Applicants' request to waive in part the requirements under Rule 60 of the Rate Case

¹⁸ Application at 17.

¹⁹ *Id.*

Rules with respect to the filing of Schedules 3 through 5, and the requirements under Rule 60 and Rule 90 of the Rate Case Rules with respect to the filing of certain Schedule 46 materials, should be granted.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2024-00206.

(2) All pleadings in this matter shall be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure ("Rules of Practice").²⁰ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an

²⁰ 5 VAC 5-20-10 *et seq.*

electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Applicants' Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations. A copy of each filing made with the Commission's Clerk's Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.²¹

(5) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Applicants' Application, as follows:

- (a) A hearing for the receipt of testimony from public witnesses on the Applicants' Application shall be convened telephonically at 10 a.m. on May 8, 2025.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before May 1, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141.
- (d) Beginning at 10 a.m. on May 8, 2025, the Hearing Examiner appointed to this case will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

²¹ Such electronic copies shall be sent to OHEParalegals@scc.virginia.gov.

(6) The evidentiary portion of the hearing on the Application shall be convened at 10 a.m. on May 8, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Applicants, any respondents, and Staff.

(7) An electronic copy of the public version of the Application may be obtained by submitting a written request to counsel for the Company: Vishwa B. Link, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or vlink@mcguirewoods.com. Interested persons also may download unofficial copies from the Commission's website: scc.virginia.gov/pages/Case-Information.

(8) On or before January 4, 2025, the Applicants shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC OF AN APPLICATION BY
VIRGINIA ELECTRIC AND POWER COMPANY
D/B/A DOMINION ENERGY VIRGINIA
AND OSW PROJECT LLC
FOR REVISION OF RATE ADJUSTMENT CLAUSE:
RIDER OSW, COASTAL VIRGINIA OFFSHORE WIND
COMMERCIAL PROJECT, FOR THE RATE YEAR
COMMENCING SEPTEMBER 1, 2025
CASE NO. PUR-2024-00206

- Virginia Electric and Power Company d/b/a Dominion Energy Virginia and OSW Project LLC (collectively, "Applicants") have applied for approval to revise their rate adjustment clause, Rider Offshore Wind ("Rider OSW").
- In this case, the Applicants have asked the State Corporation Commission ("Commission") to approve Rider OSW for the rate year beginning September 1, 2025, and ending August 31, 2026 ("Rate Year").
- For the Rate Year, the Applicants request a revenue requirement of \$639,500,653, which they state would increase the monthly bill of a typical residential customer using 1,000 kilowatt hours of electricity per month by \$2.60.
- A Hearing Examiner appointed by the Commission will hold a telephonic hearing in this case on May 8, 2025, at 10 a.m., for the receipt of public witness testimony.
- An evidentiary hearing will also be held on May 8, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Applicants, any respondents, and Commission Staff.
- Further information about this case is available on the SCC website at: scc.virginia.gov/pages/Case-Information.

On November 15, 2024, pursuant to § 56-585.1 A 6 of the Code of Virginia ("Code"), Virginia Electric and Power Company ("Company") and OSW Project LLC completed the filing with the State Corporation Commission ("Commission") of an annual update with respect to Rider OSW for the Coastal Virginia Offshore Wind Commercial Project ("Application"). Through their Application, the Applicants seek to inform the Commission of the status of the Coastal Virginia Offshore Wind Commercial Project ("Project") and to provide the proposed cost allocation, rate design, and accounting treatment for service rendered during the proposed Rate Year commencing September 1, 2025, and extending through August 31, 2026.

According to the Application, the Project is proceeding on time and on budget, with certain minor modifications to the permitting schedule, although the Applicants state those modifications are not expected to impact the planned in-service date of late 2026. The Applicants represent that the total Project cost forecast remains \$9.8 billion (excluding financing costs), including approximately \$1.4 billion of combined transmission costs. The Applicants request that the Commission approve the updated expenditures for the Project, subject to subsequent true-ups, and find that such expenditures are reasonable and prudent in order to fulfill the Company's service obligations as a public electric utility.

In this proceeding, the Applicants are requesting a total revenue requirement of \$639,500,653 for recovery in Rider OSW for the Rate Year. The Company has provided several changes to its revenue requirement calculations approved by the Final Order in Case No. PUR-2023-00195: (1) the Company is utilizing an updated revenue lag based on calendar year 2023 for calculating the cash working capital component of rate base and the Company requests that any issues related to the revenue lag be litigated in the Company's currently pending Rider GEN proceeding, Case No. PUR-2024-00097; (2) the Company proposes to establish a decommissioning trust fund to manage for the future asset retirement obligation activity of the Project; and (3) the Company has made two accounting changes related to Operations and Maintenance costs and uncollectible expenses currently recovered in base rates for generation and distribution services.

If the proposed Rider OSW revenue requirement for the Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to the Applicants, implementation of the proposed Rider OSW on September 1, 2025 would increase the bill of a typical residential customer using 1,000 kilowatt hours per month by \$2.60 compared to the current Rider OSW. The Company indicates it has calculated the proposed Rider OSW rates in accordance with the same methodology approved by the Commission in the previous Rider OSW proceeding, Case No. PUR-2023-00195.

Interested persons are encouraged to review the Applicants' Application and supporting documents in full for additional details about this matter.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Application and supporting documents and thus may adopt rates that differ from those appearing in the Application and supporting documents.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled public hearings on the Application. A hearing for the receipt of testimony from public witnesses on the Application shall be convened telephonically at 10 a.m. on May 8, 2025. On or before May 1, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141. This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

Beginning at 10 a.m. on May 8, 2025, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.

On May 8, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Hearing Examiner will convene a hearing to receive testimony and evidence related to the Application from the Applicants, any respondents, and the Commission Staff.

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

Electronic copies of the public version of the Application may be obtained by submitting a written request to counsel for the Company, Vishwa B. Link, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or vlink@mcguirewoods.com. Interested persons also may download unofficial copies of the public version of the Application and other documents filed in this case from the Commission's website: scc.virginia.gov/pages/Case-Information.

On or before May 1, 2025, any interested person may submit comments on the Application by following the instructions found on the Commission's website: scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2024-00206.

On or before January 31, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Applicants, any other respondents and Staff electronically as described above. Pursuant to 5 VAC 5- 20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10

et seq. ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2024-00206. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing.

On or before March 28, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served on the Staff, the Applicants, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2024-00206.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The public version of the Application, the Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and other documents filed in the case may be viewed at: scc.virginia.gov/pages/Case-Information.

VIRGINIA ELECTRIC AND POWER COMPANY AND OSW PROJECT LLC

(9) The Applicants shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before January 24, 2025, the Applicants shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling.

(11) On or before May 1, 2025, any interested person may submit comments on the Application by following the instructions found on the Commission's website: scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2024-00206.

(12) On or before January 31, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Applicants, any other respondents and Staff as described in Ordering Paragraph (3). Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be

represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2024-00206.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Applicants shall serve upon the respondent a copy of the public version of the Application and supporting materials, unless these materials already have been provided to the respondent.

(14) On or before March 28, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served on the Staff, the Applicants, and all other respondents. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2024-00206.

(15) The Staff shall investigate the Application. On or before March 28, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof on counsel to the Applicants and all respondents.

(16) On or before April 16, 2025, the Applicants shall file with the Clerk of the Commission any rebuttal testimony and exhibits that they expect to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page.

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by Ordering Paragraph (2), all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to the Staff.²² Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) The Applicants' requested waivers, in part, of Rule 60 and Rule 90 of the Commission's Rate Case Rules are granted as described herein.

(20) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

²² The assigned Staff attorney is identified on the Commission's website, scc.virginia.gov/pages/Case-Information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2024-00206, in the appropriate box.

O. Closed Meeting

Motion to Adjourn

January 16, 2025

C

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 16TH DAY OF JANUARY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
CATHERINE DOUGLASS, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:03 p.m.

Pastor Steven Snodgrass, Crenshaw United Methodist Church, provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Administrator Bowen would like to amend the agenda to include a Closed Meeting for the sale of LRA property and assets. Supervisor Roark moves to approve the agenda with the amendment. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Approval of the Minutes: Minutes are presented from the regular Board meeting held December 19, 2024. Vice Chair Norton moves to approve the minutes as presented. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins begins the Delegations from the Public with a reminder that the topics should be from tonight's or last month's agenda.

1 – Sonny Abbott: Begins by complimenting the Board for adopting a Code of Ethics. He expresses concern over the restrictions placed on Delegations limiting topics to regular monthly meetings while excluding other meetings of the Board. He asks if rent for the BB&T bank is in the FY25 budget. Administrator Bowen states this will be discussed tonight during New Business.

Chairman Collins begins the first public hearing.

1 – Sale of Public Property
a. Tax Parcel # 52-1-1-I - 225 Butterwood Trail, Blackstone

Supervisor Roark moves to open the public hearing for the sale of Tax Parcel #52-1-1-I, 225 Butterwood Trail, Blackstone. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen notes this parcel was the site of the FDCE fire.

With no one wishing to speak either for or against the sale of this parcel, Supervisor Ingram moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

1 – Sale of Public Property

b. Part of Tax Parcel # 43-130 - Dominy Corner Road and Route 40

Supervisor Roark moves to open the public hearing for the sale of Part of Tax Parcel # 43-130, Dominy Corner Road and Route 40. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against the sale of this parcel, Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Roark. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen explains that the first parcel, approximately twenty-three (23) acres, is the site of an operating farm-to-fuel project, and the business owner would like to expand his operations into the second parcel. The parcels' proximity to the existing railroad spur is ideal for shipping the fuel.

Selling price for tax parcel # 52-1-1-I is \$135,000; selling price for the part of tax parcel # 143-30 is \$130,000. The business owner thinks his expansion will bring with it ten to fifteen jobs. Ms. Douglass believes all criteria have been met for this sale, though deeds and contracts need to be finalized.

With the attorney's assurance that the Board is legally able to sell tonight, Supervisor Roark moves to approve the sale of tax parcel # 52-1-1-I, otherwise known as 225 Butterwood Trail, Blackstone, for the price of \$135,000. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Ingram moves to agree to sell part of tax parcel # 43-130, Dominy Corner Road and Route 40, Blackstone, for the price of \$130,000, approximately 8.4 acres. A second is provided by Supervisor Rorak. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
---------------	-----

D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Not seeing a legal description in tonight's package, Supervisor Toth asks if this land has been surveyed. Ms. Douglass explains that the legal description is part of the hold up with the deeds, but they have been in contact with the surveyor to obtain that. In the event a survey is needed, Supervisor Toth asks who should incur that cost. A consensus is that it should be the purchaser and that it be written into the sales contract as such. The purchaser needs to know he can purchase as he will be applying for grant funding in addition to his loan.

Supervisor Roark moves to authorize County Administrator Bowen to execute all documents as long as legal counsel has authorized all pertinent information in the form of documents pertaining to real estate. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board receives the following Department reports:

1 – Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for December 2024. Aaron French, Assistant Residency Administrator, reports that crews are busy on the Route 46 project which is still on schedule for spring completion. He recently met with the construction manager to discuss the set of plans for the 723/460 R-cut project and has a pre-construction meeting on February 3. Paving contracts for 2025 secondary routes will be advertised next week. Traffic engineers are still looking at the Schutt Road speed study, but they now hold a list of every bus stop on that road to see if signs or site distance improvements are needed. Thanks to the work of Dianna Bryant and Buddy Hyde, mile marker signs are being installed on Highway 460 from Dinwiddie to Prince Edward. Supervisor Ingram thanks VDOT for filling the potholes on Route 49. Supervisor Toth commends VDOT for the great job on snow removal. Mr. French reports that during the two weeks of weather issues, they had no injuries or accidents. Supervisor Roark asks if VDOT could check Sunnyside Road for a shady place that is still icy. Administrator Bowen mentions the current VDOT sign directing traffic to the Voter Registrar's office. Mr. French can help move that sign closer to the new location when the time comes.

2 – Solid Waste: No report provided.

3 – Building Inspection/Erosion & Sediment Control: December 2024 report; 34 building permits issued for \$33,241.16 in permit fees with \$5,518,345.43 in construction value; 16 inspections performed.

4 – Animal Control: December 2024 report; 138 animal control calls; 0 summons issued; 0 convictions; 1 compliance notification issued; 1 dog held over 40 days (in foster care). Included in tonight's package are pictures of donations received in December. Also included are reports showing how many animals came through the shelter in several previous years, ranging from 304 animals in 2020 to 508 animals in 2024.

5 – Piedmont Health District: No report provided by VDH. In the package is a report on the opioid settlement funds distribution and a letter from LOC Family Services. Surrounding counties are coming together to find ways to best use the opioid revenue.

6 – Nottoway County Public Library: Board of Trustees Meeting Packet for January 15, 2025. Nottoway County Public Library System Monthly Report for January 2025; and Board of Trustees Meeting Packet for December 18, 2024. Nottoway County Public Library System Monthly Report for December 2024.

7 – Nottoway County School Board: Dr. Grimes is present and shares how the school makes a determination on opening during a weather event. She commends Mr. Buddy Hyde on his level of communication during the decision-making process.

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for December 2024. Mr. Zody would like the Board to consider raising or instating fees on certain services. A 2232 review, a Comprehensive Plan amendment, and a review of minor subdivisions have no associated fees but should. He will compare fees from surrounding counties. He does not want fees to hinder commercial development in the County. Mr. Zody is asked to bring current and proposed fees to the next worksession.

Mr. Zody has completed the annual reports for the County's Petco grants. He has had two previous submissions awarded to the County. Before the Planning Commission and the Board of Supervisors in February, Mr. Zody has two to three public hearings including a request from Cross Creek Nursery to remove conditions from its previous Special Exception and a review for the new courthouse complex radio tower. He speaks to how often he receives notices from neighboring Brunswick County regarding updates to its Solar Ordinance. Lastly, Mr. Zody spoke with a LoopNet representative to create a marketing brochure for the website, and Nottoway's listing has received 7,577 views in the last ninety days. Chairman Collins encourages Mr. Zody to list all available Pickett Park properties.

10 – Emergency Services: Emergency Services Coordinator's Report for January 2024. Fire & EMS Working Group Planning Meeting Agenda for January 7, 2024. Mr. Hyde reports that several counties came together virtually to discuss GIS maps. He was involved in multiple weather calls, and he thanks VDOT and Public Works for their work. He applied for a \$15,000 no-match state grant for the Incident Reporting System. He received notice of a \$33,581 50/50 grant award for Emergency Medical Dispatch.

Supervisor Roark inquires about an EMS tax and asks for a projection on when hirees will be needed for the fire departments. Discussion follows on the tax and its uses for maintenance and operations. Mr. Hyde will research and report.

Administrator Bowen says that Burkeville is seeking a building permit to expand the firehouse, and he asks the Board to consider waiving the building permit fees. Supervisor Roark moves to waive the building permit fees for the Burkeville Fire Department's expansion project. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

11 – Piedmont Regional Jail Authority: Chairman Collins reports that the jail is taking federal inmates and revenue, as of yesterday, is set to exceed expenses. Also, there is support from DBHDS for additional state funding for VCBR-associated inmates at the jail.

12 – Local Redevelopment Authority: Lease Actions Income Report dated January 15, 2025. Officer's Club Income Report dated January 15, 2025.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Present but nothing to report.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package. Vice Chair Norton points out that the tax collection rate is at 96.37%.

4 – Christy A. Hudson, Commissioner of the Revenue: No report provided.

5 – Leanne Watrous, Commonwealth's Attorney: Case reports provided in the package.

The Board considers the following unfinished business.

1a – Animal Shelter Update: Administrator Bowen reviews a draft list of CARES and County's funding responsibilities. Supervisor Ingram notes that CARES met its goal of \$50,000 for the gift match. The architect is to provide a final sketch, and the goal is to advertise for bid the second week of February.

1e – Public Safety Radio Project: Administrator Bowen mentions a mock site photo of the proposed tower in Blackstone that could aid the Planning Commission in approval. Mr. Zody has requested pictures for the Planning Commission's 2232 review next week.

1f – Supervisor Roark would like to advertise for courthouse tours. Administrator Bowen has arranged with Buckingham for Tuesday, January 28th.

2 – CEDS Committee Appointment: This is a new committee being organized by the CRC. Phil Miskovic has agreed to participate. Administrator Bowen would like to add Gregg Zody as well. The CRC is hoping for three appointments, but he has not secured a third.

Chairman Collins says as part of compliance with the judge's order, the Board has formed a Courthouse Revitalization Committee comprised of:

Steve Bowen	Supervisor Ingram	Supervisor Toth
Woodson Irby	Jane Brown	Sheriff Jones

Supervisor Roark moves to set the Courthouse Revitalization Committee with the members mentioned. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Roark makes a motion to add Phil Miskovic and Gregg Zody to the CEDS Committee sponsored by the CRC. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Supervisor Ingram reports that he has seen a RiverStreet Network vehicle in the County.

Supervisor Roark would like to check on touring the Appomattox Courthouse the same day as Buckingham.

The Board considers the following new business:

1 – BZA Vacancy Recommendation: Gregg Zody informs the Board that Roger Norton resigned his seat on the Board of Zoning Appeals leaving a vacancy. While there is no district requirement, Mr. Norton was from District 1. Supervisor Ingram has spoken with Greg Wolven who is willing to serve. Supervisor Ingram makes a motion to appoint Greg Wolven. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes

the Consent Items. A second
n carries as follows:

January 16, 2025

Chairman Collins begins a discussion on page 43 of the Expenditure report regarding Caterpillar Financial Services. He would like to know if any negotiations or savings can be found with these equipment leases. Administrator Bowen reports that three of the four pieces of landfill equipment are on lease. Discussion turns to what equipment may be needed should the landfill be downsized to a transfer station. Administrator Bowen has contacted TRC to again request a cost comparison on landfill options.

Vice Chair Norton asks regarding November's charges for Parker Oil listed as Vehicle Repairs. Sheriff Jones explains that those charges are for gasoline for County vehicles. Every department utilizes the gas pump. The descriptions in the accounting system are often confusing. Parker Oil owns the tank and is the one to fill it.

The following information items are presented in the package:

- 1 – CRC – December 2024 Items of Interest
- 2 – Fort Barfoot MTC Change of Command Ceremony
- 3 – Timber Contract
- 4 – Letter – John M. Boswell, Non-Judicial Sale of Real Estate
- 5 – Dominion Energy – (2) Orders/Notices

Administrator Bowen has a goal for moving the Treasurer and Commissioner of the Revenue, but there is still work ongoing at their new location. He reminds Board members that their Statement of Economic Interest is due the first of February. Appointments are set to meet with Delegate Ware and Senator Mulchi during VACo County Government Day. Budget requests were sent to County departments. The Finance Committee meets January 22nd. Crewe is having a meeting regarding its Revitalization efforts in both February and March.

Administrator Bowen adds that the Commissioner of the Revenue is researching the Fire and EMS taxes. Prince Edward County collects it. It is earmarked for Fire and EMS, and figures will be provided once they are ready.

Vice Chair Norton and Chairman Collins interviewed with Billy Coleburn today to report on the state of the County.

Supervisor Ingram met with the Mayor of Burkeville and Mr. Wolven. They have lost revenue due to the school closing and a factory shutdown, so discussion was had regarding economic development. Supervisor Ingram is pleased with progress on the animal shelter and is encouraged that its location may help Burkeville.

Supervisor Roark would like this Board to complete all large projects before their terms end and asks the members to consider one large loan to fund them all. With that loan, the Board would know its debt service for several decades. Chairman Collins does not like a long amortization, particularly on equipment, but is open to having that discussion.

Supervisor Toth looks forward to this year and the budget. He is encouraged to see citizens from his district getting involved in the community.

Chairman Collins discussed revenues, expenses, and the judge's order for a new courthouse during the interview with Mr. Coleburn. A citizen alerted him to a USDA facilities grant for help with the courthouse, and he has contacted CRC regarding that.

Vice Chair Norton moves that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(3) Discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body, specifically real property located near Fort Barfoot. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

January 16, 2025

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 8:49 p.m.

The Board reconvenes in Open Session at 9:04 p.m.

Supervisor Toth reads the certification announcement:

WHEREAS, the Nottoway County Board of Supervisors has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, § 2.2-3712 (D) of the *Code of Virginia* requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

A roll call vote is taken with responses as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Supervisor Toth makes a motion to accept the high bid from Brown's Forest Products on a tract of timber the County owns at Fort Barfoot of \$197,700 and giving legal rights to Administrator Steve Bowen to sign the contract on behalf of the County pertaining to this sale of timber to be accepted with the terms and conditions set forth in the timber sale prospectus, deed and contract with review of legal counsel. A second is provided by Supervisor Roark. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins notes that Brandon Martin was hired as a consultant to represent the County and handle the timber sales. There will be some additional timber sold throughout the year. He follows best management practices of the State of Virginia Forestry Department.

Supervisor Roark moves to adjourn. A second is provided by Supervisor Toth. Chairman Collins adjourns the meeting at 9:06 p.m.

Chairman

Clerk

MEMORANDUM

TO: Planning Commission
and Board of Supervisors

FROM: Gregg Zody, Director *GZ*

DATE: February 11th, 2025

SUBJECT: Special Exception Request for Manufactured Home

BACKGROUND*Applicant/Property Owner*

H.M. Services/Salt Water Generators, LLC, 7580 South Genito Road, Jetersville, Virginia 23083

Request

Applicant seeks to remove the existing residence and replace it with a double-wide manufactured home on a slab.

ANALYSIS*Zoning/Land Use Compatibility*

The site is zoned Rural Residential (RR), as are all adjacent properties adjacent to the site. Furthermore, all adjacent land uses are single-family residential.

COMPREHENSIVE PLAN

The General Future Land Use Map identifies this area as Residential and states the following on page 93, under “Special Policy Areas, B. Loss of Agricultural Land and Open Space”:

[...]

The current zoning map in Section IV shows areas designated for residential, commercial, industrial, agricultural, and conservation uses in the County. A challenge for the County will be to accommodate future growth demands in a planned manner that provides for the conservation of important resources. The future land use map in Section IV denotes areas for future residential, commercial and industrial development that are either in areas where adequate public services (including water and sewer) exist or in close proximity to such services. Any development that does occur in the rural areas should be designed to incorporate significant open spaces and designed to minimize environmental impacts on the land and water resources.

Any future growth and development patterns must provide both requirements and incentives for the conservation of land. Nottoway County's zoning ordinances outline minimum lot sizes for

different uses – and in some cases, minimum district sizes. For residential uses, the ordinances stipulate requirements for either the provision of private water and sewer or access to public or community water and sewer service. Environmental impacts of any newly planned development area should be considered. It is essential to maintain a balance between development and preservation objectives throughout the County. An educational and programmatic approach in conjunction with land conservation should be initiated to encourage property owners to limit development. Incentives can be offered for appropriate conservation and environmental design.

Sec. 5-5-2(8) SPECIAL EXCEPTION - ISSUES FOR CONSIDERATION

In considering a Special Exception Permit application, the following factors shall be given reasonable consideration. The applicant shall address all the following in its statement of justification or Special Exception Permit plat unless not applicable, in addition to any other standards imposed by this Ordinance: *Staff Responses are italicized.*

- 1) Whether the proposed Special Exception Permit is consistent with the Comprehensive Plan.

The Rural Residential future land use designation supports this request.

- 2) Whether the proposed Special Exception Permit will adequately provide for safety from fire hazards and have effective measures of fire control.

Yes. The home will be inspected to ensure it applies to building code and issued a certificate of occupancy. In addition, the site is located with two miles of the Crewe Fire Department station and the Nottoway County Rescue Squad station.

- 3) The level and impact of any noise emanating from the site, including that generated by the proposed use, in relation to the uses in the immediate area.

No noise is anticipated from the home other than typical noises generated by a single-family home.

- 4) The glare or light that may be generated by the proposed use in relation to uses in the immediate area.

None anticipated.

- 5) The proposed location, lighting and type of signs in relation to the proposed use, uses in the area, and the sign requirements of this Ordinance.

The site will comport with setbacks for the Rural Residential zoning district. No signage is anticipated.

- 6) The compatibility of the proposed use with other existing or proposed uses in the neighborhood, and adjacent parcels.

This use blends with adjacent single-family residences.

- 7) The location and area footprint with dimensions (all drawn to scale), nature and height of existing or proposed buildings, structures, walls, and fences on the site and in the neighborhood.

The footprint is planned to occupy the space occupied by a dilapidated single family home, as the current structure will be demolished (with an approved demolition permit) before the placement of the double-wide manufactured home.

- 8) The nature and extent of existing or proposed landscaping, screening and buffering on the site and in the neighborhood.

The site has vegetative screening to the west and south, although single-family structures are not required to install screening or buffering.

- 9) The timing and phasing of the proposed development and the duration of the proposed use.

No phasing is proposed, although the existing structure will need to be demolished prior to the placement of the double-wide home.

- 10) Whether the proposed Special Exception Permit will result in the preservation or destruction, loss or damage of any topographic or physical, natural, scenic, archaeological or historic feature of significant importance.

The proposed site is already cleared. No known unique habitat nor historical features are present.

- 11) Whether the proposed Special Exception Permit at the specified location will contribute to or promote the welfare or convenience of the public.

This proposal will replace a blighted structure with a double-wide manufactured home on a concrete slab. The threat to the welfare and convenience of the public in this case will be minimal.

- 12) The traffic expected to be generated by the proposed use, the adequacy of access roads, and the vehicular and pedestrian circulation elements (on and off-site) of the proposed use, all in relation to the public's interest in pedestrian and vehicular safety, efficient traffic movement and access in case of fire or catastrophe.\

This use will generate approximately 8-10 vehicle trips per day as a residential use and VDOT requires a private entrance to access US460.

- 13) Whether, in the case of existing structures proposed to be converted to uses requiring a Special Exception Permit, the structures meet all code requirements of Nottoway County.

N/A.

- 14) Whether the proposed Special Exception Permit will be served adequately by essential public facilities and services.

The site will be served by VDH-approved well and septic systems.

- 15) The effect of the proposed Special Exception Permit on groundwater supply.

No negative effects on the groundwater are anticipated for this use.

- 16) The effect of the proposed Special Exception Permit on the structural capacity of the soils.

No adverse effects on the structural capacity of the soils are expected.

- 17) Whether the proposed use will facilitate orderly and safe road development and transportation.

The Virginia Department of Transportation has reviewed this application and requires a private entrance off US460.

- 18) The effect of the proposed Special Exception Permit on environmentally sensitive land or natural features, wildlife habitat and vegetation, water quality, and air quality.

Minimal effects. The site contains no wetlands or floodplains.

- 19) Whether the proposed Special Exception Permit use will provide desirable employment and enlarge the tax base by encouraging economic development activities consistent with the Comprehensive Plan.

The only revenue expected to be generated from this use will be property tax revenue.

- 20) Whether the proposed Special Exception Permit considers the needs of agriculture, industry, and businesses in future growth.

The site is zoned Rural Residential, which does not allow agricultural activity.

- 21) The effect of the proposed Special Exception Permit use in enhancing affordable shelter opportunities for residents of the County.

This proposal provides enhanced affordable shelter opportunities if the applicant chooses to rent it.

- 22) The location, character, and size of any outdoor storage.

There appears to be outdoor storage on the southwest corner of the site. Whether the structure lies within the parcel's boundaries is undetermined at this time.

- 23) The proposed use of open space.

Use will more than likely remain open space.

- 24) The location of any major floodplain and steep slopes.

None.

- 25) The location and use of any existing nonconforming uses and structures.

The current residence will be demolished, and the new home must meet the setbacks required in the Rural Residential zoning district.

- 26) The location and type of any fuel and fuel storage.

None identified by the applicant.

- 27) The location and use of any anticipated accessory uses and structures.

None identified by the applicant.

- 28) The area of each use; if appropriate.

N/A.

- 29) The proposed days/hours of operation.

N/A.

- 30) The location and screening of parking and loading spaces and/or areas.

N/A.

- 31) The location and nature of any proposed security features and provisions.

N/A.

- 32) The number of employees.

N/A.

- 33) The location of any existing and/or proposed adequate on- and off-site infrastructure.

On-site infrastructure would be electrical service, a well, and a septic system.

- 34) Any anticipated odors which may be generated by the uses on-site.

No odors anticipated.

- 35) Whether the proposed Special Exception Permit uses sufficient measure to mitigate the impact of construction traffic on existing neighborhoods and school areas.

The site is adjacent to US460 so that all construction traffic will ingress and egress from US460.

- 36) Refuse and service areas, with particular reference to the items in (1) and (2) of this subsection.

N/A.

- 37) Utilities, with reference to location, availability and compatibility.

Electrical power will connect to the same general location.

AGENCY COMMENTS

From VDOT:

1. Route 460 East Colonial Trail has a functional classification of principal arterial, a posted speed limit of 60 MPH and a last reported average daily traffic (ADT) of 9,700 vehicles per day.
2. The proposed use will require a private entrance.
3. VDOT has not objection to the submitted special exception application.

STAFF RECOMMENDATION

Staff recommends approval of the special exception request subject to the following conditions

RECOMMENDED STAFF CONDITIONS

1. This special exception is granted for a double-wide manufactured home upon applying for and receiving a demolition permit before new construction/placement can commence.
2. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.
3. Well and Septic Permits issued by the Virginia Department of Health prior to occupancy of the home (i.e. Occupancy Permit).
4. Applicant shall secure a driveway permit through the Virginia Department of Transportation.

MEMORANDUM

TO: Planning Commission
and Board of Supervisors

FROM: Gregg Zody, Director **GZ**

DATE: February 11th, 2025

SUBJECT: Special Exception Amendment Request

BACKGROUND

The applicant/owner is Tropical Treehouse Company (DBA Cross Creek Nursery), 501 Courthouse Road, North Chesterfield, Virginia, 23236.

The approximate location of the site is the west side of Green Hill Road, approximately .77 miles north of the intersection of Lee Lake Road. The property owner, Cross Creek Nursery, 2551 Green Hill Road, requests a special exception amendment to remove conditions #1 and #5 from their letter of approval (Exhibit 1) to allow the duplex owners to rent to non-nursery workers.

The applicant stated in their application (Exhibit 3) that the reason for removing the conditions are market conditions and technological innovations that do not require both dwelling units to be limited to housing farm workers.

ZONING/LAND USE COMPATIBILITY

Tax Map #22-75 is zoned A-1 and contains 82.43 acres. All adjacent property is zoned A-1 (Exhibit 2). Surrounded land uses are a mix of single-family homes and farmland. The primary use of this site is horticultural, and the Board approved the duplex of Supervisors to be a subordinate use in conjunction with the nursery.

The proposal should not inhibit the main features of the district, i.e. agricultural activities and silviculture, and the parcel (82.43 acres) with horticulture as its primary use, is adjacent to other residential uses. Furthermore, a duplex rented to the public as opposed to restricting tenancy nursery workers should not add significantly more traffic on the nearby roadways, nor create noise, dust, and lighting nuisances.

Furthermore, it is the staff's opinion that an amended Special Exception request based on tenancy conforms with the existing land use development patterns, which are predominately residential and agricultural activity.

use, all in relation to the public's interest in pedestrian and vehicular safety, efficient traffic movement and access in case of fire or catastrophe.

The only traffic generated by the use would be by the tenants and deliveries from the Post Office, Fed Ex, etc. The average vehicle trips per day for a dwelling unit is 8-10.

- 13) Whether, in the case of existing structures proposed to be converted to uses requiring a Special Exception Permit, the structures meet all code requirements of Nottoway County.

N/A.

- 14) Whether the proposed Special Exception Permit will be served adequately by essential public facilities and services.

The site is served by a private well and septic system.

- 15) The effect of the proposed Special Exception Permit on groundwater supply.

Any household sewage discharge will be contained in a permitted septic system. Ideally, this prevents any potential impacts on the groundwater supply.

- 16) The effect of the proposed Special Exception Permit on the structural capacity of the soils.

It is unlikely the proposed use will significantly impact the structural capacity of the soils.

- 17) Whether the proposed use will facilitate orderly and safe road development and transportation.

The use is a duplex. Its impact on the driveway and Green Hill Road is expected to be minimal. VDOT had no issues with this request.

- 18) The effect of the proposed Special Exception Permit on environmentally sensitive land or natural features, wildlife habitat and vegetation, water quality and air quality.

The site is not located in a floodplain, nor a known environmentally sensitive site.

- 19) Whether the proposed Special Exception Permit use will provide desirable employment and enlarge the tax base by encouraging economic development activities consistent with the Comprehensive Plan.

It is a residential use, and will generate property tax revenue.

- 20) Whether the proposed Special Exception Permit considers the needs of agriculture, industry, and businesses in future growth.

The site is zoned Agricultural (A-1), and as such, industry and business (in general) are not by-right permitted uses, and currently, the principal use is a production nursery without the retail component.

- 21) The effect of the proposed Special Exception Permit use in enhancing affordable shelter opportunities for residents of the County.

The proposal would enhance affordable shelter opportunities for County residents in a locality with affordable housing needs.

- 22) The location, character, and size of any outdoor storage.

N/A.

- 23) The proposed use of open space.

To maintain the existing open space surrounding the duplex.

- 24) The location of any major floodplain and steep slopes.

None.

- 25) The location and use of any existing nonconforming uses and structures.

None.

- 26) The location and type of any fuel and fuel storage.

None.

- 27) The location and use of any anticipated accessory uses and structures.

None identified as of this writing.

- 28) The area of each use, if appropriate.

Duplex is approximately 1,400 square feet plus any area for well and septic systems.

- 29) The proposed days/hours of operation.

N/A – It is a residential use.

- 30) The location and screening of parking and loading spaces and/or areas.

Presumably adjacent to the residence. No screening nor loading spaces/areas are required.

- 31) The location and nature of any proposed security features and provisions.

N/A.

- 32) The number of employees.

Staff believes only one-half of the duplex is occupied by an employee at this time.

- 33) The location of any existing and/or proposed adequate on- and off-site infrastructure.

Aside from septic and water, none.

- 34) Any anticipated odors which may be generated by the uses on-site.

N/A.

- 35) Whether the proposed Special Exception Permit uses sufficient measures to mitigate the impact of construction traffic on existing neighborhoods and school areas.

The duplex is already constructed; therefore no additional construction equipment traffic is anticipated at this site.

- 36) Refuse and service areas, with particular reference to the items in (1) and (2) of this subsection.

N/A.

- 37) Utilities, with reference to location, availability and compatibility.

Electric, septic, and well will be utilized. Staff will not know the connection location to the power source until building plans are submitted.

AGENCY COMMENTS

From VDOT

1. Route 609 Green Hill Road has a functional classification of local road, a statutory speed limit of 55 MPH for cars and 45 MPH for trucks and an average daily traffic (ADT) of 300 vehicles per day.
2. The proposed use will require a private entrance.
3. VDOT has no objection to the submitted special exception application.

STAFF RECOMMENDATION

Staff recommends approval of the amended special exception request based on the applicant's stated reasons, namely market conditions and technological improvements implemented at the nursery that create the need for renting out the two units for the general public.

It is the staff's contention that a special exception approval runs with the property, and if the Board of Supervisors were so compelled, staff would note that a special exception application for the duplex be reintroduced and go through the public hearing process on a newly created 5-acre lot. Hence, the duplex becomes a primary use with a unique property tax map number instead of its current status as a subordinate use to the nursery.

RECOMMENDED STAFF CONDITIONS

1. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.

North Chesterfield, VA 23236

Mr. McAuliffe,

This letter serves as notice that your Special Exception for a duplex was approved by the Board of Supervisors at their July 20th, 2023 public hearing with conditions recommended by Staff and the Planning Commission at their July 18th, 2023 public hearing, which they unanimously recommended approval.

Here are the conditions:

1. This special exception is granted for a duplex for employees located on tax map #22-75.
2. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission and/or Board of Supervisors.
3. Must have septic and well permits issued by the Health Department prior to occupancy.
4. Must apply for and receive a certificate of occupancy from the Nottoway County Building Official.
5. On the annual anniversary date of the granting of this special exception request, the owner shall certify to the Planning Director that occupants of the duplex of the past year have employed by the owner.

Prior to the issuance of the Certificate of Occupancy, staff will also need a copy of the septic and well permits from the Health Department before this case is considered complete.

Don't hesitate to reach out if you have questions or concerns. You can reach me at 434-645-8696 or gzody@nottoway.org.

MEMORANDUM

TO: Planning Commission
and Board of Supervisors

FROM: Gregg Zody, Director *GZ*

DATE: February 11th, 2025

SUBJECT: Special Exception Request for Telecommunications Tower

SYNOPSIS

The applicant, Nottoway County, is seeking approval from the Planning Commission and Board of Supervisors to construct a 300-foot self-supporting radio tower for Nottoway County. The communication tower site is tax map #31-70 and utilizes .11 acres (4.8k square feet) of the 1.3-acre site. This parcel also houses the Health Department and Emergency Operations Center. (Exhibit 1).

This proposal is to house the County of Nottoway's P.25 Emergency Management Communication Radio Network Antennas and base station. An existing antenna system [behind the Sheriff's Office] and backup power systems are outdated and unable to comply with today's emergency services technology.

As part of the special exception request, the developer is seeking a reduction in setbacks through the Board of Supervisors, per Sec. 4-13-10 [Setbacks] of the Zoning Ordinance, the developer seeks relief through the Board of Supervisors to waive the setbacks from what the Code requires, as stated in the following section.

ZONING AND LAND USE COMPATIBILITY

The current and proposed tower sites are both in the Conservation District. Current land uses in this district include government facilities (local, state, and federal), residential, church, and agriculture. The standard setbacks in this district are one hundred feet from the front property line, fifty feet from the side property lines, and seventy feet from the rear property line. Accessory structures may be located fifteen feet from the side property lines.

Regarding land use compatibility, it should be noted that a radio tower currently stands behind the Sheriff's office is approximately 180 feet tall (nearly forty years old) and will be removed in conjunction with the construction of the new tower.

Sec. 4-13-10 Setbacks

The following setback requirements shall apply to all towers and antennas for which a Special Exception Permit is required; provided, however, that the governing authority may reduce the standard setback requirements if the goals of this division would be better served thereby.

1. Towers must be set back a distance equal to two hundred (200) percent of the height of the tower from any off-site residential structure. Towers must be set back one hundred (100) percent of the height of the tower from the boundaries of the property on which the tower is located.

2. Towers, guys, and accessory facilities must satisfy the minimum zoning district setback requirements for primary structures.

Regarding the applicant's waiver request, staff supports the complete waiver request as this section of the zoning ordinance was approved. As illustrated in Exhibit 2, there are two off-site residential structures within the 600-foot setback (200%).

The existing location cannot meet the 300-foot setback (100%) from the boundaries of the site location. See Exhibit 3.

COMPREHENSIVE PLAN

The Planning Commission held a public hearing on January 21, 2025, to conduct a mandatory §15.2 – 2232 Review ("Legal Status of Plan") and found that the public need for telecommunication towers is identified in the Comprehensive in multiple sections of the document, as well as the CRC Hazard Mitigation Plan. The staff report for the hearing is attached (Exhibit 4).

Sec. 5-5-2(8) SPECIAL EXCEPTION - ISSUES FOR CONSIDERATION

In considering a Special Exception Permit application, the following factors shall be given reasonable consideration. The applicant shall address all the following in its statement of justification or Special Exception Permit plat unless not applicable, in addition to any other standards imposed by this Ordinance: *Staff Responses are italicized.*

- 1) Whether the proposed Special Exception Permit is consistent with the Comprehensive Plan.

Yes. The Planning Commission conducted the 2232 review and found the request to be in compliance with the Comprehensive Plan regarding the expressed need for telecommunication towers.

- 2) Whether the proposed Special Exception Permit will adequately provide for safety from fire hazards and have effective measures of fire control.

Yes. It will also enable better radio response to all first responders.

3) The level and impact of any noise emanating from the site, including that generated by the proposed use, in relation to the uses in the immediate area.

Noise issues are not associated with this use.

4) The glare or light that may be generated by the proposed use in relation to uses in the immediate area.

The Zoning Ordinance requires lighting for towers exceeding 199 feet in height. Dual LED lighting will be used.

5) The proposed location, lighting and type of signs in relation to the proposed use, uses in the area, and the sign requirements of this Ordinance.

No signage is proposed. Dual LED lighting will be used.

6) The compatibility of the proposed use with other existing or proposed uses in the neighborhood, and adjacent parcels.

The fact that a tower is located behind the Sheriff's Office implies that its de facto compatibility with adjacent uses is acceptable since it serves area residents' health, safety, and welfare needs.

7) The location and area footprint with dimensions (all drawn to scale), nature and height of existing or proposed buildings, structures, walls, and fences on the site and in the neighborhood.

See Exhibit 5 for proposed tower and vertical profile.

8) The nature and extent of existing or proposed landscaping, screening and buffering on the site and in the neighborhood.

Fencing with opaque slatting will encompass the tower, equipment shelter, and propane tank.

9) The timing and phasing of the proposed development and the duration of the proposed use.

Construction will commence once building plans are submitted.

The duration is indeterminable until a new technology is introduced to replace the telecommunication tower.

10) Whether the proposed Special Exception Permit will result in the preservation or destruction, loss, or damage of any topographic or physical, natural, scenic, archaeological, or historic feature of significant importance.

There is no known historic feature of significant importance on this site. If the project is approved, there will be NEPA (National Environmental Policy Act) as required by FCC (Federal Communications Commission), FAA (Federal Aviation Administration, and SHPO (Ste Historic Preservation Office) and any other review deemed necessary by the FCC.

11) Whether the proposed Special Exception Permit at the specified location will contribute to or promote the welfare or convenience of the public.

The presence of a tower at this location ensures that the welfare and convenience of the public are met because the new tower replaces an outdated and undersized tower.

12) The traffic expected to be generated by the proposed use, the adequacy of access roads and the vehicular and pedestrian circulation elements (on and off-site) of the proposed use, all in relation to the public's interest in pedestrian and vehicular safety, efficient traffic movement and access in case of fire or catastrophe.

Beyond the initial construction of the tower, there should be little to no additional traffic with maintenance being the rare exception.

13) Whether, in the case of existing structures proposed to be converted to uses requiring a Special Exception Permit, the structures meet all code requirements of Nottoway County.

The structure will require inspection by the Building Official to ensure compliance with applicable local and State codes

14) Whether the proposed Special Exception Permit will be served adequately by essential public facilities and services.

Yes, as it is an essential public facility that improves other public services, namely police, fire and rescue agencies.

15) The effect of the proposed Special Exception Permit on groundwater supply.

No impact was identified.

16) The effect of the proposed Special Exception Permit on the structural capacity of the soils.

The tower will be securely anchored in the ground and should not compromise the structural capacity of the soil.

17) Whether the proposed use will facilitate orderly and safe road development and transportation.

Not applicable.

18) The effect of the proposed Special Exception Permit on environmentally sensitive land or natural features, wildlife habitat and vegetation, water quality and air quality.

The project's proposed location is not negatively impacting sensitive land, habitat, etc.

If approved the project will undergo NEPA review as required by the FCC.

19) Whether the proposed Special Exception Permit use will provide desirable employment and enlarge the tax base by encouraging economic development activities consistent with the Comprehensive Plan.

The tower will be able to provide secondary and tertiary arrays on the structure which will generate additional revenue for the County.

20) Whether the proposed Special Exception Permit considers the needs of agriculture, industry, and businesses in future growth.

Not applicable.

21) The effect of the proposed Special Exception Permit use in enhancing affordable shelter opportunities for residents of the County.

The tower will ensure that local agencies have the capability to properly coordinate shelters for residents in weather-related emergencies.

22) The location, character, and size of any outdoor storage.

Propane tank and an equipment shelter.

23) The proposed use of open space.

The proposed site is a secured 80x80 compound, and most of the trees at the site within that compound will be removed.

24) The location of any major floodplain and steep slopes.

No major floodplain or steep slopes in the development area. (See Exhibit 5 floodplain map)

25) The location and use of any existing nonconforming uses and structures.

Not applicable.

26) The location and type of any fuel and fuel storage.

A proposed 1,000 gallon propane tank for the generator.

27) The location and use of any anticipated accessory uses and structures.

An equipment shelter and propane tank for the tower.

28) The area of each use; if appropriate.

Not applicable.

29) The proposed days/hours of operation.

Not applicable.

30) The location and screening of parking and loading spaces and/or areas.

Proposed turn-around area off the drive from the Health Department Building.

31) The location and nature of any proposed security features and provisions.

The proposed security camera is located in the compound.

32) The number of employees.

None are anticipated aside from routine maintenance and repair.

33) The location of any existing and/or proposed adequate on- and off-site infrastructure.

Not applicable.

34) Any anticipated odors which may be generated by the uses on-site.

None Anticipated.

35) Whether the proposed Special Exception Permit uses sufficient measure to mitigate the impact of construction traffic on existing neighborhoods and school areas.

See Virginia Department of Transportation Comment Letter (Please see Exhibit 11).

- 36) Refuse and service areas, with particular reference to the items in (1) and (2) of this subsection.

Not Applicable.

- 37) Utilities, with reference to location, availability and compatibility.

Sanitation sewage treatment is not proposed; electrical service will connect to existing electrical service for the area, and a generator will be used.

AGENCY COMMENTS

From the Health Department:

1. Propane slab must be marked in the field.
2. Drainfield shall be marked in the field and on construction plans.
3. All construction related to the tower shall be setback ten (10) feet from the active drainfield.

From the Virginia Department of Transportation:

1. Route 625 W. Courthouse Road has a functional classification of minor collector, a posted speed limit of 25 MPH and a last reported average daily traffic (ADT) of 670 vehicles per day (VPD).
2. The proposed use will require a private entrance for access to the proposed site.
3. VDOT has no objection to the submitted special exception application.

STAFF RECOMMENDATION

Staff recommends that the Board of Supervisors approve the request to waive the setbacks required in §4-13-10. As the self-supporting tower is designed to collapse upon itself, the 200% and 100% are not warranted.

Staff recommends that the Planning Commission and Board of Supervisors approve the special exception request for a 300' telecommunications tower subject to the following conditions.

RECOMMENDED STAFF CONDITIONS

4. This special exception is granted for a 300' telecommunications radio tower
5. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.
6. The propane tank slab must be marked in the field.
7. The drainfield shall be marked in the field and on construction plans.

8. All construction related to the tower shall be setback ten (10) feet from the active drainfield and the drainfield and setbacks shall be marked in the field and on the construction plans.

Nottoway County Special Review Project Application

GENERAL INFORMATION:

Nottoway County Zoning Ordinance §1-2-13 (Authorization for Constructing Public Facilities) and Code of Virginia §15.2-2232: Any project consisting of a street or connection to an existing street, park or other public area, public building or public structure, public utility facility, or public service corporation facility other than railroad facility, whether publicly or privately owned to be constructed, established or authorized shall be subject to a special review by the Planning Commission to determine if such project is in accordance with the county's comprehensive plan.

APPLICATION PROCEDURE:

- **Consultation with Planning Staff:** You are required to meet with a planner to discuss the request prior to submission.
- **Planning Commission:** The Planning Commission may hold a public hearing and review the application in order to make a recommendation to the Board of Supervisors.
- **Board of Supervisors:** The Board of Supervisors has the authority to overrule the action of the Planning Commission.

Please make sure the following items are included BEFORE submitting:

- ☐ **Application Fee:** If a public hearing is required by the Planning Commission, the applicant may be responsible for the cost of the required legal notifications.
- ☐ **Concept Plan:** A concept plan prepared by a professional engineer, architect or surveyor must be submitted with the application in both hard copy and digital (.pdf format) versions. The plan shall address any potential land use or design issues arising from the request. It is the responsibility of the applicant to demonstrate that the proposed use will be in harmony with the zoning district and surrounding area. If the proposed development is to be constructed in phases, all phases shall be shown at the time of the original application.

Nottoway County Special Review Project Application

Please print in blue or black ink or typewrite. If not applicable, write N/A.

APPLICANT INFORMATION

Note: If the applicant is not the property owner, an owner's authority letter must be submitted with the application.

PROJECT INFORMATION

Location/Address of Property (directions from Nottoway County Administration Building):

Approximately 465 feet northeast of the Administration Building, adjacent to the Health Department (207 West Courthouse Road).

Tax Map Number(s): 31-70

Magisterial District: Blendon District **Election District:** 2

Size of Parcel(s): In acres Approximately 1.3 acres In sq. ft. 4,800 +/-

Amount of area to be utilized .11 +/- or 4,800 s.f.

Current Zoning: Conservation **Current Land Use:** Government use - Location of the Health Department

Please describe the proposed project or purpose of the request. The construction of a 300-foot self-supporting tower for Nottoway County. The communication tower site will house the County of Nottoway's P.25 Emergency Management Communication Radio Network Antennas and base station. The existing antenna system and backup power systems are outdated.

JUSTIFICATION FOR SPECIAL REVIEW PROJECT

The Planning Commission will review the request to determine conformance with the Comprehensive Plan. Please answer the following questions as thoroughly as possible. Attach additional paper if necessary.

Please explain how the project conforms to the general guidelines and policies contained in the Nottoway County Comprehensive Plan. Is there a specific reference to the proposed project in the Comprehensive Plan? If not, please explain why the project should be determined to be in conformance.

This project broadly conforms to the guidelines and policies in the Comprehensive Plan and the CRC Regional Hazard Mitigation Plan (as adopted via reference).

The following Comprehensive Plan excerpt (From *Goals, Objectives, and Strategies*) does enforce the view that adequate communication is necessary for a sound economy for business and residents.

K. Communications (including broadband) (pps. 123-124)

GOAL: To the extent possible, provide for adequate communications (cell phone, broadband, etc.) for local businesses and residents to help them meet the demands of the changing economy.

Objective 1: Work with communications providers to assure [ensure] the availability of high-speed communications for all areas of the County.

Strategy 1: Promote new investment and development of broadband Internet infrastructure to promote commercial and educational growth within the County.

Strategy 2: Work to promote the availability of programs from the Federal Communications Commission, Virginia Department of Community Development, and others that help lower-income households afford internet service.

Strategy 3: Work with partner providers on the County's ongoing VATI project to complete fiber buildout in unserved or underserved areas of the County; explore and/or pursue additional grants, as necessary and feasible, to secure additional funding that might be needed to complete fiber buildout in the County.

Strategy 4: Explore a "dig once" policy and possible tax incentives for developers to install fiber conduit in new subdivisions and commercial developments to allow for the later addition of fiber as needed.

Objective 2: Regulate the siting of cell towers and other telecommunications infrastructure to assure [ensure] the availability of adequate communications throughout the County.

The CRC's Regional Hazard Mitigation Plan (May 2024) identifies several actions related to telecommunication towers for emergency services:

Nottoway County NEW Mitigation Action 5	Purchase and install emergency back-up generators and automatic transfer capability that will provide electrical power to critical infrastructure facilities and are adequate to cover the entire facility in need.
Category:	Emergency Services
Hazard(s) Addressed:	Power Outage in Critical Infrastructure Facilities, specific needs at County Emergency Operations Center (EOC), Landfill Facility, Animal Shelter Facility, Public Schools Maintenance Facility; Tower Sites for public safety communications
Priority (High, Moderate, Low):	High
Estimated Cost:	Depends on the structure, will vary in electrical load
Potential Funding Sources:	BRIC, HMGP, USDA RD (with local matching funds)
Lead Agency/Department Responsible:	County Admin., County Dept. of Emergency Services, County Building & Grounds Staff,
Implementation Schedule:	Dependent on availability of funding
Status: In planning stage – staff in place, research completed for adequate size and location of generators; electrical load analysis and quotes obtained; pursuing state and federal grants for funding	

CONCLUSION

While the tower location is not explicitly cited in either document, the essence of this request is to construct a new telecommunications tower and upgrade the equipment, as the existing tower (located behind the Sheriff's Office) is nearly forty years old and does not meet the needs of today's emergency services; and relatively speaking, its 180-foot height cannot ensure adequate coverage of the upgraded radio system throughout the County. The proposed tower height in this 2232 review is 300 feet.

CERTIFICATION

I hereby certify that this application is complete and accurate to the best of my knowledge, and I authorize County representatives' entry onto the property for purposes of reviewing this request.

TOWER DESIGN NOTES

- Tower is located in Nottoway County, Virginia
- Tower designed for Exposure C to the TIA-222-H Standard
- Tower designed for a 119 mph basic wind in accordance with the TIA-222-H Standard
- Tower is also designed for a 30 mph basic wind with 1.50 in ice. Ice is considered to increase in thickness with height
- Deflections are based upon a 60 mph wind
- Tower Risk Category II
- Topographic Category 1 with Crest Height of 0.00 ft
- Tower designed for step bolts and/or clip-on climbing ladder
- Tower designed for feedlines to be supported with waveguide ladder(s)
- All bolted legs and/or weld together tower sections have flange connections
- Structural connections use galvanized A325 bolts and/or equivalent with nuts and/or nut locking devices
- Installation per TIA/EIA-222 and AISC Specifications
- Tower members are "hot dipped" galvanized in accordance with ASTM A123 and ASTM A153 Standards
- All structural steel welding will be in compliance with AWS D1.1 latest revision and fabricated with ER-70S-6 electrodes
- Structure is designed to arrange feedlines based on using stackable hangers currently available in the communications industry unless specified otherwise by customer. See plan view of sheet E-7 for feedline arrangement used for the design of this structure
- "Ka=8" Was used for standard camera in accordance with section 2.8.11.2 of the H-standard for mounting configurations where three or more mounts are located at the same relative elevation
- Leg "A" orientation is set to an azimuth of 67 degrees
- ** Preliminary Design - Not For Construction **
- TOWER RATING: 99.2%

* = ITEMS QUANTITY CALCULATED ACCORDING TO STRUCTURE HEIGHT.

NOTES

- THIS DRAWING IS PROVIDED AS A GENERAL REFERENCE. TWR LIGHTING, INC. DOCUMENTATION SUPERSEDES THIS DRAWING & SHOULD BE REVIEWED PRIOR TO INSTALLATION OF THIS SYSTEM.
- CABLEGRIP3 IS USED TO SUPPORT CABLE BEFORE CORD CONNECTOR AND SERVICE LOOP. THE SINGLE EYE LOOP SHOULD BE ATTACHED TO STRUCTURE SECURELY.
- IF MOUNT IS NEEDED FOR BEACON USE P/N BWSIDE-1.
- A - B SERVICE LOOP TO BE INSTALLED AT EACH LIGHT LEVEL AND BASE OF TOWER. SERVICE LOOPS ARE TO BE SUPPORTED EVERY 30' WITH ANY TWO OF THE LOCATIONS BACK TO THE STRUCTURE.
- BLACK WIRE FROM SIDELIGHTS CONNECTS TO RED TERMINALS.
- LIGHTING CABLES ARE TO BE SUPPORTED OVER TOWER FLANGES TO ENSURE THAT THEY DO NOT RUB OR BREAK OPEN.
- USE P/N HCS-10 TO SECURE SIDELIGHT ASSEMBLY TO STRUCTURE. REFER TO DRAWING 101113 FOR MORE DETAIL.
- USE P/N HCS-10 TO SECURE JUNCTION BOX TO STRUCTURE. REFER TO DRAWING 101182 FOR MORE DETAIL.
- BARE SHIELD WIRES NEED TO BE TERMINATED IN CONTROLLER AND JUNCTION BOXES.
- BARE SHIELD WIRES NEED TO BE CUT FLUSH WITH CABLE PVC OUTER JACKET IN EACH CABLE (NOT TERMINATED).
- SECURE CABLE TO TOWER STRUCTURE WITH TAPE METHOD EVERY 30' MAX. TAPE METHOD: 2 WRAPS OF SCOTCH50, FOLLOWED BY 3 WRAPS OF SCOTCH890, FOLLOWED BY 4 MORE WRAPS OF SCOTCH50. SEE MANUAL FOR DETAILED INSTRUCTIONS.

POWER CONSUMPTION

- ✓ 12hrs day - 4.0/LC-STAR + 32.0/L865 + 0.0/L810 (30 x 12 = 0.432KWh)
- ✓ 12hrs night - 4.0/LC-STAR + 13.0/L864 + 24.0/L810 (41 x 12 = 0.492KWh)
- ✓ 24hrs = 0.924 KWh

FOUNDATION INSTALLATION/DESIGN NOTES:

1. THIS FOUNDATION IS DESIGNED TO MEET ALL STANDARDS SET FORTH BY ACI 318: AMERICAN CONCRETE INSTITUTE, BUILDING CODE REQUIREMENTS FOR STRUCTURAL CONCRETE, ANSII/AIA 222-H: STRUCTURAL STANDARDS FOR STEEL ANTENNA TOWERS AND ANTENNA SUPPORTING STRUCTURES.
2. BASED ON TIA-222-H PRESUMPTIVE SOIL PARAMETERS.
3. ALL WORK PERFORMED FROM THESE DRAWINGS SHOULD BE BY QUALIFIED CONTRACTORS EXPERIENCED IN TOWER FOUNDATION CONSTRUCTION.
4. ALL FOOTING EXCAVATIONS SHALL BE MANUALLY CLEANED PRIOR TO PLACING CONCRETE. COMPACT THE EXPOSED SOIL SURFACE AND ANY GRANULAR FILL UNDER THE FOUNDATION TO 90% OF THE MODIFIED PROCTOR DENSITY.
5. ALL CONCRETE SHALL HAVE A MINIMUM COMPRESSIVE STRENGTH OF 4000 PSI AFTER 28 DAYS. COPIES OF THE CONCRETE CYLINDER TEST REPORTS SHALL BE SENT TO THE RESIDENT ENGINEER / INSPECTOR.
6. CONCRETE COVER FOR REINFORCING BARS SHALL BE 2" UNLESS OTHERWISE NOTED. ALL REINFORCING BARS SHALL BE GRADE 60 REBAR (MIN YIELD = 60KSI).
7. FIELD BENDING OR WELDING OF REINFORCEMENT BARS IS NOT PERMITTED.
8. PROVIDE CHAMFERS AT ALL EXPOSED CORNERS OF CONCRETE.
9. BACKFILL NEAR AND AROUND THE FOUNDATIONS SHALL BE A WELL GRADED FILL MATERIAL PLACED IN 8" THICK LAYERS THAT HAS BEEN COMPACTED TO 90% OF THE MODIFIED PROCTOR DENSITY PER ASTM D1557.
10. SOME DETAIL HAS BEEN PURPOSELY OMITTED TO CLARIFY ILLUSTRATION.

RE: Nottoway County Public Safety 300' Self-Supporting Radio Communication Tower
Nottoway County, VA
Allstate Tower Job No. FT-117575r1

To All Interested Parties:

The referenced tower is designed in accordance with the TIA-222-H Structural Standard for Antenna Supporting Structures, Antennas, and Small Wind Turbine Support Structures.

The TIA-222-H Specification incorporates nationally recognized loading standards (ASCE 7-16 Minimum Design Loads for Buildings and Other Structures) and design criteria as derived from AISC-360-16 "2016 AISC Specification for Structural Steel Buildings" and ACI 318-14 "Building Code Requirements for Structural Concrete" into a consensus standard widely recognized and accepted by design professionals in the tower industry.

We have analyzed the referenced tower with regard to the potential fall zone radius. Should a failure occur, the most likely mode of failure will be the buckling failure of one of the tower legs due to excessive compression loading. The tower leg with the highest compressive stress ratio is located between the 260' and 280' AGL level (the stress ratio in that leg is calculated to be 99.2 % of the code permitted compression loading). Given that the tower leg with the highest stress ratio will probably fail first, the tower would fail at approximately the 260' elevation with the top 40' of the tower collapsing. Depending on the conditions at the time of failure and the stress levels in structural members below 260' AGL, the top 40' of the tower would likely fall within a 40' fall zone radius.

Two things should be noted regarding this matter:

- In our opinion, in the event of a severe wind event, the tower would most likely be stripped of most of its antennas, transmission lines and other appurtenances. Therefore, the loading on the tower will be greatly reduced, increasing the survival potential of the tower.
- By the time environmental conditions reach the point where the tower will fail, many surrounding man-made structures, buildings, trees, cars, etc. will already be damaged or destroyed.

Allstate Tower has designed, manufactured and installed communications towers for all types of weather conditions all over the world. Based on our design practices, our use of the TIA-222 Standard and our years of experience, we feel that a tower failure is highly unlikely except in the event of a catastrophic environmental event (hurricane, tornado or major earthquake) or human intervention (careless construction practices, vandalism or terrorism).

Sincerely,

Digitally signed by Keith Eaton

YOU MUST ATTACH A SURVEY PLAT OF PROPERTY WHICH INCLUDES A SCHEMATIC DRAWING OF THE PROPSAL SHOWING BUILDING HEIGHT AND PLACEMENT, PARKING AREA(S), STORAGE AREA(S), UTILITIES, ETC.

Detail Description of Request (Address impact of proposal on checklist items):

Request to design and construct a 300' Self Support Communication Tower for the County of Nottoway.

The Communication tower site will house the County of Nottoway P.25 Emergency Management Communication Radio Network Antennas and base station. The existing antenna system and backup power systems are outdated.

We seek exception for the 100% setback from adjacent property lines and the 200% setback from residences.

The New Tower will be designed to collapse within a restricted radius that will exclude any nearby residences.

We are seeking Setback Relief through SEC. 4-13-10 Setbacks.

Justification: The County is in need an updated P.25 Emergency Management Communication Network

to include an expansion of current services as well as updated technology to handle a higher volume of 911

Emergency calls. The proposed property offers sufficient ground elevation necessary for point to point - line of sight

communications between different towers. The line of sight around / above trees and structures is critical and this location meets those needs. Any damage to existing septic tank field lines will be repaired by the Client construction crew.

The foregoing information is complete and correct to the best of my knowledge. I acknowledge that representatives of Nottoway County may inspect the property subject to this application, and my permission to do so is hereby given.

Signature We are representing the County of Nottoway
(Agents must provide written documentation of authority) 66 of 77

SPECIAL EXCEPTION ADDENDUM TELECOMMUNICATIONS TOWER

[Check box if completed. Attach all plans, drawings and descriptions to this page.]

- ☒ **Inventory of all applicant's existing or planned future sites within Nottoway County. Inventory must include location (on map), height, and design. (§ 4-13-3-2)**
Other sites are colocation only with exception of 1 proposed 50' monopole tower in Town of Blackstone- see attached site list, subject to change as needed.
- ☒ **Towers & Buildings and Supporting Structures Description (include tower design & color, detail of screening the site). (§ 4-13-4)**
- ☒ **Describe Lighting System in Detail (assume lighting will be required). Lighting system must be described in terms of visual perspective from the ground (day/night) and from the perspective of aircraft safety. (§ 4-13-4-4)**
Lighting System will be Medium Intensity Dual Strobe with red side obstruction lighting mid way down. White Day / Red night per FAA requirements
- ☒ **Scaled Site Plan showing: (§ 4-13-7)**
- ☒ Topography
 - ☒ Elevation
 - ☒ Existing vegetation & proposed clearing and grading
 - ☒ Radio frequency coverage
 - ☒ Tower height & antenna location requirements, Antenna locations TBD per RF Study
 - ☒ Setbacks to property lines front, side and rear
 - ☒ Ingress/egress & parking
 - ☒ Fencing & landscaping
 - ☒ Adjacent uses
- ☒ **Actual photographs of the site with simulated image of the proposed tower and antennas. Photo must show foreground, mid-ground, and the background of the site. (§ 4-13-7)**
- ☒ **Engineering Report certifying the proposed tower is compatible for a minimum of three co-locations (including primary user). (§ 4-13-7-1)** 300' Tower Design TBD- but with 3 colocation minimum
- ☒ **Copy of co-location policy. (§ 4-13-7-3)** We are representing the County of Nottoway- this will be a County owned Communication Tower
- ☒ **Is there any existing tower that can accommodate any proposed antenna to be placed in this tower:** ☐ Yes ☒ No

If 'No' is the reason, it is because:

- ☐ No towers are located in the geographic area
- ☒ Existing towers do not have sufficient height
- ☐ Existing towers do not have sufficient structural strength
- ☐ There would be a problem with electromagnetic interference
- ☐ The costs to share or adapt an existing tower are unreasonable
- ☐ Other factors as described in an attachment

NO DEFICIENCY LETTER

Re: Nottoway County Sanitary Landfill, Nottoway County
Solid Waste Permit No. 304

Dear Mr. Bowen:

On January 15, 2025, the Virginia Department of Environmental Quality Piedmont Regional Office staff conducted a compliance inspection of the solid waste management facility operating under SWP 304. During this inspection, the facility was evaluated for compliance with the Virginia Waste Management Act, Va. Code § 10.1-1400 et seq. (Act), the Virginia Solid Waste Management Regulations, 9 VAC 20-81-10 et seq. (Regulations), and/or Permit No. 304.

During the inspection, no apparent violations of the Act, Regulations, or your permit SWP 304 were observed. A copy of the inspection checklist is enclosed.

If you have any questions, please contact me at (804) 712-9890 or douglas.masini@deq.virginia.gov.

Sincerely,

A handwritten signature in blue ink that reads "Doug Masini".

Doug Masini, Solid Waste Compliance Inspector

ECM – SWP 304

Compliance Inspection Report

Inspection Summary

Facility: Nottoway County Sanitary Landfill - Blackstone
Permit: SWP304
Region: Piedmont
Inspection Type: Compliance Evaluation Inspection
Facility Staff: Gary Easter – Landfill Supervisor

Inspector: Douglas Masini
Inspection Date: 1/15/2025
Approximate Arrival Time: 1035
Inspection Method: Announced
Exit Interview: Yes
Weather Conditions: Clear, 31 degrees F, Winds NW 5-10 mph.

Comments: A full Compliance Evaluation Inspection (CEI) was conducted to review the Nottoway County SLF for operational conditions during the review period, August through December 2024. Operational records available onsite were reviewed and those not available were requested to be submitted to agency staff by January 22, 2025.

General Comments

Reference	Comments
10.1-1408.1	Disclosure Statement - Most recent Disclosure Statement information is listed at the bottom of this report.
10.1-1408.2	Operator Certification - The facility has a licensed operator as required. Operator information is listed at the bottom of this report.
20-81-100.B	Compliance with the facility's permit - Facility was issued a Major Permit Amendment on May 15, 2014, and appeared to be operating accordingly.
20-81-100.E	Unauthorized waste program and inspection - A Control Program for Unauthorized Waste (UAW) Is documented within the Operating Plan and implemented at this facility. Last Unauthorized Waste training took place August 9, 2023, and included all required personnel. Landfill Supervisor, Gary Easter, stated that Random Load Inspections (RLI) are scheduled to be performed twice per day on Mondays and Friday, and once per day on Tuesdays and Thursdays. Records of Random Load Inspections (RLI) were reviewed and reported the following monthly load totals (MLT) and Random Load Inspections (RLI) conducted: MM/YYYY ---- MLT -----RLI Aug-2024 ---- 496 ----- 31 Sep-2024 ---- 443 ----- 28 Oct-2024 ---- 507 ----- 29 Nov-2024 --- 425 ----- 24 Dec-2024 -- 508 ----- 29 Records of RLI's were reviewed and appeared to meet the required 1% in-state inspection requirements (Avg. 6%). No out of state loads were received during the inspection period. County representative stated during the review period no loads were rejected and no unauthorized waste was received.
20-81-140.B.16	Facility self-inspections - Monthly Site Inspection records for August through December 2024 were reviewed and indicated no operational compliance issues.
20-81-140.B.17	Record maintained of waste received and processed - Daily waste totals are weighed by certified scales with date, time, company name, material, and tonnage, recorded at a minimum. At the end of the workday the facility calculates daily waste intake totals on a log sheet and reported to the county Treasures office for accounting and billing. Monthly intake reports are then sent back to the facility for Compliance record retention. Daily and Monthly intake records for August through December 2024 were reviewed for compliance determination. Monthly Intake Records and Daily Logs reported the following monthly totals (MT) and highest daily total (HDT), in tons, for each month during the review period. Month/Year ---- MT ----- HDT Aug-2024 ----- 1370 ----- 64 tons on 8-15; Sep-2024 ----- 1351 ----- 79 tons on 9-20; Oct-2024 ----- 1524 ----- 260 tons on 10-17; Nov-2024 ----- 1175 ----- 170 tons on 11-12; Dec-2024 ----- 1118 ----- 136 tons on 12-10. Section II.C states the facility has a disposal limit of 300 tons per day. Facility records reviewed indicated the disposal limit was not exceeded during the review period.
20-81-485	Operations Manual - The facility Operations Manual was last revised September 28, 2022, and contained all plans specified in the VSWMR. The Manual was certified as consistent with current operations and regulatory requirements on November 14, 2024, by Mr. Gary Easter, Landfill Supervisor. Re-certification of the current Operations Manual is due by November 14, 2025.

20-81-530	Permittee recordkeeping and reporting - All records required by regulation are maintained onsite and were made available for compliance review. No compliance issues requiring notification and follow-up reporting were reported or discovered during the review period.
20-81-130	Facility design / construction - No changes were noted to the design and construction plan during the review period.
20-81-140.B.1,4	Safety and fire control - Monthly safety training documents were reviewed for August through December 2024 and appeared to meet the requirement. The facility maintains a burn area for vegetative waste to the South of the active landfill. Vegetative waste was observed stock-piled in the burn area but not burning during the onsite inspection.
20-81-140.B.6	Pollutant discharge - No pollutants or solid wastes were observed to have entered surface waters, groundwater, or waters of the U.S.
20-81-140.B.7	Stormwater control system maintenance - Run-on/run-off controls around the landfill appeared to be constructed, maintained, and operating as designed. Sediment Basin 1 and 2 appeared to be controlling stormwater as designed with sufficient capacity.
20-81-140.B.8,14-15	Facility operation, maintenance, and training - Facility access is controlled by a scale house, gates, fences, and natural barriers. Scale attendants were on site and controlling access at the time of inspection. Facility equipment available for operation at the workface, at the time of the inspection, was noted as one dozer, one excavator, and one compactor. The Landfill Supervisor was the only person present operating machinery at the workface during the onsite inspection. It was stated that the compactor was down for maintenance since the prior week. All pushing, piling, and compacting is performed by the dozer. Operators are trained and certified to operate facility equipment. Training documents are maintained in personnel files.
20-81-140.B.9-13	Hazard and nuisance control - Blown litter is picked routinely either by facility personnel or by inmate labor. The facility maintains a litter picking log which indicates consistent picking litter on a weekly basis. Inmate labor was onsite picking litter upon arrival. Blown litter was noted on top of Cell 4, caught in the grass. No odors were noted on or off-site. There were no observed disease vectors during the onsite inspection. Salvaging is not allowed by the landfill. Fugitive dust is reported controlled by a water spraying unit converted from the decommissioned Posi-Shell application truck. It was not operating during the onsite visit. No excessive fugitive dust was noted during the site visit. Internal roads leading to Cell 5 and the perimeter were passable by ordinary vehicles.
20-81-140.C	Compaction and cover - The facility was spreading and compacting waste in Cell 5. The facility appears to be using tarps as Alternative Daily Cover (ADC) material. The Operations Manual states that when synthetic membranes are used as an ADC, six inches of compacted soil will be placed over exposed wastes at the end of each work week. Facility Manager stated this was completed at the close of the previous work week. Piles of clean soil stockpiled next to the workface did not appear to meet the requirement of three days' worth of cover material. Ensure proper amounts of cover are stockpiled as required by the regulation. Vegetation is established on the top and side slopes of Cells 1 through 4. The facility appeared to have been mowed and woody growth removed as requested. Slope angles appeared to be less than 33%. The actual working face appeared to be confined to a small area, according to the Operations Manual. Waste in place did not appear to contain unauthorized waste.
20-81-610-660	Special Waste - No ACM, PCS, or PCB material was reported received for disposal at the landfill during the review period. Facility Supervisor indicated that tires are segregated out of the waste mass and shipped off-site to Emanuel Tire (PBR547). A 53' trailer is staged on the Closed MSW landfill area to store discarded tires for transport. A pile of tires was noted on the ground behind the trailer, ready to be loaded by inmate labor. Records indicated that during the review period 24.54 tons of tires were shipped off-site for recycling.

	White goods are reportedly segregated and shipped to recyclers for recycling and refrigerant recovery as needed. A pile of scrap metal was located near the working face and included white goods. Ensure that white goods containing refrigerant are separated and protected from damage prior to recovery. Records indicated that during the review period 1340 pounds were shipped off-site for recycling.
20-81-200.A,B,E	Decomposition gas concentrations, monitoring & recordkeeping - Results of the Boundary Gas Probe Monitoring events performed during the review period were reported as follows: 4th Quarter 2024 Gas Perimeter Probe monitoring was conducted on October 30, 2024, and reported no methane exceedances of the Action level.
20-81-210	Leachate control - Leachate is collected in a surface impoundment and pumped and hauled to The Town of Blackstone WWTP (Permit #: VA0025194). The facility supplied records of leachate hauled during each month of the review period and was calculated as follows: Month/Year --- Gallons Aug-2024 ----- 344,000; Sep-2024 ----- 212,000; Oct-2024 ----- 524,000; Nov-2024 ----- 166,000; Dec-2024 ----- 256,000. No seeps were detected during the onsite inspection. During the inspection leachate levels within the impoundment were observed between the lower and upper marker, which indicated that the liquid freeboard height was above the freeboard height stated in the Operations Manual, but not breaching the upper limit which is the top of the lined impoundment. Facility requested that the freeboard height be decreased from 24", the lower marker, to 6", which is understood to be the level of the top marker. This has been under review by permitting staff. Weekly Leachate Monitoring logs were reviewed for compliance during the review period and appeared to show the facility complied with the leachate collection operation as set forth by the Operations Manual.

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *qz*

SUBJECT: Planning and Economic Development Monthly Update – January 2025

DATE: February 12, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances. Please note these discussions may consist of follow-up via email or phone at least four times or more after the initial meeting and before applying for a special exception, subdivision, or rezoning.
2. Participated in the Extension Office's Executive Leadership Council on goals and strategies at an in-person meeting on January 2nd.
3. The Board of Supervisors recommended changes to the adopted solar ordinance at their January 9th work session. Notable changes included reducing setbacks from rights-of-way and property lines from 800 feet to 300 feet and reducing the distance a solar development shall be from a residential structure (non-family) from 1,500 feet to 1,200 feet. These amendments will be heard at the Board of Supervisor's March meeting.
4. Staff met with the family of a property owner on Dutchtown Road on January 10th regarding a side-yard variance, which will be held in late March, depending on the availability of the BZA members.
5. The Planning Commission held a public hearing on January 21st for the 15.2-2232 review of the proposed radio tower. They voted in favor of staff's recommendation that the tower proposal was supported by the Comprehensive Plan.

As a side note, staff will conduct §15.2-2232 reviews for every solar application, per State Code and the County's solar ordinance requirement.

Economic Development

1. Attending WPPDC East VATI Management Team Zoom Meeting held on January 7th. VDOT permits have been issued, and most of the design work is nearly completed. RiverStreet is assigning a contractor to begin construction along the Cox Road hub.

Staff identified errors in the third amendment previously authorized by the BOS and tasked RiverStreet to amend the corrections. They executed the new amendment on January 21st.

2. Participated in the CRC's DHCD Regional Broadband Affordability and Adoption Plan Zoom meeting on January 21st and discussed the strategic plan draft. Next meeting is scheduled for February 18th.
3. Held EDC meeting on January 23rd and discussed items including JKOZ development at Pickett Park, Cox Water line, and the Courthouse Complex. The next meeting is scheduled for April 24th in EOC.
4. Staff met with Nin Nyguen, our Rural Development/USDA representative, to discuss grant opportunities for the County on January 24th. Among the potential funding opportunities discussed, staff inquired about Cox Road water line extension, and since the water line is owned by the Town of Blackstone [that would potentially serve the County area], the Town would have to apply for the grant.
5. Participated in the RISE Economic Development Partners Meeting on January 28th.
6. Staff continues to work on a marketing brochure for County-owned property at Pickett Park and Fort Barfoot as time allows, including infrastructure availability and distance to interstates and ports, etc. Staff is partnering with a Costar representative on how to improve our LoopNet listing.
7. Staff will also work with the County GIS consultant to link all County-owned property inside and outside Fort Barfoot; the brochure will be linked within the LoopNet listing and VEDP's Industrial Site database. Another task for the consultant is to have parcel # 43-130 updated, given recent land sales (FDCE – 2 parcels).
8. Attached is January's summary for our LoopNet listing.

EMERGENCY SERVICES COORDINATOR'S REPORT

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr.

DATE: February 13, 2025

SUBJECT: February Report

The following activities and projects are provided in this summary of work by the Department of Emergency Services since my last report on January 15th before your monthly Board of Supervisors meeting on January 23, 2025. Many of these activities listed below were performed in collaboration with other staff members and external stakeholders.

The current emergency services related projects and activities that I have worked on and represented the county include, but are not limited to, the following:

- Attended the Regional Continuing Education Weekend for EMS recertification hours at the Halifax Regional Hospital in South Boston. The classes were held on January 18 & 19.
- Attended a countywide EMS protocol meeting in Burkeville with all EMS agencies to revise some of the content of the recently adopted EMS operational protocols.
- Attended the BOS Finance Committee meeting on January 22nd and answered questions relating to emergency services.
- Attended a virtual meeting with one of the Emergency Medical Dispatch (EMD) vendors on January 22nd and discussed the comparison of this system to others in the market. We will be asking for approval to proceed with ordering the selected EMD and emergency call processing software using the recent state grant award and a local match.

- Facilitated several budget planning meetings on January 24th & 30th with the department heads from the four (4) fire & EMS agencies in our county.
- Attended the Economic Development Committee meeting on January 23rd and answered questions relating to emergency services.
- Attended a virtual meeting with CTA and Amelia County to discuss the MOU for communications use with Amelia during emergency responses.
- Attended a meeting on January 30th with the CEO of Southside Electric Cooperative and the county administrator to discuss our existing long-term partnership that we have for placing communications equipment on their tower at Hooper Park. We discussed the load limits of the tower and how much equipment we would add to the tower with the new radio system.
- Facilitated the monthly meeting of the Fire & EMS Working Group on February 4th at the Extension Office Conference Room. The main topic was budget planning within the Nottoway County Department of Emergency Services and discussions with all fire & EMS agency heads continued as we prepare for the FY-2026 budget. Other topics at this meeting included dispatch issues and a capital improvement program for emergency vehicle replacements. (Agenda attached)
- Attended an Intergovernmental Meeting held virtually on February 5th by VDEM to discuss emergency topics that impact all counties.
- Attended a virtual meeting on February 6th with the Region 1 radio group and updated this group, including the Virginia Radio Interoperability Coordinator, on our progress with the new radio communications project in Nottoway.
- Attended a virtual meeting on February 7th with our CAD vendor, dispatch supervisors, and our GIS map contractor to discuss loading all of our new map data into our CAD system at the Emergency Communications Center.
- Beginning on February 10th and running through February 13th, I participated in numerous state, National Weather Service, and utility company virtual meetings to discuss planning and receive updates during the recent winter weather storm. Created and provided updates on the winter storm impact to key decision makers on the emergency notification group lists. Monitored power outages, generator status at county facilities, and posted weather updates on the county emergency services Facebook page. Responded on several calls with fire, EMS, and VDOT crews to provide county support at the scenes.

**NOTTOWAY COUNTY
FIRE & EMS WORKING GROUP
PLANNING MEETING**

February 4, 2025

18:00 hrs.

***MEETING LOCATION: Nottoway County Social Services
Conference Room
288 West Courthouse Rd. – Nottoway, VA 23955***

AGENDA

- Call to Order & Prayer
- VDOF Update & Upcoming Burn Ban
- VDOT Update
- VSP Response in County
- Dispatch Issues
- Capital Improvement Program
- FY-2026 Budget Planning Update
- Other Items for the Good of the Order
- Adjournment

OLD ID

REAL ID

REAL ID

A REAL Choice for Virginians

Deciding whether to renew your standard driver's license or identification card or apply for a REAL ID compliant driver's license or ID card? The following information can help you make the right choice for you.

What is REAL ID?

The REAL ID Act is a federal law that affects how states issue driver's licenses and ID cards if they are going to be accepted for federal purposes, such as boarding domestic flights or entering secure military installations or federal facilities that require ID.

REAL ID is optional for Virginians.

You can get either a REAL ID license or ID or a standard driver's license or ID. If you do not get a REAL ID, you must have an alternate form of federally accepted identification (valid U. S. passport, military ID, Transportation Worker Identification Credential (TWIC), etc.) to board domestic flights beginning May 7, 2025.

Credential comparison at-a-glance

	Standard license	REAL ID license
Driving	✓	✓
Voting or registering to vote	✓	✓
Verifying identity at banks, utility companies and retail stores	✓	✓
Applying for or receiving federal benefits	✓	✓
Accessing health or life preserving services	✓	✓
Entering federal facilities that require ID*	✗	✓
Accessing military bases*	✗	✓
Boarding domestic flights beginning May 7, 2025	✗	✓

Secure federal facilities and military bases have the authority to set their own identification requirements. Please verify requirements prior to your visit. **Effective immediately, some military bases may no longer accept non-REAL ID compliant credentials which display "Federal Limits Apply."*

Here's what you need to get a REAL ID:

All applicants for a REAL ID compliant credential, including current Virginia credential holders, must apply in-person and provide DMV with physical documentation of the applicant's:

- Identity (e.g. unexpired U.S. passport or U.S. birth certificate)
- Legal presence (e.g. unexpired U.S. passport or U.S. birth certificate)
- Full Social Security Number (e.g. Social Security card or W-2 form displaying full number) Note: You will not be required to present proof of your Social Security number if you know the number and DMV is able to electronically verify it.
- Residency (two proofs are required; e.g. valid Virginia driver's license, recent utility bills, mortgage or rental lease agreements displaying current residential street address, not a P.O. Box) Note: You may redact (blackout/whiteout) sensitive financial information.
- Proof of any name changes (e.g. marriage certificate filed with a government agency or divorce decree)

Note: If your name appears differently on your proof documents, you will be asked to present additional documentation to connect the names, such as a marriage certificate, divorce decree or court order. Marriage licenses, civil union documents, and marriage certificates signed only by the wedding officiant (such as a member of the clergy) will not be accepted.

All documents must be originals and will be subject to verification; however, printouts of acceptable online residency documents can be used as proof of residency. Temporary documents and photocopies of documents will not be accepted.

For a complete list of accepted documents, visit dmvNOW.com/REALID.

About your REAL ID credential:

REAL ID credentials are available for a one-time \$10 fee, in addition to standard driver's license or identification card fees.

In the upper right corner, REAL ID compliant credentials display a **star**, while non-REAL ID compliant credentials instead display "**Federal Limits Apply,**" in order to comply with federal law.

Completion of this section is requested but not required to apply for a driver's license or ID Card. (Virginia Code §2.2-3806)

DRIVER'S LICENSE AND IDENTIFICATION CARD APPLICATION

LOG #

Purpose: Use this form to apply for a driver's license, learner's permit, or identification card.

Instructions: Submit completed application to any DMV Customer Center. Complete front and back of this application.

APPLICATION TYPE

REAL ID: ID requirements for domestic air travel and access to secure federal facilities change May 7, 2025. A REAL ID meets these requirements.

Would you like to apply for a REAL ID license/identification card? (Not applicable if applying for a Motorcycle Learner's Permit)

☐ Yes - I would like to use my license/identification card as ID to board a domestic flight or enter a secure federal facility or military base on or after May 7, 2025. View the documents you'll need at dmVNOW.com/REALID or ask for a brochure.

☐ No - I acknowledge my license/identification card will display "Federal Limits Apply" and I will need another form of ID to board a domestic flight or enter a secure federal facility or military base on or after May 7, 2025.

☐ Driver's License

☐ Motorcycle Learner's Permit (classification not applicable)

☐ Identification (ID) Card

☐ Learner's Permit and Driver's License

☐ Driver's License with School Bus Endorsement
(to carry less than 16 passengers)

☐ Hearing Impaired ID Card

☐ Driver's License with Motorcycle
(complete Motorcycle Classification section below)

☐ Driver's License Testing for Foreign Diplomats

☐ Emancipated Minor ID Card

☐ Motorcycle Only License (complete Motorcycle
Classification section below)

*Commercial Driver's License (CDL) applicants must complete the CDL Application (DL2P)

Motorcycle Classification

☐ Maintaining current Virginia Motorcycle Classification

☐ Add, Upgrade or Transfer Motorcycle Classification or obtain Motorcycle Only License. Additional testing may be required. Check applicable box below.

☐ M 2 (2 wheels)

☐ M 3 (3 wheels)

☐ M (both 2 and 3 wheels)

Replacement License or Identification Card (check one of the following):

☐ I am surrendering my current license or ID card.

I certify I cannot surrender my current license or ID card because it is:

☐ Lost

☐ Stolen

☐ Destroyed

APPLICANT INFORMATION

NOTE: YOUR ADDRESS BELOW MUST BE CURRENT. THE U.S. POSTAL SERVICE WILL NOT FORWARD YOUR LICENSE OR ID CARD.

OPTIONAL SPECIAL INDICATORS

OPTIONAL - Select relevant indicators below to show on your license, permit or ID card.

MEDICAL INDICATORS

- ☐ Insulin-dependent diabetic* ☐ Speech impairment* ☐ Hearing impairment* ☐ Traumatic brain injury (DL 145 required for license or permit. A physician statement required for ID card.)
☐ Autism spectrum disorder (ASD)* ☐ Blind or vision impairment (ID card only)* ☐ Intellectual disability (IntD)*

* Must submit required physician statement

VETERAN INDICATOR

☐ Add or keep the veteran indicator on my driver's license or identification card. ☐ Remove the veteran indicator on my driver's license or identification card.
 You must complete a Virginia Veteran Military Service Certification (DL 11) form and provide an acceptable veteran service proof document to add the veteran indicator, unless you have already done so.

BLOOD TYPE INDICATOR

- ☐ Add or keep my blood type on my driver's license or ID card. ☐ Remove my blood type from my driver's license or ID card.
 Select one: ☐ A+ ☐ B+ ☐ AB+ ☐ O+
 ☐ A- ☐ B- ☐ AB- ☐ O-

The blood type designation displayed on a Virginia DMV issued credential shall not create any liability on the part of the Commonwealth of Virginia. Any person or entity that takes action based on the blood type designation displayed shall indemnify and hold harmless the Commonwealth of Virginia pursuant to Va Code §§ 46.2-342, 46.2-345, 46.2-345.2, and 46.2-345.3.

PARENT OR LEGAL GUARDIAN CONSENT

Check applicable box, review certification statement, print your name and sign where indicated.

- ☐ **I authorize issuance of a learner's permit/driver's license.** I certify that the applicant is a resident of Virginia. I certify that the applicant is attending school regularly and is in good academic standing, but if not, I authorize issuance of a learner's permit/driver's license. I certify that this applicant will operate a motor vehicle for at least 45 hours (15 of which will occur after sunset) while holding a learner's permit.

If the applicant attends public school, I authorize the principal or designee of the public school attended by the applicant to notify the juvenile and domestic relations district court (within whose jurisdiction the applicant resides) when the applicant has had 10 or more unexcused absences from school on consecutive school days.

If a Special Indicator Request is checked on this application, I request on behalf of the applicant that it be shown on the learner's permit/driver's license. I certify that the statements made and the information submitted by me are true and correct.

- ☐ **I authorize issuance of an ID card.** I certify that the applicant is a resident of Virginia. If a Special Indicator Request is checked on this application, I request on behalf of the applicant that it be shown on the identification card. I certify that the statements made and the information submitted by me are true and correct.

PARENT/LEGAL GUARDIAN NAME (print)	PARENT/LEGAL GUARDIAN SIGNATURE	DATE (mm/dd/yyyy)
------------------------------------	---------------------------------	-------------------

APPLICANT UNDER AGE 18 Have you ever been found not innocent of any offense in a Juvenile and Domestic Relations Court in this or any other state? ☐ YES ☐ NO
 If you answered YES, the court making the adjudication of "not innocent" or a court within the jurisdiction where the juvenile's parent/legal guardian resides must provide court consent below. **COURT CONSENT** In my opinion the applicant's request for a learner's permit/driver's license ☐ should be granted. ☐ should not be granted.

REMARKS:

JUDGE NAME (print)	JUDGE SIGNATURE	DATE (mm/dd/yyyy)
--------------------	-----------------	-------------------

SELECTIVE SERVICE

All males under the age of 26 are required to check one of the following. Failure to provide a response will result in denial of your application.

- ☐ I am already registered with Selective Service.
☐ I am a lawful non-immigrant on a current non-immigrant visa or a seasonal agricultural worker (H-2A Visa) and not required to register.
☐ I authorize DMV to forward to the Selective Service System personal information necessary to register me with Selective Service.

By signing this application, I consent to be registered with Selective Service, if required by federal law. If under age 18, an appropriate adult must complete and sign below: I authorize DMV to send information to Selective Service which will be used to register applicant when he is 18 years old.

SIGNATURE (check one and sign) ☐ PARENT / GUARDIAN ☐ JUDGE, JUVENILE DOMESTIC RELATIONS COURT ☐ EMANCIPATED MINOR

GOVERNMENT EMPLOYEES - (Fee waiver certification)

I certify that I am employed by the: ☐ Commonwealth of Virginia or ☐ City of ☐ County of ☐ Town of _____
 to operate a motorcycle solely in the course of this employment and, because of such employment, I am entitled to the waiver of the motorcycle class endorsement fee, provided I have paid for and hold a valid Virginia driver's license or have made application for such.

NOTICE

Va. Code §§46.2-323 and 46.2-342 require that you provide DMV with the information on this form (including your social security number). Your personally identifiable information is being collected for record keeping purposes and will be disseminated only in accordance with Va. Code §§46.2-208, 46.2-209, and the Driver's Privacy Protection Act, 18 USC §2721. Persons convicted of certain sexual offenses (as listed in Va. Code §9.1-902) must register or re-register with the Virginia Department of State Police as provided in Va. Code §§9.1-901, 9.1-903, and 9.1-904. If you provide a non-Virginia residence/home address or non-Virginia mailing address, your application for a driver's license or permit may be denied. Upon issuance of a driver's license, commercial driver's license or identification card in the Commonwealth of Virginia, any driver's license, commercial driver's license or identification card previously issued by another state must be surrendered and will be cancelled by the issuing state.

CERTIFICATION

I certify and affirm that I am a resident of Virginia, that all information presented in this application is true and correct, that any documents I have presented to DMV are genuine, and that my appearance, for purpose of my DMV photograph, is a true and accurate representation of how I generally appear in public. I make this certification and affirmation under penalty of perjury and understand that making a false statement on this application is a criminal violation. By signing this form, I authorize DMV to verify the information provided on this application, as required to determine eligibility.

RE: Prince Edward County/Nottoway County Boundary Line

Dear Steve:

I first want to express my thanks to the Nottoway County Board of Supervisors, Gary Elder, and you for working with us to get our shared boundary line recorded for the two counties. We now have a recorded line that is marked with monumentation at each public road crossing, which should help ensure public integrity in future surveys along the boundary.

As previously discussed, in the coming weeks Sarah Puckett will be reaching out to set up a community meeting where we can invite law enforcement, voter registrars, school system representatives, Commissioners of the Revenue, and other applicable parties to answer citizen questions and to help ensure a smooth transition moving forward. In the meantime, we will be sharing the boundary plats with VDOT, our GIS consultant, registrar, school system, and Commissioner of the Revenue, and the State of Virginia to work towards updating records.

As discussed at our meeting back on July 30, 2024, I have attached an invoice for 50% of the survey work performed by Hurt & Proffitt on the project. I am sending at the direction of the Prince Edward Board of Supervisors. We realize that the Nottoway Board had previously declined to participate, but we are hopeful that your Board will reconsider, given that the outcome of the boundary survey has proven beneficial to both localities.

INDUSTRIAL DEVELOPMENT AUTHORITY

Name:	Term Expires September 19:
Robert W. Timberlake	2025
Lynne M. Inge	2026
Denis J. McCarthy	2027
James O. Oliver	2027
Helen M. Simmons	2028
	2025
	2026

Qualifications

Per § 15.2-4904

- Shall be composed of seven directors, appointed by the governing body of the locality.
 - Appointed initially for terms of one, two, three, and four years; two being appointed for one-year terms; two being appointed for two-year terms; two being appointed for three-year terms, and one being appointed for a four-year term.
 - Subsequent appointments shall be for terms of four years, except appointments to fill vacancies, which shall be for the unexpired terms.
 - All terms of office shall be deemed to commence upon the date of the initial appointment to the authority, and thereafter, in accordance with the provisions of the immediately preceding sentence. If at the end of any term of office of any director a successor thereto has not been appointed, then the director whose term of office has expired shall continue to hold office until his successor is appointed and qualified.
- Four members of the board of directors shall constitute a quorum
- Shall receive no salary but may be compensated such amount per regular, special, or committee meeting or per each official representation as may be approved by the appointing authority, not to exceed \$200 per meeting or official representation, and shall be reimbursed for necessary traveling and other expenses incurred in the performance of their duties.

COURTHOUSE REVITALIZATION COMMITTEE

Voted January 16, 2025
Supervisor Ingram
Supervisor Toth
Sheriff Jones
Jane Brown, Clerk
Woodson Irby
Steve Bowen

Per § 2.2-3701. Definitions.

- "Meeting" or "meetings" means the meetings including work sessions, when sitting physically, or through electronic communication means pursuant to §2.2-3708.2 or 2.2-3708.3, as a body or entity, or as an informal assemblage of (i) as many as three members or (ii) a quorum, if less than three, of the constituent membership, wherever held, with or without minutes being taken, whether or not votes are cast, of any public body.

Suggested Motion:

- I move to amend the motion passed on January 16, 2025, and strike Administrator Bowen from the Courthouse Revitalization Committee, keeping all other appointments as approved.

Board Of Supervisors:

Refund Request for Building Permit 411-2024

Anna Parker with Mills Heating & Air Conditioning, Inc is requesting a refund for their building permit minus the 2% state levy.

Building permit number 411-2024 was obtained for a gas permit. The property owner has filled out paperwork for an Agricultural Zoning permit as the building is for farming purposes. With this being done, a permit for gas is not required.

Permit fee	148.50
2% State Levy	2.97

Re: Town of Blackstone Passthrough Funds

The Town of Blackstone applied for funding through the Virginia Department of Criminal Justice Services (DCJS) which provides monetary reimbursement to local Police Departments that carryout temporary detention orders (TDO) and emergency custody orders (ECO).

Due to stipulations by DCJS, the funding must be passed through the County.

The Town has applied for an was awarded \$2,405.00 which was received by the County on December 26, 2024.

We ask the Board to both approve the receipt of these passthrough funds and the disbursement of these funds to the Town of Blackstone.

Claim Number 3042025370915
Date of Loss: 1/22/2025

Dear Katy,

Enclosed please find a VAcorp property damage check in the amount of \$332.96. This check is for the repair costs to the 2021 Ford Explorer VIN 8675. This amount was determined by the estimates from Lil Dink's Custom Paint & Body (\$1,332.96) minus your \$1,000 deductible, for a total payment of \$332.96.

If you should have any questions regarding this payment, please do not hesitate to contact our office.

Sincerely,

A handwritten signature in black ink, appearing to read 'Eddie Gough', with a large, stylized flourish at the end.

Eddie Gough
Claims Associate

COMMONWEALTH REGIONAL COUNCIL

JANUARY 2025 ITEMS OF INTEREST

Grant Assistance:

- UDOT, RAISE Grant: CRC staff assisted Prince Edward County with the submission of a RAISE planning grant to complete an interchange study on 460.

Upcoming Funding Opportunities:

- VDACS, AFID Planning Grant: Open; Rolling Basis
- VDOF, Virginia Trees for Clean Water: Open - Rolling Basis
- Virginia Housing, Workforce Housing Investment Program: Opens on 2/1/25
- VDACS, Food Access Investment Fund (VFAIF): Pre-application closes on 12/31/24; Full application opens on 2/3/25
- Rescue Squad Assistance Fund (RSAF): Opens on 2/1/25
- VDEM, VA Emergency Shelter Upgrade Assistance Grant Fund: closes on 2/14/25
- Virginia Housing, Regional Housing Program: Open, closes on 3/3/25
- VOF, Preservation Trust Fund: Open, Closes on 3/18/25
- TRRC, Southern Virginia Program: Open, Closes on 3/6/25

The CRC provides free grant writing services for member localities and local 501C3 non-profits.

DHCD, Broadband Affordability and Adoption Plan Update

The CRC is in the process of creating a regional broadband affordability and adoption plan. As part of developing this plan, the CRC staff developed a summary report for the Community meetings and the survey input from 210 surveys. CRC staff presented the survey summary report to the Project Management Team for input. CRC staff has begun working on developing the plan.

Virginia Telecommunications Initiative (VATI)

CRC, Lunenburg, and Cumberland County staff attended a site visit to view Planet Networks (previously known as Kinex) progress in Cumberland County. Planet Networks crews were laying middle mile fiber at the intersection of Cumberland Road and Raines Road.

Regional Cyber Security Training

The CRC hosted a Regional Cyber Security workshop on January 27th. Bryant Harrison, CEO of Seventh Wall, provided a cyber security workshop on the five most important security safeguards. The workshop had twelve participants, including town and county staff.

VACo's Local Government Day

Christin Jackson, CRC Executive Director, attended VACo's Local Government Day at the General Assembly in Richmond. Local government day is intended for local government and regional agencies to advocate on behalf of their communities. Mike Hankins, CRC Chairman, also attended and gave a speech.

Amelia County Modified Comprehensive Plan Update

CRC staff attended a working session January 23rd. At this meeting, CRC staff reviewed the revisions to the Transportation section, provided an update on the surveys, and reviewed revised maps for the natural resource section. The survey closed, and the County has received 509 paper and online survey responses. At the next work session, the CRC staff will present the requested changes to the Transportation section, review the draft survey summary report, and review the draft of the natural resource section of the plan.

Buckingham County Comprehensive Plan Update

CRC staff attended a working session on January 27th. At this meeting, CRC staff reviewed the requested changes to these sections and reviewed the draft comprehensive plan in its entirety. CRC staff also discussed setting up the public hearing.

Lunenburg/Victoria/Kenbridge Joint Comprehensive Plan Update

CRC staff attended a work session to review the draft comprehensive plan in its entirety. The working committee did have a few requested changes, which CRC staff completed. CRC staff members are working on printing the draft plan in preparation for the public hearings that will begin in March.

Community Voices

"Nottoway High School partnered with the Nottoway Extension Office to provide an internship experience. I went into the intern-

ship with zero work experience and learned so much with the help of Mrs. Abston and Abbi. I learned time management, office dress code, and task management. I will apply these skills in my future career."

4-H programming

Sharing Knowledge

Nottoway County Public Schools has reported high incidents of fighting and bullying. 4-H Agent Terry Abston received a grant of \$500 that enabled her to partner with Nottoway Middle School to help youth develop confidence and work on social behaviors that impede communication, resulting in conflict.

Abston collaborated with teachers Travis Andrews and Julia Bodnar to help 187 seventh graders build skills to help them navigate middle school situations that arise from lack of confidence.

From this program, students decreased the incidents of fighting and were empowered to define safe relationships, implement problem-solving strategies, and decrease chronic absenteeism.

Partners for Solutions

"As the newly hired ANR agent, it is my priority to serve the citizens of the county and establish a great working relationship with

the local community and producers. Attending Piedmont Soil & Water Conservation District board meetings and Farm Bureau annual meetings, and obtaining my Commercial Pest Control Applicator Category 10 certification have provided me with opportunities to serve."

Value of extension
volunteer hours in
Nottoway County

To find out how you can support your local Extension office,
visit www.cals.vt.edu/make-a-gift.

Virginia Cooperative Extension is a partnership of Virginia Tech, Virginia State University, the U.S. Department of Agriculture, and local governments. Its programs and employment are open to all, regardless of age, color, disability, sex (including pregnancy), gender, gender identity, gender expression, genetic information, ethnicity or national origin, political affiliation, race, religion, sexual orientation, or military status, or any other basis protected by law. VCE/1223/VCE-1208

In 2024, We started the year with a part-time ANR agent. That worked well until his responsibilities were expanded to Lunenburg, making it so he had to share part-time hours between two localities. That only allowed him to be in our office once a week as he does many farm visits and helps other Agents in their programming. The clientele seems to be ok with it, however, he's working more hours than he should, and I must keep reminding him that part-time is just that.

Programming in 2024:

4-H in school programs expanded from six to eight grade levels. One of these programs was Discover Confidence, a curriculum out of Utah State University. This program reached all 7th grade students during their PE classes. One hundred and eighty-eight students participated in 6 meetings and completed the activities in the curriculum in the fall of 2024. This program is the second year I was invited to implement it during the school day at Nottoway Middle School.

I continued to support STEM education in 2024 for the 5th and 6th grade. I also continued to do programming in Virginia Studies, 4th grade in school clubs, which ended up benefiting me because now I'm working with the same grade level but in more of history support for 150 students in two Primary Schools. I enjoy learning new things and expanding my knowledge, this has done that.

LK Mondrey and I expanded our programming to include three 4th grade classrooms and two 5th grade classrooms totaling 55 students at Kenston Forest School, the private school in Nottoway. This changed a lot from last year, focusing more on the social and emotional type of programming rather than Public Speaking.

I had a new group of youth in which the situational analysis identified a need. I partnered with the Commonwealth Regional Council and Lyle Currin (our ANR Agent) to offer a Rain Barrel Workshop. In developing this program, I added water conservation activities with the construction of rain barrels. The CRC supported funding and taught the youth how to make a flyer to sell Rain Barrels to support the Nottoway High School FFA. The youth learned how to market the barrels they constructed. Thirty-five high schoolers participated.

At Nottoway High School I partnered with their Financial Management teachers and enlisted some volunteer help from other Agents and Adult Volunteers to do a Reality Store Event. Over 350 high school students participated and received real-world experience learning about budgeting their finances. Jane Henderson, FCS Agent, helped by lending us materials and volunteered during the event.

I've worked with the 21st Century team on supporting programs, developing curriculum, and training volunteers to implement programs to the afterschool youth.

Clubs In the 2-23-2024 4-H Year:

This was the year when all my leaders had to do the Office on Youth Training and for the most part, they did what they were supposed to. I do anticipate some pushbacks with the yearly Civil Rights Training but if they want to continue this is their only option.

The Little and Large Club has Three leaders presenting opportunities for our members. They participated in the Block and Bridle Livestock Judging Competition and learned how to judge livestock. They also did a plant sale to raise money to go on trips and learn about other types of

farming. This sale included them starting various vegetable seeds, advertising their plants to the public, caring for the seedlings as they developed, and then selling them to customers. The Club worked as a team for this entire project.

The Horse Club is struggling to attract more members despite our multiple attempts to advertise the Club. We are working closely with the leaders to support the success of this Club.

The Teen Leader Club meets monthly to discuss training topics, the needs of the schools, funding strategies, and fellowship events. They are a group of young leaders that like to meet and develop camps and programs for younger kids.

An Adult Leaders Club was formed at the request of some of the leaders to develop training for our volunteers in leadership. These meetings take place 4 times a year. The first meeting happened in October, going over enrollment and training through the Office on Youth and Civil Rights, and Club finances. More meetings will be held in February, May, and August.

Our Nottoway Shooting Sports Club went to BB Nationals in 2023. Raising funds to support this program allowed 8 youths and their families to go to Arkansas.

Camps2024:

We offered a travel day camp which served 10 youth. This allowed them to travel around the state and participate in wonderful geology opportunities such as, gold panning, crystal making, fossil hunting, and rock cycle games. The campers also traveled to State Parks that had geological sites and collected various crystals. Rounding our journey, we went to Surry County and visited Chippokes State Park to collect fossils.

I helped train the youth that participated with Cumberland in the Me-We program. We did macroinvertebrate training in May of 2024

Our Jr. 4-H Camp Cluster included Cumberland, Nelson, Amelia and Nottoway counties. Teen and Adult Volunteer Trainings took place collectively as a cluster, as well as during our Teen Leader Club Meetings. Most also attended TALT. The focus this year was training adults and teens to handle camp. My male teens took the initiative to help in the bath houses during evenings to get campers ready for bed. The adult leading that effort wasn't handling it well and the teens were concerned about the youth. So, the Agent from another county reassigned that adult to another position. Nottoway and Cumberland teens took on that role of manning the bathhouse supervision for nighttime showers. Nottoway took 55 people to camp in 2024.

In February we were told about the Office on Youth and the mandatory training all our camping volunteers are required to complete. A plan was set in place to help make this a reality. All my teens and adults received 24hrs of training and were tested passing with an 80% or better.

Committee work:

I've attended Youth Development Training on the Thrive Model. I did the mandatory camp training given by the state staff, and I participated in the Winter Conference.

I helped plan Winter in The Woods Camp, TALT, Food Frenzy Camp for 2025, NRE Summer Camp, and Jr. 4-H Camp in 2024. I sat on the Piedmont Livestock Show and Sale Committee and for the past 6 years have done record reviews on the project books for the sale.

I have done some programs for the garden clubs and work closely with the Nottoway master gardeners and the south-central master gardeners.

Funding:

I am a co-partner on the 21st Century Grant with Nottoway County Public Schools. We received \$2,500 to support a field trip to Holiday Lake 4-H Center serving 45 youth in June. I received support of \$3000.00 to support an intern from the Nottoway High School CTE Program. The funding to pay this student came from the school system and the student was paid directly from the CTE Program. I got scholarships funded by Holiday Lake 4-H Center supporters for Jr. 4-H Camp in the amount of \$1200.00. Nottoway Social Services also provided \$1,000 for Camper Scholarships to help low-income youth attend Jr. 4-H Camp. Nottoway Regional Shooting Sports received a \$3000.00 "gift in kind" donation through the NRA. The Commonwealth Regional Council also reimbursed us for supplies to make Rain Barrels in the amount of \$270.72. This comes to a total of \$10,970.72 in external funding. Volunteers worked 2400 hours this past year. Fifteen volunteers were trained and supported clubs, camps, and outreach programs in Nottoway.

The County needs a response:

I continue to support the EOC when weather emergencies are imminent, we have been lucky in 2024. I also meet with the County Administrator regularly and have suggested that he meet with all the offices that need to collaborate to discuss upcoming changes to our facility.

I continue to meet with the director of Social Services on funding for 4-H youth to go to camp, they provided \$1000 through the Safe and Stable Family Grant for camp in 2024. We are working closely to identify where Extension programming can do programming and what programming is needed to help low-income citizens.

Quartermaster reports have been revamped to be more attractive and share our programs to the board of supervisors and stakeholders.

ELC- Our Extension Leadership Council met twice in 2024. The members were helpful at identifying the top priorities of the county, but they have a hard time understanding what their purpose is. We need to hear the needs of the citizens in between the 5-year cycle.

State committee duties:

I belong to the NREALE Programming Team and attended the Program Team Conference.

The Camping Task Force worked on online resources for teens and adults to get their hours of training.

I helped with planning for Health Rocks, but this is my last year of being the Central District Captain.

I assisted with the Central District Volunteer Leaders Conference in February 2024.

Outreach:

During Farm and Family Day I helped with the setup, manned a booth, and spoke to attendees about the opportunities and programs in Nottoway and surrounding counties.

In 2024 I was asked to help with Crewe Cares. This is a committee of Crewe residents wanting to start a community garden. I meet with this group every other month to discuss planning, looking for funding, and reaching out to other groups that may want to partner. The goal for 2024 was to have a garden at the Crewe library site and construction began in December of 2024. The extension's role is garden planting, seed propagation, and food preservation workshops.

I taught lake ecology for Amelia's Fishing Day Camp held in March of 2024. Approximately 200 youth attended this event organized by LK Mondrey.

I continue to support the county's Emergency Operations Center and helped to develop volunteer support to man the center during natural disasters.

We had our first high school intern paid by the school system. Freeing us up to support a day camp, and Jr. 4-H camp, and helping us organize programming supplies. This also had a great impact on our intern as it was his first real job experience. This student has since joined the Teen Leader Club and even holds a position as one of the Club Officers.

Office management:

Our office has been working smoothly since January. We have monthly staff meetings communicating and working together on budgets, programming ideas, and fiscal duties. We approach everything with a team discussion, brainstorming, and implementation. We do monthly check-ins on tasks that come down the pipe and talk about what could have been better on each of our ends. Collaboration is important when you only have two folks running things.

I learned a new system for evaluating office staff, this system requires more documentation on the continual work of the staff. As UC, I see this as another task that must be done for Human Resources.

Developing leadership in the office- Training is critical and our office staff can only help us when they understand what we need and how our clients need information. Allowing training in different aspects of our staff's responsibilities is critical in developing confident and responsive staff. Offering opportunities to expand their knowledge is also critical to keeping staff engaged and happy. Our AFA, Abbi, continues her training by taking the Fiscal Management classes and attends other trainings we find would be helpful in assisting our office and programs.

During times of inclement weather, we are in constant contact with everyone making sure we all have what we need to help our clients. We do lunches so we can fellowship and bounce ideas of each other on less hectic days. We hold monthly meetings covering, civil rights and budgets of the office. A well-informed team works more effectively.

PETITION OF VIRGINIA ELECTRIC AND POWER COMPANY

Pursuant to § 56-585.1 A 5 d of the Code of Virginia ("Va. Code"), Virginia Electric and Power Company ("Dominion Energy Virginia" or the "Company"), by counsel, hereby submits its annual update filing with respect to its Rider RPS ("2024 Annual Update" or "Update") to recover projected and actual costs related to compliance with the mandatory renewable energy portfolio standard program (the "RPS Program") established through the Virginia Clean Economy Act ("VCEA"). In support of its petition (the "Petition"), the Company respectfully shows as follows:

I. GENERAL INFORMATION

1. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional customers in Virginia and to the public in portions of North Carolina. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is also a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc.

2. The Company's address is:

Virginia Electric and Power Company
120 Tredegar Street
Richmond, Virginia 23219

3. The names, addresses, and telephone numbers of the attorneys for the Company are:

Paul E. Pfeffer
Lisa R. Crabtree
Dominion Energy Services, Inc.

Richmond, Virginia 23219
(804) 787-6033 (PEP)
(804) 819-2612 (LRC)

Elaine S. Ryan
Nicole M. Allaband
McGuireWoods LLP
Gateway Plaza
800 East Canal Street
Richmond, Virginia 23219-3916
(804) 775-1090 (ESR)
(804) 775-4364 (NMA)

II. BACKGROUND

4. The VCEA—Senate Bill No. 851 and House Bill No. 1526 from the 2020 Regular Session of the Virginia General Assembly—became law in the Commonwealth effective July 1, 2020. Relevant to this proceeding, the VCEA (i) instituted the mandatory RPS Program and (ii) amended Va. Code § 56-585.1 A 5 d to allow for the recovery of projected and actual costs of compliance with the mandatory RPS Program through a rate adjustment clause (“RAC”).

5. Va. Code § 56-585.5 C establishes the RPS Program under which the Company must meet annual requirements for the sale of renewable energy based on a percentage of non-nuclear electric energy sold to retail customers in the Company's service territory. Va. Code

§ 56-585.5 C sets forth the annual RPS Program requirements, as well as the standards for meeting these requirements.

6. Va. Code § 56-585.1 A 5 d, as amended by the VCEA, permits cost recovery related to the RPS Program and establishes the applicable standard of review:

A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of . . . [p]rojected and actual costs of compliance with renewable energy portfolio standard requirements pursuant to § 56-585.5 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs incurred as required by § 56-585.5, provided that the Commission does not otherwise find such costs were unreasonably or imprudently incurred.

III. RIDER RPS

7. Generally, the Company will meet the annual requirements of the RPS Program through the retirement of renewable energy certificates (“RECs”) that originate from eligible sources as defined in Va. Code § 56-585.5 C. Eligible RECs will be sourced from a combination of RECs generated from Company-owned renewable energy facilities (including the “CE Projects” and “CVOW Project”), RECs generated from renewable energy facilities owned by an entity other than the utility with which the Company has entered into a power purchase agreement (including the “CE PPAs”), long-term REC-only contracts, and market purchases of RECs. The Company may bank the RECs generated by Virginia facilities from 2021 through 2025 for use in 2026 when the requirement for Virginia-located resources begins.

8. The proposed rate year for this proceeding is September 1, 2025 through August 31, 2026 (“Rate Year”).

9. To determine the total cost of RECs to be recovered through Rider RPS, the Company first determined its projected RPS Program requirements for 2025, and then used these

projections to determine the estimated volume of RECs needed during the Rate Year. The Company then determined the projected volume of RECs that the Company would need to utilize from its bank or purchase from the market. For any RECs the Company would need to purchase or utilize from the bank, the Company multiplied the volume of RECs by a weighted average price in order to determine the cost of the gross purchases and banked RECs needed for the Rate Year. The Company expects to need approximately 13.8 million RECs during the Rate Year, approximately 138,500 of which must come from distributed energy resources. Once the Company determined the total cost of RECs to be recovered in this proceeding, it applied a Virginia jurisdictional allocation factor sponsored by Company Witness William J. Caffall.

10. Rider RPS reflects the rate design framework approved in Case No. PUR-2020-00134 for this 2024 Annual Update. Based on that framework, the “costs” of RECs generated by the CE Projects, CE PPAs, and the CVOW Project will be recovered through the Company’s Rider RPS at an established REC proxy value, while an offsetting incremental “revenue” amount will be credited to Rider CE and Rider OSW, as applicable, as if those RECs were being “sold.” The REC proxy value and transfer of the REC cost from Rider CE and Rider OSW will ensure that the non-bypassable costs of RPS Program compliance are recovered from all retail customers regardless of electric supplier within the limits provided in the VCEA. For purposes of this Update, the Company utilized the REC proxy value as determined by the methodology approved in Case No. PUR-2021-00156.¹

11. For purposes of this Petition, and consistent with the Commission’s November 18, 2021 Final Order in the Company’s 2021 triennial review proceeding in Case No. PUR-

¹ *Commonwealth of Virginia, ex rel. State Corporation Commission, Ex Parte: Establishing a proceeding concerning the allocation of RPS-related costs and the determination of certain proxy values for Virginia Electric and Power Company*, Case No. PUR-2021-00156, Final Order at 9 (June 13, 2023).

2021-00058, the Company is utilizing the approved return on common equity (“ROE”) of 9.35% for the period after the date of that Final Order through February 27, 2024. In addition, the capital structure used in the calculation of the revenue requirement reflects the methodology proposed by Staff and approved by the Commission in that Final Order. For the period beyond February 27, 2024, the Company is utilizing a 9.7% ROE, which is the Company’s authorized ROE as set by the Commission in Case No. PUR-2023-00101.

12. The Company’s RAC revenue requirement in this proceeding includes the Projected Cost Recovery Factor and the Actual Cost True-up Factor. In addition, similar to the interim true-up correction utilized in Case No PUR-2021-00282, the Company is proposing an interim correction factor (“Interim Correction Factor”) to update projected costs from the 2022 Rider RPS proceeding and recover them over the proposed Rate Year. The Projected Cost Recovery Factor calculation results in the operating income necessary for recovery of the cost of RECs purchased or utilized during the Rate Year. The Actual Cost True-Up Factor recovers from, or credits to, customers any under- or over-recovery of costs from the most recently completed calendar year. Actual revenues recovered during the test year are compared to actual costs incurred during the test year. Any difference in these amounts becomes the Actual Cost True-Up Factor recovered from, or credited to, customers through the total revenue requirement requested for recovery during the rate year. The Interim Correction Factor calculation will recover from, or credit to, customers any under/over collection of updated projected REC costs included in the September 1, 2023 through August 31, 2024 Rate Year. The updated projections are compared to the original projected amounts from the 2022 Rider RPS filing. This difference becomes the Interim Correction Factor to be recovered from, or credited to, customers during the proposed September 1, 2025 through August 31, 2026 Rate Year.

13. The total revenue requirement requested for recovery in this Rider RPS Update, for the Rate Year beginning September 1, 2025, is \$608,726,359. The implementation of the proposed Rider RPS on September 1, 2025, will incrementally increase the typical residential customer's monthly bill, based on 1,000 kWh per month, by \$2.99 compared to the current Rider RPS.

IV. SUPPORTING TESTIMONY, FILING SCHEDULES, AND REQUESTS FOR WAIVERS

14. The Company's Petition is supported by the pre-filed direct testimonies of Company Witnesses John R. Leimann, Renee T. Lipscomb, and William J. Caffall.

15. Rule 60 of the Rate Case Rules provides that an application filed pursuant to Subsection A 5 "shall include Schedule 46 as identified and described in 20 VAC 5-204-90, and which shall be submitted with the utility's direct testimony. Additionally, petitions requiring an overall cost of capital shall include Schedules 3, 4, 5 and 8." With this Petition, the Company files the following Filing Schedules:

- a. Filing Schedule 8, sponsored by Company Witness Lipscomb, provides information regarding the Company's cost of capital.
- b. Filing Schedule 46A, consisting of Statements 1 and 2, is sponsored by Company Witness Leimann. Filing Schedule 46A, Statement 1 addresses the projected and actual costs by type of cost and year, and by month associated with Rider RPS. Filing Schedule 46A, Statement 2, addresses key documents supporting the costs in Statement 1.
- c. Filing Schedule 46B, consisting of Statements 1 through 3, is sponsored by Company Witness Lipscomb. Filing Schedule 46B, Statement 1, addresses the estimated annual revenue requirement for the Rate Year. Filing Schedule 46B, Statement 2, provides the estimated annual revenue requirement for the duration of the RAC, by year. Filing Schedule 46B, Statement 3, provides the supporting calculations and assumptions for the estimated annual revenue requirements shown in Statement 2.

Filing Schedule 46C, consisting of Statements 1 and 2, is sponsored by Company Witness Caffall. Filing Schedule 46C, Statement 1, provides the annual revenue requirement for Rider RPS by class. Filing Schedule 46C, Statement 2, addresses

the Company's methodology for allocating the proposed revenue requirement among the rate classes and the design of the class rates.

16. The Company, for good cause shown and pursuant to 20 VAC 5-204-10 E, respectfully requests that the Commission waive, in part, the requirement under Rule 60 to file Filing Schedules 3 through 5. Pursuant to 20 VAC 5-204-60, the Company is required to submit Filing Schedules 3 through 5 and 8 for each rate adjustment clause proceeding supporting each overall cost of capital used in the petition. However, after consultation with Staff, and in the interest of judicial economy, the Company is only submitting Filing Schedule 8 for the 2023 year-end capital structure as Filing Schedules 3-5 are being reviewed by the Commission in the Company's 2024 Rider GEN proceeding, Case No. PUR-2024-00097.² To the extent necessary, the Company requests a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2023 capital structure. Further, to the extent necessary, the Company requests a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2022 capital structures, as those have already been reviewed and approved by the Commission in the Company's 2023 biennial review proceeding, Case No. PUR-2023-00101. The Company is submitting Filing Schedule 8 for the year 2023. This request for waiver is consistent with the Commission's recent order granting a similar limited waiver.³

17. Furthermore, the Company is utilizing an updated revenue lag based on calendar year 2023 data in its cash working capital calculations. After consultation with Commission Staff, the Company respectfully requests that any issues related to the revenue lag be litigated in

² See *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider GEN, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders B, BW, GV, US-2, US-3, and US-4 pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00097, Application at 10 (June 4, 2024).

³ *Petition of Virginia Electric and Power Company, For approval of its 2024 RPS Development Plan under § 56-585.5 D 4 of the Code of Virginia and related requests*, Case No. PUR-2024-00147, Order on Motions at 9 (Sept. 12, 2024).

the Company's Rider GEN proceeding, Case No. PUR-2024-00097, which is currently pending before the Commission.

18. The Company, for good cause shown and pursuant to Rate Case Rule 10 E, also respectfully requests that the Commission waive, in part, the requirements under Rules 60 and 90 of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials. Specifically, the Rate Case Rules require the Company to provide key documents supporting the proposed costs.⁴ Even with the limitation of only including those materials that have not been provided in previous applications, the supporting documentation responsive to this requirement is voluminous (over 2,400 pages) and, often, is not easily viewed in hard copy (*i.e.*, paper) format. Accordingly, the Company seeks waiver of the requirement to file multiple copies of this information in hard copy. Instead, the Company proposes to provide this documentation to Commission Staff and any other future case participant in electronic format and provide the Commission with one hard copy of the documentation and three compact discs with the documentation in electronic format. The Company will make the electronic version of these documents available via an electronic discovery site ("eRoom") contemporaneously with the filing of the Petition, with immediate access available to Staff. This request for waiver is consistent with recent Commission orders granting similar limited waivers.⁵ Should the Commission deny this request, the Company asks for a reasonable allowance of time to print the requisite filing copies of the materials and submit it to the Commission prior to the Company's application being deemed incomplete.

⁴ 20 VAC 5-204-90, Filing Schedule 46(c)(1)(iii).

⁵ *Petition of Virginia Electric and Power Company, For approval of its 2024 RPS Development Plan under § 56-585.5 D 4 of the Code of Virginia and related requests*, Case No. PUR-2024-00147, Order on Motions at 9 (Sept. 12, 2024); *Petition of Virginia Electric and Power Company, For revision of a rate adjustment clause, designated Rider RPS, under § 56-585.1 A 5 d of the Code of Virginia for the Rate Year commencing September 1, 2024*, Case No. PUR-2023-00221, Order for Notice and Hearing at 5, 15 (Jan. 5, 2024).

V. REQUEST FOR CONFIDENTIAL TREATMENT AND ADDITIONAL PROTECTIVE TREATMENT OF EXTRAORDINARILY SENSITIVE INFORMATION

19. The Company's Petition and accompanying schedules contain confidential and extraordinarily sensitive information as designated. Because portions of the Company's filing contain such confidential and extraordinarily sensitive information, in compliance with Rule 10 F of the Rate Case Rules; and Rule 170 of the Commission's Rules of Practice and Procedure,⁶ this Petition is accompanied by a contemporaneously-filed Motion for Entry of a Protective Order and Additional Protective Treatment, including a Proposed Protective Order.

VI. COMPLIANCE WITH RULE 10 OF THE RATE CASE RULES

20. The Company's Petition for approval of Rider RPS complies with the requirements contained in Rule 10 of the Rate Case Rules.

21. In accordance with Rule 10 A, the Company filed with the Commission its notice of intent to file this Petition on October 1, 2024, and provided that notice to those listed in Rule 10 J 1, as required by that subsection.

22. The Company has included all information required by Rule 10 B in its Petition, including a table of contents, direct testimonies with one-page summaries, and properly labeled exhibits and schedules.

23. In accordance with Rule 10 H, the Company will make a searchable PDF version of the Petition, direct testimonies, and Filing Schedules available via an eRoom contemporaneously with this filing, with immediate access available to (i) Commission Staff, including identified members of the Divisions of Utility Accounting and Finance and Public Utility Regulation; and (ii) identified members of the Office of the Attorney General's Division

⁶ 5 VAC 5-20-170.

of Consumer Counsel ("Consumer Counsel").⁷ Also in accordance with Rule 10 H, the Company will make electronic spreadsheets supporting the schedules that contain calculations available via an eRoom contemporaneously with this filing, with immediate access available to Commission Staff.

VII. CONCLUSION

WHEREFORE, Dominion Energy Virginia respectfully requests that the Commission (i) approve the proposed revenue requirement for service rendered on and after September 1, 2025, to recover projected and actual costs related to compliance with the mandatory RPS Program; (ii) approve the Company's proposed Rider RPS, effective for usage on and after September 1, 2025; and (iii) grant such other relief as deemed appropriate and necessary.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

PETITION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2024-00215

For revision of a rate adjustment clause,
designated Rider RPS, under § 56-585.1 A 5 d
of the Code of Virginia for the Rate Year
commencing September 1, 2025

ORDER FOR NOTICE AND HEARING

On December 3, 2024, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition") for revision of a rate adjustment clause, designated Rider RPS, pursuant to § 56-585.1 A 5 d of the Code of Virginia ("Code"). Through its Petition, Dominion seeks to recover projected and actual costs related to compliance with the mandatory renewable energy portfolio standard program ("RPS Program") established in the Virginia Clean Economy Act ("VCEA").¹

Pursuant to Code § 56-585.5 C, Dominion is required to participate in an RPS Program that establishes annual goals for the sale of renewable energy to all retail customers in the Company's service territory, with certain limited exceptions. To comply with the RPS Program, Dominion must procure and retire renewable energy certificates ("RECs") originating from qualifying sources. The RPS Program requirements "shall be a percentage of the total electric energy sold in the previous calendar year" and must be implemented in accordance with the schedule set forth in Code § 56-585.5 C. The statute permits Dominion to apply renewable energy sales achieved or RECs acquired in excess of the sales requirement for a specific year's

¹ Petition at 1. *See also* 2020 Va. Acts chs. 1193, 1194.

RPS Program to the sales requirements for certain future years. Code § 56-585.5 C further provides that, to the extent Dominion procures RECs for RPS Program compliance from resources it does not own, the Company shall be entitled to recover the costs of such RECs pursuant to Code §§ 56-249.6 or 56-585.1 A 5 d.

Code § 56-585.1 A 5 d, as amended by the VCEA, provides that a utility may petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of:

[p]rojected and actual costs of compliance with renewable energy portfolio standard requirements pursuant to § 56-585.5 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs incurred as required by § 56-585.5, provided that the Commission does not otherwise find such costs were unreasonably or imprudently incurred

In its Petition, Dominion states that it will meet the annual requirements of the RPS Program through the retirement of RECs that will be sourced from a combination of RECs generated from Company-owned renewable energy facilities (including the "CE Projects" and "CVOW Project"), RECs generated from renewable energy facilities owned by an entity other than the utility with which the Company has entered into a power purchase agreement (including the "CE PPAs"), long-term REC-only contracts, and market purchases of RECs.² The Company states that it may bank the RECs generated by Virginia facilities from 2021 through 2025 for use in 2026.³

To determine the total cost of RECs to be recovered through Rider RPS, the Company states that it first determined its projected RPS Program requirements for 2025, and then used those projections to determine the estimated volume of RECs needed during the rate year of

² Petition at 3.

³ *Id.*

September 1, 2025, to August 31, 2026 ("Rate Year").⁴ The Company asserts it then determined the projected volume of RECs that the Company would need to utilize from its bank or purchase from the market.⁵ For any RECs the Company would need to purchase or utilize from the bank, the Company states that it multiplied the volume of RECs by a weighted average price in order to determine the cost of the gross purchases and banked RECs needed for the Rate Year.⁶ The Company expects to need approximately 13.8 million RECs during the Rate Year, approximately 138,500 of which it says must come from distributed energy resources.⁷ According to the Company, once it determined the total costs of RECs to be recovered in this proceeding, it applied a Virginia jurisdictional allocation factor.⁸

Based on the framework approved in Case No. PUR-2020-00134, the Company asserts that the "costs" of RECs generated by the CE Projects, CE PPAs, and the CVOW Project will be recovered through the Company's Rider RPS at an established REC proxy value, while an offsetting incremental "revenue" amount will be credited to Rider CE and Rider OSW, as applicable, as if those RECs were being "sold."⁹ The Company then states that the REC proxy value and transfer of the REC cost from Rider CE and Rider OSW will ensure that the non-bypassable costs of RPS Program compliance are recovered from all retail customers regardless of electric supplier within the limits provided in the VCEA.¹⁰ For purposes of this Petition, the

¹⁰ Petition at 4.

Company states that it utilized the REC proxy value as determined by the methodology approved in Case No. PUR-2021-00156.¹¹

According to the Company, the revenue requirement for Rider RPS includes both a Projected Cost Recovery Factor and an Actual Cost True-Up Factor. The Company is also proposing, similar to the interim true-up correction utilized in Case No. PUR-2021-00282, an interim correction factor ("Interim Correction Factor") to update projected costs from the 2022 Rider RPS proceeding and recover them over the proposed Rate Year.¹² The Company states that the Interim Correction Factor calculation will recover from, or credit to, customers any under/over collection of updated projected REC costs included in the September 1, 2023 through August 31, 2024 rate year.¹³ In this proceeding, the Company seeks approval of a Projected Cost Recovery Factor Revenue requirement of \$355,944,881, an Actual Cost True-up Factor revenue requirement of \$41,214,107, and an Interim Correction Factor of \$211,567,370, for a total revenue requirement of \$608,726,359 for the Rate Year.¹⁴

If the proposed Rider RPS for the Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to Dominion, implementation of its proposed Rider RPS on September 1, 2025 would increase the monthly bill of a residential customer using 1,000 kWh per month by approximately \$2.99 compared to the current Rider RPS.¹⁵

¹⁵ Petition at 6.

Dominion requests waivers, in part, of Rule 20 VAC 5-204-60 ("Rule 60") of the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities ("Rate Case Rules")¹⁶ with respect to Schedules 3-5, and partial waiver of Rule 60 and 20 VAC 5-204-90 ("Rule 90") as they relate to Schedule 46 (collectively, "Waiver Requests"). First, under Rule 60, the Company is required to submit Schedules 3 through 5, and 8, for each rate adjustment clause proceeding supporting each overall cost of capital used in the petition.¹⁷ The Company states that after consultation with Commission Staff ("Staff"), and in the interest of judicial economy, the Company is only submitting Schedule 8 for the 2023 year-end capital structure, as Schedules 3-5 are being reviewed by the Commission in the Company's 2024 Rider GEN proceeding, Case No. PUR- 2024-00097.¹⁸ To the extent necessary, the Company requests a waiver of the requirement to file Schedules 3 through 5 for the year-end 2023 capital structure.¹⁹ The Company also requests a waiver of the requirement to file Schedules 3 through 5 for the year-end 2022 capital structures, as those have already been reviewed and approved by the Commission in the Company's 2023 biennial review proceeding, Case No. PUR-2023-00101.²⁰

Second, the Company requests a partial waiver of Rule 60 and Rule 90 of the Rate Case Rules with respect to Schedule 46.²¹ Rule 60 states that an application for a rate adjustment clause filed pursuant to Chapter 23 of Title 56 of the Code shall include Schedule 46, "Rate

²¹ *Id.*

Adjustment Clauses and Prudency Determinations Pursuant to Chapter 23 (§ 56-576 *et seq.*) of the Code of Virginia."²² Schedule 46 requires an applicant to provide certain information, including key documents supporting the projected and actual costs recovered through the rate adjustment clause.²³ According to Dominion, the supporting documentation responsive to this requirement is voluminous and not easily reviewed in hard copy (paper) format, and therefore the Company seeks waiver of the requirement to file 15 hard copies of the information.²⁴ Instead, the Company proposes to provide the documentation to Staff and any future case participants in electronic format.²⁵

Finally, in conjunction with the filing of its Petition on December 3, 2024, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Order and Additional Protective Treatment ("Motion for Protective Ruling") and a proposed protective order that suggests procedures for the use of confidential and extraordinarily sensitive information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that Dominion should provide public notice of its Petition; a hearing should be scheduled for the purpose of receiving testimony and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or to participate as respondents in this proceeding; and the Staff should be directed to investigate the Petition and file testimony and exhibits containing its findings and recommendations thereon.

Further, we find that a Hearing Examiner should be assigned to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's

²² Rule 60.

²³ Rule 90, Schedule 46 instructions, § (c) (1) (iii).

²⁴ Petition at 7.

²⁵ *Id.*

Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations.

Next, based on the particular facts of this case, we find that Dominion's request to waive in part the requirements under Rule 60 and Rule 90 of the Rate Case Rules with respect to the Waiver Requests should be granted.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2024-00215.

(2) All pleadings in this matter shall be submitted electronically to the extent authorized by Rule 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure ("Rules of Practice").²⁶ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents

²⁶ 5 VAC 5-20-10 *et seq.*

containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) As provided by § 12.1-31 of the Code and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling, and to file a final report containing the Hearing Examiner's findings and recommendations. A copy of each filing made with the Commission's Clerk's Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.²⁷

(5) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Petition, as follows:

- (a) A hearing for the receipt of testimony from public witnesses on the Petition shall be convened telephonically at 10 a.m. on April 24, 2025.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before April 16, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141.
- (d) Beginning at 10 a.m. on April 24, 2025, the Hearing Examiner assigned to this matter will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

²⁷ Such electronic copies shall be sent to OHEParalegals@scc.virginia.gov.

(6) The evidentiary portion of the hearing shall be convened at 10 a.m. on April 24, 2025, or at the conclusion of the public witness hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive testimony and evidence from the Company, any respondents, and the Staff.

(7) An electronic copy of the public version of the Company's Petition may be obtained by submitting a written request to counsel for the Company, Elaine S. Ryan, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or eryan@mcguirewoods.com. Interested persons also may download unofficial copies from the Commission's website: scc.virginia.gov/pages/Case-Information.

(8) On or before February 3, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC OF PETITION BY
VIRGINIA ELECTRIC AND POWER COMPANY
FOR REVISION OF A RATE ADJUSTMENT CLAUSE,
DESIGNATED RIDER RPS, FOR THE RATE YEAR
COMMENCING SEPTEMBER 1, 2025
CASE NO. PUR-2024-00215

On December 3, 2024, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition") for revision of a rate adjustment clause, designated Rider RPS, pursuant to § 56-585.1 A 5 d of the Code of Virginia ("Code"). Through its Petition, Dominion seeks to recover projected and actual costs related to compliance with the mandatory renewable energy portfolio standard program ("RPS Program") established in the Virginia Clean Economy Act ("VCEA").

Pursuant to Code § 56-585.5 C, Dominion is required to participate in an RPS Program that establishes annual goals for the sale of renewable energy to all retail customers in the Company's service territory, with certain limited exceptions. To comply with the RPS Program, Dominion must procure and retire renewable energy certificates ("RECs") originating from qualifying sources. The RPS Program requirements "shall be a percentage of the total electric energy sold in the previous calendar year" and must be implemented in accordance with the schedule set forth in Code § 56-585.5 C. The statute permits Dominion to apply renewable energy sales achieved or RECs acquired in excess of the sales requirement for a specific year's RPS Program to the sales requirements for certain future years. Code § 56-585.5 C further provides that, to the extent Dominion procures RECs for RPS Program compliance from resources it does not own, the Company shall be entitled to recover the costs of such RECs pursuant to Code §§ 56-249.6 or 56-585.1 A 5 d.

Code § 56-585.1 A 5 d, as amended by the VCEA, provides that a utility may petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of:

[p]rojected and actual costs of compliance with renewable energy portfolio standard requirements pursuant to § 56-585.5 that are not recoverable under subdivision 6. The Commission shall approve such a petition allowing the recovery of such costs incurred as required by § 56-585.5, provided that the Commission does not otherwise find such costs were unreasonably or imprudently incurred

In its Petition, Dominion states that that it will meet the annual requirements of the RPS Program through the retirement of RECs that will be sourced from a combination of RECs generated from Company-owned renewable energy facilities (including the "CE Projects" and "CVOW Project"), RECs generated from renewable energy facilities owned by an entity other than the utility with which the Company has entered into a power purchase agreement (including the "CE PPAs"), long-term REC-only contracts, and market purchases of RECs. The Company states that it may bank the RECs generated by Virginia facilities from 2021 through 2025 for use in 2026.

To determine the total cost of RECs to be recovered through Rider RPS, the Company states that it first determined its projected RPS Program requirements for 2025, and then used those projections to determine the estimated volume of RECs needed during the rate year of September 1, 2025, to August 31, 2026 ("Rate Year"). The Company asserts it then determined the projected volume of RECs that the Company would need to utilize from its bank or purchase from the market. For any RECs the Company would need to purchase or utilize from the bank, the Company states that it multiplied the volume of RECs by a weighted average price in order to determine the cost of the gross purchases and banked RECs needed for the Rate Year. The Company expects to need approximately 13.8 million RECs during the Rate Year, approximately 138,500 of which it says must come from distributed energy resources. According to the Company, once it determined the total costs of RECs to be recovered in this proceeding, it applied a Virginia jurisdictional allocation factor.

Based on the framework approved in Case No. PUR- 2020- 00134, the Company asserts that the "costs" of RECs generated by the CE Projects, CE PPAs, and the CVOW Project will be recovered through the Company's Rider RPS at an established REC proxy value, while an offsetting incremental "revenue" amount will be credited to Rider CE and Rider OSW, as applicable, as if those RECs were being "sold." The Company then states that the REC proxy value and transfer of the REC cost from Rider CE and Rider OSW will ensure that the non-bypassable costs of RPS Program compliance are recovered from all retail customers regardless of electric supplier within the limits provided in the VCEA. For purposes of this Petition, the Company states that it utilized the REC proxy value as determined by the methodology approved in Case No. PUR-2021-00156.

According to the Company, the revenue requirement for Rider RPS includes both a Projected Cost Recovery Factor and an Actual Cost True-Up Factor. The Company is also proposing, similar to the interim true-up correction utilized in Case No. PUR-2021-00282, an interim correction factor ("Interim Correction Factor") to update projected costs from the 2022 Rider RPS proceeding and recover them over the proposed Rate Year. The Company states that the Interim Correction Factor calculation will recover from, or credit to, customers any under/over collection of updated projected REC costs included in the September 1, 2023 through August 31, 2024 rate year. In this proceeding, the Company seeks approval of a Projected Cost Recovery Factor Revenue requirement of \$355,944,881, an Actual Cost True-up

Factor revenue requirement of \$41,214,107, and an Interim Correction Factor of \$211,567,370, for a total revenue requirement of \$608,726,359 for the Rate Year.

If the proposed Rider RPS for the Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to Dominion, implementation of its proposed Rider RPS on September 1, 2025 would increase the monthly bill of a residential customer using 1,000 kWh per month by approximately \$2.99 compared to the current Rider RPS.

Interested persons are encouraged to review the Petition and supporting documents for additional details of the Company's proposals.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Petition and supporting documents and thus may adopt rates that differ from those appearing in the Company's Petition and supporting documents.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled public hearings on Dominion's Petition. On April 24, 2025, at 10 a.m., the Hearing Examiner assigned to this case will hold a telephonic hearing for the purpose of receiving the testimony of public witnesses. On or before April 16, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141. Beginning at 10 a.m. on April 24, 2025, the Hearing Examiner assigned will telephone sequentially each person who has signed up to testify as provided above. This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

On April 24, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Hearing Examiner will convene a hearing to receive testimony and

evidence related to the Petition from the Company, any respondents, and the Commission's Staff.

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

An electronic copy of the public version of the Company's Petition may be obtained by submitting a written request to counsel for the Company, Elaine S. Ryan, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or eryan@mcguirewoods.com.

On or before February 25, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents, and Staff electronically as described above. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2024-00215. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing.

On or before March 25, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above.

Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2024-00215.

On or before April 16, 2025, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such comments with the Clerk of the Commission at the address listed above. All such comments shall refer to Case No. PUR-2024-00215.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The public version of the Company's Petition, the Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and other documents filed in the case may be viewed at: scc.virginia.gov/pages/Case-Information.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) The Company shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before February 25, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling/.

(11) On or before April 16, 2025, any interested person may submit comments on the Petition by following the instructions found on the Commission's website:

scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2024-00215.

(12) On or before February 25, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents, and Staff electronically as described in Ordering Paragraph (3). Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2024-00215.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve upon the respondent a copy of the Petition and supporting materials, unless these materials already have been provided to the respondent.

(14) On or before March 25, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served on the Staff, the Company, and all other respondents electronically simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2024-00215.

(15) The Staff shall investigate the Petition. On or before March 25, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof electronically on counsel to the Company and all respondents.

(16) On or before April 8, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve a copy of its rebuttal testimony and exhibits electronically on the Staff and all respondents.

(17) All documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified herein, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to the Staff.²⁸ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) Dominion's Waiver Requests are granted as set forth in this Order.

(20) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

²⁸ The assigned Staff attorney is identified on the Commission's website. scc.virginia.gov/pages/Case-Information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2024-00215, in the appropriate box.

APPLICATION

Virginia Electric and Power Company (“Dominion Energy Virginia” or the “Company”), by counsel, hereby files and requests approval of its 2024 Demand-Side Management update (“2023 DSM Update”). This 2024 DSM Update is filed pursuant to § 56-585.1 A 5 (“Subsection A 5”) of the Code of Virginia (“Va. Code”), Rules 10 (20 VAC 5-204-10) and 60 (20 VAC 5-204-60) of the State Corporation Commission of Virginia’s (“Commission”) Rules Governing Utility Rate Case Applications and Annual Informational Filings of Investor-Owned Electric Utilities (20 VAC 5-204-10, *et seq.*) (“Rate Case Rules”), the Commission’s Rules Governing Utility Promotional Allowances (20 VAC 5-303-10, *et seq.*) (“Promotional Allowances Rules”), the Commission’s Rules Governing Cost/Benefit Measures Required for Demand Side Management Programs (Rules 20 VAC 5-304-10, *et seq.*) (“Cost/Benefit Rules”), the Commission’s Rules Governing the Evaluation Measurement and Verification of the Effects of Utility-Sponsored Demand-Side Management Programs (20 VAC 5-318-10, *et seq.*) (“EM&V Rules”), and the directive contained in Ordering Paragraph (4) of the Commission’s July 26, 2024 Final Order (“2024 DSM Final Order”) in Case No. PUR-2023-00217¹ (“2023 DSM proceeding”). The 2024 DSM Update includes, among other things, the Company’s requests for:

¹*Petition of Virginia Electric and Power Company, For approval of its 2023 DSM Update pursuant to § 56-585.1 A 5 of the Code of Virginia*, Case No. PUR-2023-00217, Final Order (July 26, 2023).

- (i) Approval to implement Phase XIII Demand-Side Management programs (individually, “DSM Program” or “Program” and collectively with other DSM Programs, the “DSM Portfolio” or “Portfolio”), which includes one new program, one pilot, five redesigned programs, and a modification to the measure mix of the Phase XI Residential Income and Age Qualifying Bundled (EE) Program to supplement the overall Portfolio; and
- (ii) An annual update to continue rate adjustment clauses (“RACs”), designated Riders C1A, and C4A² (collectively, the “Application”).

The Company further requests limited waiver of certain Rate Case Rules. Specifically, pursuant to Rule 10 E of the Rate Case Rules, 20 VAC 5-204-10 E, and for the reasons stated herein, the Company requests a limited waiver of the requirements of Rules 60 and 90 of the Rate Case Rules, 20 VAC 5-204-60 and 20 VAC 5-204-90, with respect to hard copies of certain Filing Schedule 46 materials as it relates to the provision of “economic analyses, contracts, studies, investigations, results from requests for proposals, [and] cost benefit analyses . . . ,” which are voluminous.

In support of the Company’s 2024 DSM Update, the Company respectfully states the following:

² As a result of the VCEA, which established new parameters on customer exemptions and opt-outs, the Company is proposing that any remaining trailing cost for Phase III, Phase IV, and Phase VI energy efficiency programs previously included in Rider C2A be recovered under Rider C4A. The Company therefore seeks approval to recover the Phase III, Phase IV, and Phase VI true-up calculated in this proceeding and related financing costs, as well as any ongoing financing costs related to previous over/under deferral balances pertaining to the Phase III, Phase IV, and Phase VI Programs, in Rider C4A, and ultimately end the C2A rate adjustment clause. *See infra* para. 30. The Commission approved a similar request in the Company’s 2023 DSM proceeding where the Company sought approval to recover the Phase VII and Phase VIII true-up calculated in that proceeding and related financing costs, as well as any ongoing financing costs related to previous Over/Under deferral balances pertaining to the Phase VII and Phase VIII Programs in Rider C4A, in addition to the Company’s request to withdrawal Rider C3A. *See Application of Virginia Electric and Power Company, For approval of its 2023 DSM Update pursuant to § 56-585.1 A 5 of the Code of Virginia, Case No. PUR-2023-00217, Final Order (July 26, 2024).*

I. BACKGROUND

1. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia, furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional customers in Virginia and to the public and businesses in portions of North Carolina. Dominion Energy Virginia's electric system, consisting of facilities for generation, transmission, and distribution of electric energy, as well as associated facilities, is interconnected with the electric systems of neighboring utilities and is part of the interconnected network of electric systems serving the continental United States. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is also a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc. By reason of its operation in Virginia and North Carolina and its interconnections with other electric utilities, the Company engages in interstate commerce.

2. The Company's name and post office address are:

Virginia Electric and Power Company
120 Tredegar Street
Richmond, Virginia 23219

3. The names, post office addresses and telephone number of the attorneys for the Company are:

(804) 775 4758 (ASH)

4. Since 2009, the Company has annually filed updates to its DSM Portfolio, including requests to implement new DSM Programs, continue or expand existing DSM Programs, and/or update cost information.

5. In its 2023 DSM Final Order, the Commission approved the Company's Phase XII petition to implement four new DSM Programs (which were comprised of "energy efficiency" (EE) and "demand response" (DR) DSM Programs), without predetermined closure dates.³

6. The 2023 DSM Final Order also approved: (1) the Company's proposed Phase XII DSM Programs cost cap of \$102.4 million and the ability to exceed such cap by no more than 15 percent; (2) the Company's request to update the eligibility requirements for the Phase VIII Smart Business Improvement Enhanced Program, and the addition of ice maker and dishwasher measures to the Phase VIII Non-residential Midstream EE Products Program; (3) and the Company's commitment to continue using the stakeholder group to develop the implementation plans for the Four Stakeholder Group Issues and report on the progress of those plans. The Commission approved Riders C1A, C2A, and C4A effective for usage on and after

³ 2023 DSM Final Order at 10, 18.

September 1, 2024.⁴ The Commission directed the Company to file its next DSM update “no later than January 2, 2025.”⁵

7. Lastly, the 2023 DSM Final Order adopted the following Hearing Examiner’s findings and recommendations:

- Finding that net savings are the appropriate metric to determine the “total combined kilowatt-hour savings achieved by” the Company’s energy efficiency and demand response programs and measures.⁶
- The Company should continue to provide a Long-term Plan Project Management Report in future DSM filings until the Commission determines otherwise.
- The Company should report as part of its annual DSM update filings on the number of projects in the Phase XII Non-residential New Construction Program; the type of project (industrial, commercial, or data center); the projected energy savings of the projects; and each project’s stage.
- The Company should include two additions to the EM&V Dashboard: (i) the year’s projected cost per kWh, in terms of total projected costs, divided by total projected net energy savings; and (ii) the actual total cost, divided by the actual total net energy savings.

8. On October 27, 2021, the Commission issued its Final Order in the EM&V proceeding in Case No. PUR-2020-00156 (“EM&V Final Order”). The Commission initiated the EM&V proceeding to determine, among other things, the baseline for each of the Company’s currently active DSM Programs, and for each measure within programs that contain multiple DSM measures, as well as the basis for measuring energy savings related to each program and measure. In its EM&V Final Order, the Commission directed the Company to comply with, among other things, the following requirements applicable to the instant filing:

⁴ *Id.* at Ordering Paragraph (3). The Commission also approved the Company’s request to withdraw Rider C3A.

⁵ *Id.* at Ordering Paragraph (4).

⁶ *Id.* at 15.

- Provide an executive summary dashboard in the December filing and in June⁷ with the EM&V Report, which will present a summary of the Company's 2022 DSM Portfolio performance;
- Provide a sample data chart for existing and proposed programs, which will present a mix of verified persistent savings and projections for future years; and
- File the EM&V Report in the Company's December DSM filing (in electronic form for the December filing) and in June⁸ of the docket of the prior complete DSM update case.

9. As detailed in the direct testimony of Company Witness David F. Walker, the Company has complied with the Commission directives and filing requirements relevant to this instant filing.

II. LEGISLATIVE OVERVIEW

10. The Virginia Clean Economy Act ("VCEA") became effective on July 1, 2020, and contains several provisions amending the laws related to DSM programs. According to Subsection A 5 c of the VCEA, a petition for energy efficiency programs shall include a "proposed budget for the design, implementation, and operation of the energy efficiency program, including anticipated savings from and spending on each program, and the Commission shall grant a final order on such petitions within eight months of initial filing." This subsection also includes provisions that the Commission shall allow a margin for recovery on operating expenses for energy efficiency programs until January 1, 2022, after which a margin is dependent on what the Company has proposed, what the Commission has approved, and whether

⁷ See *Commonwealth of Virginia, ex. rel. State Corporation Commission, Ex Parte: In the matter of baseline determination, methodologies for evaluation, measurement, and verification of existing demand-side management programs, and the consideration of a standardized presentation of summary data for Virginia Electric and Power Company*, Order on Motion at 2 (May 13, 2022) (granting the Company's Motion to extend the EM&V Report filing date from on or before May 15 each year to on or before June 15 each year, effective in 2021).

⁸ *Id.*

the Company has met its total annual savings targets. Within this subsection, the VCEA also repealed the opportunity to seek lost revenues through RACs.

11. Va. Code § 56-596.2 further directs that at least 15% of costs be for programs designed to benefit low-income and elderly, disabled individuals, or veterans.

12. The VCEA, through Va. Code § 56-596.2, also specifies total annual energy savings targets, starting in year 2022 through 2025, with savings targets to be set by the Commission thereafter.

13. Additionally, the VCEA modified which customers are eligible to participate in and required to pay for costs associated with energy efficiency programs, by removing the automatic exemption under Subsection A 5 c for large commercial and industrial customers. More specifically, the VCEA redefined a Large General Service Customer ("LGS") as a customer that has a verifiable history of having used more than one megawatt ("MW") of demand from a single site and directed the Commission to establish a qualification and opt-out process for eligible LGS Customers that implement energy efficiency measures at their own expense. Now, the VCEA allows LGS Customers to opt-out and request an exemption from the energy efficiency requirements provided for in Subsection A 5. The Commission initiated a rulemaking pursuant to this change in law in Case No. PUR-2020-00172. On January 29, 2021, the Commission issued its Order Adopting Regulations, which adopted rules governing the exemption process and exemption for LGS Customers (20 VAC 5-350-10, *et seq*). Through this process, LGS Customers requesting an exemption must submit notices of nonparticipation by March 1 of each year, and the Company, in turn, must accept or reject the notices.

14. Lastly, the VCEA through Va. Code § 56-596.2 expanded the scope of the stakeholder group to include feedback and input on (i) the development of energy efficiency

programs and portfolios of programs; (ii) compliance with total annual energy savings targets and effect on integrated resource plans; (iii) recommended policy reforms to ensure maximum and cost-effective energy efficiency; and (iv) best practices for EM&V services. Section 56-596.2 also requires a utility to use a third-party evaluator to perform EM&V on total annual savings targets and requires a third-party evaluator to provide reports on its findings concurrently to the Commission and the utility.

III. PROPOSED PHASE XIII PROGRAMS AND PILOT

15. In this proceeding, the Company seeks approval of the following Phase XIII Programs, which include EE and DR DSM Programs, as these terms are defined by Va. Code § 56-576, and one pilot program:

- Residential Smart Thermostat (DR) (Redesigned)
- Non-residential Small Business Improvement (EE) (Redesigned)
- Non-residential Data Center (EE) (Redesigned)
- Non-residential Enhanced Prescriptive (EE) (Redesigned)
- Non-residential Curtailment (DR) (new Program)
- Non-residential Distributed Generation (DR) (Redesigned)
- Residential Battery Storage Pilot (DR)

16. The direct testimony and schedules of Company Witness Michael T. Hubbard provide details regarding these Programs and Pilot and the measures included therewith, as well as the projected participation and energy and demand savings. Additionally, the direct testimony of Company Witness Rachel L. Hagerman provides additional detail regarding the cost/benefit modeling and scores for these Programs and Pilot.

17. The proposed Residential Smart Thermostat (DR) Program is a peak demand response program through which demand response is called by the Company during times of peak system demand throughout the year and thermostats of participating customers would be adjusted to achieve a specified amount of load reduction while maintaining reasonable customer comfort through a gradual change in home temperature and allowing customers to opt-out of specific events if they choose to do so. Customers receive a one-time enrollment incentive and an annual incentive for participating in the Program.

18. The proposed Non-residential Small Business Improvement program offers a comprehensive and flexible approach that includes an energy assessment to identify and prioritize energy-saving opportunities for qualifying small business customers under the 200 kW demand threshold, with financial incentives for the installation of specific energy efficiency measures.

19. The Non-residential Data Center Program will provide qualifying non-residential customers with incentives to install energy efficiency measures related to the equipment in and operation of data centers. The proposed Program would be a “one-stop-shop” for data center customers to implement energy efficiency measures such as computer and power distribution equipment, HVAC, chiller, lighting and controls upgrades, as well as economizers and other small, medium and large custom measures based on the customers’ needs. This whole-building analysis approach will allow flexibility for data center customers to pursue energy efficiency upgrades with a diverse set of program portfolio energy efficiency measures. Program services, as well as program measure installation, for this Program will be delivered through a network of qualified contractors and/or consultants with the appropriate specialization and experience to provide relevant, up-to-date advice on the measures included in the proposed program design.

20. The Non-residential Enhanced Prescriptive Program would provide qualifying non-residential customers with incentives for the installation of refrigeration, commercial kitchen equipment, HVAC improvements, window film installation and maintenance and installation of other program specific, energy efficiency measures.

21. The Non-residential Curtailment Program design targets medium- and large-sized commercial and industrial customers to curtail their energy usage using manual load curtailment during times of peak system demand. Each participating customer (*i.e.*, facility) will have a curtailment plan developed, also known as a load reduction plan ("LRP"), which is specific to the facility and guided by engineering assessments created by the program implementation vendor in collaboration with facility staff, factoring in the opportunity cost of participation, facility equipment and operations, and staff availability. The LRP is specific to each customer site and provides a specific plan on how the customer is to reduce their electric demand during a demand response event, detailing the measures (equipment) the customer can turn off or turn down during the DR event window. The LRP also provides an overview of the load shed potential associated with the specific measures along with the expected incentive the customer can expect to earn.

22. The Non-residential Distributed Generation Program will provide qualifying non-residential customers with an incentive to curtail load by operating backup generation when called upon during times of peak system demand throughout the year. The program implementation vendor is responsible for enabling remote operation and monitoring the customers' generators.

23. Lastly, the proposed Residential Battery Storage Pilot will provide an incentive for residential customers to discharge their home battery storage system when called upon during

peak electrical demand. The pilot will target residential customers who have a battery storage system controlled by an approved original equipment manufacturer (OEM) with an incentive for participation in demand response events during times of peak system demand. During a demand response event, the battery will be remotely discharged without the customer's active participation. Customers can opt-out of events at any time.

24. Additionally, the Company is requesting a modification to the measure mix of the DSM Phase XI Residential Income and Age Qualifying Bundle (EE) as discussed in more detail in the direct testimony of Company Witness Michael T. Hubbard.

25. In this filing, the Company also respectfully requests authorization to operate the non-pilot Phase XIII DSM Programs, without predetermined closure dates. Please see the direct testimony of Company Witnesses David F. Walker and Michael T. Hubbard for details pertaining to the Company's request for authorization to operate the Phase XIII DSM Programs without predetermined closure dates.

26. The proposed cost cap for the Phase XIII Programs in the aggregate is approximately \$222.3 million. Information regarding the individual proposed cost caps for each Program, and the associated details, are provided by Company Witness Jarvis E. Bates. In this DSM Update, the Company requests the ability to exceed the spending cap by no more than 15%.

27. The Company's Application, through the pre-filed direct testimony and exhibits of its witnesses and Filing 46, demonstrates that the Company's proposed Programs meet the guidelines specified in the Cost/Benefit Rules as well as the standards specified in the Promotional Allowances Rules. In accordance with the Cost/Benefit Rules, the Company has analyzed each of the proposed DSM Programs individually and as a portfolio, using the four

required cost/benefit tests: the Participant Test, the Utility Cost Test, the Ratepayer Impact Measure Test, and the Total Resource Cost Test. The results of each of the tests are set forth in Company Witness Rachel L. Hagerman's pre-filed direct testimony and schedules.

IV. APPROVAL OF UPDATED RIDERS C1A AND C4A

A. Rate Year

28. The Company presents a rate year of September 1, 2025 through August 31, 2026, ("Rate Year") for the updated Riders C1A and C4A.

B. Assignment and Allocation of Costs

29. The costs for the DSM Programs may be viewed primarily in two categories: direct (Program costs) and indirect (Common costs). The estimated Program costs include costs primarily based on signed vendor contracts for the approved Programs and estimated costs based on updated vendor pricing information for the proposed Phase XIII Programs. Costs that are part of the implementation of Programs that are not specifically associated with any individual DSM Program are Common costs and include certain customer communication costs, Energy Conservation department labor costs, dues and association costs, customer service, and external vendor costs. The Company proposes to determine cost responsibility in the same manner as the Commission approved in the 2023 DSM proceeding.

30. The approach for determining jurisdictional responsibility is first to assign Program costs to the jurisdiction based upon participation in the Programs, and second to allocate Common costs to the jurisdiction based on the jurisdiction's Program costs, both capital and expenses, compared to total Program costs for the system. Customer class responsibility is determined by allocating costs to the customer classes on the basis of an average and excess production demand factor. The pre-filed direct testimony of Company Witness Eleanor K.

Keeton addresses how Program costs and Common costs will be assigned or allocated to the Virginia Jurisdiction using appropriate factors.

C. Revenue Requirement Request

31. As explained in the pre-filed direct testimony of Justin A. Wooldridge, the Company's revenue requirement presented in this proceeding is consistent with the calculations presented in the Company's 2023 DSM proceeding, with one exception. The Company is introducing a cost assumption change for the Projected Cost Recovery factor, effecting only the Phase X – Voltage Optimization Program. The change consists of projecting rate base and related amortization expense of the Voltage Optimization software into the rate year. In doing so, the Company is required to prorate accumulated deferred income taxes ("ADIT") in accordance with Internal Revenue Service ("IRS") normalization rules. This change is consistent with the methodology used in the Company's Rider Gen and Rider OSW filing, Case Nos. PUR-2024-00097 and PUR-2023-00195 respectively. The cost components of Riders C1A, and C4A are comprised of operating expenses projected to be incurred during the Rate Year and a Monthly True-Up Adjustment comparing actual costs for the 2023 calendar year to the actual revenues collected during the same period. Detailed costs were used to calculate the requested revenue requirement for Riders C1A and C4A for the proposed Rate Year. The calculation of the revenue requirement is discussed in the pre-filed direct testimony of Company Witness Wooldridge.

32. The cost components of Riders C1A and C4A are comprised of operating expenses projected to be incurred during the Rate Year and a Monthly True-Up Adjustment comparing actual costs for the 2023 calendar year to the actual revenues collected during the same period. Detailed costs were used to calculate the requested revenue requirement for Riders

C1A and C4A for the proposed Rate Year. The calculation of the revenue requirement is discussed in the pre-filed direct testimony of Company Witness Wooldridge.

33. The projected Rate Year operating expenses from September 1, 2025 through August 31, 2026, are included for recovery on a current basis during the Rate Year. A margin is authorized to be recovered effective for qualifying expenditures. For purposes of this Application and consistent with the Commission's November 18, 2021 Final Order in the Company's 2021 Triennial Review Proceeding in Case No. PUR-2021-00058, the Company is utilizing the approved ROE of 9.35% for the period November 18, 2021 to February 29, 2024. In addition, the capital structure used in the calculation of the revenue requirement reflects the methodology approved by the Commission in that proceeding. For the time period beyond February 29, 2024, the Company is utilizing an ROE of 9.7% as set by the Commission in the 2023 Biennial Review, Case No. PUR-2023-00101.

34. The revenue requirement includes recovery of the True-up of actual costs and revenues for the period of January 1, 2023 through December 31, 2023, for eligible programs through a Monthly True-Up Adjustment. The actual 2023 calendar year expenditures are used to calculate a 2023 actual revenue requirement and then compared to the actual 2023 revenues to produce the Monthly True-Up Adjustment. For purposes of the margin authorized to be recovered for qualifying expenditures during the 2023 calendar year, the Company utilized the ROEs described above.

35. Company Witness Wooldridge's pre-filed direct testimony details the projected Subsection A 5 costs, differentiated between capital and expense, and Riders C2A, and C4A costs qualifying for the margin as provided for under Subsection A 5. In addition, Company Witness Wooldridge depicts the revenue requirement separately for Riders C1A and C4A. The

Company requests recovery of the Rate Year Projected Revenue Requirement for Rider C1A in the amount of \$17,649,875. This amount, combined with the Monthly Rider C1A True-Up Adjustment of (\$2,373,647) provides the Rider C1A total revenue requirement of \$15,276,228. For Rider C4A, the Rate Year Projected Revenue Requirement of \$112,206,233 is combined with the Monthly Rider C4A True-Up Adjustment of (\$30,106,178) and the monthly C2A True-up Adjustment of \$65,856 and the monthly C3A True-up Adjustment of (\$794,512), for a total C4A True-up Adjustment of (\$30,834,833), to provide the Rider C4A total revenue requirement of \$81,371,400. For Riders C1A and C4A, the combined revenue requirement in this proceeding totals \$96,647,628.

D. Rate Design

36. The Riders C1A, and C4A, which are sponsored by Company Witness Jessica C. Powell, identify the rates, in cents per kilowatt-hour ("kWh"), that will apply to each Company Rate Schedule. If approved as proposed, the Riders C1A and C4A will be applicable for billing purposes with a rate effective date for usage on or after the latter of September 1, 2025, or the first day of the month which is at least fifteen (15) days following the date of any Commission order approving Riders C1A C4A.

37. The implementation of the proposed Riders C1A and C4A, and the withdrawal of Rider C2A once effective, will increase the typical residential customer's monthly bill, based on 1,000 kWh usage per month, by \$0.04. For Residential Rate Schedule 1, General Service Rate Schedules GS-1 and GS-2, and Church Rate Schedule 5C, Company Witness Powell provides the respective typical monthly bill differences reflecting the impact of Riders C1A and C4A together. This is because exempt customers would likely not receive service under one of these rate schedules and, therefore, all riders will apply. However, for customers served under Rate

Schedules GS-3 and GS-4, typical bill changes are provided to show the impact of the Rider C1A alone, and the impact of Riders C1A and C4A combined. Typical bill changes that reflect only the impact of Rider C1A alone would be applicable to customers opted out of C4A.

**V. SUPPORTING TESTIMONY, FILING SCHEDULES,
AND REQUEST FOR LIMITED WAIVER**

38. The Company's Application is supported by the pre-filed direct testimonies of Company Witnesses David F. Walker, Michael T. Hubbard, Rachel L. Hagerman, Jarvis E. Bates, Justin A. Wooldridge, Eleanor K. Keeton, Jessica C. Powell, Dan Feng, and Terry M. Fry.

39. Section 20 VAC 5-204-60 of the Rate Case Rules provides that an application filed pursuant to Subsection A 5 "shall include Schedules 46 as identified and described in 20 VAC 5-204-90, which shall be submitted with the utility's direct testimony. Additionally, applications requiring an overall cost of capital shall include Schedules 3, 4, 5, and 8."

A. Filing Schedules

40. With this Application, the Company files the following Filing Schedules:
- a. Filing Schedule 8, sponsored by Company Witness Wooldridge, provides information regarding the Company's cost of capital.
 - b. Filing Schedule 46A, Statements 1 through 9, are sponsored by Company Witness Bates. These Statements address the projected and actual costs by type of cost and year and by month, to the extent applicable, associated with the RACs.
 - c. Filing Schedule 46B, Statement 1, is sponsored by Company Witness Bates and addresses the transaction-level details of the RACs.
 - d. Filing Schedule 46C, Statements 1 and 2, are sponsored by two Company witnesses. Company Witness Hubbard sponsors Filing Schedule 46C, Statement 1, which provides key documents supporting the projected and actual program costs for all programs. Company Witness Hagerman sponsors Filing Schedule 46C, Statement 2, which provides key documents supporting the projected and actual costs for cost-benefit analyses. In total, these Statements address the key documentation supporting the costs of the RACs.

- e. Filing Schedule 46D, consisting of Statements 1 through 4, is sponsored by two Company witnesses. Company Witness Wooldridge sponsors Filing Schedule 46D, Statements 1 through 3, which provide the annual revenue requirement for the Rate Year and duration of the proposed RACs, as well as the supporting calculations. Company Witness Keeton sponsors Filing Schedule 46D, Statement 4, which provides the annual revenue requirement by class for the duration of the proposed RACs.
- f. Filing Schedule 46E, consisting of Statements 1 through 2, is sponsored by two Company witnesses. Company Witness Keeton sponsors Filing Schedule 46E, Statement 1, which addresses the methodology for allocating the revenue requirements among rate classes. Company Witness Powell sponsors Filing Schedule 46E, Statement 2, which addresses the design of class rates.
- g. Filing Schedule 46F, consisting of Statements 1 through 2, is sponsored by two Company witnesses. Through the EM&V Report, Company Witness Feng sponsors Filing Schedule 46F, Statement 1, which provides evidence of the actual energy and demand savings achieved as a result of each specific program for which cost recovery is sought. Company Witness Hagerman sponsors Filing Schedule 46F, Statement 2, which provides revised cost-benefit tests that incorporate actual utility-specific energy and demand savings and cost data.
- h. Filing Schedule 46G, Statement 1, is sponsored by Company Witness Wooldridge. This Statement provides a description of the significant accounting procedures and internal controls in place for each energy efficiency program that is administered by either a third-party or by the Company.

B. Request for Limited Waiver of Filing Schedule 46 Requirements

41. The Applicants, for good cause shown and pursuant to Rate Case Rule 10 E, respectfully request that the Commission waive, in part, the requirements under Rule 60 to Filing Schedules 3 through 5. Pursuant to 20 VAC 5-204-60, the Applicants are required to submit Filing Schedules 3 through 5 and 8 for each rate adjustment clause proceeding supporting each overall cost of capital used in the application. However, after consultation with Staff, and in the interest of judicial economy, the Applicants are only submitting Filing Schedule 8 for the 2023 year-end capital structure as Filing Schedules 3-5 are being reviewed by the Commission in the

Company's 2024 Rider GEN proceeding, Case No. PUR-2024-00097.⁹ To the extent necessary, the Applicants request a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2023 capital structure. Further, to the extent necessary, the Applicants request a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2022 capital structures, as those have already been reviewed and approved by the Commission in the Company's 2023 biennial review proceeding, Case No. PUR-2023-00101. The Applicants are submitting Filing Schedule 8 for the year 2022. This request for waiver is consistent with the Commission's recent order granting a similar limited waiver.¹⁰

42. The Applicants, for good cause shown and pursuant to 20 VAC 5-204-10 E, respectfully request that the Commission waive, in part, the requirements under Rules 60 and 90 of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials. Specifically, the Rate Case Rules require the Applicants to provide key documents supporting the projected and actual costs of the Project, such as: economic analyses, support used by senior management for major cost decisions as determined by the applicant, contracts, results from requests for proposals, cost-benefit analyses, and other items supporting the costs that have not been provided in previous applications. The supporting documentation responsive to this requirement is voluminous and, often, not easily viewed in hard copy (*i.e.*, paper) format. Accordingly, the Applicants seek a waiver of the requirement to file 15 hard copies of this information. Instead, the Applicants propose to provide this documentation to Staff and any

⁹ See *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider GEN, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders B, BW, GV, US-2, US-3, and US-4 pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00097, Application at 10 (June 4, 2024).

¹⁰ *Petition of Virginia Electric and Power Company, For approval of its 2024 RPS Development Plan under § 56-585.5 D 4 of the Code of Virginia and related requests*, Case No. PUR-2024-00147, Order on Motions at 9 (Sept. 12, 2024).

other future case participant in electronic format, and to provide the Commission with one hard copy and three electronic copies on compact discs. The Applicants will make these documents available via an electronic discovery site ("eRoom") contemporaneously with the filing of the Application, with immediate access available to Staff. This request for waiver is consistent with recent Commission orders granting similar limited waivers.¹¹ Should the Commission deny this request, the Applicants ask for a reasonable allowance of time to print the requisite filing copies of this material and submit it to the Commission prior to the Applicants' Application being deemed incomplete.

VI. REQUEST FOR CONFIDENTIAL TREATMENT AND ADDITIONAL PROTECTIVE TREATMENT OF EXTRAORDINARILY SENSITIVE INFORMATION

43. The Company's Application contains, at points so designated, Confidential and Extraordinarily Sensitive information, which is being filed under seal and subject to the Company's Motion for Protective Ruling and Additional Protective Treatment filed coincident hereto. Because portions of the Company's Application contain such Confidential and Extraordinarily Sensitive information, in compliance with Rule 10 F of the Rate Case Rules and Rule 170 of the Commission's Rules of Practice and Procedure, 20 VAC 5-204-10 F and 5 VAC 5-20-170, this filing is accompanied by a separate Motion for Protective Ruling and Additional Protective Treatment, including a form Proposed Protective Ruling, filed contemporaneously with this Application.

VII. COMPLIANCE WITH RULE 10 OF THE RATE CASE RULES

44. The Company's Application complies with the requirements contained in Rule 10 of the Rate Case Rules. In accordance with Rule 10 A, 20 VAC 5-204-10 A, the Company filed

¹¹ See e.g., *id.*

with the Commission on October 1, 2024, the Company's notice of intent to file this Application under Va. Code § 56-585.1 A 5. The Company has included all information required by Rule 10 B in its Application, including a table of contents, direct testimonies with one-page summaries, and properly labeled exhibits and schedules.

45. In accordance with Rule 10 H, the Company will make a searchable PDF version of the Application, direct testimonies, and Filing Schedules available via an eRoom contemporaneously with this filing, with immediate access available to (i) Commission Staff, including identified members of the Divisions of Utility Accounting and Financing and Public Utility Regulation and (ii) identified members of the Office of the Attorney General's Division of Consumer Counsel ("Consumer Counsel"). Also in accordance with Rule 10 H, the Company will make electronic spreadsheets supporting the schedules that contain calculations available via an eRoom contemporaneously with this filing, with immediate access available to Commission Staff.

46. Copies of this Application, to the extent required by Rule 10 J of the Rate Case Rules, along with the additional information required by Rule 10 J, are simultaneously with this filing being served upon persons addressed in that Rule. A complete copy of the Public Version of this Application, along with testimony and supporting schedules, has been served upon Consumer Counsel, in conformity with Rule 10 J.

WHEREFORE, Dominion Energy Virginia respectfully requests that the Commission grant the Company:

(1) Authorization to offer one new Phase XIII DSM Program, five redesigned Phase XIII DSM Programs, one pilot program to eligible customers as set forth herein;

- (2) Approval to make a modification to the measure mix of the DSM Phase XI Residential Income and Age Qualifying Bundle (EE);
- (3) Approval of the aggregate Phase XIII DSM Program cost cap of \$222.3 million, the individual cost caps presented by Company Witness Bates, and the ability to exceed the cost cap by no more than 15%;
- (4) Authorization to operate the non-pilot Phase XIII DSM Programs without a predetermined closure date;
- (5) Approval of the Rate Year beginning September 1, 2025 and ending August 31, 2026;
- (6) Approval to recover the Phase III, Phase IV, and Phase VI true-up calculated in this proceeding and related financing costs, as well as any ongoing financing costs related to previous over/under deferral balances pertaining to the Phase III, Phase IV, and Phase VI Programs in Rider C4A and ultimately end the C2A rate adjustment clause;
- (7) Approval of a revenue requirement of \$96,647,628 to be recovered through revised Riders C1A and C4A over the Rate Year;
- (8) Approval of the same allocation methodology as previously approved in the 2023 DSM proceeding;
- (9) Approve the Company's request to continue Riders C1A and C4A to be effective for billing purposes on the latter of September 1, 2025, or the first day of the month which is at least 15 days following the date of any Commission order approving Riders C1A and C4A;
- (10) Approval of Phase XIII Program EM&V Plans;
- (11) Approval of the Company's request for limited waiver of Filing Schedule 46; and
- (12) Any other relief as deemed appropriate and necessary.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

Counsel for Virginia Electric and Power Company

December 13, 2024

STATE CORPORATION COMMISSION

AT RICHMOND, JANUARY 27, 2025

*State Corporation Commission
Document Control Center
1/27/2025 - 2:20 PM*

APPLICATION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2024-00222

For approval of its 2024 DSM Update
pursuant to § 56-585.1 A 5 of the Code of Virginia

ORDER FOR NOTICE AND HEARING

On December 13, 2024, Virginia Electric and Power Company ("Dominion" or "Company") made a filing pursuant to § 56-585.1 A 5 of the Code of Virginia ("Code"); the Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities¹ of the State Corporation Commission ("Commission"); the Commission's Rules Governing Utility Promotional Allowances;² the Commission's Rules Governing Cost/Benefit Measures Required for Demand-Side Management Programs;³ the Commission's Rules Governing the Evaluation, Measurement, and Verification of the Effects of Utility-Sponsored Demand-Side Management Programs;⁴ and the directive contained in Ordering Paragraph (4) of the Commission's July 26, 2024 Final Order in Case No. PUR-2023-00217.⁵ Specifically, Dominion filed with the Commission an application requesting: (1) approval to implement demand-side management programs (individually, "DSM Program" or "Program" and

¹ 20 VAC 5-204-5 *et seq.* ("Rate Case Rules").

² 20 VAC 5-303-10 *et seq.*

³ 20 VAC 5-304-10 *et seq.*

⁴ 20 VAC 5-318-10 *et seq.*

⁵ *Application of Virginia Electric and Power Company, For approval of its 2023 DSM Update pursuant to § 56-585.1 A 5 of the Code of Virginia*, Case No. PUR-2023-00217, Doc. Con. Cen. No. 240740067, Final Order (July 26, 2024) ("2023 DSM Order").

collectively with other DSM Programs, the "DSM Portfolio" or "Portfolio") as "Phase XIII," which includes one new program, one pilot, five redesigned programs, and a modification to the measure mix of the Phase XI Residential Income and Age Qualifying Bundled energy efficiency ("EE") Program to supplement the overall DSM Portfolio; and (2) approval of an annual update to continue the rate adjustment clauses designated Riders C1A and C4A (collectively, the "Application").⁶

In its Application, the Company requests approval to implement the following DSM Programs as the Company's "Phase XIII" programs, which include EE and "demand response" ("DR") DSM Programs, as these terms are defined by Code § 56-576:⁷

- Residential Smart Thermostat (DR) (Redesigned)
- Non-residential Small Business Improvement (EE) (Redesigned)
- Non-residential Data Center (EE) (Redesigned)
- Non-residential Enhanced Prescriptive (EE) (Redesigned)
- Non-residential Curtailment (DR) (New program)
- Non-residential Distributed Generation (DR) (Redesigned)
- Residential Battery Storage Pilot (DR)

Dominion requests authorization to operate the non-pilot Phase XIII DSM Programs without predetermined closure dates.⁸

⁶ Application at 2.

⁷ *Id.* at 8.

⁸ *Id.* at 11.

Dominion proposes an aggregate total cost cap for the Phase XIII programs in the amount of approximately \$222.3 million.⁹ Additionally, the Company requests the ability to exceed the spending cap by no more than 15%.¹⁰

The Company asserts that the total amount of spending proposed in this Application on EE programs, when combined with the Company's prior requests for EE spending since the passage of the 2018 Grid Transformation and Security Act ("GTSA"),¹¹ consists of approximately \$933.9 million compared to the required \$870 million, excluding any amount of projected lost revenues.¹² Further, the Company asserts that the total amount of spending proposed in this Application on EE programs targeting low-income individuals, when combined with the Company's prior requests for EE spending since the passage of the GTSA and the Virginia Clean Economy Act,¹³ consists of approximately \$110 million of the proposed \$933.9 million, excluding any amount of projected lost revenues.¹⁴

The Company requests, through revised Riders C1A and C4A, recovery of projected costs for September 1, 2025, through August 31, 2026 ("2025 Rate Year"), associated with the Phases II through XIII programs.¹⁵

⁹ *Id.*

¹⁰ *Id.*

¹¹ 2018 Va. Acts ch. 296.

¹² Direct Testimony of Jarvis E. Bates ("Bates Direct") at 9.

¹³ 2020 Va. Acts chs. 1193, 1194.

¹⁴ Bates Direct at 12.

¹⁵ Application at 12; *see* Case Nos. PUE-2011-00093, PUE-2013-00072, PUE-2014-00071, PUE-2015-00089, PUE-2016-00111, PUR-2018-00168, PUR-2019-00201, PUR-2020-00274, and PUR-2021-00247.

The two key components of the proposed Riders C1A and C4A are the Projected Revenue Requirement, which incorporates operating expenses for all programs and capital costs (including amortization expense related to the Phase X – Voltage Optimization Program) that are projected to be incurred during the 2025 Rate Year, and a Monthly True-Up Adjustment, which compares actual costs for the calendar year 2023 True-Up period to the actual revenues collected during the same period.¹⁶ In the Application, Dominion requests the following:¹⁷

Rider	Total Revenue Requirement	Projected Revenue Requirement	Monthly True-Up Adjustment
C1A	\$15,276,228	\$17,649,875	(\$2,373,647)
C4A	\$81,371,400	\$112,206,233	(\$30,834,833) ¹⁸
Combined	\$96,647,628		

If the proposed Riders C1A and C4A for the 2025 Rate Year are approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to the Company, implementation of the proposed Riders C1A and C4A, and the withdrawal of Rider C2A, on September 1, 2025, would increase the monthly bill of a residential customer using 1,000 kilowatt-hours of electricity per month by \$0.04.¹⁹ The Company represents that it has calculated the revised rates for Riders C1A and C4A in accordance with the same methodology approved in the 2023 DSM Order.²⁰

¹⁶ Direct Testimony of Justin A. Wooldridge at 5.

¹⁷ Application at 15.

¹⁸ In Dominion's calculation of its C4A Monthly True-Up Adjustment, the Company included the Monthly C4A True-Up Adjustment of \$30,106,178, the monthly C2A True-Up Adjustment of \$65,856 and the monthly C3A True-Up Adjustment credit of \$794,512, for a total C4A True-Up adjustment credit of \$30,834,833.

¹⁹ Application at 15.

²⁰ Direct Testimony of Eleanor K. Keeton at 3.

Dominion states that the Company has complied with the Commission directives and filing requirements relevant to this instant filing, specifically the Commission's directives in its Final Order in the Company's Evaluation, Measurement, and Verification ("EM&V") proceeding, Case No. PUR-2020-00156.²¹ The Company requests Commission approval of Phase XIII Program EM&V Plans.²²

The Company also requests a waiver, in part, of Rule 20 VAC 5-204-60 ("Rule 60") of the Rate Case Rules with respect to Schedules 3 through 5.²³ Rule 60 states that an application for a rate adjustment clause filed pursuant to Chapter 23 of Title 56 of the Code, that requires an overall cost of capital, shall include Schedules 3, 4, 5, and 8. The Company represents that after consultation with Commission Staff ("Staff"), and in the interest of judicial economy, the Company is only submitting Schedule 8 for the 2023 year-end capital structure as Schedules 3 through 5 are being reviewed by the Commission in the Company's 2024 Rider GEN Proceeding, Case No. PUR-2024-00097.²⁴ Here, the Company requests a waiver of the requirement to file Schedules 3 through 5 for the year-end 2023 capital structure.²⁵ The Company also requests a waiver of the requirement to file Schedules 3 through 5 for the year-end 2022 capital structures, as those have already been reviewed and approved by the Commission in the Company's 2023

²¹ Application at 6; Direct Testimony of Dan Feng ("Feng Direct") at 3-4. *See also Commonwealth of Virginia, ex rel. State Corporation Commission, Ex Parte: In the matter of baseline determination, methodologies for evaluation, measurement, and verification of existing demand-side management programs, and the consideration of a standardized presentation of summary data for Virginia Electric and Power Company*, Case No. PUR-2020-00156, 2021 S.C.C. Ann. Rept. 260, Final Order (Oct. 27, 2021).

²² Application at 21. *See* Feng Direct at Appendix B for the Phase XIII EM&V Plans for Dominion.

²³ Application at 17.

²⁴ *Application of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider GEN, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders B, BW, GV, US-2, US-3, and US-4 pursuant to § 56.585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00097.

²⁵ Application at 18.

biennial review proceeding, Case No. PUR-2023-00101.²⁶ The Company is submitting Schedule 8 for the year 2022 and provides that its request for waiver is consistent with the Commission's recent order granting a similar waiver.²⁷

The Company also requests a waiver, in part, of Rule 60 and 20 VAC 5-204-90 ("Rule 90") of the Rate Case Rules with respect to Schedule 46.²⁸ Rule 60 states that an application for a rate adjustment clause filed pursuant to Chapter 23 of Title 56 of the Code shall include Schedule 46, "Rate Adjustment Clauses and Prudency Determinations Pursuant to Chapter 23 (§ 56-576 *et seq.*) of the Code of Virginia," as identified and described in Rule 90. Schedule 46 requires an applicant to provide certain information, including key documents supporting the projected and actual costs recovered through the rate adjustment clause, such as economic analyses, contracts, results from requests for proposals, and cost/benefit analyses.²⁹ According to the Company, the supporting documentation responsive to this requirement is voluminous and not easily reviewed in hard copy (paper) format, and, therefore, the Company seeks waiver of the requirement to file 15 hard copies of the information.³⁰ Instead, the Company proposes to:

(i) provide the Commission with one hard copy and three electronic copies on compact discs;

²⁶ *Id.* See *Application of Virginia Electric and Power Company, For a 2023 biennial review of the rates, terms, and conditions for the provision of generation, distribution, and transmission services pursuant to § 56-585.1 A of the Code of Virginia*, Case No. PUR-2023-00101, Doc. Con. Cen. No. 240240103, Final Order (Feb. 28, 2024).

²⁷ *Id.* See *Petition of Virginia Electric and Power Company, For Approval of its 2024 RPS Development Plan under § 56-585.5 D 4 of the Code of Virginia and related requests*, Case No. PUR-2024-00147, Doc. Con. Cen. No. 240920110, Order on Motions at 9 (Sept. 12, 2024).

²⁹ Rule 90, Schedule 46 instructions, § (c) (1) (iii).

³⁰ Application at 18.

and (ii) provide the documentation to Staff and any future case participants in electronic format.³¹

Finally, in conjunction with the filing of its Application on December 13, 2024, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Ruling and Additional Protective Treatment ("Motion for Protective Ruling") with proposed protections establishing procedures governing the use of Confidential and Extraordinarily Sensitive Information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that Dominion should provide public notice of its Application; a public hearing should be scheduled for the purpose of receiving testimony and evidence on the Application; interested persons should have an opportunity to file comments on the Application or participate as a respondent in this proceeding; and Staff should be directed to investigate the Application and file testimony and exhibits containing its findings and recommendations thereon. We also find that a Hearing Examiner should be assigned to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations. Further, based on the particular facts of this case, we find that Dominion's request to waive, in part, the requirements under Rule 60 of the Rate Case Rules with respect to the filing of Schedules 3 through 5, and the requirements under Rule 60 and Rule 90 of the Rate Case Rules with respect to the filing of certain Schedule 46 materials, should be granted.

³¹ *Id.* at 19.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2024-00222.

(2) All pleadings in this matter should be submitted electronically to the extent authorized by Rule 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure ("Rules of Practice").³² Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or Staff is impeded from preparing its case.

³² 5 VAC 5-20-10 *et seq.*

(4) As provided by Code § 12.1-31 and Rule 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations. A copy of each filing made with the Commission's Clerk's office in this matter shall also be sent electronically to the Office of the Hearing Examiners.³³

(5) The Commission schedules a telephonic portion of the hearing for the receipt of testimony from public witnesses on the Application, as follows:

- (a) A hearing for the receipt of testimony from public witnesses on the Application shall be convened telephonically at 10 a.m. on May 19, 2025.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before May 12, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Hearing Examiner to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141.
- (d) Beginning at 10 a.m. on May 19, 2025, the Hearing Examiner appointed to this case will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

³³ Such electronic copies shall be sent to OHEparalegals@scc.virginia.gov.

(6) The evidentiary portion of the hearing on the Application shall be convened at 10 a.m. on May 19, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and Staff. Should the evidentiary hearing continue past May 19, 2025, the proceedings will thereafter be carried out virtually.

(7) An electronic copy of the public version of the Company's Application may be obtained by submitting a written request to counsel for the Company, Vishwa B. Link, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or vlink@mcguirewoods.com. Interested persons also may download unofficial copies from the Commission's website: scc.virginia.gov/Case-Information.

(8) On or before February 17, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory in Virginia:

NOTICE TO THE PUBLIC OF AN APPLICATION BY
 VIRGINIA ELECTRIC AND POWER COMPANY
 FOR APPROVAL OF ITS 2024 DSM UPDATE
 PURSUANT TO § 56-585.1 A 5 OF THE CODE OF VIRGINIA
CASE NO. PUR-2024-00222

- Virginia Electric and Power Company ("Dominion") has applied for approval to: implement demand-side management ("DSM") programs, which include one new program, one pilot, five redesigned programs, and a modification to the measure mix of the Phase XI Residential Income and Age Qualifying Bundled energy efficiency ("EE") Program to supplement the overall DSM Portfolio; and to revise its Riders C1A and C4A, through which Dominion recovers the costs of its DSM programs.
- Dominion requests a total of \$96,647,628 for its 2025 Riders C1A and C4A. According to Dominion, this amount would increase the monthly bill of a residential customer using 1,000 kilowatt-hours of electricity per month by \$0.04.
- A Hearing Examiner appointed by the Commission will hold the telephonic portion of the hearing in this case on May 19, 2025, at 10 a.m., for the receipt of public witness testimony.
- An evidentiary hearing will be held on May 19, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and Commission Staff.
- Further information about this case is available on the Commission's website at:
scc.virginia.gov/pages/Case-Information

On December 13, 2024, Virginia Electric and Power Company ("Dominion" or "Company") made a filing pursuant to § 56-585.1 A 5 of the Code of Virginia ("Code"); the Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities of the State Corporation Commission ("Commission"), 20 VAC 5-204-5 *et seq.*; the Commission's Rules Governing Utility Promotional

Allowances, 20 VAC 5-303-10 *et seq.*; the Commission's Rules Governing Cost/Benefit Measures Required for Demand-Side Management Programs, 20 VAC 5-304-10 *et seq.*; the Commission's Rules Governing the Evaluation, Measurement, and Verification of the Effects of Utility Sponsored Demand-Side Management Programs, 20 VAC 5-318-10 *et seq.*; and the directive contained in Ordering Paragraph (4) of the Commission's July 26, 2024 Final Order in Case No. PUR-2023-00217. Specifically, Dominion filed with the Commission an application requesting: (1) approval to implement demand-side management programs (individually, "DSM Program" or "Program" and collectively with other DSM Programs, the "DSM Portfolio") as "Phase XIII," which includes one new program, one pilot, five redesigned programs, and a modification to the measure mix of the Phase XI Residential Income and Age Qualifying Bundled energy efficiency ("EE") Program to supplement the overall DSM Portfolio; and (2) approval of an annual update to continue the rate adjustment clauses designated Riders C1A and C4A (collectively, the "Application").

In its Application, the Company requests approval to implement the following DSM Programs as the Company's "Phase XIII" programs, which include EE and "demand response" ("DR") DSM Programs, as these terms are defined by Code § 56-576:

- Residential Smart Thermostat (DR) (Redesigned)
- Non-residential Small Business Improvement (EE) (Redesigned)
- Non-residential Data Center (EE) (Redesigned)
- Non-residential Enhanced Prescriptive (EE) (Redesigned)
- Non-residential Curtailment (DR) (New program)
- Non-residential Distributed Generation (DR) (Redesigned)
- Residential Battery Storage Pilot (DR)

Dominion requests authorization to operate the non-pilot Phase XIII DSM Programs without predetermined closure dates. Dominion proposes an aggregate total cost cap for the Phase XIII programs in the amount of approximately \$222.3 million. Additionally, the Company requests the ability to exceed the spending cap by no more than 15%.

The Company asserts that the total amount of spending proposed in this Application on EE programs, when combined with the Company's prior requests for EE spending since the passage of the 2018 Grid Transformation and Security Act ("GTSA"), consists of approximately \$933.9 million compared to the required

\$870 million, excluding any amount of projected lost revenues. Further, the Company asserts that the total amount of spending proposed in this Application on EE programs targeting low-income individuals, when combined with the Company's prior requests for EE spending since the passage of the GTSA and the Virginia Clean Economy Act, consists of approximately \$110 million of the proposed \$933.9 million, excluding any amount of projected lost revenues.

The Company requests, through revised Riders C1A and C4A, recovery of projected costs for September 1, 2025, through August 31, 2026 ("2025 Rate Year"), associated with the Phases II through XIII programs.

The two key components of the proposed Riders C1A and C4A are the Projected Revenue Requirement, which incorporates operating expenses for all programs and capital costs (including amortization expense related to the Phase X – Voltage Optimization Program) that are projected to be incurred during the 2025 Rate Year, and a Monthly True-Up Adjustment, which compares actual costs for the calendar year 2023 True-Up period to the actual revenues collected during the same period. In the Application, Dominion requests the following:

Rider	Total Revenue Requirement	Projected Revenue Requirement	Monthly True-Up Adjustment
C1A	\$15,276,228	\$17,649,875	(\$2,373,647)
C4A	\$81,371,400	\$112,206,233	(\$30,834,833)
Combined	\$96,647,628		

If the proposed Riders C1A and C4A for the 2025 Rate Year are approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to the Company, implementation of the proposed Riders C1A and C4A, and the withdrawal of Rider C2A, on September 1, 2025, would increase the monthly bill of a residential customer using 1,000 kilowatt-hours of electricity per month by \$0.04. The Company represents that it has calculated the revised rates for Riders C1A and C4A in accordance with the same methodology approved in Case No. PUR-2023-00217.

Dominion states that the Company has complied with the Commission directives and filing requirements relevant to this instant filing, specifically the Commission's directives in its Final Order in the Company's Evaluation, Measurement, and Verification ("EM&V") proceeding, Case No. PUR-2020-00156.

The Company requests Commission approval of Phase XIII Program EM&V Plans.

Interested persons are encouraged to review the Application and supporting documents for additional details of the Company's proposals.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Application and supporting documents and thus may adopt rates that differ from those appearing in the Company's Application and supporting documents.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled public hearings on Dominion's Application. On May 19, 2025, at 10 a.m., the Hearing Examiner will hold a telephonic hearing for the purpose of receiving the testimony of public witnesses. On or before May 12, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Hearing Examiner to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141. This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

Beginning at 10 a.m. on May 19, 2025, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.

On May 19, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Hearing Examiner will convene a hearing to receive testimony and evidence from the Company, any respondents, and the Commission Staff. Should the evidentiary hearing continue past May 19, 2025, the proceedings will thereafter be carried out virtually.

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the

electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

Electronic copies of the public version of the Application may be obtained by submitting a written request to counsel for the Company, Vishwa B. Link, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or vlink@mcguirewoods.com. Interested persons also may download unofficial copies of the public version of the Application and other documents filed in this case from the Commission's website: scc.virginia.gov/pages/Case-Information.

On or before May 12, 2025, any interested person may submit comments on the Application by following the instructions found on the Commission's website: scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2024-00222.

On or before March 17, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation electronically on counsel to the Company, any other respondents, and Commission Staff as described above. Pursuant to Rule 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by Rule 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2024-00222. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing

On or before March 24, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on Staff, the Company, and all other respondents simultaneous with its filing. In all filings, respondents shall comply with the Commission's Rules of Practice, including 5 VAC 5-20-140, *Filing and service*; and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2024-00222.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

The public version of the Company's Application and other documents filed in this case, the Commission's Rules of Practice, and the Commission's Order for Notice and Hearing may be viewed at: scc.virginia.gov/pages/Case-Information.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) The Company shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before March 10, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling/.

(11) On or before May 12, 2025, any interested person may submit comments on the Application by following the instructions found on the Commission's website: scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter,

to submit comments electronically may file such by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2024-00222.

(12) On or before March 17, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents, and Staff as described in Ordering Paragraph (3). Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2024-00222.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve upon the respondent a copy of the public version of the Application and supporting materials, unless these materials already have been provided to the respondent.

(14) On or before March 24, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and

exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on Staff, the Company, and all other respondents simultaneous with their filing, as described in Ordering Paragraph (3). In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2024-00222.

(15) Staff shall investigate the Application. On or before April 7, 2025, Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. Staff shall serve a copy thereof electronically on counsel to the Company and all respondents, as described in Ordering Paragraph (3).

(16) On or before April 21, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. Dominion shall serve a copy thereof electronically on counsel to Staff and all respondents, as described in Ordering Paragraph (3).

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by Ordering Paragraph (2), all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within five (5) business days after receipt of the same. In addition to

the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to Staff.³⁴ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) The Company's requested waivers, in part, of Rule 60 and Rule 90 of the Commission's Rate Case Rules are granted as described herein.

(20) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

³⁴ The assigned Staff attorney is identified on the Commission's website, scc.virginia.gov/Case-Information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2024-00222, in the appropriate box.

*Petition of Virginia Electric and Power Company, For approval of revised Terms and
Conditions applicable to interconnection customers and net metering customers*
Case No. PUR-2024-00211

To: Local Government Officials

Pursuant to the State Corporation Commission of Virginia's January 22, 2025, *Order for Notice and Hearing* ("Order"), the Company is providing you a copy of its Petition filed on November 15, 2024, as well as the Order. Please take notice of their contents.

An electronic copy of the Company's Application may be obtained by submitting a written request to counsel for the Company, Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com.

PETITION

By its August 7, 2024 Order Directing Evidentiary Proceeding, Pilot and Improvements to the Interconnection Process (“Order”) in Case No. PUR-2022-00073, the Virginia State Corporation Commission (“Commission”), among other things, directed the Company to submit a filing in a new docket, on or before November 15, 2024, that proposes revisions to its terms and conditions applicable to interconnection customers and net metering customers. Pursuant to this directive, the Company respectfully states the following.

I. GENERAL INFORMATION

1. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional customers in Virginia and to the public in portions of North Carolina. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc.

2. The Company's name and post office address are:

Virginia Electric and Power Company
120 Tredegar Street
Richmond, Virginia 23219

3. The names, addresses, and telephone numbers of the Company's attorneys are:

BACKGROUND

4. Importantly, the Company's system was not originally designed to have large magnitudes of distributed energy resources ("DER") interconnected and to support the two-way flow of electricity. As a result, the system is lacking the necessary infrastructure to ensure the system can be properly secured during fault conditions to protect the general public, personal

property, Company personnel and enable the Company to continue to provide safe and reliable power across its service territory with the increase of DER interconnections. It is the duty of the electric utility to ensure the public and its employees are protected from hazards caused by electrical faults on the grid. Experience has shown that fiber based direct transfer trip (“DTT”) is the fastest and most reliable way to isolate a fault and remove all sources. Accordingly, fiber based DTT is the Company’s preferred method for removing a DER site during fault conditions. Point-to-point fiber is the Company’s current standard medium for DTT based on its speed and reliability. As DTT is a protection scheme, the Company’s DTT criteria are paramount for maintaining the safety and reliability of the grid. Still, the Company recognizes the high cost of fiber to interconnection customers and net metering customers and continues exploring lower-cost alternatives, because the drivers for implementation of DTT are likely to become even more critical as DER penetration levels increase.

5. As previously stated, on August 7, 2024 in Case No. PUR-2022-00073, the Commission issued an order directing, among other things, a separate evidentiary proceeding to be convened on the Company’s requirements surrounding the use of DTT and directing Staff as part of its proposed revisions to the Interconnection Regulations, to consider updating certain schedules and certain procedures regarding study timelines.¹

6. Specifically, the Order directed the Company to address the following in detail (for both front-of-the-meter and behind-the-meter projects), including supporting testimony and exhibits:

- Dominion’s proposed criteria for determining which situations require DTT, with all supporting engineering justification;

¹ August 7, 2024 Order at 5-8, 13.

- The operational considerations supporting its proposed use of DTT (such as latency, grid safety and reliability, cybersecurity, availability, location, and project size);
- Dominion's proposed criteria for alternative options to DTT, if any, including perceived benefits and limitations of those options (such as the feasibility, effectiveness, latency, grid safety and reliability, cybersecurity, and availability of each alternative);
- Notable alternative options to DTT not proposed by Dominion in its Filing and Dominion's justification for their exclusion (such as the feasibility, effectiveness, latency, grid safety and reliability, cybersecurity, and availability of each alternative);
- Identify when in the study process Dominion determines that the use of DTT or an alternative is required and how this will be communicated to the interconnection customer, including anticipated cost;
- Provide a breakdown of the approximate installation and operation and maintenance costs of DTT, including, but not limited to: (i) the average cost per mile to install DTT fiber, (ii) the average cost of substation upgrades that are required in order to utilize DTT, and (iii) any reoccurring monthly charges that interconnection customers must pay;
- Provide a breakdown of the approximate installation and operation and maintenance costs of each proposed alternative, including, but not limited to: (i) the average initial cost for key equipment needed for each alternative option, (ii) the average cost of substation upgrades that are required in order to utilize the alternative, and (iii) any reoccurring monthly charges that interconnection customers must pay; and
- Provide any additional information that would be useful for the Commission to know in ruling on this issue.²

In accordance with the Commission's directive, the Company proposes criteria for interconnections requiring fiber based DTT and addresses these other enumerated topics in the direct testimonies of Company Witnesses Gerald J. Warchol and Dr. Julio Romero Agüero.

² Order at 7-8.

II. PROPOSED CRITERIA FOR DTT

7. To determine if a generation site requires DTT, the Company proposes to use a load to generation ratio (“LTGR”) screen. The LTGR screen is a common utility practice that has functioned as a dependable protection scheme for decades. It is done on a three-phase interrupting device(s) upline from the proposed generator. The total light loading realized by the interrupting device is divided by the aggregate generation of each protective device. If this ratio is less than 3:1, the DER developer or customer is required to install a DTT from the upline device to the proposed site.

8. The LTGR screen ensures that all electrical sources connected to the distribution system without DTT will experience a minimum of three times more load than generation during a fault event when disconnected from the distribution system, which ultimately ensures the generator will promptly disconnect during fault conditions. The generation site will not be able to maintain proper voltage and frequency when required to serve three times its capacity and will promptly self-isolate.

9. Company Witness Dr. Julio Romero Agüero provides an independent evaluation of the Company’s DTT screening process and usage from an industry perspective. His testimony addresses: (i) good utility practice in evaluating whether to use DTT; (ii) the Company’s light LTGR screening process for the DTT requirement; (iii) need and benefits of DTT; (iv) the Company’s need for DTT; and (v) the alternatives to DTT and associated risks.

10. More specifically, Dr. Romero Agüero evaluates the Company’s DTT screening process compared to other utilities and explains that DTT is a common solution relied on by utilities to disconnect DER automatically in response to fault or islanding conditions. He notes that the Company’s screening process resembles those of other utilities that have identified the

need for DTT, although the Company's screening criteria is relatively conservative. Dr. Romero Agüero concludes that while various alternatives currently exist, the Company's use of DTT remains the most viable, responsible, and dependable protection solution to serve the Company's safety and reliability needs at this time.

11. As explained by both Company Witnesses Warchol and Dr. Romero Agüero, DTT provides grid safety and reliability, and provides the Company with a dependable tool to ensure public and personnel safety during fault and islanding conditions and prevent equipment damage. DTT directly signals the DER to disconnect in the event of a fault and/or an island, making it highly reliable for system protection.

12. As discussed in Company Witness Dr. Romero Agüero's testimony, DTT's advantages, among others, include:

- Immediate response: DTT provides a near-instantaneous response by directly commanding the DER to trip, which other methods cannot match.
- Reliability across conditions: DTT remains effective regardless of load-generation balance or system conditions, ensuring protection even under balanced islanding situations (when the load-to-generation ratios may allow inverters to remain connected to the grid and contribute to the fault for more than 0.16 seconds or may island for a longer period of time).
- Selective operation: DTT is highly selective, minimizing nuisance trips and avoiding unnecessary disconnection of DER.

The advantages that DTT yields resolve the Company's safety and reliability concern when interconnecting customers. Specifically, DTT alleviates risks associated with the growing DER penetration levels; accounts for the high distribution system voltage levels; prevents unsafe conditions or damages to the Company's system and equipment; ensures DERs disconnect promptly under fault conditions; complements the Company's grid modernization infrastructure by seamlessly coordinating DER disconnection with advanced grid controls; and ensures public and personnel safety.

13. Regarding operational considerations, Company Witness Warchol outlines DTT's minimization of latency, enhancement of grid safety and reliability, responsiveness to safety hazards in fault conditions, and protective cybersecurity characteristics. He also notes project location and size considerations that also support the Company's use of DTT.

14. Additionally, Company Witness Warchol provides a detailed cost breakdown of the approximate installation and operation and maintenance costs of DTT in his direct testimony, including: (i) the average cost per mile to install DTT fiber, (ii) the average cost of substation upgrades that are required in order to utilize DTT, and (iii) reoccurring monthly charges that interconnection customers must pay.

III. ALTERNATIVES TO DTT

15. In compliance with the Commission's directive, the Company also presents potential alternatives to DTT: minimum import protection and ground switch. For minimum import protection, Company Witness Warchol explains that if a study of the customer's DER reveals that parallel generation could require upgrades to the distribution system or fiber based DTT, the Company is testing a protection scheme that would eliminate the need for these upgrades. Under this scheme, if the incoming power to the customer's service meter falls below a specific setpoint, the customer's generation is automatically disconnected from the grid. This ensures that no energy is exported to the electric power system. The protection scheme guarantees that customer-owned DERs will be disconnected during fault events, preventing back-feeding into the electric power system.

16. The second alternative is the use of the ground switch. For any line operation, instead of sending a DTT signal to any DER connected to the faulted line, the Company would utilize a ground switch to intentionally connect the distribution lines within the faulted and/or

islanded section to ground. This will ensure that protection systems of all DERs operate and disconnect these facilities. As a result, any DER with an IEEE-1547 certified inverter that failed to isolate/trip for the original fault would experience immediate voltage and frequency collapse at its terminals and would trip offline. The infinite load would raise the LTGR above the 3:1 and the generation would self-trip. The ground switch would open back up to remove the ground source before the first reclose attempt and allow normal protection on the line. In conjunction with Electric Power Research Institute (“EPRI”), the Company is testing the logic and operability of this scheme. Unlike DTT that must communicate with every DER on the Electric Power System (“EPS”), this ground switch alternative will provide protection to every DER and the system without communication mediums such as fiber and cellular to every DER site.

17. In addition to these two alternatives, the Company is currently piloting an alternative to fiber as the primary communication medium to transmit a DTT signal for midsized Net Metering (“NEM”) projects (250 kW – 1 MW—dual carrier cellular (“DCC”). Thus far, the Company has deployed one instance of this system out of its Elko substation and has provided DCC DTT cost estimates for several midsized NEM projects. When compared with the cost estimates for fiber-based DTT for these projects, DCC DTT was on average 40% of the cost of traditional fiber-based DTT. The initial results of this pilot are positive, but the investigation is ongoing.

18. Company Witness Warchol also provides a detailed cost breakdown of the approximate installation and operation and maintenance costs of these alternatives in his direct testimony.

19. Finally, Company Witness Warchol details notable alternatives to DTT that the Company has considered but rejected along with the Company’s rationale for excluding them.

For these alternatives to fiber based DTT, the reduced reliability leads to increased downtime and reduced revenues for generator owners. As the amount of solar generation on the Company's grid increases, reduced reliability and availability will be a problem for the EPS that is experiencing exponential load growth. A reliable protection scheme is also required so that needed generation is not inadvertently tripped offline when needed to serve load.

IV. CONCLUSION

WHEREFORE, Dominion Energy Virginia respectfully requests that the Commission (i) approve its proposed criteria for interconnections requiring DTT; (ii) approve the Company's proposed revisions to its terms and conditions applicable to interconnection customers and net metering customers; and (iii) grant such other and further relief as it deems necessary or appropriate.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

Counsel for Virginia Electric and Power Company

November 15, 2024

PETITION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2024-00211

For approval of revised Terms and Conditions
applicable to interconnection customers and
net metering customers

ORDER FOR NOTICE AND HEARING

On August 7, 2024, the State Corporation Commission ("Commission") issued an Order Directing Evidentiary Proceeding, Pilot and Improvements to the Interconnection Process ("Order") in Case No. PUR-2022-00073.¹ This Order, among other things, directed that a separate evidentiary proceeding be convened on Virginia Electric and Power Company's ("Dominion" or "Company") requirements surrounding the use of dark fiber-optic cables for direct transfer trip ("DTT").² In Case No. PUR-2022-00073, parties raised concerns surrounding the costs of DTT as well as concerns regarding maintaining grid safety and reliability with the addition of significant levels of utility distributed energy resources ("DER").³ As such, in its Order the Commission found that DTT-related issues raised in Case No. PUR-2022-00073 warranted a formal evidentiary proceeding, which would allow parties to establish a robust factual record on the use of DTT by Dominion to interconnect generation facilities subject to the

¹ *Commonwealth of Virginia, ex rel. State Corporation Commission, Ex Parte: In the matter considering utility distributed energy resource interconnection-related issues and questions*, Case No. PUR-2022-00073, Doc. Con. Cen. No. 240820139, Order Directing Evidentiary Proceeding, Pilot and Improvements to the Interconnection Process (Aug. 7, 2024).

² *See id.* at 5-8.

³ *See id.* at 7.

Regulations Governing Interconnection of Small Electrical Generators and Storage,⁴ and the Regulations Governing Net Energy Metering,⁵ and to establish a record on possible related alternatives which are not unduly burdensome and expensive.⁶ The Order directed Dominion to make a filing in a new docket, on or before November 15, 2024, that: (i) proposes revisions to its terms and conditions applicable to interconnection customers and net metering customers and (ii) addresses certain issues specified in the Order.⁷

On November 15, 2024, Dominion filed its petition ("Petition") in the instant docket. In its Petition, the Company proposes criteria for interconnections requiring fiber based DTT.⁸ To determine if a generation site requires DTT, the Company proposes to use a load to generation ratio ("LTGR") screen.⁹ Dominion asserts that the LTGR screen would be done on a three-phase interrupting device upline from the proposed generator, where the total light loading realized by the interrupting device would be divided by the aggregate generation of each protective device.¹⁰ According to the Company, if the ratio is less than 3:1, the DER developer or customer would be required to install DTT from the upline device to the proposed site.¹¹ The Company claims that the LTGR screen would ensure that all electrical sources connected to the distribution system without DTT would experience a minimum of three times more load than generation during a

⁹ *Id.* at 5.

¹⁰ *Id.*

¹¹ *Id.*

fault event when disconnected from the distribution system, which would ensure that the generator would promptly disconnect during fault conditions.¹²

As part of its Petition, in compliance with a directive in the Order, Dominion presents potential alternatives to DTT, specifically: (i) minimum import protection and (ii) ground switch.¹³ In addition to these two alternatives, the Company states that it is currently piloting dual carrier cellular as an alternative to fiber as the primary communication medium to transmit a DTT signal for mid-sized net metering projects ranging from 250 kilowatts to 1 megawatt.¹⁴

Dominion states that, while various alternatives currently exist, DTT remains a viable, responsible, and dependable protection solution that: (i) provides grid safety and reliability; (ii) provides Dominion with a dependable tool to ensure public and personnel safety during fault and islanding conditions; (iii) directly signals the DER to disconnect in the event of a fault and/or an island, making it highly reliable for system protection; and (iv) has several advantages, including providing a near-instantaneous response by directly commanding DER to trip, remaining effective regardless of load-generation balance or system conditions, and minimizing nuisance trips and avoiding unnecessary disconnection of DER.¹⁵

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that Dominion should provide public notice of its Petition; a hearing should be scheduled for the purpose of receiving testimony from public witnesses and testimony and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or to

¹² *Id.* According to Dominion, the generation site would not be able to maintain proper voltage and frequency when required to serve three times its capacity and would promptly self-isolate. *Id.*

¹³ *Id.* at 7-8.

¹⁴ *Id.* at 8.

¹⁵ *Id.* at 6.

participate as respondents in this proceeding; and the Staff of the Commission ("Staff") should be directed to investigate the Petition and file testimony and exhibits containing its findings and recommendations thereon. Interested persons that wish to file written comments or testimony may consider discussing, among any other remarks, the following topics:

- Describe under what circumstances, if any, DTT should be required;
- The operational considerations supporting any proposed use of DTT and/or any alternatives to DTT, including perceived benefits and limitations of those options (such as the feasibility, effectiveness, latency, grid safety and reliability, cybersecurity, availability, location and project size of each alternative);
- Any response to the information provided by Dominion in its Petition;
- Detail any specific projects submitted to Dominion for which, in your view, DTT should not have been required;
- Provide examples of projects constructed in other jurisdictions by a utility with similar operational characteristics (such as similar voltage levels) to Dominion, but where DTT was not required; and
- Provide any additional information that would be useful for the Commission to know in ruling on this issue.

The Commission further finds that a Hearing Examiner should be assigned to rule on any discovery matters, including any motions for protective rulings or motions *pro hac vice* that arise during the course of this proceeding. Additionally, to promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

- (1) This case is docketed and assigned Case No. PUR-2024-00211.
- (2) All pleadings in this matter shall be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure

("Rules of Practice").¹⁶ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and Rule 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to rule on any discovery matters, including any motions for protective rulings or motions *pro hac vice* that arise during the course of this proceeding. A copy of each such filing made with the Commission's Clerk's Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.¹⁷

(5) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Company's Petition, as follows:

¹⁶ 5 VAC 5-20-10 *et seq.*

¹⁷ Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

- (a) A hearing for the receipt of testimony from public witnesses on the Company's Petition shall be convened telephonically at 10 a.m. on September 30, 2025.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before September 23, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141.
- (d) Beginning at 10 a.m. on September 30, 2025, the Commission will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

(6) The evidentiary portion of the hearing on the Petition shall be convened at 10 a.m. on September 30, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and the Staff.

(7) An electronic copy of the Company's Petition may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons may also download unofficial copies from the Commission's website: scc.virginia.gov/pages/Case-Information.

(8) On or before February 18, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC
OF A PETITION BY
VIRGINIA ELECTRIC AND POWER COMPANY
D/B/A DOMINION ENERGY VIRGINIA
FOR APPROVAL OF REVISED TERMS AND CONDITIONS
APPLICABLE TO INTERCONNECTION CUSTOMERS AND
NET METERING CUSTOMERS
CASE NO. PUR-2024-00211

On August 7, 2024, the State Corporation Commission ("Commission") issued an Order Directing Evidentiary Proceeding, Pilot and Improvements to the Interconnection Process ("Order") in Case No. PUR-2022-00073. This Order, among other things, directed that a separate evidentiary proceeding be convened on Virginia Electric and Power Company's ("Dominion" or "Company") requirements surrounding the use of dark fiber-optic cables for direct transfer trip ("DTT"). In Case No. PUR-2022-00073, parties raised concerns surrounding the costs of DTT as well as concerns regarding maintaining grid safety and reliability with the addition of significant levels of utility distributed energy resources ("DER"). As such, in its Order the Commission found that DTT-related issues raised in Case No. PUR-2022-00073 warranted a formal evidentiary proceeding, which would allow parties to establish a robust factual record on the use of DTT by Dominion to interconnect generation facilities subject to the Regulations Governing Interconnection of Small Electrical Generators and Storage, and the Regulations Governing Net Energy Metering, and to establish a record on possible related alternatives which are not unduly burdensome and expensive. The Order directed Dominion to make a filing in a new docket, on or before November 15, 2024, that: (i) proposes revisions to its terms and conditions applicable to interconnection customers and net metering customers and (ii) addresses certain issues specified in the Order.

On November 15, 2024, Dominion filed its petition ("Petition") in the instant docket. In its Petition, the Company proposes criteria for interconnections requiring fiber based DTT. To determine if a generation site requires DTT, the Company proposes to use a load to generation ratio ("LTGR") screen.

Dominion asserts that the LTGR screen would be done on a three-phase interrupting device upline from the proposed generator, where the total light loading realized by the interrupting device would be divided by the aggregate generation of each protective device. According to the Company, if the ratio is less than 3:1, the DER developer or customer would be required to install DTT from the upline device to the proposed site. The Company claims that the LTGR screen would ensure that all electrical sources connected to the distribution system without DTT would experience a minimum of three times more load than generation during a fault event when disconnected from the distribution system, which would ensure that the generator would promptly disconnect during fault conditions.

As part of its Petition, in compliance with a directive in the Order, Dominion presents potential alternatives to DTT, specifically: (i) minimum import protection and (ii) ground switch. In addition to these two alternatives, the Company states that it is currently piloting dual carrier cellular as an alternative to fiber as the primary communication medium to transmit a DTT signal for mid-sized net metering projects ranging from 250 kilowatts to 1 megawatt.

Dominion states that, while various alternatives currently exist, DTT remains a viable, responsible, and dependable protection solution that: (i) provides grid safety and reliability; (ii) provides Dominion with a dependable tool to ensure public and personnel safety during fault and islanding conditions; (iii) directly signals the DER to disconnect in the event of a fault and/or an island, making it highly reliable for system protection; and (iv) has several advantages, including providing a near-instantaneous response by directly commanding DER to trip, remaining effective regardless of load-generation balance or system conditions, and minimizing nuisance trips and avoiding unnecessary disconnection of DER.

Interested persons are encouraged to review Dominion's Petition and supporting documents in full for additional details of the Company's proposals in this case.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled public hearings on Dominion's Petition. A hearing for the receipt of testimony from public witnesses on the Company's Petition shall be convened telephonically at 10 a.m. on September 30, 2025. On or before September 23, 2025, any person desiring to offer

testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141. This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

Beginning at 10 a.m. on September 30, 2025, the Commission will telephone sequentially each person who has signed up to testify as provided above.

On September 30, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Commission will convene a hearing to receive testimony and evidence related to the Petition from the Company, any respondents, and the Staff of the Commission ("Staff").

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

An electronic copy of the Company's Petition may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons may also download unofficial copies of the Petition and the public version of other documents filed in this case from the Commission's website: scc.virginia.gov/pages/Case-Information.

On or before September 23, 2025, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box

2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2024-00211.

Interested persons that wish to file written comments or testimony may consider discussing, among any other remarks, the following topics:

- Describe under what circumstances, if any, DTT should be required;
- The operational considerations supporting any proposed use of DTT and/or any alternatives to DTT, including perceived benefits and limitations of those options (such as the feasibility, effectiveness, latency, grid safety and reliability, cybersecurity, availability, location and project size of each alternative);
- Any response to the information provided by Dominion in its Petition;
- Detail any specific projects submitted to Dominion for which, in your view, DTT should not have been required;
- Provide examples of projects constructed in other jurisdictions by a utility with similar operational characteristics (such as similar voltage levels) to Dominion, but where DTT was not required; and
- Provide any additional information that would be useful for the Commission to know in ruling on this issue.

On or before April 15, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff electronically as described above. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall

refer to Case No. PUR-2024-00211. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing.

On or before August 12, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2024-00211.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The Company's Petition, the Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and other documents filed in the case may be viewed at: scc.virginia.gov/pages/Case-Information.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) The Company shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before March 11, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling.

(11) On or before September 23, 2025, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2024-00211.

(12) On or before April 15, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff as described in Ordering Paragraph (3). Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2024-00211.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve upon the respondent a copy of the Petition and supporting materials, unless these materials already have been provided to the respondent.

(14) On or before August 12, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served on the Staff, the Company, and all other respondents as described in Ordering Paragraph (3). In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2024-00211.

(15) The Staff shall investigate the Petition. On or before August 26, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof on counsel to the Company and all respondents as described in Ordering Paragraph (3).

(16) On or before September 9, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve a copy of its rebuttal testimony and exhibits on the Staff and all respondents as described in Ordering Paragraph (3).

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by Ordering Paragraph (2), all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to the Staff.¹⁸ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

¹⁸ The assigned Staff attorneys are identified on the Commission's website, scc.virginia.gov/pages/Case-Information, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2024-00211, in the appropriate box.

Celebration of Virginia's No-Kill Shelters

Recognizing those who achieved
no-kill in 2024

In collaboration with shelters across Virginia

WEDNESDAY FEB 12, 2025

State Capitol, Richmond
900 East Main Street
House Subcommittee Room 10

9:00 AM – 11:00 AM

State of the Commonwealth & Celebratory Presentation

Bringing together shelter, government, and community leaders as well as Best Friends' Network Partners to celebrate their collective impact on animals in need and highlighting the progress the Commonwealth has made toward becoming a no-kill state.

1:00 PM – 3:00 PM

Meetings with Legislators

Discussing the importance of the no-kill movement and expressing gratitude for legislative support.

PUBLIC ANNOUNCEMENT-PLEASE SHARE

The Commissioner's Office is moving to 200 S. Main St. Blackstone, VA. (the old BB&T bank) We are looking to start moving on February 18 & 19, 2025.

On February 11th, 12th & 13th our office will close at 2pm to continue packing up the office. We will not be open to taxpayers during the hours of 2-4:30 on those three days, but we will still be answering the phones. IF you need to see one of us during those times, please call and make an appointment. On February 14th we will be closed to the public and we will not be taking any phone calls that day. We will be breaking everything down to be moved on the 18th. We are closed for Presidents Day on the 17th. We are hoping to open back up to the public in our new office on February 21st. If this changes, we will post on here.

The Nottoway County Treasurer's Office is also part of this move. The Voter Registrar's office will also be moving into the building with us, at a later date.

With business license renewals due by March 1st, if you come here during the times we are closed and you already have your application filled out and know what you owe, please put the application and payment in our drop box. Again, if you need to see one of us, and know it will be after the time we are shut down to start packing, please call the morning of or the day before for an appointment. We do apologize for any inconvenience this may cause.

We look forward to seeing everyone in Blackstone.

Steve Bowen

Subject: Local Coverage by Virginia State Police
Importance: High

Elected Officials & Town Managers,

This week at our monthly Fire & EMS Working Group meeting, we discussed the latest changes in the Virginia State Police operations for coverage across Nottoway County. Several fire department personnel had experienced some delayed responses to various calls for VSP, such as, motor vehicle crashes, etc. We were briefed at that meeting by our VDOT Incident Coordinator from the Petersburg Residency Office and he confirmed that the VSP had changed their operational model to cover more area with the troopers that area on duty.

In researching this for our fire/EMS departments and County Administrator Bowen, I have talked with the Dinwiddie (Area 7) Office of VSP that oversees Nottoway County staffing also. They provided me with some details on how they are operating the shifts now. Here are the take-aways from those conversations with VSP.

- For VSP, the “duty post” method for Nottoway County has been discontinued and the VSP troopers are combining the coverage of Nottoway & Dinwiddie Counties. It is our understanding that overall VSP staffing in the region is the reason for this change.
- There are twelve (12) troopers assigned to the Area Seven Office in Dinwiddie, and they advised that regular shift coverage will be two (2) troopers to cover the entire area.
- VSP advised that the interstate is a priority for patrolling and response for them but the two troopers on duty may be pulled either way. So, Nottoway could have two, one, or no troopers readily available, depending on the location of calls for service.
- Yesterday, we had a motor vehicle crash on Rt. 49 followed by another one within the next hour. VSP was working the fatality on first one and I think they were also requested on the second call also. This is an example of how the resources were stretched thin.
- Moving forward, I have spoken with Sheriff Jones about the occasional need to have Nottoway deputies fill the gap on traffic control, scene security, etc. until a VSP trooper arrives. This will certainly place an additional load on his deputies and for longer periods of time when we have to wait for a VSP unit. It will also impact the wait time for fire departments that need to clear the scene once hazards are mitigated, and patients are treated and transported. Additionally, this will impact the wait time for wrecker companies who need to receive the approval to move and leave with a vehicle.

I will continue to communicate with Sheriff Jones to see what the best options for our local units to use for coping with this new response situation from the state units.

Be safe,
Buddy

February 27, 2025

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 27TH DAY OF FEBRUARY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
CATHERINE DOUGLASS, COUNTY ATTORNEY

ABSENT: JOHN A. ROARK

Chairman Collins calls the meeting to order at 7:00 p.m. Due to last week's inclement weather, the regular monthly Board meeting was postponed until tonight.

Supervisor Toth provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Administrator Bowen would like to amend the agenda to have J-5 include Select a Chair for the Courthouse Committee and add J-7 Restructure Finance Committee and Select a Chair. Supervisor Ingram moves to approve the agenda with the amendments. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Approval of the Minutes: Minutes are presented from the regular Board meeting held January 16, 2025. Supervisor Toth moves to approve the minutes as presented. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Pastor Ted Fuson, Blackstone Baptist Church, offers an invocation.

Chairman Collins begins the Delegations from the Public.

1 – Woodson Irby: Asks the Board to consider figures he provides for possible solar revenue in light of Comprehensive Plan language that limits production to the County's consumption. He suggests a 400 MW limit.

Chairman Collins begins tonight's public hearings.

1 – Special Exception – Manufactured Home, H. M. Services

Supervisor Toth moves to open the public hearing for H. M. Services request to place a manufactured home. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent

G. G. Toth Yes

Mr. Zody provides the details of the request. The request by H. M. Services is to demolish an existing blighted residence and replace it with a manufactured home. The Planning Commission heard this request on February 18th and recommended it to the Board with a vote of 5-0-1, Jeff Lavelle having recused himself from the vote.

The Planning Commission and Staff support the following conditions:

1. This special exception is granted for a double-wide manufactured home upon applying for and receiving a demolition permit before new construction/placement can commence.
2. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.
3. Well and Septic Permits issued by the Virginia Department of Health prior to occupancy of the home (i.e. Occupancy Permit).
4. Applicant shall secure a driveway permit through the Virginia Department of Transportation.

Vice Chair Norton moves to close the Public Hearing. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Supervisor Toth motions to grant the applicant's request to remove the existing residence and replace it with a doublewide manufactured home. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

2 – Special Exception Amendment – Tropical Treehouse

Supervisor Toth moves to open the public hearing for the Special Exception Amendment for Tropical Treehouse. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Mr. Zody provides the details of the request. The request by Tropical Treehouse is to amend two conditions of the previously approved Special Exception for a duplex located at 2551 Green Hill Road to allow renting to non-nursery workers. Due to market conditions and technological innovations, Tropical Treehouse does not have a worker to fill a vacancy. The Planning Commission voted 5-0-1 to deny the request, Jeff Lavelle having recused himself from the vote. Mr. Zody notes another option is to cut off a five-acre parcel which makes the duplex the primary use on the new parcel rather than a subordinate use on its current parcel.

Staff recommends the amendment to the original Special Exception with one condition:

1. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.

1 – Gene McAuliffe, owner of Cross Creek Nursery, is present and speaks to the efficiencies in the industry which led to having only one worker occupying the duplex. He hopes to allow outside renters in the existing vacancy.

Supervisor Toth suggests holding a public hearing to amend the Special Exception allowing for an H-2A worker from other local farms. Mr. Zody states that Commissioner Thomas wanted the Board to consider the recommendation of having the duplex on its own five-acre parcel.

Supervisor Ingram moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Supervisor Toth moves to table this for a public hearing on having outside farm workers as renters. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

3 – Special Exception – Nottoway County Telecommunications Tower

Supervisor Ingram moves to open the public hearing for the Nottoway County Telecommunications Tower. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Mr. Zody states that the applicant, Nottoway County, is seeking approval to construct a 300' communications tower on tax map # 31-70, zoned Conservation, using .11 acres of the 1.3-acre site. As part of the Special Exception request, the developer is seeking a waiver of the setback requirement in Sec. 4-13-10 [Setbacks] of the Zoning Ordinance. Staff supports the complete waiver request with the following conditions:

1. This special exception is granted for a 300' telecommunications radio tower.
2. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.
3. The propane tank slab must be marked in the field.
4. The drainfield shall be marked in the field and on construction plans.
5. All construction related to the tower shall be set back ten (10) feet from the active drainfield and the drainfield and setbacks shall be marked in the field and on the construction plans.

The Planning Commission recommended approval with a vote of 5-1-0 with the dissenting vote made by Commissioner Thomas.

1 – Bryan Thomas, speaking as a citizen, believes the County is making a mistake with the placement of the tower at its proposed location with esthetics cited as a reason.

Mr. Hyde speaks to the additional expense of a necessary microwave shot from a remote location if sited elsewhere versus using conduit if sited at the proposed location. As to appearance, three towers are visible from Highway 460 near the Courthouse Complex though all three are set back.

Jeremiah Knowles, CTA, notes that in addition to the cost of the microwave shot, a secondary tower to extend above the tree line would be necessary. Several locations near the current dispatch center were examined for viability but this proposed location was the best suited. Should the tower fall, it is engineered to collapse on itself and has no guy wires.

Mr. Zody confirms the adjacent residents were notified of this Special Exception request, and no objections were brought forward.

Mr. Knowles and Steve Mondibrown, Level-Up Towers, expects no objections from the FAA based on location and flight pattern. Mr. Mondibrown anticipates FAA's determination will be a standard dual medium-intensity lighting system which includes a red night beacon and white day beacon. Mr. Knowles says there will be an eight-foot fence around the compound for camouflage and security.

Supervisor Ingram moves to close the Public Hearing. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Administrator Bowen adds that one reason for locating the tower at the proposed location was to have it farther from the historical courthouse. Vice Chair Norton moves to approve the Special Exception request for the Nottoway County telecommunications tower as written. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The Board receives the following Department reports:

1 –Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for January 2025. Aaron French, Assistant Resident Engineer, reports that the Route 46 bridge project is on schedule for a mid-April 2025 completion. The construction contract for the R-cut project at Route 723 was awarded, and construction is set to begin mid-May. Highway 460 mile-marker signs have been installed. Highway 360 mile-marker signs have been ordered. The Secondary Six-Year Plan process will begin soon. Crystal Lake Road is the next rural rustic project in the schedule and is fully funded. VDOT is focused statewide on pothole and safety issues. For road maintenance issues, citizens can report directly to VDOT by calling 1-800-FOR-ROAD (367-7623). Vice Chair Norton inquires about the speed study on Schutt Road. VDOT has a list of school bus stops and is reviewing where signs are warranted. Also, a pipe on Ridge Road will be replaced in the near future.

2 – Solid Waste: January 2025 Nottoway County Sanitary Landfill waste report: an average of 41.4 tons of waste per day received. December 2024 Nottoway County Sanitary Landfill waste report: an average of 46.56 tons of waste per day received. January thru December 2024 Nottoway County Sanitary Landfill waste report. DEQ No-Deficiency Letter for the January 15, 2025 landfill inspection, includes Compliance Inspection Report.

3 – Building Inspection/Erosion & Sediment Control: January 2025 report; 29 building permits issued for \$7,653.99 in permit fees with \$1,311,618.00 in construction value; 115 inspections performed.

4 – Animal Control: January 2025 report; 137 animal control calls; 1 summons issued; 1 conviction (2 null process – plea deal); 5 compliance notifications issued; 0 dogs held over 40 days. Pictures of donations received in January are included in the package.

5 – Piedmont Health District: No report provided.

6 – Nottoway County Public Library: No report provided.

7 – Nottoway County School Board: Dr. Marcia Martin expresses appreciation for the Board of Supervisors' participation in the joint worksession. Winter weather has disrupted the school schedule recently, but they are back into a routine this week and look forward to spring sports and activities.

Three budget adjustments are presented in the package.

1– Revenues:

25.4.204.41040.0050.022.000.100	VP SA – School Security Grant	\$173,954.00
---------------------------------	-------------------------------	--------------

Expenditures:

25.4.201.63700.8100.900.000.100	Transport, Cap Outlay (Bus Radios)	\$173.954.00
---------------------------------	------------------------------------	--------------

2 – Revenues:

4.201.33020.300.0270	NMS School Improvement Grant	\$169,554.00
----------------------	------------------------------	--------------

Expenditures:

4.201.61310.1620.200.100.540	Supplemental Salary – Elementary	\$15,120.00
4.201.61310.1620.300.100.540	Supplemental Salary – Secondary	\$15,120.00
4.201.61310.2100.200.100.540	FICA	\$1,157.00
4.201.61310.2100.300.100.540	FICA	\$1,157.00
4.201.61310.3000.200.100.540	Purchased Services – Elementary	\$68,500.00
4.201.61310.3000.300.100.540	Purchased Services – Secondary	\$68,500.00

3 – Revenues:

4.201.33020.300.0271	NIS School Improvement Grant	\$49,100.00
----------------------	------------------------------	-------------

Expenditures:

4.201.61310.3000.200.100.541	Purchased Services – Elementary	\$49,100.00
------------------------------	---------------------------------	-------------

Vice Chair Norton moves to approve the three budget adjustments as presented. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for January 2025. Mr. Zody shares he is cleaning up the Pickett Park maps and having the GIS updated to market the property. Chairman Collins notes that when selling this property, it will become necessary to survey the property as accurate descriptions are difficult to determine.

Per State Code Section 15.2-2285(B), no zoning ordinance shall be amended unless the Board has referred it to the Planning Commission. Ms. Douglass states that by passing the ordinance, a requirement is now in place that any amendment must go to the Planning Commission for their recommendation. The Board is not bound to accept the recommendation. Mr. Zody will advertise the public hearings for the bodies' respective April meetings.

10 – Emergency Services: Emergency Services Coordinator's Report for February 2025. Fire & EMS Working Group Planning Meeting Agenda for February 4, 2025. Mr. Hyde reports that the GIS data outlining which company serves and which hospital is closest to a location has been loaded into the CAD system, including a helicopter and ambulance layer.

Mr. Hyde asks the Board to adopt a resolution for a local declaration of emergency due to the February winter storms. This is concurrent with the Governor's February 10th declaration and opens the doors to public assistance for damages over a certain dollar amount. Vice Chair Norton moves to declare a local emergency and accept the resolution as presented. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Administrator Bowen notes that, as discussed in the recent worksession, with Supervisor Roark's absence, any votes resulting in a tie would be defeated.

Mr. Hyde then presents two reimbursable grant documents for funds that had been obligated before DOGE cuts. Per a conversation with the grants administration office, the money should be secured, but there could be a delay. The County would invest \$8600 for \$180,000 in equipment, but the County would not expend its match until FY26. One grant is for two generators, the second grant is for hurricane-related shutters. Administrator Bowen asks if the Board does not accept one of the grants, would that affect the other as his opinion is that the generators are more important to the County than the shutters, particularly in light of coming construction. Also, having dispatch located in the current VDH location is an unknown. Mr. Hyde suggests accepting the grant and then deciding later about spending the money.

Supervisor Ingram moves to accept the two (2) FEMA Hazard Mitigation Grant Program awards to Nottoway County for emergency generators for two critical facilities and protective measures for windows and doors for two critical facilities and authorize the County Administrator to execute the signatures required in these two grant award packages and the Emergency Services Coordinator to submit them to the Virginia Department of Emergency Management. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

There is an Emergency Medical Dispatch grant to be heard at the March meeting.

11 – Piedmont Regional Jail Authority: Chairman Collins reports that Delegate Lee Ware and Senator Mulchi have worked towards securing the County an additional \$100,000 for FY26 in funding for VCBR residents incarcerated at PRJ. Much time and work went into this outcome, and much work will continue towards seeing all expenses covered.

12 – Local Redevelopment Authority: Lease Actions Income Report dated February 6, 2025. Officer's Club Income Report dated February 6, 2025. A notice is included in the package that a Real ID will be required to enter Fort Barfoot beginning May 1, 2025.

Reports, requests, and recommendations of Constitutional Officers:

- 1 – Jane L. Brown, Clerk: No report provided.
- 2 – Robert L. Jones, Sheriff: Present but nothing to report.
- 3 – Tammie A. Raiford, Treasurer: No report provided.
- 4 – Christy A. Hudson, Commissioner of the Revenue: No report provided.
- 5 – Leanne Watrous, Commonwealth’s Attorney: Case reports provided in the package.

The Board considers the following unfinished business.

1a – Animal Shelter Update: Supervisor Ingram reads through a comparison of the old shelter versus the new shelter prepared by CARES. Administrator Bowen adds that a pre-bid conference was held February 18th with six contractors present. Some contractors have come to view the facility. There was a meeting with a representative from the State veterinarian’s office who made recommendations for consideration. Sealed bids are to be opened March 11th.

1b – Broadband: Administrator Bowen has signed a fourth amendment to the contract.

1c – Landfill: TRC is to speak at the March 13th worksession to present a numbers comparison on landfill options.

1f – The joint meeting with the School Board precluded two Supervisors attending community board meetings. CPMT was canceled. PSR’s awards banquet will be held March 6th. Until Supervisor Roark returns, an alternate should consider attending the meeting of the Social Services Board.

The Board considers the following new business:

1 – Set Animal Confinement Administrator Bowen explains that the Board sets dog confinement annually. Supervisor Toth makes a motion to advertise the public notice to confine dogs from April 1, 2025, through May 31, 2025. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

2 – Prince Edward Reimbursement Request: Administrator Bowen informs the Board that the County received a request for payment of half the cost of the Prince Edward boundary line survey work. Prince Edward had informed Administrator Bowen at a meeting that they would be invoicing, and it was noted in the request that Nottoway’s Board had previously declined to participate. There is a consensus not to make payment. Much work is forthcoming on this boundary adjustment with Commissioners, registrars, etc. Chairman Collins adds that last year the Board received letters from affected citizens expressing their concerns.

3 – STEPS Appointment: Administrator Bowen would like to serve on the STEPS board and watch the utilization of Nottoway’s \$75,000 investment in their homeless shelter project. For that to occur, the vote for Mr. Miller would need to be rescinded. Supervisor Toth moves to rescind the vote to accept Nathaniel Miller’s willingness to serve on the STEPS Board for Nottoway County. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent

G. G. Toth Yes

Supervisor Toth moves to appoint County Administrator Steve Bowen to the STEPS board serving as Supervisor Toth's alternate. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

4 – IDA Appointment: Supervisor Toth moves to appoint Nathaniel Miller to serve on the Industrial Development Authority to fill the vacancy created by the resignation of William D. Coleburn, for a term expiring September 18, 2026. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

5 – Restructure of Courthouse Committee: Administrator Bowen suggests removing him from this committee as well as choosing a chair for it. Vice Chair Norton moves to amend the motion passed on January 16, 2025, and strike Administrator Bowen from the Courthouse Revitalization Committee, keeping all other appointments as approved. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Discussion follows on having a chair for the larger committees with having co-chairs in case of absence being one option discussed. Administrator Bowen notes that his being removed from the committees is to prevent unintended meetings. As to who chairs, this could be taken up at the next meeting, and, as Administrator, he will set agendas.

6 – Planning and Zoning Fees: Gregg Zody, Planning & Econ. Dev. Director, presents a comparison chart of neighboring localities' fees. New fees would put the cost on developers rather than adding a burden to taxpayers. To Vice Chair Norton's inquiry on budget impact, Mr. Zody is not sure there would be a tremendous amount but that this would be positive movement. A consensus of the Board is to advertise for a public hearing on the matter at the March 20th meeting.

7 – Restructure Finance Committee and Select a Chair: Supervisor Ingram moves to remove Administrator Bowen from the Finance Committee. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The Board considers the following Consent Items.

1 – January Expenditures – All Funds

2 – Refund – Building Permit, Not Required	\$148.50
--	----------

3 – Town of Blackstone – Grant Pass-Through Funds	\$2,405.00
4 – VAcorp – Insurance Reimbursement	\$332.96

Supervisor Ingram moves to approve the Consent Items. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The following information items are presented in the package:

1 – CRC – January 2025 Items of Interest

2 – Crossroads Patient Report – November & December 2024

3 – Annual Report for Nottoway Extension 2024

4 – Dominion Energy – (3) Orders/Notices (full docs available in County Administration)

5 – Juneteenth Celebration – Farmville: Chairman Collins notes the Board will need to approve an alternate date for its June regular meeting. Administrator Bowen will have this topic on the agenda in May for a decision, perhaps moving it to the following Thursday.

6 – Celebration of Virginia’s No-Kill Shelters – Richmond

7 – Public Notice by Commissioner of Revenue

8 – Local Coverage by Virginia State Police: Mr. Hyde speaks to there being twelve Troopers now shared by Nottoway and Dinwiddie counties. Sheriff Jones adds that this has been ongoing for the last six months with Interstate 85 incidents having priority.

9 – Brunswick County Government Building Example

Administrator Bowen notes that the Treasurer’s Office and Commissioner of the Revenue’s Office have moved to Blackstone and are opening to the public tomorrow. The Virginia Heartland Regional Economic Development Alliance has selected an Executive Director, and he will be introduced to the Board soon. The Board is scheduled to meet with Department Heads on March 11th and 18th to hear budget requests. He thanks the Courthouse Committee for touring the Buckingham and Appomattox courthouses; he thanks the respective County Administrators for allowing the tours and sharing their insights. A timeline must be developed and presented to the judge by July 1, and Administrator Bowen will be introducing PPEA Guidelines for adoption next month to help establish an acceptable timeline and budget for the project. He reminds the Board that it is their names on the court order, so there is much for them to consider ahead of the deadline.

Vice Chair Norton attended an informative meeting concerning data centers which could provide the County with a revenue stream.

Supervisor Toth reminds everyone to continue praying for Supervisor Roark and his recovery. Also, pray for the recent house fire on Cottage Road, the injuries and loss of life from it. He looks forward to hearing from the citizens on the new location of the Treasurer and Commissioner.

Chairman Collins speaks to the Code of Virginia and Supervisor Roark’s absence due to medical issues. There is no timeline given for a medical absence, so the Board will wait for Supervisor Roark’s return.

February 27, 2025

Supervisor Ingram move that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(3) Discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body, specifically property located near Fort Barfoot; and, § 2.2-3711 (A)(1) Discussion, consideration, or interviews of prospective candidates for employment; assignment, appointment, promotion, performance, demotion, salaries, disciplining, or resignation of specific public officers, appointees, or employees of any public body; specifically relating to personnel matters now pending in County Administration. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The Board enters Closed Meeting at 9:34 p.m.

Vice Chair Norton moves to reconvene in Open Session with a second provided by Supervisor Ingram. The Board reconvenes at 10:26 p.m.

Vice Chair Norton reads the certification announcement:

WHEREAS, the Nottoway County Board of Supervisors has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, § 2.2-3712 (D) of the *Code of Virginia* requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

A roll call vote is taken with responses as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	Absent
G. G. Toth	I Certify

Supervisor Ingram moves to adjourn. A second is provided by Supervisor Toth. Chairman Collins adjourns the meeting at 10:28 p.m.

Chairman

Clerk

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 20TH DAY OF MARCH IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
CATHERINE DOUGLASS, COUNTY ATTORNEY

ABSENT: JOHN A. ROARK

Chairman Collins calls the meeting to order at 7:00 p.m.

Pastor Jason Leonard, Blackstone Presbyterian Church, provides the invocation.
Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Hearing no amendments, Supervisor Ingram moves to approve the agenda. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Approval of the Minutes: Minutes are presented from the Board’s organizational meeting held January 7, 2025. Supervisor Ingram moves to approve the minutes as presented. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Chairman Collins begins the Delegations from the Public.

1 – Sonny Abbott: Compares the Treasurer’s reports in the January Board package with those in the March Board package. The Code of Virginia has requirements for monthly reporting by the Treasurer, and he questions if all deposits are reported. He then asks the Board to remove the stipulation that only the previous or current agenda be addressed by the public.

Administrator Bowen reminds everyone that, with Supervisor Roark still out on medical leave, if a vote results in a tie, the motion will be defeated.

Chairman Collins begins tonight’s public hearings.

1 – Special Exception – Herrera Manufactured Home

Mr. Zody provides the details of the request to place a manufactured home on tax map # 18A50-1-36 on CCC Road, zoned Rural Residential. The applicant has submitted for a well permit. Only one adjacent property owner contacted Mr. Zody and asked if this would affect their property or if they should attend the hearings. The Planning Commission heard the request and recommended approval with the staff recommendations by a vote of 8-0.

1. This special exception is granted for a double-wide manufactured home.

2. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.
3. Well and Septic Permits must be issued by the Virginia Department of Health prior to the occupancy of the home (i.e. Occupancy Permit).
4. Use the approved private entrance as constructed.

Vice Chair Norton moves to open the public hearing for the Herrera Manufactured Home request. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

With no one present to speak for or against the request, Supervisor Toth moves to close the Public Hearing. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Chairman Collins notes the Special Exception has been accepted and passed.

2 – Special Exception Amendment – Tropical Treehouse

Mr. Zody states the Board tabled the original request to remove the condition that only Cross Creek Nursery workers were allowed to rent the duplex. For tonight's public hearing, he advertised and sent letters to all adjacent property owners. The Board proposed allowing farm workers throughout Nottoway County to rent one side of the duplex. The Planning Commission recommended denial with a vote of 7-0-1 with Jeff Lavelle abstaining.

Supervisor Toth moves to open the public hearing for the Special Exception Amendment for Tropical Treehouse. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

1 – Gene McAuliffe: Spoke to the adjacent property owners and found no opposition to one side being rented to non-nursery workers.

Vice Chair Norton moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Supervisor Toth spoke to an adjacent property owner who was agreeable to an offsite worker renting the duplex and acknowledged the owner had been informative throughout the

process. Vice Chair Norton is concerned with who would monitor the rentals. She will uphold the Planning Commission's decision.

Supervisor Toth makes a motion to pass the Special Exception to grant the right to rent to the general public no more than 50% of the duplex with 50% rented to Cross Creek's H-2A workers. The motion dies for lack of a second.

To a question of what defines a farm worker, Supervisor Toth was speaking of federal H-2A workers.

3 – Planning and Zoning Application Fees Increase

Mr. Zody has noted many planning services have no associated fees. He then reviews comparative fee schedules of Nottoway's adjacent localities and shares his recommendations. The fees would cover staff's time to review and approve various planning and zoning permits and services.

Vice Chair Norton moves to open the public hearing for the Planning and Zoning Application Fees Increase. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

With no one present to speak either for or against the matter, Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Supervisor Toth makes a motion to approve the proposed increased fees. A second is provided by Supervisor Ingram. Supervisor Toth withdraws his motion and then moves to approve the proposed increased fees and add said language to the Zoning Ordinance. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Vice Chair Norton requests Mr. Zody develop the associated budget impact.

4 – Public Hearing for Guideline Adoption – Public-Private Education Facilities and Infrastructure Act

Administrator Bowen notes that adoption of these guidelines will enable the County to utilize the Public-Private Education Facilities and Infrastructure Act of 2002 which grants the County of Nottoway the authority to create public-private partnerships for the development of a wide range of projects for public use if the County determines there is a need for the project and that private involvement may provide the project to the public in a timely or cost-effective manner.

Supervisor Ingram moves to open the public hearing for the PPEA Guidelines. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

1 – Woodson Irby: Speaks favorably to the adoption. Given a lack of specialized staff and a complicated process, adoption of the PPEA guidelines would bring a professional group to the table to complete the necessary steps for project completion. It would also set a maximum dollar figure for the project.

Vice Chair Norton notes that on page 5, Section G, the individual responsible to receive proposals and respond to inquiries will be the County Administrator. Even though there is a committee, this would be the responsibility of Administrator Bowen.

Supervisor Toth moves to close the Public Hearing. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Ms. Douglass reminds the Board the timeline requires a proposal to the judge by July 5th. Adoption of these guidelines would still need action quickly to meet the deadline. Once adopted, companies can submit proposals to the County, and the County can then act.

Supervisor Ingram makes a motion to approve the use of PPEA in the construction and renovation of Nottoway's Courthouse Complex. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

5 – Public Hearings for Disposition of Property – 186 Reservation Road and 1200 Darvills Road

Administrator Bowen explains this public hearing is for the sale of four (4.0) acres of real property, pursuant to Section 15.2-1800 et seq. of the *Code of Virginia*, known as 1200 Darvills Road, Blackstone, Virginia, and designated as Tax Parcel # 51-94; and also the sale of 4.48 acres of real property, pursuant to Section 15.2-1800 et seq. of the *Code of Virginia*, known as 186 Reservation Road, Blackstone, Virginia, and designated as Tax Parcel # 43-131.

Supervisor Ingram moves to open the public hearing for the sale of public property. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

With no one present to speak either for or against the matter, Supervisor Ingram moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
---------------	-----

D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The bowling alley is being sold by online auction ending March 27th. The Reservation Road property is being sold by a realtor who has an interested buyer. Both County properties are near Fort Barfoot. Supervisor Toth reviews the previous failed purchase of the bowling alley. Administrator Bowen reviews the previous failed purchase of the Reservation Road property.

Supervisor Toth makes a motion to sell the property located at 1200 Darvills Road and the property at 186 Reservation Road. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The Board hears a presentation on the Fiscal Year 2024 Audit Results by Jay Sanudo, Robinson, Farmer, Cox Associates. Having provided each Board member a copy, Mr. Sanudo reviews the final audit. At the end of the fiscal year: total net position was \$33.4 million, a decrease of about \$4.4 million; on a modified accrual basis, the fund balance was \$22.2 million; the unassigned fund balance was \$16.5 million; and, cash and cash equivalents were \$17.6 million with \$2 million of that associated with ARPA. The County had \$96,000 in long term debt at the end of the fiscal year, and the school board had \$665,000. There was a material weakness regarding proposed journal entries and a finding regarding the ARPA filing being two days late. He notes things the County could improve upon: monthly reconciliations, recording transfers between the County and the School Board, and more careful entry of budget amendments. He notes the lateness of this final audit but commends staff on an exceptional job especially given the County's circumstances.

Administrator Bowen notes that the County's FY25 budget was developed based on \$16 million in reserves, and the audit gives the unassigned fund balance as \$16.5 million, so very close to a correct estimate. Vice Chairman notes that staff, particularly Logan Presley, has done a phenomenal job.

Supervisor Toth makes a motion to accept the audit. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The Board receives the following Department reports:

1 –Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for February 2025. Aaron French, Assistant Resident Engineer, reports that the opening of the Route 46 bridge has been delayed until July due to loss of work time from successive winter storms. Improvements have been made to Jonesboro Road. The 723/460 R-cut project is on schedule with work to begin in early May. A willingness for a public hearing has been posted for a sidewalk project on the south side of 460 in Crewe. The mile marker signs on 360/460 are complete, and the marker coordinates can be integrated into the GIS system for mapping. The pipe replacement on Ridge Road will take place the week of April 14th. Several bus stop and speed limit signs will be placed on Schutt Road. VDOT is receiving an unprecedented amount of work orders for potholes and debris. Mr. French will be presenting the Secondary Six Year Plan at a worksession a half hour before the Board's regular April meeting. The Crystal Lake Road project is already in the Six Year Plan and construction will begin by early May.

Supervisor Toth had a citizen concerned with pavement markings on Cellar Creek Road and how the project may affect their property. He also reports an erosion issue behind the Health Department that he would like VDOT to review. Administrator Bowen says Piedmont Soil & Water have been on site and said it was a VDOT issue.

2 – Solid Waste: February 2025 Nottoway County Sanitary Landfill waste report: an average of 44.35 tons of waste per day received. Administrator Bowen notes that a meeting is being set with the Town of Burkeville to discuss proposed landfill fee increases. Chairman Collins recaps information the Board received during a recent presentation by TRC. They are considering the County's actual cost per ton of trash, how a fee increase may affect the towns, and whether to purchase the landfill equipment or continue leasing.

3 – Building Inspection/Erosion & Sediment Control: February 2025 report; 18 building permits issued for \$4,424.10 in permit fees with \$646,336.98 in construction value; 91 inspections performed. Mr. Bowles updates the Board on upcoming meetings, the January implementation of the 2021 code, and a presentation he is scheduled to give to the Blackstone Chamber of Commerce. Building Safety month is in May. Mr. Bowles congratulates Melissa Mohn for completing Permit Tech training and adds that she will be testing soon to receive certification. Mr. Bowles will be testing soon for certification in Erosion & Sediment Control to begin those duties.

4 – Animal Control: February 2025 report; 139 animal control calls; 5 summons issued; 2 convictions; 1 compliance notifications issued; 1 dog held over 40 days. Pictures of donations received in February are included in the package.

5 – Piedmont Health District: No report provided. Administrator Bowen met with Dr. Almond to discuss the possibility of relocating the Health Department to Crewe.

6 – Nottoway County Public Library: Library Board of Trustees meeting packet for February 19, 2025, and March 19, 2025; February and March Director's Report.

7 – Nottoway County School Board: Dr. Grimes reports that Spring Break begins March 31st. May will be a month of testing. Graduation is the first Saturday in June.

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for February 2025. Mr. Zody states that VDOT permits and building permits have been issued to RiverStreet for the equipment shelter on Cox Road. He attended the CaRMA meeting at Fort Gregg-Adams where he discussed hospitality opportunities near the bases with the Prince George Chamber of Commerce President. He continues to work on the LRA acreage outside the gates of Fort Barfoot. Mr. Zody would like to proceed with amendments to the Zoning Ordinance to remove duplexes from Agriculture and add government facilities to all zoning districts. A citizen contacted Mr. Zody about siting agreements on battery-storage facilities, and he would like to amend the ordinance to allow that. The Planning Commission discussed medium-scale solar facilities in light of Dominion's determination of the County's usage.

10 – Emergency Services: Emergency Services Coordinator's Report for February 2025. Fire & EMS Working Group Planning Meeting Agenda for March 3, 2025. EMS had training by Knox this past week. There was a fertilizer spill at the rail yard in February without hazard to citizens or the environment. Nottoway County voted to approve its own EMS protocols and is one of the first in the Commonwealth to do so. He met with Devin Foster regarding having Firefighter I classes in the High School. Kinder Morgan came for pipeline training last week.

11 – Piedmont Regional Jail Authority: Chairman Collins reports that capital projects begun after last year's security breach are nearly complete. There are approximately 197 federal inmates which helps with revenue.

12 – Local Redevelopment Authority: Lease Actions Income Report dated March 10, 2025. Officer's Club Income Report dated March 10, 2025. Administrator Bowen reports that the roof on an equipment shed had to be repaired. He is working towards a report showing the LRA revenues and expenses for the Board's review.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Michelle Graham reports on the progress of improvements in Dispatch. She has contacted a consulting firm who will build a training manual, a training notebook, and review Dispatch's leadership structure. The Sheriff's Office requested the money during the budget meeting but has since applied for 100% grant funding, no match required, for the consulting firm. They also requested a new Director position. With a current dispatcher position vacant, there is the possibility of using vacancy savings to help fund the Director position. The consulting firm's \$80,000 proposal is for a nine-month project.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package.

4 – Christy A. Hudson, Commissioner of the Revenue: No report provided.

5 – Leanne Watrous, Commonwealth's Attorney: Case reports provided in the package.

The Board considers the following unfinished business.

1e – Public Safety Radio Project: Mr. Hyde updates on a recent CTA meeting. The thirteen-member committee met with towers being the main topic of discussion. Jimmy Falwell has been working diligently with Southside Electric Cooperative regarding the overloading issue on the SEC tower.

1f – Committee Reports: Vice Chair Norton reminds everyone that Piedmont Senior Resources is hosting a free dental, vision, and medical clinic on March 29th and 30th at Cumberland High School.

2 – Emergency Medical Dispatch Software: Buddy Hyde and Michelle Graham applied for and were awarded a Virginia Office of EMS grant that will help fund the purchase of an Emergency Medical Dispatch system. Total Response uses the County's protocols, makes a recommendation on which company to use, and then scripts a logical progression of questions to ask the caller. They received quotes for two systems. This one allows for the questions to be customized and also includes EMS and law enforcement at no additional cost.

The total system cost is \$73,097. The grant requires the County pay in full and then receive a reimbursement of \$33,581. The County would be fully responsible for the annual maintenance cost of \$13,119.

Vice Chair Norton says the Finance Committee has discussed the need for a line item for grant match funding. Neither the Total Response system nor the dispatching consulting firm were in the FY25 budget. Discussion turns to where the money will come from until any potential grant funding is received. Chairman Collins notes that the money from the sale of timber was an unbudgeted revenue that could be used for these two unbudgeted expenses and proposes appropriating those proceeds with the anticipation of receiving the grant funds. Supervisor Ingram further develops that thought, suggesting the timber revenue be put into a specific fund for grant matches.

Supervisor Ingram motions to create a grant fund and use the money from the sale of timber as the first installment. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Administrator Bowen confirms with Ms. Douglass that the money from the sale of timber on LRA property can be transferred to the General Fund. Vice Chair Norton directs the

Administrator to ensure Mrs. Presley adds this to the Chart of Accounts. Supervisor Toth calculates the total expense of the dispatch consultant and Total Response at \$153,097. Chairman Collins states that the Board has voted to create the fund and the Administrator has the authority to direct funds to these two obligations. There is the possibility of receiving reimbursements for 100% of the consultant and approximately half the cost of Total Response.

Mr. Hyde suggests moving forward with the purchase of Total Response but would like to review the five quotes Ms. Graham received for the consultant. A consensus of the Board is to allow Ms. Graham to move forward with the consultant as presented.

The Board considers the following new business:

1 – Animal Shelter Contract: As Mr. Boswell reaches the podium, the Chairman has the members of CARES stand to be recognized for their six years of diligent work to Build a Better Shelter. Mr. Boswell thanks the Board, particularly Supervisor Ingram who attends the meetings and provides input, and then extends a special thanks to Administrator Bowen for working so well with CARES, admitting they would not be where they are without him.

Supervisor Ingram moves to approve the base bid of \$2,103,550 offered by Hurt & Sons, LLC, with the five alternates while continuing to work with CARES as a partner throughout this project and to direct the County Administrator to execute all documents necessary to finalize the contract pending legal review. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Mr. Boswell thanks the Board and then says CARES will be seeking ways to help cut some of the expenses.

The Board considers the following Consent Items.

1 – February Expenditures – All Funds

2 – Budget Adjustment – Animal Control Grant \$5,000.00

Vice Chair Norton requests a report be provided showing what percentage of the budget has been spent.

Supervisor Ingram moves to accept the Consent Items. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The following information items are presented in the package:

1 – CRC – February 2025 Items of Interest

2 – Crossroads Patient Report – January 2024

3 – Letter of Commendation – Deputy C. J. Felder and Sgt. Ty Moore

4 – Dominion Energy – (2) Orders/Notices (full documents available in Admin Office)

5 – Amelia County – New County Administrator

- 6 – VACo Letter – School Construction Funding Referendum
- 7 – Free Medical Clinic – RAM Event Cumberland, VA
- 8 – Opioid Abatement Authority Cooperative Grant Update – Logan Presley, Nottoway
- 9 – Lunenburg County Draft SWIA Report
- 10 – Nottoway High School Softball Fundraiser – Animal Shelter
- 11 – High Bridge Trail Extension – Delegate Ware
- 12 – DEQ Letter – Barndo Nutrient Bank

CARES wanted the Board to see the conceptual drawings by the shelter architect, and those have been provided tonight. Also provided is a portion of the December 2006 minutes referencing the 75/25 split of the Communications Tax to the landfill/E911. As this has been a topic of discussion for the Finance Committee, Administrator Bowen suggests a motion to put 100% of the Communications Tax in E911 starting July 1, 2025.

Vice Chair Norton moves to put 100% of the Communications Tax into E911. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Administrator Bowen reports that the Blackstone Chamber reached out to him requesting \$300 to cover the cost of the necessary permits for the upcoming fireworks show. It would need to be paid in FY25 and could come from the Board's discretionary fund. After some discussion, the Board decided to take no action on that request.

Administrator Bowen has provided a page from the Social Services Handbook and suggests someone fill Supervisor Roark's vacancy on the Social Services Board until he returns.

Chairman Collins mentions the recent budget meetings with Department heads, and the Board was approached with significant increases for emergency services. Burkeville is requesting \$200,000 as had previously been given to both Blackstone and Crewe for equipment. Nottoway Emergency Squad is struggling financially and has requested 316% more over last year. The Board is considering its options in providing EMS such as imposing a levy, having the EMTs be employees of the County, and possibly purchasing the squad's assets.

Supervisor Ingram expresses the need for the Board to have oversight if the taxpayers are to fund them, a 501(c)(3) non-profit with 90% paid staff. Supervisor Toth adds that the Board encouraged the squad to pursue hard billing and considers obtaining a deed of trust to secure the taxpayers' interests. Vice Chair Norton notes this is a statewide problem, and our mutual aid agencies are facing the same issues. Chairman Collins says under Virginia Code they could designate the entire County as a Fire and EMS zone and then designate a levy.

Chairman Collins encourages citizens to share their thoughts with their Supervisors and to donate to the emergency services. He would like to keep the volunteers and support the squads and fire departments.

Supervisor Ingram appreciates those departments that kept their budgets level funded.

Chairman Collins states one option is the tax levy and asks Mr. Hyde to present three other options. Option 1 has the County making payroll contributions with agencies managing themselves. Option 2 has the County as the employer, directing the employees which station to staff. Option 3 has the County as the employer managing all operations, owning the vehicles and

facilities. The bylaws should have a dissolution clause that would have the agency offer to the County first. Ms. Douglass says currently there is no dissolution clause in the NCES bylaws. She also notes that there is no information on how their Executive Committee or Board is selected and suggests a government official be involved. The bylaws would need to be amended, and there is no provision in the bylaws that deals with how they are supposed to be amended. Mr. Hyde adds that he has not seen Articles of Incorporation.

Vice Chair Norton says this has been a difficult couple of weeks since hearing the state of emergency services. Supervisor Ingram concurs and worries that there may be no one to respond to 911 calls soon. Supervisor Toth expresses concern about the state of emergency services, especially after a decent presentation at last year's budget meeting. He thought NCES should have established better billing practices to recover more revenue. To the Special Exception for the duplex, he wanted to hear from the public as it seemed unfair given there are other duplexes in the County being rented to non-farm workers.

Chairman Collins spoke with Supervisor Roark today and made him aware of the state of emergency services. Supervisor Roark noted that he had discussed the idea of funding EMS through a levy back in January. Chairman notes that the Supervisors work well together and are doing their best to solve this new, unexpected issue.

Supervisor Toth moves to adjourn. A second is provided by Supervisor Ingram. Chairman Collins adjourns the meeting at 10:04 p.m.

O. Closed Meeting

I move that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(3) Discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body, specifically property located near Fort Barfoot; and, § 2.2-3711 (A)(1) Discussion, consideration, or interviews of prospective candidates for employment; assignment, appointment, promotion, performance, demotion, salaries, disciplining, or resignation of specific public officers, appointees, or employees of any public body; specifically relating to personnel matters now pending in County Administration.

Motion to Adjourn

January 7, 2025

AT THE ORGANIZATIONAL MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE EMERGENCY OPERATIONS CENTER THEREOF, ON THURSDAY, THE 7TH DAY OF JANUARY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: RICHARD H. INGRAM, JR.
 JOHN A. ROARK
 DAPHNE V. NORTON
 GEORGE G. TOTH, III
 WILLIAM J. COLLINS, III
 STEVE W. BOWEN, COUNTY ADMINISTRATOR

Administrator Bowen called the meeting to order at 12:48 p.m.

Supervisor Toth provides the invocation. Administrator Bowen leads everyone in the Pledge of Allegiance to our flag.

Election of Chairman: Supervisor Roark moves to open the floor for nominations for Chairman. A second is provided by Supervisor Ingram. Following a voice vote, the motion to open nominations passes as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Supervisor Roark nominates Supervisor Collins to be Chairman. A second is provided by Supervisor Ingram. With no further nominations, Supervisor Roark moves to close nominations. A second is provided by Supervisor Norton. Following a voice vote, the motion to close nominations passes as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Following a voice vote, the motion to appoint Supervisor Collins as Chairman carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Election of Vice Chairman: Supervisor Roark moves to open the floor for nominations for Vice Chairman. Following a voice vote, the motion to open nominations passes as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Supervisor Toth moves to nominate Supervisor Norton for Vice Chairman. A second is provided by Supervisor Ingram. With no further nominations, Supervisor Roark moves to close nominations with a second provided by Supervisor Ingram. Following a voice vote, the motion to close carries as follows:

January 7, 2025

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Following a voice vote, the motion to elect Supervisor Norton as Vice Chairman carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Set Date, Time, Place of Monthly Meetings: Administrator Bowen notes the regular monthly meetings are typically the third Thursday at 7:00 p.m. in the General District Courtroom. A consensus is to keep the regular meetings on third Thursdays at 7:00 p.m. in the General District Courtroom.

Decision on Monthly/Quarterly Work Sessions: Worksessions were recently changed to second Thursdays at 7:00 p.m. A consensus is to keep this schedule. Worksessions will be held in the Emergency Operations Center unless otherwise noticed by the Chairman, in conjunction with the County Administrator.

Rules of Procedure/Code of Ethics: Administrator Bowen introduces the previously adopted Rules of Procedure and the new, recently provided Code of Ethics from Mr. Elder. Either can be amended. The Code will provide guidelines for Board members to hold each other accountable.

Supervisor Roark moves to adopt the Rules of Procedure for 2025 as presented. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Supervisor Toth moves to adopt the Code of Ethics and Conduct for 2025 as presented. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Appointments to Community Boards: Chairman Collins recommends each Supervisor remain in their current appointments as each now has one year's experience. He also suggests reviewing the Zoning & Subdivision Ordinances.

STEPS needs a replacement as there is a conflict with a county meeting, but a citizen can serve on that Board.

Vice Chair Norton would like to volunteer as an appointment to the Extension Leadership Council, led by Terry Abston.

Chairman Collins would like to have reports from these Community Boards added to the regular meeting Agenda.

January 7, 2025

Chairman Collins mentions a new committee for the Courthouse construction issue. Supervisor Ingram and Supervisor Toth would serve on it. Discussion follows on the courthouse location, hiring an architect, a scope of work for the RFP, and grant funding. Gary Elder is signing the court order, and either he or Catherine Douglass will attend a worksession to discuss setting a timeline.

The following committees were set for 2025:

Capital Improvement Committee/Courthouse Complex	Chairman Collins Supervisor Roark
Public Safety/Dispatch	Supervisor Roark Supervisor Toth
Public Safety Radio Communications Committee	Chairman Collins Supervisor Toth
Finance Committee	Vice Chair Norton Supervisor Ingram
Personnel Committee	Vice Chair Norton Supervisor Roark
Ordinance Committee	Chairman Collins Supervisor Roark
Courthouse Revitalization Committee	Supervisor Ingram Supervisor Toth

Gary Elder suggested there be several members for the Revitalization Committee. Administrator Bowen would like to ask Clerk of the Circuit Court Jane Brown and Sheriff Jones. The Board agrees with those suggestions.

To the Health Department moving, Administrator Bowen has an appointment with Dr. Almond to discuss a move. She has stated a move would depend on the effect on her budget.

LRA Campground: Administrator Bowen presents research showing the campground was in place prior to the adoption of the current Zoning Ordinance. According to the referenced Zoning Ordinance sections, a sale would allow the campground to both remain and be eligible for improvements. The attorney should be asked for confirmation on whether the campground could continue if the property is sold.

There are two properties up for sale that should be on the next agenda. As specific properties are considered, they can be discussed in Closed Meeting at worksessions or regular meetings. A public hearing would be held if anything is being sold.

Biannual Tax Payments: A citizen inquired as to why Nottoway does not have this in place. The topic was discussed previously, and citizens are able to voluntarily pay throughout the year. The Board considers hearing citizen input on this topic. The Finance Committee can further discuss this topic as well as pro-rating personal property tax on items owned or sold throughout the year.

School Surplus Property – Town of Crewe: Administrator Bowen informs the Board that there was an issue with the Tax Map number listed on the School's surplus resolution. A correction is needed prior to the transfer from the School to the County, so this property is not eligible for sale by the County at this time.

Also, vandals have created issues at 186 Reservation Road. This property needs to be cleaned up and then put back on the market.

Emergency Services: Buddy Hyde has met with the Sheriff regarding Dispatch. Mr. Hyde suggests creating a nine-person stakeholder committee to guide any needed changes.

January 7, 2025

Supervisor Toth received notice from his selection for STEPS and moves to accept Nathaniel Miller's willingness to serve on the STEPS Board for Nottoway County. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

R. H. Ingram	Yes
J. A. Roark	Yes
D. V. Norton	Yes
G. G. Toth	Yes
W. J. Collins	Yes

Supervisor Roark suggests citizens serving on a committee could draft a report for inclusion in the Board package.

Courthouse Committee: Administrator Bowen will alert Gary Elder of the Committee members. The next step is to put out an RFP for an architect.

VACo Local Government Day: Administrator Bowen asks for a list of those who plan to attend. He will be scheduling a meeting with Delegate Ware and Senator Mulchi. Topics to discuss with the representatives include locality's losing authority over solar siting and PRJ's VCBR-related costs.

Solar: Discussion on various concerns is on Thursday's worksession agenda, including setbacks, agrivoltaics, percentage cap, agreements with adjacent landowners, and others. Comprehensive Plan language already limits production to no more than that consumed. If agreement is reached, there would then be a public hearing held to amend the Ordinance.

Supervisor Ingram encourages the Board to continue its ongoing work. Supervisor Roark looks forward to another good year moving forward. Vice Chair Norton looks forward to the new year, moving more quickly, and appreciates the confidence placed in her for Vice Chair. Supervisor Toth looks forward to working with each member individually and collectively toward making the County a better place. Chairman Collins thanks the Board for its confidence in electing him Chairman.

Supervisor Roark moves to adjourn with a second provided by Supervisor Ingram. Chairman Collins adjourns the meeting at 2:10 p.m.

Chairman

Clerk

MEMORANDUM

TO: Planning Commission
and Board of Supervisors

FROM: Gregg Zody, Director *GZ*

DATE: March 11th, 2025

SUBJECT: Special Exception Request for Manufactured Home

BACKGROUND**Applicant/Property Owner**

Blanca Rosa Fuentes Melgar and Victor Herrera, 22 Juno Gaedeus Dr., North Palm Beach, FL 33408.

Request

Applicants seek to place a manufactured home on CCC Road (tax map # 18A50-1-36). The subject parcel is zoned Rural Residential and contains approximately 2.52 acres. It is located on the north side of CCC Road and lies approximately .70 miles west of the intersection of CCC Road and Colonial Trail Highway.

ANALYSIS**Zoning/Land Use Compatibility**

The site is zoned Rural Residential (RR), as are all adjacent properties adjacent to the site. Furthermore, all adjacent land uses are single-family detached residential units, a mix of stick-built and manufactured.

COMPREHENSIVE PLAN

The General Future Land Use Map identifies this area as Residential and states the following on page 93, under “Special Policy Areas, B. Loss of Agricultural Land and Open Space”:

[...]

The current zoning map in Section IV shows areas designated for residential, commercial, industrial, agricultural, and conservation uses in the County. A challenge for the County will be to accommodate future growth demands in a planned manner that provides for the conservation of important resources. The future land use map in Section IV denotes areas for future residential, commercial and industrial development that are either in areas where adequate public services (including water and sewer) exist or in close proximity to such services. Any development that does occur in the rural areas should be designed to incorporate significant open spaces and designed to minimize environmental impacts on the land and water resources.

Any future growth and development patterns must provide both requirements and incentives for the conservation of land. Nottoway County's zoning ordinances outline minimum lot sizes for different uses – and in some cases, minimum district sizes. For residential uses, the ordinances stipulate requirements for either the provision of private water and sewer or access to public or community water and sewer service. Environmental impacts of any newly planned development area should be considered. It is essential to maintain a balance between development and preservation objectives throughout the County. An educational and programmatic approach in conjunction with land conservation should be initiated to encourage property owners to limit development. Incentives can be offered for appropriate conservation and environmental design.

Sec. 5-5-2(8) SPECIAL EXCEPTION - ISSUES FOR CONSIDERATION

In considering a Special Exception Permit application, the following factors shall be given reasonable consideration. The applicant shall address all the following in its statement of justification or Special Exception Permit plat unless not applicable, in addition to any other standards imposed by this Ordinance: *Staff Responses are italicized.*

- 1) Whether the proposed Special Exception Permit is consistent with the Comprehensive Plan.

The Rural Residential future land use designation supports this request.

- 2) Whether the proposed Special Exception Permit will adequately provide for safety from fire hazards and have effective measures of fire control.

Yes. The home will be inspected to ensure it applies to building code and issued a certificate of occupancy. As with a recently approved special request near this request, the site is located with two miles of the Crewe Fire Department station and the Nottoway County Rescue Squad station.

- 3) The level and impact of any noise emanating from the site, including that generated by the proposed use, in relation to the uses in the immediate area.

No noise is anticipated from the home other than typical noises generated by a single-family home.

- 4) The glare or light that may be generated by the proposed use in relation to uses in the immediate area.

None anticipated.

- 5) The proposed location, lighting and type of signs in relation to the proposed use, uses in the area, and the sign requirements of this Ordinance.

The site will comport with setbacks for the Rural Residential zoning district. No signage is anticipated.

- 6) The compatibility of the proposed use with other existing or proposed uses in the neighborhood, and adjacent parcels.

This proposed use reflects the residential character of CCC Road, as all adjacent uses are residential, single-family detached units, comprised of a mix of stick-built and manufactured homes.

- 7) The location and area footprint with dimensions (all drawn to scale), nature and height of existing or proposed buildings, structures, walls, and fences on the site and in the neighborhood.

The request is for a manufactured home. No other structures are located on the property. The area footprint is unknown until building plans, etc. are submitted to the Building Official for review. Any site sketch or plans must comply with the development standards (i.e. setbacks, building height, etc) for the zoning district (Rural Residential).

- 8) The nature and extent of existing or proposed landscaping, screening and buffering on the site and in the neighborhood.

The site is wooded with site prep work (i.e. clearing).

- 9) The timing and phasing of the proposed development and the duration of the proposed use.

No phasing is proposed;

- 10) Whether the proposed Special Exception Permit will result in the preservation or destruction, loss or damage of any topographic or physical, natural, scenic, archaeological or historic feature of significant importance.

The proposed site is partially cleared to accommodate the home and area for septic and well. No known unique habitat nor historical features are present.

- 11) Whether the proposed Special Exception Permit at the specified location will contribute to or promote the welfare or convenience of the public.

This proposal would allow a single-wide manufactured home on a vacant lot. The threat to the welfare and convenience of the public in this case will be minimal.

- 12) The traffic expected to be generated by the proposed use, the adequacy of access roads, and the vehicular and pedestrian circulation elements (on and off-site) of the proposed use, all in relation to the public's interest in pedestrian and vehicular safety, efficient traffic movement and access in case of fire or catastrophe.\

This use will generate approximately 8-10 vehicle trips per day as a residential use.

- 13) Whether, in the case of existing structures proposed to be converted to uses requiring a Special Exception Permit, the structures meet all code requirements of Nottoway County.

N/A.

- 14) Whether the proposed Special Exception Permit will be served adequately by essential public facilities and services.

The site will be served by VDH-approved well and septic systems.

- 15) The effect of the proposed Special Exception Permit on groundwater supply.

No negative effects on the groundwater are anticipated for this use.

- 16) The effect of the proposed Special Exception Permit on the structural capacity of the soils.

No adverse effects on the structural capacity of the soils are expected.

- 17) Whether the proposed use will facilitate orderly and safe road development and transportation.

The Virginia Department of Transportation has reviewed this application and requires a private entrance off US 460.

- 18) The effect of the proposed Special Exception Permit on environmentally sensitive land or natural features, wildlife habitat and vegetation, water quality, and air quality.

Minimal effects. The site contains no wetlands or floodplains.

- 19) Whether the proposed Special Exception Permit use will provide desirable employment and enlarge the tax base by encouraging economic development activities consistent with the Comprehensive Plan.

The only revenue expected to be generated from this use will be property tax revenue.

- 20) Whether the proposed Special Exception Permit considers the needs of agriculture, industry, and businesses in future growth.

The site is zoned Rural Residential, which does not allow agricultural activity and very limited business/industrial uses either by right or through the special exception process.

- 21) The effect of the proposed Special Exception Permit use in enhancing affordable shelter opportunities for residents of the County.

This proposal provides enhanced affordable shelter opportunities if the applicant chooses to rent it.

- 22) The location, character, and size of any outdoor storage.

There does not appear to be outdoor storage at the site.

- 23) The proposed use of open space.

Use will more than likely remain open space as a residential yard.

- 24) The location of any major floodplain and steep slopes.

None.

- 25) The location and use of any existing nonconforming uses and structures.

N/A.

- 26) The location and type of any fuel and fuel storage.

None identified by the applicant.

- 27) The location and use of any anticipated accessory uses and structures.

None identified by the applicant.

- 28) The area of each use, if appropriate.

N/A.

- 29) The proposed days/hours of operation.

N/A.

- 30) The location and screening of parking and loading spaces and/or areas.

N/A.

- 31) The location and nature of any proposed security features and provisions.

N/A.

- 32) The number of employees.

N/A.

- 33) The location of any existing and/or proposed adequate on- and off-site infrastructure.

On-site infrastructure would be electrical service, broadband (if available), a well, and a septic system.

- 34) Any anticipated odors which may be generated by the uses on-site.

No odors anticipated.

- 35) Whether the proposed Special Exception Permit uses sufficient measure to mitigate the impact of construction traffic on existing neighborhoods and school areas.

The site is located approximately .70 of a mile from US460 so that all construction traffic will ingress and egress from US460.

- 36) Refuse and service areas, with particular reference to the items in (1) and (2) of this subsection.

N/A.

- 37) Utilities, with reference to location, availability, and compatibility.

Electrical power (Southside) will be provided to the site.

AGENCY COMMENTS

From VDOT (3/10/25):

The Virginia Department of Transportation, Southern Region Land Development Office has reviewed the special exception application dated 11-18-24 received at the Petersburg Residency

on 3-6-25 and is providing the following comments for the County's use:

1. Route 1006 CCC Road has a functional classification of local road, a statutory speed limit of 55 MPH and an average daily traffic (ADT) of 240 vehicles per day.
2. The proposed use will require a private entrance. VDOT has issued an entrance permit for this location, and the entrance has been constructed to VDOT standards.
3. VDOT has no objection to the submitted special exception application.

STAFF RECOMMENDATION

Staff recommends approval of the special exception request subject to the following conditions

RECOMMENDED STAFF CONDITIONS

1. This special exception is granted for a single-wide manufactured home.
2. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.
3. Well and Septic Permits must be issued by the Virginia Department of Health prior to the occupancy of the home (i.e. Occupancy Permit).
4. Applicant shall use the approved private entrance as constructed.

MEMORANDUM

TO: Planning Commission
and Board of Supervisors

FROM: Gregg Zody, Director **GZ**

DATE: March 11th, 2025

SUBJECT: Special Exception Amendment Request

EXECUTIVE SUMMARY UPDATE

At their rescheduled February 27th [public hearing] meeting, the Board of Supervisors tabled the matter regarding the applicant's request to amend Condition #1 of the Board's July 20th, 2023 approval of a duplex for farm workers at Cross Creek Nursery. The Planning Commission had recommended denial with a vote of 5-0-1 at their public hearing on February 18th, 2025.

Upon tabling the initial amendment request with a vote of 4-0, the Board directed staff to advertise for a new public hearing that the amended language regarding condition #1 be changed to allow farm workers within the County to lease one of the duplex's units. The proposed language would read as follows:

Condition #1: "This special exception for a duplex is granted only for agricultural or farm workers/employees within the County."

BACKGROUND OF INITIAL AMENDMENT REQUEST HEARD ON FEBRUARY 18TH BY THE PC AND ON FEBRUARY 27TH BY THE BOARD ON 28th.

The applicant/owner is Tropical Treehouse Company (DBA Cross Creek Nursery), 501 Courthouse Road, North Chesterfield, Virginia, 23236.

The approximate location of the site is the west side of Green Hill Road, approximately .77 miles north of the intersection of Lee Lake Road. The property owner, Cross Creek Nursery, 2551 Green Hill Road, requests a special exception amendment to remove conditions #1 and #5 from their letter of approval (Exhibit 1) to allow the duplex owners to rent to non-nursery workers.

The applicant stated in their application (Exhibit 3) that the reasons for removing the conditions are market conditions and technological innovations that do not require both dwelling units to be limited to housing farm workers.

ZONING/LAND USE COMPATIBILITY

Tax Map #22-75 is zoned A-1 and contains 82.43 acres. All adjacent property is zoned A-1 (Exhibit 2). Surrounded land uses are a mix of single-family homes and farmland. The primary

use of this site is horticultural, and the Board approved the duplex of Supervisors to be a subordinate use in conjunction with the nursery.

The proposal should not inhibit the main features of the district, i.e. agricultural activities and silviculture, and the parcel (82.43 acres) with horticulture as its primary use, is adjacent to other residential uses. Furthermore, a duplex rented to the public as opposed to restricting tenancy nursery workers should not add significantly more traffic on the nearby roadways, nor create noise, dust, and lighting nuisances.

Furthermore, it is the staff's opinion that an amended Special Exception condition request based on tenancy conforms with the existing land use development patterns, which are predominately residential and agricultural activity.

COMPREHENSIVE PLAN

While the Comprehensive Plan does not have a future land use designated specifically for Agriculture at this time, the Housing element adequately addresses the need for diverse housing:

HOUSING

As population in Nottoway County grows, so does the demand for available and affordable housing stock. This growth will also put demands on land use and where housing stock will be located.

GOAL: TO PROMOTE A RANGE OF SAFE, AFFORDABLE HOUSING FOR ALL NOTTOWAY COUNTY RESIDENTS

STRATEGIES:

- Encourage housing in areas that will not negatively impact the county's natural resources [...] or all County residents.

Sec. 5-5-2(8) SPECIAL EXCEPTION - ISSUES FOR CONSIDERATION

In considering a Special Exception Permit application, the following factors shall be given reasonable consideration. The applicant shall address all the following in its statement of justification or Special Exception Permit plat unless not applicable, in addition to any other standards imposed by this Ordinance: *Staff Responses are italicized.*

- 1) Whether the proposed Special Exception Permit is consistent with the Comprehensive Plan.

The original request was consistent with the future land use designation of Agricultural in that the site is 82.43 acres, and the principal use is horticulture on tax map #22-75 (84.23 acres). If this particular use were on a vacant parcel that met the zoning ordinance requirements, secured well/septic permits, and met VDOT requirements, staff would still support the request.

- 2) Whether the proposed Special Exception Permit will adequately provide for safety from fire hazards and have effective measures of fire control.

The house was issued a Certificate of Occupancy on January 13, 2025.

- 3) The level and impact of any noise emanating from the site, including that generated by the proposed use, in relation to the uses in the immediate area.

Minimal, as the structure, a duplex, is subject to the County's Noise Ordinance.

- 4) The glare or light that may be generated by the proposed use in relation to uses in the immediate area.

Any proposed lighting would need to be directed downward and shielded.

- 5) The proposed location, lighting and type of signs in relation to the proposed use, uses in the area, and the sign requirements of this Ordinance.

No signage is proposed.

- 6) The compatibility of the proposed use with other existing or proposed uses in the neighborhood, and adjacent parcels.

Adjacent uses include residential and agricultural.

- 7) The location and area footprint with dimensions (all drawn to scale), nature and height of existing or proposed buildings, structures, walls, and fences on the site and in the neighborhood.

The duplex is approximately 1,400 square feet, as stated in the original application.

- 8) The nature and extent of existing or proposed landscaping, screening, and buffering on the site and in the neighborhood.

Adequate existing screening on the north and south ends of the parcel.

- 9) The timing and phasing of the proposed development and the duration of the proposed use.

No additional phasing is proposed as the duplex is already built.

- 10) Whether the proposed Special Exception Permit will result in the preservation or destruction, loss or damage of any topographic or physical, natural, scenic, archaeological or historic feature of significant importance.

None of these conditions are reported as present.

- 11) Whether the proposed Special Exception Permit at the specified location will contribute to or promote the welfare or convenience of the public.

The request to offer rental opportunities at this site would promote the welfare of the public by offering rental opportunities for potential tenants in a tight housing market.

- 12) The traffic expected to be generated by the proposed use, the adequacy of access roads and the vehicular and pedestrian circulation elements (on and off-site) of the proposed use, all in relation to the public's interest in pedestrian and vehicular safety, efficient traffic movement and access in case of fire or catastrophe.

The only traffic generated by the use would be by the tenants and deliveries from the Post Office, Fed Ex, etc. The average vehicle trips per day for a dwelling unit is 8-10.

- 13) Whether, in the case of existing structures proposed to be converted to uses requiring a Special Exception Permit, the structures meet all code requirements of Nottoway County.

N/A.

- 14) Whether the proposed Special Exception Permit will be served adequately by essential public facilities and services.

The site is served by a private well and septic system.

- 15) The effect of the proposed Special Exception Permit on groundwater supply.

Any household sewage discharge will be contained in a permitted septic system. Ideally, this prevents any potential impacts on the groundwater supply.

- 16) The effect of the proposed Special Exception Permit on the structural capacity of the soils.

It is unlikely the proposed use will significantly impact the structural capacity of the soils.

- 17) Whether the proposed use will facilitate orderly and safe road development and transportation.

The use is a duplex. Its impact on the driveway and Green Hill Road is expected to be minimal. VDOT had no issues with this request.

- 18) The effect of the proposed Special Exception Permit on environmentally sensitive land or natural features, wildlife habitat and vegetation, water quality and air quality.

The site is not located in a floodplain, nor a known environmentally sensitive site.

- 19) Whether the proposed Special Exception Permit use will provide desirable employment and enlarge the tax base by encouraging economic development activities consistent with the Comprehensive Plan.

It is a residential use, and will generate property tax revenue.

- 20) Whether the proposed Special Exception Permit considers the needs of agriculture, industry, and businesses in future growth.

The site is zoned Agricultural (A-1), and as such, industry and business (in general) are not by-right permitted uses, and currently, the principal use is a production nursery without the retail component.

- 21) The effect of the proposed Special Exception Permit use in enhancing affordable shelter opportunities for residents of the County.

The proposal would enhance affordable shelter opportunities for County residents in a locality with affordable housing needs.

- 22) The location, character, and size of any outdoor storage.

N/A.

- 23) The proposed use of open space.

To maintain the existing open space surrounding the duplex.

- 24) The location of any major floodplain and steep slopes.

None.

- 25) The location and use of any existing nonconforming uses and structures.

None.

- 26) The location and type of any fuel and fuel storage.

None.

- 27) The location and use of any anticipated accessory uses and structures.

None identified as of this writing.

- 28) The area of each use; if appropriate.

Duplex is approximately 1,400 square feet plus any area for well and septic systems.

- 29) The proposed days/hours of operation.

N/A – It is a residential use.

- 30) The location and screening of parking and loading spaces and/or areas.

Presumably adjacent to the residence. No screening nor loading spaces/areas are required.

- 31) The location and nature of any proposed security features and provisions.

N/A.

- 32) The number of employees.

Staff believes only one-half of the duplex is occupied by an employee at this time.

- 33) The location of any existing and/or proposed adequate on- and off-site infrastructure.

Aside from septic and water, none.

- 34) Any anticipated odors which may be generated by the uses on-site.

N/A.

- 35) Whether the proposed Special Exception Permit uses sufficient measures to mitigate the impact of construction traffic on existing neighborhoods and school areas.

The duplex is already constructed; therefore no additional construction equipment traffic is anticipated at this site.

- 36) Refuse and service areas, with particular reference to the items in (1) and (2) of this subsection.

N/A.

- 37) Utilities, with reference to location, availability and compatibility.

Electric, septic, and well will be utilized. Staff will not know the connection location to the power source until building plans are submitted.

AGENCY COMMENTS (FROM FEBRUARY 2025 PUBLIC HEARINGS)

From VDOT

1. Route 609 Green Hill Road has a functional classification of local road, a statutory speed limit of 55 MPH for cars and 45 MPH for trucks and an average daily traffic (ADT) of 300 vehicles per day.
2. The proposed use will require a private entrance.
3. VDOT has no objection to the submitted special exception application.

STAFF RECOMMENDATION

Staff supports this amendment as it addresses the applicant's vacancy issues with the current condition facing filling the existing vacancy for one unit of the duplex and Cross Creek Nursery's on-site technology improvements. This amendment, as presented, provides a housing opportunity to farm workers/employees who work and live in Nottoway County.

STAFF RECOMMENDATION (FROM INITIAL AMENDMENT REQUEST)

~~Staff recommends approval of the amended special exception request based on the applicant's stated reasons, namely market conditions and technological improvements implemented at the nursery that create the need for renting out the two units for the general public.~~

~~It is the staff's contention that a special exception approval runs with the property, and if the Board of Supervisors were so compelled, staff would note that a special exception application for the duplex be reintroduced and go through the public hearing process on a newly created 5-acre lot. Hence, the duplex becomes a primary use with a unique property tax map number instead of its current status as a subordinate use to the nursery.~~

RECOMMENDED STAFF CONDITION

1. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff or the Planning Commission.

Mr. McAuliffe,

This letter serves as notice that your Special Exception for a duplex was approved by the Board of Supervisors at their July 20th, 2023 public hearing with conditions recommended by Staff and the Planning Commission at their July 18th, 2023 public hearing, which they unanimously recommended approval.

Here are the conditions:

1. This special exception is granted for a duplex for employees located on tax map #22-75.
2. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission and/or Board of Supervisors.
3. Must have septic and well permits issued by the Health Department prior to occupancy.
4. Must apply for and receive a certificate of occupancy from the Nottoway County Building Official.
5. On the annual anniversary date of the granting of this special exception request, the owner shall certify to the Planning Director that occupants of the duplex of the past year have employed by the owner.

Prior to the issuance of the Certificate of Occupancy, staff will also need a copy of the septic and well permits from the Health Department before this case is considered complete.

Don't hesitate to reach out if you have questions or concerns. You can reach me at 434-645-8696 or gzody@nottoway.org.

Regards,

Gregg Zody, AICP
Planning and Economic Development Director

I. INTRODUCTION

The Public-Private Education Facilities and Infrastructure Act of 2002, (Va. Code § 56-575 et seq.) (the “PPEA” or the “Act”) grants the County of Nottoway (the “County”), a responsible public entity as defined by the Act, the authority to create public-private partnerships for the development of a wide range of projects for public use if the County determines there is a need for the project and that private involvement may provide the project to the public in a timely or cost-effective manner. The guidelines and procedures presented in this document were developed pursuant to the requirements of Sections 56-575.1 through 56-575.17 of the Code of Virginia. These guidelines are to be followed by all departments, agencies, and institutions of the County of Nottoway (all sometimes referred to herein as “County” or the “Authority”) in considering and developing projects under the Act. The guidelines and procedures will also guide private entities who wish to partner with the County in undertaking projects pursuant to the Act.

Section 56-575.16 requires, in part: “When the responsible public entity determines to proceed according to the guidelines adopted by it pursuant to this subdivision, it shall state the reasons for its determination in writing.” For a project to come under the PPEA, it must meet the definition of a “qualifying project.” The Act contains a broad definition of “qualifying project,” which includes the following:

- A. An education facility, including, but not limited to, a school building, any functionally-related and subordinate facility . . . , land appurtenant to a school building, and any depreciable property provided for use in a school facility that is operated as part of the public school system or as an institution of higher education;
- B. A building or facility that meets a public purpose and is developed or operated by or for any public entity;
- C. Improvements, together with equipment, necessary to enhance public safety and security of buildings to be principally used by a public entity;
- D. Utility and telecommunications and other communications infrastructure;
- E. A recreational facility;
- F. Technology infrastructure, services, and applications, including, but not limited to: telecommunications, automated data processing, word processing and management information systems, and related information, equipment, goods, and services;
- G. Any services dedicated to increase productivity or efficiency through the director or indirect use of technology;
- H. Any technology, equipment, or infrastructure designed to deploy wireless broadband services to schools, businesses, or residential areas;
- I. Any improvements necessary or desirable to any unimproved locally or state-owned real estate.

Because the PPEA is intended to encourage innovative partnerships between responsible public entities and private entities, the County is encouraged to maintain an open dialogue with private entities to discuss the need for infrastructure improvements. These guidelines are intended to supplement and enable the County to comply with the PPEA's requirements. In the event that the PPEA is amended in a manner that either conflict with these guidelines or concerns material matters not addressed by the guidelines, then these guidelines shall be interpreted in a manner to conform to the new law.

II. GENERAL PROVISIONS

A. Guidelines for Proposal Submission

PPEA proposals may either be solicited (i.e., initiated by issuance of a solicitation by the County) or unsolicited (i.e., initiated by a potential private partner in response to a need expressed by the County).

Proposals should be prepared simply and economically, providing a concise description of the proposer's capabilities to complete the proposed qualifying project and the benefits to be derived from the project by the County. Project benefits to be considered are those occurring during the construction, renovation, expansion, or improvement phase and during the life cycle of the project. Proposals should include a scope of work and a financial plan for the project, containing enough detail to allow an analysis by the County of the financial feasibility of the proposed project. The County may, at any time, require the proposer to provide additional information or clarifications on any submission. The cost analysis of a proposal should not be linked solely to the financing plan, as the County may determine to finance the project through other available means.

B. Affected Jurisdictions

Any private entity requesting approval from or submitting a conceptual or detailed proposal to the County must provide any other affected jurisdiction with a copy of the private entity's request or proposal by certified mail, express delivery, or hand delivery within five (5) business days of submission to the County.

Affected jurisdictions shall have sixty (60) days from the receipt of the request or proposal to submit written comments to the County and to indicate whether the proposed qualifying project is compatible with the (i) local comprehensive plan, (ii) local infrastructure development plans, or (iii) capital improvements budget or other government spending plan. Comments received with the sixty (60) day period shall be given consideration by the County, and no negative inference shall be drawn from the absence of comment by an affected jurisdiction.

C. Proposal Review Fee

The County shall receive an analysis of the proposal from appropriate internal staff or outside advisors or consultants with relevant experience in determining whether to enter into an agreement with the private entity. The County may charge a fee to the private entity to cover the

costs of processing, reviewing, and evaluating any unsolicited proposal or competing unsolicited proposal submitted under the PPEA, including a fee to cover the costs of outside attorneys, consultants, and financial advisors. Any fee charged for such review should be reasonable in comparison to the level of expertise required to review the proposal and should not be greater than the direct costs associated with evaluating the proposed qualifying project. For the purpose of this section, "direct costs" may include the following: (i) the cost of staff time required to process, evaluate, review, and respond to the proposal; and (ii) the out-of-pocket costs of attorneys, consultants, and financial advisors.

For unsolicited proposals and competing proposals, the County shall charge a fee on one-half of one percent (0.5%) of the estimated cost of implementing the proposal. The minimum fee shall be \$5,000.00 and the maximum fee shall be \$50,000.00. For purposes of initial processing of the proposal, the County may accept the \$5,000 minimum fee with the balance to be due and payable prior to proceeding beyond the initial review stage. Such sums shall be paid with certified funds and shall be deposited with the County Treasurer on the books of the County in an account known as the PPEA Fees.

The proposal fee is intended to cover the entirety of the initial review process. If the cost of reviewing the proposal exceeds the proposal fee, the Authority may assess the proposer the additional costs deemed necessary to evaluate the proposal. By its submission of an unsolicited proposal, the proposer agrees to being assessed and to paying such additional reasonable costs.

If the cost of reviewing the proposal is less than the established proposal fee, the County may refund the excess to the proposer. If, during the initial review, the County decides not to proceed to conceptual-stage review of an unsolicited proposal, the proposal fee, less any direct costs of the initial review shall be refunded to the private entity. If the County chooses to proceed with evaluation of proposal(s) under the PPEA, it shall not do so until the entire, non-refundable proposal fee has been paid to the County Treasurer, in full.

D. Freedom of Information Act

Proposal documents submitted by private entities are generally subject to the Virginia Freedom of Information Act ("FOIA") except that Section 2.2-3705.6 (11) exempts certain documents from public disclosure. FOIA exemptions, however, are discretionary, and the County may elect to release some or all documents, except to the extent the documents are:

1. Trade secrets of the private entity as defined in the Uniform Trade Secrets Act (§ 59.1-336 et seq.);
2. Financial records of the private entity that are not generally available to the public through regulatory disclosure or otherwise, including but not limited to, balance sheets and financial statement; or

3. Other information submitted by a private entity, where if the record or document were made public prior to the execution of an interim or comprehensive agreement the financial interest or bargaining position of the public or private entity would be adversely affected.

Subsection 56-575.4(G) of the PPEA imposes an obligation on the Authority and any affected local jurisdiction to protect confidential proprietary information submitted by a private entity or operator. When the private entity requests that the Authority not disclose information, the private entity must (i) invoke the exclusion when the data or materials are submitted to the Authority or before such submission, (ii) identify the data and material for which protection from disclosure is sought, and (iii) state why the exclusion from disclosure is necessary. A private entity may request and receive a determination from the Authority as to the anticipated scope of protection prior to submitting the proposal. The Authority is authorized and obligated to protect only confidential proprietary information and, thus, will not protect any portion of a proposal from disclosure if the entire proposal has been designated confidential by the proposer without reasonably differentiating between the proprietary and non-proprietary information contained therein.

Upon receipt of a request that designated portions of a proposal be protected from disclosure as confidential and proprietary, the Authority shall determine whether such protection is appropriate under applicable law and, if appropriate, the scope of such protection and shall communicate its determination with the proposer. If the determination regarding protection or the scope thereof differs from the proposer's request, then the Authority should accord the proposer a reasonable opportunity to clarify and justify its request. Upon a final determination by the Authority to accord less protection than requested by the proposer, the proposer should be accorded an opportunity to withdraw its proposal. A withdrawn proposal should be treated in the same manner as a proposal not accepted for publication and conceptual-phase consideration, except that the Authority may reimburse itself for actual costs incurred.

Once a comprehensive agreement has been entered into, and the process of bargaining of all phases or aspects of the comprehensive agreement is complete, the County shall make available, upon request, procurement records in accordance with the applicable provision of FOIA.

E. Use of Public Funds

Virginia constitutional and statutory requirements as they apply to appropriation and expenditure of public funds apply to any interim or comprehensive agreement entered into under the PPEA. Accordingly, the processes and procedural requirements associated with the expenditure or obligation of public funds shall be incorporated into planning for any PPEA project.

F. Applicability of Other Laws

Nothing in the PPEA shall affect the duty of the County to comply with all other applicable law not in conflict with the PPEA. The applicability of the Virginia Public Procurement Act is as set forth in the PPEA.

G. Individual Responsible to Receive Proposals and Respond to Inquiries

The individual assigned to the responsibility of receiving proposals under the PPEA and also to respond to inquiries as well as to hold informational meetings, and to ensure the fair treatment of all who submit proposal shall be: [FILL IN – may want to make it the County Administrator]

III. SOLICITED PROPOSALS

The County may issue Requests for Proposals (RFPs) or Invitations for Bids (IFBs), inviting proposals from private entities to develop or operate qualifying projects. The County may not issue a RFP until it has adopted guidelines to govern the PPEA documentation, review, and selection process. The County may use a two-part proposal process consisting of an initial conceptual phase and a detailed phase. An RFP may invite proposers to submit proposals on individual projects identified by the County. In such a case, the County should set forth in the RFP the form and supporting information that is required to be submitted, consistent with the provisions of the PPEA. The County may establish suggested timelines for selecting proposals for the review and selection of solicited proposals.

The RFP should specify, but not necessarily be limited to, information and documents that must accompany each proposal and the factors that will be used in evaluation the submitted proposals. The RFP should be posted in such public areas as are normally used for posting of the County's notices, including the County's website. Notices should also be published in a newspaper or other publications of general circulation and posted in the Virginia Business Opportunities publication and on the Commonwealth's electronic procurement website. The RFP will contain and incorporate by reference other applicable terms and conditions, including any unique capabilities or qualifications that will be required of the private entities submitting proposals. Pre-proposal conferences will be held as deemed appropriate by the Authority.

IV. UNSOLICITED PROPOSALS

The PPEA permits the County to receive and evaluate unsolicited proposals from private entities to acquire, design, construct, improve, renovate, expand, equip, maintain, finance, or operate a qualifying project. The County's general policy is to reserve acceptance of unsolicited proposals for cases of truly innovating ideas, because, in other cases, traditional procurement processes are generally viewed as more likely to achieve full and open competition from the bidding community. Additionally, the County discourages unsolicited proposals for capital projects when the County has already paid for designs of the qualifying project because such a proposal will duplicate work. Thus, the County will likely reject an unsolicited proposal that lacks truly innovate ideas or are for a project wherein the design is substantially underway or completed.

The County may publicize their needs and encourage interested parties to submit unsolicited proposals subject to the terms and conditions of the PPEA. When such proposals are received without issuance of an RFP, the proposal shall be treated as an unsolicited proposal under the Act. Unsolicited proposals should be submitted to the County Administrator, and the delivery should be confirmed for the submitted by written receipt.

A. Decision to Accept and Consider Unsolicited Proposal; Notice

The County reserves the right to reject any and all proposals at any time. Upon receipt of any unsolicited proposal, a group of proposals, and payment of the required fee by the proposer or proposers, the County should determine whether to accept the unsolicited proposal for publication and conceptual stage consideration. If the County determines not to accept the proposal, it shall return the proposal, together with all fees and accompanying documentation, to the proposer.

If the County chooses to accept an unsolicited proposal for publication and conceptual-phase consideration, it shall post a notice in a public area regularly used by the County for posting public notices for a period of not less than forty-five (45) days. The County shall also publish the same notice for a period of not less than forty-five (45) days in one or more newspapers or periodicals of general circulation in the jurisdiction to notify any parties that may be interested in submitting competing unsolicited proposals. In addition, the notice will also be advertised on the Commonwealth's electronic procurement website. The notice shall state that the Authority (i) has received and accepted an unsolicited proposal under the PPEA, (ii) intends to evaluate the proposal, (iii) may negotiate an interim or comprehensive agreement with the proposer, and (iv) will accept and consider any competing proposals that comply with the procedures adopted by the Authority and the PPEA. The notice shall also summarize the proposed qualifying project(s) and identify their proposed locations. Copies of unsolicited proposals shall be available upon request, subject to the provisions of FOIA and § 56-575.4 (G) of the PPEA. The Authority's PPEA office is encouraged to answer questions from private entities that are contemplating submission of a competing unsolicited proposal.

B. Initial Review by the Authority at the Conceptual Stage

Only proposals complying with the requirements of the PPEA that contain sufficient information for a meaningful evaluation will be considered by the Authority for further review at the conceptual stage. The Authority will determine at this initial stage of review whether it will proceed using the following:

1. The standard procurement procedures consistent with the Virginia Public Procurement Act ("VPPA");
2. Guidelines developed by the Authority that are consistent with "competitive negotiation" as the term is defined in § 2.2-4301 of the Code of Virginia. The Authority may proceed using such guidelines only if it makes a written determination that doing so is likely to be advantageous to the Authority and the

public based upon (i) the probable scope, complexity, or priority of need; (ii) the risk sharing including guaranteed cost or completion guarantees, added value or debt or equity investments proposed by the private entity; or (iii) increase in funding, dedicated revenue or other economic benefit that would otherwise not be available.

After reviewing the original proposal and any competing proposals submitted during the notice period, the Authority may determine (i) not to proceed with any proposal; (ii) to proceed to the detailed phase of review with the original proposal; (iii) to proceed to the detailed phase with a competing proposal; or, (iv) to proceed to the detailed phase with multiple proposals.

In the event that more than one proposal will be considered in the detailed phase of review, the Authority will consider whether the unsuccessful proposer should be reimbursed for costs incurred in the detailed phase of review, and such reasonable costs may be assessed to the successful proposer in the comprehensive agreement.

Discussion between the Authority and private entities about the need for infrastructure improvements shall not limit the ability of the Authority to later determine to use standard procurement procedures to meet its infrastructure needs. The Authority retains the right to reject any proposal at any time prior to the execution of an interim or comprehensive agreement.

V. PROPOSAL PREPARATION AND SUBMISSION

A. Conceptual Stage

The Authority requires that proposals at the conceptual stage contain information in the following areas: (i) qualification and experience, (ii) project characteristics, (iii) project financing, (iv) anticipated public support or opposition, or both, (v) project benefit and compatibility, and (vi) any additional information as the Authority may reasonably request to comply with the requirements of the PPEA. Suggestions for information to be included in the proposals at this stage include the items listed below.

1. Qualification and Experience.

a. Identity the legal structure of the firm or consortium of firms making the proposal. Identify the organization structure for the project, the management approach, and how each partner and major subcontractor in the structure fits into the overall team.

b. Describe the experience of the firm or consortium of firms making the proposal and key principals involved in the proposed project including experience with projects of comparable size and complexity. Describe the length of time in business, business experience, public sector experience, and other engagements of the firm or firms. Include the identity of any firms

that will provide design, construction, and completion guarantees and warranties, and a description of such guarantees and warranties.

c. Provide the names, addresses, and telephone numbers of persons within the firm or consortium of firms who may be contacted for further information.

d. Provide a current or most recently audited financial statement of the firm or firms and each partner with an equity interest of twenty percent (20%) or greater.

e. Identify any persons known to the proposer who would be obligated to disqualify themselves from participation in any transaction arising from or in connection to the project pursuant to the Virginia State and Local Government Conflict of Interests Act, Chapter 31 (§§ 2.2-3100 et seq.) of Title 2.2

2. Project Characteristics

a. Provide a description of the project, including the conceptual design. Describe the proposed project in sufficient detail so that type and intent of the project, the location, and the communities that may be affected are clearly identified.

b. Identify and fully describe any work to be performed by the Authority.

c. Include a list of all federal, state, and local permits and approvals required for the project and a schedule for obtaining such permits and approvals.

d. Identify any anticipated adverse social, economic, and environmental impacts of the project. Specify the strategies or actions to mitigate known impacts of the project.

e. Identify the projected positive social, economic, and environmental impacts of the project.

f. Identify the proposed schedule for the work on the project, including the estimated time for completion.

- g. Propose allocation of risk and liability for work completed beyond the agreement's completion date and provide assurances for timely completion of the project.
- h. State assumptions related to ownership, legal liability, law enforcement, and operation of the project and existence of any restrictions on the Authority's use of the project.
- i. Provide information relative to phased or partial openings of the proposed project prior to completion of the entire work.
- j. List any other assumptions relied on for the project to be successful.
- k. List any contingencies that must occur for the project to be successful.

3. Project Financing

- a. Provide a preliminary estimate and estimating methodology of the cost of the work by phase, segment, or both.
- b. Submit a plan for development, financing, and operation of the project showing the anticipated schedule on which funds will be required. Describe the anticipated costs of and proposed sources and uses for such funds including any anticipated debt service costs. The operational plan should include appropriate staffing levels and associated costs. Include supporting due diligence studies, analyses, or reports,
- c. Include a list and discussion of assumptions underlying all major elements of the plan. Assumptions should include all significant fees associated with financing given the recommended financing approach. In addition, complete disclosure of interest rate assumptions should be included. Any ongoing operational fees, if applicable, should also be disclosed as well as any assumptions with regard to increases in such fees.
- d. Identify the proposed risk factors and methods for dealing with these factors.

- e. Identify any local, state, or federal resources that the proposer contemplates requesting for the project. Describe the total commitment, if any, expected from governmental sources and the timing of any anticipated commitment. Such disclosure should include any direct or indirect guarantees or pledges of the Authority's credit or revenue.
- f. Identify the amounts and the terms and conditions for any revenue sources.
- g. Identify any aspect of the project that could disqualify the project from obtaining tax exempt financing.

4. Operation and Maintenance

If the proposal includes ongoing maintenance and operation by the private partner, provide a description of tasks the private partner may undertake. If the proposal includes ongoing maintenance and operation by the private partner, provide a description of major overhauls and life-cycle cost factors.

5. Project Benefit and Compatibility.

- a. Identify who will benefit from the project, how they will benefit, and how the project will benefit the overall community, region, or state.
- b. Identify any anticipated public support or opposition, as well as any anticipated government support or opposition, for the project.
- c. Explain the strategy and plans that will be carried out to involve and inform the general public, business community, and governmental agencies in areas affected by the project.
- d. Describe the anticipated significant benefits to the community, region, or state, including anticipated benefits to the economic condition of the Authority and whether the project is critical to attracting or maintaining competitive industries and business to the Authority or the surrounding region.
- e. Describe compatibility with the local comprehensive plan, local infrastructure development plans, the capital improvement budget, or other government spending plan.

- f. Provide a statement setting forth participation efforts that are intended to be under-taken in connection with this project with regard to the following types of businesses: (i) minority owned businesses, (ii) woman-owned business, and (iii) small businesses.

B. Detailed Stage

If the County decides to proceed to the detailed phase of review with one or more proposals, the following information should be provided by the private entity unless waived by the Authority:

1. A topographical map (1:2,000 or other appropriate scale) depicting the location of the proposed project;
2. A list of public utility facilities, if any, that will be crossed by the qualifying project and a statement of the plans of the proposer to accommodate such crossings;
3. A statement and strategy setting out the plans for securing all necessary property;
4. A detailed listing of all firms that will provide specific design, construction, and completion guarantees and warranties and a brief description of such guarantees and warranties;
5. A total life-cycle cost specifying methodology and assumptions of the project or projects and the proposed project start date. Include anticipated commitment of all parties; equity, debt, and other financing mechanisms; and a schedule of project revenues and project costs. The life-cycle cost analysis should include, but not be limited to, a detailed analysis of the projected return, rate of return, or both, expected useful life of facility and estimated annual operating expenses.
6. A detailed discussion of assumptions about user fees or rates, and usage of the projects.
7. Identification of any known government support or opposition, or general public support or opposition for the project. Government or public support should be demonstrated through resolution of official bodies, minutes of meetings, letter, or other official communications.
8. Demonstration of consistency with appropriate local comprehensive or infrastructure development plans or indication of the steps required for acceptance into such plans.

9. Explanation of how the proposed project would impact local development plans of each affected local jurisdiction.
10. Identification of any known conflicts of interest or other disabilities that may impact the Authority's consideration of the proposal, including the identification of any persons known to the proposer who would be obligated to disqualify themselves from participation in any transaction arising from or in connection to the project pursuant to the Virginia State and Local Government Conflict of Interest Act, Chapter 31 (§2.2-3100 et seq.) of Title 2.2.
11. Additional material and information as the Authority may reasonably request.

VI. PROPOSAL EVALUATION AND SELECTION CRITERIA

There are several factors that an Authority may wish to consider when evaluating and selecting a proposal under the PPEA. The following are some of the factors that may be considered by the Authority in the evaluation and selection of PPEA proposals; however, the Authority reserves the right to reject any request or proposal at any time for any reason whatsoever.

A. Qualification and Experience. Factors to be considered in either phase of the responsible public entity's review to determine whether proposer possesses the requisite qualifications and experience include:

1. Experience with similar projects;
2. Demonstration of ability to perform work;
3. Leadership structure;
4. Project manager's experience;
5. Management approach;
6. Financial condition; and
7. Project ownership.

B. Project Characteristics. Factors to be considered in determining the project characteristics include:

1. Project definition;
2. Proposed project schedule;
3. Operation of the project;
4. Technology and technical feasibility;
5. Conformity to laws, regulations, and standards;
6. Environmental impacts;
7. Condemnation impacts;
8. State and local permits; and
9. Maintenance of the project.

C. Project Financing. Factors to be considered in determining whether the proposed financing allows adequate access to the necessary capital to finance the project include:

1. Cost and cost benefit to the Authority;
2. Financing and the impact on the debt burden of the Authority;
3. Financial plan, including the degree to which the proposed has conducted due diligence investigation and analysis of the proposed financial plan and the results of any such inquiries or studies;
4. Opportunity cost assessment;
5. Estimated cost;
6. Life-cycle cost analysis;
7. The identity, credit history, past performance of any third party that will provide financing for the project and the nature and timing of its commitment, as applicable; and
8. Such other items as the Authority deems appropriate.

In the event the project is financed through the issuance of obligations that are deemed to be tax-supported by any locality, or if financing such a project may impact the County's debt rating or financial position, the County may select its own finance team, source, and financing vehicle.

D. Project Benefit and Compatibility. Factors to be considered in determining the proposed project's compatibility with the appropriate local or regional comprehensive or development plans include:

1. Community benefits;
2. Community support or opposition, or both;
3. Public involvement strategy;
4. Compatibility with existing and planned facilities; and
5. Compatibility with local, regional, and state economic development efforts.

E. Other Factors. Other factors that may be considered in the evaluation and selection of PPEA proposals include:

1. The proposed cost of the qualifying project;
2. The general reputation, industry experience, and financial capacity of the private entity;
3. The proposed design of the qualifying project;
4. The eligibility of the project for accelerated documentation, review, and selection;
5. Local citizen and government comments;
6. Benefits to the public, including financial and nonfinancial;

7. The private entity's compliance with a minority business enterprise participation plan or good faith effort to comply with the goals of such plan;
8. The private entity's plans to employ local contractors and residents;
9. The recommendation of a committee of representatives of member of the Authority and/or its appropriating body which may be established to provide advisory oversight for the project; and
10. Other criteria that the Authority deems appropriate.

VII. INTERIM AND COMPREHENSIVE AGREEMENTS

Prior to developing or operating the qualifying project, the selected private entity shall enter into a comprehensive agreement with the Authority. Prior to entering into a comprehensive agreement, an interim agreement may be entered into that permits a private entity to perform compensable activities related to the project. The Authority may designate a working group to be responsible for negotiating any interim or comprehensive agreement. Any interim or comprehensive agreement shall define the rights and obligations of the responsible public entity and the selected proposer with regard to the project.

A. Interim Agreement Terms

The scope of an interim agreement may include, but is not limited to, the following:

1. Project planning and development;
2. Design and engineering;
3. Environmental analysis and mitigation;
4. Survey;
5. Ascertaining the availability of financing for the proposed facility through financial and revenue analysis;
6. Establish a process and timing of the negotiation of the comprehensive agreement; and
7. Any other provisions related to any aspect of the development or operation of a qualifying project that the parties may deem appropriate prior to the execution of a comprehensive agreement.

B. Comprehensive Agreement Terms

The scope of the comprehensive agreement shall include, but not be limited, to:

1. The delivery of maintenance, performance, and payment bonds or letters of credit in connection with any acquisition, design, construction, improvement, renovation, expansion, equipping, maintenance, or operation of the qualifying project;

2. The review of plans and specifications for the qualifying project by the responsible public entity;
3. The rights of the responsible public entity to inspect the qualifying project to ensure compliance with the comprehensive agreement;
4. The maintenance of a policy or policies of liability insurance or self-insurance reasonably sufficient to insure coverage of the project and the tort liability to the public and employees and to enable the continued operation of the qualifying project;
5. The monitoring of the practices of the private entity by the responsible public entity to ensure proper maintenance;
6. The terms under which the private entity will reimburse the County for services provided;
7. The policy and procedures that will govern the rights and responsibilities of the County and the private entity in the event that the comprehensive agreement is terminated or there is a material default by the private entity, including the conditions governing assumption of the duties and responsibilities of the private entity by the responsible public entity and the transfer or purchase of property or other interests of the private entity by the responsible public entity.
8. The terms under which the private entity will file appropriate financial statements on a periodic basis;
9. The mechanism by which use fees, lease payments, or service payments, if any, may be established from time to time upon agreement of the parties. Any payments or fees shall be set at a level that is the same for persons using the facility under like conditions and that will not materially discourage use for the qualifying project.
 - a. A copy of any service contract shall be filed with the County.
 - b. A schedule of the current use fees or lease payments shall be made available by the Contractor to any member of the public upon request.
 - c. Classifications according to reasonable categories for assessment of user fees may be made.
10. The terms and conditions under which the County may be required to contribute financial resources, if any;
11. The terms and conditions under which existing site conditions will be addressed, including identification of the party responsible for conducting assessment and taking necessary remedial action;
12. The terms and conditions under which the County will be required to pay money to the private entity and the amount of any such payments for the project.
13. A periodic reporting procedure that incorporates a description of the impact of the project on the County;
14. Such other terms and conditions as the County may deem appropriate.

The comprehensive agreement may provide for the development or operation of phases or segments of a qualifying project.

Parties submitting proposals understand that representations, information, and data supplied in support of or in connection with proposals play a critical role in the competitive evaluation process and in the ultimate selection of a proposal by the County. Accordingly, as part of the comprehensive agreement, the prospective operator and its team members shall certify that all material representations, information, and data provided in support of, or in connection with, a proposal is true and correct. Such certifications shall be made by authorized individuals who have knowledge of the information in the proposal. In the event that material changes occur with respect to any representations, information, or data provided for a proposal, the prospective operator shall immediately notify the County of the same. Any violation of this section of the comprehensive agreement shall give the County the right to terminate the Agreement, withhold payment or other consideration due, and seek any other remedy available under the law.

C. Notice and Posting requirements.

1. In addition to the posting requirements of Section V, thirty (30) days prior to entering into an interim or comprehensive agreement, a responsible public entity shall provide an opportunity for public comment on the proposals. Such public comment period may include a public hearing in the sole discretion of the responsible public entity. After the end of the public comment period, no additional posting shall be required based on any public comment received.
2. Once the negotiation phase for the development of an interim or comprehensive agreement is complete and a decision to award has been made by the Authority, the Authority shall post the proposed agreement in the following manner:
 - a. Posting shall be on the County's website or by publication, in a newspaper of general circulation in the area in which the contract work is to be performed, of a summary of the proposals and the location where copies of the proposals are available for public inspection.
 - b. In addition to the posting requirements, at least one copy of the proposals shall be made available for public inspection. Trade secrets, financial records, or other records of the private entity excluded from disclosure under the provisions of subdivision 11 of §2.2-3705.6 of the Code of Virginia shall not be required to be posted, except as otherwise agreed to by the County and private entity.
 - c. Any studies and analyses considered by the responsible Authority in its review of a proposal shall be disclosed to the

Board of Supervisors at some point prior to the execution of an interim or comprehensive agreement.

3. Once an interim agreement or a comprehensive agreement has been executed, the County shall make procurement records available for public inspection, upon request.
 - a. Such procurement records shall include documents initially protected from disclosure on the basis that the release of such documents would adversely affect the financial interest or bargaining position of the County or private entity.
 - b. Such procurement records shall not include (i) trade secrets of the private entity as defined in the Uniform Trade Secrets Act (§59.1-336 et seq.) or (ii) financial records, including balance sheets or financial statements of the private entity that are not generally available to the public through regulatory disclosure and otherwise.

VIII. GOVERNING PROVISIONS

In the event of any conflict between these provisions and the PPEA, the terms of the PPEA shall control.

IX. TERMS AND DEFINITIONS

“Affected jurisdiction” means any county, city, or town in which all or a portion of a qualifying project is located.

“Comprehensive agreement” means the comprehensive agreement between the private entity and the County that is required prior to the development or operation of a qualifying project.

“Conceptual stage” means the initial phase of project evaluation when the public entity makes a determination whether the proposed project serves a public purpose, meets the criteria for a qualifying project, assess the qualifications and experience of a private entity proposer, reviews the project for financial feasibility, and warrants further pursuit.

“Detailed stage” means the second phase of a project evaluation where the County has completed the conceptual stage and accepted the proposal and may request additional information regarding a proposed project prior to entering into competitive negotiations with one or more private entities to develop an interim or comprehensive agreement.

“Interim agreement” means an agreement between a private entity and the County that provides for phasing of the development or operation, or both, of a qualifying project. Such phases may include, but are not limited to, design, planning, engineering, environmental analysis and

mitigation, financial revenue analysis, or any other phase of the project that constitutes activity on any part of the qualifying project.

“Material default” means any default by the private entity in the performance of its duties that jeopardizes adequate service to the public from a qualifying project.

“Private entity” means any natural person, corporation, general partnership, limited liability company, limited partnership, joint venture, business trust, public benefit corporation, nonprofit entity, or other business entity.

“Public entity” means the Commonwealth and any agency or authority thereof, any county, city, or town and any other political subdivision of the Commonwealth, any public body politic and corporate, or any regional entity that serves a public purpose.

“Service contract” means a contract entered into between a public entity and the private entity pursuant to Section 56-575.5 of the Code of Virginia.

LEGAL NOTICE

Public Hearing

The public is hereby notified that the Nottoway County Board of Supervisors will conduct a public hearing on Thursday, March 20, 2025, at 7:00 p.m. in the General District Courthouse, 328 West Courthouse Road, Nottoway, Virginia, to consider adoption of the following into the County Code:

Guidelines that enable the County to utilize the Public-Private Education Facilities and Infrastructure Act of 2002, (Va. Code § 56-575 et seq.) (the "PPEA"), which grants the County of Nottoway (the "County"), a responsible public entity as defined by the PPEA, the authority to create public-private partnerships for the development of a wide range of projects for public use if the County determines there is a need for the project and that private involvement may provide the project to the public in a timely or cost-effective manner.

All persons desiring to be heard on this matter are urged to be present on the date and hour aforementioned. A true and complete copy of the proposed Guidelines are available for public inspection during regular business hours at the County Administration Office, 344 W. Courthouse Road, Nottoway, VA 23955.

It is the intention of the Board of Supervisors to comply with the Americans with Disabilities Act. Should you need special accommodations, please contact the County Administration Office prior to 5:00 p.m. on Friday, March 14, 2025.

By Authority of the Board of Supervisors

Library System Monthly Report

To: Members of the Nottoway County Board of Supervisors
From: Jacqueline Zataweski, Public Library System Director
Date: March, 2025

The following summarizes the activities and projects that have taken place since I last provided a report mid-January.

- On February 22, I met with Ranger Davis to deliver a second set of self-guided "mystery" activity booklets for the park.
- Town Manager Miskovic requested a letter in support of a grant on February 27; it was provided the next day.
- I received the Certification of (Financial) Data form from Kim Armentrout on February 28. It was signed, notarized, and submitted to the LVA on March 6.
- Also on March 6, I hosted the quarterly regional library directors' meeting. Highlights included:
 - Planning for Library Excellence is currently being update - release expected before the end of September
 - Annual Directors' meeting will be held Wednesday 10/1, followed by the VLA Conference in Richmond 10/2 and 10/3
 - Reminder that Find It VA resources are funded through Library Services and Technology Act (LSTA) which is renewed annually by Congress and administered by the Institute of Museum and Library Services. All of these resources are contracted annually from 10/1 to 9/30.
- Shelia and I met with the finance committee on March 11 to answer their questions and make sure they're aware of those *things other than books* that we offer.
- Now that we have acclimated to the new ILS, we have begun doing inventory to see if any problems occurred with the migration of data.
- Section F of the Sustainable Libraries Certification Program has now been completed; this means 46% of all Action Items have been accomplished. Next up is the Materials section which has 20 required actions with 8 more to be selected from 22 options.
- Since the last report, I've worked to catch up on webinars that had been saved for later, one from ENSULIB (slides follow) and three from C.R.E.W.

- Last month, I reported that I had been asked to submit a brief article about our use of escape rooms to familiarize people with library resources. That article was distributed throughout the state in the Adult Services newsletter. The piece and other portions of the newsletter follow.

In addition to the above, the usual tasks regarding deposits and invoices, staff schedules and payroll were completed, as were promotional activities such as creating social media posts, newsletters, calendars, and other printed materials. I'm also continuing work on the succession binder.

Acting as the primary contact for the Imagination Library, I continue to confirm addresses of and approve new registrants. As of March 12, there are 260 participants and 134 children have "graduated".

Knowledge-based Mitigation Discussion

- Have you experienced any barriers discussing climate change:
 - at your library?
 - in your community?
- How does your library communicate climate science? How does it encourage or support using that knowledge?
- How does your library approach:
 - climate misinformation practice such as censorship or propaganda?
 - sourcing the "widest possible variety" of views for its community?
 - a practice of neutrality or balance?
- How can your library's collections, programming, and discovery services incorporate alternatives to the information deficit model?
- What traditional ecological knowledges exist in your region? Have they been marginalized? Do they contain:
 - climatic knowledge?
 - mitigative knowledge?
 - adaptive knowledge?
- Does your library consider the emissions of its physical and digital knowledge infrastructure? Does it have a plan to mitigate these emissions?

IFLA ENSULIB Webinar 9: MACK Framework

Community-based Mitigation Discussion

- Can your library support a local sharing economy through:
 - limited-use collections?
 - ubiquitous-use collections?
- Does your library offer any equipment, services, or programming related to the circular economy (i.e. repair or upcycling)?
- Does development or modification of your library's services or collections lend itself to addressing one or more of the major sources of GHG emissions in your community?
- Are there existing local initiatives that your library might collaborate with or offer resources to in order to:
 - support a sharing economy?
 - support a circular economy?
 - sequester more carbon?
- Does your library have a plan to reduce its GHG emissions? Is it possible for your library's built environment to sequester more carbon?
- How might your institution prioritize the demographics within your community that are the least responsible for causing emissions?

IFLA ENSULIB Webinar 9: MACK Framework

Pre-Event Needs:

- understanding of the probability of specific types of climate-driven emergency in the region
- resources (how-tos, checklists, infographics, etc.) for individuals and households to prepare for the emergencies most likely to happen

Post-Event Needs:

- insurance claims
- evacuation plans
- resource distribution or direction to relevant sources
- regular, localized updates
- geographic area affected
- means to contact relatives/loved ones
- emergency archiving services

Knowledge During Emergencies

Potential Existing Inadequacies/Vulnerabilities:

- generalized information
- misinformation on social media
- ICT outages

Rapid Onset Short-Term Threats to Infrastructure:

- **extreme weather events**
- riverine flooding
- wildfire
- software-driven (glitches)
- unknown (opacity of proprietary infrastructure)

IFLA ENSULIB Webinar 9: MACK Framework

Meaning, Self-Actualization, Community Actualization, Cultural Perpetuity

Transcendental Needs

Using Marshall model rather than Maslow's
"often included in contemporary library practice"

Knowledge Commons, Public Domain, Art/Design Commons

Cognitive/Aesthetic Needs

Shared Public Spaces, Regular Rituals (early literacy, ecological monitoring, citizen science, etc.)

Emotional/Social Needs

Public Healthcare, Public Pharmacy/Medical Commons, Community Safety Commons (early boundary setting, non-violent de-escalation, first aid, self-defense, etc.)

Safety Needs

Atmosphere Commons, Water Commons, Food Commons, Public Washrooms

Bodily Needs

Where do these collections live?

- public climate oration?
- public housing
- clothing library
- community gardens
- food forest
- land library
- energy commons
- tool library
- "no. 1 emergency library"
- art library
- library commons

Rebekkah Smith Aldrich's needs-based† call to action & Bethany Nowwiskie's 'speculative collections'

Adult Services Notes

Upcoming Library of Virginia Training

Southeast Collaborative Online Conference

Join colleagues from around the state and southeast region March 11-13 for a **free** online conference.

The 2025 Southeast Collaborative Online Conference is a collective effort by the Georgia Public Library Service, State Library of North Carolina, South Carolina State Library, Tennessee State Library & Archives, and The Library of Virginia to offer innovative and useful online learning experiences for library staff at all levels through a convenient online conference.

This year's presenters include a dozen Virginia library staff from both public and academic libraries, covering topics including using data, building collaborative relationships, AI Salons, time management, new approaches to book clubs, and building teen spaces. Keynote will be *Catching Library Joy* with Mychal Threats.

Burnout in Public Libraries: A Three-Part Series

LVA recently added the *Burnout in Public Libraries* training in Niche Academy. This Niche Pathway uses first-person narratives to explore causes of burnout among public library workers, drawing examples from rural, medium-sized, and urban libraries as well as libraries in four other countries. Each part includes multiple approaches to relieve burnout from experts inside the profession.

The series, produced by Sonya Schreyer Norris, also looks to other fields for what we can learn from them to reduce burnout including social work, nursing, and teaching.

View the Training in Niche Academy

Niche Academy is open to all Virginia library staff members and library associates such as trustees and Friends board members. If you do not have a Niche Academy account, please use your library email address to sign up. If you do not have a library work email, you may register with a personal email, and we will contact you to confirm that you are affiliated with a Virginia library.

Virginia Library Projects

From the editor: This is a new feature in the newsletter to share interesting projects that Virginia libraries are implementing to improve access to resources or improve services to users. If you are interested in sharing a project your library is doing, please reach out to Barry Trott, barry.trott@lva.virginia.gov, to discuss writing it up.

This month's feature is from Nottoway County Public Library and looks at how they are using programming to promote library collections. For more information, contact Nottoway Library Director Jackie Zataweski, jzataweski@nottlib.org. --Ed.

Promoting Databases through Programs

In a rural county such as Nottoway in south central Virginia, it's difficult to effectively communicate all that the library has to offer. Whether it's flyers posted locally, press releases, or social media posts, there's no single way to reach everybody, or even the majority of our service population. Many of our community members think of libraries as they used to be; if they're not readers, they're not likely to visit and so do not have that opportunity to learn about all that is available to them. They don't know about other resources, so they don't visit. They don't visit, so they (frequently) don't know about those things we offer beyond books.

One way we have worked to get out of this catch-22 situation is to offer programs community members might not expect to find at their local library. We've offered seasonal nine hole putt-putt golf courses, we continue to offer weekly yoga instruction, and we have offered escape rooms. All of these have brought in people who are new to us, and many of them have signed up for cards and have continued visiting.

In the fall of 2024, the Nottoway County Public Library System offered its first escape room, and the majority of those who passed through the doors were new to our library. Wanting them to get an idea of all that we have to offer, we plotted their escape route to go through every area of the library, and we made it necessary for them to visit and search our catalog.

Before opening the event to the public, we asked a member of the Friends group to test it out to ensure no mistakes had been made while creating the puzzles. That Friend happens to be the Nottoway County High School librarian, and after she'd finished the trial run, she asked if we could plan a similar program for use in her library. We talked it through and set some goals; she wanted to make sure that her students were familiar with not only her library, but with the resources available from Find It VA.

The plan is for the "escape" to take place during club time, and if all goes well, it will be used to familiarize freshmen with library resources at the beginning of the next academic year. Some students will be directed to use NoveList Plus to find title read-alikes; others will need to create custom blends or peruse the Must-Read lists. We plan to ensure the students are – or become – aware of the resources to be found on Explora, too. In one version, they will first be instructed to select Life Skills and then be told to visit Financial Literacy. Students taking another path who initially visit the Health topic will next visit a sub-topic like Relationships or Hot Topics.

Looking ahead, I'm thinking about how to shine a light on other resources in this way. Do high school students – or our patrons – realize how many titles are available from Magzter? Or that JobNow's SkillSurfer offers lessons on time management and media literacy? Do they realize they can learn ASL at no cost to them on Transparent Language? Probably not. Should they? Absolutely!

February was peppered with snow closings and 2 cancelled events due to weather. And the director missing 3 days due to the flu.

1. ESL Class:

Classes continue to be well attended. Rita Roark from Immaculate Heart Catholic Church in Blackstone has reached out to volunteer to teach some of the parishioners from her church. She is not sure of the level of interest. I gave her some links to learn about teaching an ESL class and I will get back in touch to check her status and see if a class will happen. The program will provide resources and answer questions.

2. Computer Classes:

I currently have 1 regular student from the ESL program receiving digital assistance.

3. Events:

The Medicare and Massey Cancer events were cancelled and they will try to reschedule. The Knit and Crochet Gathering was well attended with 5 attendees. They decided to change the time for the next gathering to 5PM and that is on March 26th. The Centra Event had to attendees.

4. The Crewe Community Garden:

There have been 3 classes on raised bed gardening that has taken place in the Literacy classroom. Each session has increased in attendance with the most recent class on March 11th with 8 attendees. The next class is at 4:30 on March 18. The next organizational meeting is at 1:30 on March 20th. I am participating with the library to work 1 raised bed. Documenting the progress will be a health/nutrition teaching opportunity for the Literacy Facebook page and...via our new website.

5. Latest project

I am in the process of putting together a website for the Literacy Program. It will feature our mission, class and event list and calendar, how to volunteer and how to signup as a student,

And is a free version. I hope to have the website completed in about 2 weeks (or less). But you can see it now as a website in progress.

6. Final Thoughts:

I am looking forward to helping to grow community via the Knit and Crochet Gathering and the Crewe Community Garden. I have seen first hand how loneliness can affect mental health and feel the Literacy Program can put a dent in the growing trend of isolationism. The website can be a way to reach new people who might need help and perhaps a way to help determine where help is needed most.

BOARD OF TRUSTEES MEETING

February 19, 2025

Crewe Library
414 Tyler St.
Crewe, VA 23930

10:30 a.m.

NOTTOWAY COUNTY PUBLIC LIBRARY

Adjournment

Nottoway County Public Library

Board of Trustees Meeting

January 15, 2025

The meeting was called to order by Shelia Harper who welcomed everyone and extended wishes of Happy New Year to all present. Those present for today's meeting included: Shelia Harper, Susan Nash, Becky Sones, Verna Rhoades and Jackie Zataweski, Library Director. Absent members included Carolyn Leslie and Jackie August.

It was moved by Susan Nash to approve the Agenda and Consent Agenda. The motion passed.

The Bills were not available for approval at this time.

Communications

Library of Virginia-Payments were late due to the weather.

Citizen Comments: None

Report of the Library Director

Blackstone-Nothing out the ordinary to report.

Burkeville-Waiting on the electrician to complete work on the automatic door opener.

Crewe-Plans for the garden are going forth; all else is well except the circulation computers which are failing, newer computers to be installed soon

Literacy Program Report: Jackie Z. reported that ESL classes are continuing having 7 students on Monday. She also reported that

another person had expressed interest in teaching, but the current budget does not allow for it at this time.

Committee Reports: None

New Business

Director's Evaluation

Executive Session was called to order to compile Jackie's evaluation. In the evaluation process, Jackie was assigned Far Exceeds Expectations in all areas. We really appreciate all that she does for our County Library System. Shelia will meet with County Administrator, Steve Bowen, to discuss the evaluation. We then reconvened into regular session.

Personnel Policy – sections 7 & 8

Jackie Z. reported that sections 7 & 8 don't belong in the personnel policy. The question was raised as to how to handle jury duty. It seems there is no stated county policy for library employees and nothing stated in the Library policy. Consider for future discussion. After discussion, Susan motioned to remove sections 7 & 8 from the personnel policy and add links to the appropriate area on the website. The motion was passed.

Items Not on Agenda

Amelia Library Director position remains vacant.

Next meeting: February 19, 2025, 10:30 a.m., Crewe

Having no further business, Susan motioned to adjourn the meeting. The motion passed and the meeting was adjourned by Shelia Harper.

Submitted by,
Verna Rhoades

“Food for Thought” Statistics from Massanutten Regional

The Director states:

MRL went fine-free in December 2020. Here are some relevant stats that I’m sharing with the Board of Supervisors and City Council next week:

- Circulation FY24: 864,628; an increase of 18.4% over last year — we were at 692,000 in FY 2019, the last full year of stats pre-pandemic.
- Library cards FY24: 3,691 new registrations, a 17% increase from last year. It was 772 in FY2019. Total registrations and renewals were 9,278. Back in FY2019, that was 1450, so that is a 6-fold increase.
- Library visits FY24: 237,729; an increase of more than 9% ; that is still down just a little from FY2019, but up from FY 2022, when it was 173,000.

We don’t have a metric on this, but from a customer service perspective, going fine-free is a huge hit! The only downside is that we have recently seen a few more patrons keeping their items until they get a “lost-item” message from us.

NCPL Fine Collection History:

FY22: \$703.33

FY23: \$681.75

FY24: \$813.30

FY25 (1st half): \$223.43

Library System Monthly Report

To: Members of the Nottoway County Board of Supervisors
From: Jacqueline Zataweski, Public Library System Director
Date: February, 2025

The following summarizes the activities and projects that have taken place since I last provided a report mid-January.

- On January 16, I met with Ranger Davis to deliver self-guided activity booklets for the park and discuss similar projects in the future. I then met with Lauren Watkins to discuss providing similar activities at the High School during their Club periods.
- Also on January 16, Agnes succeeded in obtaining copies of the majority of FY power bills from Gerald Smith, Mayor of the Town of Burkeville. This submission was entered and the Bibliostat report was submitted on Friday, January 17.
 - For FY23, “local” support totaled \$225,733, including Common Government Funds, the annual Cook Family Foundation grant and the Kyler grant.
 - For FY24, local support totaled \$210,473 - this was local funding (\$187,961), Common Government Funds (\$17,312), and the Cook Family grant (\$1651, including \$613 in funds carried over from FY23).

This amounts to a reduction of \$15,260 in local support, so we will most likely see a decrease in our State Aid grant.

- I met with Alicia Hilliard, the new NIS librarian, on January 17 to discuss ways in which we can partner. We hope to offer programs, as we do at the high school, and share materials, as we do with CPS.
- Since my last report, I attended the previously mentioned Zoom meeting *Handling Donations of Private and Business Papers* and have viewed two other recorded training sessions.
- On January 31, I submitted a grant application to Better World Books, seeking funding for the Imagination Library.
- Also on January 31, I met with Ms Presley at Nottoway County to ensure I had a complete understanding of the YTD expense report she provided before beginning to work on drafting the budget. The first draft was completed February 10, 2025.
- I was asked to write 500-1000 words about how we’re using “escape rooms” to ensure students are familiar with Find It VA resources. This was completed on February 11.

- Since my January report, we have completed the required action items in Section F of the Sustainable Libraries Certification Program. We are now 43% of the way through the program.
- I worked with the Blackstone Friends to draft a proposal for the Penguin Random House grant and provided the narrative to them on February 15.

In addition to the above, the usual tasks regarding deposits and invoices, staff schedules and payroll were completed, as were promotional activities such as creating social media posts, newsletters, calendars, and other printed materials. I'm also continuing work on the succession binder.

Acting as the primary contact for the Imagination Library, I continue to confirm addresses of and approve new registrants. As of February 12, there are 252 participants and 131 children have "graduated".

Want to suggest another sustainability program we should add to this list? [Suggest a program.](#)

We are providing a passive activity to the local State Park. Interested Park visitors will receive a booklet giving the back story (a beautiful day to visit the park), the crime (littering), and the suspects (four animals found in the park, the State Park Mascot, and the Park Ranger we're working with). The pages with the suspect information contain information about them - habitat, lifespan, diet, etc.) and the visitors are told that when they discover a suspect's name, the suspect should be eliminated from consideration. The back cover of the booklet features several books the library has that relate to the mystery.

The clues include:

- A brief history of the park, with select letters capitalized to name the suspect (Example: The park is Now composed of two historic facilities developed in the time between 1933 and 1948)
- A word search listing animals found in the park - the suspect is not found in the puzzle
- Morse code
- A list of native tree species, the names need to be unscrambled and certain (bolded) letters spell a suspect's name
- A word search listing mammals in Virginia - again, the suspect is not found in the puzzle

The park has certain educational categories they include in their programs (park history, trees, and mammals are among them), so the clues are chosen to touch on some of these topics

Visitors are instructed to return to the Discovery Center when they've ruled out all but one suspect. Assuming they are correct, they will receive a small reward

Director's Report FEBRUARY 2025

After the holidays, and January peppered with weather closings, February is heating up.

1. ESL Class:

We now have 13 registered students for ESL. And attendance in the Monday Morning class is strong. Last week we had 11 in attendance. I have ordered more dictionaries funded by Friends of Literacy. Frank Carrillo has volunteered to help with any one on one students Tuesday evenings. So far no one has used this opportunity. However, last weekend, I spoke with Norma at Immaculate Heart of Mary Church in Blackstone who is a translator for the Spanish speaking parishioners there and she will be putting the word out to see if there are any who want to use our services.

2. Computer Classes:

I currently have 2 students from the ESL program receiving digital assistance.

3. Events:

We have several events for scheduled for February. The Massey Cancer Center is coming back Feb 11th with more detailed information about colorectal cancer. Nicole Sangillo, a licensed insurance agent, is presenting information on all the parts of Medicare Feb 19th. On Feb 26th, I am starting a Needle Arts (knitting, crochet, embroidery) Group. Goals are to encourage social involvement and potentially providing for local charities. And Feb 27th, Centra PACE (Program of All-inclusive Care for the Elderly) is hosting Bingo, while they explain their program. In addition to the FaceBook page, flyers and postcards to advertise these events, I placed an ad in the Courier Record and their Face Book feed.

4. The Crewe Community Garden:

The 1st ten raised beds are constructed. The Crewe Community Garden Committee will be using the Literacy Classroom to teach 4 scheduled workshops. I am still helping out by functioning as secretary and creating flyers to help promote the project.. Currently the committee is seeking sponsorship of the beds. The next meeting of the committee is at 2:30 on February 20th in the Crewe Conference room. Anyone is welcomed to attend.

6. Ideas in the works:

I plan on starting a Literacy Newsletter for the general public to keep them informed of upcoming events and to provide information in the areas of literacy, as well as health, financial, digital and workforce literacy. I will be collecting names and email addresses of all those interested at each of the events we host. I hope to grow the Literary Program's reach into the community so that more know and take advantage of what we offer.

7. Final Thoughts:

I am beginning to work on a procedure manual. I am compiling notes of my tasks and duties to create a roadmap for the program. I feel a good outline could spark new ideas. I hope to help any future director to have a base from which to move forward.

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *gz*

SUBJECT: Planning and Economic Development Monthly Update – February 2025

DATE: March 13, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances. Please note these discussions may consist of follow-up via email or phone at least four times or more after the initial meeting and before applying for a special exception, subdivision, or rezoning.
2. The Planning Commission heard three requests at their February 18th meeting: 1) Special exception request for a manufactured home located on Colonial Trail Highway (recommended approval 5-0-1); 2) Special exception permit amendment to allow the applicant to lease ½ of the duplex to non-farm workers (recommended denial 5-0-1); and a 300-foot radio tower next to the Health Department (recommended approval 5-1-0).
3. The Board of Supervisors heard the abovementioned applications and approved two of the three requests (manufactured home and radio tower). The Board tabled the discussion regarding the special exception amendment and directed staff to advertise for a new public hearing to amend the condition (as initially requested by the applicant) to allow for farm workers/employees who work in the County to lease the duplex (either side).
4. Staff advertised for a public hearing regarding Planning and Zoning fees to be heard by the BOS on March 20th.

5. Staff scheduled a BZA meeting for March 31st regarding a side-yard setback for a home on Dutchtown Road. The meeting will be held in the General District Courtroom.

Economic Development

1. Attending WPPDC East VATI Management Team Zoom Meeting held on February 4th. VDOT permits have been issued, and building permits have been submitted to commence construction at the Cox Road site by the second quarter.
2. Met with a prospect regarding a potential property purchase at Pickett Park on February 5th regarding aviation-related uses.
3. Attended the Capital area Region Military Alliance of Virginia (CaRMA) held at Ft. Barfoot on February 10th for updates from the new Base Commander. Staff suggested the possibility of forming a study group consisting of staff from Nottoway County, Ft. Barfoot command, and Hopewell-Prince George Chamber of Commerce members from Ft. Gregg-Adams in to explore promotion of hospitality businesses for visitors to Fort Adams and Fort Barfoot.
4. Participated in the CRC's DHCD Regional Broadband Affordability and Adoption Plan Zoom meeting on February 18th and discussed the next steps for the final draft of the strategic plan.
5. Staff is updating the LoopNet listing for Pickett Park and recently uploaded new location/zoning maps for each of the parcels owned by the County instead of having one listing of one 360+ acre parcel that was somewhat fragmented throughout the Park. Staff's estimate for the eleven parcels marked by staff is approximately 437+/- acres. Please see Attachment 1.
6. Staff still needs to work with the GIS consultant to correct at least a certain parcel identified as owned by the Board of Supervisors (nee' LRA), which is in fact owned by VPI&SU, located on the west side of Military Road. That site contains approximately 167 acres. Please see Attachment 2.
7. Attachment 3 contains the February/March summary for our LoopNet listing.

Attachment 1

County-Owned Property at Pickett Park			
Tax Map #/Building	Acreage	Zoning	Location/Use
43-130G	7.1	No Zoning	House on North Side of Darvills Strip on west side of Military Road near Cox Road

EMERGENCY SERVICES COORDINATOR'S REPORT

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr.

DATE: March 13, 2025

SUBJECT: February Report

The following activities and projects are provided in this summary of work by the Department of Emergency Services since my last report on February 13th before your monthly Board of Supervisors meeting on February 27, 2025. Many of these activities listed below were performed in collaboration with other staff members and external stakeholders.

The current emergency services related projects and activities that I have worked on and represented the county include, but are not limited to, the following:

- Attended multiple virtual meetings with National Weather Service, Southside Electric Cooperative, Dominion Energy, and VDEM for the winter storms that ran from February 10 through February 20th.
- Collected, packaged, and disseminated specific Nottoway County storm impact information through e-mail, text, and social media to the key decision makers in the county and to the public for awareness.
- Participated in several virtual meetings over February & March with CTA, Kenwood, and tower companies to discuss the next steps in our radio communications project.
- Participated in two planning meetings on February 13th and March 6th with Deputy Robert Sawyer and other public safety agency representatives to discuss plans for an active shooter exercise that we are having at Nottoway Educational Complex on April 4th.

- Attended a regional emergency services director's meeting at the Farmville Fire Station on February 18th. We discussed the winter storm impacts and preparation for the next storm in each of our counties.
- Worked on the presentation information and cost figures for the Total Response software platform with Michelle Graham of NCSO for the March 20th BOS meeting to overview the proposal to use state grant funding and a local match to purchase the first integrated platform that includes Emergency Medical Dispatch (EMD) for Nottoway County. The emergency communications center currently uses an older paper flip card system for medical guidance over the phone. This new package includes call handling improvements through modern software and training.
- Responded to the Norfolk Southern (NS) Crewe Railyard for a railcar that was spilling a solid, granular form of ammonium sulfate from a container due to a broken door on February 21st. The solid material spill was contained within the rail tracks on the yard and never posed a threat to the public or any waterways. I was notified by the VDEM Regional Haz-Mat Officer hours after the incident was discovered in the early morning. When I arrived on-scene, with Crewe Fire Chief Joey Schnepf to investigate the spill, the Norfolk Southern Haz-Mat Manager and a clean-up contractor for Norfolk Southern were already on scene. A vacuum truck from the environmental contractor Hepaco was on-scene and it took several hours to fully clean up the spill. Norfolk Southern then notified me when it was completed. Everything went smoothly with the clean-up, but they need to notify us at the time these events happen and not hours later. I spoke with representatives at NS and VDEM about that notification process in the future.
- Attended the planning commission meeting at the EOC on February 18th to assist Gregg Zody with questions on the new tower application proposal.
- Attended a regional planning workshop on February 26th for integrated planning of exercises conducted by VDEM for Region 1 counties. The workshop was held at the Meadowdale Library in Chesterfield County.
- Participated in a seated meeting on February 28th at the Burkeville Fire Station to discuss team revisions on our new EMS protocols for Nottoway County. The revisions were completed and agreed upon by the EMS committee and will be presented to the Fire/EMS department heads on March 4th.
- Attended a virtual meeting on February 28th with CRC and other county emergency services personnel to do an annual review of the 2024 Regional Hazard Mitigation Plan.
- Attended Deputy Ray Fulford's retirement ceremony held at the General District Courtroom on February 28th.
- Attended a meeting at Nottoway High School on March 3rd for discussion and planning of a possible Firefighter Level 1 course to be held at the high school for students at least 16 years of age. If approved, the course could begin in the fall semester of 2025.
- Facilitated the monthly meeting of the Fire & EMS Working Group on March 4th at the Extension Office Conference Room. The main topic was approving the revised EMS Protocols for Nottoway County, and these were approved unanimously by the

departments and Dr. Eggleston, our county operational medical director. Other topics were county budget planning for Fire/EMS and several emergency operations topics. (Agenda attached)

- Attended a webinar by VDEM on March 5th to hear information about the state grant period for Public Safety Answering Point (PSAP) equipment that opened in March.
- Coordinated a training meeting for March 6th with Kinder Morgan pipeline training staff at the Crewe Fire Station to offer a new safety presentation about a pipeline leak incident in Georgia and provide some new training information to our local first responders.
- Facilitated a computer aided dispatch (CAD) meeting on March 7th at the EOC with a small team that will update "call nature codes" in our system at the emergency communications center. We will enter these updated terms into the system over the next 30 to 60 days, and then our new GIS mapping recommendations for the appropriate fire/EMS companies will be linked to these emergency call types. These actions will greatly improve the ease and accuracy of dispatching fire & EMS companies to an emergency call.
- Participated in a virtual meeting with our incident reporting software vendor, ESO Solutions, to discuss the budgeted cost for our renewal in the next fiscal year. We also met our new account representative for ESO and discussed the latest improvements within our software platform used by the fire/EMS agencies in the county.
- Coordinated with CTA to hold a Public Safety Radio Communications System update meeting on March 13th at the Crewe Fire Station. Attendees will be our county radio system project committee, CTA staff, and Kenwood staff. The vendors are providing lunch from Yoder's Market for the work session.

**NOTTOWAY COUNTY
FIRE & EMS WORKING GROUP
PLANNING MEETING**

March 3, 2025

18:00 hrs.

***MEETING LOCATION: Nottoway County Social Services
Conference Room
288 West Courthouse Rd. – Nottoway, VA 23955***

AGENDA

- Call to Order & Prayer
- VDOF Update
- EMS Protocol Discussion & Vote on Adoption
- FY-2026 Budget Planning
 - Department's Requests Discussion
 - Standardized Items under DES Budget
 - Meetings on March 18 with BOS
- Countywide Training Update
 - FF 1 – Burkeville
 - Kinder Morgan Pipeline – March 6 (Location pending)
 - Active Shooter Planning – March 6 & April 4
 - Knox Training – March 18
- Resource Listing in CAD now, GIS Mapping & EMD Grant
- HM-1 Storage & Response
- ESO Inventory & Budgeting for Renewal
- Cottage Rd. Structure Fire
- Other Items for the Good of the Order
- Adjournment

Buddy Hyde & Michelle Graham worked on a grant that was subsequently awarded by the Virginia Office of EMS for the purchase of TotalResponse. TotalResponse is a system that integrates with our CAD (computer aided dispatch) which will increase consistency in CAD narrative when incident types are mapped to Total Response Software.

Computer Aided Dispatch (CAD) is the software program that dispatchers use to input calls for service. The call for service tracks the type of call, the units and/or departments dispatched and their times (enroute, on scene, transport, etc.), comments relating to the call for service, person/s involved, report numbers, etc.

TotalResponse integrates with this system and uses our protocols to prompt the dispatcher on the proper questions to ask for various types of calls, including Emergency Medical Dispatch (EMD), fire related, & law enforcement responses. Based on the answers to the questions, TotalResponse will display the related protocol which would tell the dispatcher the next steps to take. For example, if the call was for a fire, it would tell the dispatcher how many departments to send, which could be multiple fire departments, EMS and law enforcement, and the order in which to dispatch those departments. It would also assist with pre-arrival and post-dispatch instructions.

Why TotalResponse is needed:

Turnover in the dispatch center is, and always has been, high. The dispatch profession is notoriously known for its high turnover rate due to low pay, benefits and swing shift hours. It is rare to receive qualified applications when seeking dispatchers, which means new dispatchers must be fully trained. This process can range from 6 months to a year. Being unable to stay fully staffed and keeping trained dispatchers in the office shows in our community as proper protocols are not always followed by new dispatchers. This has caused issues with sending the proper first responders needed and response times.

In addition to the high turnover amongst the dispatchers, we have also witnessed high turnover in dispatch leadership. Up until 2018, we had a solid dispatch training program that was headed up by Nikki Lester. She was the dispatch supervisor for 12 years. Unfortunately, she fell ill and had to leave work abruptly. Since that time, our office has seen a decline in proper dispatch training due to the constant turnover of dispatch supervisors/directors.

TotalResponse has helped over 700 agencies reach the followings goals:

- Ramp up new employees to get them on the phones faster
- Enhance processes for experienced personnel to improve efficiency and reduce stress
- Improve dispatch times
- Deliver consistency and structure to the call handling process
- Provide quality information to better protect responders
- Enhance collection of evidence
- Reduce stress on trainers and staff
- Improve accuracy of information sent to those enroute
- Reduce exposure to liability
- Improve service to community and community relations
- Meet local and state guidelines

Financial Summary for Project

Project Item	Costs	Description
TotalResponse Software Package	\$63,097	Software Install, Licenses, Training
ID Network Integration	+\$10,000	TotalResponse Integration with CAD
Total Project Costs	\$73,097	
VaOEMS Grant Funding	-\$33,581	Reimbursable state funding
Local Match Requested	\$39,516	
TotalResponse Annual Maintenance	\$11,319	Software, Technical & Emergency Support
ID Network Annual Maintenance	\$1,800	Upgrades & Support
Total Annual Maintenance Costs	\$13,119	Beginning FY-2026

TOTAL RESPONSE

Benefits of Utilizing Total Response On-Premise Software:

- One database that includes medical, fire, and law protocols.
- Integration with ID Networks CAD will increase consistency in CAD narrative when incident types are mapped to Total Response.
- Ability to add agency-specific SOPs, response plans, and customizations within Total Response.
- Access to Total Response Learning for all dispatchers through Site-Licensed Training.
- QA Module for call review & scoring.

Site Licensed Training

- Unlimited access to the industry's best online, self-paced training. Training that supports your agency's use of the Total Response software and builds confidence in your staff by preparing them for all types of situations.
- Certification Courses:
 - EMD with T-CPR Certification
 - Fire Service Dispatch Certification
 - Law Enforcement Dispatch Certification
- Application Courses:
 - Foundations of Call-Handling
 - Call Handler
 - Protocols and Procedures
 - Call Assessment
- Continuing Education
 - 12+ courses worth 8 CEUs each including: Non-Emergency Call-Handling, Suicide Intervention, Crisis Communication Training, Protecting Law Enforcement Responders
 - 30 courses worth 1 CEU. Subjects include: Stalking, Overcoming Language Barriers, Hazardous Materials, Childbirth Calls, Allergic Reactions, Rural Firefighting
 - Public Safety Telecommunicator Course

Total Response Implementation Process

- **Project Kickoff**
 - Team Introductions
 - Goals & Objectives
 - Requirements Gathering & Project Planning
- **Total Response Installation**
 - System Requirements & Tech Survey
 - Server/Workstation Installation
- **CAD Integration**
 - CAD Interface Installation/Setup and Testing
- **Configuration and Collaboration**
 - Agency Specific & CAD Code Mapping Discussions
 - Admin/Config Training & Setup
 - Protocol Review (engagement with key stakeholders early)
- **Validation**
 - User Acceptance Testing
- **Education**
 - Total Response End User Training
- **Go Live and Project Completion**
 - Go Live with Total Response!
 - Marketing Campaign
 - Handoff and Transition to Success & Support
 - Implementation Project Closed

Dear Grant Administrator:

The Office of Emergency Medical Services (OEMS) is pleased to announce that your agency has been awarded funding from the Financial Assistance for Emergency Medical Services Grant Program, known as the Rescue Squad Assistance Fund (RSAF). The attached Award Page itemizes the actual dollar value, quantity, funding level and item(s) your agency has been awarded under this program. The following documents can be completed and submitted via E-Gift:

Memorandum of Agreement: Must be submitted by February 28, 2025.

Instructions for Grant Reimbursement: All items must be submitted in order to process your reimbursement.

Equipment Status/Final Report Form: This form must be submitted sixty (60) days after the grant cycle deadline.

If your agency has had special conditions placed on your grant award, any and all conditions must be met in order to receive reimbursement. Items awarded may be available by state contract, www.eva.virginia.gov, OEMS recommends your agency purchase under state contract if applicable.

Any funding your agency receives through Return to Localities funding cannot be used as the matching share of Rescue Squad Assistance Fund grants or any grants offered using **Four-For-Life** funds. "Any funds received from Section 16.2-694 by a non-state agency cannot be used to match any other funds derived from Section 46.2-691 by that same non-state agency".

All items awarded funding must be ordered from the vendor by **February 28, 2025** invoices for all items awarded funding must be submitted to OEMS by **July 31, 2025**. You must contact OEMS prior to the February 28, 2025 deadline if your agency has encountered difficulties in meeting these deadlines.

If you have any questions, please contact Michael Berg, OEMS Grant Program Manager at (804) 888-9106, Michael.Berg@vdh.virginia.gov or Linwood P. Pulling, Grant Specialist at (804) 888-9105, Linwood.Pulling@vdh.virginia.gov or 1-800-523-6019 for additional grant information.

Congratulations,

RACHEL STRADLING
Interim EMS Director

Upcoming Funding Opportunities:

- VTC, Marketing Leverage Program
 - Closes 3/13/2025
- VTC, DMO Marketing Grants
 - Closes 3/13/2025
- VDH, Rescue Squad Assistance Fund
 - Closes 3/17/2025
- VOF, Preservation Trust Fund
 - Closes 3/18/2025
- VA Housing, Accessibility Grant FY 25
 - Closes 5/31/2025
- VA Housing, Community Impact Planning Guide
 - Closes 5/31/2025
- VA Housing, Community Impact Stabilization & Deconstruction
 - Closes 5/31/2025
- VA Housing, Capacity Building Grant
 - Closes 5/31/2025

Grant Assistance:

- **VA Housing.** The CRC is partnering with Piedmont Habitat for Humanity to submit a grant application to construct 10 homes in four counties in our Region
- **DHR, VA250 Grant.** The Town of Blackstone was Not Awarded a grant to purchase light poles, signs, curbs, concrete pads, and gutters. The CRC has requested review comments from DHR to understand why.
- **VA Food Access Investment Fund (VFAIF).** Prince Edward & 5 Pillar Meats were Not Selected to move forward with a full application for meat processing equipment

The CRC provides free grant writing services for member localities and local 501C3 non-profits.

CRC Attends Floodplain & Hazard Mitigation Trainings

This month, CRC staff participated in floodplain management and hazard mitigation trainings to enhance our knowledge of best practices for disaster resilience. These sessions covered key topics such as floodplain regulations, risk assessment, and mitigation strategies to better support local governments in reducing flood risks. By staying up to date on evolving policies and tools, CRC continues to strengthen its capacity to assist communities in planning for safer, more resilient futures.

Comprehensive Economical Development Plan (CEDs)

The CRC held their first CEDs Committee meeting on Friday, February 7th. At the meeting, CRC staff provided an overview of the CEDs, Timeline for the project, and conducted a SWOT analysis of the region.

Broadband Expansion & Affordability Plan

The CRC hosted a Project Management Team meeting on February 18, to present the Draft Structure of the Plan. CRC has now completed the full draft and is reviewing it internally before our next team meeting on 3/17/25
County Implementation ideas are due to the CRC by 3/07/25.

VDOT Rural Transportation Planning Program

- In February, CRC staff attended a Town Council meeting in Keysville and a Transportation Coalition Meeting in Farmville.
- At these meetings, Rick Youngblood(VDOT) presented and explained the Urban Development Area(UDA) Program to the interested localities
- The Transportation Coalition was formed as a result of the Centra Community Needs Assessment
- Representatives from Cumberland, Prince Edward, Farmville, and the Piedmont Senior Resources attended the coalition meeting

Meet Your New Regional Planners: Ethan Bowman & Matt Swartout

Ethan Bowman -

Ethan specializes in economic development, grant writing, and AI integration to enhance planning efficiency. With a strong focus on community growth and technological innovation, he works to streamline processes and support local governments in achieving strategic goals.

Matt Swartout -

Matt is a Regional Planner with a background in geography and a specialization in GIS. With nearly four years of experience in economic development, he supports community development, advances technological innovation, and assists in the grant writing process.

Buckingham County Comprehensive Plan Update

CRC Staff attended the Board of Supervisors meeting on February 10th, where the Board Decided to hold a joint work session with the Planning Commission to begin reviewing the entire plan prior to a public hearing. The first join work session is scheduled for March 17th.

Lunenburg/Victoria/Kenbridge Joint Comprehensive Plan Update

Copies of the final draft of the plan are available for public review at Lunenburg County Administration, Kenbridge Town Office, /ictoria Town Office, Ripberger Public Library in Kenbridge, and the Victoria Public Library. Public hearings will be held in March.

- Victoria Town Council & Planning Commission - 3/11/25 7:00pm - Victoria Municipal Building
- Lunenburg Board of Supervisors & Planning Commission - 3/17/25 6:00pm - Lunenburg Courts Building
- Kenbridge Town Council & Planning Commission - 3/18/25 7:00pm - Kenbridge Town Hall

BLACKSTONE VOLUNTEER FIRE DEPARTMENT

318 Church Street ♦ Blackstone, Virginia 23824-1602

February 24, 2025

Sheriff Robert Jones
266 West Courthouse Road
Nottoway, Virginia, 23955

Sheriff Jones,

I hope that this letter finds you well. I am writing to you today to bring your attention to the exceptional and heroic actions of Deputy C.J. Felder and Sgt. Ty Moore. During a house fire on the morning of Saturday, February 22nd, 2025, Deputy Felder and Sgt. Moore went above and beyond to save a member of the Nottoway Community.

As you know, house fires are, and can place individuals in incredibly dangerous situations, even when wearing full PPE. Deputy Felder and Sgt. Moore demonstrated a remarkable amount of courage and quick thinking, risking their own lives to assist in another community member's effort in removing a family member from their burning home, prior to the arrival of the fire department.

It is not often that we encounter such selflessness and bravery in our lives, but the actions of Deputy Felder and Sgt. Moore during this fire is a testament to their character, dedication, and unwavering commitment to the Nottoway community. These gentlemen are true heroes and I believe that their actions should be recognized.

Please consider acknowledging Deputy Felder and Sgt. Moore's bravery in whatever way that you see fit. I am sure that I speak for many of our members and fellow residents when I say that we are extremely proud and thankful for their courage and sacrifice.

Respectfully,

Devin Foster
Deputy Chief

) Case No. PUR-2025-00017

**VIRGINIA ELECTRIC AND POWER COMPANY'S
RIDER E ANNUAL UPDATE FILING AND REQUEST FOR LIMITED WAIVER**

Pursuant to § 56-585.1 A 5 e (“Subsection A 5 e” or “A 5 e”) of the Code of Virginia (“Va. Code”), the directive contained in Ordering Paragraph (7) of the Final Order issued by the State Corporation Commission of Virginia (“Commission”) on September 19, 2024 in Case No. PUR-2024-00013,¹ and the Commission’s Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities (the “Rate Case Rules”),² Virginia Electric and Power Company (“Dominion Energy Virginia” or the “Company”), by counsel, hereby submits this annual update filing with respect to its environmental rate adjustment clause (“RAC” or “Rider”), designated Rider E (“2025 Annual Update” or “Update”) for the recovery of costs incurred to comply with state and federal environmental regulations at the Company’s Bremo, Chesterfield, Clover, and Mt. Storm Power Stations.

The Company further requests limited waiver of certain Rate Case Rules. Specifically, pursuant to Rule 10 E of the Rate Case Rules, 20 VAC 5-204-10 E, and for the reasons stated

¹ *Petition of Virginia Electric and Power Company For revision of rate adjustment clause: Rider E, for the recovery of costs incurred to comply with state and federal environmental regulations pursuant to § 56-585.1 A 5 e of the Code of Virginia*, Case No. PUR-2024-00013, Final Order (Sep. 19, 2024) (“2024 Rider E Final Order”). Hereinafter referred to as “2024 Rider E proceeding.”

² 20 VAC 5-204-10 *et seq.*

herein, the Company requests a limited waiver of the requirements of Rule 60 of the Rate Case Rules³ with respect to Filing Schedules 3 through 5, and Rule 90 of the Rate Case Rules⁴ with respect to portions of Filing Schedule 46 as it relates to the provision of “economic analyses, contracts, studies, investigations, results from requests for proposals, cost benefit analyses”

In support of its petition and request for limited waiver (collectively, the “Petition”), the Company respectfully shows as follows:

GENERAL INFORMATION

1. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional customers in Virginia and to the public in portions of North Carolina. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is also a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc. (“Dominion Energy”).

2. The Company’s post office address is:

BACKGROUND

4. Va. Code § 56-585.1 A 5 e permits utilities to petition the Commission for approval of a RAC to recover the costs of compliance with state and environmental laws and regulations. Specifically, it provides in relevant part:

A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of . . . [p]rojected and actual costs of projects that the Commission finds to be necessary . . . to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations.

5. Subsection A 5 e provides further: "The Commission shall approve such petition if it finds that such costs are necessary to comply with such laws or regulations"

6. On August 5, 2019, by its Final Order in Case No. PUR-2018-00195, the Commission approved the Company's Petition for a rate adjustment clause, designated Rider E, pursuant to Subsection A 5 e, to recover costs incurred to comply with state and federal environmental regulations at the Company's Bremo, Chesterfield, Mt. Storm, and Clover Power Stations.

7. Most recently, the Company filed its 2024 Annual Update to Rider E on January 24, 2024 in Case No. PUR-2024-00013 (“2024 Annual Update”), which provided updates on environmental projects that were ongoing or had been completed at the Company’s Bremono, Chesterfield, Clover, and Mt. Storm Power Stations. The Commission approved the Company’s Petition by its Final Order issued on September 19, 2024.⁵

8. Pursuant to the directives of the Commission’s 2024 Rider E Final Order, the Company files this annual Rider E update to inform the Commission of the status of the environmental project located at the Mt. Storm Power Station, including the projected expenditures, and to present costs associated with other environmental projects approved by the Commission. In addition, the Company provides the proposed cost allocation, rate design, and accounting treatment for service rendered during a proposed rate year commencing November 1, 2025 and extending through October 31, 2026 (“Rate Year”) as related to the proposed Rider E.

9. As in the 2024 Rider E proceeding, the Company continues to seek to recover three general categories of costs that have been incurred to comply with state and federal environmental laws and regulations: (1) asset retirement obligation (“ARO”) expenses associated with existing assets that must be closed; (2) newly constructed assets and associated expenses; and (3) ARO expenses associated with the newly constructed assets.

MT. STORM POWER STATION PROJECT AND EXPENDITURES UPDATE

10. Company Witness David M. Rowe provides the status of construction for the Mt. Storm Lake Discharge Temperature Control System Project (“LDTCS Project”) approved for recovery in Case No. PUR-2023-00005 and PUR-2024-00013. This project is required to comply with Mt. Storm’s National Pollutant Discharge Elimination System permit,

⁵ See *supra* n. 1.

administrative orders and amendments thereto issued by the West Virginia Department of Environmental Protection (“WVDEP”), and the WVDEP’s Requirements Governing Water Quality Standards, which set water temperature differential limitations implicated by the Company’s operations at Mt. Storm.

11. In Q3 2023, major engineering work for the Permanent System construction and installation scope of work was completed and the Company issued a request for proposal (“RFP”) for system construction and installation. The Company obtained the RFP results in Q4 2023. In Q1 2024, the Company awarded a contract to Mineral Fabrication & Machine Co. Inc. (“MinFab”) based on the Company’s experience with its prior work to complete the Temporary System, its safety and environmental performance, and its status as an established contractor with a local and experienced labor force. Construction and installation work commenced upon contract execution in Q1 2024. The Company is planning for the Permanent System to be commissioned and in service in Q3 2025.

12. Costs of the LDCTS Project are included in Company Witness Rowe’s Extraordinarily Sensitive Schedule 2, which provides the summary cost report, and his Extraordinarily Sensitive Schedule 3, which provides a detailed description of expenditures.

ACCOUNTING UPDATE

13. For the period prior to February 27, 2024, the Company has calculated the revenue requirement using a 9.35% Return on Equity (“ROE”), as approved by the Commission in Case No. PUR-2021-00058. For the period beyond February 27, 2024, the Company has calculated the revenue requirement using a 9.7% ROE, as set forth in Senate Bill 1265, enacted in the 2023 Regular Session of the Virginia General Assembly.

14. The revenue requirement calculation for the continuation of the Rider E RAC is described in detail in Company Witness Kathryn M. Richmond's testimony.

15. The proposed Rate Year for this proceeding is November 1, 2025 through October 31, 2026. The three key components of the revenue requirement are the Projected Cost Recovery Factor, the Allowance for Funds Used During Construction ("AFUDC") Cost Recovery Factor, and the Actual Cost True-Up Factor.

16. The Projected Cost Recovery Factor calculation for each of the environmental projects results in the operating income necessary for recovery of projected financing costs based on the average expected investment balance over the Rate Year, as well as recovery of certain O&M costs, plant depreciation expense, property taxes, asset retirement cost ("ARC") depreciation expenses, and ARO accretion expenses. In addition, the Projected Cost Recovery factor will include certain ongoing O&M costs related to these environmental projects/facilities. Finally, the Company is proposing to amortize certain deferred costs related to the Mt. Storm LDTCS Project (including financing costs) incurred prior to its initial Rate Year, over the November 1, 2025 through the October 31, 2026 Rate Year.

17. The AFUDC Cost Recovery Factor represents the amortization over the Rate Year beginning November 1, 2025, of the actual and projected AFUDC related to the LDTCS Project through October 31, 2025 – *i.e.*, the day immediately prior to the date (November 1, 2025) when the related new Rider E rates go into effect.

18. The Actual Cost True-Up Factor will either credit to, or recover from, customers any over-/under-recovery of costs from the most recently completed and available calendar year. Actual revenues during calendar year 2023 are compared to actual costs incurred during 2023, and any difference in these amounts becomes the Actual Cost True-Up Factor either credited to,

or recovered from, customers through the total revenue requirement requested for recovery during the Rate Year in this 2025 Annual Update. The Actual Cost True-Up Factor requested for recovery in the November 1, 2025 through October 31, 2026 Rate Year is (\$39,030), (\$5,125,912), \$83,727, and \$8,373,130 for the Bremo, Chesterfield, Clover, and Mt. Storm Power Stations, respectively.

19. The Company is requesting recovery of a Projected Cost Recovery Factor amount of \$33,951,827, an AFUDC Cost Recovery Factor of \$0, and an Actual Cost True-Up Factor amount of \$3,291,916, for a total combined revenue requirement amount of \$37,243,743 for the Rate Year beginning November 1, 2025.

RATE DESIGN UPDATE

20. Rider E identifies the rates, in either cents per kilowatt-hour or dollars per kilowatt, that will apply to each Company rate schedule approved by the Commission pursuant to Va. Code § 56-235.2. If approved as proposed, Rider E would be effective for usage on and after November 1, 2025. The Company requests, for billing purposes, a rate effective date for usage on or after the first day of the month, which is at least fifteen (15) days following the date of any Commission order approving Rider E.

21. Company Witness Jessica C. Powell provides the calculation of Factor 1 using the Average and Excess Methodology to allocate cost responsibility to the Virginia jurisdiction in this proceeding, which is the same allocation methodology that was approved in the 2024 Rider E proceeding.

22. The implementation of the proposed Rider E on November 1, 2025 will incrementally decrease the typical residential customer's monthly bill, based on 1,000 kWh per month, by \$0.72, compared to the current Rider E. Typical monthly bill impacts for customers

receiving service on Residential Schedule 1, General Service Schedules GS-1, GS-2, GS-3, and GS-4, and Church Schedule 5C are provided to present the proposed Rider E at several representative levels of consumption or demand.

SUPPORTING TESTIMONY, FILING SCHEDULES, AND REQUEST FOR LIMITED WAIVERS

23. In support of this 2025 Annual Update, Dominion Energy Virginia presents the pre-filed direct testimony and exhibits of the following witnesses: David M. Rowe, Kathryn M. Richmond, and Jessica C. Powell.

A. Filing Schedules

24. Rule 60 of the Rate Case Rules provides that an application filed pursuant to Subsection A 5 “shall include Schedule 46 as identified and described in 20 VAC 5-204-90, which shall be submitted with the utility’s direct testimony. Additionally, applications requiring an overall cost of capital shall include Schedules 3, 4, 5, and 8.” With this Petition, the Company files the following filing schedules:

- A. Filing Schedule 8, sponsored by Company Witness Richmond, provides information regarding the Company’s cost of capital.
- B. Filing Schedule 46A, sponsored by Company Witness Rowe, consisting of Statements 1 through 4. Filing Schedule 46A, Statement 1, provides a schedule summarizing all projected/actual costs, as well as cost estimates for capital and O&M expenses, by type of cost and month / year, as available, associated with the Chesterfield, Clover, Bremo, and Mt. Storm environmental projects. Filing Schedule 46A, Statement 2, provides a schedule of all projected/actual costs, as well as cost estimates for capital and O&M expenses, by type of cost and year associated with the Chesterfield Power Station Lower and Upper Ash Pond Closures. Filing Schedule 46A, Statement 3, provides a schedule of all projected/actual costs, as well as cost estimates for capital and O&M expenses, by type of cost and year associated with the Mt. Storm BAWT Project. Filing Schedule 46A, Statement 4, provides a schedule of all projected/actual costs, as well as cost estimates for capital and O&M expenses, by type of cost and year associated with the Mt. Storm LDTCS Project.

- C. Filing Schedule 46B, sponsored by Company Witness Richmond, consisting of Statements 1 through 6. Filing Schedule 46B, Statement 1, provides the annual revenue requirement calculation for the rate year ending October 31, 2026. Filing Schedule 46B, Statement 2 provides the projected annual revenue requirement over the duration of the RAC. Filing Schedule 46B, Statements 3 – 6, provide the detailed support by each project location in support of Statement 2.
- D. Filing Schedule 46C, sponsored by Company Witness Powell, consisting of Statements 1 and 2. Filing Schedule 46C, Statement 1, provides detailed information related to the Company's methodology for allocating the revenue requirement among the rate classes and the design of the class rates. Filing Schedule 46C, Statement 2, provides the annual revenue requirement by class over the duration of the RAC.

B. Limited Request for Waiver of Filing Schedule 46 Requirements

25. The Company, for good cause shown and pursuant to 20 VAC 5-204-10 E, respectfully requests that the Commission waive, in part, the requirement under Rule 60 to file Filing Schedules 3 through 5. After consultation with Commission Staff, and in the interest of judicial economy, the Company is submitting Filing Schedule 8 for the 2024 year-end capital structure. To the extent necessary, the Company requests a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2024 capital structure, as those will be reviewed by the Commission in the Company's forthcoming 2025 biennial review proceeding. This request for waiver is consistent with the Commission's recent order granting a similar limited waiver.⁶

26. The Company, for good cause shown and pursuant to 20 VAC 5-204-10 E, additionally respectfully requests that the Commission waive, in part, the requirements under Rules 60 and 90 of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials. Specifically, the Rate Case Rules require the Company to provide key documents, including economic analyses, contracts, studies, investigations, results from requests for

⁶ *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause designated Rider SMR under §§ 56-585.1:14 and 56-585.1 of the Code of Virginia and related requests*, Case No. PUR-2024-00205, Order for Notice and Hearing (Dec. 2, 2024).

proposals, and cost benefit analyses that support projected costs proposed to be recovered via the rate adjustment clause. The supporting documentation responsive to this requirement is voluminous and not easily reviewed in hard copy (paper) format. Accordingly, the Company seeks waiver of the requirement to file 12 hard copies of this information. Instead, the Company proposes to provide this documentation to Staff and any other future case participants in electronic format and provide the Commission with one hard copy and three electronic copies on compact discs. The Company will make the electronic documents available via an e-room contemporaneously with this filing, with immediate access available to Staff. This request is consistent with the Commission's recent orders granting similar limited waivers.⁷ Should the Commission deny this request, the Company asks for a reasonable allowance of time to print the requisite filing copies of this material and submit it to the Commission prior to the Company's application being deemed incomplete.

C. Request to Use Proration Methodology to Calculate Revenue Requirement

27. In Case No. PUR-2024-00097, which is currently pending before the Commission, the Company is seeking approval of its proposal to "project rate base, depreciation expense, and certain other costs into the rate year, and relief from the requirement to use the stipulated methodology from Case No. PUE-2015-00059 ("Proration Methodology") in this and future revenue requirements for Rider GEN and other cases on a going-forward basis."⁸ While that case remains pending, no party has objected to the Company's recommendation, and the

⁷ *Petition of Virginia Electric and Power Company For revision of a rate adjustment clause, designated Rider GT, under § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2023-00136, Order for Notice and Hearing at 18 (Aug. 30, 2023); see also *Application of Virginia Electric and Power Company, For revision of rate adjustment clause: Rider OSW, Coastal Virginia Offshore Wind Commercial Project, for the Rate Year commencing September 1, 2024*, Case No. PUR-2023-00195, Order for Notice and Hearing at 13 (Nov. 21, 2023).

⁸ *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider GEN, under § 56-585.1 A 6 of the Code of Virginia and consolidation of Riders B, BW, GV, US-2, US-3, and US-4 pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00097, Petition at 2, 11-12 (June 4, 2024) ("Rider GEN proceeding").

Hearing Examiner's Report issued on January 7, 2025 recommends approval of the Company's proposal.⁹

28. The Commission has already approved use of the Proration Methodology in Rider OSW,¹⁰ and in other cases filed during the pendency of Rider GEN, the Commission has authorized the Company to use the Proration Methodology.¹¹

29. Given this precedent and procedural history, the Company seeks authority to calculate the revenue requirement in this proceeding using the Proration Methodology, and for leave to amend its filing to provide an alternative calculation of the revenue requirement in the event this request is not granted.

**REQUEST FOR CONFIDENTIAL TREATMENT AND ADDITIONAL PROTECTIVE
TREATMENT OF EXTRAORDINARILY SENSITIVE INFORMATION**

30. The Company's Petition contains confidential and extraordinarily sensitive information, as designated therein. Because portions of the Company's Petition contain such confidential and extraordinarily sensitive information, in compliance with Rule 10 F and Rule 170, 20 VAC 5-204-10 F and 5 VAC 5-20-170, this filing is accompanied by a separate Motion for Entry of a Protective Order and Additional Protective Treatment, including a Proposed Protective Order, filed contemporaneously with this Petition.

COMPLIANCE WITH RULE 10 OF THE RATE CASE RULES

31. The Company's 2025 Annual Update for approval of Rider E complies with the requirements contained in Rule 10 of the Rate Case Rules. In accordance with Rule 10 A,

⁹ Rider GEN proceeding, Hearing Examiner's Report at 32.

¹⁰ *Application of Virginia Electric and Power Company For revision of rate adjustment clause: Rider OSW, Coastal Virginia Offshore Wind Commercial Project, for the Rate Year commencing September 1, 2024*, Case No. PUR-2023-00195, Final Order at 6 (July 25, 2024).

¹¹ *See Petition of Virginia Electric and Power Company For revision of a rate adjustment clause, designated Rider SNA under § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2024-00154, Order on Motion (Sep. 12, 2024).

Dominion Energy Virginia filed with the Commission on November 22, 2024, the Company's notice of intent to file this Petition under Va. Code § 56-585.1 A 5 e. Copies of this Petition, to the extent required by Rule 10 J, along with the additional information required by Rule 10 J, have been served upon the persons addressed in that Rule. A complete copy of this Petition has been served upon the Office of the Attorney General's Division of Consumer Counsel in conformity with Rule 10 J. Also included with and following this Petition, pursuant to Rule 10, is a table of contents of this filing, including exhibits and schedules.

WHEREFORE, Dominion Energy Virginia respectfully requests that the Commission (1) approve the proposed Rider E under Va. Code § 56-585.1 A 5 e subject to future Rider E proceedings and true-ups, effective for usage on and after November 1, 2025; (2) approve the proposed revenue requirement, cost allocation, rate design, and accounting treatment for the Environmental Projects for the Rate Year November 1, 2025, through October 31, 2026; (3) grant the Company's requested waivers as to Filing Schedules 3 through 5 and portions of Filing Schedule 46 and its request to utilize the Proration Methodology in the calculation of the revenue requirement; and (4) grant such other and further relief as it deems just and proper.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

PETITION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2025-00017

For revision of rate adjustment clause: Rider E,
for the recovery of costs incurred to comply with
state and federal environmental regulations pursuant to
§ 56-585.1 A 5 e of the Code of Virginia

ORDER FOR NOTICE AND HEARING

On January 23, 2025, pursuant to § 56-585.1 A 5 e of the Code of Virginia ("Code"), the directive contained in Ordering Paragraph (7) of the Final Order issued by the State Corporation Commission ("Commission") on September 19, 2024 in Case No. PUR-2024-00013,¹ and the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities ("Rate Case Rules"),² Virginia Electric and Power Company d/b/a Dominion Energy Virginia ("Dominion" or "Company") filed with the Commission a petition ("Petition") for an annual update with respect to its rate adjustment clause, designated Rider E, for the recovery of costs incurred to comply with state and federal environmental regulations at the Company's Bremo, Chesterfield, Clover, and Mt. Storm Power Stations.³ Dominion states that it is filing this annual update to inform the Commission of the status of the environmental project located at the Mt. Storm Power Station, including projected expenditures,

¹ *Petition of Virginia Electric and Power Company, For revision of rate adjustment clause: Rider E, for the recovery of costs incurred to comply with state and federal environmental regulations pursuant to § 56-585.1 A 5 e of the Code of Virginia*, Case No. PUR-2024-00013, Doc. Con. Cen. No. 240930111, Final Order (Sept. 19, 2024).

² 20 VAC 5-204-5 *et seq.*

³ Petition at 1. The Company also made errata filings on February 4, 2025, and February 5, 2025 ("February 5, 2025 Errata").

and to present costs associated with other environmental projects previously approved by the Commission.⁴ The Company also provides the proposed cost allocation, rate design, and accounting treatment for service rendered during the proposed rate year, which commences on November 1, 2025, and extends through October 31, 2026 ("Rate Year"), as related to the proposed Rider E.⁵

Dominion proposes a total revenue requirement of \$37,243,743 for the Rate Year.⁶ If the revised Rider E for the Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to the Company, implementation of its revised Rider E on November 1, 2025, would decrease the monthly bill of a residential customer using 1,000 kilowatt hours per month by approximately \$0.72, compared to the current Rider E.⁷

Dominion also requests a waiver, in part, of Rules 20 VAC 5-204-60 ("Rule 60") and 20 VAC 5-204-90 ("Rule 90") of the Rate Case Rules with respect to Schedule 46.⁸ Rule 60 states that an application for a rate adjustment clause filed pursuant to Chapter 23 of Title 56 of the Code shall include Schedule 46, "Rate Adjustment Clauses and Prudency Determinations Pursuant to Chapter 23 (§ 56-576 *et seq.*) of the Code of Virginia." Schedule 46, which is identified and described in Rule 90, requires an applicant to provide certain information, including key documents supporting the projected and actual costs recovered through the rate adjustment clause, such as economic analyses, contracts, studies, investigations, results from

⁸ *Id.* at 9-10.

requests for proposals, and cost/benefit analyses.⁹ According to Dominion, the supporting documentation responsive to this requirement is voluminous, and therefore the Company seeks waiver of the requirement to file 12 hard copies of the information.¹⁰ Instead, the Company proposes to: (i) provide the Commission with one hard copy and three electronic copies on compact discs, which were included with the filing, and (ii) provide the documentation to Commission Staff ("Staff") and any future case participants in electronic format.¹¹

To the extent necessary, Dominion also requests that the Commission waive, in part, the requirement under Rule 60 to file Filing Schedules 3-5, for the year-end 2022 and 2023 capital structures, because the Filing Schedules for the 2022 capital structure have already been reviewed and approved by the Commission in Case No. PUR-2023-00101¹² and the Filing Schedules for the 2023 capital structure are being reviewed by the Commission in Case No. PUR-2024-00097¹³ (collectively, with the request above, "Waiver Requests").¹⁴

Finally, in conjunction with the filing of its Petition, on January 23, 2025, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Order and Additional Protective Treatment ("Motion for Protective Ruling") and a proposed protective

Con. Cen. No. 240240103, Final Order (Feb. 28, 2024).

¹³ See *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider GEN, under § 56-585.1 A 6 of the Code of Virginia and the consolidation of Riders B, BW, GV, US-2, US-3, and US-4 pursuant to § 56-585.1 A 7 of the Code of Virginia*, Case No. PUR-2024-00097, Doc. Con. Cen. No. 240630044, Petition at 10, 15 (June 4, 2024).

¹⁴ February 5, 2025 Errata at 9-10.

order that suggests procedures for the use of confidential and extraordinarily sensitive information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; Dominion should provide public notice of its Petition; hearings should be scheduled for the purpose of receiving testimony from public witnesses and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or to participate as respondents in this proceeding; and Staff should be directed to investigate the Petition and file testimony and exhibits containing its findings and recommendations thereon. We also find that a Hearing Examiner should be appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations.

Further, for purposes of making the Petition complete and commencing this proceeding, we find that Dominion's Waiver Requests should be granted, based on the particular facts of this case.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This case is docketed and assigned Case No. PUR-2025-00017.

(2) All pleadings in this matter shall be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure

("Rules of Practice").¹⁵ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling and filing a final report. A copy of each filing made with the Commission's Clerk's Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.¹⁶

(5) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Company's Petition, as follows:

¹⁵ 5 VAC 5-20-10 *et seq.*

¹⁶ Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

- (a) A hearing for the receipt of testimony from public witnesses on the Company's Petition shall be convened telephonically at 10 a.m. on June 25, 2025.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before June 18, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141.
- (d) Beginning at 10 a.m. on June 25, 2025, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

(6) The evidentiary portion of the hearing on the Petition shall be convened at 10 a.m. on June 25, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and the Staff.

(7) An electronic copy of the public version of the Company's Petition may be obtained by submitting a written request to counsel for the Company: Elaine S. Ryan, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or eryan@mcguirewoods.com. Interested persons may also download unofficial copies from the Commission's website: scc.virginia.gov/case-information/.

(8) On or before March 14, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC
OF A PETITION BY
VIRGINIA ELECTRIC AND POWER COMPANY
D/B/A DOMINION ENERGY VIRGINIA
FOR REVISION OF RATE ADJUSTMENT CLAUSE:
RIDER E, FOR THE RECOVERY OF COSTS INCURRED TO
COMPLY WITH STATE AND FEDERAL ENVIRONMENTAL
REGULATIONS
CASE NO. PUR-2025-00017

On January 23, 2025, pursuant to § 56-585.1 A 5 e of the Code of Virginia, the directive contained in Ordering Paragraph (7) of the Final Order issued by the State Corporation Commission ("Commission") on September 19, 2024 in Case No. PUR-2024-00013, and the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities, 20 VAC 5-204-5 *et seq.*, Virginia Electric and Power Company d/b/a Dominion Energy Virginia ("Dominion" or "Company") filed with the Commission a petition ("Petition") for an annual update with respect to its rate adjustment clause, designated Rider E, for the recovery of costs incurred to comply with state and federal environmental regulations at the Company's Bremo, Chesterfield, Clover, and Mt. Storm Power Stations. Dominion states that it is filing this annual update to inform the Commission of the status of the environmental project located at the Mt. Storm Power Station, including projected expenditures, and to present costs associated with other environmental projects previously approved by the Commission. The Company also provides the proposed cost allocation, rate design, and accounting treatment for service rendered during the proposed rate year, which commences on November 1, 2025, and extends through October 31, 2026 ("Rate Year"), as related to the proposed Rider E.

Dominion proposes a total revenue requirement of \$37,243,743 for the Rate Year. If the revised Rider E for the Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to the Company, implementation of its revised Rider E on November 1, 2025, would decrease the monthly bill of a residential

customer using 1,000 kilowatt hours per month by approximately \$0.72, compared to the current Rider E.

Further details of the Company's proposal are set forth in the Company's Petition. Interested persons are encouraged to review the Company's Petition, testimony and supporting documents.

TAKE NOTICE that the Commission may adopt rates, charges and/or terms and conditions that differ from those appearing in the Company's Petition and supporting documents and may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Petition and supporting documents.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled a public hearing on Dominion's Petition and assigned a Hearing Examiner to conduct all further proceedings in this matter on behalf of the Commission. A hearing for the receipt of testimony from public witnesses on the Company's Petition shall be convened telephonically by the Hearing Examiner at 10 a.m. on June 25, 2025. On or before June 18, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in three ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/pages/Webcasting; (ii) by completing and emailing the PDF version of this form to SCCInfo@scc.virginia.gov; or (iii) by calling (804) 371-9141. This public witness hearing will be webcast at scc.virginia.gov/pages/Webcasting.

Beginning at 10 a.m. on June 25, 2025, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.

On June 25, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Hearing Examiner will convene a hearing to receive testimony and evidence related to the Petition from the Company, any respondents, and the Staff of the Commission ("Staff").

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

An electronic copy of the public version of the Company's Petition may be obtained by submitting a written request to counsel for the Company: Elaine S. Ryan, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or eryan@mcguirewoods.com. Interested persons may also download unofficial copies of the Petition and the public version of other documents filed in this case from the Commission's website: scc.virginia.gov/case-information/.

On or before June 18, 2025, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2025-00017.

On or before April 11, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff electronically as described above. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00017. For additional information

about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing.

On or before May 14, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00017.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The public version of the Company's Petition, the Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and the public versions of other documents filed in the case may be viewed at: scc.virginia.gov/case-information/.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) The Company shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before April 4, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling.

(11) On or before June 18, 2025, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/casecomments/Submit-Public-Comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00017.

(12) On or before April 11, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff as described in Ordering Paragraph (3). Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00017.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve upon the respondent a copy of the public version of the Petition and supporting materials, unless these materials already have been provided to the respondent.

(14) On or before May 14, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served on the Staff, the Company, and all other respondents as described in Ordering Paragraph (3). In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00017.

(15) The Staff shall investigate the Petition. On or before May 28, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof on counsel to the Company and all respondents as described in Ordering Paragraph (3).

(16) On or before June 11, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve a copy of its rebuttal testimony and exhibits on the Staff and all respondents as described in Ordering Paragraph (3).

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by Ordering Paragraph (2), all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to the Staff.¹⁷ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) For purposes of making the Petition complete and commencing this proceeding, we grant Dominion's Waiver Requests based on the particular facts of this case.

(20) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

¹⁷ The assigned Staff attorneys are identified on the Commission's website, scc.virginia.gov/case-information/, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00017, in the appropriate box.

Amelia County Welcomes New County Administrator!
 Press Release
 February 26, 2025

Amelia County Board of Supervisors Appoints New County Administrator

The Amelia County Board of Supervisors is pleased to announce the appointment of Eric S. Pollitt as its County Administrator. At its meeting on Wednesday, February 26th, the Board of Supervisors unanimously approved an employment agreement with Mr. Pollitt who currently serves as the Town Manager of Tappahannock, Virginia. Prior to his tenure in Tappahannock, Mr. Pollitt served as Town Manager of Glasgow, Virginia and as a Management Analyst for Fluvanna County, Virginia. Mr. Pollitt began his local government management career as an ICMA Management Fellow for Templeton, Massachusetts. Mr. Pollitt succeeds A. Taylor Harvey, III who left in August 2024.

Amelia County Board of Supervisors Chairman David Felts said, "We are excited to welcome Eric Pollitt to Amelia County. Eric brings considerable knowledge and skills to the position as well as experience as a chief administrator in other Virginia localities. The Board was particularly impressed with Eric's proven track record managing local government finances and obtaining and administering grants as well as his highly collaborative approach to working with staff, the governing body and the community. We are certain that Eric will be a valuable asset to Amelia County, and we are looking forward to him assuming his duties".

The Board of Supervisors conducted a national search for the new County Administrator, assisted by The Berkley Group of Bridgewater, Virginia. The Board of Supervisors also expressed their sincere appreciation for the professional services of Clarence Monday who provided valuable support as Interim County Administrator for the past eight months.

Mr. Pollitt earned a Masters in Public Administration from the University of Kentucky with a concentration in public financial management. He holds a Bachelor of Science degree from Virginia Commonwealth University with a major in political science and minor in economics. Eric is a member of both the Virginia Local Government Management Association and the International City/County Management Association, and he is a Certified Zoning Official. Mr. Pollitt commented, "I am honored and humbled to serve as Amelia County's next County Administrator. I am excited to begin working collaboratively with the Board of Supervisors. I deeply appreciate the time and care taken to ensure the right fit for the role. I look forward to working with the County's staff, being a part of the community, and serving Amelia County to the best of my abilities."

Mr. Pollitt will join Amelia County as the new County Administrator on April 14th.

Dear Friends,

Please find attached a letter from Virginia Association of Counties (VACo) Executive Director Dean Lynch to Governor Youngkin regarding SB 1307, which provides a local referendum financing option for school construction across the Commonwealth. We strongly support this bill as it is one of our top legislative priorities. We kindly ask that the Governor and his policy team consider the needs of our member counties as you review this legislation passed with broad bipartisan support by the General Assembly. Thank you in advance for your consideration of this request and please do not hesitate to let us know if you have any questions or concerns.

Sincerely,

Jeremy R. Bennett

The Honorable Glenn A. Youngkin
Office of the Governor
P.O. Box 1475
Richmond, Virginia 23218

Dear Governor Youngkin,

I write on behalf of the Virginia Association of Counties to encourage you to approve [SB 1307 \(McPike\)](#), which empowers local elected leaders and their citizens to address the critical issue of aging school infrastructure. This bill does not represent an automatic tax increase and is merely a local option for localities and their citizens to consider. As you are aware, this legislation would permit any county or city to impose an additional local sales and use tax of up to 1 percent, if initiated by a resolution of the local governing body and approved by voters at a local referendum. The revenues of such a local tax would be used solely for capital projects for the construction or renovation of schools. Currently, this authority is limited to the qualifying localities of Charlotte, Gloucester, Halifax, Henry, Mecklenburg, Northampton, Patrick, and Pittsylvania Counties and the City of Danville. Citizens in eight of these localities have democratically voted to exercise this authority for the betterment of their children and communities.

We are appreciative of the efforts and funding made in your introduced budget as well as in prior fiscal years to add additional resources for school construction financing through such programs as the Literary Fund and School Construction Assistance Program. Though significant, the total need is still substantial and will require an all of the above approach by both the state and local governments to solving it. As you are aware, according to the Commission on School Construction and Modernization, the majority of public schools in Virginia are 50 years or older and the estimated cost of construction needed to replace and modernize these buildings is \$25 billion. Whether a locality's student population is rapidly expanding and requiring the construction of new schools, or a locality has existing aged infrastructure badly in need of replacement or repair, or both, this issue impacts every locality in the Commonwealth. The condition of the facilities in which children are educated directly impacts their ability to learn.

Thank you for your consideration. I would be happy to discuss this issue further with you or with your staff, and may be reached at dlynch@vaco.org or 804-343-2511.

Sincerely,

Dean A. Lynch, CAE

Subject: OAA Cooperative Grant Updates
Attachments: Primary_Contact_Registration-revised.docx

County Administrators—

Thank you for sending in names for the committee to review the grant proposals to offer up the final recommendations on actions for the OAA Cooperative Grant.

The following persons will be reviewing today and on 3/10:

Jessica Easter—Amelia, environmental specialist

Crystal Baker—Prince Edward, finance manager

Logan Presley—Nottoway, finance manager

Leslie Schneider—Charlotte, Commonwealth's Attorney

On Monday 3/3 we had a conversation with OAA representatives Tony McDowell (executive director), Charlie Lintecum (Director of Operations), and Sharekka Bridges (grants compliance analyst).

They are enthusiastic about the possibilities for a cooperative grant proposal, so encouraged ongoing work towards the April 1st deadline. And OAA will work closely with us over the next several weeks to ensure a success.

The following points were noted:

- 30-40% match will be appropriate
- Correction on amount available for match from OAA Allocation through 2026 → \$253,191 (could also apply for Gold Standard which would add an additional \$50-60K)
 - 30% match → Total Grant for 2025-2026 would be \$843,970
 - 40% match → Total Grant for 2025-2026 would be \$632,977.50

City/County	Total IDIC Available for Match
Amelia	\$ 28,903.00
Buckingham	\$ 36,707.00
Charlotte	\$ 39,886.00
Cumberland	\$ 28,903.00
Lunenburg	\$ 25,435.00
Nottoway	\$ 38,441.00
Prince Edward	\$ 54,916.00

TOTAL	\$ 253,191.00
--------------	----------------------

- Recommended submitting each proposal separately
 - Allows for counties to choose their individual contribution percentages according to their own interests

- Ease of grant monitoring from OAA regarding achieving reasonable and measurable progress on goals

Currently five proposals on the table which will need to be reviewed in light of priorities and other resources available to address:

- 1) Recovery Programming at the Regional Jail – recommendation by Superintendent Townsend would be to utilize the McShin Foundation—likely funding direct to regional jail then RFP process. \$200,000
- 2) Pre-Development work for the proposed 100-bed Recovery Campus in Halifax Co (serving our region as well) -- Joint Commission on Recovery Housing \$210,790
- 3) Empowering Piedmont Coalition (prevention) to formalize organization with paid staffing. \$367,500
- 4) Peer-Recovery Specialist/Prevention Work--VDH Piedmont Health District. \$175,000
- 5) South Central Work Force Development Board. \$300,000

TO DO as soon as possible:

OAA Grants Portal Registration:

Each county needs to register in the **OAA Grants Portal**. The link to access the portal is <https://voaa.my.site.com/grants/s/login/?ec=302&startURL=%2Fgrants%2Fs%2F>. The portal requires a Primary User Registration Authorization process. This process will require each county to identify a primary user, complete the attached **Primary Contact Registration letter** (signed and placed on county letterhead), and upload as a part of the registration process.

Once a primary user has been granted access for each partner county, they will be able to add up to four (4) secondary users via the Grants Portal. A [Quick Start Guide](#) and a [User Guide](#) is available for provide guidance regarding navigating through the portal on the [OAA website](#).

Ms. Tracy Gee
County Administrator
Lunenburg County

Via Email: TGee@LunenburgVA.gov

Dear Tracy,

Please accept the attached **DRAFT** FY 2024 SWIA report as submitted to the Virginia Department of Environmental Quality as required by our Host Agreement requirements for Section 20 – Books and Records.

This letter and attached report documents (submitted to DEQ on 2-13-2025) will be resubmitted to Lunenburg County upon VA DEQ's approval of the submitted SWIAA report. This **DRAFT** and the subsequent **FINAL** (upon approval) will fulfill both the annual report and annual certificate requirements of the Host Agreement. **approved by DEQ 3/3/25*

Please let me know if you have any questions or need additional information.

Best wishes,

A handwritten signature in cursive script, appearing to read "Mary M. O'Brien".

Facility Comments:

Comment Added during Report Submission on 2/13/2025:
 Landfilled onsite exceeds variance threshold of 10% (49.81%)
 Total waste received exceeds variance threshold of 10% (49.81%) Increase from Tri City Transfer station.
 Landfilled onsite exceeds variance threshold of 10% (88.78%)
 Total waste received exceeds variance threshold of 10% (88.78%)
 Jurisdiction: VA - Virginia | Waste Type: Vegetative/Yard Waste-Probably a different classification
 Total waste received exceeds variance threshold of 10% (-89.44%)

Jurisdiction: VA - Virginia | Waste Type: Construction/Demolition/Debris-Increase in volume from Tri City transfer station

Landfilled onsite exceeds variance threshold of 10% (13.18%)

Total waste received exceeds variance threshold of 10% (13.18%)

Jurisdiction: VA - Virginia | Waste Type: Other Waste

Clean concrete job

Total waste received exceeds variance threshold of 10% (-96.78%)

Jurisdiction: VA - Virginia | Waste Type: Sludge-Did not have a sludge job in 2024

Landfilled onsite exceeds variance threshold of 10% (146.66%)

Total waste received exceeds variance threshold of 10% (146.66%)-Due to near max daily volumes consistently in 2024 all increased volumes are from Tri City Transfer station

Deadline: Friday, March 21, 2025 (11:59 PM EDT)

Nottoway High School Softball Fundraiser 2025

Help raise money for the Nottoway County Animal Shelter!

Nottoway High School Softball is proud to announce this fundraiser to help raise money for the Nottoway County Animal Shelter. This store is open for a limited time only and will close on Friday March 21st at 11:59pm. Orders will be delivered by April 3rd. All orders will be processed once the store closes.

Please join us April 8th for our Under the Lights game against Amelia!

Subject: Status of Extending High Bridge Trail to Burkeville

Greetings, Lady and Gentlemen. Following our chat with Del Ware last month, we asked (an old friend) who is director of the Department of Conservation and Recreation (DCR), who has today provided a thorough answer to your question of the possibility of completing the proposed extension to Burkeville of the High Bridge Trail. Here is his reply, with regards, David Bovenizer:

You submitted an inquiry last week regarding the extension of High Bridge Trail State Park into downtown Burkeville. The agency and the division remain committed to seeing this project completed and recognize the value that liner trails can bring to communities in Virginia.

- In 2006, Norfolk Southern Railroad (NSRR) donated more than 31 miles to DCR to establish High Bridge Trail State Park. NSRR held onto approximately 1 mile of abandoned rail line on each end (leading into Pamplin and Burkeville) for rail removal staging and to protect connections to active rail line.
- After completing trail development, DCR completed the acquisition and opening of the final mile into Pamplin in July 2020.
- In 2021, DCR began negotiating the acquisition of the final mile into Burkeville. The agency has completed a real estate appraisal, a rail line infrastructure evaluation, and boundary survey, but NSRR pulled out of negotiations and stated that they would not sell Burkeville until they could close the crossing of the active rail line in Pamplin. The agency supports the crossing closure, and is worked to acquire the additional property necessary to close the active crossing without landlocking private landowners that are adjacent to the trail and to the active rail line.
- In October 2023, the Town of Pamplin donated a tract land that provided new public road frontage and fulfilled the requirement of the Pamplin purchase agreement.
- During the first half of 2024, DCR renewed its efforts to negotiate with NSRR on Burkeville. In March, Director Wells contacted NSRR requesting to finalize the purchase agreement for the Burkeville Extension. During the summer, NSRR closed its Roanoke real estate office and forced the consolidation of their nationwide real estate team in Atlanta. None of the Virginia staff agreed to move and they were terminated. In late summer and early fall, RPO was connected to a new NSRR contact who had recently move from Columbus, Ohio to Atlanta, and knew nothing of the previous work to acquire, complete, and extend High Bridge Trail.

We continue to work to keep NSRR focused on the Burkeville project, but this small project struggles to get their attention as they deal with larger land issues elsewhere in their system.

If NSRR were to agree to the terms of sale, DCR's staff would need to add it to the current acquisition queue and complete a Phase I Environmental Review. Assuming we received permission from NSRR by the end of January, we could close the project at the end of 2025.

Cordially,

R. Lee Ware, Jr.

NONPOINT NUTRIENT CREDIT GENERATION PLAN APPROVAL

Certificate No. Chowan-012

Project Name: Barndo Nutrient Bank

Sponsor: Prince, LLC
14321 Helmsley Road
Midlothian, VA 23113

Authorized Nutrient Broker: S&J Environmental, LLC
14321 Helmsley Road
Midlothian, VA 23113

Transmitted Electronically: ecocapva@gmail.com
canopyva@gmail.com
sbowen@nottoway.org

Location of Project Site: Located at 2376 Hungarytown Road in Blackstone, Nottoway County, Virginia (HUC 030102010106)

Project Description:

The Sponsor (Prince, LLC) has initiated a land use conversion on approximately 39.36 acres of pastureland to forested and fallow condition in accordance with the Nutrient Reduction Implementation Plan (NRIP) for the Barndo Nutrient Bank (BNB) dated November 11, 2024. The land use conversion may generate up to 160.78 pounds of nitrogen, 19.48 pounds of phosphorus, and 1,178 pounds of sediment credits.

The nutrient reductions resulting from this activity will generate nonpoint source credits transferable to those entities requiring credits in accordance with the Virginia stormwater offset program (VA Code § 62.1-44.15:35) and the Virginia Soil and Water Conservation Board's Guidance Document on Stormwater Nonpoint Nutrient Offsets approved on July 23, 2009, to those regulated entities qualifying for nutrient credits.

NONPOINT NUTRIENT CREDIT GENERATION PLAN APPROVAL

Barndo Nutrient Bank

Page 2 of 2

Findings:

A desktop analysis of the proposed land conversion was conducted utilizing historical aerial imagery to verify the baseline and current conditions of the property following receipt of the NRIP. Supplemental photographs and drone imagery were also submitted to further verify the conditions of the property are in line with the requirements of the program. The site had been planted in the loblolly pines at a rate of approximately 550 stems per acre in February 2021. Two segments of overhead powerlines, as well as a viewshed of a pond, existed on the property and have been converted to fallow condition.

The application fee was paid by the sponsor on February 6, 2025, in accordance with 9VAC25-900-200.

Approval:

In accordance with 9VAC25-900, BNB is approved and will be authorized to transfer 160.78 pounds of nitrogen, 19.48 pounds of phosphorus, and 1,178 pounds of sediment credits with the following requirements:

1. A restrictive covenant has been recorded on the property and a copy has been submitted to the Virginia Department of Environmental (DEQ).
2. Evidence that all baseline requirements have been met for all lands within the management area defined by 9VAC25-900-10.
3. A site visit is conducted by DEQ staff to verify current site conditions.

Failure to complete the conditions of this approval may result in revoking the bank's approval status on the Nonpoint Source (NPS) Credit Registry and/or removal of the bank from the NPS Credit Registry on the Regulatory In-lieu Fee Bank Information Tracking System (RIBITS).

The Nonpoint Nutrient Credit Generation Certification is the formal process for DEQ to release nutrient credits, a nutrient bank is entitled to an informal fact finding conference or proceeding in accordance with the provisions of the Administrative Process Act (APA) at § 2.2-4019 of the Code of Virginia, unless the applicant and DEQ consent to waive such a conference or proceeding to go directly to a formal hearing. Please indicate your desire to participate in an informal fact finding conference or proceeding by responding to DEQ at the email or phone below.

O. Closed Meeting

Motion to Adjourn

C

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 27TH DAY OF FEBRUARY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
 DAPHNE V. NORTON, VICE CHAIRMAN
 RICHARD H. INGRAM, JR.
 GEORGE G. TOTH, III
 STEVE W. BOWEN, COUNTY ADMINISTRATOR
 CATHERINE DOUGLASS, COUNTY ATTORNEY

ABSENT: JOHN A. ROARK

Chairman Collins calls the meeting to order at 7:00 p.m. Due to last week's inclement weather, the regular monthly Board meeting was postponed until tonight.

Supervisor Toth provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Administrator Bowen would like to amend the agenda to have J-5 include Select a Chair for the Courthouse Committee and add J-7 Restructure Finance Committee and Select a Chair. Supervisor Ingram moves to approve the agenda with the amendments. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Approval of the Minutes: Minutes are presented from the regular Board meeting held January 16, 2025. Supervisor Toth moves to approve the minutes as presented. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Pastor Ted Fuson, Blackstone Baptist Church, offers an invocation.

Chairman Collins begins the Delegations from the Public.

1 – Woodson Irby: Asks the Board to consider figures he provides for possible solar revenue in light of Comprehensive Plan language that limits production to the County's consumption. He suggests a 400 MW limit.

Chairman Collins begins tonight's public hearings.

1 – Special Exception – Manufactured Home, H. M. Services

Supervisor Toth moves to open the public hearing for H. M. Services request to place a manufactured home. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent

G. G. Toth Yes

Mr. Zody provides the details of the request. The request by H. M. Services is to demolish an existing blighted residence and replace it with a manufactured home. The Planning Commission heard this request on February 18th and recommended it to the Board with a vote of 5-0-1, Jeff Lavelle having recused himself from the vote.

The Planning Commission and Staff support the following conditions:

1. This special exception is granted for a double-wide manufactured home upon applying for and receiving a demolition permit before new construction/placement can commence.
2. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.
3. Well and Septic Permits issued by the Virginia Department of Health prior to occupancy of the home (i.e. Occupancy Permit).
4. Applicant shall secure a driveway permit through the Virginia Department of Transportation.

Vice Chair Norton moves to close the Public Hearing. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Supervisor Toth motions to grant the applicant's request to remove the existing residence and replace it with a doublewide manufactured home. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

2 – Special Exception Amendment – Tropical Treehouse

Supervisor Toth moves to open the public hearing for the Special Exception Amendment for Tropical Treehouse. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Mr. Zody provides the details of the request. The request by Tropical Treehouse is to amend two conditions of the previously approved Special Exception for a duplex located at 2551 Green Hill Road to allow renting to non-nursery workers. Due to market conditions and technological innovations, Tropical Treehouse does not have a worker to fill a vacancy. The Planning Commission voted 5-0-1 to deny the request, Jeff Lavelle having recused himself from the vote. Mr. Zody notes another option is to cut off a five-acre parcel which makes the duplex the primary use on the new parcel rather than a subordinate use on its current parcel.

Staff recommends the amendment to the original Special Exception with one condition:

1. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.

1 – Gene McAuliffe, owner of Cross Creek Nursery, is present and speaks to the efficiencies in the industry which led to having only one worker occupying the duplex. He hopes to allow outside renters in the existing vacancy.

Supervisor Toth suggests holding a public hearing to amend the Special Exception allowing for an H-2A worker from other local farms. Mr. Zody states that Commissioner Thomas wanted the Board to consider the recommendation of having the duplex on its own five-acre parcel.

Supervisor Ingram moves to close the Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Supervisor Toth moves to table this for a public hearing on having outside farm workers as renters. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

3 – Special Exception – Nottoway County Telecommunications Tower

Supervisor Ingram moves to open the public hearing for the Nottoway County Telecommunications Tower. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Mr. Zody states that the applicant, Nottoway County, is seeking approval to construct a 300' communications tower on tax map # 31-70, zoned Conservation, using .11 acres of the 1.3-acre site. As part of the Special Exception request, the developer is seeking a waiver of the setback requirement in Sec. 4-13-10 [Setbacks] of the Zoning Ordinance. Staff supports the complete waiver request with the following conditions:

1. This special exception is granted for a 300' telecommunications radio tower.
2. This special exception may be revoked by Nottoway County or by its designated agent for failure to comply with any of the listed or amended conditions made by staff, the Planning Commission.
3. The propane tank slab must be marked in the field.
4. The drainfield shall be marked in the field and on construction plans.
5. All construction related to the tower shall be set back ten (10) feet from the active drainfield and the drainfield and setbacks shall be marked in the field and on the construction plans.

The Planning Commission recommended approval with a vote of 5-1-0 with the dissenting vote made by Commissioner Thomas.

1 – Bryan Thomas, speaking as a citizen, believes the County is making a mistake with the placement of the tower at its proposed location with esthetics cited as a reason.

Mr. Hyde speaks to the additional expense of a necessary microwave shot from a remote location if sited elsewhere versus using conduit if sited at the proposed location. As to appearance, three towers are visible from Highway 460 near the Courthouse Complex though all three are set back.

Jeremiah Knowles, CTA, notes that in addition to the cost of the microwave shot, a secondary tower to extend above the tree line would be necessary. Several locations near the current dispatch center were examined for viability but this proposed location was the best suited. Should the tower fall, it is engineered to collapse on itself and has no guy wires.

Mr. Zody confirms the adjacent residents were notified of this Special Exception request, and no objections were brought forward.

Mr. Knowles and Steve Mondibrown, Level-Up Towers, expects no objections from the FAA based on location and flight pattern. Mr. Mondibrown anticipates FAA's determination will be a standard dual medium-intensity lighting system which includes a red night beacon and white day beacon. Mr. Knowles says there will be an eight-foot fence around the compound for camouflage and security.

Supervisor Ingram moves to close the Public Hearing. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Administrator Bowen adds that one reason for locating the tower at the proposed location was to have it farther from the historical courthouse. Vice Chair Norton moves to approve the Special Exception request for the Nottoway County telecommunications tower as written. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The Board receives the following Department reports:

1 –Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for January 2025. Aaron French, Assistant Resident Engineer, reports that the Route 46 bridge project is on schedule for a mid-April 2025 completion. The construction contract for the R-cut project at Route 723 was awarded, and construction is set to begin mid-May. Highway 460 mile-marker signs have been installed. Highway 360 mile-marker signs have been ordered. The Secondary Six-Year Plan process will begin soon. Crystal Lake Road is the next rural rustic project in the schedule and is fully funded. VDOT is focused statewide on pothole and safety issues. For road maintenance issues, citizens can report directly to VDOT by calling 1-800-FOR-ROAD (367-7623). Vice Chair Norton inquires about the speed study on Schutt Road. VDOT has a list of school bus stops and is reviewing where signs are warranted. Also, a pipe on Ridge Road will be replaced in the near future.

2 – Solid Waste: January 2025 Nottoway County Sanitary Landfill waste report: an average of 41.4 tons of waste per day received. December 2024 Nottoway County Sanitary Landfill waste report: an average of 46.56 tons of waste per day received. January thru December 2024 Nottoway County Sanitary Landfill waste report. DEQ No-Deficiency Letter for the January 15, 2025 landfill inspection, includes Compliance Inspection Report.

3 – Building Inspection/Erosion & Sediment Control: January 2025 report; 29 building permits issued for \$7,653.99 in permit fees with \$1,311,618.00 in construction value; 115 inspections performed.

4 – Animal Control: January 2025 report; 137 animal control calls; 1 summons issued; 1 conviction (2 null process – plea deal); 5 compliance notifications issued; 0 dogs held over 40 days. Pictures of donations received in January are included in the package.

5 – Piedmont Health District: No report provided.

6 – Nottoway County Public Library: No report provided.

7 – Nottoway County School Board: Dr. Marcia Martin expresses appreciation for the Board of Supervisors' participation in the joint worksession. Winter weather has disrupted the school schedule recently, but they are back into a routine this week and look forward to spring sports and activities.

Three budget adjustments are presented in the package.

1 – Revenues:

25.4.204.41040.0050.022.000.100	VPSA – School Security Grant	\$173,954.00
---------------------------------	------------------------------	--------------

Expenditures:

25.4.201.63700.8100.900.000.100	Transport, Cap Outlay (Bus Radios)	\$173,954.00
---------------------------------	------------------------------------	--------------

2 – Revenues:

4.201.33020.300.0270	NMS School Improvement Grant	\$169,554.00
----------------------	------------------------------	--------------

Expenditures:

4.201.61310.1620.200.100.540	Supplemental Salary – Elementary	\$15,120.00
4.201.61310.1620.300.100.540	Supplemental Salary – Secondary	\$15,120.00
4.201.61310.2100.200.100.540	FICA	\$1,157.00
4.201.61310.2100.300.100.540	FICA	\$1,157.00
4.201.61310.3000.200.100.540	Purchased Services – Elementary	\$68,500.00
4.201.61310.3000.300.100.540	Purchased Services – Secondary	\$68,500.00

3 – Revenues:

4.201.33020.300.0271	NIS School Improvement Grant	\$49,100.00
----------------------	------------------------------	-------------

Expenditures:

4.201.61310.3000.200.100.541	Purchased Services – Elementary	\$49,100.00
------------------------------	---------------------------------	-------------

Vice Chair Norton moves to approve the three budget adjustments as presented. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for January 2025. Mr. Zody shares he is cleaning up the Pickett Park maps and having the GIS updated to market the property. Chairman Collins notes that when selling this property, it will become necessary to survey the property as accurate descriptions are difficult to determine.

Per State Code Section 15.2-2285(B), no zoning ordinance shall be amended unless the Board has referred it to the Planning Commission. Ms. Douglass states that by passing the ordinance, a requirement is now in place that any amendment must go to the Planning Commission for their recommendation. The Board is not bound to accept the recommendation. Mr. Zody will advertise the public hearings for the bodies' respective April meetings.

10 – Emergency Services: Emergency Services Coordinator's Report for February 2025. Fire & EMS Working Group Planning Meeting Agenda for February 4, 2025. Mr. Hyde reports that the GIS data outlining which company serves and which hospital is closest to a location has been loaded into the CAD system, including a helicopter and ambulance layer.

Mr. Hyde asks the Board to adopt a resolution for a local declaration of emergency due to the February winter storms. This is concurrent with the Governor's February 10th declaration and opens the doors to public assistance for damages over a certain dollar amount. Vice Chair Norton moves to declare a local emergency and accept the resolution as presented. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Administrator Bowen notes that, as discussed in the recent worksession, with Supervisor Roark's absence, any votes resulting in a tie would be defeated.

Mr. Hyde then presents two reimbursable grant documents for funds that had been obligated before DOGE cuts. Per a conversation with the grants administration office, the money should be secured, but there could be a delay. The County would invest \$8600 for \$180,000 in equipment, but the County would not expend its match until FY26. One grant is for two generators, the second grant is for hurricane-related shutters. Administrator Bowen asks if the Board does not accept one of the grants, would that affect the other as his opinion is that the generators are more important to the County than the shutters, particularly in light of coming construction. Also, having dispatch located in the current VDH location is an unknown. Mr. Hyde suggests accepting the grant and then deciding later about spending the money.

Supervisor Ingram moves to accept the two (2) FEMA Hazard Mitigation Grant Program awards to Nottoway County for emergency generators for two critical facilities and protective measures for windows and doors for two critical facilities and authorize the County Administrator to execute the signatures required in these two grant award packages and the Emergency Services Coordinator to submit them to the Virginia Department of Emergency Management. A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

There is an Emergency Medical Dispatch grant to be heard at the March meeting.

11 – Piedmont Regional Jail Authority: Chairman Collins reports that Delegate Lee Ware and Senator Mulchi have worked towards securing the County an additional \$100,000 for FY26 in funding for VCBR residents incarcerated at PRJ. Much time and work went into this outcome, and much work will continue towards seeing all expenses covered.

12 – Local Redevelopment Authority: Lease Actions Income Report dated February 6, 2025. Officer's Club Income Report dated February 6, 2025. A notice is included in the package that a Real ID will be required to enter Fort Barfoot beginning May 1, 2025.

Reports, requests, and recommendations of Constitutional Officers:

- 1 – Jane L. Brown, Clerk: No report provided.
- 2 – Robert L. Jones, Sheriff: Present but nothing to report.
- 3 – Tammie A. Raiford, Treasurer: No report provided.
- 4 – Christy A. Hudson, Commissioner of the Revenue: No report provided.
- 5 – Leanne Watrous, Commonwealth's Attorney: Case reports provided in the package.

The Board considers the following unfinished business.

1a – Animal Shelter Update: Supervisor Ingram reads through a comparison of the old shelter versus the new shelter prepared by CARES. Administrator Bowen adds that a pre-bid conference was held February 18th with six contractors present. Some contractors have come to view the facility. There was a meeting with a representative from the State veterinarian's office who made recommendations for consideration. Sealed bids are to be opened March 11th.

1b – Broadband: Administrator Bowen has signed a fourth amendment to the contract.

1c – Landfill: TRC is to speak at the March 13th worksession to present a numbers comparison on landfill options.

1f – The joint meeting with the School Board precluded two Supervisors attending community board meetings. CPMT was canceled. PSR's awards banquet will be held March 6th. Until Supervisor Roark returns, an alternate should consider attending the meeting of the Social Services Board.

The Board considers the following new business:

1 – Set Animal Confinement Administrator Bowen explains that the Board sets dog confinement annually. Supervisor Toth makes a motion to advertise the public notice to confine dogs from April 1, 2025, through May 31, 2025. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

2 – Prince Edward Reimbursement Request: Administrator Bowen informs the Board that the County received a request for payment of half the cost of the Prince Edward boundary line survey work. Prince Edward had informed Administrator Bowen at a meeting that they would be invoicing, and it was noted in the request that Nottoway's Board had previously declined to participate. There is a consensus not to make payment. Much work is forthcoming on this boundary adjustment with Commissioners, registrars, etc. Chairman Collins adds that last year the Board received letters from affected citizens expressing their concerns.

3 – STEPS Appointment: Administrator Bowen would like to serve on the STEPS board and watch the utilization of Nottoway's \$75,000 investment in their homeless shelter project. For that to occur, the vote for Mr. Miller would need to be rescinded. Supervisor Toth moves to rescind the vote to accept Nathaniel Miller's willingness to serve on the STEPS Board for Nottoway County. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent

G. G. Toth Yes

Supervisor Toth moves to appoint County Administrator Steve Bowen to the STEPS board serving as Supervisor Toth's alternate. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

4 – IDA Appointment: Supervisor Toth moves to appoint Nathaniel Miller to serve on the Industrial Development Authority to fill the vacancy created by the resignation of William D. Coleburn, for a term expiring September 18, 2026. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

5 – Restructure of Courthouse Committee: Administrator Bowen suggests removing him from this committee as well as choosing a chair for it. Vice Chair Norton moves to amend the motion passed on January 16, 2025, and strike Administrator Bowen from the Courthouse Revitalization Committee, keeping all other appointments as approved. A second is provided by Supervisor Ingram. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

Discussion follows on having a chair for the larger committees with having co-chairs in case of absence being one option discussed. Administrator Bowen notes that his being removed from the committees is to prevent unintended meetings. As to who chairs, this could be taken up at the next meeting, and, as Administrator, he will set agendas.

6 – Planning and Zoning Fees: Gregg Zody, Planning & Econ. Dev. Director, presents a comparison chart of neighboring localities' fees. New fees would put the cost on developers rather than adding a burden to taxpayers. To Vice Chair Norton's inquiry on budget impact, Mr. Zody is not sure there would be a tremendous amount but that this would be positive movement. A consensus of the Board is to advertise for a public hearing on the matter at the March 20th meeting.

7 – Restructure Finance Committee and Select a Chair: Supervisor Ingram moves to remove Administrator Bowen from the Finance Committee. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The Board considers the following Consent Items.

1 – January Expenditures – All Funds

2 – Refund – Building Permit, Not Required	\$148.50
--	----------

3 – Town of Blackstone – Grant Pass-Through Funds	\$2,405.00
4 – VAcorp – Insurance Reimbursement	\$332.96

Supervisor Ingram moves to approve the Consent Items. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The following information items are presented in the package:

- 1 – CRC – January 2025 Items of Interest
- 2 – Crossroads Patient Report – November & December 2024
- 3 – Annual Report for Nottoway Extension 2024
- 4 – Dominion Energy – (3) Orders/Notices (full docs available in County Administration)
- 5 – Juneteenth Celebration – Farmville: Chairman Collins notes the Board will need to approve an alternate date for its June regular meeting. Administrator Bowen will have this topic on the agenda in May for a decision, perhaps moving it to the following Thursday.
- 6 – Celebration of Virginia's No-Kill Shelters – Richmond
- 7 – Public Notice by Commissioner of Revenue
- 8 – Local Coverage by Virginia State Police: Mr. Hyde speaks to there being twelve Troopers now shared by Nottoway and Dinwiddie counties. Sheriff Jones adds that this has been ongoing for the last six months with Interstate 85 incidents having priority.
- 9 – Brunswick County Government Building Example

Administrator Bowen notes that the Treasurer's Office and Commissioner of the Revenue's Office have moved to Blackstone and are opening to the public tomorrow. The Virginia Heartland Regional Economic Development Alliance has selected an Executive Director, and he will be introduced to the Board soon. The Board is scheduled to meet with Department Heads on March 11th and 18th to hear budget requests. He thanks the Courthouse Committee for touring the Buckingham and Appomattox courthouses; he thanks the respective County Administrators for allowing the tours and sharing their insights. A timeline must be developed and presented to the judge by July 1, and Administrator Bowen will be introducing PPEA Guidelines for adoption next month to help establish an acceptable timeline and budget for the project. He reminds the Board that it is their names on the court order, so there is much for them to consider ahead of the deadline.

Vice Chair Norton attended an informative meeting concerning data centers which could provide the County with a revenue stream.

Supervisor Toth reminds everyone to continue praying for Supervisor Roark and his recovery. Also, pray for the recent house fire on Cottage Road, the injuries and loss of life from it. He looks forward to hearing from the citizens on the new location of the Treasurer and Commissioner.

Chairman Collins speaks to the Code of Virginia and Supervisor Roark's absence due to medical issues. There is no timeline given for a medical absence, so the Board will wait for Supervisor Roark's return.

Supervisor Ingram move that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(3) Discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body, specifically property located near Fort Barfoot; and, § 2.2-3711 (A)(1) Discussion, consideration, or interviews of prospective candidates for employment; assignment, appointment, promotion, performance, demotion, salaries, disciplining, or resignation of specific public officers, appointees, or employees of any public body; specifically relating to personnel matters now pending in County Administration. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Absent
G. G. Toth	Yes

The Board enters Closed Meeting at 9:34 p.m.

Vice Chair Norton moves to reconvene in Open Session with a second provided by Supervisor Ingram. The Board reconvenes at 10:26 p.m.

Vice Chair Norton reads the certification announcement:

WHEREAS, the Nottoway County Board of Supervisors has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

WHEREAS, § 2.2-3712 (D) of the *Code of Virginia* requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

A roll call vote is taken with responses as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	Absent
G. G. Toth	I Certify

Supervisor Ingram moves to adjourn. A second is provided by Supervisor Toth. Chairman Collins adjourns the meeting at 10:28 p.m.

LEGAL NOTICE

Public Hearing

The public is hereby notified that the Nottoway County Board of Supervisors will conduct a public hearing on Thursday, April 17, 2025, at 7:00 p.m. in the General District Courthouse, 328 West Courthouse Road, Nottoway, Virginia, 23955 to consider the following:

Increasing Landfill fees as follows:

<u>Items:</u>	<u>Current Price</u> (effective August 20, 2020)	<u>Proposed Price:</u> (effective July 1, 2025)
Garbage/Trash	\$42 per ton	\$55 per ton
Tires	\$200 per ton	\$200 per ton
Sludge	\$104 per ton	\$104 per ton
Large Container Pickup	\$150 per pick up + \$42 per ton Monthly Lease = \$35	\$150 per pick up + \$55 per ton Monthly Lease = \$50
Small Container Pickup	\$75 per pick up + \$42 per ton Monthly Lease = \$35	\$150 per pick up + \$55 per ton Monthly Lease = \$50
Daily fee	\$10 per day after 10 days	\$10 per day after 5 days

All persons desiring to be heard on this matter are urged to be present on the date and hour aforementioned. A true and complete copy of the proposed fee schedule is available for public inspection during regular business hours at the County Administration Office, 344 W. Courthouse Road, Nottoway, VA 23955.

It is the intention of the Board of Supervisors to comply with the Americans with Disabilities Act. Should you need special accommodations, please contact the County Administration Office prior to 5:00 p.m. on Friday, April 11, 2025.

By Authority of the Board of Supervisors

Steve W. Bowen, County Administrator

Please publish this Legal Notice so it will appear in the newspaper the weeks of April 2, 2025, and April 9, 2025.

LEGAL NOTICE

Public Hearing

The public is hereby notified that the Nottoway County Board of Supervisors will conduct a public hearing on Thursday, April 17, 2025, at 7:00 pm, or as soon thereafter as the public may be heard, in the General District Courthouse located at 328 West Courthouse Road, Nottoway, Virginia 23955 to consider adopting the following Zoning Ordinance and amendments referenced below:

1. A zoning ordinance to amend the following Sections of Article 4, Division 19 – Solar Energy Facilities:

Section 4-19-3 Definitions;

Section 4-19-7 Location, appearance, and operational requirements; and

Section 4-19-10 Federal, state, and local requirements.

2. A zoning ordinance to amend the following Sections of Article 2, Divisions 1-7 (Base Districts Regulations Generally) and Article 6 (Definitions) to add “Government Services” to the definition as a permitted use in Agriculture, Conservation, Rural Residential, Urban Residential, General Business, Light Industrial, General Industrial:

Section 6-1-2 Definitions. To add the definition of a “Government Services” as a permitted use in the following zoning districts;

Section 2-1-3 Agriculture – Permitted Uses;

Section 2-2-3 Conservation – Permitted Uses;

Section 2-3-3 Rural Residential – Permitted Uses;

Section 2-4-3 Urban Residential – Permitted Uses;

Section 2-5-3 General Business – Permitted Uses;

Section 2-6-3 Light Industrial – Permitted Uses; and

Section 2-7-3 General Industrial – Permitted Uses.

3. A zoning ordinance to amend the following Sections of Article 2, Divisions 5-7 (Base Districts Regulations Generally) and Article 6 (Definitions) to add the use of Data Center to the definition as a use permitted by special exception in the General Business, Light Industrial and General Industrial Districts:

Section 6-1-2 Definitions. To add the definition of a “Data Center” as a permitted use in the following zoning districts;

Section 2-5-4 General Business – Uses Permitted by Special Exception (as provided in Article 5);

Section 2-6-4 Light Industrial – Uses Permitted by Special Exception (as provided in Article 5); and

Section 2-7-4 General Industrial -Uses Permitted by Special Exception (as provided in Article 5).

4. A zoning ordinance to amend the following Section of Article 2, Division 1 (Base Districts Regulations Generally) and remove the use of “Duplex”:

Sec. 2-1-4-27 Uses Permitted by Special Exception (as provided in Article 5).

All persons desiring to be heard on this matter are urged to be present on the date and hour aforementioned. A true and complete copy of all the referenced ordinance amendments may be examined at the County Administration Office, 344 W. Courthouse Road, Nottoway, Virginia 23955, during regular business hours.

The Nottoway County Board of Supervisors complies with the Americans with Disabilities Act. Should you need special accommodations, please contact the County Administration Office before 5:00 p.m. on Friday, April 11, 2025.

ARTICLE 4.

DIVISION 19 SOLAR ENERGY FACILITIES

Sec. 4-19-1 Solar and Battery Storage Facilities Purpose and Intent.

The purpose of this article is to provide for and regulate the siting, development, construction, installation, operation, and decommissioning of solar energy and battery storage facilities in the County in a manner that promotes economic development and the safe, effective, and efficient use of such facilities while protecting the health, safety, and welfare of the community and avoiding adverse impacts on County resources.

The intent of this article is to encourage solar energy and battery storage facilities in a manner that promotes the development of renewable energy sources while preserving Nottoway County's rural character and fostering context sensitivity with regards to undesirable impacts on adjacent land uses. As such, Nottoway County is limiting the aggregate total energy generated by all ~~Medium Scale~~ Solar Energy Facilities to the total energy consumed by the unincorporated areas of the County, as well as the energy consumed by the Towns of Blackstone, Burkeville, and Crewe, as well as Pickett Park and Ft. Barfoot.

The County seeks to minimize solar energy facilities' impacts on natural resources, including pollinator and wildlife habitats, and existing agricultural, forestal, residential, commercial, industrial, historical, cultural, and recreational uses of property or the future development of such uses of property in the County. This article is not intended to abridge safety, health, environmental, or land use requirements contained in other applicable laws, codes, regulations, standards, or ordinances.

This article does not supersede or nullify any provision of local, state, or federal law that applies to solar energy facilities.

Sec. 4-19-2 Allowable Zoning Districts.

1. Small Scale Solar Energy Facilities, ~~Medium Scale~~ Solar Energy Facilities, and Battery Energy Storage Facilities shall be uses permitted by a special exception in the A-1 (Agricultural), C-1 (Conservation), LI (Light Industrial), and GI (General Industrial) zoning districts.
2. Solar collectors constructed for a single residential, commercial, or industrial structure not constituting a ~~Medium Scale~~ Solar Energy Facility, or a Small-Scale Solar Energy Facility as defined in this section shall be permitted in any zoning district when approved by the Nottoway County Building Official.

Sec. 4-19-3 Definitions.

The following words, terms, and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Applicant. The person or entity who with due authority submits an application to the County for a zoning permit and/or special exception permit to site, develop, construct, and install a Solar Energy Facility under this article.

Battery Energy Storage Facility. The energy storage equipment and technology within an energy storage project that is capable of absorbing energy, storing such energy for a period of time, and redelivering such energy after it has been stored.

Buffer (also buffer yard, buffer area): A yard or area improved with screening and/or landscaping materials as required between abutting uses or districts of differing intensities for the purpose of decreasing the adverse impacts of one differing use on another.

Facility Owner. The person or entity that owns all or a portion of a Solar Energy Facility or Battery Energy Storage Facility, whether or not it owns the Site on which the facility is located.

Integrated PV. Photovoltaics incorporated into building materials, such as shingles.

Medium-Scale Solar Energy Facility. A renewable energy project that either: (1) generates electricity from sunlight, consisting of one or more PV systems and other appurtenant structures and facilities (including battery storage) within the boundaries of the site, or (2) utilizes sunlight as an energy source to heat or cool buildings, heat or cool water, or produce mechanical power by means of any combination of collecting, transferring, or converting solar-generated energy. The term applies to, but is not limited to, any solar photovoltaic system, solar thermal system, and/or solar hot water system that has a project area four acres or greater. ~~The up to fifty acres under panel or five megawatts total megawattage for all medium-scale sites within the entirety of the unincorporated areas of the County shall not exceed 170 megawatts as required by parcel dimension or topography.~~

Operator. The person or entity responsible for the operation and management of a Solar Energy Facility or Battery Energy Storage Facility.

Photovoltaic or PV. Materials and devices that absorb sunlight and convert it directly into electricity.

Previously Disturbed. Any area of a Site that has undergone mechanical land-forming, construction, or demolition activities within the past 50 years.

Project Area. The area within the fenced area of a Site used for the construction and operation of a Solar Energy Facility or a Battery Energy Storage Facility.

Rated Capacity. The maximum capacity of a solar energy facility based on the sum total of each photovoltaic system's nameplate capacity.

Setback: The minimum distance by which any building or structure must be separated from the front lot line or other lot lines as may be specified; yard.

Setback Line: A line parallel to a street and extending the full width of the lot for a specified distance at all points from the front lot line, street center line or street right-of-way line, and thus defining an area in which no building or structures or portions thereof may be constructed

Site. The real property on which a solar or battery energy storage facility is located.

Site Owner. The person or entity that owns all or a portion of the Site.

Small Scale Solar Energy Facility. A solar energy facility that: (1) has a project area less than four (4) acres; (2) has a rated capacity of 200 kw or less; (3) is mounted on or over a building, parking lot, or other previously disturbed area, or (4) utilizes integrated PV only.

Solar Energy Facility or Solar Facility. A ~~Medium-Scale~~ Solar Energy Facility or a Small-Scale Solar Energy Facility, or both. Solar Energy Facility or Solar Facility does not include concentrated solar power (CSP) which utilizes lenses or mirrors to collect and focus the sun's heat. CSP facilities are prohibited as a component of any Solar Energy or Solar Facility.

Sec. 4-19-4 Applicability; permitting.

The requirements set forth in this article shall govern the siting, development, construction, installation, operation, and decommissioning of Solar Energy Facilities and Battery Storage Energy Facilities in the County. A special exception permit is required for each ~~Medium-Scale~~ Solar Energy or Battery Energy Storage Facility proposed to be constructed, installed, or operated in the County. A zoning permit is required for each Small-Scale Solar Energy Facility proposed to be constructed, installed, or operated in the County. Use regulations for specific zoning classifications will state if Small Scale Solar Energy Facilities are permitted in a particular zoning district as a matter of right and if ~~Medium-Scale~~ Solar Energy or Battery Energy Storage Facilities are permitted in a particular zoning district subject to the issuance of a special exception permit. For ~~Medium-Scale~~ Solar Energy Facilities and Battery Energy Storage Facilities, the general procedures for applying for a special exception permit shall apply in addition to the requirements of this article. The Planning Commission and the Board of Supervisors can make exceptions on setbacks and acreage under panel based upon parcel dimension and topography. All fees become applicable and shall be paid upon approval of the permit.

1. Pre-application meeting. A pre-application meeting shall be held with the zoning administrator to discuss the location, scale, and nature of the proposed use, what will be expected during that process, and the potential for a siting agreement.
2. Submittal of the permit application and fees.
 - 1) There is a combined application for the 2232 review and Special Exception permit.
 - 2) There are separate fees for the 2232 review and Special Exception permit.
3. 2232 review. The Code of Virginia §15.2-2232 requires a review of public utility facility proposals by the Planning Commission to determine if their general or approximate location, character, and extent are substantially in accord with the Comprehensive Plan or part thereof.
 - 1) The Planning Commission must consider, at a public meeting, whether the project is in substantial accord with the Comprehensive Plan. Failure of the Planning Commission to act within sixty (60) business days of a submission, unless the time is extended by the Board of Supervisors, shall be deemed approval.
 1. If the Planning Commission approves the 2232 review, the project shall be recommended for a public hearing for the Special Exception permit.
 2. If the Planning Commission does not approve the 2232 review, the applicant may appeal the decision to the Board of Supervisors within ten (10) business days after the decision of the Planning Commission. The appeal shall be by written petition to the Board of Supervisors setting forth the reasons for the appeal. The appeal shall be heard and determined within sixty (60) business days from its filing unless the time is extended by the applicant. A majority vote of the Board of Supervisors shall overrule the Planning Commission.
 - 2) If the Board of Supervisors agree to negotiate a Siting Agreement in accordance with the Code of Virginia § 15.2-2316.8, the 2232 review process may be delayed until negotiations are complete. If the siting agreement is approved, it fulfills the requirement for a 2232 review.

Sec. 4-19-5 Applications, procedures, and requirements for Small Scale Solar Energy Facilities.

1. Application. For proposed Small Scale Solar Energy Facilities, the application shall consist of all of the following:

- 1) A project narrative and site plan that comply with subsections (a) and (b) in Section 4-19-6.
- 2) Any additional information or documentation required by the zoning administrator.
2. Requirements. All of the following requirements apply to all Small-Scale Solar Energy Facilities in the County:
 - 1) The signage, noise, and lighting requirements in Section 4-19-7.
 - 2) The fencing requirement and the height restriction in Section 4-19-7.
 - 3) The setback and vegetative buffering requirements in Section 4-19-7.
 - 4) A decommissioning plan and security that comply with subsection (d) of Section 4-19-6-1.

Sec. 4-19-6 Applications and procedures for ~~Medium-Scale~~ Solar Energy Facilities and Battery Energy Storage Facilities.

1. Application. In addition to materials required for a special exception permit application under sections 5-5-2 and 4-19-4, applications for ~~Medium-Scale~~ Solar Energy Facilities or Battery Energy Storage Facilities shall, unless otherwise provided herein, include the following information:
 - 1) Project narrative. A narrative identifying the Applicant, Facility Owner, Site Owner, and Operator, if known at the time of the application, and describing the proposed ~~Medium-Scale~~ Solar Energy Facility or Battery Energy Storage Facility, including an overview of the project and its location; the size of the Site and the Project Area; the current use of the Site; the estimated time for construction and proposed date for commencement of operations; the planned maximum rated capacity of the facility; the approximate number, representative types, and expected footprint of solar and/or battery storage equipment to be constructed, including without limitation photovoltaic panels; ancillary facilities, if applicable; and how and where the electricity generated at the facility will be transmitted, including the location of the proposed electrical grid interconnection.
 - 2) Site plan. The site plan shall include the following information:
 1. Property lines, minimum required setback lines under this article, and any proposed setback lines that exceed the minimum requirements.
 2. Existing and proposed buildings and structures, including preliminary location(s) of the proposed solar or battery storage equipment.

3. Existing and proposed access roads, permanent entrances, temporary construction entrances, drives, turnout locations, and parking, including preliminary comments from the Virginia Department of Transportation (VDOT) pertaining to proposed construction and permanent entrances for the site. Prior to site plan approval a written confirmation from the Virginia Department of Transportation ("VDOT") that all entrances satisfy applicable VDOT requirements; provided, however, unless expressly required by VDOT, these requirements shall not exceed VDOT requirements for other types of projects in the underlying zoning district.
4. If not in conflict with VDOT construction/design standards,, all interior roads shall be surfaced with gravel. Proposed locations and maximum heights of substations, electrical cabling from the solar systems to the substations, panels, ancillary equipment and facilities, buildings, and structures (including those within any applicable setbacks).
5. Fencing as required under this article and other methods of ensuring public safety.
6. Areas where the vegetative buffering required in this article will be installed and maintained and areas where pollinator-friendly and wildlife-friendly native plants, shrubs, trees, grasses, forbs, and wildflowers required in this article will be installed and maintained.
7. Existing wetlands, woodlands, and areas containing substantial woods or vegetation, including those woodlands designated as 'high value forestry land' as designated by the Virginia Department of Forestry's Forest Conservation Model.
8. Identification of recently cultivated lands and predominant soil types, including all on site soils identified as or prime agricultural soils in the 'soil index' for Nottoway County published by the Natural Resources Conservation Service (NRCS) (based on publicly available data) of those lands.
9. A natural heritage and wildlife management study, consistent with the Virginia Division of Wildlife Resources Solar Energy Facility guidance that identifies any threatened or endangered species and wildlife travel patterns, together with any necessary mitigation measures to ensure compatibility of the project.
10. Additional information as determined by the zoning administrator, which may include, but may not be limited to, a scaled elevation view and other

supporting drawings, photographs of the proposed site, photo or other realistic simulations or modeling of the proposed solar energy project from potentially sensitive locations as deemed necessary by the zoning administrator to assess the visual impact of the project, aerial image or map of the site, and additional information that may be necessary for a technical review of the proposal.

11. Additional information required by the planning commission or Board of Supervisors.
- 3) Documentation of the authorization to submit the application and to use property for the proposed facility. Documentation shall include proof of current or future control over the proposed site or possession of the right to use the proposed site in the manner requested. The applicant may redact sensitive financial or confidential information.
- 4) Decommissioning plan; security.
 1. The applicant shall provide a detailed decommissioning plan that provides procedures and requirements for removal of all parts of the Solar Facility or the Battery Energy Storage Facility and its various structures at the end of the useful life of the Solar Energy Facility or if it is deemed abandoned pursuant to section 4-19-9. The plan shall include the anticipated life of the Solar Energy Facility; the estimated overall cost of decommissioning the Solar Energy Facility in current dollars; the methodology for determining such estimate; the methodology for providing security for the determined cost of decommissioning, which shall be either cash escrow, performance surety bond(s), certified check(s), irrevocable letter(s) of credit, or other surety acceptable to the County ; the manner in which the Solar Facility will be decommissioned; and the methodology for updating the decommissioning plan, the estimated decommissioning cost, and the security for the estimated decommissioning cost, all in accordance with the requirements of Section 4-19-9 below.
 2. Decommissioning plans shall be updated every five (5) years and each updated decommissioning plan shall be prepared at the owner's expense and shall be submitted to the County Administrator's Office for review six (6) months prior to the current plan's expiration date.
- 5) Liability insurance. The applicant shall provide proof of liability insurance in an amount determined by the County to be adequate to cover operations at the Medium- Scale Solar Energy or Battery Energy Storage Facility. The applicant shall provide proof of such liability insurance for the ~~Medium-Scale~~ Solar Energy Facility prior to the issuance of a building permit. Obtaining and maintaining the

requisite liability insurance will be a mandatory condition of the special use permit.

- 6) Landscaping and screening plan. At the time of application submission and prior to any land disturbance activity by the applicant the applicant must submit for County review a preliminary landscaping and screening plan describing the proposed buffer area and how the requirements of this ordinance, as outlined below, will be met. Prior to approval and issuance of a final zoning and building permit a final landscaping and screening plan that addresses the vegetative buffering required in this article, including the use of existing and newly installed vegetation to screen the facility. The plan also must address the use of pollinator-friendly and wildlife-friendly native plants, shrubs, trees, grasses, forbs, and wildflowers in the project area and in the setbacks and vegetative buffering as required in this article. Final seed area mixes, where used for groundcover, will be determined based upon availability and compatibility of a representative list of species common to the region and consider flammability of the final growth at maturity to minimize potentials for wildfires.
- 7) Erosion and sediment control plan. A preliminary erosion and sediment control plan outlining steps to be taken to protect adjacent properties from runoff shall be submitted at time of application. A full erosion and sediment control plan must be submitted and approved by the Nottoway County staff, in conjunction with designated review representatives and/or agencies, prior to any land disturbing activity. Erosion and sediment control plans must meet or exceed DEQ minimum standards as provided in the most recent edition of the Virginia Erosion and Sediment Control Handbook and may be reviewed by the County or their designated representatives in accordance with the provisions of this ordinance for third party reviews. In addition, all soil from the defined area of disturbance (Project Area) shall remain on site and must be stabilized per DEQ standards. Final seed area mixes, where used for groundcover, will be determined based upon availability and compatibility of a representative list of species common to the region and consider flammability of the final growth at maturity to minimize potentials for wildfires.
- 8) Stormwater management plan. Acknowledgement that a stormwater management plan must be approved by the Virginia Department of Environmental Quality (DEQ) prior to issuance of any building or zoning permits being issued and any land disturbing activities commencing on site. Stormwater management plans, developed by a licensed engineer, must meet or exceed DEQ minimum standards and may be reviewed and inspected by the County or their designated representatives in accordance with the provisions of this ordinance for third party reviews and inspections.

- 9) A construction plan to be approved prior to the issuance of a building permit, which shall include a proposed construction schedule, proposed hours of construction and how the effective mitigation of dust, burning operations, access and road improvements, and handling of general construction complaints will be addressed to the satisfaction of the Zoning Administrator.
- 10) Virginia Cultural Resource Information System report. A report by the Virginia Department of Historic Resources Virginia Cultural Resource Information System must be submitted to identify historical, architectural, archeological, or other cultural resources on or near the proposed facility. A copy of the cultural resources review conducted in conjunction with the Virginia Department of Historic Resources for the permit by rule process shall be submitted by the applicant prior to the issuance of a building permit, shall be in addition to the initial report required above, and shall further identify historical, architectural, archeological, or other cultural resources on or near the proposed facility.
- 11) Additional information. If deemed relevant to the consideration of a special exception permit application or the conditions to be included in any special exception use permit, the zoning administrator, planning commission, or Board of Supervisors may require the applicant to submit any of the following information, either as part of the special exception permit application or as a condition of any special exception permit:
 1. The identification and location of any existing ~~Medium Scale~~ Solar Energy Facilities or Battery Energy Storage Facilities and any known proposed ~~Medium Scale~~ Solar Energy or Battery Energy Storage Facilities within a five-mile radius of the proposed Site.
 2. A report of impact on adjacent property values prepared by a qualified third-party, such as a licensed real estate appraiser.
 3. An economic impact analysis prepared by a qualified third-party that reports any expected change in the value of the subject property, expected employment during the construction of the facility, any expected impact on the County's tax revenues, the estimated costs to the County associated with the facility in the form of additional services, and information on any other economic benefits or burdens from the facility that may be requested by the zoning administrator.
 4. A report regarding potential impacts on pollinators and pollinator habitats at the Site, including, but not limited to, the submission of a completed solar site pollinator habitat assessment form as required by the zoning administrator. Final seed area mixes, where used for groundcover, will be determined based upon availability and compatibility of a representative list

of species common to the region and consider flammability of the final growth at maturity to minimize potentials for wildfires.

5. A glint and glare study that demonstrates either that the panels will be sited, designed, and installed to eliminate glint and glare effects on roadway users, nearby residences, commercial areas, and other sensitive viewing locations, or that the applicant will use all reasonably available mitigation techniques to reduce glint and glare to the lowest achievable levels. The study will assess and quantify potential glint and glare effects and address the potential health, safety, and visual impacts associated with glint and glare. Any such assessment must be conducted by qualified individuals using appropriate and commonly accepted software and procedures.
 6. A traffic impact study modelling the construction and decommissioning processes, including recommendations for traffic control and lane closures of public streets and roads during construction. County staff will review the study in cooperation with VDOT.
 7. A water resource plan identifying availability of and how water and sewer services will be provided to the Site, including a plan for continuous monitoring of groundwater quality during the life of the Solar Energy Facility or Battery Energy Storage Facility.
 8. An assessment of fire, rescue, and law enforcement requirements as compared to existing capacities and facilities.
2. Review and inspection fees. The County may retain qualified third parties to review portions of a permit application and to inspect a project for which the County, in its sole discretion, determines that assistance is needed. Any out-of-pocket costs incurred by the County for such review and/or inspection by qualified third parties shall be paid by the Applicant upon Applicant's prior approval. The third-party reviewers and inspectors and their estimated costs will be submitted to the Applicant for approval before the costs are incurred. The County may, in the alternative, accept such review by qualified third parties selected, retained, and paid by the Applicant.

Notwithstanding any provisions related to the timing and validity of site plan approvals set forth in the Code of Virginia, construction shall commence thirty-six (36) months from the date of approval of the special exception permit or the special exception permit shall be void. Not less than six (6) months prior to the expiration date of the original Special Exception Permit, the owner may request a one-time extension from the Board of Supervisors for an additional twelve (12) months to commence construction. The Board of Supervisors may grant the extension, based upon satisfactory evidence that the applicant has proceeded in good faith with the permitting process. In no case shall the permit be extended beyond eighteen months (18) months.

3. Community meeting. A public meeting advertised in newspapers with a general local circulation, social media, radio media, and posting on local government public notice boards shall be held by the Applicant prior to the public hearing with the planning commission to give the community an opportunity to hear from the Applicant and ask questions regarding the proposed Solar Energy or Battery Energy Storage Facility. All meetings held pursuant to this paragraph shall be subject to and meet all of the following requirements.
 - 1) The Applicant shall inform the zoning administrator and adjacent property owners in writing of the date, time, and location of the meeting, at least seven (7) but not more than fourteen (14) business days in advance of the meeting date.
 - 2) The date, time, and location of the meeting shall be advertised in a newspaper serving the area of the County in which the proposed ~~Medium Scale~~ Solar Energy or Battery Energy Storage Facility is to be located at least seven (7) but not more than fourteen (14) business days in advance of the meeting date.
 - 3) The meeting shall be held within the County at a location open to the general public with adequate parking and seating facilities that will accommodate persons with disabilities.
 - 4) At the meeting, members of the public shall have the opportunity to review application materials, ask questions of the Applicant, and provide feedback to the Applicant.
 - 5) The Applicant shall provide to the zoning administrator a summary of any input received from members of the public at the meeting.
4. Exemptions. The zoning administrator may exempt applications for facilities smaller than four (4) acres with a rated capacity equal to or less than one megawatt (MW) from some of the requirements of this section; provided, however, the zoning administrator may not exempt applications from any of the requirements included in section 4-19-5.
5. Post-application documentation and approvals. All documentation required to be submitted to the County and approvals required from the County after the issuance of the permit shall, unless otherwise stated in the conditions attached to the special exceptions permit, be submitted or obtained no later than the date of any application for a building permit for the facility. The failure or refusal to submit required documentation or obtain required approvals following the issuance of a special exceptions permit shall result in the suspension of the special exceptions permit and the denial of the building permit.

Sec. 4-19-7 Location, appearance, and operational requirements.

The following requirements apply to ~~Medium Scale~~ Solar Energy and Battery Energy Storage Facilities:

1. Visual impacts. The Applicant shall demonstrate through project siting and proposed mitigation, as necessary, that the Solar and Battery Energy Storage Facility minimizes impacts on viewsheds, including from residential areas and areas of scenic, historical, cultural, archaeological, and recreational significance. The Solar Facility shall utilize only panels that employ anti-glare technology, anti-reflective coatings, and other available mitigation techniques, all that meet or exceed industry standards, to reduce glint and glare. The applicant shall provide written certification from a qualified expert acceptable to the County that the facility's panels incorporate and utilize anti- glare technology and anti-reflective coatings and reduce glint and glare to levels that meet or exceed industry standards.
2. Signage. All signage on the Site shall comply with the County sign ordinance, as adopted and from time to time amended, and the signage requirements, if any, set forth in the approved special exception permit conditions.
3. Noise. Noise levels from the facility shall comply at all times with applicable County noise ordinances, as adopted and from time to time amended.
4. Setbacks. The project area shall be set back a distance of at least ~~three hundred 800-~~ (300) feet from all ~~public rights~~public rights-of-way, ~~1,500(1,200)~~ feet from a habitable dwelling, and a distance of at least ~~800-three hundred (300)~~ feet from adjacent property lines. Waivers may be sought by the Applicant to reduce the -setbacks adjacent to a non-immediate family-owned parcel to no less than ~~three hundred five hundred (300)~~ feet. Exceptions may be made for adjoining parcels that are owned or controlled by the Applicant or immediate family-owned and are included in the Site. Increased or decreased setbacks from all public rights of way and adjacent property lines up to ~~800-three hundred (300)~~ feet and additional buffering may be -included in the conditions for a particular permit dependent upon the Site topography and parcel dimensions. Solar Energy and Battery Energy Storage Facilities also shall -meet all setback requirements for primary structures for the zoning district in which ~~the Solar~~the Solar Energy or Battery Energy Storage Facility is located in addition to the -requirements set forth above. Access, erosion and stormwater structures, and -interconnection to the electrical grid may be made through setback areas provided that -such are generally perpendicular to the property line.
5. Fencing. The Project Area shall be enclosed by security fencing not less than six (6) feet in height and equipped with an appropriate anticlimbing device such as strands of barbed wire on top of the fence. The height and/or location of the fence may be altered in the approved special exception permit conditions for a particular permit. Fencing must be installed on the interior of the vegetative buffer required in this section so that it is

screened from the ground level view of adjacent property owners. The fencing shall be properly maintained at all times while the Solar Facility is in operation.

6. Vegetative buffer.

A. Existing plant materials

- a) Use of native or adaptive plant materials shall be utilized to ensure water conservation, growth and survival of new plantings that reflect the existing plant materials and environment.
- b) Existing established plant material shall be utilized, including those preserved, and shall be annotated on the submitted plan. Pervious surface area shall be retained around existing vegetation at a minimum of 1.5 times the critical root zone of each tree to allow infiltration of surface water and air.
- c) Existing healthy vegetation may be counted towards meeting performance criteria for buffers.

B. Plant sizes and standards

- a) The standards for all trees and shrubs utilized within Agricultural Constructed Buffer Opaque shall conform to the American Standard for Nursery Stock 2014. The sizes of installed plants shall conform to the Nottoway County planting standards.
 - i. Large deciduous trees shall be at least 6 feet in height and 1" in caliper at the time of planting and shall mature at a height of at least 30'.
 - ii. Large evergreen trees shall be at least 5' tall at the time of planting and shall mature at a height of least 30'
 - iii. Small ornamental or understory trees shall be at least 5' in height and 3/4" caliper at the time of planting, and be at least 18' in height at maturity
 - iv. Large shrubs shall be at least 18" tall and in a 3 gal. container at the time of planting and be expected to mature at a height of at least 8'.
 - v. No vegetation installed shall be on the USDA invasive species list for Virginia.
- b) Location of required landscape - All landscape buffer shall be located on the property it serves within the mandated Setback. Landscaping or native vegetation that is existing on any adjacent property not on the property where the Solar facility is located shall not serve as any required buffer. Any exception to this requirement would require a recorded easement.
- (c) Protection – No landscape other than grasses shall be permitted to be installed in a public underground utility easement without permission of the public utility owner.
- (d) Riparian buffer – Setbacks shall be retained and complied.
- (e) Overhead public utility easement shall be landscaped with grasses or woody vegetation that does not exceed 20' in height at maturity. Buffer plantings

within 15' outside the overhead utility easement shall not exceed 30' in height.

- (f) Solar panel field shall be installed on native soil within the installation. No topsoil shall be removed within the general area of the solar panel field. Exception will be reserved for roadways, parking lots, or building pads for required infrastructure. The solar panel field shall be stabilized with permanent vegetation consisting of grasses and forbs, including some pollinator species. This cover crop(s) shall be depicted on the site plan.

C. Types of Buffers

- (a) Agricultural Buffer Opaque – This native established buffer shall be described as an existing natural vegetative woodland comprised of native hardwood trees, understory trees, both deciduous and evergreen. It should provide an opaque buffer that cannot be seen through visually and shall have achieved a height of a minimum of 12'. It may be enhanced with evergreen large overstory, understory, or large shrubs to improved buffer screening. Spacing on center shall not exceed 12 feet. Buffer is located within the 300' setback and be outside of the required fence on the perimeter of the panel field.
- (b) Agricultural Constructed Buffer Opaque – This designed and installed buffer shall be a minimum of 30' in width, be 80% opacity, and in each 100 linear feet, and contain the following: 6(six) Deciduous Canopy Trees, 1(one) Evergreen Canopy Tree, 4(four) Deciduous Understory Trees, 10(ten) Evergreen Understory Trees or Evergreen Large Shrubs. Trees shall be randomly placed within the 30' x 100', evergreen shrubs shall be infilled to promote a natural look, and repeated with randomness with no plant closer than 12' on center to another plant. Placement shall promote a naturalized arrangement.
- (c) Suggested list of possible plant material is attached. Choices shall not be limited to be from this list, but may be utilized as a guide. Selection of native and locally plant material within a 200-mile range is encouraged to promote ecologically appropriate plants and enhance establishment.

D. Landscape Installation and Inspection

- A. Time Limit – All landscaping and stabilizing ground cover shall be installed prior to receiving a certificate of occupancy, including grassing and mulching.
- (1) Extensions and Inspections – Planning Department may grant extensions to this above time limit. If an exception is granted to allow installation during the appropriate planting season to ensure establishment is successful. Applicant shall post a 150% bond of cost of materials, labor, and any other installation costs, based on the highest estimate received. Temporary extension shall be for 30-180 days depending upon the inspectors' best estimate and a suitable planting season, an approved substitution due to availability of specified and approved plant species or plant size of the approved plan.

- (2) The Planning Department may issue a temporary certificate of occupancy for a term not to exceed 180 days, the next planting season, whichever comes first. Only 25% of the plant material may be delayed in this exemption, and must be bonded.
- (3) Prior to obtaining a permanent certificate of occupancy, the property owner or developer shall submit an "as built" landscape plan.
- (4) Planning Department shall inspect prior to issuing a certificate of occupancy, and one year post certificate of occupancy, with the "as built" landscape plan to ensure compliance with plan, and proper maintenance of the landscape materials. Deficiencies shall be corrected per the original site plan.

B. Maintenance Responsibility and Replacement Vegetation

- (1) Maintenance shall be the responsibility of the operator of the Solar facility for care, replacement, and watering and integrated pest control of all plant materials installed on the "as built" plan. This buffer shall be retained and managed during the entirety of the life and operation of the solar facility. Any damaged or poor-quality plantings shall be removed and replaced in the proper planting season.

~~6. A vegetative buffer sufficient to mitigate the visual impact of the Solar Facility is required. The buffer shall consist of a landscaped strip at least 800 feet wide, shall be located within the setbacks required under paragraph 4 above, and shall run around the entire perimeter of the property. The buffer shall consist of existing vegetation and, if deemed necessary for the issuance of a special exception permit, supplemented by an installed landscaped strip consisting of multiple rows of staggered trees and other vegetation. This buffer must be made up of existing native species or new plant materials at least three (3) feet tall at the time of planting and that are reasonably expected to grow to a minimum height of eight (8) feet within three (3) years. The planning commission or Board of Supervisors may require increased setbacks and additional or taller vegetative buffering in situations where the height of structures or the topography affects the visual impact of the facility. Non-invasive plant species and pollinator-friendly and wildlife-friendly native plants, shrubs, trees, grasses, forbs, and wildflowers must be used in the vegetative buffer. Fencing must be installed on the interior of the buffer. A recommendation that the screening and/or buffer creation requirements be waived or altered may be made by the planning commission when the applicant proposes to use existing wetlands or woodlands, as long as the wetlands or woodlands are permanently protected for use as a buffer. Existing trees and vegetation shall be maintained within such buffer areas except where dead, diseased, or as necessary for development or to promote healthy growth, and such trees and vegetation shall supplement or satisfy landscaping requirements as applicable. If existing trees and~~

~~vegetation are disturbed, new native species plantings shall be provided for the buffer.
The buffer shall be maintained for the life of the facility.~~

7. Surface Water Buffer. The Applicant shall address the impact of the facility on rivers and streams. A buffer of at least 250 feet is required on either side of any perennial stream within the identified project area and may be increased or decreased dependent upon site topography.
8. Pollinator habitats. The Project Area will be seeded with appropriate pollinator-friendly native plants, shrubs, trees, grasses, forbs, and wildflowers. The Project Area will be seeded promptly following completion of construction in such a manner as to reduce invasive weed growth and sediment in the project area. The Facility Owner and Operator also are required to install pollinator-friendly native plants, shrubs, trees, grasses, forbs and wildflowers in the setbacks and vegetative buffering.
9. Height. Ground-mounted Solar Energy generation and Battery Energy Storage facilities and equipment shall not exceed a height of twenty-five (25) feet, which shall be measured from the highest natural grade below each solar panel. This limit shall not apply to utility poles and the interconnection to the overhead electric utility grid.
10. Lighting. Lighting shall be limited to the minimum reasonably necessary for security purposes and shall be designed to minimize off-site effects. Lighting on the Site shall comply with any dark skies ordinance the Board of Supervisors may adopt or, from time to time, amend.
11. Density; location. ~~Medium-Scale~~ Solar Energy Facilities shall not be located within one mile of an airport. If an airport lies within one (1) mile of a ~~Medium-Scale~~ Solar Energy Facility the applicant must submit, prior to issuance of any Land Disturbance or Building permits written certification from the Federal Aviation Administration that the location of the Solar Facility poses no hazard for, and will not interfere with, airport operations.
12. Entry and inspection. The Applicant, Facility Owners, and/or Operator will allow designated County and County Emergency Management officials access to the facility for inspection purposes, provided such inspectors will be subject to all established safety requirements and protocols while within the facility.

Sec. 4-19-8 Additional considerations for conditions.

To preserve and protect County viewsheds and resources, to protect the health, safety, and welfare of the community, and to otherwise advance the purpose and intent of this article, the following non-exhaustive list of additional criteria may be considered by, but shall in no way limit the deliberation, consideration, or determinations of, the planning commission and the Board of Supervisors in addressing whether to recommend or grant a permit and in

Original Draft April 21, 2022
Revised September 20, 2023(PC); October 17, 2023(PC); April 16, 2024 (PC) July 15, 2024 (BOS);
November 14, 2024 (PC and BOS Joint Work Session, Approved by the BOS 12/19/2024; Proposed
Amendment edits 02132025 (BOS); and PC 03182025

determining what conditions to impose on any permit, for any ~~Medium Scale~~ Solar Energy Facility or a Battery Energy Storage Facility.

1. The topography of the Site and the surrounding area.
2. The proximity of the Site to, observability from, and impact on, urban and residential areas.
3. The proximity of the Site to, observability from, and impact on, areas of historical, cultural, and archaeological significance.
4. The proximity of the Site to other ~~Medium Scale~~ Solar Energy Facilities or Battery Energy Storage Facilities, other energy generating facilities, and utility transmission lines.
5. The proximity of the Site to, observability from, and impact on, areas of scenic significance, such as scenic byways, vistas, and blue ways.
6. The proximity of the Site to, observability from, and impact on, public rights-of-way, including, but not necessarily limited to, highways, secondary roads, streets, and scenic byways.
7. The proximity of the Site to, observability from, and impact on, recreational areas, such as parks, battlefields, trails, lakes, rivers, and creeks.
8. The proximity of the Site to airports, both public and private.
9. The preservation and protection of wildlife and pollinator habitats and corridors.
10. The proximity of the Site to any urban planning area or community planning area identified in the comprehensive plan.
11. The size of the Site.
12. The proposed use of available technology, coatings, and other measures for mitigating adverse impacts of the facility.
13. Any other criteria addressed in sections 4-19-6 and 4-19-7 of this Article 4, Division 19.
14. The preservation and protection of Prime Farmland in the County in accordance with the following:
 - 1) "Prime Farmland" shall have the meaning assigned to it by the Natural Resource Conservation Service (NRSC) of the United States Department of Agriculture,

except those lands established in silviculture shall not be considered prime farmland;

- 2) If no more than five percent of the site is Prime Farmland, this consideration will be waived;
 - 3) If more than five percent of the site is Prime Farmland that is not contiguous, this consideration may be waived;
 - 4) If more than ten percent of the site is Prime Farmland that is contiguous, the Prime Farmland can be removed from the project area; and
 - 5) The Board of Supervisors may waive any or all of the foregoing.
15. Special Provisions for Battery Energy Storage Facilities. Battery Energy Storage Facilities, in addition to the general provisions and requirements outlined in this Division, shall meet the following additional requirements:
- 1) Battery Storage Energy Facilities shall be constructed, maintained, and operated in accordance with national industry standards and regulations including the most current adopted edition of the Virginia Uniform Statewide Building Code (VUSBC).
 - 2) Battery cells shall be placed in a Battery Energy Storage System (BESS) with a system appropriate Battery Management System (BMS). The BESS shall provide a secondary layer of physical containment to the batteries and be equipped with system appropriate cooling, ventilation, and fire suppression systems. Each individual battery should have 24/7 automated fire detection and extinguishing technology built in, specific to the BESS system proposed. The BMS shall monitor individual battery module voltages and temperatures and humidity, off-gassing of combustible gas, fire, ground fault and DC surge, and door access and be able to shut down the system before Thermal Runaway takes place.
 - 3) The Battery Energy Storage System will be placed on an appropriate foundation and screened with vegetation outside of environmentally sensitive areas.
 - 4) Access to all batteries and electrical switchgear shall be from the exterior for normal operation and maintenance. Access to the BESS interior units shall not be permitted while the system is in operation except for safety personnel and emergency responders.
 - 5) Qualifications and experience from selected developers and integrators shall be Provided, including, but not limited to, disclosure of fires or other hazards at other facilities.

- 6) Safety testing and failure modes analysis data from selected developers and manufacturers shall be provided.
- 7) The latest applicable product certifications shall be provided.
- 8) The Battery Storage Facility Operator or Facility Owner shall be responsible for any environmental remediation required by the County or the Commonwealth of Virginia and the costs of such remediation. All remediation shall be completed in a timely fashion negotiated with the County and applicable state agencies.
- 9) Battery storage shall be developed in collaboration with technical experts and the County's first responders to utilize technology-appropriate practices for safe energy storage systems including, but not limited to, the following:
 1. Adequate access/egress for first responders.
 2. Adequate facility signage (for battery chemistry and emergency contacts designated by the owner/operator).
 3. Accessible Safety Data Sheets.
 4. System specific emergency response plans.
 5. Training for first responders on the type of systems, potential hazards and risks, and system-specific emergency response plans.
 6. Adequate water systems and fire suppression appliances for responding fire fighters if required in the emergency response plan.
 7. Signage designating on site hazard materials.
 8. Emergency lighting.
 9. Separate battery modules for ease of access to isolate a failed battery form the System.
 10. Sufficient disconnect and shutdown capability including a master 'kill' switch to disable and discharge batteries.
 11. System-appropriate sensors and alarms.
 12. Air ventilation and suppression systems.

13. Drainage for water runoff.
14. Other practices as recommended by experts or local first responders.
- 10) The Battery Energy Storage Facility Operator or Facility Owner shall conduct regular on-site inspections of the battery units and submit a written report to the zoning administrator on their condition at least once every six (6) months. The Battery Energy Storage Facility Operator or Facility Owner shall conduct monthly inspections electronically of battery units and submit a written report to the zoning administrator monthly.
16. Any other factors, materials, evidence, or considerations deemed relevant by the planning commission or the Board of Supervisors.

Sec. 4-19-9 Unsafe or abandoned projects; decommissioning.

1. If the County building official has determined that a ~~Medium-Scale~~ Solar Energy Facility, a Small-Scale Solar Energy Facility, or Battery Energy Storage Facility is unsafe, the facility shall be repaired by the Facility Owner, Site Owner, or Operator to meet federal, state, and local safety standards, or be removed by the Facility Owner, Site Owner, or Operator at the Facility Owner's, Site Owner's or Operator's expense. The Facility Owner, the Site Owner, or the Operator must complete the repair or removal of the facility, as directed by the building official, within the time period allowed by the building official or as required by the approved special exception permit conditions or by agreement. If directed to do so by the building official, the Site Owner, the Facility Owner, or the Operator will remove the ~~Medium-Scale~~ Solar Energy Facility, the Small-Scale Solar Energy Facility, or the Battery Energy Storage Facility in compliance with the approved decommissioning plan established for such facility.
2. If any ~~Medium-Scale~~ Solar Energy Facility, Small Scale Solar Energy Facility, or Battery Energy Storage Facility is not operated for a continuous period of twelve (12) months, the County may notify the Facility Owner by registered mail that it has declared the ~~Medium-Scale~~ Solar Energy Facility, Small Scale Solar Energy Facility, or Battery Energy Storage Facility abandoned and provide forty-five (45) business days for a response. In its response, the Facility Owner shall set forth reasons for the operational difficulty and provide a reasonable timetable for corrective action. If the County deems the timetable for corrective action to be unreasonable, it may notify the Facility Owner, and the Facility Owner, Site Owner, or Operator shall remove the ~~Medium-Scale~~ Solar Energy Facility, the Small-Scale Solar Energy Facility, or Battery Energy Storage Facility at the Facility Owner's, Site Owner's or operator's expense in compliance with decommissioning plan established for such facility.

3. At such time that a ~~Medium-Scale~~ Solar Energy Facility, Small Scale Solar Energy Facility, or Battery Energy Storage Facility is scheduled to be abandoned, the Facility Owner, Site Owner, or Operator shall notify the zoning administrator in writing.
4. Within 365 days of the date of abandonment, whether as declared by the County as set forth in paragraph 2 above or as scheduled by the Facility Owner, Site Owner, or Operator under paragraph 3 above, the Facility Owner, Site Owner, or Operator shall complete the physical removal of the ~~Medium-Scale~~ Solar Energy Facility or Small Scale Solar Energy Facility or Battery Energy Storage Facility at the Facility Owner's, Site Owner's or Operator's expense in compliance with the decommissioning plan established for such facility. This period may be extended at the request of the Facility Owner, the Site Owner, or the Operator upon approval of the Board of Supervisors. Decommissioning shall include removal of all solar electric systems, buildings, cabling, electrical components, security barriers, roads, foundations, pilings, and any other associated facilities, so that any agricultural ground upon which the facility and/or system was located is again tillable and suitable for agricultural or forestal uses. The Site shall be graded and re-seeded to restore it to as natural a pre-development condition as possible or replanted with pine seedlings to stimulate pre-timber pre- development conditions as indicated on the Preliminary Site Plan. Notwithstanding the foregoing, the Site Owner may submit, and the Board of Supervisors may approve, an alternative post-decommissioning condition plan which may provide for an alternative plan for the preparation, repair, and conditioning of the property following decommissioning.
5. When the Facility Owner, Site Owner, Operator, or other responsible party decommissions a ~~Medium-Scale~~ Solar Energy Facility, Small Scale Solar Energy Facility, or Battery Energy Storage Facility, all equipment and other facility components shall be handled and disposed of in conformance with federal, state, and local requirements. All equipment, both above and below ground, must be removed as part of the approved decommissioning plan. Internal paths, roads, travel ways, and landscaping may be left at the discretion of the Site Owner.
6. If the Facility Owner, Site Owner, or Operator fails to timely remove or repair an unsafe or abandoned Solar Facility or Battery Energy Storage Facility after written notice, the County may pursue a legal action to have the Solar Facility or Battery Energy Storage Facility removed at the expense of the Facility Owner, Site Owner, and Operator, each of whom shall be jointly and severally liable for the expense of removing or repairing the facility. The County also may call upon the decommissioning security to complete the approved decommissioning.
7. Financial assurance for the completion of decommissioning shall be provided to the County as set forth in Virginia Code § 15.2-2241.2 in a form and amount approved by the Board of Supervisors and shall remain in full effect until all decommissioning activities are completed. The terms governing financial assurance for decommissioning

shall be set forth in the approved decommissioning agreement, which shall include, but may not be limited to, the following:

- 1) The Applicant, Facility Owner, or Site Owner shall provide the financial assurance required by the Board of Supervisors before any building permit is issued to allow construction of the Solar Facility.
- 2) The estimated cost of decommissioning shall be recalculated every five (5) years at the expense of the Facility Owner or Operator. If the recalculated estimated cost of decommissioning exceeds the original estimated cost of decommissioning by ten percent (10%) or more, then the amount of the financial assurance shall be increased to equal or exceed the new cost estimate. If the recalculated estimated cost of decommissioning is less than ninety percent (90%) of the original estimated cost of decommissioning, the financial assurance may be reduced to the recalculated estimate of decommissioning cost.
- 3) If the terms of the Decommissioning agreement are not met, the County may collect the surety and may enter the Site to remove the equipment, apparatus, and any other personal property or improvements placed on the real property as a part of, or in connection with, the Solar Facility or Battery Energy Storage Facility as it deems appropriate.

Sec. 4-19-10 Federal, state, and local requirements.

1. Compliance with uniform statewide building code. All ~~Medium-Scale~~ Solar Energy Facilities, ~~Small-Scale~~ Small-Scale Solar Energy Facilities, and Battery Energy Storage Facilities shall be constructed and operated in compliance with the uniform statewide building code.
2. Compliance with National Electric Code. All ~~Medium-Scale~~ Solar Energy Facilities, Small Scale Solar Energy Facilities, and Battery Energy Storage Facilities shall be constructed and operated in compliance with the National Electric Code.
3. Compliance with regulations governing electric energy supply. ~~Medium-Scale~~ Solar Energy Facilities connected to the utility grid must comply with permitting requirements of the state corporation commission or the permit by rule requirements of the department of environmental quality, as applicable.
4. FAA regulations. All ~~Medium-Scale~~ Solar Energy Facilities and Small-Scale Solar Energy Facilities must meet or exceed the standards and regulations of the United States Federal Aviation Administration.
5. Other applicable laws. All ~~Medium-Scale~~ Solar Energy Facilities, ~~Small-Scale~~ Small-Scale Solar Energy Facilities, and Battery Energy Storage Facilities shall be constructed

Original Draft April 21, 2022
Revised September 20, 2023(PC); October 17, 2023(PC); April 16, 2024 (PC) July 15, 2024 (BOS);
November 14, 2024 (PC and BOS Joint Work Session, Approved by the BOS 12/19/2024; Proposed
Amendment edits 02132025 (BOS); and PC 03182025

and operated in compliance with all applicable local, state, and federal laws, rules, regulations, permit requirements, and ordinances.

6. All DEQ fines will be matched by the developer and paid to Nottoway County.

5.7. Any developer issued a permit shall be supervised by Dominion Power.

DRAFT

Screening / Buffering

-----100' wide x 30' deep-----

KEY

Understory Trees/Large Shrub

Overstory Large Deciduous Shade Tree

Evergreen Overstory Tree

Plantings shall be placed randomly, approximately 12-15 feet apart on center. Rows or designs should be naturalized and not repeated uniformly. Per 100' length of buffer shall be 6 Deciduous Overstory Shade Trees, 1 Evergreen Overstory Tree, and 14 Understory Trees or Large Evergreen Shrubs

VDOT Call Center – 1-800-367-ROAD

NOTTOWAY COUNTY

April 17, 2025

MAINTENANCE

The Nottoway Area Headquarters for the month of March 2025.

- Removed debris and 197 trash bags from roadways.
- Repaired 364 potholes throughout the county.
- Machined various unpaved roads.
- Received 38 new work orders and closed 36 work orders. There are no pending work orders older than ninety (90) days.

LAND DEVELOPMENT & PERMITS

Paul Hinson, P.E.

Plans with outstanding comments or under review (Activity within last 90 days)

- None

Plans found acceptable

- None

Other

- Herrera Special Exception Manufactured Home, Route 1006 CCC Road – Special exception application submitted for review and comment on 3-6-25 and comments provided for the county's use on 3-10-25.

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *qz*

SUBJECT: Planning and Economic Development Monthly Update – March 2025

DATE: April 8, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances. Please note these discussions may consist of follow-up via email or phone at least four times or more after the initial meeting and before applying for a special exception, subdivision, or rezoning.
2. The Planning Commission heard two requests at their March 18th meeting: 1) Special exception request for a manufactured home located on CCC Road (recommended approval 8-0) Special exception permit amendment to allow the applicant to lease ½ of the duplex to non-farm workers (recommended denial 7-0-1); and a work session on the BOS-revised solar ordinance and several amendments to the zoning ordinance (adding data centers and government facilities).
3. The Board of Supervisors heard the abovementioned applications and approved the manufactured home and denied the duplex with amended conditions.
4. Staff advertised for public hearings regarding the solar ordinance and two new uses added to the zoning ordinance.
5. The BOS approved Planning and Zoning fees on March 20th.

6. Staff presented a side-yard variance request (reduction of 25 feet) on Dutchtown Road to the BZA meeting on March 31st, and after hearing from the property owner and her family, it was approved by a vote of 5-0. The meeting was held in the General District Courtroom.
7. The BZA appointed James McDaniel as Chair and Brandon Martin as Vice-Chair at their March 31st meeting.

Economic Development

1. Attending WPPDC East VATI Management Team Zoom Meeting held on March 4th. VDOT permits have been issued, and building permits have been submitted to commence construction at the Cox Road site by the second quarter.
2. Participated in the CRC's DHCD Regional Broadband Affordability and Adoption Plan Zoom meeting on March 17th and discussed the final draft of the strategic plan before sending it to DHCD. Last meeting of the Committee will be held on April 7th.
3. Staff submitted current parcels to LoopNet/Costar to update the LoopNet listing for Pickett Park and uploaded new location/zoning maps for each of the parcels owned by the County instead of having one listing of one 432.21+/- acre parcel that was somewhat fragmented throughout the Park.

EMERGENCY SERVICES COORDINATOR'S REPORT

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr.

DATE: April 10, 2025

SUBJECT: April Report

The following activities and projects are provided in this summary of work by the Department of Emergency Services since my last report on March 13th before your monthly Board of Supervisors meeting on March 20, 2025. Many of these activities listed below were performed in collaboration with other staff members and external stakeholders.

The current emergency services related projects and activities that I have worked on and represented the county include, but are not limited to, the following:

- Participated in several virtual meetings over March & April with CTA, Kenwood, and tower companies to discuss the next steps in our radio communications project.
- Attended Career Fair Day at the Nottoway High School on March 18th.
- Participated in planning meetings on March 18th and March 31st with Deputy Robert Sawyer and other public safety agency representatives to discuss plans for an active shooter exercise that we are having at Nottoway Educational Complex on April 4th.
- Coordinated the Knox key access system training with the company trainers who delivered the class to all fire departments in the county on March 18th.
- Facilitated a meeting on March 20th with Social Services staff who are on the emergency shelter team to go over the inventory and needs list for the mass care shelter support trailer.
- Worked on the presentation information and cost figures for the Total Response software platform with Michelle Graham of NCSO for the March 20th BOS meeting.

to overview the proposal to use the awarded state grant funding and a 50% local match to purchase the first integrated software platform that includes Emergency Medical Dispatch (EMD) for Nottoway County. Followed up on the necessary state grant paperwork and next steps of the process through the electronic grants portal.

- Attended an ESO Solutions incident reporting software session at the Richmond Fire Training Center on March 25th.
- Attended a vehicle extrication demonstration with several county emergency services agencies on April 1st at Kenston Forest School. This was the presentation on the risks of distracted driving. It was attended by many school students and teachers. LifeEvac 4 medical helicopter landed at the school for the demonstration.
- Facilitated the monthly meeting of the Fire & EMS Working Group on April 1st at the Extension Office Conference Room. The main topics were the fire/EMS tax levy, budget update, and capital improvement plan updates for the emergency vehicle capital outlay over the next 10 years. Other topics were Fire/EMS training, haz-mat unit update and several emergency operations topics. (Agenda attached)
- Participated in a full day training exercise on April 4th at Nottoway High School complex for two mass casualty incident (MCI) scenarios that included all public safety agencies and VDOT for realistic scenarios.
- Coordinated with CTA to hold a mutual aid virtual meeting on April 8th with Amelia and Dinwiddie to discuss interoperability in the interim period before our new radio system is turned on for service.
- Attended the BOS worksession on April 10th and provided information for the proposed fire/EMS tax levy, burn ban update, and a new grant opportunity with USDOJ under the COPS community project program. This is a congressionally directed spending request, which we will apply to request an additional \$1,026,904 for our countywide public safety radio system, with no local match.

**NOTTOWAY COUNTY
FIRE & EMS WORKING GROUP
PLANNING MEETING**

**April 1, 2025
18:00 hrs.**

***MEETING LOCATION: Nottoway County Social Services
Conference Room
288 West Courthouse Rd. – Nottoway, VA 23955***

Hurt and Sons LLC
Managing Member
110 Timberlake Drive
Youngsville, North Carolina 27596

**Re: Nottoway Animal Shelter
Notice of Award**

Dear Mr. Hurt:

Thank you for your interest in the above project. On behalf of Nottoway County, we are notifying you that the contract will be awarded to Hurt and Sons LLC for the amount of \$2,103,550.00 for the bid dated March 11, 2025.

The Contract is attached with this Notice of Award. Please provide a schedule of values, current list of subcontractors and the name of superintendent. Hurt and Sons LLC has ten (10) consecutive calendar days to return the signed Contract and furnish the Owner all required documents listed, including but not limited to:

- a. Certificates of Insurance
- b. Contractor's Certification as to Licensure of Subcontractors Form

Upon receipt of an executed agreement, a Notice to Proceed will be issued. You will be notified of a date and time of a pre-construction meeting that suits the schedule of all parties. On behalf of the Nottoway County, we thank you and look forward to working with you on this project.

Sincerely,

Solex Architecture, Inc.

Jeffrey L. Bond, AIA, LEED AP BD+C
Architect | Owner

Qualifications

Per § 15.2-4904

- Shall be composed of seven directors, appointed by the governing body of the locality.
 - Appointed initially for terms of one, two, three, and four years; two being appointed for one-year terms; two being appointed for two-year terms; two being appointed for three-year terms, and one being appointed for a four-year term.
 - Subsequent appointments shall be for terms of four years, except appointments to fill vacancies, which shall be for the unexpired terms.
 - All terms of office shall be deemed to commence upon the date of the initial appointment to the authority, and thereafter, in accordance with the provisions of the immediately preceding sentence. If at the end of any term of office of any director a successor thereto has not been appointed, then the director whose term of office has expired shall continue to hold office until his successor is appointed and qualified.
- Four members of the board of directors shall constitute a quorum
- Shall receive no salary but may be compensated such amount per regular, special, or committee meeting or per each official representation as may be approved by the appointing authority, not to exceed \$200 per meeting or official representation, and shall be reimbursed for necessary traveling and other expenses incurred in the performance of their duties.

Grant Assistance:

- Applications were submitted to the Sentara grant program for Crossroads Services to purchase generators and for Charlotte County Meals on Wheels to expand service and provide five meals a week to all clients.
- A regional grant was submitted to the Virginia Tobacco Region Revitalization Commission to help towns pursue historic designations and catalog vacant buildings in the BOOMS database.
- The CRC applied for funding through the Virginia Housing Regional Housing Program to build 10 homes across Buckingham County, Farmville, Keysville, and Crewe, through a partnership with Piedmont Habitat for Humanity
- A TRRC grant application was submitted to support branding and communications for Virginia's Heartland Regional Economic Development Alliance.
- An application to the Virginia Outdoor Foundation's Preservation Trust Fund was submitted to support restoration work at the Keysville Reservoir, including a regaveled parking lot and new boat landing.

The CRC provides free grant writing services for member localities and local 501C3 non-profits.

Connected America Conference

CRC's Ethan Bowman attended the Connected America Conference in Dallas, Texas, which focused on broadband expansion, digital equity, and emerging infrastructure technologies. The event provided valuable insights that will help guide CRC's work on broadband access across the region.

CRC Hosts Regional Water Supply Plan Meeting

The CRC hosted the kickoff meeting for the Roanoke River 3 Regional Water Supply Plan on March 20th. DEQ staff presented updates on regulatory changes, planning elements, and the long-term coordination needed to ensure sustainable water resources in the region.

Affordable Workforce Housing – Homes Set in Keysville

All five homes along Ashley Way in Keysville have been set and are now being completed by contractors. This milestone is part of CRC's ongoing partnership with Piedmont Habitat for Humanity and Virginia Housing to expand affordable housing in the region.

Crewe Downtown Revitalization Planning Grant

The Town of Crewe held its first public hearing on March 3rd in preparation for the CBDG Downtown Revitalization grant application process. A second public hearing is scheduled for April 14th. CRC continues to support the Town in its revitalization efforts.

Lunenburg/Kenbridge/Victoria Joint Comprehensive Plan Approved

The final draft of the Joint Comprehensive Plan was officially approved Town Councils of Victoria & Kenbridge, and the Lunenburg County Board of Supervisors.

Subject: Dominion Work Session Clarification

Hi Mr. Bowen,

My name is Bobbi and I work for a solar developer called Ampliform.

I wanted to follow up after the work session with Dominion to provide some clarification regarding project oversight and our expected timeline. The timeline Dominion provided aligns more with a project that is just entering the interconnection queue, whereas our project is significantly further along. Additionally, I'd like to lay out some information that could be helpful in providing context for a transmission/PJM project like Rocky Ford.

Project Status & Timeline

We entered the interconnection queue in 2023 and remain on track to have our interconnection agreement with PJM finalized by the end of 2025. Once the agreement is in place, Dominion will have three years (from the end of 2025) to complete necessary substation upgrades.

During that same period, we will be constructing the site, ensuring no unnecessary delays. If we obtain a Conditional Use Permit this year, we will remain on track to begin construction in 2027 and achieve operational status by 2028.

Role of Dominion vs. PJM

PJM is the regional transmission organization (RTO) that oversees the electric grid and manages the interconnection process. PJM determines what upgrades are needed for new projects and assigns responsibilities. Dominion owns and operates the transmission infrastructure (such as substations) but does not have decision-making authority over project approvals. Dominion is only responsible for implementing the upgrades that PJM requires.

Dominion does not control whether projects get approved—PJM oversees the process. Likewise, Dominion is only responsible for upgrading infrastructure as required by PJM.

We do also have a good relationship with Dominion as we continue to develop projects in their service territory. We are familiar with their requirements and standards and do develop our projects to meet those standards where necessary.

Community Support

We're open to further discussions on how we can collaborate with the county, including potential ways to support the Courthouse debt service such as front-loading siting agreements etc.

Please let me know if you have any questions or would like to set up a time to go over any of these details further.

Thanks!

Bobbi Rodriguez (she/her)

RICHMOND, VIRGINIA 23237-1103

March 18, 2025

Facilities Engineering and Management

SUBJECT: Virginia Army National Guard (VaARNG) Programmatic Agreement (PA) for Cultural Resources Management at Properties throughout Virginia.

Nottoway County
ATTN: Mr. Stephen W. Bowen, County Administrator
P.O. Box 92
Nottoway, Virginia 23955

Dear Mr. Bowen:

The Virginia Army National Guard (VAARNG) has a state and federal mission, which includes military training and related programs and activities on properties located throughout the Commonwealth, and is responsible for the management of diverse cultural resources at these properties. The VAARNG is updating a programmatic agreement (PA) in consultation with the Advisory Council on Historic Preservation and the Virginia Department of Historic Resources, for the management and treatment of historic properties located at VAARNG facilities. Implementation of the PA will meet VAARNG's responsibilities under Section 106 of the National Historic Preservation Act of 1966, as amended, while streamlining procedures and implementing programmatic efficiencies governing actions involving archaeological, architectural, and cultural resources.

Properties covered under the proposed PA include Maneuver Training Center Fort Barfoot (MTC Fort Barfoot) located in Brunswick, Dinwiddie, and Nottoway counties, Waller Depot in Henrico County, the Combined Support Maintenance Shop (CSMS) at Defense Supply Center Richmond (DSCR) in Chesterfield County, Sandston Army Aviation Support Facility (AASF) in Henrico County, State Military Reservation Camp Pendleton (SMR Camp Pendleton) in the City of Virginia Beach, and Readiness Centers (RC facilities) and Field Maintenance Shops (FMS facilities) across the Commonwealth. Appendix A in the draft PA includes maps of the facilities covered under the proposed PA.

The VAARNG seeks public input in this process in accordance with 36 CFR 800.2(c)(5), and has enclosed a copy of the draft PA for your review. If you have questions or have any comments on the draft PA, please let us know within thirty (30) calendar days of receipt of this letter, by contacting Dr. Lisa Vaughan Jordan, VDMA-VAARNG Cultural Resources Program Manager, by telephone at 804-605-0034, by email at lisa.v.jordan.nfg@army.mil, or by mail at NGVA-FMO-ENV, Building 1484, Fort

NGVA-ZA

SUBJECT: Virginia Army National Guard Programmatic Agreement

Barfoot, Blackstone, Virginia 23824. We look forward to hearing from you about your interest in this initiative.

Sincerely,

MASON.ROBERT .

**PROGRAMMATIC AGREEMENT AMONG
THE VIRGINIA ARMY NATIONAL GUARD, THE NATIONAL GUARD BUREAU,
VIRGINIA STATE HISTORIC PRESERVATION OFFICE, AND THE ADVISORY
COUNCIL ON HISTORIC PRESERVATION
REGARDING ROUTINE OPERATIONS, MAINTENANCE, DEVELOPMENT, AND
TRAINING ACTIONS AT VIRGINIA ARMY NATIONAL GUARD PROPERTIES
THROUGHOUT VIRGINIA**

WHEREAS, the Virginia Army National Guard (VAARNG) intends to continue to coordinate and administer an ongoing program of operation, maintenance, development, and military training (Program); and

WHEREAS, the National Guard Bureau (NGB), as set forth at Department of Defense (DoD) Directive 5105.77, National Guard Bureau, is a Federal Agency and provides federal funding to the VAARNG, to carry out projects under the Program on both federal and state owned facilities, and the VAARNG plans to carry out the activities pursuant to Army Regulations, thereby making the projects undertakings as defined in 36 CFR § 800.16(y) subject to review under Section 106 of the National Historic Preservation Act (NHPA), 54 USC § 306108, and its implementing regulations 36 CFR § 800; and

WHEREAS, this Programmatic Agreement (Agreement) applies to all individual projects associated with operation, maintenance and repair activities, including but not limited to, those funded by Military Construction (hereinafter MILCON), Sustainable Range Program (SRP), Sustainment Restoration and Modernization (hereinafter SRM), and Unidentified Minor Military Construction Army (hereinafter UMMCA) initiatives or other reimbursable funding such as maintenance reserve or general fund state monies; and

WHEREAS, the VAARNG has defined the Area of Potential Effects (APE) for the purposes of this Agreement as all lands and facilities owned, operated, occupied, or maintained by the VAARNG as illustrated on maps and listed in Appendix A, "Area of Potential Effects"; and

WHEREAS, the VAARNG has determined that the development of an Agreement, in accordance with 36 CFR § 800.14(b)(1)(i), is warranted because the effects on historic properties are similar and repetitive and because of the routine nature of many actions that are part of the ongoing management and operation of all lands and facilities owned, operated, occupied, or maintained by VAARNG; and

WHEREAS, the VAARNG follows the identification and assessment steps in Section 106 of the National Historic Preservation Act (NHPA) to consider the effects of federally funded projects on historic properties; and

WHEREAS, the VAARNG has determined that individual undertakings in support of the aforementioned Program may have the potential to adversely affect properties eligible for or listed in the National Register of Historic Places (NRHP) as contained in Appendix B, “Historic Properties Inventory”, and has consulted with the Virginia State Historic Preservation Office (SHPO) pursuant to 36 CFR § 800; and

WHEREAS, the following program comments are applicable to the VAARNG: Department of Defense Program Comment on Unaccompanied Personnel Housing, Department of the Army Program Comment on Pre-1919 Historic Army Housing, Associated Buildings and Structures, and Landscape Features, the Department of the Army Inter-War Era Historic Housing, Associated Buildings and Structures, and Landscape Features (1919-1940), the Department of the Army Program Comment on Vietnam War Era Housing, Associated Buildings and Structures, and Landscape Features (1963-1975), Department of Defense Program Comment on Ammunition Storage Facilities, and Program Comment on Army Ammunition Production Facilities and Plants, and nothing in this Agreement shall alter the terms or conditions of those Program Comments; and

WHEREAS, the Programmatic Memorandum of Agreement (PMOA) for Department of Defense World War II Temporary Buildings is applicable to VAARNG and nothing in this Agreement shall alter the terms or conditions of the PMOA; and

WHEREAS, the Fiscal Year 2025 NATIONAL DEFENSE AUTHORIZATION ACT (NDAA), §2823 “APPLICATION OF CERTAIN AUTHORITIES AND STANDARDS TO HISTORIC MILITARY HOUSING AND ASSOCIATED HISTORIC PROPERTIES OF THE DEPARTMENT OF THE ARMY” authorizes the Army, in fulfillment of NHPA requirements, to apply existing Army Program Comments to housing not previously subject to a Program Comment. In accordance with FY 2025 NDAA §2823, housing constructed during the WWII / Post-WWII (1941-1948) is addressed by the Army Program Comment for Capehart-Wherry Housing, and post-1975 housing is addressed by the Army Program Comment for Vietnam War Era housing. As such, the terms of this (PA/MOA agreement) are not applicable to WWII / Post-WWII (1941-1948) housing or to post-1975 housing; and

WHEREAS, the Virginia Air National Guard (VAANG) 203rd Rapid Engineer Deployable Heavy Operational Repair Squadron Engineers (203rd RED HORSE) in accordance with the *Land Lease Between the Commonwealth of Virginia, Department of Military Affairs, and the United States of America* (Lease No. 5-22-0051), and supplemental agreements thereto, is a tenant at State Military Reservation (formerly Camp Pendleton, located in the City of Virginia Beach); 203rd RED HORSE occupies about 54.92 acres within the NRHP-listed Camp Pendleton/State Military Reservation Historic District (DHR Inventory No. 134-0413) which under this Agreement is part of the State Military Reservation/Camp Pendleton APE; the VAANG must comply with Air Force Instruction

(AFI) 32-7065 "Cultural Resources Management Program" and 203rd RED HORSE is responsible for all environmental compliance requirements associated with actions on the parcel (Lease No. 5-22-0051), and therefore the parcel (Lease No. 5-22-0051) is excluded from this Agreement, and the 203rd RED HORSE has been invited to sign this Agreement as a concurring party; and

WHEREAS, the Department of the Army by Permit No. DACA 65-4-15-28, dated June 22, 2015, granted use of two parcels totaling approximately 625.71 acres at Fort Pickett (now Fort Barfoot, located in Brunswick, Dinwiddie, and Nottoway counties), to the United States Department of State (DOS) for the Foreign Affairs Security Training Center (FASTC) facility; under this Agreement the subject acreage is part of the Fort Barfoot (Pickett) APE, and under the permit the DOS is responsible for environmental compliance requirements associated with actions on the parcels; and any permit amendments and any related lease agreements for the FASTC will be adopted under this Agreement without amendment, and to date the General Services Administration (GSA) has identified six archaeological sites in Phase I archaeological survey within the FASTC permit area (DACA 65-4-15-28) determined in consultation with SHPO to be potentially eligible for listing in the NRHP, and require further evaluation; and

WHEREAS, the VAARNG invited the ACHP to participate in consultation for this Agreement pursuant to 36 CFR § 800.14(a)(2) and the ACHP agreed to participate in consultation; and

WHEREAS, the VAARNG has identified fifteen (15) federally recognized Indian tribes (Federal Tribes), the Catawba Indian Nation, the Cayuga Nation of Indians, the Cherokee Nation, the Eastern Band of Cherokee Indians, the Chickahominy Indian Tribe, the Chickahominy Indians – Eastern Division, Delaware Tribe of Indians, the Eastern Shawnee Tribe of Oklahoma, the Monacan Indian Nation, the Nansemond Indian Nation, the Pamunkey Indian Tribe, the Tuscarora Nation, the Rappahannock Tribe and the United Keetoowah Band of Cherokee Indians of Oklahoma, and Upper Mattaponi Indian Tribe that have expressed an interest in VAARNG undertakings in Virginia through prior consultation on project activity, and the VAARNG by letters dated March 18, 2025 invited the tribes to participate in consultation for this Agreement pursuant to 36 CFR § 800.14(f); and

WHEREAS, no federally recognized tribe(s) opted to participate in development of this Agreement; and

WHEREAS, the VAARNG has identified four (4) state recognized Indian tribes (State Tribes), the Cheroenhaka Indian Tribe, Mattaponi Indian Tribe, Nottoway Indian Tribe of Virginia, Inc., and Patawomeck Indians of Virginia, and by letters dated March 18, 2025 the VAARNG invited them to participate in consultation for this Agreement pursuant to 36 CFR § 800.14(b)(2)(ii) through prior consultation on project activity; and

WHEREAS, no state recognized tribe(s) opted to participate in development of this Agreement; and

WHEREAS, if any State Tribe or other tribe with cultural affiliation to Virginia receives federal recognition by the United States Government subsequent to the execution of this Agreement, the VAARNG will consult with the recognized Tribe as a Federal Tribe in accordance with the terms of this Agreement and pursuant to the applicable provisions of 36 CFR § 800; and

WHEREAS, the VAARNG, by letters dated March 18, 2025, invited the localities of the Town of Blackstone, Brunswick County, Chesterfield County, Dinwiddie County, Henrico County, Lunenburg County, Nottoway County, Clarke County, and the City of Virginia Beach, to participate in consultation pursuant to 36 CFR § 800.14(b)(2)(ii) regarding development of this Agreement; and

WHEREAS, no local government(s) opted to participate in development of this Agreement; and

WHEREAS, the VAARNG, by letters dated March 18, 2025, invited the Brunswick Museum and Historical Society, the Chesterfield Historical Society of Virginia, the Dinwiddie County Historical Society, the Henrico County Historical Society, the Lunenburg County Historical Society, the Nottoway County Historical Association, Clarke County Historical Association, and the Princess Anne County and Virginia Beach Historical Society, to participate in consultation for this Agreement pursuant to 36 CFR § 800.14(b)(2)(ii); and

WHEREAS, no historical organization(s) opted to participate in development of this Agreement; and

WHEREAS, the VAARNG has afforded the public an opportunity to comment on the Agreement pursuant to 36 CFR § 800.14(b)(2)(ii), through a “Request for Public Comment” notice, along with the draft document, published on the VAARNG website (<https://va.ng.mil/Programs-Resources/Environmental-Program/>) for a thirty (30) day period starting March 10, 2025 and ending April 11, 2025.

WHEREAS, public comment in response to the “Request for Public Comment” notice was invited until April 11, 2025, and no public comment was received; and

WHEREAS, the terms and definitions used in this Agreement are presented in Appendix G, “Terms and Definitions”; and

NOW, THEREFORE, the VAARNG, NGB, SHPO and the ACHP agree that the Program shall be implemented in accordance with the following stipulations to consider the

effects of undertakings on historic properties.

STIPULATIONS

The VAARNG and NGB shall ensure that the following stipulations are carried out:

I. STAFFING

- A. The Adjutant General (TAG) shall designate a Cultural Resource Manager (CRM) to coordinate the VAARNG's cultural resources management program. The CRM shall meet, or have available, the services of individuals who meet, the Secretary of the Interior's *Professional Qualifications Standards* (36 CFR § 61) (*SOI Qualifications Standards*) in the appropriate discipline for the tasks appointed to them. Qualified professionals shall be in place or available upon adoption of this Agreement.
- B. The CRM shall ensure that all individuals contracted to perform cultural resource management duties are qualified under the *SOI Qualifications Standards* designated in the appropriate discipline for the tasks appointed to them.

II. PROJECT REVIEW

A. Determine the Undertaking

- 1. The CRM shall determine if a proposed project is an undertaking as defined in 36 CFR § 800.16(y).
 - a. If the CRM determines the proposed project is an undertaking that has no potential to cause effects on historic properties as defined in 36 CFR § 800.16(i), the VAARNG has no further obligations under this stipulation.
 - b. If the CRM determines the proposed project is an undertaking with the potential to cause effects on historic properties, the CRM shall continue to the next step of the Project Review process.
- 2. The CRM shall determine if the undertaking is an activity that is listed in Appendix C, "Excluded Activities".
 - a. If the CRM determines the undertaking is an activity that is listed in Appendix C, the CRM shall document this determination for inclusion in the Annual Report, as set forth in Stipulation X. REPORTING AND ANNUAL REVIEW, and the VAARNG has no further obligations under this stipulation.

- b. If the CRM determines the undertaking is not an activity that is listed in Appendix C, the CRM shall continue the Project Review process.

B. Define the APE and Identify Historic Properties

1. Should the activity be determined to be an undertaking with the potential to cause effects and is not an excluded activity, the CRM shall determine and document the undertaking's APE considering direct, indirect, and cumulative effects.
2. The CRM shall determine if supplemental identification efforts are required for the APE using the following parameters:
 - a. If the undertaking's APE is entirely within an identified Dudded Impact Area and its buffer area, the undertaking is exempt from further review under this Agreement, and the CRM shall document this determination for inclusion in the Annual Report, and the VAARNG has no further obligations under this stipulation.
 - b. Using current mapping and per the archaeological assessment and predictive model, the APE for Fort Barfoot will be determined based on the following:
 - i. Prioritization and classification based on their level of integrity, potential to produce information, and research potential into first, second, and third orders with first being the rarest with highest site integrity and third representing ubiquitous sites and/or higher levels of compromised integrity. (VDHR File No. 2018-0050)
 - ii. Considering probability analysis through the predictive model as described below.
 - (I) *Low Probability Area* – area of the installation which has been subject to Phase I survey resulting in no identified archaeological sites, or which is fully developed and likely to have substantial clean fill material resulting from modern development, or which has been subject to other repeated and/or intensive land disturbance activity in the past.
 - (II) *Medium Probability Area* – area of the installation with no current surface infrastructure (such as buildings) subject to a Phase I survey resulting in the absence of archaeological sites, but which has been recommended by cultural resource professionals for supplemental identification efforts prior to the approval of an undertaking.

(III) High Probability Areas – documented location of historic property or potentially eligible site(s) and a 100-foot circumference around such location within the boundary of the APE.

3. The CRM shall determine whether historic properties surveys are required for the APE.
 - a. If prior identification efforts are not adequate in all or part of the APE for an undertaking, the CRM shall ensure that adequate identification is completed by individuals meeting the *SOI Qualifications Standards*.
 - b. If the APE contains property(ies) requiring evaluation, the CRM shall evaluate the property(ies) for eligibility to the NRHP and shall forward documentation supporting the evaluation(s) to the SHPO for review and comment.
 - i. The SHPO shall be afforded thirty (30) calendar days to respond to the VAARNG's determination(s) of eligibility. If the SHPO does not reply within the thirty (30)-day period, the VAARNG may assume concurrence and proceed with the next step in the Project Review process.
 - ii. If the VAARNG and the SHPO agree that the property(ies) in the APE are not eligible for inclusion in the NRHP, the CRM shall proceed to stipulation II.B.4., below.
 - iii. If the VAARNG and the SHPO agree that the property(ies) in the APE are eligible for inclusion on the NRHP, the CRM shall proceed to stipulation II.B.5., below.
 - iv. If the VAARNG and the SHPO do not agree on determination(s) of eligibility, the CRM shall either resolve the disagreement through further consultation with the SHPO or shall consult the Keeper of the National Register pursuant to 36 CFR § 63.
4. If the CRM determines that historic property identification has been completed in the APE and that there are no historic properties present, the CRM shall document the determination of "No Historic Properties Present" for inclusion in the Annual Report, and the VAARNG has no further obligations under this stipulation.
5. If the CRM determines that historic property identification has been completed in the APE and identifies historic properties within the APE that may be directly, indirectly, or cumulatively affected, the CRM shall continue the Project Review process.

C. Evaluate Effect of the Undertaking

1. The CRM shall assess the effect of the proposed undertaking on historic properties, to include direct, indirect, and cumulative effects, using the criteria of adverse effect (36 CFR § 800.5(a)(1)) and shall make one of the following determinations:
 - a. “No Historic Properties Affected”: If the CRM determines that historic properties present in the APE will not be affected by the undertaking, the CRM shall document this determination for inclusion in the Annual Report, and the VAARNG has no further obligations under this stipulation.
 - b. “No Adverse Effect to Historic Properties”:
 - i. If the CRM determines that historic properties present in the APE will not be adversely affected by the undertaking, the CRM shall provide the SHPO with a packet of information including, but not necessarily limited to, the following, and shall endeavor, when possible, to provide this documentation through the SHPO’s Electronic Project Information Exchange (ePix) system:
 - (I) Project description, to include depth and extent of ground disturbance when any is anticipated;
 - (II) APE map showing the location of the project and location(s) of all identified historic property(ies);
 - (III) Description of the historic property(ies) affected;
 - (IV) Photographs depicting historic property(ies) and the project area, as appropriate and as necessary for SHPO review; and
 - (V) The finding of effect and request for the SHPO’s concurrence with the “No Adverse Effect to Historic Properties” determination.
 - ii. Standard Treatments: If the project will utilize approved standard treatments found in Appendix D, “Standard Treatments”, the CRM shall reach a finding of “No Adverse Effect to Historic Properties”, and this determination will be documented in the Annual Report, and the VAARNG has no further obligation under this stipulation.
 - iii. The SHPO shall provide a response to the VAARNG’s “No Adverse Effect” determination within thirty (30) calendar days of receipt of all pertinent documentation necessary to reach a decision.

- iv. If the SHPO concurs with the “No Adverse Effect to Historic Properties” finding, the CRM shall document this concurrence for inclusion in the Annual Report, and the VAARNG has no further obligations under this stipulation. If the SHPO does not reply within the thirty (30)-day period, the VAARNG may assume concurrence.
- v. If the SHPO does not concur with the finding of “No Adverse Effect to Historic Properties,” VAARNG shall attempt to resolve the objection through consultation. The CRM shall consult with the SHPO for no more than a total of thirty (30) calendar days from original notification, or other period as agreed to between the SHPO and the CRM from receipt of SHPO notification of non-concurrence, to attempt to resolve concerns as identified by the SHPO.
 - (I) If at the end of the thirty (30) days, or agreed to specified time, the SHPO concurs with the finding of “No Adverse Effect to Historic Properties,” the CRM shall document this concurrence for inclusion in the Annual Report, and the VAARNG has no further obligations under this stipulation.
 - (II) If at the end of the thirty (30) days, or agreed to specified time, the SHPO does not concur with the finding of “No Adverse Effect to Historic Properties,” the CRM shall proceed to Stipulation II.D., below, or notify NGB and the ACHP in accordance with Stipulation XI, “Dispute Resolution”.
- c. “Adverse Effect to Historic Properties”: If the CRM determines that historic property(ies) present in the APE will be adversely affected by the undertaking, the CRM shall continue the Project Review process.

D. Resolution of Adverse Effects

- 1. If the CRM determines that the undertaking will have an “Adverse Effect to Historic Properties”, the CRM shall notify the SHPO using the following process:
 - a. The CRM shall prepare a notification package for the SHPO that includes a description of the undertaking, a map depicting the APE, the identified historic property(ies) within the APE, and the justification for the finding of adverse effect.
 - b. The CRM shall send the notification package to the SHPO through SHPO’s Electronic Project Information Exchange (ePix) system; the SHPO has thirty (30) calendar days upon receipt of complete information

to provide a written response to the CRM.

- c. If the SHPO does not concur with the finding of adverse effect, the CRM shall consult with the SHPO for no more than fifteen (15) calendar days to resolve the disagreement, or other period as agreed to between the SHPO and the CRM.
 - i. If at the end of the fifteen (15) days, or other agreed to specified time, the CRM and the SHPO agree to a finding of “No Adverse Effect to Historic Properties”, the CRM shall document this concurrence for inclusion in the Annual Report and the VAARNG has no further obligations under this stipulation.
 - ii. If at the end of the fifteen (15) days, or other agreed to specified time, the CRM maintains the finding of adverse effect, the CRM shall continue the Project Review process of notification to Federal and State Tribes.
 - d. If the SHPO concurs with the finding of “Adverse Effect to Historic Properties”, the CRM shall continue the Project Review process.
2. The CRM shall notify all Federal and State Tribes of adverse effect findings in accordance with consultation protocols established between the VAARNG and the Tribe. Where Tribal consultation protocols do not exist, the CRM shall notify Tribes through the Consulting Parties notification process outlined in II.D.3., below.
 - a. Tribal notification shall occur concurrently with SHPO notification.
 - b. Tribes are under no obligation to provide comments on the effect determination; however, if they wish the VAARNG to consider their comments regarding the effect determination, Federal and State Tribes should submit comments in writing within thirty (30) calendar days, or other agreed to review period, from receipt of complete information. The VAARNG shall take any tribal comments received into consideration and shall seek to resolve any tribal concerns through consultation with tribes for a mutually agreed to period before concluding consultation and shall notify the SHPO of any tribal concerns and the VAARNG response to those concerns.
3. The CRM shall notify Consulting Parties and the public using the following process:
 - a. Consulting Party and public notification will occur concurrent with SHPO notification.

- VAARNG Operations, Maintenance,
Development and Training
Programmatic Agreement
April 2025

- Measures”, the VAARNG shall specify those in a letter agreement, which specifies minimization and/or mitigation and modification, referencing the administrative stipulations in this Agreement and signed by the TAG or the TAG’s designee, SHPO, and any other party that may have a responsibility outlined in the letter agreement (see Appendix F, “Letter Agreement Template”). The letter agreement shall be included in the Annual Report.
8. If through consultation with the SHPO, Federal and State Tribes, and other Consulting Parties, the adverse effect is minimized or mitigated, utilizing measures other than those in Appendix E, the VAARNG shall specify those treatment measures in a letter agreement (see Appendix F, “Letter Agreement Template”), referencing the administrative stipulations in this Agreement, which shall be signed by the TAG or the TAG’s designee, the SHPO, and any other party that may have a responsibility outlined in the letter agreement.
 9. If the CRM determines that it is not feasible to avoid an adverse effect to an archaeological site, the CRM shall develop a treatment plan for the site, as described in Appendix E.
 10. The ACHP and NGB shall only participate in the resolution of adverse effects for individual undertakings if a written request is received from the VAARNG and/or the SHPO.
 11. If through consultation with the SHPO, Federal and State Tribes, and other Consulting Parties, agreement cannot be reached on appropriate minimization and/or mitigation measures, the VAARNG shall follow the Dispute Resolution process outlined in Stipulation XI of this Agreement.

III. PLANNING AND IDENTIFICATION

- A. The TAG shall ensure that VAARNG planning documents are reviewed by the CRM during revisions, changes, or when a new planning document is developed to ensure that historic properties are adequately considered early in the planning process. The documents to be reviewed may include, but are not necessarily limited to, the Real Property Master Plan, military construction plans, Integrated Natural Resource Management plans, tenant activities, historic property renovation and demolition plans, Installation Design Guides, Historic Landscape Management plans, work orders, training land requests, and dig permits. The CRM shall be primarily responsible for preparation of and updates and revisions to the VAARNG Integrated Cultural Resource Management Plan (ICRMP). The CRM shall ensure that schedules and priorities are established and documented for identification, evaluation, and treatment of historic properties that might be affected by the plans and projects set forth in the planning documents.

- B.** The TAG shall ensure that all relevant offices, tenants, and range users at VAARNG facilities are informed of the schedules and priorities, the potential of projects to affect historic properties, the requirement to ensure that an analysis of alternatives is fully considered as early as possible in project planning, and of the requirement for CRM review at early planning stages pursuant to this Agreement.
- C.** The TAG shall ensure that the CRM will conduct biannual cultural resources awareness and requirements training regarding Stipulation II of this Agreement, "Project Review" with Facilities Management Staff, Environmental Staff, Environmental Officers, Range Staff, and others as deemed appropriate. All training provided by the CRM shall be included in the Annual Report. The CRM may request the SHPO's participation in the training program, and the SHPO shall endeavor to take part.
- D.** The CRM will update the existing inventory of historic properties as necessary, but no less than annually to reflect supplemental studies conducted. Archaeological probability assessments (including maps) shall be maintained and updated under the oversight of the CRM as new data is collected, but no less than once every five (5) years. New probability assessments are sent to DHR for review.
- E.** Per AR 200-1 *Environmental Protection and Enhancement* and DoDI 4710.02.3.4 *DoD Interactions with Federally Recognized Tribes*, routine program management to include tribal consultation shall be delegated to the CRM, who will serve as the tribal liaison.
- F.** The CRM will share updates to Geographic Information System cultural resource data, such as shape files showing the locations of known cultural resources and historic properties with the SHPO as a part of project review or upon request. The SHPO recognizes that these layers may contain sensitive information that shall not be disseminated or made available to the public.

IV. HISTORIC PROPERTY TREATMENT PLANS

- A.** The VAARNG may develop and update standard treatment plans or maintenance plans for specific resources or resource types to avoid or minimize adverse effects. Such plans may be incorporated into this Agreement at Appendix D, "Standard Treatments", without requiring amendment and are reviewed by SHPO's office with the same thirty (30) day review period as projects in the SHPO's Electronic Project Information Exchange (ePix) system.
- B.** Actions implemented in accordance with a standard treatment plan or maintenance plan, reviewed by SHPO's office with the same thirty (30) day review period as projects in the SHPO's Electronic Project Information Exchange

(ePix) system, which has been reviewed by signatories to this agreement and incorporated into this Agreement as Appendix D, as set forth at IV.A., above, and is thereby considered a "Standard Treatment", shall be deemed to have "No Adverse Effect to Historic Properties" in accordance with Stipulation II.C., above.

V. MANAGEMENT OF HISTORIC PROPERTIES

A. Management of the Historic Built Environment

1. Buildings, Structures, Objects, Sites, and Historic Districts: Such properties that meet the NRHP eligibility criteria, and therefore are considered historic properties, shall, to the greatest extent possible, be treated in accordance with the Secretary of the Interior's *Standards for Rehabilitation*. To the extent economically feasible and within mission requirements, the VAARNG shall manage historic properties in accordance with the following principles:
 - a. Adaptive Reuse: Where feasible, the VAARNG shall seek to reuse all historic properties, in a manner that supports and is consistent with VAARNG's on-going programs and mission.
 - b. Rehabilitation: Rehabilitation of historic properties, when undertaken, shall be completed in accordance with the SOI *Treatment Standards* that are in effect at the time the plans are reviewed.
 - c. New Construction: New construction within or immediately adjacent to a historic property, or a property that is being treated as a historic property for the purposes of the project, shall be consistent with the historic qualities and/or architectural characteristics of the historic property and its setting. The proposed new construction shall be designed to meet the SOI *Treatment Standards* and shall be responsive to the overall character of the historic property in terms of height, scale, massing, setbacks, color, materials, detailing, spacing, and setting.
 - d. Additions: Additions to historic properties shall adhere to the SOI *Treatment Standards* and shall be consistent with guidelines in National Park Service Preservation Brief #14, *New Exterior Additions to Historic Buildings: Preservation Concerns*, following the version in effect at the time the plans are reviewed.
 - e. Americans with Disabilities Act (ADA) Accessibility: The VAARNG shall explore all alternative methods to provide disabled accessibility to historic properties consistent with the SOI *Treatment Standards*, National Park Service Preservation Brief # 32, *Making Historic Properties Accessible*, and the Department of the Interior's report, *Access to Historic Buildings for*

the Disabled: Suggestions for Planning and Implementation, using versions in effect at the time the plans are reviewed. To the extent feasible, disabled accessibility features (e.g. ramps, elevators, etc.) shall not result in the removal of significant historic or architectural features or materials, and shall be designed, placed, and if appropriate, screened by vegetation, to minimize adverse effects to historic properties.

- f. Disposition of historic buildings, structures, and objects: Prior to determining the disposition of such historic properties, with reference to 36 CFR § 800.5(a)(2), the CRM shall consult with the project proponent regarding viable options, including but not limited to: adaptive reuse, demolition vs. disposal (demolition involving removal without loss, by actions such as dismantling the resource, including conveying ownership of the intact resource for relocation), architectural salvage, temporary mothballing (not to exceed five (5) years) until a new use can be identified, relocation, or enhanced-use lease. The VAARNG shall complete a cost benefit analysis when considering replacement of facilities that are considered historic properties, to compare the costs of rehabilitation (with or without construction of an addition) vs. costs of new construction (to include costs of demolition and disposal where applicable). When demolition of a historic property is proposed, an economic analysis shall be completed, consistent with DoD Instruction 4715.16.
- g. Landscaping: Installation of new plant materials, removal of existing plant materials, and care and maintenance of existing plant materials within the Camp Pendleton/State Military Reservation Historic District, and the installation and/or removal of hardscaping, stand-alone lighting fixtures, guard rails, and any other landscape features, and natural resources program management initiatives, shall seek to avoid adverse effects to the historically significant landscape characteristics of the overall Camp Pendleton/State Military Reservation Historic District, and of the cultural landscapes that contribute to the NRHP eligibility of the Camp Pendleton/State Military Reservation Historic District.

B. Management of Archaeological Sites

- 1. The VAARNG shall implement in consultation with the SHPO the archaeological site protection measures described below within three (3) years of execution of this Agreement. These protective measures shall be applied to archaeological sites determined eligible for NRHP listing, and those sites that have been identified as requiring further study:
 - a. High protective measures, defined as single protective measures or a combination of obstacles such as boulders, felled trees, abandoned

vehicles, or similarly effective physical barriers, fencing, stakes and/or signage, employing measures appropriate to the setting, shall be installed where archaeological sites as defined above at V.B.1. are in areas not protected by terrain, and/or heavy tree cover, and where wheeled and tracked vehicles frequently utilize that terrain.

- b.** Moderate protective measures, defined as a single measure or a combination, to include fencing, stakes and/or signage, employing measures appropriate to the setting, shall be installed where archaeological sites as defined above at V.B.1. are in areas not protected by terrain, and/or heavy tree cover, and where wheeled and tracked vehicles infrequently utilize that terrain.
 - c.** Nominally protective measures, defined as a combination of staking and/or signage, shall be installed where archaeological sites as defined above at V.B.1. are in terrain-protected areas not likely to allow wheeled and tracked vehicle access, except insofar as in the judgment of the VAARNG that the protected resource is better served by maintaining its anonymity.
 - d.** Administrative protective measures, defined as a policy that provides protection to one or more historic properties within a given area, normally through lack of access or activity restriction. Historic properties protected by this measure are generally not marked, although a combination of fencing, staking, and/or signage may be applied.
- 2.** The VAARNG shall protect archaeological sites considered historic properties, and identified sites requiring further study to determine eligibility, from land disturbance during construction and forest management activities through the installation of a temporary barrier such as snow fencing, or similar temporary barrier, or through flagging, or by otherwise clearly marking boundaries in the field, to prevent inadvertent site impacts. The barrier shall be placed at a minimum of fifteen (15) meters from the identified site boundary to ensure adequate protection.
- 3.** The VAARNG shall in consultation with the SHPO periodically inspect protected properties, to confirm the adequacy of the protection measures employed, as set forth below. The results of monitoring shall be presented in the Annual Report; however, this shall not be taken to mean that annual inspection of all sites is required.
 - a.** High frequency monitoring, defined as no less than once every twelve (12) months, will take place where protected properties have been subjected to looting or vandalism, and/or are easily accessible from public access

points.

- b. Moderate frequency monitoring, defined as no less than once every two (2) years, will take place where protected properties are in the vicinity of areas routinely used for training involving wheeled and tracked vehicles, and/or personnel or equipment activity concentrations.
- c. Low frequency monitoring, defined as no less than once every five (5) years, will take place where protected properties do not qualify for high or moderate frequency monitoring.

VI. CONSULTATION WITH FEDERAL TRIBES

The NGB shall retain ultimate responsibility for complying with all federal requirements pertaining to direct government-to-government consultation with Federally Recognized Tribes. Notwithstanding any other provision of this stipulation, the NGB shall honor the request of any Federal Tribe for direct government-to-government consultation regarding an undertaking covered by this Agreement.

- A. To provide for an effective and efficient consultation process, the VAARNG is authorized by the NGB to carry out consultation with Federal Tribes for undertakings covered by this Agreement. The TAG shall ultimately be responsible for ensuring that any VAARNG consultation with Federal Tribes authorized hereunder complies with this stipulation.
- B. The VAARNG shall conduct consultation in a manner that is respectful of tribal sovereignty and that recognizes and respects the government-to-government relationship between Federal Tribes and the NGB.
- C. The VAARNG shall ensure that consultation with Federal Tribes is initiated early in the project planning process to identify cultural, confidentiality, or other concerns and to allow adequate time for consideration of such concerns.
- D. The VAARNG shall ensure that consultation continues with Federal Tribes throughout the implementation of the terms of this Agreement prescribed by processes developed in consultation with the Federal Tribes.

VII. POST-REVIEW DISCOVERY

- A. If previously unidentified historic properties or unanticipated effects to historic properties are discovered during a project, consistent with the VAARNG ICRMP *Standard Operating Procedure for Inadvertent Discovery of Cultural Materials*, and in keeping with 36 CFR § 800.13(b), the Project Manager (PM) or Officer in Charge (OIC) shall ensure that all work ceases immediately within the area of the discovery and in all immediately adjacent areas where the historic property may

reasonably be expected to occur, shall secure the area, shall provide protection from further disturbance by establishing a buffer zone, and shall immediately notify the CRM or the CRM's designee of the discovery.

Any human remains that are discovered shall be treated with respect and dignity, in accordance with Stipulation VIII, "Discovery of Human Remains." These efforts will occur in conjunction with state and federal guidelines.

- B.** Upon notification of the discovery the CRM (or qualified designee who meets the SOI *Qualifications Standards*) shall inspect the location of the unanticipated discovery, and shall ensure that all activities within the area of the discovery have been halted and appropriate measures have been taken to prevent further damage, and shall determine whether areas beyond the initial buffer should be protected and if so, shall take measures to do so, and shall notify the SHPO via telephone, followed by email notification within twenty-four (24) hours of completion of the site inspection.
- C.** Based on the site inspection, the CRM shall either assume that the property is eligible for NRHP listing or conduct a cursory evaluation of the property in consultation with the SHPO.

 - 1.** Cursory evaluations shall be conducted by professionals meeting the SOI *Qualifications Standards* as appropriate to the kinds of historic properties discovered. Eligibility determinations may be based on review of readily available evidence and/or documentation and professional judgment.
 - 2.** The CRM shall submit a finding of eligibility to the SHPO for review and comment via email, including justification for the eligibility finding, and the SHPO shall provide comments on the VAARNG's finding within two (2) working days of receipt of the email.
 - 3.** If the CRM determines that the property is not eligible for listing in the NRHP and the SHPO concurs, the project may proceed as planned.
 - 4.** If the SHPO disagrees with a VAARNG finding that a property is not eligible for NRHP listing, the CRM shall either:

 - a.** Assume that the property is NRHP-eligible and continue the unanticipated discovery review process; or
 - b.** Conduct an evaluation of the property in accordance with Stipulation II.D, above.
 - 5.** All findings of NRHP eligibility or ineligibility, either assumed or based on cursory evaluations, shall pertain only to the subject undertaking.

- D.** If the CRM determines or assumes that historic properties were affected through a post-review discovery or unanticipated effect, the CRM shall assess effects to historic properties in accordance with 36 CFR § 800.5.
- 1.** If the CRM determines that effects are not adverse, the CRM shall submit a “No Adverse Effect to Historic Properties” finding and the basis for the finding to the SHPO for review and comment. The SHPO shall comment on the VAARNG’s finding within two (2) working days of receipt. If no comment is received within this period, the CRM shall assume concurrence.
 - 2.** If the SHPO does not concur with a VAARNG finding of “No Adverse Effect to Historic Properties”, the CRM shall either:
 - a.** Reach a finding of “Adverse Effect to Historic Properties” and proceed with the process outlined in Stipulation II.D., above; or,
 - b.** Submit the dispute to the ACHP for comment in accordance with Stipulation XI, “Dispute Resolution”, below.
- E.** If the CRM determines that the project has adversely affected historic properties or that adverse effects cannot be avoided, the CRM shall initiate the adverse effect resolution process in accordance with Stipulation II.D., above.

VIII. DISCOVERY OF HUMAN REMAINS

The VAARNG shall make all reasonable efforts to avoid disturbing burials and other gravesites, including those containing human remains and associated funerary artifacts. In the event that human remains are discovered, the VAARNG shall treat all human remains in a manner consistent with the ACHP’s “Policy Statement Regarding Burial Sites, Human Remains and Funerary Objects” (March 1, 2023, Burial Sites, Human Remains, and Funerary Objects | Advisory Council on Historic Preservation ([achp.gov](https://www.achp.gov))) and/or other relevant ACHP policy in effect at the time any remains and/or funerary artifacts are handled.

- A.** If human or unidentifiable remains are encountered, work shall immediately stop in the vicinity of the discovery, the area shall be secured, and the PM or OIC shall be contacted immediately. The PM or OIC shall immediately contact the CRM. The VAARNG shall immediately notify law enforcement (at Fort Barfoot, Headquarters Dispatch; at other installations, the Virginia State Police) and the SHPO, to determine whether the remains are human and whether they are associated with a crime. If the remains are not human, the installation CRM will be notified to assess the remains as a cultural resource in compliance with Army Regulation 200-1, *Environmental Protection and Enhancement* (AR 200-1). The CRM will ascertain whether the remains have archaeological potential or may be

considered a property of significance to Indian tribes in accordance with 54 USC 306108: *Effect of undertaking on historic property*, or whether they may be considered a cultural item in accordance with the Native American Graves Protection and Repatriation Act of 1990, 25 U.S.C. § 3001 et seq. (NAGPRA), as amended, [or 25 USC Chapter 32 – *Native American Graves Protection and Repatriation Act (NAGPRA)*]. Please reference **APPENDIX H: NAGPRA PLAN OF ACTION** for further information about procedures for this and subset B below.

- B. If the human remains are discovered on federal lands and determined to be Indian in origin, the VAARNG shall be responsible for compliance with NAGPRA. If the human remains are discovered on non-federal lands, the VAARNG shall be responsible for compliance with the Virginia Antiquities Act, Section 10.1-2305 of the Code of Virginia, final regulations adopted by the Virginia Board of Historic Resources and published in the *Virginia Register of Regulations* on July 15, 1991, or subsequent revisions, directing any federal undertaking, for coordinating with the state agency taking control of NAGPRA cultural items to comply with the NAGPRA future applicability regulations 43 CFR 10.13.
- C. The VAARNG shall use reasonable efforts to ensure that the public is excluded from viewing any burial site or associated funerary artifacts. The consulting parties to this Agreement shall not release any photographs of any burial site or associated funerary artifacts to the press or public. The VAARNG shall notify the appropriate Federal Tribe(s), and/or State Tribe(s) when burials, human skeletal remains, or funerary objects are encountered on a project, prior to any analysis or recovery. Recovery shall be consistent with the Archaeological Resources Protection Act of 1979 (ARPA) (16 U.S.C. 470aa-470mm; Public Law 96-95 and amendments).

IX. EMERGENCY ACTIONS

- A. Emergency actions are those actions deemed necessary by the VAARNG as an immediate and direct response to an emergency involving immediate threats to life and/or property. Emergency actions under this Agreement are only those implemented within thirty (30) calendar days from the initiation of the emergency. Emergency situations shall be handled in accordance with 36 CFR § 800.12.
- B. A comprehensive cultural resources emergency response plan for the department includes preparation for risks and natural disasters such as hurricanes, flooding, and earthquakes, and a plan for recovery and remediation, including facilities inspection and determination of required actions related to hazard mitigation, site security, and safety protocols. The final cultural resources emergency response plan is a standard treatment (Appendix D).
- C. If the VAARNG is unable to consult with the SHPO prior to carrying out

emergency actions, the VAARNG shall notify the SHPO and other parties as appropriate within seven (7) calendar days after the initiation of the emergency action. This notification shall include a description of the emergency action taken, any effects of the action(s) to historic properties, and, where appropriate, any further proposed measures to avoid, minimize, or mitigate potential adverse effects to historic properties.

- D. Where possible, such emergency actions shall be undertaken in a manner that does not foreclose future preservation or restoration of historic properties. Where possible, and where such emergency actions may affect historic properties, they shall be undertaken in a manner that is consistent with the SOI *Treatment Standards* to the greatest extent practicable. In addition, where possible, such actions will be done with on-site monitoring by a preservation professional who meets, at a minimum, the SOI *Qualifications Standards* in the appropriate field.
- E. Immediate rescue and salvage operations conducted to preserve life or property are exempt from these and all other provisions of this Agreement.

X. REPORTING AND ANNUAL REVIEW

- A. The VAARNG shall provide the SHPO and other Signatories to this Agreement with an Annual Report on or before January 31 of each year after the execution of this Agreement, summarizing activities carried out under the terms of this Agreement for the preceding calendar year.
- B. The Annual Report shall include:
 - 1. A list of exempt undertakings for which no further consultation was required;
 - 2. A list of undertakings for which no historic properties were present or affected, resulting in findings of "No Historic Properties Affected";
 - 3. A list of undertakings resulting in findings of "No Adverse Effect to Historic Properties";
 - 4. A list of any post-review discoveries;
 - 5. Updated maps to supplement the Agreement, to include any newly identified historic properties, and any changes to real property;
 - 6. An updated inventory of real property in VAARNG use or ownership, and an updated list of historic properties, properties requiring further evaluation, and properties otherwise designated "avoid" by the VAARNG;

7. A list of any proposed changes to Appendix C, "Excluded Activities";
 8. A list of any letter agreements in place and their respective status;
 9. A list of protected properties that were inspected and/or monitored during the year, consistent with item V.B., above.
- C. The Signatories to this Agreement may review this information to determine what, if any, additional revisions or amendments to the Agreement they recommend as necessary.
- D. The VAARNG shall ensure that the Annual Report is available for public inspection, that interested members of the public are made aware of its availability, and that interested members of the public are invited to provide comments to the VAARNG within thirty (30) calendar days of availability.
1. Any maps and/or information with location and data pertaining to archaeological sites or sites of traditional religious and cultural importance to Indian tribes shall be excluded from the report released to the public.
 2. The VAARNG shall forward to the SHPO any comments on the Annual Report received from the public.

XI. DISPUTE RESOLUTION

- A. Should a Signatory to this Agreement object to any of the actions proposed or the manner the terms of this Agreement are implemented, the VAARNG shall consult with such party to resolve the objection. If the VAARNG determines that such objection cannot be resolved, the VAARNG shall:
1. Forward all documentation relevant to the dispute, including the VAARNG's proposed resolution, to the ACHP. The ACHP shall provide the VAARNG with its advice on the resolution of the objection within thirty (30) calendar days of receiving adequate documentation. Prior to reaching a final decision on the dispute, the VAARNG shall prepare a written response that considers any timely advice or comments regarding the dispute from the ACHP and Signatories and provide them with a copy of this written response. The VAARNG shall then proceed according to its final decision.
 2. If the ACHP does not provide written comments regarding the dispute within the thirty (30)-day period, the VAARNG may make a final decision on the dispute and proceed accordingly. Prior to reaching such a final decision, the VAARNG shall prepare a written response that considers any timely comments regarding the dispute from the Signatories to the Agreement and provide them and the ACHP with a copy of such written response.

3. The VAARNG's responsibilities to carry out all other actions subject to the terms of this Agreement that are not the subject of the dispute remain unchanged.

B. The VAARNG shall review and resolve in a timely manner any substantive comments from members of the public. The VAARNG shall consult with the SHPO and other Signatories to this Agreement to resolve any objections received from a member of the public. The VAARNG will make every reasonable effort to resolve comments within thirty (30) calendar days. Project actions which are not the subject of the objections may proceed while the consultation is conducted.

XII. AMENDMENTS

A. This Agreement may be amended when such an amendment is agreed to in writing by all Signatories. The amendment shall be effective on the date it is signed by the last Signatory.

B. Certain additions and updates as specified elsewhere in this Agreement, to include but not be limited to updates to maps (Appendix A), real property inventories, historic property inventories (Appendix B), Excluded Activities (Appendix C), Standard Treatments (Appendix D), and Mitigation and Treatment Measures (Appendix E) provided by the VAARNG to the SHPO as part of the annual reporting process as outlined in Stipulation X, "Reporting and Annual Review", above, shall not require formal amendment of this Agreement. The agreement, however, will be updated according to any changes and shared with the ACHP.

XIII. TERMINATION

A. If any Signatory to this Agreement determines that its terms will not or cannot be carried out, the party shall immediately consult with the other Signatory Parties to attempt to develop an amendment according to Stipulation XII, "Amendments". If within thirty (30) calendar days (or another period agreed to by all Signatories) an amendment cannot be reached, any Signatory may terminate the Agreement upon written notification to the other Signatories.

B. Should consultation fail and the Agreement be terminated, the VAARNG shall either:

1. Consult in accordance with 36 CFR § 800.14 to develop a new Agreement; or
2. Comply with 36 CFR § 800 Subpart B regarding each undertaking.

XIV. ANTI-DEFICIENCY ACT COMPLIANCE

The stipulations of this Agreement are subject to the provisions of the Anti-Deficiency Act (31 USC § 1341). If compliance with the Antideficiency Act alters or impairs the VAARNG's ability to implement the stipulations of this Agreement, the VAARNG will consult in accordance with the amendment and termination procedures per Stipulations XII and XIII.

XV. DURATION

This Agreement shall take effect on the date it is filed with the ACHP after endorsement by all Signatories and shall remain in effect unless terminated pursuant to Stipulation XIII, "Termination". If not renewed or extended, this Agreement will expire ten (10) years after the date of the last signature to this Agreement. No extension or modification will be effective unless all Signatories have agreed in writing to such extension or modification.

EXECUTION of this PA by the VA ARNG, NGB, the SHPO, and the ACHP, and implementation of its terms, is evidence that the VA ARNG has considered the effects of its undertakings on historic properties and has afforded the ACHP reasonable opportunity to comment.

51C91	District	White Post Detention Center	20 th C. Prison**

*The VAARNG CSMS facility at the Defense Supply Center Richmond (DSCR) is located within the boundaries of the NRHP-eligible Bellwood-Richmond Quartermaster Depot Historic District (which includes the NRHP-listed Bellwood Historic District). Building 150 is not considered a contributing resource to this historic district but is considered eligible for NRHP listing under a historic context associated with the VAARNG. Buildings T-123, T-124, 15, 140, 151, 153, 154, and 155, contributing resources to the NRHP-eligible historic district, are also considered eligible under the context for the VAARNG.

**White Post Detention Center is owned by several parties. The VAARNG owns Buildings 2, 5, 9, 10, 45, 46, 47, 48, 49, and 55 along with several roadways, parking lots, and fences.

Please note that cemeteries and burial areas are not reflected in the listing but are treated as eligible sites and afforded the same protections in accordance with DoDI 1300.31; DoDI 4715.16; E.O. 13287; the National Historic Preservation Act of 1966; Part 800 of Title 36, CFR; National Register Bulletins 15 and 41; and related Service-specific and state policies.

APPENDIX C EXCLUDED ACTIVITIES

The following VAARNG activities with limited potential to affect historic properties do not require review under this Agreement.

1. Site maintenance and improvements

Streets, driveways, alleys, transit and parking areas:

- Routine road maintenance, repair, and resurfacing in disturbed areas (military activity, construction, bulldozing, road building and repair, etc.) confined to previously maintained surfaces, ditches, culverts, bridges and cut and fill slopes.
- Placing marl, gravel, or shell on dirt roads or lots where no new ground disturbance will occur.
- Repair of existing concrete or asphalt surfaces for curbs, gutters, and retaining walls.
- Maintenance, in-kind repair, and in-kind replacement of lighting, traffic signals, and traffic signs.

Landscaping:

- Mowing, trimming, and pruning of vegetation such as grass, shrubs, or trees.
- Routine vegetation control activities.
- Maintenance and repair of existing non-historic landscape features, including plantings, walkways, light fixtures, interpretive signage, bollards, landscape furniture, military equipment, and statuary.
- In-kind repairs to, or in-kind replacement of walks and steps.
- Installation or replacement of building identification, directional, traffic, speed and safety signage.

Erosion control:

- General erosion control activities such as gravel or riprap placement on slopes, where minimal grading or preparation is required.
- Planting or seeding ground cover and cleaning out existing drainage ditches.

Fencing:

- Maintenance of existing fencing, or in-kind repair or replacement with new fencing that matches existing fencing.
- Placement of wooden or metal stakes, benchmarks or other necessary land boundary markers.

Park and playground equipment:

- Repair or comparable replacement of existing park and playground equipment.

Placement of temporary buildings, structures, or objects (not to be in place for more than five (5) years):

- Temporary parking or placement of mobile homes, tents, and portable structures on extant parking lots or other surfaces where new ground disturbance is not required.
- Installation of temporary construction-related structures including scaffolding, barriers, screening, fences, protective walkways, signage, office trailers, refuse bins, or restrooms that will not require or cause new ground disturbance.
- Installation of temporary facilities management and military training support structures such as storage tanks, storage bladders, Conex units or other comparable structures, barricades, drive-through gates, etc. where new ground disturbance is not required.

Utilities

- Repair or maintenance of utility lines carried out within the existing previously disturbed right-of-way.
- Water systems maintenance and repair, and operation of plant water systems including water wells, cooling water systems, potable water systems, storm sewers, wastewater treatment systems, plant drainage, and plumbing; and including laying lines on the ground temporarily for military training purposes.

2. Exterior building maintenance and rehabilitation

Building maintenance and repair:

- General maintenance and in-kind repair of all buildings and structures, which includes, but is not limited to, painting; siding; roofing; molding/trim; door, ceiling, wall, window, floor covering repair/replacement.
- Elevator repair; filter and light replacement.
- Repairs to existing equipment.
- Repair or in-kind replacement of existing signs or awnings.

Lighting:

- Changes to interior and exterior lighting systems including replacement of or modification to lighting systems in all buildings and facilities
- Repair or in-kind replacement of existing light fixtures.

Foundation repair:

- Excavations for repair or replacement of existing footings or foundation within

two (2) feet of those footings and foundation, so long as work is confined to previously disturbed areas and there are no above-ground visual effects to an eligible or potentially eligible building, structure or object.

Windows and doors:

- In-kind repair of windows and doors, including caulking and weather stripping of existing window or door frames, and installation of new glass in existing sashes or doors, including retrofitting for double and triple glazing, and replacement of glazing putty.
- Installation of door or window locks or electronic security devices.
- Appropriate maintenance actions including surface treatments and preparation to apply finishes, such as cleaning, rust removal, limited paint removal, application of epoxy consolidates and fillers and reapplication of protective coating systems.
- Maintenance, repair or replacement of existing window screens with the same or in-kind materials.

Walls and siding:

- In-kind repair of wall or siding material or in-kind replacement of deteriorated siding or trim on buildings or structures.

Painting/lead paint abatement:

- Removal of exterior or interior paint by non-destructive means, limited to hand scraping, low pressure water wash (less than 200 p.s.i.), or paint-removal chemicals.
- All lead paint abatement. Application of exterior paint to previously painted surfaces.

Roofing:

- Repair or in-kind replacement of roof cladding and sheeting, flashing, gutters, soffits, and downspouts on buildings or structures.

Accessibility:

- Repair or in-kind replacement of existing wheelchair ramps, unless the ramps are to be substantially modified due to legal requirements.

3. Interior maintenance and rehabilitation

Green building technologies:

- Energy conservation measures including modifications to the heating, ventilation, and air condition (HVAC) control systems and conversions to alternative fuels in existing buildings and structures.
- Installation, repair or replacement of energy conservation materials not readily

visible, such as concealed thermal insulation, vapor barrier or roof ventilation.

Mechanical systems:

- Installation, replacement or repair of plumbing, HVAC systems and units, electrical wiring, security, and fire protection systems. This includes such elements as fixtures, conduit, ducting, pipes, wiring, and junction boxes.

Electrical:

- Maintenance, repair, removal, modification, upgrading or replacement of plant and building electrical systems (e.g., building conduit, wiring and lighting, emergency lighting, etc.).
- Upgrading or additional new electrical lines between or among buildings and facilities.

Retrofitting:

- Siting, installation, maintenance, repair, removal or replacement of communications and computer systems, including public address systems, facsimile systems, microwave and radio systems, fiber-optic cables, and phone systems.

Fire detection and suppression:

- Changes to fire detection and suppression systems including routine upgrades and modifications to fire alarm systems, smoke detectors, and sprinkler systems.

Health and safety:

- General clean-up, encapsulation, and removal and disposal of asbestos-containing materials from buildings and structures.

Interior spaces:

- Replacement of kitchen or bathroom facilities and fixtures within the existing room footprint.

Basement:

- Installation or repair of basement floors or walls in an existing basement.

4. General

Real estate actions

- Acquisition of new property or lease.
- Extension/renewal of existing real estate agreement.

Antiterrorism and Force Protection Measures:

- Antiterrorism and force protection measures designed and constructed to prevent or mitigate hostile actions, including cyber threats, as well as to increase capacity and protection for access control.

Wildlife habitat conservation:

- Maintenance and repair of VAARNG property, wetlands and stream channels; installation of nesting platforms and boxes; and installation of animal-secure fencing or barriers.

APPENDIX D STANDARD TREATMENTS

Application of the following Standard Treatments results in a finding of “No Historic Properties Affected” or “No Adverse Effect to Historic Properties.” Consistent with II.C.1. of this Agreement, the determination will be documented in the Annual Report and the VAARNG has no further obligation for project-specific consultation.

1. Facilities maintenance and improvements:

Minimal impact activities:

Actions that involve minimal activity over a limited land area, where little ground disturbance is needed (such as preparation for placement of temporary building(s), structure(s), or object(s) [not to be in place for more than three (3) years], installation of sidewalks, parking lots and training areas requiring minimal site preparation, and conducting low-impact training), to include activities carried out on a historic property or on a property treated by VAARNG as historic for the subject action, and/or adjacent to historic property(ies), where:

- Phase I archaeological survey has been conducted in the entire direct (archaeological) APE, and through consultation with the SHPO, no resources requiring further study to determine NRHP eligibility were identified by the VAARNG; or,
- Any archaeological sites considered historic properties or requiring further evaluation are buffered and protected as described above at V.B.2.; or,
- The entire area of disturbance is less than five (5) acres, it has been documented as previously disturbed, and it has been determined to have low probability to contain archaeological resources by an archaeologist meeting the *SOI Qualifications Standards*; and
- Any new work or temporary installation located on a historic property or on a property treated by VAARNG as historic for the subject action, and/or adjacent to historic property(ies), shall be compatible in use and appearance and will not introduce impacts that would result in an “Adverse Effect to Historic Properties”.

Treatment of abandoned wells:

Abandoned wells may be capped or filled, at the discretion of the VAARNG, as follows:

- Wells will be subject to capping or filling only following identification, documentation, and evaluation as part of a Phase I archaeological survey. The filling or capping process will be done according to guidance in the booklet, *Protecting the Past to Secure the Future: Best Management Practices for Hardening Archeological Sites on DoD Lands*, by Heather Wagner, Laurie W. Rush, Ph.D., and Ian Warden, March 2007 (Legacy Project # 06-303), and the process shall be monitored by an archaeologist meeting the SOI *Qualifications Standards*.
- Wells that, in consultation with SHPO, are determined by VAARNG to be not individually NRHP-eligible or listed, or are an evaluated or unevaluated component of a larger site determined not eligible or listed, may be filled or capped, according to the following procedure:
 - Only clean fill brought from off-site will be used to fill an abandoned well and damage to the well structure will be avoided during placement of the fill; and
 - The date of filling will be recorded through a process such as inclusion of a plastic bottle containing a coin with the current year, and the procedure and date shall be documented in the VAARNG's GIS cultural layer.
 - Capping may be done in lieu of or in addition to filling at the VAARNG's discretion, according to the procedure outlined below at item 3.
- Wells that are determined in consultation with SHPO to be a component of a NRHP-eligible or listed site, or are an unevaluated component of such a site, will not be filled but may be capped, using a concrete or metal cap, affixed in such a way that no damage shall result to the well structure or to any other components or features that may be related to the well or any part of a site that includes the well. Capping shall be documented in the VAARNG's GIS cultural data.
- The treatment protocol for addressing abandoned wells shall in no way be understood to mean that the VAARNG is obligated to cap or fill wells found on VAARNG property and at VAARNG facilities.

Landscaping activities at State Military Reservation/Camp Pendleton Historic District:

- Landscaping activities conducted at State Military Reservation/Camp Pendleton Historic District, consistent with the following:

- Removal of plant materials/vegetation and/or other landscape components not considered historically significant.
- Installation of new plant materials and/or other landscape components, including but not limited to objects and structures, such as guard rails, fences, bollards, flag poles, benches, gazebos, signage and interpretive panels, berms, bank stabilization treatments, drop inlets, culverts, and other similar drainage devices, sidewalks, driveways, and curbing, so long as the items added are consistent with the historic character of the SMR/Camp Pendleton Historic District and its contributing cultural landscape resources.

Installation of solar photo voltaic (PV) panels:

- Installation of PV panels in parking areas or in groupings to comprise a PV field, in keeping with green building technology and sustainability initiatives.

2. Exterior building maintenance and rehabilitation:

Window replacement at State Military Reservation/Camp Pendleton Historic District:

- For WWII temporary barracks, excepting Building 347 (VDHR resource no. 134-0413-0070), dining hall, and administrative buildings, located in the cantonment area of State Military Reservation, projects involving installation of vinyl-clad windows to replace wooden double-hung divided light sash windows shall be carried out as follows:
 - For buildings located within the cantonment area complex, with no exterior walls adjacent to a primary installation roadway, replacement windows may consist of vinyl-clad double-glazed, double-hung, divided light sash with a configuration consistent with the existing window, and with integral muntins located between the interior and exterior panels of glass, consistent in appearance with replacement windows of this type that are now in place in such buildings.
 - For buildings located within the cantonment area complex that are adjacent to a primary installation roadway, replacement windows will be double-glazed, double-hung, divided light sash with muntins located on the outside of the

outer pane of glass, with a configuration replicating that of the existing window, and consistent in appearance with replacement windows of this type that are now in place in such buildings.

3. Interior building maintenance and rehabilitation:

Interior building renovations:

- Interior renovation work that does not involve the removal of significant historic features, on all buildings unevaluated for NRHP listing but considered eligible pending further study, determined eligible for NRHP listing in consultation with the SHPO, or listed in the NRHP, either as contributing properties in an NRHP-eligible or listed historic district or individually, excepting the following:
 - Building 347, SMR/Camp Pendleton (VDHR resource no. 134-0413-0070)
 - The Chapel (Bldg. 426), SMR/Camp Pendleton (VDHR resource no. 134-0413-0098)
 - The Officers' Club and PX/Hurt Hall (Bldg. 427), SMR/Camp Pendleton (VDHR resource no. 134-0413-0099)
 - The Governor's Cottage (Bldg. 90), SMR/Camp Pendleton (VDHR resource no. 134-0413-0033)

 - The Aviation Maintenance Hangar (Bldg. T0025), Fort Barfoot (Pickett) (VDHR resource no. 067-0110-0027)

APPENDIX E

MITIGATION AND TREATMENT MEASURES

If it is determined that historic properties present in the undertaking's Area of Potential Effects will result in an "Adverse Effect to Historic Properties" finding, the VAARNG and the SHPO, in consultation with Tribes, and with other Consulting Parties as appropriate, may develop a plan that includes one or more of the following mitigations and/or treatment measures, depending on the nature of the historic properties affected and the severity and type of the adverse effect. No part of this Appendix is to be considered an obligation by the VAARNG to carry out any of the actions set forth herein. This Appendix may be amended in accordance with Stipulation XII, "Amendments".

Archaeological Properties:

If the CRM determines that it is not feasible to avoid an adverse effect to an archaeological site that is NRHP- eligible or listed, then the CRM shall develop a treatment plan for the site in consultation with the SHPO, and with Tribes, as appropriate.

Architectural and Cultural Landscape Properties:

Documentation of properties that are NRHP- eligible or listed, that are expected to be adversely affected, shall be prepared by the VAARNG using the SHPO's cultural resources documentation program in place at the time the documentation project commences (currently the V-CRIS system). Typically, intensive-level documentation shall be prepared; reconnaissance-level documentation may be used if all parties agree that it is appropriate. If the resource has been documented previously, recordation of the resource shall be updated as needed.

If an undertaking resulting in an adverse effect finding involves new construction, the SHPO, and other parties as appropriate, shall be afforded the opportunity to review and comment on project plans.

Additional Mitigation Measures:

The CRM may propose one or more mitigation measures, depending on the nature of the undertaking, the level of anticipated adverse effects, and the type and significance of the historic properties expected to be adversely affected by the undertaking, contingent on funding. Determination of which mitigation measure(s) to employ shall be made by the VAARNG in consultation with NGB, the SHPO, Tribes, and other Consulting Parties as appropriate. Additional or alternative mitigation measures may be considered as set forth at II.F., above.

APPENDIX F
Letter Agreement Template

Minimization and/or Mitigation Measure Modification Regarding
[INSERT THE NAME OF THE UNDERTAKING]
In Accordance with the
PROGRAMMATIC AGREEMENT AMONG
THE VIRGINIA ARMY NATIONAL GUARD, THE NATIONAL GUARD BUREAU,
VIRGINIA STATE HISTORIC PRESERVATION OFFICE, AND THE ADVISORY
COUNCIL ON HISTORIC PRESERVATION
REGARDING ROUTINE OPERATIONS, MAINTENANCE, DEVELOPMENT, AND
TRAINING ACTIONS AT VIRGINIA ARMY NATIONAL GUARD PROPERTIES
THROUGHOUT VIRGINIA
(Agreement)

WHEREAS, the Agreement was executed on **[INSERT MONTH AND YEAR OF EXECUTION]**; and

WHEREAS, pursuant to Stipulation II.E. of the Agreement, in the course of project review **[INSERT THE NAME OF THE UNDERTAKING]** VAARNG determined that the undertaking would have an adverse effect on historic properties, and through consultation between the VAARNG, the Virginia State Historic Preservation Office (SHPO), and **[INSERT OTHER IDENTIFIED PARTIES AS APPROPRIATE]**, minimization and/or mitigation measures to modify the undertaking were identified and concurred on in accordance with Stipulation II.F.8 and/or 9. and documented in this Minimization and/or Mitigation Measure Modification Letter Agreement (Letter Agreement).; and

WHEREAS, the parties intend that any administrative issues arising from the implementation of this Letter Agreement shall be resolved through implementation of the relevant Stipulation in VII through XV of the Agreement; and

WHEREAS, the VAARNG will send a copy of this executed Letter Agreement to the ACHP as part of the Annual Report in accordance with Stipulation X;

WHEREAS, this Letter Agreement shall remain in effect for the term of the Agreement;

NOW THEREFORE, in accordance with Stipulation II.F.8. and/or 9. of the Agreement, the VAARNG and SHPO agree to implement the following minimization and/or mitigation measures as follows:

1. [insert the minimization and/or mitigation measure]

[AND/OR]

2. [insert the minimization and/or mitigation measure]

[Repeat #1 and 2 as necessary]

Stipulations VII through XIV of the Agreement are hereby incorporated by reference.

Execution and implementation of this Letter Agreement pursuant to Stipulation II.F.8.
[and/or] II.F.9. of the Agreement satisfies VAARNG's Section 106 responsibilities for the
[subject undertaking].

Director, Department of Historic Resources

APPENDIX G TERMS & DEFINITIONS

Adverse Effect: Alterations to those qualities or characteristics that qualify the property for listing in the National Register of Historic Places (NRHP), either directly or indirectly caused by a federal agency's action. The adverse effect may diminish the integrity of the property's location, design, setting, materials, workmanship, feeling or association. The criteria of adverse effect are identified in 36 CFR § 800.5(a)(1); examples of adverse effects are given in 36 CFR § 800.5(a)(2).

Area of Potential Effect (APE): "The geographic area or areas within which an undertaking may directly or indirectly cause alterations in the character or use of historic properties, if any such properties exist. The area of potential effects is influenced by the scale and nature of an undertaking and may be different for different kinds of effects caused by the undertaking." [36 CFR § 800, Protection of Historic Properties, Section 800.16(d)]

Archaeological Site: A location that contains the physical evidence of past human behavior that allows for its interpretation, that is at least 50 years of age, and for which a boundary can be established.

Artifact: An object made or modified by humans.

Associated Funerary Object: NAGPRA states that funerary objects are cultural items that are reasonably believed to have been intentionally placed with or near human remains. Associated funerary objects are related to human remains that were removed, and the location of the human remains is known.

Avoidance: Modification of a project or other undertaking so that effects on cultural resources that would have resulted from the originally proposed action do not occur.

Building: "A structure created to shelter any form of human activity, such as a house, barn, church, hotel, or similar structure. Building may refer to a historically related complex such as a courthouse and jail or a house and barn." [36 CFR § 60, NRHP, Section 60.3(a)]

Consultation: "The process of seeking, discussing, and considering the views of other participants, and, where feasible, seeking agreement with them regarding matters arising in the section 106 process. The Secretary's [of the Interior] 'Standards and Guidelines for Federal Agency Preservation Programs pursuant to the National Historic Preservation Act' provide further guidance on consultation." [36 CFR § 800, Protection of Historic Properties, Section 800.16(f)]

Consulting parties: “Certain individuals and organizations with a demonstrated interest in the undertaking [who] may participate as consulting parties due to the nature of their legal or economic relation to the undertaking or affected properties, or their concern with the undertaking’s effects on historic properties.” [36 CFR § 800, Protection of Historic Properties, Section 800.2(c)]

Contributing: A building, site, structure, or object within a historic district which adds to the values or qualities of the district because it was present during the period of significance, relates to the documented significance of the district, and possesses historic integrity. A contributing resource may also meet NRHP criteria individually.

Cultural Resources: Cultural resources include, but are not limited to, the following broad range of items and locations: (1) archaeological materials (artifacts) and sites dating to the prehistoric, historic, and ethnohistoric periods that are currently located on the ground surface or are buried beneath it; (2) standing buildings, structures, and objects that are over 50 years of age or are important because they represent a major historical theme or era; (3) cultural and natural places, select natural resources, and sacred objects that have importance for [Native Americans and ethnic groups]; and (4) American folk-life traditions and arts.

Cultural resources include anything that is a “historic property” as defined in 36 CFR § 800, Protection of Historic Properties, Section 800.16(l)(1); an “archaeological resource” as defined in the Archeological Resources Protection Act, Section 3(1) and the Act’s Uniform Regulations, 43 CFR § 7, Protection of Archaeological Resources, Section 7.3(a); a Native American “cultural item” as defined in the Native American Graves Protection and Repatriation Act, Section 2(3); or part of a “collection” as defined in 36 CFR § 79, Curation of Federally-Owned and Administered Archeological Collections, Section 79.4(a).

Cultural Resources Management Plan (CRMP) or Integrated Cultural Resources Management Plan (ICRMP): A document that defines the procedures and outlines plans for managing cultural resources on federal installations. A CRMP/ICRMP integrates and is integrated into other land management and development plans, as possible. Typically, they are updated regularly; state ARNG ICRMPs are updated annually with significant revisions accomplished on five-year cycles.

Curation: “The practice of documenting, managing, preserving, and interpreting museum collections according to professional museum and archival practices.” [62 Federal Register 33707, 6-20-97. Secretary of the Interior’s Historic Preservation Professional Qualification Standards: Curation]

Effect: “Alteration to the characteristics of a historic property qualifying it for inclusion in or eligibility for the [NRHP].” The result produced by a federally sponsored activity, or undertaking, that has the potential to change or alter those qualities or characteristics that qualify a property for listing in the NRHP. [36 CFR § 800, Protection of Historic Properties, Section 800.16(i)]

Effective Date of the Agreement: The date of the last Signatory to sign the Agreement.

Federal Preservation Officer: “A qualified official [designated by the head of each Federal agency] who shall be responsible for coordinating that Agency’s activities under [the NHPA].” [National Historic Preservation Act, Section 110(c)]

Historic District: “A geographically definable area, urban or rural, possessing a significant concentration, linkage, or continuity of sites, buildings, structures, or objects united by past events or aesthetically by plan or physical development. A district may also comprise individual elements separated geographically but linked by association or history.” [36 CFR § 60, National Register of Historic Places, Section 60.3(d)]

Historic properties that add to the district’s overall sense of time and place are classified as contributing elements. Severely altered properties that no longer retain sufficient historic integrity to convey historic associations, and properties of more recent construction (less than fifty years of age and that do not meet NRHP Criteria Consideration G) are classified as noncontributing elements.

Historic Property: “Any prehistoric or historic district, site, building, structure, or object included in, or eligible for inclusion in, the National Register, including artifacts, records, and material remains related to such property or resource.” [36 CFR § 800, Protection of Historic Properties, Section 800.16(l)(1)] Note that at the VAARNG’s discretion, and in consultation with the SHPO and other consulting parties as appropriate, unevaluated resources may be treated as “historic properties” pending further investigation.

Human Remains: Any physical part of the body of a Native American individual. This term does not include human remains to which a museum or Federal agency can prove it has a right of possession. (1) Human remains reasonably believed to be comingled with other materials (such as soil or faunal remains) may be treated as human remains. (2) Human remains incorporated into a funerary object, sacred object, or object of cultural patrimony are considered part of the cultural items rather than human remains. (3) Human remains incorporated into an object or item that is not a funerary object, sacred object, or object of cultural patrimony are considered human remains. For the purposes of determining cultural affiliation, human remains incorporated into a funerary object, sacred object, or object of cultural patrimony must be considered as part of that item [43 CFR 10.2 (d)(1)].

Inventory: The process of identifying or physically locating cultural resources and gathering information about them through archaeological, architectural, or cultural landscape surveys, ethnographic fieldwork, or archival research.

Mitigation: Measures carried out to resolve adverse effects of undertakings on historic properties.

National Historic Landmark (NHL): “A district, site, building, structure, or object, in public or private ownership, judged by the Secretary [of the Interior] to possess national significance in American history, archaeology, architecture, engineering and culture, and so designated by him.” [36 CFR § 65, National Historic Landmarks Program, Section 65.3(i)] National Historic Landmarks are automatically listed in the National Register of Historic Places.

National Register of Historic Places (NRHP): A list “composed of districts, sites, buildings, structures, and objects significant in American history, architecture, archaeology, engineering, and culture.” Also referred to as “the National Register,” it is maintained by the NPS for the Secretary of the Interior. [National Historic Preservation Act, Section 101(a)(1)(A)]

Native American: “Of, or relating to, a tribe, people, or culture that is indigenous to the United States.” [Native American Graves Protection and Repatriation Act, Section 2(9)]

No Adverse Effect: When an undertaking impacts a property listed or eligible for listing in the NRHP, but when the effect will not “alter, directly or indirectly, any of the characteristics of the historic property that qualify the property for inclusion in the National Register.” [36 CFR § 800, Protection of Historic Properties, Section 800.5(a)(1)]

Noncontributing: A building, site, structure, or object within a historic district which does not add to the values or qualities of the district that cause the district to be NRHP-eligible, because it was not present during the period of significance, does not contribute to the documented significance of the district, or it no longer possesses historic integrity due to alterations.

Object: “A material thing of functional, aesthetic, cultural, historical or scientific value that may be, by nature or design, movable yet related to a specific setting or environment.” [36 CFR § 60, NRHP, Section 60.3(j)]

Site: “The location of a significant event, a prehistoric or historic occupation or activity, or a building or structure, whether standing, ruined, or vanished, where the location itself maintains historical or archaeological value regardless of the value of any existing structure.” [36 CFR § 60, NRHP, Section 60.3(l)]

Structure: “A work made up of interdependent and interrelated parts in a definite pattern of organization. Constructed by man, it is often an engineering project large in scale.” [36 CFR § 60, NRHP, Section 60.3(p)]

Tribal Historic Preservation Officer: “The tribal official appointed by the tribe’s chief governing authority or designated by a tribal ordinance or preservation program who has assumed the responsibilities of the SHPO for purposes of Section 106 compliance on tribal lands in accordance with Section 101(d)(2) of the [NHPA].” [36 CFR § 800, Protection of Historic Properties, Section 800.16(w)]

Undertaking: “A project, activity, or program funded in whole or in part under the direct or indirect jurisdiction of a Federal agency.” Undertakings include “those carried out by or on behalf of a Federal agency; those carried out with Federal financial assistance; and those requiring a Federal permit, license or approval.” [36 CFR § 800, Protection of Historic Properties, Section 800.16(y)]

Signatories: “Signatories have sole authority to execute, amend or terminate the agreement.” For the purposes of this Agreement, Signatories mean the VAARNG, NGB, the ACHP, and the SHPO.

APPENDIX H NAGPRA PLAN OF ACTION

I. Notifying and Consulting Tribes for Inadvertent Discoveries under NAGPRA.

The Native American Graves Protection and Repatriation Act (NAGPRA) requires that any person who inadvertently discovers Native American human remains, funerary objects, sacred objects, or objects of cultural patrimony (defined in 43 CFR 10.2(d)) on Federal lands or lands under Federal Control via lease or license must notify the responsible Federal official. For purposes of VAARNG, this person is the designated Cultural Resource Manager (CRM) or other official identified in the State ARNG Integrated Cultural Resource Management Plan (ICRMP). In absence of ICRMP or CRM, the designated Environmental Program Manager (EPM) or NAGPRA coordinator will be notified.

A. Within three (3) days after receiving written confirmation of an inadvertent discovery, the responsible VAARNG contact must take the following steps:

1. Certify, in writing, that items covered by NAGPRA were discovered. This certification can be a brief memorandum to the file. This memorandum must also verify contacts to the local coroner's office and/or law enforcement confirmed materials were not related to criminal activities.
2. Visit the site and document its condition with photos. This will protect VAARNG from claims that it failed to adequately protect the site until the remains were removed.
3. Take immediate steps to secure the site and protect the discovered items. This includes covering exposed burials and remains and ceasing all activity to limit disturbance and viewing of area.
4. Establish a site monitoring process.
5. Provide notifications by telephone, email and written notice, to the following:
 - a. Known lineal descendants (it would be highly unlikely that lineal descent could be traced unless the discovery is from the recent historic period),
 - b. Federally recognized Tribes "likely to be culturally affiliated" with the items discovered,
 - c. Tribes that previously occupied the area, and
 - d. Other federally recognized Tribes which have a "demonstrated cultural relationship" or are "reasonably known to have a cultural relationship" to the items discovered.

B. The written notice in #5, above, should:

1. Make it clear that the notice is being sent as required by Sec. 3 of NAGPRA and its implementing regulations 43 CFR 10.4 and 10.5.
2. Describe the kinds of human remains and funerary objects that were discovered and their condition as determined on discovery. (Note: There should be absolutely no further disturbance or analysis of materials after initial discovery until notifications completed. Exception to this would be if law enforcement/coroner's office determines need to investigate further to verify origin. In this situation, parties identified in #5 above should be informed of need/justification.).
3. Describe the circumstances of their discovery (intentional excavation, inadvertent discovery during activities, or natural events exposing materials).
4. Propose a time and place for consultation. Consultation will include proposals for treatment and disposition of any remains and objects that may be excavated. (Note: VAARNG is required to determine affiliation and transfer custody only if the discovery must be excavated or removed. If the discovery remains in place, it will stay under federal ownership and control and procedures to establish area as a private cemetery under AR 290-5 will be followed if applicable).
5. List all tribes that have been, or are being, consulted about the NAGPRA discovery.
6. State that any additional documentation used to identify affiliation will be supplied upon request.

II. Recovery Plans for Inadvertent Discoveries under NAGPRA. Recovery Plans [see 43 CFR 10.4(d)(2)] are optional. They specify the procedures and guidelines to be used when it is necessary to excavate or remove Native American human remains, funerary objects, sacred objects or objects of cultural patrimony inadvertently discovered on Federal lands. Recovery Plans document the affiliated tribe(s) concurrence with the proposed excavation or removal and allow activities in the area of discovery to proceed, including data recovery or other treatment, prior to the expiration of the 30-day waiting period required by NAGPRA. Recovery Plans must be signed by the affiliated Indian tribe(s). If the VAARNG believes it will not likely be able to prepare a Recovery Plan and obtain the affiliated tribe's signature on it within the 30-day waiting period, the VAARNG should skip this option and move directly to preparing a Plan of Action (see IV, below). A Plan of Action must be prepared for excavation or removal of an inadvertent discovery even if a Recovery Plan has been prepared and signed.

III. Notifying and Consulting Tribes before Intentionally Excavating or Removing Items Covered under NAGPRA. NAGPRA requires VAARNG to notify and consult with

federally recognized Tribes before authorizing the excavation or removal of Native American human remains, funerary objects, sacred objects or objects of cultural patrimony from Federal lands (including lands under Federal control via lease or license). NAGPRA also requires that any such intentional excavation or removal is in compliance with the permitting provisions in Section 4 of the Archaeological Resources Protection Act (ARPA). ARPA requires VAARNG to notify and consult with federally recognized Tribes who ascribe religious or cultural importance to a place before any archaeological resources are excavated or removed from that place.

A. Before the VAARNG undertakes or authorizes the excavation or removal of items covered under NAGPRA, the CRM must send written notice to the following [see 43 CFR 10.3(c)(1) and 10.5(b)]:

1. Known lineal descendants (it would be highly unlikely for lineal descendants to be known unless the human remains were from the recent historic period),
2. Tribes “likely to be culturally affiliated” with the items to be excavated,
3. Tribes that aboriginally occupied the area (based on a final decision of the Indian Claims Commission or U.S. Court of Claims), and
4. Tribes that, in VAARNG’s opinion, have a “demonstrated cultural relationship” or are “likely to have a cultural relationship” to the items that are expected to be found.

B. The written notice should:

1. Make it clear that the notice is being sent as required by Sec. 3 of NAGPRA and its implementing regulations 43 CFR 10.3 and 10.5; and by Sec. 4(c) of ARPA and its implementing regulations 43 CFR 7.7.
2. Describe the planned activity, including its general location.
3. Describe the basis upon which VAARNG determined that human remains, or funerary objects might be excavated. The regulations also require this for the excavation of sacred objects and objects of cultural patrimony, but it is unlikely that such objects would occur in an archaeological context or that VAARNG would have any basis for believing they may be excavated.
4. Describe the basis for determining likely custody.
5. Contain a disclaimer stating that no final determinations of cultural affiliation can be made until the remains are excavated and examined.

6. Propose a time and place for meetings or consultation to further consider the intentional excavation, including VAARNG's proposed treatment and disposition of any remains and objects that may be excavated.

7. List all tribes that have been, or are being, consulted about the intentional excavation.

8. State that any additional documentation used to identify affiliation will be supplied upon request.

The written notice should be followed with a telephone call if no response is received in 15 days.

C. During consultation, the CRM must ask the following:

1. The names and addresses of traditional religious leaders who should also be consulted.

2. Recommendations on conducting the consultation process.

Neither the law nor the regulations specify a set time period for completing or terminating consultation.

IV. Plans of Action for Excavation or Removal of Items Covered under NAGPRA. A

Plan of Action must be completed prior to excavating or removing Native American human remains and other NAGPRA items. This is true regardless of whether the remains or items were inadvertently discovered or were already known and selected for intentional excavation. The CRM must prepare and sign the Plan of Action following consultation with the tribes described in I and III, above. The Tribes involved must be given a copy of the Plan and should be afforded an opportunity to sign it. Obtaining the signatures of tribal officials is, however, not mandatory. All Plans of Action must address the items listed in 43 CFR 10.5(e), which are:

- Steps to contact Tribal officials at the time of excavation or inadvertent discovery of cultural items,
- Information on the kinds of objects that are considered cultural items (with sensitivity to protecting details not to be shared publicly),
- Information used to determine custody,
- The planned treatment, care and handling of the cultural items (again with sensitivity to limiting sharing details restricted to traditional cultural practices),
- The recording and analysis planned, if any, for the cultural items and the nature of reports to be prepared in coordination with affiliated Tribe(s),
- The planned disposition of the cultural items.

V. Newspaper Notice for Transferring Custody of Items Covered under NAGPRA.

A newspaper notice must be published before transferring custody of NAGPRA materials. The purpose of the newspaper notice is to give potentially interested lineal descendants and tribes enough information to determine their interest in claiming custody of the materials and to ensure that all potential claimants receive due process before their rights are precluded by transfer of custody. The newspaper notice can be prepared by the VAARNG CRM or NAGPRA coordinator with guidance from the ARNG G-9 Cultural Resource Manager, and a copy will be sent to the ARNG G-9 and Headquarters U.S. Army. *The notice is published in a newspaper of general circulation in the area where the materials were found and, if applicable, in a newspaper in the area in which the affiliated tribe resides.* The notice must be published two times at least one week apart, and transfer of custody cannot occur until thirty (30) days after publication of the second notice. If additional claimants come forward, transfer of custody must be delayed until all claims have been resolved.

 P.O. Box 92
 Nottoway, Virginia 23955

RE: Request for Funding or In-kind Contribution

Dear Mr. Bowen:

I write to you on behalf of the John Tyler Alcohol Safety Action Program (ASAP). Our program is the largest program in the Commonwealth of Virginia. The John Tyler ASAP proudly provides services to the localities of Amelia, Chesterfield, Colonial Heights, Dinwiddie, Emporia, Greenville, Goochland, Hanover, Henrico, Hopewell, Nottoway, Petersburg, Powhatan, Prince George, Richmond City, Surry, and Sussex. The John Tyler ASAP has been in existence since the 1970's, does not receive state tax dollars, and operates solely on offender fees. Although we provide necessary services to the citizens of these jurisdictions, there is so much more that we could do if we had financial assistance from the jurisdictions we serve.

Introduction and Program Description:

Every day in the United States, 29 people die in alcohol-related motor vehicle crashes. It is estimated that 32% of all traffic-related deaths in the United States result from alcohol or drug-impaired crashes. Drunk driving costs the United States \$132 BILLION annually (MADD). According to the National Highway Traffic Safety Administration (NHTSA), 25% of all DUIs were repeat offenders. In addition, BAC levels at arrest remain elevated at near .15% which increases the severity of alcohol-related crashes. The same study revealed that Virginia only had 16% subsequent convictions over a 5-year period. Thus, Virginia's recidivism rate is among the lowest in the country. The Virginia Alcohol Safety Action Program (VASAP) is Virginia's tool to thwart impaired driving.

Mission Statement:

The mission of the John Tyler ASAP is to improve highway transportation safety by decreasing the incidence of driving under the influence of alcohol or other drugs leading to the reduction of alcohol and other drug-related crashes through:

- Enforcement
- Adjudication
- Case Management and Offender Intervention
- Public Information and Education

John Tyler ASAP

ALCOHOL SAFETY ACTION PROGRAM

HENRICO OFFICE
4116 East Parham Road
Henrico, VA 23228
804-914-2181
jtasap.com

CHESTERFIELD OFFICE
9620 Iron Bridge Road #101
Chesterfield, VA 23832
804-914-2181
jtasap.com

As noted herein, the mission of ASAP is to reduce and prevent impaired driving which may result in accidents, property damage, injuries, and fatalities. Services are provided to individuals who have been arrested for alcohol or drug-related offenses. These individuals are evaluated and assigned to needed intervention services like education and counseling. These programs are designed to change behavior and prevent future alcohol or drug-related offenses. DUI and other alcohol or drug-related arrests are considered a crisis that affects the individuals and has serious implications on their work, school, livelihood, and freedom. The services provided by the John Tyler ASAP are direct interventions and diversions for the crisis of alcohol and drug abuse.

For many individuals, being arrested for DUI or other alcohol or drug offenses may exacerbate their current financial difficulties. DUI arrests can be very expensive due to attorneys' fees, fines, and court costs. The loss of a driver's license can make getting to work seemingly impossible in Nottoway County. If driving is required for one's work, that person is then at risk of losing their employment. If the underlying offense resulted in property damage, there could be additional expenses further threatening the financial stability of the individual's household. The John Tyler ASAP allows such offenders to maintain a restricted driving privilege throughout their period of intervention and supervision. The restricted driving privilege includes the requirement for an ignition interlock device to further protect the motoring public. Also, completion of the ASAP is required by Virginia code before such individuals can ever become fully licensed again in Virginia. Therefore, one can logically argue that the John Tyler ASAP may also be a measure of prevention against poverty, homelessness, and may help such citizens remain independent and pay taxes to the jurisdictions in which they live.

Fee Structure:

Since the inception of VASAP, some local ASAPs have remained solely offender funded while others receive substantial contributions from their jurisdictions. John Tyler ASAP has been operating for more than 40 years without any financial assistance from the jurisdictions we serve. Our fees are set by the Code of Virginia, meaning we operate solely based off offender fees.

The VASAP fee of \$300 was set in 1986. In 1990, an intervention fee of \$50 was added to the core VASAP fee. Other than a \$50 increase to the intervention fee in 2002, the VASAP fee has remained the same since 1986. John Tyler ASAP, which has saved countless lives for over 40 years, operates on an extremely tight budget resulting in limited staffing and vulnerability to any drop in referrals. Although we do have funds in a reserve account, to operate at full capacity and to provide the optimal services we desire would require significant annual reductions in our reserves, leading to the possibility of insolvency over time.

In March 2021, the VCU Performance Management Group released the results of a comprehensive study of the VASAP system. The financial analysis of VASAP concluded that, *"increasing costs without a corresponding fee increase, combined with a propensity of courts to waive program fees is not a sustainable business model."*

John Tyler ASAP

ALCOHOL SAFETY ACTION PROGRAM

HENRICO OFFICE
4116 East Parham Road
Henrico, VA 23228

CHESTERFIELD OFFICE
9620 Iron Bridge Road #101
Chesterfield, VA 23832
804-914-2181
jtasap.com

The VCU Performance Management Group further noted the following:

“Stagnant Fee Structure: There is clear agreement that the current fee structure does not provide sufficient support for core programs and necessary staffing. As the most recent fee structure analysis did not yield consensus to increase fees, the fees have remained static.”

John Tyler ASAP Referral Numbers:

Since January 1, 2021, the John Tyler ASAP provided DUI intervention and supervision services to **12,493** individuals. These 12,493 individuals would not have been able to receive education, counseling, or supervision services without a local ASAP office. These individuals would also not have had the privilege of continued driving with an ignition interlock device which, by design, prevents the start or use of a vehicle if breath alcohol is detected. The Virginia code only allows ASAP offices to supervise ignition interlock.

Additionally, this office evaluated 609 individuals for license restoration after either being convicted of Driving While Intoxicated, 3rd Offense or Involuntary Manslaughter. These evaluations are used to determine if an offender is an appropriate candidate for license restoration. The John Tyler ASAP has provided the Reckless and Aggressive Driver Education Program for 1,196 drivers caught motoring at high rates of speed in the Commonwealth. There are many services provided from this office to the citizens of the John Tyler ASAP service areas.

Nottoway County Referral Numbers:

Since the beginning of our fiscal year on July 1, 2024, the John Tyler ASAP has provided services to **26** DUI offenders who were convicted of Driving While Intoxicated in Nottoway County and referred to this program from Nottoway County Courts. Please note, this number does not include the many cases that were amended to reckless driving or that were deferred for a subsequent disposition. The 26 also does not include the large number of referrals received from the Department of Motor Vehicles. Nottoway County represents our 12th largest referral population of all 17 jurisdictions served. The total referrals received for Nottoway are broken down into the following service types:

- Community Service: 2
- Deferred Disposition: 1
- License Restoration Monitoring: 1
- Monitor Only: 1
- Reckless and Aggressive Driver Education Program: 7
- DUI 1st: 33
- DUI 2nd: 2

Financial Climate:

We're all aware of the ever-growing levels of inflation along with the current minimum wage. Since COVID, many of your constituents continue to be impacted financially. It is important to note that John Tyler ASAP provides services to all court-ordered clients *regardless* of their ability to pay the ASAP fee. Although there are many reasons why citizens may have financial instability, the John Tyler ASAP has a 92% collection rate and *still* needs your assistance to be able to continue to provide all needed services to the citizens of Nottoway County. Of our active and inactive clients, those from Nottoway County owe a total of \$6,327 to John Tyler ASAP. Again, our agency will not turn away a court-ordered client from needed services regardless of their ability to pay for those services, as in doing so would contradict our mission to improve highway safety.

Many localities already assist their local programs with operational costs. Although the John Tyler ASAP is the largest local program in the Commonwealth of Virginia, we have yet to receive financial assistance. Currently, the following jurisdictions provide annual contributions to their local programs:

Municipality	Annual Contribution to their Local Program
1. Alexandria	\$100,000.00
2. Arlington	\$489,183.00
3. Clarke	\$8,000.00
4. Fairfax	\$1,025,964.00
5. Falls Church	\$11,200.00
6. Hampton	\$25,000.00
7. Harrisonburg	\$20,000.00
8. James City	\$25,000.00
9. Newport News	\$26,000.00
10. Page	\$8,000.00
11. Poquoson	\$5,000.00
12. Rockingham	\$20,000.00
13. Shenandoah	\$15,000.00
14. Warren	\$20,000.00
15. Williamsburg	\$29,000.00
16. Winchester	\$49,322.00
17. York	<u>\$25,000.00</u>
	\$1,901,669.00 is the total contribution of other municipalities to their servicing ASAPs.

Public Safety:

The citizens and Board of Supervisors prioritize the safety and well-being of their communities. This is evidenced by the current, increasing, and ongoing financial contributions to Health, Human Services, and Public Safety each fiscal year.

John Tyler ASAP

According to NHTSA, the average person has operated a motor vehicle intoxicated over 80 times before being arrested. Think about the threat to Nottoway when considering that the 35 individuals noted above have driven intoxicated over 80 times before they were arrested. Next, think about the total 2,800 average intoxicated driving events that could have killed a Nottoway County family on our roadways. According to MADD, a death is caused by drunk driving every 45 minutes. Someone is injured by a drunk driver every 2 minutes. It is imperative that we protect the citizens of Nottoway County through intervention and probation services. NHTSA indicates 3.78 million attempts to drive intoxicated were thwarted by ignition interlock devices in 2020. Again, VASAP is the only agency authorized by Virginia Code to supervise ignition interlocks. Such needed services are what the John Tyler ASAP provides to Nottoway County.

Conclusion:

Since 2021, the operational costs for the John Tyler ASAP have totaled \$3,374,112.00. The totality of these costs were paid by the offenders or participants in this program. *The John Tyler ASAP has been operational since the 1970's with no local, state, or federal tax money.*

In order to maintain a local Alcohol Safety Action Program in the Nottoway County area, that operates at optimal levels, local funding is now needed. Therefore, this office is seeking to collect local contributions from the service areas of this program. The receipt of such funding or in-kind contributions will guarantee the citizens of Nottoway County will continue to have intervention and supervision services, thus protecting the motoring public and keeping our roadways safer for you, me, and everyone around us.

The following is a non-exclusive list of applications of additional funding that could optimize our program:

- Multi-language services or hired bilingual staff,
- Increase staffing to lower caseloads,
- Increase staffing to increase availability of staff to provider services at our more remote jurisdictions,
- Community outreach to middle schools, high schools, and local colleges/universities,
- Training and outreach to courts, attorneys, and judges,
- Hired security for instructors teaching outside of regular business hours,
- Enhanced encryption, equipment upgrades, and IT security advances,
- Increase employee wages to retain talent and be competitive with similar positions,
- Purchase of additional alcohol and drug testing equipment and supplies,
- Staff education and focus on grant writing,
- And many other possibilities!

On behalf of the John Tyler ASAP, I thank you for your consideration. I welcome the opportunity to answer any questions you may have at your convenience. With tremendous gratitude and kind regards, I remain,

John Tyler ASAP

§ 18.2-271.1. Probation, education, and rehabilitation of person charged or convicted; person convicted under law of another state or federal law

A. Any person convicted of a first or second offense of § 18.2-266, or any ordinance of a county, city, or town similar to the provisions thereof, or provisions of subsection A of § 46.2-341.24, shall be required by court order, as a condition of probation or otherwise, to enter into and successfully complete an alcohol safety action program in the judicial district in which such charge is brought or in any other judicial district upon such terms and conditions as the court may set forth. However, upon motion of a person convicted of any such offense following an assessment of the person conducted by an alcohol safety action program, the court, for good cause, may decline to order participation in such a program if the assessment by the alcohol safety action program indicates that intervention is not appropriate for such person. In no event shall such persons be permitted to enter any such program which is not certified as meeting minimum standards and criteria established by the Commission on the Virginia Alcohol Safety Action Program (VASAP) pursuant to this section and to § 18.2-271.2. However, any person charged with a violation of a first or second offense of § 18.2-266, or any ordinance of a county, city, or town similar to the provisions thereof, or provisions of subsection A of § 46.2-341.24, may, at any time prior to trial, enter into an alcohol safety action program in the judicial district in which such charge is brought or in any other judicial district. Any person who enters into such program prior to trial may pre-qualify with the program to have an ignition interlock system installed on any motor vehicle owned or operated by him. However, no ignition interlock company shall install an ignition interlock system on any such vehicle until a court issues to the person a restricted license with the ignition interlock restriction.

B. The court shall require the person entering such program under the provisions of this section to pay a fee of no less than \$250 but no more than \$300. A reasonable portion of such fee, as may be determined by the Commission on VASAP, but not to exceed 10 percent, shall be forwarded monthly to be deposited with the State Treasurer for expenditure by the Commission on VASAP, and the balance shall be held in a separate fund for local administration of driver alcohol rehabilitation programs. Upon a positive finding that the defendant is indigent, the court may reduce or waive the fee. In addition to the costs of the proceeding, fees as may reasonably be required of defendants referred for intervention under any such program may be charged.

C. Upon conviction of a violation of § 18.2-266 or any ordinance of a county, city or town similar to the provisions thereof, or subsection A of § 46.2-341.24, the court shall impose the sentence authorized by § 18.2-270 or 46.2-341.28 and the license revocation as authorized by § 18.2-271. In addition, if the conviction was for a second offense committed within less than 10 years after a first such offense, the court shall order that restoration of the person's license to drive be conditioned upon the installation of an ignition interlock system on each motor vehicle, as defined in § 46.2-100, owned by or registered to the person, in whole or in part, for a period of six months beginning at the end of the three year license revocation, unless such a system has already been installed for six months prior to that time pursuant to a restricted license order

under subsection E. Upon a finding that a person so convicted is required to participate in the program described herein, the court shall enter the conviction on the warrant, and shall note that the person so convicted has been referred to such program. The court may then proceed to issue an order in accordance with subsection E, if the court finds that the person so convicted is eligible for a restricted license. If the court finds good cause for a person not to participate in such program or subsequently that such person has violated, without good cause, any of the conditions set forth by the court in entering the program, the court shall dispose of the case as if no program had been entered, in which event the revocation provisions of § 46.2-389 and subsection A of § 46.2-391 shall be applicable to the conviction. The court shall, upon final disposition of the case, send a copy of its order to the Commissioner of the Department of Motor Vehicles. If such order provides for the issuance of a restricted license, the Commissioner of the Department of Motor Vehicles, upon receipt thereof, shall issue a restricted license. The period of time during which the person (i) is prohibited from operating a motor vehicle that is not equipped with an ignition interlock system, (ii) is required to have an ignition interlock system installed on each motor vehicle owned by or registered to the person, in whole or in part, or (iii) is required to use a remote alcohol monitoring device shall be calculated from the date the person is issued a restricted license by the court; however, such period of time shall be tolled upon the expiration of the restricted license issued by the court until such time as the person is issued a restricted license by the Department of Motor Vehicles. Appeals from any such disposition shall be allowed as provided by law. The time within which an appeal may be taken shall be calculated from the date of the final disposition of the case or any motion for rehearing, whichever is later.

D. Any person who has been convicted under the law of another state or the United States of an offense substantially similar to the provisions of § 18.2-266 or subsection A of § 46.2-341.24, and whose privilege to operate a motor vehicle in this Commonwealth is subject to revocation under the provisions of § 46.2-389 and subsection A of § 46.2-391, may petition the general district court of the county or city in which he resides that he be given probation and assigned to a program as provided in subsection A and that, upon entry into such program, he be issued an order in accordance with subsection E. If the court finds that such person would have qualified therefor if he had been convicted in this Commonwealth of a violation of § 18.2-266 or subsection A of § 46.2-341.24, the court may grant the petition and may issue an order in accordance with subsection E as to the period of license suspension or revocation imposed pursuant to § 46.2-389 or subsection A of § 46.2-391. The court (i) shall, as a condition of a restricted license, prohibit such person from operating a motor vehicle that is not equipped with a functioning, certified ignition interlock system for a period of time not to exceed the period of license suspension and restriction, not less than six consecutive months without alcohol-related violations of interlock requirements, and (ii) may, upon request of such person and as a condition of a restricted license, require such person to use a remote alcohol monitoring device in accordance with the provisions of subsection E of § 18.2-270.1. Such order shall be conditioned upon the successful completion of a program by the petitioner. If the court subsequently finds that such person has violated any of the conditions set forth by the court, the court shall dispose of the case as if no program had been entered and shall notify the Commissioner, who shall revoke the person's license in accordance with the provisions of § 46.2-389 or subsection A of § 46.2-391. A copy of the order granting the petition or subsequently revoking or suspending such person's license to operate a motor vehicle shall be forthwith sent to the Commissioner of the Department of Motor Vehicles. The period of time during which the person (a) is prohibited from operating a motor vehicle that is not equipped with an ignition interlock system or (b) is required

to use a remote alcohol monitoring device shall be calculated from the date the person is issued a restricted license by the court; however, such period of time shall be tolled upon the expiration of the restricted license issued by the court until such time as the person is issued a restricted license by the Department of Motor Vehicles.

No period of license suspension or revocation shall be imposed pursuant to this subsection which, when considered together with any period of license suspension or revocation previously imposed for the same offense under the law of another state or the United States, results in such person's license being suspended for a period in excess of the maximum periods specified in this subsection.

E. Except as otherwise provided herein, if a person enters a certified program pursuant to this section, and such person's license to operate a motor vehicle, engine, or train in the Commonwealth has been suspended or revoked, or a person's license to operate a motor vehicle, engine, or train in the Commonwealth has been suspended or revoked pursuant to former § 18.2-259.1 or 46.2-390.1, the court may, in its discretion and for good cause shown, provide that such person be issued a restricted permit to operate a motor vehicle for any of the following purposes: (i) travel to and from his place of employment; (ii) travel to and from an alcohol rehabilitation or safety action program; (iii) travel during the hours of such person's employment if the operation of a motor vehicle is a necessary incident of such employment; (iv) travel to and from school if such person is a student, upon proper written verification to the court that such person is enrolled in a continuing program of education; (v) travel for health care services, including medically necessary transportation of an elderly parent or, as designated by the court, any person residing in the person's household with a serious medical problem upon written verification of need by a licensed health professional; (vi) travel necessary to transport a minor child under the care of such person to and from school, day care, and facilities housing medical service providers; (vii) travel to and from court-ordered visitation with a child of such person; (viii) travel to a screening, evaluation, and education program entered pursuant to § 18.2-251 or subsection H of § 18.2-258.1; (ix) travel to and from court appearances in which he is a subpoenaed witness or a party and appointments with his probation officer and to and from any programs required by the court or as a condition of probation; (x) travel to and from a place of religious worship one day per week at a specified time and place; (xi) travel to and from appointments approved by the Division of Child Support Enforcement of the Department of Social Services as a requirement of participation in an administrative or court-ordered intensive case monitoring program for child support for which the participant maintains written proof of the appointment, including written proof of the date and time of the appointment, on his person; (xii) travel to and from jail to serve a sentence when such person has been convicted and sentenced to confinement in jail and pursuant to § 53.1-131.1 the time to be served is on weekends or nonconsecutive days; (xiii) travel to and from the facility that installed or monitors the ignition interlock in the person's vehicle; (xiv) travel to and from a job interview for which he maintains on his person written proof from the prospective employer of the date, time, and location of the job interview; or (xv) travel to and from the offices of the Virginia Employment Commission for the purpose of seeking employment. However, (a) any such person who is eligible to receive a restricted license as provided in subsection C of § 18.2-270.1 or (b) any such person ordered to use a remote alcohol monitoring device pursuant to subsection E of § 18.2-270.1 who has a functioning, certified ignition interlock system as required by law may be issued a restricted permit to operate a motor vehicle for any lawful purpose. No restricted license issued pursuant to this subsection shall permit any person to operate a commercial motor vehicle as defined in the Virginia Commercial

Driver's License Act (§ 46.2-341.1 et seq.). The court shall order the surrender of such person's license to operate a motor vehicle to be disposed of in accordance with the provisions of § 46.2-398 and shall forward to the Commissioner of the Department of Motor Vehicles a copy of its order entered pursuant to this subsection, which shall specifically enumerate the restrictions imposed and contain such information regarding the person to whom such a permit is issued as is reasonably necessary to identify such person. The court shall also provide a copy of its order to the person so convicted who may operate a motor vehicle on the order until receipt from the Commissioner of the Department of Motor Vehicles of a restricted license, if the order provides for a restricted license for that time period. A copy of such order and, after receipt thereof, the restricted license shall be carried at all times while operating a motor vehicle. Any person who operates a motor vehicle in violation of any restrictions imposed pursuant to this section is guilty of a violation of § 18.2-272. Such restricted license shall be conditioned upon enrollment within 15 days in, and successful completion of, a program as described in subsection A. No restricted license shall be issued during the first four months of a revocation imposed pursuant to subsection B of § 18.2-271 or subsection A of § 46.2-391 for a second offense of the type described therein committed within 10 years of a first such offense. No restricted license shall be issued during the first year of a revocation imposed pursuant to subsection B of § 18.2-271 or subsection A of § 46.2-391 for a second offense of the type described therein committed within five years of a first such offense. No restricted license shall be issued during any revocation period imposed pursuant to subsection C of § 18.2-271 or subsection B of § 46.2-391. Notwithstanding the provisions of § 46.2-411, the fee charged pursuant to § 46.2-411 for reinstatement of the driver's license of any person whose privilege or license has been suspended or revoked as a result of a violation of § 18.2-266, subsection A of § 46.2-341.24 or of any ordinance of a county, city, or town, or of any federal law or the laws of any other state similar to the provisions of § 18.2-266 or subsection A of § 46.2-341.24 shall be \$105. Forty dollars of such reinstatement fee shall be retained by the Department of Motor Vehicles as provided in § 46.2-411, \$40 shall be transferred to the Commission on VASAP, and \$25 shall be transferred to the Commonwealth Neurotrauma Initiative Trust Fund. Any person who is otherwise eligible to receive a restricted license issued in accordance with this subsection or as otherwise provided by law shall not be required to pay in full his fines and costs, as defined in § 19.2-354.1, before being issued such restricted license.

F. The court shall have jurisdiction over any person entering such program under any provision of this section, or under any provision of § 46.2-392, until such time as the case has been disposed of by either successful completion of the program, or revocation due to ineligibility or violation of a condition or conditions imposed by the court, whichever shall first occur. Revocation proceedings shall be commenced by notice to show cause why the court should not revoke the privilege afforded by this section. Such notice shall be made by first-class mail to the last known address of such person, and shall direct such person to appear before the court in response thereto on a date contained in such notice, which shall not be less than 10 days from the date of mailing of the notice. Failure to appear in response to such notice shall of itself be grounds for revocation of such privilege. Notice of revocation under this subsection shall be sent forthwith to the Commissioner of the Department of Motor Vehicles.

G. For the purposes of this section, any court that has convicted a person of a violation of § 18.2-266, subsection A of § 46.2-341.24, any ordinance of a county, city, or town similar to the provisions of § 18.2-266, or any reckless driving violation under Article 7 (§ 46.2-852 et seq.) of Chapter 8 of Title 46.2 and such person was initially charged with a violation of § 18.2-266,

subsection A of § 46.2-341.24, or any ordinance of a county, city, or town similar to the provisions of § 18.2-266 shall have continuing jurisdiction over such person during any period of license revocation related to that conviction, for the limited purposes of (i) referring such person to a certified alcohol safety action program, (ii) providing for a restricted permit for such person in accordance with the provisions of subsection E, and (iii) imposing terms, conditions and limitations for actions taken pursuant to clauses (i) and (ii), whether or not it took either such action at the time of the conviction. This continuing jurisdiction is subject to the limitations of subsection E that provide that no restricted license shall be issued during a revocation imposed pursuant to subsection C of § 18.2-271 or subsection B of § 46.2-391 or during the first four months or first year, whichever is applicable, of the revocation imposed pursuant to subsection B of § 18.2-271 or subsection A of § 46.2-391. The provisions of this subsection shall apply to a person convicted of a violation of § 18.2-266, subsection A of § 46.2-341.24, any ordinance of a county, city, or town similar to the provisions of § 18.2-266, or any reckless driving violation under Article 7 (§ 46.2-852 et seq.) of Chapter 8 of Title 46.2 and such person was initially charged with a violation of § 18.2-266, subsection A of § 46.2-341.24, or any ordinance of a county, city, or town similar to the provisions of § 18.2-266 on, after and at any time prior to July 1, 2003.

H. The State Treasurer, the Commission on VASAP or any city or county is authorized to accept any gifts or bequests of money or property, and any grant, loan, service, payment or property from any source, including the federal government, for the purpose of driver alcohol education. Any such gifts, bequests, grants, loans or payments shall be deposited in the separate fund provided in subsection B.

I. The Commission on VASAP, or any county, city, or town, or any combination thereof, may establish and, if established, shall operate, in accordance with the standards and criteria required by this subsection, alcohol safety action programs in connection with highway safety. Each such program shall operate under the direction of a local independent policy board. Such local independent policy board shall be chosen in accordance with procedures approved and promulgated by the Commission on VASAP. Such procedures shall provide that the board shall endeavor to select one criminal defense attorney who has specialized knowledge in representing persons charged with driving while intoxicated offenses and one local attorney for the Commonwealth to sit on such local independent policy board. Local sitting or retired district court judges who regularly hear or heard cases involving driving under the influence and are familiar with their local alcohol safety action programs may serve on such boards. The Commission on VASAP shall establish minimum standards and criteria for the implementation and operation of such programs and shall establish procedures to certify all such programs to ensure that they meet the minimum standards and criteria stipulated by the Commission. The Commission shall also establish criteria for the administration of such programs for public information activities, for accounting procedures, for the auditing requirements of such programs and for the allocation of funds. Funds paid to the Commonwealth hereunder shall be utilized in the discretion of the Commission on VASAP to offset the costs of state programs and local programs run in conjunction with any county, city or town and costs incurred by the Commission. The Commission shall submit an annual report as to actions taken at the close of each calendar year to the Governor and the General Assembly.

J. Notwithstanding any other provisions of this section or of § 18.2-271, nothing in this section shall permit the court to suspend, reduce, limit, or otherwise modify any disqualification from operating a commercial motor vehicle imposed under the provisions of the Virginia Commercial

Driver's License Act (§ [46.2-341.1](#) et seq.).

1975, c. 601; 1976, cc. 612, 691; 1977, c. 240; 1978, c. 352; 1979, c. 353; 1980, c. 589; 1981, c. 195; 1982, c. 301; 1983, c. 504; 1984, c. 778; 1986, cc. 552, 590; 1987, cc. 465, 663; 1988, cc. 781, 858, 859, 888; 1989, c. 705; 1990, c. 949; 1991, cc. 131, 491; 1992, c. 559; 1993, cc. 527, 919; 1994, cc. Motion to Adjourn

AT A REGULAR MEETING OF THE BOARD OF SUPERVISORS OF NOTTOWAY COUNTY, VIRGINIA, HELD AT THE GENERAL DISTRICT COURTHOUSE THEREOF, ON THURSDAY, THE 15TH DAY OF MAY IN THE YEAR OF OUR LORD TWO THOUSAND TWENTY-FIVE AND IN THE 249TH YEAR OF THE COMMONWEALTH:

PRESENT: WILLIAM J. COLLINS, III, CHAIRMAN
DAPHNE V. NORTON, VICE CHAIRMAN
RICHARD H. INGRAM, JR.
JOHN A. ROARK
GEORGE G. TOTH, III
STEVE W. BOWEN, COUNTY ADMINISTRATOR
CATHERINE DOUGLASS, COUNTY ATTORNEY

Chairman Collins calls the meeting to order at 7:00 p.m.

Pastor Randy Baisey, Chairman, Blackstone Ministerial Association, provides the invocation. Chairman Collins leads everyone in the Pledge of Allegiance to our flag.

Approval of the Agenda: Administrator Bowen asks to amend the agenda to add: J-2 Date of the June Regular Meeting and K-2 Reallocation of Funds. Supervisor Roark moves to approve the agenda. A second is provided by Vice Chair Norton. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins begins the Delegations from the Public.

1 – Teresa Hines: Property owner of 6039 Old Nottoway Road and is opposed to the placement of the 300’ radio tower. States she did not receive a notice regarding the Public Hearing and asks the Board to reconsider their decision to approve the Special Exception.

2 – Brittany Spivey: Resident at 6039 Old Nottoway Road and is opposed to the positioning of the telecommunications tower. Believes there are health issues associated with radio frequency exposure and asks the Board to reconsider the proposed location of the tower.

3 – Sonny Abbott: Thanks Vice Chair Norton for responding to his question of where \$1,000,000 is that had been listed in the Treasurer’s investment report. This month’s investments decreased by \$500,000. He asks how much money the County has and notes that the Code of Virginia requires a monthly report of those deposits. Given the rapid decrease of the investments, he has concerns regarding the FY26 budget’s use of reserves.

Chairman Collins begins tonight’s public hearings.

1 – Proposed Secondary Six Year Plan: Aaron French, Assistant Resident Engineer, reviews the Fiscal Year 2026 through 2031 Secondary Six Year Plan. The estimated allocations include \$196,302 of telefees and \$138,927 of unpaved funds.

Included in the plan are:

Route 686, Barnes Lane – Rural Rustic – to be completed in 2028

Route 652, Hawthorne Drive – Rural Rustic – to be completed in 2031

Future Project – Rural Rustic – To Be Decided

There is carryover of \$162,000 in telefees. A future project can be discussed as there will likely be enough remaining funds to select a safety improvement project on a secondary road.

Supervisor Roark asks if the public has tonight’s information. Mr. French states this was advertised properly and copies of the plan were made available, so the hearing can proceed.

Supervisor Roark moves to open the Secondary Six Year Plan Public Hearing. A second is provided by Supervisor Toth. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

With no one wishing to speak either for or against, Supervisor Roark moves to close the Public Hearing. A second is provided by Supervisor Ingram. Following a voice vote, the motion to close carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board receives the following Department reports:

1 –Virginia Department of Transportation: Nottoway Area Headquarters maintenance report for April 2025. Aaron French, Assistant Resident Engineer, reports the Route 46 bridge project is on schedule for a July completion with no substantial impact to the schedule from this week's weather. Once the bridge is open, VDOT plants to perform some reconstruction and then a total resurface of Jonesboro Church Road. Chairman Collins asks Mr. French to also check Cedar Creek Road. The 723/460 R-cut project is on schedule. The ADA ramp improvements along 460 in Crewe are complete. The Crystal Lake Road project has begun. A variety of road safety improvements will begin on six routes in Nottoway, including Route 49 near the Town of Crewe, Bible Road, Rocky Ford Road, Cellar Creek Road, West Courthouse, and Hungarytown Road. These safety projects are federal and state funded; no SSYP or maintenance funds will be used. Primary and some secondary mowing is nearly complete for this cycle. Little Creek Road will close for roughly two weeks in July for a pipe cleaning.

2 – Solid Waste: No report provided.

3 – Building Inspection: April 2025 report; 47 building permits issued for \$8,427.46 in permit fees and \$3,442,343.34 in construction value; 146 inspections performed. Administrator Bowen mentions an additional document showing that of those 146 inspections 52 failed, a 33% failure rate. This will be part of the monthly report, and he would appreciate hearing any complaints Board members may receive so he can discuss them with the Building Official.

4 – Animal Control: April 2025 report; 122 animal control calls; 21 summons issued; 1 convictions; 5 compliance notifications issued; 1 dog held in foster care over 40 days.

5 – Piedmont Health District: Administrator Bowen has a meeting scheduled with Dr. Almond regarding relocating the Health Department. They are in need of space.

6 – Nottoway County Public Library: Library Board of Trustees meeting packet for April 16, 2025; April Director's Report.

7 – Nottoway County School Board: On Dr. Grimes behalf, Heather Maier thanks the Board for supporting their proposed budget. At last night's School Board meeting, they named Dr. Marcia Martin as the next Superintendent, and she is to begin duties July 1, 2025. They look forward to working with the County on future projects. June 5th is the last day of school with graduation on June 7th.

Supervisor Roark asks Ms. Maier the total dollar figure of the school's budget and the total student enrollment. The budget is close to \$40 million, and the March 31 ADM was 1,668. Supervisor Roark is concerned that the cost per student is high given that the schools are not fully accredited. The County funds approximately \$2.1 million above the SOQ. At the joint worksession, Ms. Maier explained that if the County pulls that funding, the school would lose an additional \$5 million in grant funds.

To Supervisor Roark's question regarding grant funding for bullying, Ms. Maier says she will bring that question to Dr. Martin. She encourages parents to communicate any issues to the School Board office.

8 – Social Services: No report provided.

9 – Planning & Economic Development: Planning and Economic Development Monthly Update for April 2025. Mr. Zody provides a handout for the CRC Broadband Study. He informs the Board that he recently signed off on the zoning portion for the construction of RiverStreet's equipment shelter on Cox Road.

10 – Emergency Services: Emergency Services Coordinator's Report for May 2025. Fire & EMS Working Group Planning Meeting Agenda for May 6, 2025. On May 6th, there was a kickoff for training on the new Emergency Medical Dispatch software in anticipation of a July implementation. There is an upcoming exercise simulation of a helicopter crash. He continues to research fire/EMS levies. There was a fireworks planning meeting at the Blackstone airfield for the July 1st show in Crewe and the July 2nd show in Blackstone, similar to last year. There will be a tabletop exercise with the schools on July 7th.

Supervisor Roark would like the Board to consider waiving all property taxes for Fire/EMS volunteers. Incentivizing volunteers may save the County the cost of staffing those agencies. He suggests eligibility for exemption after two years of volunteering, attending meetings, and receiving certifications. Lifetime members and those who have already been serving for ten years would be exempt automatically. Chairman Collins requests Mr. Hyde to work with Commissioner Hudson to determine the impact of such an exemption.

Administrator Bowen has provided the State Code section that explains that auto decal fees are considered general tax revenue.

11 – Piedmont Regional Jail Authority: This meeting will be held next week.

12 – Local Redevelopment Authority: Lease Actions Income Report dated May 12, 2025. Officer's Club Income Report dated May 12, 2025. FY25 Revenue/Expense Report dated May 12, 2025. Administrator Bowen reports that Chairman Collins, Mr. Zody, Manager Vannoorbeeck, Alex McCoy (Executive Director, VHREDA), and he met with Virginia Works Deputy Commissioner Kathy Byron and Secretary of Labor Bryan Slater to discuss LRA property outside the gates of Fort Barfoot.

Reports, requests, and recommendations of Constitutional Officers:

1 – Jane L. Brown, Clerk: No report provided.

2 – Robert L. Jones, Sheriff: Nothing to report.

3 – Tammie A. Raiford, Treasurer: Reports included in tonight's package.

4 – Christy A. Hudson, Commissioner of the Revenue: Quarterly report in the package.

5 – Leanne Watrous, Commonwealth's Attorney: Case reports in the package.

Vice Chair Norton met with Ms. Watrous and was told of new protocols in that office. There is a new state mandate for production of a witness list to the defense attorney thirty days before a case.

The Board considers the following unfinished business.

1a – Animal Shelter: Supervisor Ingram visits a couple of times a week to watch the progress and much has been done. Mike Gentry has been very helpful, and Mike Burdalski, CARES member, has been documenting and providing reports of the progress. Administrator Bowen mentions an upcoming progress meeting on May 28th where CARES may detail their plans for funding part of the project. On May 1st, the IDA was gracious and voted to loan the County the money to renovate the building.

2 – Fiscal Year 2026 Budget: Administrator Bowen says the budget has been advertised, and the next thing on the budget calendar is the Public Hearing next Thursday, May 22nd at 7:00 p.m.

Vice Chair Norton has had many phone calls, the Board must decide if the tax rate and levies are the necessary next steps. She points out the budget increase of \$6 million is due to a school grant.

Logan Presley, Finance Manager, explains the Emergency Services Vehicle line is revenue from a reduced tax on one vehicle driven by fire/EMS members. Rather than being assessed \$3.75/\$100, they are allowed one vehicle at \$1.00/\$100.

Supervisor Roark would like to pull the County-funded position in the Commonwealth’s Attorney’s office. His understanding was that if the position were filled, more cases would be prosecuted, and he does not see that happening. He would not vote for the budget as advertised with the position included.

The Board considers the following new business:

1 – Citizen Member – Nottoway County Emergency Squad Board: Chairman Collins confirms Supervisor Toth is interested in being the Board’s liaison. E. B. Fisher is agreeable to having Supervisor Toth, a citizen, and Mr. Hyde. Supervisor Roark would like to volunteer to serve. The NCES Executive Board has asked four of their own to step down and agreed to having three of the County’s choosing. Vice Chair Norton believes a citizen’s input would be valuable, especially if they have an EMS background. Supervisor Ingram sees this board as advisory to the Board of Supervisors. Chairman Collins urges citizens who would like to serve to reach out to their district’s Supervisor before the next worksession.

Supervisor Roark makes a motion to appoint Supervisor Toth, Buddy Hyde, and himself to the Nottoway County Emergency Squad advisory board.

Mr. David Williams, NCES, states they are rewriting their Constitution to reform their Executive Board to include three NCES and three County representatives, but he acknowledges this could take a different form if needed. For personnel matters, they would form a committee under this new advisory board to handle other operational issues. Day to day matters would be handled through their internal chain of command. He explains this new advisory board is for financial transparency to the citizens.

Mr. Fisher has been working on the Constitution and would appreciate a decision on the make-up of the new Board so the verbiage can be in place soon. Ms. Douglass suggests modifying the wording to state “Supervisor or citizen”. This will restructure the NCES Executive Board and will be advisory to the Board of Supervisors.

A second is provided by Vice Chair Norton. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

2 – Date of the June Regular Meeting: Administrator Bowen suggests the Board move the date of its June regular meeting. Supervisor Roark moves to move the regular Nottoway County Board of Supervisors meeting from June 19th to June 26th at 7:00 p.m. in the General District Courtroom due to its conflict with the Juneteenth holiday. A second is provided by Supervisor Toth. Following a voice vote, the motion passes as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes

J. A. Roark	Yes
G. G. Toth	Yes

The Board considers the following Consent Items.

1 – April Expenditures – All Funds

Supervisor Ingram moves to approve K-1. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

2 – Reallocation of Funds: Mrs. Presley has a memo before the Board outlining a request by the Nottoway County Emergency Squad for \$62,500 (1/12 of their FY26 request) to cover June 2025’s payroll and operational expenses. This has not been budgeted or appropriated.

Also, an invoice of \$58,601 from Motorola Solutions for work performed after a lightning strike to the Sheriff’s Department in 2022. The County filed and received an insurance claim, but there was no carryover of funds from the previous fiscal years to allow for payment of this bill. Supervisor Toth suggests not paying this bill until legal can review any contract and advise. Administrator Bowen suggests dividing the Budget Adjustment and add the Motorola bill for consideration at the June meeting.

Chairman Collins reviews with David Williams, NCES, that the agreement to fund NCES provides the County with 24/7 coverage by an ALS-staffed ambulance. Mr. Williams acknowledges that was the understanding.

Supervisor Roark moves to reappropriate \$62,500 to fund one Nottoway County Emergency Squad ambulance after June 1. A second is provided by Supervisor Ingram. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Administrator Bowen says a \$62,500 check will be ready for NCES on Monday, June 2nd.

The following information items are presented in the package:

- 1 – CRC – April 2025 Items of Interest
- 2 – Senator Mulchi – Letter of Support
- 3 – Thank You from Judge Cella
- 4 – Retirement Reception Invitation
- 5 – Thank You – RAM Event
- 6 – Citizen Comments on Fire/EMS Tax Levies
- 7 – Sands Anderson Letter to C. Morrisette
- 8 – Brunswick County Request for RPA Change
- 9 – DGS – Groundwater Consultant Surveys

10 – Dominion Energy – (5) Orders/Notices (full documents available in Co. Admin)

Vice Chair Norton addresses item #9, the groundwater consultant survey. She recently attended the Crewe Town Council meeting where Delegate Ware informed them the water project is moving forward. Administrator Bowen has given permission for the surveyors to be on County property so DGS can consider where to run the waterline connecting to the High School. There is a second project near the Convenience Center on Lewiston Plank Road.

Regarding item #7, the legal case with Morrisette, Chairman Collins has spoken with T. J. Oliver regarding the case and would be happy to discuss it one on one with the Supervisors.

Administrator Bowen reports the Mrs. Presley is hoping to be reconciled by the end of May. Vice Chair Norton and Supervisor Roark have been working towards a personnel policy, and he hopes to have that ready for presentation in June with the possibility of its becoming effective July 1st. On April 28th, Chairman Collins, Vice Chair Norton, and Administrator Bowen attended VACo's Region 4 meeting.

Vice Chair Norton reports that Rails to Trails will be expanding to Burkeville, the water project is progressing, and the Chicken Festival is returning in October but being held at the Crewe airport.

Supervisor Ingram is pleased to see the Animal Shelter project moving forward and is impressed with the work being performed. The Board is working diligently towards a solution to the emergency services issue for the citizens.

Supervisor Roark would like staff to consider the issue presented by Ms. Hines and Ms. Spivey and have legal review the matter. He has concerns about recent legal outcomes, particularly VCBR residents at Piedmont Regional. He provides a health update and says he plans to finish his term.

Supervisor Toth looks forward to working with the EMS board towards Nottoway citizens having a responsive, staffed ambulance.

Chairman Collins invites all citizens to fill the courtroom next Thursday at the budget public hearing and express their thoughts.

Supervisor Toth moves that the Board of Supervisors of Nottoway County, Virginia, adjourn into closed meeting pursuant to *Code of Virginia* § 2.2-3711 (A)(3) Discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body, specifically property located near Fort Barfoot. A second is provided by Supervisor Roark. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

The Board enters Closed Meeting at 9:08 p.m.

The Board reconvenes in Open Session at 9:30 p.m.

Chairman Collins reads the motion of certification:

WHEREAS, the Nottoway County Board of Supervisors has convened a closed meeting on this date pursuant to an affirmative recorded vote and in accordance with the provisions of the Virginia Freedom of Information Act; and,

May 15, 2025

WHEREAS, § 2.2-3712 (D) of the *Code of Virginia* requires a certification by this Board of Supervisors that such closed meeting was conducted in conformity with Virginia Law;

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of Nottoway County, Virginia hereby certifies that, to the best of each member's knowledge, (i) only public business matters lawfully exempted from open meeting requirements by Virginia Law were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion convening the closed meeting were heard, discussed, or considered by the Board of Supervisors, and (iii) no action was taken in the closed meeting regarding the items discussed.

A second is provided by Supervisor Roark. A roll call vote is taken with responses as follows:

W. J. Collins	I Certify
D. V. Norton	I Certify
R. H. Ingram	I Certify
J. A. Roark	I Certify
G. G. Toth	I Certify

Having no further business, Supervisor Roark moves to adjourn. Following a voice vote, the motion carries as follows:

W. J. Collins	Yes
D. V. Norton	Yes
R. H. Ingram	Yes
J. A. Roark	Yes
G. G. Toth	Yes

Chairman Collins adjourns the meeting at 9:33 p.m.

CONSTRUCTION

Susan Warr, P.E.

UPC 93093 / 0046-012-722, C501, B623

Contractor: W.C. English, Inc.

Name: Bridge Rehab over the Nottoway River

CM: Blake Smith

Location: Rte. 46

Fixed Completion Date: 04/21/25

Comments: English is currently working on completing approaches and parapets. The current forecasted completion is July 2025.

UPC 115405 / 0460-067-739, C501

Contractor:

Name: R-Cut at Rte. 723

CM: Charlene Fallen

Location: Nottoway

Fixed Completion Date: 12/05/25

Comments: The prime contractor began Phase I of the proposed work on 4/21/25. Work will continue in May with the installation of left lane closures on Rte. 460 EB and WB, removal of the existing gravel cross over, installation of environmental controls, as well as removal of old guard rail at the Rte. 723 intersection.

UPC 125571 / ST4D-964-F25, P401

Contractor: Whitehurst Paving Co, Inc.

Name: 2025 Surface Treatment

CM: Charlene Fallen

Location: Dinwiddie, Nottoway, Prince George

Fixed Completion Date: 10/19/25

Comments: Patching operations are scheduled to be in Nottoway around the first to second week of May. The surface treatment crew will follow the patching operations later in May.

UPC 125575 / SS4B-964-F25, P401

Contractor: Slurry Pavers, Inc.

Name: 2025 Cape Seal-Secondary Various

CM:

Location: Dinwiddie, Nottoway, Prince George

Fixed Completion Date: 10/19/25

Comments: Slurry seal operations have been completed in the county of Nottoway.

UPC 125589 / PM4D-964-F25, P401

Contractor: Branscome, Inc.

Name: 2025 Plant Mix / Petersburg Residency

CM: Charlene Fallen

Location: Dinwiddie, Nottoway, Prince George

Fixed Completion Date: 11/21/25

Comments: The prime contractor is scheduled to begin paving operations in Nottoway the first week of May. Paving started on Rt. 723.

Library System Monthly Report

To: Members of the Nottoway County Board of Supervisors
From: Jacqueline Zataweski, Public Library System Director
Date: April, 2025

The following summarizes the activities and projects that have taken place since I last provided a report in March.

- On March 20, I submitted a poster to ENSULIB (Environment, Sustainability and Libraries Section) for potential inclusion on the IFLA website <https://www.ifla.org/the-green-library-poster/>. I was asked to make some edits (positioning of logos) and resubmitted March 24. Information and poster follow.
- On March 25, I attended *Breaking Bad Conversations About Climate Change*, presented by John E. Fernández, a professor at MIT. Screenshots follow.
- I completed updating the section of the succession binder which includes instructions for finding reports in Apollo that are needed for Bibliostat. I believed that only the Bibliostat finances remained to be done for the binder. I was wrong.
- A review of the Volunteer Policy and application was completed April 2. Suggested changes to the document are forthcoming.
- On April 3, I viewed a recorded training about preparing for staff turnover and learned I was wrong about being nearly done with the succession binder. After completing the Bibliostat financial instructions, I will add the additional items suggested.
- Since the March meeting, I have supervised the community service of a young woman who was required to complete 12 hours. I also supervised the community service hours of a teen female who will be continuing (as a volunteer).
- The 28 action items required for Section G of the Sustainable Libraries Certification Program have been completed; we are now 54% of the way through the Program! Collective Impact is the next section.
- Inventory continues. So far, it appears that very little data was lost in the migration.
- Since the last report, I've attended three Zoom meetings and worked to catch up on Niche Academy and other webinars that had been saved for later. I have viewed three recordings and highly recommend this one, if you have an hour to spare: Niche Academy Webinar – Don't I Have the Right Not to be Offended? (I've been a huge Jamie LaRue fan since I first heard him speak 15+ years ago)

- On April 11, the library staff met to discuss expected changes, survey results received so far, and potential strategies for the future.

In addition to the above, the usual tasks regarding deposits and invoices, staff schedules and payroll were completed, as were promotional activities such as creating social media posts, newsletters, calendars, and other printed materials.

Acting as the primary contact for the Imagination Library, I continue to confirm addresses of and approve new registrants. As of March 25, there are 266 participants and 138 children have “graduated”.

Environment, Sustainability and Libraries Section

IFLA's Environment, Sustainability and Libraries Section (ENSULIB) aims to encourage librarians to inspire their communities into more environmentally sustainable way of action, by providing materials on green librarianship, giving voice to green librarians and library projects worldwide, leading by example, and offering a discussion forum.

Present environments are endangered by climate change and other threats including social inequalities. All organizations should strive to protect the environment through sustainable development. This includes all kinds of libraries, which can play an active and significant role in sustainable development.

Green and Sustainable libraries are particularly predestined to take on the role as exemplars, educators, and enablers. Green and Sustainable libraries take into account environmental, economic and social sustainability. Green and Sustainable Libraries may be of any size, but they have a clear sustainability agenda.

ENSULIB's commitment is guided by the United Nations Sustainable Development Goals, the Paris Climate Agreement and related environmental certificates and programmes.

ENSULIB brings together those who are interested in and responsible for sustainability in all areas of libraries and librarianship, following IFLA's "Transformers, Educators, Enablers: Libraries and Sustainability" publication.

Check out ENSULIB's awards:

- 2023 – IFLA Overall Achievement 2023
- 2023 – Scroll of Appreciation: Harjo Salhevoja
- 2022 – IFLA Special Mention
- 2021 – Scroll of Appreciation: Petra Hauke
- 2018 – IFLA Runner Up

The Green Library Poster

ENSULIB has created a template (in pdf) for a "What is a Green Library?" poster. This is intended for use by all kinds of libraries, and can be translated into your own language.

How to use: Include a QR code to link to your library website, a sustainability web page if your library has one, or to a strategy or explicit "mission" to implement climate and environmental protection in the community or municipality. Use the photo frames to show your green library examples. Consider forming a team to take care of implementing green initiatives.

The license: By submitting your poster to us, you agree that it will be made publicly available by ENSULIB through its website, social media, and other related events and documents. It is also possible that it will be translated into other languages by ENSULIB for educational and promotional purposes. The images in the poster are recommended to be 150 dpi or above, and under a CC-BY 4.0 license.

You are welcome to submit your poster by using this template to us via email at Eva.Haackenberg@gastris.de

What we (now) know about climate change

1. Climate change is NOT existential for the human species – nuclear war is and zoonotic diseases may be.
2. It is not obvious, nor is it assured that acting on climate change is the best path forward – however, it is now obvious and assured that not acting will make everyone's lives more difficult.
3. Keeping average surface temperature warming to 1.5 degrees C is NOT possible any longer – time to revise targets and admit our collective global failure.
4. We live in a world of tradeoffs (always have) – but the key tradeoffs are changing in unpredictable ways.
5. Expanding renewable energy (low-c energy – PVs, wind, geothermal, nuclear) is making, and will continue to make some people a lot of money – and it is not the climate scientists.
6. Climate models have been extremely accurate – in fact, they are proving to be a bit conservative.
7. Climate change (and biodiversity loss) don't care about your opinions – they are proceeding no matter what you think is happening.
8. Current and longstanding accepted best practice on constructive conversations on climate change have not worked – we need new and bold new modes of interacting with one another on this topic.

Climate Change Views: Democrats vs Republicans

Trusted messengers

People are most effectively persuaded of a position by a respected local authority bringing a clear message – often in story form – and delivered in person.

Trust is in flux. Driven by alternative facts, extensive conspiracy and propaganda engines, the internet and social media in particular, trust is more highly contingent on the mode of delivery and identity of the messenger than ever before:

- Scientists, doctors, civil servants and journalists (not of the tribe) have suffered a dramatic decrease in trustworthiness since the Covid pandemic;
- Mode of delivery is now dominated by podcasts, social media, entertainment-news, and new norms on creating and distributing false information.

MEMORANDUM

TO: Board of Supervisors

THROUGH: Steve Bowen, County Administrator

FROM: Gregg Zody, Planning and Economic Development Director *gz*

SUBJECT: Planning and Economic Development Monthly Update – April 2025

DATE: May 8, 2025

Planning and Zoning

1. Staff met with existing and prospective property owners via phone and email throughout the month to discuss development processes and related regulations regarding the subdivision and zoning ordinances. Please note these discussions may consist of follow-up via email or phone at least four times or more after the initial meeting and before applying for a special exception, subdivision, or rezoning.
2. The Planning Commission heard recommended denial (8-0) at their April 15th meeting for amendments to the solar ordinance. The Planning Commission will hear three text amendments at their May 20th meeting. The Board will hear those items at their June meeting.
3. Staff has completed draft amendments to Article 1 and Article 2 of the zoning ordinance revision. They will be discussed at the May 20th meeting.
4. Staff has discussed at least three potential solar projects with developers since the Board amended the solar ordinance at their April 17th public hearing.
5. Staff attended a Circuit Court hearing for a case where the plaintiff is the County. The defendant's attorney removed himself from the case, so the hearing will be postponed until the defendant can secure the services of an attorney, and the evidence will have to be noticed again to all interested parties. This means the hearing will be set for Fall 2025.

6. Staff hosted a Zoom meeting on April 30th with counsel regarding zoning and building violation procedures. As part of this effort, counsel will review our proposed amendments to the zoning ordinance to ensure we have a solid legal footing moving forward with pursuing zoning violations.
7. Staff posted a notice of a Section 106 review online for the radio tower adjacent to the Health Department. This is part of the review process post-BOS approval, and it is looking at any historic elements at the site or nearby that may be affected by the tower's location. The third party conducting this review noticed staff on May 2nd, with the documentation attached, and published an ad in the Courier-Record on April 30th. There is a 30-day comment period. Staff has a hard copy of the notice in the Administration Office for public viewing.

Economic Development

1. Attending WPPDC East VATI Management Team Zoom Meeting held on April 1st.
2. Staff met with RiverStreet and its contractors via Zoom on April 22nd for a pre-construction meeting regarding Cabinet 4 (Cox and Military Road). Construction will start asap and the end of construction is scheduled for the end of September 2025. Cabinet 5 area has starting the staking process, and Cabinet 6 will follow.
3. Participated in two Building Opportunities on Main Street (BOOMS) meetings on April 2nd and April 10th.
4. Participated in the CRC's final DHCD Regional Broadband Affordability and Adoption Plan Zoom meeting on April 7th. The CRC staff has completed their final draft of the Plan before being forwarded to the CRC Board for approval. Staff has obtained copies for the Board and PC members. This Plan will be forwarded to DHCD for final approval.
5. Staff virtually attended the Hybrid Comprehensive Economic Development Strategy team meeting hosted by the CRC.
6. Staff has drafted a Prospect Manual for Pickett Park to post on our LoopNet site and will forward it to the Board for review and comment within the next two weeks.

Re: Special Exception Request for Radio Tower

This letter serves as notice of a special exception request by Level-Up Towers on behalf of the Nottoway County Board of Supervisors to construct a 300-foot radio tower on tax map # 31-70. The proposed location is on the same parcel as the Nottoway County Health Department (207 West Courthouse Road). The proposed structure will be constructed south of the existing entrance to the Health Department and north of the public parking area along West Courthouse Road. The applicant (Level-Up Towers) also seeks setback relief as defined in Sec. 4-13-10 of the Nottoway County Zoning Ordinance. The subject parcel is zoned Conservation (C-1) and is approximately 1.2 acres.

The Nottoway County Planning Commission will hold a public hearing on Tuesday, February 18, 2025, at 7:00 p.m. in the Emergency Operations Center, located in the basement at 207 West Courthouse Road, Nottoway, Virginia, 23955, to hear the request.

The Nottoway County Board of Supervisors will hold a public hearing on February 20, 2025, in the General District Courtroom, 328 West Courthouse Road, Nottoway, Virginia 23955, to hear the request.

Complete copies of the abovementioned requests are available for review at the County Administration Office, 344 W. Courthouse Road, Nottoway, VA 23955. All persons desiring to be heard are urged to be present on the aforementioned date and hour.

The Nottoway County Planning Commission and the Nottoway County Board of Supervisors intend to comply with the Americans with Disabilities Act. Should you need special accommodations, please contact the County Administration Office before 5:00 p.m. on Friday, February 13, 2025.

If you have questions or concerns regarding this notice, please contact Gregg Zody, Director of Planning and Economic Development at 434-645-8696 or email, at gzody@nottoway.org

EMERGENCY SERVICES COORDINATOR'S REPORT

TO: The Honorable Members of the Nottoway County Board of Supervisors

FROM: Aubrey W. "Buddy" Hyde, Jr.

DATE: May 8, 2025

SUBJECT: May Report

The following activities and projects are provided in this summary of work by the Department of Emergency Services since my last report on April 10th before your monthly Board of Supervisors meeting on April 17, 2025. Many of these activities listed below were performed in collaboration with other staff members and external stakeholders.

The current emergency services related projects and activities that I have worked on and represented the county include, but are not limited to, the following:

- Participated in several virtual meetings over March & April with CTA, Kenwood, and tower companies to discuss the next steps in our radio communications project.
- Attended BOS worksession meeting with the Nottoway Emergency Squad on April 14th
- Coordinated with CTA on the Detailed Design Review meeting for our public safety radio communications system, held at the Crewe Fire Station on April 15th
- Participated in a virtual kick-off meeting for our new Total Response EMD software on April 16th
- Attended a VDEM/FEMA virtual meeting for grant recipients to receive an update on reimbursement funding status at the federal level
- Attended a meeting on April 24th with FASTC personnel and helped to plan a helicopter down exercise for May 19th at their facility

- Attended hydrologic device update meeting in Chesterfield on April 28th held by VDEM to discuss all flood sensors around the state. Nottoway County has 5 of those sensors.
- Facilitated the monthly meeting of the Fire & EMS Working Group on May 6th at the Extension Office Conference Room. The main topics were the fire/EMS tax levy, budget update, and capital improvement plan updates for the emergency vehicle capital outlay over the next 10 years. Other topics were Fire/EMS training, haz-mat unit update and several emergency operations topics. (Agenda attached)
- Attended the BOS worksession on May 8th and provided information on EMS options and costs.

**NOTTOWAY COUNTY
FIRE & EMS WORKING GROUP
PLANNING MEETING**

**May 6, 2025
18:00 hrs.**

**MEETING LOCATION: *Nottoway County Social Services
Conference Room
288 West Courthouse Rd. – Nottoway, VA 23955***

AGENDA

- Call to Order & Prayer
- VDOF Update
- Radio System Update – Jimmy & Buddy
- VDOT – R-Cut and Barfoot Bridge
- Countywide Training Update
 - FF 1 – Burkeville
 - Richard Ray class – who wants to host?
 - Planning for EMT class in Fall at NCES
- Upcoming Exercises
 - May 19 – FASTC – helicopter incident
 - July 7 – Nottoway High School tabletop
- HM-1 New Battery, Decon Equipment, Throw Ropes, Buckets, Containment Basins
- Tax Levy Discussion
 - Feedback from Group & Future BOS meetings
 - Capital Improvement Plan – vehicle replacements
- Other Items for the Good of the Order
- Adjournment

**Re: Nottoway Animal Shelter
Notice to Proceed**

Dear Mr. Hurt:

Thank you for your interest in the above project. The contract was delivered on April 10, 2025. Hurt and Sons returned an executed copy of the signed contract to Solex Architecture on April 18, 2025. A copy was executed by the Owner on April 18, 2025. Hurt and Sons has provided a copy of the Performance Bond and Payment Bond. A certificate of insurance, list of subcontractors, schedule of values and construction schedule outlining critical milestones is to be delivered by the Contractor.

This letter is to serve as your official Notice to Proceed on the Nottoway Animal Shelter project located at 406 Agnew Street, Burkeville, Virginia. The contract specifies 180 consecutive calendar days to reach substantial completion, with an additional 30 consecutive calendar days to reach final completion. The period to reach substantial completion excludes items as stated in AIA Document A101-2017, dated April 10, 2025. Construction activities are to start on or before April 23, 2025. The date for substantial completion has been set at October 20, 2025 and the date for final completion has been set at November 19, 2025.

On behalf of Nottoway County, we thank you and look forward to working with you on this project.

Sincerely,

Solex Architecture, Inc.

Jeffrey L. Bond, AIA, LEED AP BD+C
Architect | Owner

Attendees:

David Redford	Nottoway County
George Dillard	Hurt & Sons LLC
Jack Boswell	CARES
Celia Orr-Elzay	CARES
Sally Wilkerson	CARES
Mike Burdalski	CARES
Michael Gentry	Gentry Enterprises
Tommy Shell	Shell Plumbing

1. Contracts:

- a. Notice of Award was issued and dated for April 10, 2025.
- b. Contract is for the amount of \$ 2,103,550.00.
- c. A Copy of the contract was distributed to the Contractor for attachment of bonds, insurance documents, and signature on April 10, 2025. Contracts are all signed/dated April 18, 2025. Executed contracts and bonds were returned by the Contractor on April 18, 2025. The Owner signed at the pre-construction meeting.
 - i. The Contractor is responsible for submitting their current insurance policy(ies).
- d. Notice to Proceed will be issued and dated for April 23.
- e. Project Start Date – April 23
- f. Substantial Completion – Entire Project – October 20, 2025
- g. Substantial Completion Reviews – upon Contractor request
- h. Warranties Start Times – upon reaching Substantial Completion
- i. Final Completion – Entire Project – November 19, 2025

2. Liquidated Damages: The contractor shall pay \$100.00 for each consecutive calendar day beyond substantial completion date set above whereas the project cannot be considered substantially complete. The contractor shall pay an additional \$100.00 for each consecutive day that the project extends beyond the date of final completion.
3. Below mentioned items have been delivered to the Architect by the Contractor, or are noted as forthcoming.
 - a. Contract

- b. Bond requirements
- c. Insurance (forthcoming)
- d. List of major subcontractors and suppliers (forthcoming)
- e. Schedule of Values (forthcoming)
- f. Construction (job progress) schedule (forthcoming)
- g. Permit(s) (forthcoming)

4. Chain of Command

- a. All subcontractors will direct questions/answers to the General Contractors who will forward to the Architect. All correspondence from the General Contractor is to be directed to the Architect (Jeff Bond) at Solex Architecture. The Architect will distribute to A/E personnel or the Owner as required. This is to create a recordable chain of command, to prevent communication from going unanswered and to prevent all parties from becoming inundated with correspondence.
- b. The Contractor is responsible for the actions of his subcontractors. The Contractor and subcontractors shall have limited contact with the Owners Representative(s). The Contractor is not to direct correspondence to any representatives of the Owner. Any requests or questions shall be directed through the Architect who in turn will direct questions to the Owner.

5. Processes

- a. Any questions, from the owner or the contractor, in regards to the accuracy of the contract documents or which will result in a change or in the contract documents must be directly addressed to the Architect for review and approval. The General Contractor must have the Architect's approval before any change is authorized. Decisions that require a change in the documents will be made by the Architect or corresponding Engineer only. Any deviations from the contract documents made without the Architect's approval shall be repaired/replaced at the Contractor's own expense.
- b. The Contractor shall submit major questions in form of RFI's (request for information). All RFI's shall be sent to the attention of the Architect and will be forwarded to the proper disciplines for review. The Architect will issue the official response. Minor questions can be answered by phone or email. The Architect will notify the Contractor if a question should be submitted as a formal RFI.
- c. Field directives/changes can be issued either by a field change directive or by letter from the Architect. It is important that all parties are aware to any changes made in the field. The Architect will be responsible for contacting and discussing these changes with the Owner's representative.
- d. The Contractor shall keep current up to date as-built drawings on site, which reflects any changes in the contract. The Contractor will have to provide complete "as-builts" at the end of the job before final payment is made by Owner. All disciplines are required to note as-built changes on the designated set. The Contractor will also need to keep current shop drawing/submittal file on site. A full copy of all addenda should be

available for all disciplines to review at this set of documents. These documents will be used to answer questions and discuss changes. These may be used by Architect, Contractor, and Owner at all job progress meetings.

- e. Subcontractors shall be responsible for reviewing, understanding and actively coordinating all disciplines of this job. Any uncoordinated items shall be the responsibility of the General Contractor and shall be replaced, removed or relocated at the General Contractor's expense.
- f. The Superintendent of job responsibility will be to monitor the job site and stay one step ahead of construction. Identify problems or concerns prior to constructing.

6. Pay Request

- a. Standard AIA pay request will be used. Schedule of values must be submitted with each pay request.
 - i. **The schedule of values is to have a separate line item for all associated work including materials and labor for the following:**
 - 1. **Front Porch**
 - 2. **Exercise Fencing**
 - 3. **Loose/mobile kennels**
- b. Contractor must have pay request to the Architect by the twenty-fifth of the month as outlined in the contract. Payment will be reviewed by the Architect and turned over to the owner for payment by the 5th of the following month. Retainage shall be set at five (5%). If not submitted within the guidelines above, the Contractor will receive payment 30 days after the Architect receives the Application for Payment. **The Contractor shall submit three hard copies of the pay requests to Architect for review.**

7. Job Progress Meetings

- a. Job Progress meetings will be held every two weeks at the project site.
- b. Time of Meetings: 10:00am.
- c. Tentative Dates: Second and fourth Wednesday. First meeting on May 28.
- d. Attendees to these meetings shall be as follows:
 - i. Architect – Jeff Bond (only attending on the 4th Wednesday, unless needed)
 - ii. Owner Representative – Steve Bowen
 - iii. Construction Project Manager – Michael Hurt
 - iv. Construction Superintendent – George Dillard
 - v. CARES representative
 - vi. Subcontractors only if requested by the Architect
- e. Architect will conduct meeting and will issue set of minutes based upon discussions.
- f. The General Contractor shall be responsible for gathering questions and information from the Subcontractors and shall be ready to discuss these items at the job progress meetings. The Contractor shall give the

Architect one-week notice (minimum) if they request the presence of any engineering personnel at a meeting. At meetings where the Architect is not present, the Contractor shall record the meeting minutes and distribute to all parties.

8. Change Orders

- a. Change orders requiring an increase or decrease in the dollar amount must be submitted in writing by the Contractor in the form of a change order (or proposal) request and sent to the Architect for review. The Architect will review the proposal for fairness and forward to the Owner's Representative for review. The Architect shall be able to give verbal approval to the General Contractor once the Owner has agreed to the amount and change. The Architect's word of approval will be the Contractor's right to proceed. **The Architect will issue a letter to the Contractor after giving verbal approval.**
- b. The contractor shall follow the allowable markup for work performed by subcontractors as outlined in the contract/purchase order.
- c. Change orders are to be presented to the Architect prior to job progress meetings. **Change orders brought to the group's attention during job progress meetings will not be considered at that time.**
- d. Change order requests shall be submitted within fourteen (14) days of authorization, but no later than twenty-one (21) days after the work is completed. The Contractor is to include an itemized breakdown of labor and material costs with the submission. This includes labor hourly rates of workers, equipment rental and hours, material costs, etc. If the change order is not broken out in the manner it will be returned to the General Contractor without elevation.
- e. If you receive a proposal request or are asked to price up a change in work, please respond as quickly as possible.

9. Shop Drawing Submittals

- a. Shop drawings shall be sent to the Architect for logging in and out and for review. Shop drawings are permitted to be sent electronically, except for physical samples and color charts. These will need to be delivered to the Architect by mail or courier. Anticipated turnaround time will be ten (10) to fourteen (14) calendar days after receipt. **Please notify the Architect of any critical lead time items.**
- b. All shop drawing submittals shall be clearly marked "approved" by the contractor prior to submittal to the architect. Failure to do so will result in the shop drawings being returned to the Contractor.
- c. All exterior color and finish items shall be submitted to the Architect prior to any color or finish selections being made. All interior color and finish items shall be submitted to the Architect prior to any color or finish selections being made.
- d. At the end of the project, the Architect will deliver the record drawings (provided by the Contractor) and all submittals in an electronic format.

- e. If used kennel gates are being explored, the Contractor is to submit dimensions and photographs to the Architect for review. The Architect will review for compliance with the specified items. No purchase is to be made without written approval from the Architect.

10. Substantial Completion

- a. The project will not be deemed substantially complete unless all trades are substantially complete.
- b. The Contractor is to notify the Architect when the project is substantially complete, after which time, the Architect will make a preliminary inspection as soon as possible. The Architect will then prepare a punch list and provide to the Contractor. Within 30 days, the Contractor shall complete the punch list, and notify the Architect that a final inspection is requested. The final inspection shall include the Owner, Architect, General Contractor and major subcontractors.

11. Contract Warranties:

- a. Contract warranties for all warranted items will begin once substantial completion has been obtained for all disciplines.
- b. The start date of warranties will be established on the Certificate of Substantial Completion.

12. Safety:

- a. The contractor is responsible for safety standards set by OSHA. Hard hats shall be worn on the job site at all times. Extras should be made available for Owner representatives in the contractor's office area. The Owner has the right to shut down the project if a safety violation is apparent.
- b. All visitors shall be required to register at the job trailer and/or with the superintendent prior to visiting. The Contractor shall be responsible for the safety of the visitors while on site. The Contractor should report any unannounced visitors to the owner and authorities as necessary.
- c. It is the Contractor's responsibility to provide any necessary construction barriers for protection.
- d. The inspection department(s) or other authorities having jurisdiction may visit the site for periodic/random inspections. The General Contractor is responsible for scheduling all required inspections.

13. Other Issues:

- a. All zoning issues have been resolved.
- b. All work shall be confined to Monday through Friday from 7 am to 5 pm. The General Contractor is to schedule in advance any work that is to be performed outside of this period.
- c. The General Contractor is responsible for making sure all appropriate parties have the required licenses. No town business license is required.
- d. Permit application(s) will be submitted by the Contractor soon. The permit fee(s) are waived. Contractor to provide Owner and Architect with a copy of all permits.
- e. It is ultimately the General Contractor's responsibility to make sure all subcontractors have the appropriate permits.

- f. No smoking in or within 25 feet of the building.
- g. Temporary storage containers to be staged on the side of the building.
- h. The General Contractor is responsible for coordinating location of parking for all subcontractors.
- i. Temporary toilet facilities will be placed on the side of the building.
- j. **Water line extension is scheduled to start on Monday, April 21.**
- k. **There is no established schedule for the sewer line extension. Only partial engineering has been completed. The Contractor is to coordinate invert elevations with the Town. The Town is to establish a schedule for this project and provide an update at the May 28th meeting.**

Subject: Countywide Radio System Usage Breakdown as Requested

Importance: High

Chairman Collins (*Bill*),

It took me a few days to collect accurate data, review it, and calculate percentages for the various disciplines within the first responder community of Nottoway County. I reached out to our communications supervisors and requested a query on the calls for service (CFS) that are logged in our computer aided dispatch. Since the first responder agency handling the call for service would rely on his/her radio for communication, we identified actual and potential radio usage connected to the calls for service, which includes everything from property checks to traffic stops to domestic calls, auto lock-outs, fires, haz-mat, and EMS calls. Here is the breakdown using calendar year 2024 as a good annual sample of how we respond to provide these various services to Nottoway County.

Calendar Year 2024 – Nottoway County

28,237 - Total Calls for Service from Jan. 1 to Dec. 31, 2024.

Includes the following:

16,063 – Town Police Departments **(56.9%)** – Blackstone, Burkeville, & Crewe combined

7,692 – Nottoway Sheriff's Office **(27.2%)**

4,010 – Fire & EMS Departments **(14.2%)** – Blackstone, Burkeville, Crewe, & Nottoway Emergency Squad combined)

472 – Other calls such as State Police, Animal Control, etc. **(1.7%)**

28,237

Hopefully this information will be helpful to the Board of Supervisors & Mr. Bowen. Please let me know if you need additional information in reference to this request or any other related topics.

Be safe,

Buddy

Aubrey W. "Buddy" Hyde, Jr.
Emergency Services Coordinator

County of Nottoway
P.O. Box 92
344 West Courthouse Road
Nottoway, VA 23955
Cell: 434.294.8185
Office: 434.645.8696

NOTTOWAY COUNTY, VIRGINIA

PROPOSED BUDGET

FOR THE YEAR ENDING

JUNE 30, 2026

PROPOSED LEVY for General County Purposes on Real Estate - \$0.48 per \$100.00 valuation.

PROPOSED LEVY for Tangible Personal Property (with exception of household & kitchen furniture and vehicles without motive power used as mobile homes), boats or other watercraft used for business or pleasure - \$4.12 per \$100.00 valuation.

PROPOSED LEVY for the Fire Fund on Real Estate - \$0.02 per \$100.00 valuation.

PROPOSED LEVY for the Fire Fund on Personal Property - \$0.18 per \$100 valuation.

PROPOSED LEVY for the Emergency Services Fund on Real Estate - \$0.05 per \$100.00 valuation.

PROPOSED LEVY for the Emergency Services Fund on Personal Property - \$0.45 per \$100 valuation.

PROPOSED LEVY for Mobile Homes - \$0.48 per \$100.00 valuation.

PROPOSED LEVY for Machinery & Tools - \$1.35 per \$100.00 valuation.

PROPOSED LEVY for General County Purposes - Merchant's Capital - \$0.00 per \$100.00 valuation.

PROPOSED LEVY for Farm Machinery, Implements or Equipment - \$0.00 per \$100.00 valuation.

PROPOSED LEVY for Motor Vehicles Specially Equipped to provide Transportation for Physically Handicapped Individuals - \$2.35 per \$100.00 valuation.

PROPOSED LEVY for Aircraft - \$1.00 per \$100.00 valuation.

PROPOSED LEVY for Emergency Services volunteers - one vehicle - \$1.00 per \$100.00 valuation.

NOTICE: The proposed tax rates are for consideration by the Nottoway County Board of Supervisors and may be lowered as a result of the Public Hearing with adoption of the Budget.

It is accordingly ordered that a synopsis of the Proposed Budget and Levies be published in the Courier Record and Crewe-Burkeville Journal in accordance with Section 15.2-2506 of the Code of Virginia and that notice be given by such publication that the Board of Supervisors of Nottoway County, VA, has fixed May 22, 2025, in the General District Court House, 328 W. Courthouse Road, of said County at 7:00 p.m. as the time and place for the Special Meeting for the Public Hearing on the proposed Budget and Levies. Any citizen of Nottoway County may attend the said Public Hearing and state his or her views on the adoption of the Budget and the making of the Levies.

Given under our hand this 8th day of May, 2025.

STEVE W. BOWEN
County Administrator

Commonwealth Regional Council

April 2025 Items of Interest

VDOT Locality Day

CRC staff attended the 2025 Lynchburg, Culpeper, and Staunton Joint Locality Day on April 24 at Silver Fox Lavender Farm in Nellysford. The event featured updates from VDOT on funding strategies, project coordination, bridge inspections, and local procurement processes. Staff participated to stay current on transportation initiatives and strengthen partnerships with VDOT and regional localities.

Upcoming Funding Opportunities:

- Centra Community Grant
 - Opened 4/1/2025
 - Closes 5/15/2025
- DHCD, Industrial Revitalization Fund
 - Opened 4/1/2025
 - Closes 5/31/2025
- VA Housing, Accessibility Grant FY 25
 - Closes 5/31/2025
- VA Housing, Community Impact Planning Grant
 - Closes 5/31/2025
- VA Housing, Community Impact Stabilization & Deconstruction
 - Closes 5/31/2025
- VA Housing, Capacity Building Grant
 - Closes 5/31/2025

Grant Assistance:

- Congratulations to Cumberland County, awarded \$32,678 through the VDACS AFID Infrastructure Grant to enhance the Farmers Market.
- CRC - Awarded DEQ Water Supply Plan Grant: CRC received \$11,784 to support planning activities for the development of a regional Water Supply Plan for the Chowan River Region.

The CRC provides free grant writing services for member localities and local 501C3 non-profits.

Regional Broadband Affordability and Adoption Plan

CRC has finalized and submitted the Regional Broadband Affordability and Adoption Plan to the Virginia Department of Housing and Community Development (DHCD). The final plan has been sent to Lancer Printing for production of physical copies, which will be distributed to each of the seven member counties for local availability in the coming weeks. This plan marks a key step forward in expanding affordable broadband access across the region.

CEDS Committee Meets

On April 25, CRC held a Comprehensive Economic Development Strategy (CEDS) Committee meeting to continue progress on the regional plan. During the meeting, CRC staff presented and reviewed the Regional Economic Conditions Analysis, developed through extensive research and data gathering. The committee also began creating a regional stakeholder list, identifying local leaders, business owners, community groups, and other engaged citizens who will help shape the strategy moving forward.

VHREDA Welcomes New Executive Director: Alex McCoy, MBA, CEcD, EDFP, IOM

Virginia's Heartland Regional Economic Development Alliance (VHREDA) is pleased to announce Alex McCoy, MBA, CEcD, EDFP, IOM, as its new Executive Director. Alex brings extensive leadership in business recruitment, strategic planning, and rural development. He holds an MBA and dual BBAs in Business Administration and Economics from Mercer University, and professional certifications in economic development and finance. His experience and passion for strengthening communities will drive VHREDA's mission to grow economic opportunity across the Heartland region.

Dear Mr. Bowen,

I hope this letter finds you well. As your Senator for the 9th District, I wanted to take a moment to personally reach out and ensure you know I am available to support you in any way I can. Your work is essential to our communities, and I deeply appreciate the dedication and leadership you bring to your role.

While I regret that I am not always able to attend every meeting or event due to my full-time work schedule and responsibilities running a nonprofit, please know that I remain committed to serving you and our district. If there is a specific meeting you would like me to attend or if you would like a representative from my office to be present, please do not hesitate to reach out.

Again, thank you for your service and dedication. I look forward to working with you to make Southside Virginia the best place to live, work, and raise a family. Please feel free to contact me anytime at 434-374-5129 or senatormulchi@senator.mulchi.gov.

Sincerely,

Tammy Mulchi
Senator, 9th District

Dear Mr. Bowen:

Thank you for the contribution that the County made to my Nottoway courtroom portrait.
I appreciate it.

I have enjoyed working with everyone in Nottoway. Although I am retired now, I will be coming back as a substitute judge beginning August 1, 2025, and I will look forward to seeing my friends in Nottoway again then.

Sincerely,

Thank you so much Mr. Bowen & the Nottoway
Board of Supervisors. Your support made this event
an incredible success! *Wesley Almond*
D/H Piedmont Health

Dear Steve & Nottoway Board Members, ^{21 April 2025}
Please know that your support was very
meaningful. Your support was greatly appreciated.

In 2023, the possibility of having a Remote Area Medical (RAM) clinic in Central Virginia
was just a dream. Thanks to our generous and kindhearted community, the dream
became a reality in 2025 at Cumberland High School on March 29 and 30th. We served
283 individuals! There were approximately 414 volunteers engaged in this event over
the weekend. Thanks for helping make this event a success. We could not have done
it without you.

The RAM Community Host Group comprised of Piedmont Health District, Piedmont
Senior Resources, Longwood University and Southside Virginia Community College
extends to you our sincere gratitude.

Your support is greatly
appreciated,
Amy Brister

With gratitude,
Justin Young

Subject: Nottoway County - Emergency Services Tax Considerations

Good morning Mr. Ingram,

My name is Kelsey Redman and I am a resident of Nottoway, off of Genito Rd in the northwest corner of the county (I believe I am in your district but I apologize if this reached your desk in error, and would appreciate you sharing this following consideration with the Board)!

I would like to start off thanking you for the work you and the rest of the Board of Supervisors have been doing in the County. I try to tune in to monthly meetings whenever I can and stay up to date on government happenings at the local level. I appreciate the transparency this current Board operates with, and you all's dedication to improving our overall safety and welfare.

I am reaching out to gain more information on the status of the proposed Fire / EMS tax increase. I know there is a proposed meeting this week to discuss this matter, but I am unsure if I will be able to attend in person, so I wanted to share this.

It is my current understanding that this proposed rate increase is being considered, to be based on a percentage of our personal property and real estate taxes in order to fund staffing our stations with paid personnel. Is this a correct foundation?

I have no objection to the basis of need for this proposed staffing change - I certainly understand our county is working with an aging population (with greater need for essential emergency medical services), projected population decline, and the general lack of a volunteer base, etc.. so I believe the County is making the responsible decision to move toward paid services over a designated time period.

However, there is one consideration/question I wish to bring to the Board's attention. If active Fire/EMS volunteers currently receive a discounted \$1.00/\$100 vs. standard \$3.75/\$100 benefit on personal vehicles (discount at the Board's discretion, membership determined by the volunteer department), what will stand in place to replace this incentive in the future? For example, if a husband/wife are currently active volunteers and receive somewhere in the realm of a combined \$500 tax break for using their personal vehicles to the service to this county, shouldn't there exist a substitute in the future when volunteers are no longer running the calls?

In lieu of this vehicle tax relief in the future, I believe it would be beneficial to propose a broader form of tax relief (incentive) for volunteer efforts focused specifically on the Nottoway community. I note that volunteering through civic, religious, and other community organizations groups is experiencing a low in this current society. Perhaps this is an opportunity to change that at the local level.

I am certainly no lawyer, but **Code of Virginia Section 58.1-3019** states that localities can pass legislation approving local tax credits for approved local volunteer activities, and it seems that the definition of an approved activity is left to the discretion of the locality.

It is my opinion that this is a vessel through which the County could provide taxpayers a means of offsetting proposed tax increases through civic engagement. This way we could

- 1) still honor the heart of the volunteer base,
- 2) provide this County with a base of service hours, and
- 3) encourage community growth and outreach

I propose an incentive that could be based on man hours, reimbursed at a rate of say \$12.50/hr (or min. wage), with a minimum of 10 hours, and max of 80 hours (i.e. say the incentive could not exceed \$1000 or whatever the projected 20% burden would be for each taxpayer from having to fund the emergency services over time).

I know it is probably much more complicated once you start talking physical fiscal dollars and tax payer base etc, but I feel this could be a good compromise to put on the table.

Further, this has the potential to expand and include the next generation of county residents, to cultivate volunteering from an early age. At the school level, the school board could institute a similar policy for high schoolers, instituting a volunteer hour requirement for graduation. If we started this early, it could facilitate a generational shift in mindset towards our community.

Please feel free to email or call / text me (cell: 434-292-8986) if you would be willing to discuss any of this in more detail. Thank you so much for your time, your consideration, and your service to this county!

Sincerely,
Kelsey Redman

Re. CL22-460

Mr. and Mrs. Morrisette:

Confirming by this letter that we will wait until May 15 to begin the process of scheduling future hearing and trial dates so that you all have time to explore retaining new counsel in the subject matter.

In the meantime, while you all are acting *pro se*, I would be happy to discuss the non-litigated resolution to this case that all other parties have agreed to. During the hearing you indicated that you felt some issues had not been fully explained to you all. I can involve the County staff or other parties to the extent you all feel it would be productive to the conversation.

If you do retain an attorney in this matter, please have them contact me at their earliest convenience so that we can discuss the procedural and substantive issues.

I can be reached at the information above.

Sincerely,

05/06/2025

Dear RPU Representative,

We are writing to inform you that Brunswick County has requested to change their assigned Regional Planning Area (RPA). Per 9 VAC 25-780-45. C., local governments may request to change their designated RPA to an adjoining RPA if they share water supply sources, river basin, or have an existing or planned cross-jurisdictional relationship with the planning area they propose to join. This process involves notifying all representatives in both affected RPAs of the request. Regional planning unit representatives have a 30-day window to submit objections or comments to the request.

The requested change is as follows: Brunswick County has requested to leave the Chowan River 1 RPA and to join the Roanoke River 3 RPA (see map below). This communication serves as notice of the requested change.

Please submit your comments or objections regarding Brunswick County's request to change RPA to: watersupplyplanning@deq.virginia.gov. Objections must be submitted in writing via email using the Subject Line "Brunswick County Reassignment Comment" and should include information supporting the reason for disagreement. Thank you.

Sincerely,

A handwritten signature in black ink, reading "W. Weedon Cloe III".

April 24, 2025
Project No.: 33.0083222.00

NOTTOWAY COUNTY BOARD OF SUPERVISOR
200 LEWISTON PLANK RD
NOTTOWAY, VA 23955
Property ID Number: 17-167A

Dear Property Owner,

The Virginia Department of General Services has hired a team of Brockenbrough and Emery & Garrett Groundwater Investigations (EGGI), A Division of GZA as their groundwater consultants to conduct a groundwater resource investigation to provide supplemental water to the Town of Crewe and three (3) state facilities (Nottoway Correctional Center, Piedmont Geriatric Hospital, and Virginia Center for Behavioral Rehabilitation). To fulfill the project goals, we are asking for your cooperation by allowing EGGI staff to access your land and carry out geophysical surveys.

These surveys will be performed by a crew of one to two geologists who will conduct the geophysical investigations along predetermined survey lines. These surveys will require temporarily inserting short, small-diameter stainless steel rods (12 to 16 inches in length) into the ground. Their work will not be intrusive or destructive and will not permanently disturb the local landscape. There may be the need for minor brush clearing to provide paths for the survey lines in overgrown areas. However, efforts will be made to minimize any hand clearing required for these ground surveys. You will also notice that short plastic "flagging" strips will be tied to tree limbs, fence posts, or shrubs about 100 feet apart on the grid lines. If you desire, these flags will be removed after the project is complete.

EGGI plans to collect this information as soon as possible, weather permitting. The crew welcomes any questions you have while they are on your property.

If you have any questions regarding this project, please feel free to call us during normal business hours (8:00 a.m. to 5:00 p.m. Monday through Friday) at (603) 279-4425.

The Virginia Department of General Services Project Manager, Chinh Vu, can also be reached during normal business hours at (804) 641-7108.

Thank you very much for your cooperation during this project.

Very truly yours,

EMERY & GARRETT GROUNDWATER INVESTIGATIONS, A DIVISION OF GZA

Peter J. Foster, P.G.
Associate Principal/District Office Manager
Hydrogeologist

RESPONSE TO ACCESS PERMISSION REQUEST

Virginia Department of General Services –Groundwater Resource Investigation

_____ I give my permission to have the staff of Emery & Garrett Groundwater Investigations, A Division of GZA perform a geophysical survey on my property as listed below.

- ☐ Please remove flagging when done.
- ☐ Please contact me prior to entering my property to conduct surveys.

All,

I'm providing an update on our survey schedule as we have availability next week beginning May 5th. Assuming there are no objections on public property, we would like to begin surveying on the County's properties along the east side of Courthouse Road through the parking lot and Post Office. We would also like to survey on the Town's property at the water treatment plant along the west side of Courthouse Road. Please contact me if you have any questions.

*Petition of Virginia Electric and Power Company, For approval of a plan for
electric distribution grid transformation projects pursuant to
§ 56-585.1 A 6 of the Code of Virginia*
Case No. PUR-2025-00051

To: Local Government Officials

Pursuant to the State Corporation Commission of Virginia's April 16, 2025, *Order for Notice and Hearing* ("Order"), the Company is providing you a copy of its Petition filed on March 24, 2025, as well as the Order. Please take notice of their contents.

An electronic copy of the Company's Petition may be obtained by submitting a written request to counsel for the Company, Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com.

	)	
VIRGINIA ELECTRIC AND POWER COMPANY	)	
	)	Case No. PUR-2025-00051
For approval of a plan for electric distribution grid	)	
transformation projects pursuant to § 56-585.1 A 6	)	
of the Code of Virginia	)	

**PETITION OF VIRGINIA ELECTRIC AND POWER COMPANY
AND REQUEST FOR LIMITED WAIVERS**

Pursuant to § 56-585.1 A 6 (“Subsection A 6”) of the Code of Virginia (“Va. Code”) and the Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities (the “Rate Case Rules”) of the State Corporation Commission of Virginia (the “Commission”), Virginia Electric and Power Company (“Dominion Energy Virginia” or the “Company”), by counsel, hereby files its petition for approval of a plan for electric distribution grid transformation projects (the “Petition”). Specifically, Dominion Energy Virginia asks for approval of Phase IIIB of its plan to transform its electric distribution grid (the “Grid Transformation Plan,” the “GT Plan,” or the “Plan”), which consists of proposed projects in 2024, 2025, and 2026.¹

Pursuant to Rule 10 E of the Rate Case Rules, the Company also requests limited waivers of the requirements of Rules 40 and 90 with respect to paper copies of certain Filing Schedule 46 materials.

In support of this Petition and request for limited waivers, the Company respectfully states as follows:

¹ The Company’s request also includes work in prior years for certain Phase IIIB projects, as described further by the sponsoring Company witness.

I. General Information

1. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional customers in Virginia and to the public in portions of North Carolina. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc.

2. The Company's name and post office address are:

Virginia Electric and Power Company
600 East Canal Street
Richmond, Virginia 23219

3. The names, addresses, and telephone numbers of the Company's attorneys are:

Paul E. Pfeffer

(804) 775-1465 (EJH)
(804) 775-4758 (ASH)

II. Legal Authority

4. Subsection A 6, as amended by the Grid Transformation and Security Act of 2018 (the “GTSA”), requires the Company to petition the Commission for approval of a plan for electric grid transformation projects:

A utility shall, without regard for whether it has petitioned for any rate adjustment clause pursuant to clause (vi), petition the Commission, not more than once annually, for approval of a plan for electric distribution grid transformation projects. Any plan for electric distribution grid transformation projects shall include both measures to facilitate integration of distributed energy resources and measures to enhance physical electric distribution grid reliability and security.

5. Va. Code § 56-576 defines an “electric distribution grid transformation project” as follows:

“Electric distribution grid transformation project” means a project associated with electric distribution infrastructure, including related data analytics equipment, that is designed to accommodate or facilitate the integration of utility-owned or customer-owned renewable electric generation resources with the utility’s electric distribution grid or to otherwise enhance electric distribution grid reliability, electric distribution grid security, customer service, or energy efficiency and conservation, including advanced metering infrastructure; intelligent grid devices for real time system and asset information; automated control systems for electric distribution circuits and substations; communications networks for service meters; intelligent grid devices and other distribution equipment; distribution system hardening projects for circuits, other than the conversion of overhead tap lines to underground service, and substations designed to reduce service outages or service restoration times; physical security measures at key distribution substations; cyber security measures; energy storage systems and microgrids that support circuit-level grid stability, power quality, reliability, or resiliency or provide temporary backup energy supply; electrical facilities and infrastructure necessary to support electric vehicle charging systems; LED street light conversions; and new customer information platforms designed

to provide improved customer access, greater service options, and expanded access to energy usage information.

6. Subsection A 6 sets forth the standard for Commission review of a plan for electric distribution grid transformation projects:

In ruling upon such a petition, the Commission shall consider whether the utility's plan for such projects, and the projected costs associated therewith, are reasonable and prudent. Such petition shall be considered on a stand-alone basis without regard to the other costs, revenues, investments, or earnings of the utility; without regard to whether the costs associated with such projects will be recovered through a rate adjustment clause under this subdivision or through the utility's rates for generation and distribution services; and without regard to whether such costs will be the subject of a customer credit offset, as applicable, pursuant to subdivision 8 d.

7. Subsection A 6 also finds that electric distribution grid transformation projects are in the public interest.

8. In accordance with Subsection A 6, the Commission must issue its final order on a petition for approval of an electric distribution grid transformation plan not more than six months after the date of filing the petition.

III. The Grid Transformation Plan

9. Fundamental changes in the energy industry have prompted the need for electric utilities across the country to modernize their distribution grids. There is a paradigm shift that is creating a new set of current and future needs that must be addressed. The Virginia General Assembly recognized this need when it enacted the GTSA in 2018, establishing objectives for grid transformation and finding such projects to be in the public interest. Policy and market developments since then only accelerate the need for a modern distribution grid.

10. The Grid Transformation Plan is Dominion Energy Virginia's comprehensive plan to address these needs and meet the goals and objectives for grid transformation in a

reasonable, prudent, and cost-effective manner. The Company presents the executive summary of its Grid Transformation Plan (the “GT Plan Document”) as Exhibit 1 to this Petition. The GT Plan Document explains the need for a modern distribution grid, including industry developments supporting the continuing need for grid transformation. The GT Plan Document then reviews the Company’s distribution planning process and explains how that process is evolving to meet the fundamental changes in the industry through integrated distribution planning. With this context, the GT Plan Document then presents an overview of the Grid Transformation Plan, including the process that led to its development. Finally, the GT Plan Document includes a quick-reference acronym list and glossary of terms used in the GT Plan Document itself and throughout this filing.

11. The Commission approved certain projects in Phase I of the Grid Transformation Plan—the years 2019, 2020, and 2021—in Case Nos. PUR-2018-00100 and PUR-2019-00154. In addition, the Commission approved certain projects in Phase II of the Grid Transformation plan—the years 2022 and 2023—in Case No. PUR-2021-00127. The Commission also approved certain projects in Phase III of the Grid Transformation plan in Case No. PUR-2023-00051. The Company provides a status update on the successes of these projects to date, as applicable to this proceeding. Additionally, pursuant to the Commission’s directive in the Phase III Final Order,² included as Exhibit 2 to the Petition is the Company’s Annual Report on the Grid Transformation Plan.

12. In this Petition, the Company focuses on Phase IIIB, specifically, additional investments in the years 2024, 2025, and 2026. Phase IIIB of the Grid Transformation Plan

² Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia, Case No. PUR-2023-00051, Final Order (Sept. 18, 2023) (“Phase III Final Order”).

includes the continuation of two projects, mainfeeder hardening and the new outage management system (“OMS”). The Company proposes to continue the mainfeeder hardening project on 20 additional feeders in the years 2025 through 2026. The Company also seeks approval for mainfeeder hardening work that it undertook on three (3) mainfeeders in 2024. For the mainfeeders not yet approved and worked in 2024, the Company used the same reliability criteria that it used to select the previously approved projects, then selected 23 additional mainfeeders from the targeted mainfeeder hardening list, serving 62,789 customers and consisting of approximately 161 miles. All projects selected or proposed for Phase IIIB utilized the same selection criteria as outlined in Phase I.

13. The Company also proposes the continued implementation of the new outage management system (“OMS”) previously approved in Case No. PUR-2023-00051. This OMS solution aims to leverage field condition information from our intelligent grid devices, automated restoration schemes (i.e., fault location, isolation, and system restoration (FLISR)), smart meters, and system models. The goal is to provide more accurate and timely outage event analysis, efficiently manage outage restoration activities, and improve communication of outage restoration information to our customers and other emergency responders at the state and local levels. Enhancements to the previously approved OMS include expansion into a mobile platform, a module for customer outage texting, additional damage collection functionality, enhanced visibility and integration, increased consulting and technical support, expanded reporting capabilities, and the creation of Disaster Recovery, Training and Development environments. These enhancements will enable the Company’s new OMS to consolidate real-time operational information into a modern technology solution that improves user efficiency and situational awareness, emphasizes public and employee safety, and provides timely customer

restoration information. The new OMS will deliver an exceptional customer experience and reinforce the Company's commitment to operational excellence.

14. In Phase IIIB, the Company also requests approval of one new project, a remote sensing, image management and analytical program ("iMAP"). Remote sensing is the acquisition of information about the Company's electric distribution assets using digital technology and without making physical contact. iMAP consists of two components: (i) a foundational platform which is a Company-managed cloud-based system hosted by an industry standard cloud solution to centrally store, manage, and analyze remotely sensed data; and (ii) analytical solutions, which would be a combination of third party and Company proprietary analytics to enable operational use cases (right of way ("ROW") encroachment, asset condition assessments etc.) for electric distribution. These solutions would be integrated into the foundational platform to solve business problems and drive operational efficiency to benefit the Company's customers. As part of Phase IIIB of the GT Plan, the Company is requesting approval to stand up the foundational platform and deploy three individual technology pilots. iMAP will help to reduce trips to the field to scope projects, provide better information for work planning, identify failing equipment before causing an outage, and allow for more effective decision making around repairs and replacements.

15. All the projects proposed in Phase IIIB fall within the definition of an "electric distribution grid transformation project" as defined in Va. Code § 56-576 and, thus, are deemed to be in the public interest.

16. Section IV.B of the GT Plan Document provides an overview of the need, benefits, and alternatives considered for each project, among other relevant information. More information on each project, including the information required by the Rate Case Rules, is

provided by the sponsoring Company witness. The total proposed investment associated with Phase IIIB of the GT Plan is approximately \$278.3 million in capital investment and \$4.5 million in operations and maintenance investments. Company Witness Elizabeth B. Lecky presents an estimated long-term revenue requirement for the proposed Phase IIIB projects, as required by the Rate Case Rules.

17. The Company retained an independent, experienced, third-party partner, West Monroe Partners (“West Monroe”), to generate a cost-benefit analysis for the Grid Transformation Plan. Company Witness William H. Ludlow of West Monroe presents testimony explaining that analysis and presenting the results. As summarized in Figure 6 in Section IV.E of the GT Plan Document, the proposed investments are beneficial to customers, with a benefit to cost ratio of 1.01 on a net present value basis.

18. The Company has also engaged a third-party consultant to evaluate the one Phase IIIB grid transformation project that will require at least some work in communities and will use the results of this evaluation to inform its environmental justice strategy as it relates to the GT Plan. The Environmental Justice Report is included as Company Witness David F. Walker Direct Schedule 2.

IV. Supporting Testimony, Filing Schedule 46, and Request for Limited Waivers

19. In support of its Petition, the Company submits the pre-filed direct testimonies of Company Witnesses Augustus Johnson, IV, David F. Walker, Sylvia D. White, Kathleen D. Staples, William H. Ludlow, and Elizabeth B. Lecky.

20. Rule 40 of the Rate Case Rules provides that a prudence determination petition pursuant to Chapter 23 of Title 56 “shall include Schedule 46 as identified and described in 20

VAC 5-204-90, and which shall be submitted with the utility's direct testimony." With this petition, the Company is submitting Filing Schedule 46 as follows:

- a. Filing Schedule 46A consists of Statements 1 through 2. Filing Schedule 46A, Statements 1 and 2, are co-sponsored by Company Witnesses Johnson, Walker, Staples, and White. Filing Schedule 46A, Statement 1, provides a table showing where the Company has provided a detailed explanation of the justification for the proposed costs for which it seeks a prudence determination in Phase IIIB. Filing Schedule 46A, Statement 2, provides schedules of these projected and actual costs by type of cost and year, and by project.³
- b. Filing Schedule 46B, Statement 1, is sponsored by Company Witness Walker. Schedule 46B, Statement 1, provides key documents supporting the projected and actual costs for mainfeeder hardening.
- c. Filing Schedule 46B, Statement 2, is sponsored by Company Witness White. Schedule 46B, Statement 2, provides key documents supporting the projected and actual costs for the OMS.
- d. Filing Schedule 46B, consisting of Statement 3, is sponsored by Company Witness Staples. Schedule 46B, Statement 3, provides key documents supporting the projected and actual costs of IMAP.
- e. Filing Schedule 46C, consisting of Statement 1, is sponsored by Company Witness Ludlow. This statement provides documentation of the results of the cost-benefit analysis model for the GT Plan—a document supporting the projected and actual costs for which the Company seeks approval in this proceeding.
- f. Filing Schedule 46D, consisting of Statements 1 and 2, is sponsored by Company Witness Lecky. Filing Schedule 46D, Statement 1, provides the estimated annual revenue requirement over the duration of the proposed Phase IIIB projects, by year and by project, on a total company basis. Filing Schedule 46D, Statement 2, provides a list of the workpapers that provide supporting calculations and assumptions for the estimated annual revenue. The Company requests to file these workpapers electronically for the reasons set forth below.

21. The Company, for good cause shown and pursuant to Rate Case Rule 10 E, respectfully requests that the Commission waive, in part, the requirements under Rule 40 and 90 of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials.

³ The Company does not have this information available by month at this time.

Specifically, the Rate Case Rules require the Company to provide key documents supporting the projected and actual costs of the proposed projects, such as support used by senior management for major cost decisions as determined by the applicant, contracts, results from requests for proposals, and cost-benefit analyses.⁴ The supporting documentation responsive to this requirement is voluminous and, often, not easily reviewed in hard copy (*i.e.*, paper) format. Accordingly, and consistent with waivers previously granted by this Commission, the Company seeks waiver of the requirement to file multiple hard copies of this information. Instead, the Company proposes to file one hard copy of this supporting documentation accompanied by three compact discs (“CDs”) with this documentation in electronic format. The Company will then make this supporting documentation available in electronic format to Commission Staff and any other future case participant via an electronic discovery site (“eRoom”) established for this proceeding contemporaneously with this filing, with immediate access available to Commission Staff. This request is consistent with the Commission’s recent orders granting similar limited waivers.⁵ Should the Commission deny this request, the Company asks for a reasonable allowance of time to print the requisite filing copies of this material and submit it to the Commission prior to the Company’s petition being deemed incomplete.

22. Further, for good cause shown and pursuant to Rate Case Rule 10 E, the Company respectfully requests that the Commission waive, in part, the requirements under Rate Case Rules 40 and 90 with respect to paper copies of supporting calculations for the estimated annual revenue requirement required as part of Filing Schedule 46. The Rate Case Rules require the Company to provide the estimated annual revenue requirement over the duration of the proposed

⁴ 20 VAC 5-204-90, Schedule 46.d.1.ii.

⁵ See *e.g.*, *Petition of Virginia Electric and Power Company, For approval of its 2024 RPS Development Plan under § 56-585.5 D 4 of the Code of Virginia and related requests*, Case No. PUR-2024-00147, Order on Motions at 5-6 (Sept. 12, 2024).

project by year and by project, “including all supporting calculations and assumptions.”⁶ The Company has included the estimated long-term revenue requirement by project and by year as part of Schedule 46D, Statement 1. The calculations supporting the estimated annual revenue requirement calculation, however, are completed in Microsoft Excel, involve multiple worksheets and lines of data, and include formulas to complete the calculations. These workpapers are not easily converted to a printable version, and not easily reviewed in hard copy (*i.e.*, paper) format. For example, in hard copy, a reviewer cannot easily see the formulas and calculations embedded in the Excel worksheets and how they interact. Accordingly, the Company seeks waiver of the requirement to file these workpapers in hard copy. Instead, the Company proposes to file three compact discs (“CDs”) with these workpapers in electronic format. The Company will then make these documents available via an eRoom contemporaneously with this filing, with immediate access available to Commission Staff. This request is consistent with the Commission’s order in the Company’s last GT Plan prudence determination proceeding granting a similar limited waiver.⁷ It is also consistent with the nature of the requests in this Petition, which do not involve requests for cost recovery. Should the Commission deny this request, the Company asks for a reasonable allowance of time to print the requisite filing copies of this material and submit it to the Commission prior to the Company’s petition being deemed incomplete.

⁶ 20 VAC 5-204-90, Schedule 46.d.2.ii.

⁷ See *Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2023-00051, Order for Notice and Hearing at 3-4, 15 (Apr. 21, 2023) [hereinafter *2023 Procedural Order*].

V. Request for Confidential Treatment and Additional Protective Treatment for Extraordinarily Sensitive Information

23. The documents accompanying the Company's Petition contain confidential and extraordinarily sensitive information as designated. Accordingly, in compliance with Rate Case Rule 10 F and Rule 170 of the Commission's Rules of Practice and Procedure,⁸ this Petition is accompanied by a contemporaneously-filed Motion for Entry of a Protective Order and Additional Protective Treatment, including a Proposed Protective Order.

VI. Compliance with Rule 10 of the Rate Case Rules

24. The Company's Petition complies with the requirements contained in Rule 10 of the Rate Case Rules.

25. In accordance with Rule 10 A, Dominion Energy Virginia filed with the Commission its notice of intent to file this Petition on December 2, 2024, and provided that notice to those listed in Rule 10 J 1, as required by that subsection.

26. The Company has included all information required by Rule 10 B in its Petition, including a table of contents, direct testimonies with one-page summaries, and properly labeled exhibits and schedules.

27. In accordance with Rule 10 H, the Company will make a searchable PDF version of the Petition, direct testimonies, and Filing Schedule 46 available via an eRoom contemporaneously with this filing, with immediate access available to (i) Commission Staff, including identified members of the Divisions of Utility Accounting and Finance and Public Utility Regulation; and (ii) identified members of the Office of the Attorney General's Division of Consumer Counsel ("Consumer Counsel").⁹ Also in accordance with Rule 10 H, the

⁸ 20 VAC 5-204-10 F; 5 VAC 5-20-170.

⁹ Rule 10 J 3 requires the Company to provide a copy of the complete version of the Petition to Consumer Counsel at the same time it is filed with the Commission. As noted, pursuant to Rule 10 H, the Company will make a

Company will make electronic spreadsheets supporting the schedules that contain calculations available via an eRoom contemporaneously with this filing, with immediate access available to Commission Staff.

VII. Request Regarding Discovery Deadline

28. Finally, the Company respectfully requests that the Commission allow all parties to the proceeding to have at least five to seven business days from receipt to respond to interrogatories or requests for production of documents. Measuring the discovery deadline in business days is consistent with the Commission's Rules of Practice and Procedure,¹⁰ and accounts for intervening weekends and holidays. In addition, based on past experience, this proceeding likely will have a significant amount of discovery; allowing at least five to seven business days would enable the Company to better provide timely and complete responses. This request is consistent with the discovery timeline permitted in prior proceedings.¹¹

VIII. Conclusion

WHEREFORE, Dominion Energy Virginia respectfully requests that the Commission:

- (i) approve Phase IIIB of the Grid Transformation Plan in its entirety as reasonable and prudent within six months of the date of this filing;
- (ii) grant the waiver requests outlined in this Petition;
- (iii) grant the request for a discovery deadline of at least five to seven business days from receipt;
- and (iv) grant such other relief as deemed appropriate and necessary.

Respectfully submitted,

Virginia Electric and Power Company

searchable PDF version of the Petition, direct testimonies, and Filing Schedule 46 available via an eRoom contemporaneously with this filing, with immediate access available to Consumer Counsel. The Company can provide a hard copy of the Petition to Consumer Counsel upon request to counsel.

¹⁰ 5 VAC 5-20-140, -260 (setting the default rule at 10 business days for responses).

¹¹ See 2023 Procedural Order at 15 (setting the discovery timeline for responses at five business days.)

PETITION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2025-00051

For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia

ORDER FOR NOTICE AND HEARING

On March 24, 2025, Virginia Electric and Power Company (“Dominion” or “Company”) filed a petition with the State Corporation Commission (“Commission”) for approval of a plan for electric distribution grid transformation projects (“Petition”) pursuant to § 56-585.1 A 6 of the Code of Virginia (“Code”).¹ Specifically, Dominion seeks approval of Phase IIIB of its plan to transform its electric distribution grid (“GT Plan”), which consists of proposed projects in 2024, 2025, and 2026, as well as work performed in prior years for certain Phase IIIB projects.²

Dominion states that Phase IIIB of the GT Plan includes the continuation of two projects: (i) mainfeeder hardening and (ii) the outage management system (“OMS”).³ The Company seeks approval for mainfeeder hardening work it undertook on three mainfeeders in 2024 and proposes to continue the mainfeeder hardening project on 20 additional feeders in 2025 and

¹ Pursuant to statute, the Commission’s Final Order in this matter must be entered not more than six months from the date the Petition is filed. *See* Code § 56-585.1 A 6.

² Petition at 1. In prior cases, the Commission has approved certain projects for other phases of the GT Plan, including: Phase I and Phase IB for years 2019-2021; Phase II for years 2022-2023; and Phase III, for years 2024-2026. *See id.* at 5.

³ *Id.* at 5-6.

2026.⁴ The Company proposes an additional \$234.7 million of capital investment in mainfeeder hardening as part of Phase IIIB of the GT Plan.⁵

The Company also proposes to continue deployment of its OMS, which was previously approved in Case No. PUR-2023-00051, with the addition of enhanced capabilities and expanded functionality.⁶ According to Dominion, since first receiving approval of the OMS, the Company has identified additional requirements necessary to achieve the expected customer benefits, meet minimum functionality standards for operational excellence, and further secure the OMS against cyber security threats.⁷ Enhancements to the previously approved OMS would include expansion into a mobile platform, a module for customer outage texting, additional damage collection functionality, enhanced visibility and integration, increased consulting and technical support, expanded reporting capabilities, and the creation of disaster recovery, training and development environments.⁸ The Company asserts these enhancements would enable its OMS to improve user efficiency and situational awareness, emphasize public and employee safety, and provide timely customer restoration information.⁹ The Company proposes an additional \$19.1 million in capital investment and \$1.5 million in operations and maintenance (“O&M”) expenses for OMS as part of Phase IIIB of the GT Plan.¹⁰

⁴ *Id.* at 6.

⁵ *Id.* at Exhibit 1, p. 31.

⁶ *Id.*; Direct Testimony of Company witness Johnson at 14; *Petition of Virginia Electric and Power Company, For approval of a plan for electric distribution grid transformation projects pursuant to § 56-585.1 A 6 of the Code of Virginia*, Case No. PUR-2023-00051, 2023 S.C.C. Ann. Rept. 418, Final Order (Sept. 18, 2023).

⁷ Direct Testimony of Company witness White at 3.

⁸ *Id.* at 4; Petition at 6.

⁹ Petition at 6-7.

¹⁰ *Id.* at Exhibit 1, p. 31.

Dominion also requests approval of one new project in conjunction with Phase IIIB: a remote sensing, image management and analytical program (“iMAP”) to acquire information about the Company’s electric distribution assets using digital technology and without making physical contact.¹¹ The Company states that iMAP consists of two components: (i) a foundational platform which is a Company-managed cloud-based system hosted by an industry standard cloud solution to centrally store, manage, and analyze remotely sensed data; and (ii) analytical solutions, which would be a combination of third-party and Company proprietary analytics to enable operational use cases for electric distribution.¹² The Company is requesting approval to stand up the foundational platform and deploy three individual technology pilots.¹³ According to Dominion, iMAP would help to reduce trips to the field to scope projects, provide better information for work planning, identify failing equipment before it caused an outage, and allow for more effective decision making around repairs and replacements.¹⁴ The Company proposes \$24.4 million of capital investment and \$3.0 million of O&M expenses for iMAP as part of Phase IIIB of the GT Plan.¹⁵

In total, the proposed cost associated with Phase IIIB of the GT Plan is approximately \$278.3 million in capital investment and \$4.5 million in O&M expenses.¹⁶

¹¹ *Id.* at 7.

¹² *Id.*

¹³ *Id.*

¹⁴ *Id.*

¹⁵ *Id.* at Exhibit 1, p. 31.

¹⁶ *Id.* at 8.

The Company also represents that, in preparing the GT Plan, it evaluated each proposed project to determine whether there were any environmental justice concerns.¹⁷

Pursuant to Rule 20 VAC 5-204-10 E of the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities ("Rate Case Rules"),¹⁸ Dominion requests limited waivers of the requirements under Rules 20 VAC 5-204-40 ("Rule 40") and 20 VAC 5-204-90 ("Rule 90") with respect to paper copies of certain Schedule 46 materials.¹⁹

First, Schedule 46 requires the Company, in part, to provide key documentation supporting the projected and actual costs of the proposed projects (such as contracts, results from requests for proposals, and materials used by senior management for major cost decisions).²⁰ According to the Company, the documents responsive to these requirements are voluminous and often not easily reviewed in hard copy (i.e., paper) format.²¹ The Company therefore seeks waiver of the requirement to file multiple hard copies and instead proposes to file one hard copy and three compact discs of this information, consistent with prior practice.²² Dominion states it

¹⁷ *Id.* at Exhibit 1, p. 16. Dominion states that two of the grid transformation projects proposed for Phase IIIB, the OMS and iMAP, do not have physical components that could cause environmental consequences. *Id.* at Exhibit 1, p. 17. Dominion asserts that a third-party consultant will evaluate the third proposed project, mainfeeder hardening, to inform the Company's environmental justice strategy. *Id.*

²⁰ *See* Rule 90 at Sch. 46(d)(1)(ii).

²¹ Petition at 10.

²² *Id.*

will also make the documents available to case participants in electronic format via its electronic discovery site.²³

Next, Dominion requests that the Commission waive, in part, the requirements under Rule 40 and Rule 90 with respect to paper copies of supporting calculations for the estimated annual revenue requirement required as part of Schedule 46.²⁴ Schedule 46 directs the Company to provide the estimated annual revenue requirement over the duration of the proposed project by year and by project, including all supporting calculations and assumptions.²⁵ Dominion states that it has included the estimated long-term revenue requirement by project and by year, but that the calculations supporting the estimated annual revenue requirement are completed in Microsoft Excel, involve multiple worksheets and formulas to complete, and are not easily converted to a printable version or reviewed in hard copy format.²⁶ Accordingly, the Company seeks waiver of the requirement to file these workpapers in hard copy and instead proposes to provide three compact discs, consistent with prior practice.²⁷ Dominion states it will also make the documents available to case participants in electronic format via its electronic discovery site.²⁸

Finally, in conjunction with the filing of its Petition, on March 24, 2025, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Order and Additional Protective Treatment (“Motion for Protective Ruling”) and a proposed protective

²³ *Id.*

²⁸ *Id.*

order suggesting procedures for the use of confidential and extraordinarily sensitive information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; Dominion should provide public notice of its Petition; hearings should be scheduled for the purpose of receiving testimony from public witnesses and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or to participate as respondents in this proceeding; and Commission Staff ("Staff") should be directed to investigate the Petition and file testimony and exhibits containing its findings and recommendations thereon. We also find that a Hearing Examiner should be appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations.

Further, for purposes of making the Petition complete and commencing this proceeding, we find that Dominion's requests for limited waivers described herein should be granted.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

- (1) This case is docketed and assigned Case No. PUR-2025-00051.
- (2) All pleadings in this matter shall be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure

(“Rules of Practice”).²⁹ Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk’s Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Motion for Protective Ruling and filing a final report. A copy of each filing made with the Commission’s Clerk’s Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.³⁰

(5) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Company’s Petition, as follows:

²⁹ 5 VAC 5-20-10 *et seq.*

³⁰ Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

- (a) A hearing for the receipt of testimony from public witnesses on the Company's Petition shall be convened telephonically at 10 a.m. on July 14, 2025.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before July 7, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting/; or (ii) by calling (804) 371-9141 to register.
- (d) Beginning at 10 a.m. on July 14, 2025, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting/.

(6) The evidentiary portion of the hearing on the Petition shall be convened at 10 a.m. on July 14, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and the Staff.

(7) An electronic copy of the public version of the Company's Petition may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons may also download unofficial copies from the Commission's website: scc.virginia.gov/case-information/.

(8) On or before May 9, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC OF THE PETITION OF
 VIRGINIA ELECTRIC AND POWER COMPANY
 D/B/A DOMINION ENERGY VIRGINIA
 FOR APPROVAL OF A PLAN FOR ELECTRIC
 DISTRIBUTION GRID TRANSFORMATION PROJECTS
 PURSUANT TO § 56-585.1 A 6 OF THE CODE OF VIRGINIA
CASE NO. PUR-2025-00051

On March 24, 2025, Virginia Electric and Power Company (“Dominion” or “Company”) filed a petition with the State Corporation Commission (“Commission”) for approval of a plan for electric distribution grid transformation projects (“Petition”) pursuant to § 56-585.1 A 6 of the Code of Virginia (“Code”). Specifically, Dominion seeks approval of Phase IIIB of its plan to transform its electric distribution grid (“GT Plan”), which consists of proposed projects in 2024, 2025, and 2026, as well as work performed in prior years for certain Phase IIIB projects.

Dominion states that Phase IIIB of the GT Plan includes the continuation of two projects: (i) mainfeeder hardening and (ii) the outage management system (“OMS”). The Company seeks approval for mainfeeder hardening work it undertook on three mainfeeders in 2024 and proposes to continue the mainfeeder hardening project on 20 additional feeders in 2025 and 2026. The Company proposes an additional \$234.7 million of capital investment in mainfeeder hardening as part of Phase IIIB of the GT Plan.

The Company also proposes to continue deployment of its OMS, which was previously approved in Case No. PUR-2023-00051, with the addition of enhanced capabilities and expanded functionality. According to Dominion, since first receiving approval of the OMS, the Company has identified additional requirements necessary to achieve the expected customer benefits, meet minimum functionality standards for operational excellence, and further secure the OMS against cyber security threats. Enhancements to the previously approved OMS would include expansion into a mobile platform, a module for customer outage texting, additional damage collection functionality, enhanced visibility and integration, increased consulting and technical support, expanded reporting capabilities, and the creation of disaster recovery, training and development environments. The Company asserts these enhancements would enable its OMS to improve user efficiency and situational awareness, emphasize public and employee safety, and provide timely customer restoration information. The Company proposes

an additional \$19.1 million in capital investment and \$1.5 million in operations and maintenance (“O&M”) expenses for OMS as part of Phase IIIB of the GT Plan.

Dominion also requests approval of one new project in conjunction with Phase IIIB: a remote sensing, image management and analytical program (“iMAP”) to acquire information about the Company’s electric distribution assets using digital technology and without making physical contact. The Company states that iMAP consists of two components: (i) a foundational platform which is a Company-managed cloud-based system hosted by an industry standard cloud solution to centrally store, manage, and analyze remotely sensed data; and (ii) analytical solutions, which would be a combination of third- party and Company proprietary analytics to enable operational use cases for electric distribution. The Company is requesting approval to stand up the foundational platform and deploy three individual technology pilots. According to Dominion, iMAP would help to reduce trips to the field to scope projects, provide better information for work planning, identify failing equipment before it caused an outage, and allow for more effective decision making around repairs and replacements. The Company proposes \$24.4 million of capital investment and \$3.0 million of O&M expenses for iMAP as part of Phase IIIB of the GT Plan.

In total, the proposed cost associated with Phase IIIB of the GT Plan is approximately \$278.3 million in capital investment and \$4.5 million in O&M expenses.

The Company also represents that, in preparing the GT Plan, it evaluated each proposed project to determine whether there were any environmental justice concerns.

Interested persons are encouraged to review the Petition and supporting documents in full for additional details.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled public hearings on Dominion’s Petition and assigned a Hearing Examiner to conduct all further proceedings in this matter on behalf of the Commission. A hearing for the receipt of testimony from public witnesses on the Company’s Petition shall be convened telephonically by the Hearing Examiner at 10 a.m. on July 14, 2025. On or before July 7, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you

wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting/; or (ii) by calling (804) 371-9141 to register. This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting/.

Beginning at 10 a.m. on July 14, 2025, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.

On July 14, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Hearing Examiner will convene a hearing to receive testimony and evidence related to the Petition from the Company, any respondents, and the Commission Staff ("Staff").

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

An electronic copy of the public version of the Company's Petition may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons may also download unofficial copies of the public version of the Petition and the public versions of other documents filed in this case from the Commission's website: scc.virginia.gov/case-information/.

On or before July 7, 2025, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2025-00051.

On or before May 23, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a

notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff electronically as described above. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00051. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing.

On or before June 10, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00051.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The public version of the Company's Petition, the Commission's Rules of Practice, the Commission's Order for

Notice and Hearing, and the public versions of other documents filed in the case may be viewed at: scc.virginia.gov/case-information/.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) The Company shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before May 23, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling.

(11) On or before July 7, 2025, any interested person may submit comments on the Petition by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00051.

(12) On or before May 23, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff as described in Ordering Paragraph (3). Pursuant to 5 VAC 5-20-80 B,

Participation as a respondent, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00051.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve upon the respondent a copy of the public version of the Petition and supporting materials, unless these materials already have been provided to the respondent.

(14) On or before June 10, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served on the Staff, the Company, and all other respondents as described in Ordering Paragraph (3). In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00051.

(15) The Staff shall investigate the Petition. On or before June 10, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof on counsel to the Company and all respondents as described in Ordering Paragraph (3).

(16) On or before June 24, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve a copy of its rebuttal testimony and exhibits on the Staff and all respondents as described in Ordering Paragraph (3).

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by Ordering Paragraph (2), all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within five (5) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to the Staff.³¹ Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) For purposes of making the Petition complete and commencing this proceeding, we grant Dominion's requests for limited waivers of the requirements under Rule 40 and Rule 90 of

³¹ The assigned Staff attorneys are identified on the Commission's website, scc.virginia.gov/case-information/, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00051, in the appropriate box.

the Rate Case Rules with respect to the filing of certain Schedule 46 materials, as discussed herein.

(20) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

COMMONWEALTH OF VIRGINIA, *ex rel.*

STATE CORPORATION COMMISSION

CASE NO. PUR-2025-00022

In re: Virginia Electric and Power Company's
Transportation Electrification Plan

ORDER FOR NOTICE AND HEARING

In 2020, recognizing that the increased deployment of motor vehicles powered by electricity (“electric vehicles” or “EVs”) could potentially affect the affordability and reliability of electricity service delivered to consumers by regulated utilities, the State Corporation Commission (“Commission”) established a docket, Case No. PUR-2020-00051, in which interested persons and entities were invited to file comments and participate in a public session regarding the increased deployment of electric vehicles.¹

The General Assembly subsequently enacted Chapter 268 of the 2021 Virginia Acts of Assembly, Special Session I, which directed the Commission to “submit a report to the General Assembly, no later than May 1, 2022, recommending policy proposals that could govern public electric utility programs to accelerate widespread transportation electrification in the Commonwealth.”² On April 29, 2022, the Commission submitted its report (“Report”) to the

¹ *Commonwealth of Virginia, ex rel., State Corporation Commission Ex Parte: Electrification of Motor Vehicles*, Case No. PUR-2020-00051, Doc. Con. Cen. No. 200330150, Order Establishing Proceeding Regarding Electric Vehicles (Mar. 24, 2020).

² 2021 Va. Acts ch. 268.

General Assembly.³ Among other things, and as stated in the Report, the Commission directed Virginia Electric and Power Company (“Dominion” or “Company”) and Appalachian Power Company (“APCo”) to file transportation electrification plans in Case No. PUR-2020-00051 on or before May 1, 2023.⁴ APCo and Dominion filed their respective transportation electrification plans on May 1, 2023.⁵ In an Order dated August 7, 2024 (“August 7 Order”), the Commission determined that APCo and Dominion should file updated transportation electrification plans in new and separate dockets on or before February 3, 2025, due to the passage of time since the original plans were filed.⁶ The utilities were directed to incorporate the impacts of any new and updated regulations promulgated since the original plans were filed and to comply with any prior requirements imposed by the Commission for the original plans.⁷

On February 3, 2025, pursuant to the directives in the August 7, 2024 Order in Case No. PUR-2020-00051, Dominion filed its updated transportation electrification plan (“Plan”) in the present docket. The Plan includes, among other things, the current status of transportation electrification in Dominion’s service territory, five-year EV peak demand and energy forecasts,

⁷ *Id.*

and the Company's near-term plan to support transportation electrification.⁸ The Plan also examines transportation electrification as part of system planning.⁹

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; Dominion should provide public notice of its Plan; hearings should be scheduled for the purpose of receiving testimony from public witnesses and evidence on the Plan; interested persons should have an opportunity to file comments on the Plan or to participate as respondents in this proceeding; and Commission Staff ("Staff") should be directed to investigate the Plan and file testimony and exhibits containing its findings and recommendations thereon. We also find that a Hearing Examiner should be appointed to conduct all further proceedings in this matter on behalf of the Commission, including filing a final report containing the Hearing Examiner's findings and recommendations.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This case is docketed and assigned Case No. PUR-2025-00022.

(2) All pleadings in this matter shall be submitted electronically to the extent authorized by 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure ("Rules of Practice").¹⁰ Confidential and Extraordinarily Sensitive Information shall not be

⁸ See Plan at 3-13.

⁹ *Id.* at 31-34.

¹⁰ 5 VAC 5-20-10 *et seq.*

submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) As provided by Code § 12.1-31 and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Rules of Practice, a Hearing Examiner is appointed to conduct all further proceedings in this matter on behalf of the Commission, including filing a final report. A copy of each filing made with the Commission's Clerk's Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.¹¹

(5) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Company's Plan, as follows:

- (a) A hearing for the receipt of testimony from public witnesses on the Company's Plan shall be convened telephonically at 10 a.m. on October 28, 2025.
- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.

¹¹ Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

- (c) On or before October 21, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting/; or (ii) by calling (804) 371-9141 to register.
- (d) Beginning at 10 a.m. on October 28, 2025, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting/.

(6) The evidentiary portion of the hearing on the Plan shall be convened at 10 a.m. on October 28, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony and evidence of the Company, any respondents, and the Staff.

(7) An electronic copy of the Company's Plan may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons may also download unofficial copies from the Commission's website: scc.virginia.gov/case-information/.

(8) On or before June 4, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

D/B/A DOMINION ENERGY VIRGINIA
CASE NO. PUR-2025-00022

In 2020, recognizing that the increased deployment of motor vehicles powered by electricity (“electric vehicles” or “EVs”) could potentially affect the affordability and reliability of electricity service delivered to consumers by regulated utilities, the State Corporation Commission (“Commission”) established a docket, Case No. PUR-2020-00051, in which interested persons and entities were invited to file comments and participate in a public session regarding the increased deployment of electric vehicles.

The General Assembly subsequently enacted Chapter 268 of the 2021 Virginia Acts of Assembly, Special Session I, which directed the Commission to “submit a report to the General Assembly, no later than May 1, 2022, recommending policy proposals that could govern public electric utility programs to accelerate widespread transportation electrification in the Commonwealth.” On April 29, 2022, the Commission submitted its report (“Report”) to the General Assembly. Among other things, and as stated in the Report, the Commission directed Virginia Electric and Power Company (“Dominion” or “Company”) and Appalachian Power Company (“APCo”) to file transportation electrification plans in Case No. PUR-2020-00051 on or before May 1, 2023. APCo and Dominion filed their respective transportation electrification plans on May 1, 2023. In an Order dated August 7, 2024, the Commission determined that APCo and Dominion should file updated transportation electrification plans in new and separate dockets on or before February 3, 2025, due to the passage of time since the original plans were filed. The utilities were directed to incorporate the impacts of any new and updated regulations promulgated since the original plans were filed and to comply with any prior requirements imposed by the Commission for the original plans.

On February 3, 2025, pursuant to the directives in the August 7, 2024 Order in Case No. PUR-2020-00051, Dominion filed its updated transportation electrification plan (“Plan”) in the present docket. The Plan includes, among other things, the current status of transportation electrification in Dominion’s service territory, five-year EV peak demand and energy forecasts, and the Company’s near-term plan to support transportation electrification.

The Plan also examines transportation electrification as part of system planning.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled public hearings on Dominion's Plan and assigned a Hearing Examiner to conduct all further proceedings in this matter on behalf of the Commission. A hearing for the receipt of testimony from public witnesses on the Company's Plan shall be convened telephonically by the Hearing Examiner at 10 a.m. on October 28, 2025. On or before October 21, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting/; or (ii) by calling (804) 371-9141 to register. This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting/.

Beginning at 10 a.m. on October 28, 2025, the Hearing Examiner will telephone sequentially each person who has signed up to testify as provided above.

On October 28, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Hearing Examiner will convene a hearing to receive testimony and evidence related to the Plan from the Company, any respondents, and the Commission Staff ("Staff").

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and required electronic service on parties to this proceeding.

An electronic copy of the Company's Plan may be obtained by submitting a written request to counsel for the Company: Jontille D. Ray, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or jray@mcguirewoods.com. Interested persons may also download unofficial copies of the Plan and the public version of other documents filed in this case from the Commission's website: scc.virginia.gov/case-information/.

On or before October 21, 2025, any interested person may submit comments on the Plan by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All such comments shall refer to Case No. PUR-2025-00022.

On or before July 16, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff electronically as described above. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00022. For additional information about participation as a respondent, any person or entity should obtain a copy of the Commission's Order for Notice and Hearing.

On or before September 9, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240,

Prepared testimony and exhibits. All filings shall refer to Case No. PUR-2025-00022.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Rules of Practice.

The Company's Plan, the Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and the public versions of other documents filed in the case may be viewed at: scc.virginia.gov/case-information/.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) On or before June 4, 2025, the Company shall serve a copy of this Order for Notice and Hearing on the following local officials, to the extent the position exists, in each county, city, and town in which the Company provides service in the Commonwealth of Virginia: the chairman of the board of supervisors of each county; the mayor or manager (or equivalent official) of every city and town; and the county, city, or town attorney. Service shall be made electronically where possible; if electronic service is not possible, service shall be made by either personal delivery or first-class mail to the customary place of business or residence of the person served.

(10) On or before June 25, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and electronic mail address (if applicable) of each official served, with the Clerk of the Commission at scc.virginia.gov/clk/efiling.

(11) On or before October 21, 2025, any interested person may submit comments on the Plan by following the instructions found on the Commission's website: scc.virginia.gov/case-information/submit-public-comments. Those unable, as a practical matter, to submit comments

electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00022.

(12) On or before July 16, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at scc.virginia.gov/clk/efiling. Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation on counsel to the Company, any other respondents and Staff as described in Ordering Paragraph (3). Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00022.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve upon the respondent a copy of the Plan and supporting materials, unless these materials already have been provided to the respondent.

(14) On or before September 9, 2025, each respondent may file with the Clerk of the Commission, at scc.virginia.gov/clk/efiling, any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and

exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. A copy of all testimony and exhibits shall be served on the Staff, the Company, and all other respondents as described in Ordering Paragraph (3). In all filings, respondents shall comply with the Rules of Practice, as modified herein, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00022.

(15) The Staff shall investigate the Plan. On or before September 23, 2025, the Staff shall file with the Clerk of the Commission its testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof on counsel to the Company and all respondents as described in Ordering Paragraph (3).

(16) On or before October 7, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve a copy of its rebuttal testimony and exhibits on the Staff and all respondents as described in Ordering Paragraph (3).

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by Ordering Paragraph (2), all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of

documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to the Staff.¹² Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

¹² The assigned Staff attorneys are identified on the Commission's website, scc.virginia.gov/case-information/, by clicking "Docket Search," then clicking "Search by Case Information," and entering the case number, PUR-2025-00022, in the appropriate box.

Petition of Virginia Electric and Power Company for revision of rate adjustment clause:
Rider CCR, for recovery of costs incurred to comply with § 10.1-1402.03 of the Code of
Virginia, pursuant to § 56-585.1 A 5 e
Case No. PUR-2025-00063

To: Local Government Officials

Pursuant to the State Corporation Commission of Virginia's April 29, 2025 *Order for Notice and Hearing* ("Order"), the Company is providing you a copy of its Petition filed on April 4, 2024, as well as the Order. Please take notice of their contents.

An electronic copy of the Company's Petition may be obtained by submitting a written request to counsel for the Company, Elaine S. Ryan, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or eryan@mcguirewoods.com.

**VIRGINIA ELECTRIC AND POWER COMPANY'S
RIDER CCR ANNUAL UPDATE FILING AND REQUEST FOR LIMITED WAIVER**

Pursuant to § 56-585.1 A 5 e (“Subsection A 5 e” or “A 5 e”) of the Code of Virginia (“Va. Code”) and the Commission’s Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities (the “Rate Case Rules”),¹ Virginia Electric and Power Company (“Dominion Energy Virginia” or the “Company”), by counsel, hereby submits this annual update filing with respect to its coal combustion residuals (“CCR”) rate adjustment clause (“RAC” or “Rider”), designated Rider CCR (“2025 Annual Update” or “Update”) for the recovery of costs incurred to comply with the requirements of Virginia Senate Bill 1355² (as to the statutory requirements generally, “SB 1355”) codified as Va. Code § 10.1-1402.03.

The Company further requests limited waiver of certain of the Rate Case Rules. Specifically, pursuant to Rule 10 E of the Rate Case Rules, 20 VAC 5-204-10 E, and for the reasons stated herein, the Company requests a limited waiver of the requirements of Rule 90 of the Rate Case Rules, 20 VAC 5-204-90, with respect to portions of Filing Schedule 46 as it relates to the provision of “economic analyses, contracts, studies, investigations, results from

¹ 20 VAC 5-204-10 *et seq.*

² Virginia Acts of Assembly, 2019 Session, Chapter 651 (approved March 19, 2019; effective July 1, 2019).

requests for proposals, cost benefit analyses” It also requests waiver of Filing Schedules 3-5, which pertain to the 2024 capital structure being litigated in the Company’s pending biennial review proceeding.

In support of its petition and request for limited waiver (collectively, the “Petition”), the Company respectfully shows as follows:

GENERAL INFORMATION

1. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional customers in Virginia and to the public in portions of North Carolina. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is also a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc. (“Dominion Energy”).

2. The Company’s post office address is:

Virginia Electric and Power Company
120 Tredegar Street
Richmond, Virginia 23219

3. The addresses and telephone numbers of the attorneys for the Company are:

(804) 775-4758 (ASH)

BACKGROUND

4. Subsection A 5 e permits utilities to petition the Commission for approval of a RAC to recover the costs of compliance with state and environmental laws and regulations.

Specifically, it provides in relevant part:

A utility may at any time, after the expiration or termination of capped rates, but not more than once in any 12-month period, petition the Commission for approval of one or more rate adjustment clauses for the timely and current recovery from customers of . . . [p]rojected and actual costs of projects that the Commission finds to be necessary . . . to comply with state or federal environmental laws or regulations applicable to generation facilities used to serve the utility's native load obligations.

5. Subsection A 5 e provides further: "The Commission shall approve such petition if it finds that such costs are necessary to comply with such laws or regulations"

6. SB 1355 imposes certain environmental compliance obligations on the Company and permits utilities to petition the Commission for approval of a RAC under the provisions of Subsection A 5 e to recover costs incurred to comply with these requirements. Specifically, it provides:

All costs associated with closure of a CCR unit in accordance with this section shall be recoverable through a rate adjustment clause authorized by the State Corporation Commission under the provisions of subdivision A 5 e of § 56-585.1, provided that (i) when determining the reasonableness of such costs the Commission shall not consider closure in place of the CCR unit as an option; (ii) the annual revenue requirement recoverable through a rate adjustment

clause authorized under this section, exclusive of any other rate adjustment clauses approved by the Commission under the provisions of subdivision A 5 e of § 56-585.1, shall not exceed \$225 million on a Virginia jurisdictional basis for the Commonwealth in any 12-month period, provided that any under-recovery amount of revenue requirements incurred in excess of \$225 million in a given 12-month period, limited to the under-recovery amount and the carrying cost, shall be deferred and recovered through the rate adjustment clause over up to three succeeding 12-month periods without regard to this limitation, and with the length of the amortization period being determined by the Commission; (iii) costs may begin accruing on July 1, 2019, but no approved rate adjustment clause charges shall be included in customer bills until July 1, 2021; (iv) any such costs shall be allocated to all customers of the utility in the Commonwealth as a non-bypassable charge, irrespective of the generation supplier of any such customer; and (v) any such costs that are allocated to the utility's system customers outside of the Commonwealth that are not actually recovered from such customers shall be included for cost recovery from jurisdictional customers in the Commonwealth through the rate adjustment clause.

7. On October 26, 2021, by its Final Order in Case No. PUR-2021-00045,³ the Commission approved the Company's Petition for a rate adjustment clause, designated Rider CCR, pursuant to Subsection A 5 e for the recovery of costs associated with certain environmental projects involving CCR removal at the Company's Bremono Power Station, Chesterfield Power Station, Possum Point Power Station, and Chesapeake Energy Center (as applied to the Bremono, Chesterfield, and Possum Point Power Stations, and the Chesapeake Energy Center, the "Power Stations;" and as to the respective or collective CCR projects at those Power Stations, the "CCR Projects" or "Projects").

8. Most recently, the Company filed its 2024 Annual Update to Rider CCR on March 5, 2024 in Case No. PUR-2024-00029 ("2024 Annual Update"), which provided updates

³ *Petition of Virginia Electric and Power Company For approval of a rate adjustment clause, designated Rider CCR, for the recovery of costs incurred to comply with § 10.1-1402.03 of the Code of Virginia, pursuant to Virginia Code § 56-585.1 A 5 e*, Case No. PUR-2021-00045, Order Approving Rate Adjustment Clause (Oct. 26, 2021) ("2021 Final Order").

on CCR Projects that were ongoing or had been completed at the Power Stations. The Commission approved the Company's Petition by its Final Order issued on November 4, 2024.⁴

9. The Company files this annual Rider CCR Update to inform the Commission of the status of the CCR Projects located at the Power Stations, and to provide the proposed cost allocation, rate design, and accounting treatment for service rendered during a proposed rate year commencing January 1, 2026 and extending through December 31, 2026 ("Rate Year") as related to the proposed Rider CCR. The Company also reports on certain operational and financial milestones and other Project information as directed by the Commission in previous proceedings.

10. As in the Company's prior filings, the Company seeks to recover actual and projected cash expenditures associated with the CCR Projects.

REPORT ON OPERATIONAL AND FINANCIAL MILESTONES AND OTHER PROJECT INFORMATION

11. In previous Annual Update proceedings, the Commission ordered the Company to report on certain data points as part of its annual Rider CCR update filings, including operational and financial milestones and other project information.⁵ Company Witness Spencer B. Adkins explains the data required to be provided and includes a matrix that addresses these reporting requirements for this Rider CCR Update as his Schedule 1. He also provides a table identifying key project milestones.

⁴ *Petition of Virginia Electric and Power Company For revision of rate adjustment clause: Rider CCR, for the recovery of costs incurred to comply with § 10.1-1402.03 of the Code of Virginia, pursuant to Code § 56-585.1 A 5 e*, Case No. PUR-2024-00029, Final Order ("2024 Final Order").

⁵ *Petition of Virginia Electric and Power Company For revision of rate adjustment clause: Rider CCR, for the recovery of costs incurred to comply with § 10.1-1402.03 of the Code of Virginia, pursuant to Code § 56-585.1 A 5 e*, Case No. PUR-2022-00033, Final Order at Ordering Paragraph (5) ("2022 Final Order"); 2021 Final Order at Ordering Paragraph (6).

PROJECT AND EXPENDITURES UPDATE

A. Bremo Power Station

12. Company Witness Spencer B. Adkins provides the status of construction for the CCR removal project at the Bremo Power Station. Since the 2024 Rider CCR proceeding, the Company has continued to work to obtain all necessary permits to allow construction of the new landfill. The most significant of these permits is the Solid Waste Permit (“SWP”), Parts A and B. On November 12, 2024, the Virginia Department of Environmental Quality (“VDEQ”) notified the Company that all requirements of SWP Part A have been completed. Additionally, after several rounds of comments with the VDEQ regarding the SWP Part B, the Company received the approved draft SWP Part B letter on March 12, 2025. The VDEQ has scheduled a public hearing for the permit on May 1, 2025, and the Company is expecting an approved final permit within 90 days thereafter.

13. In August 2022, the Company executed the contract for the construction of the water treatment system to treat contact water during the excavation of the North Ash Pond. The contractor achieved Provisional Acceptance (“PA”) on November 21, 2024. Now that PA has been achieved, the water treatment system will be used to treat the water in the West Pond (excavated prior to the issuance of SB 1355), which is currently being used as a holding pond for deep well contact water from the North Ash Pond. Once excavation activities begin, the system will be used to start treating the contact water collected during removal of CCR material from the North Ash Pond.

14. With respect to the landfill, the Company intends to award the bid in late Q2 2025 (assuming all permits have been obtained) to allow landfill construction to begin no later than Q3 2025. Construction of the landfill is estimated to be complete by Q3 2028. Once the landfill is

constructed, CCR excavation and hauling will commence, which is also scheduled to begin in Q3 2028.

15. The total estimated cost for the Bremo Power Station Ash Landfill Project has not changed since the previous Rider filing update and remains approximately \$678.5 million. An explanation of notable budget variances is included in Company Witness Adkins's Extraordinarily Sensitive Schedule 3.

B. Chesterfield Power Station

16. Company Witness Adkins also provides the status of construction for the CCR removal and beneficiation project at the Chesterfield Power Station. Through December 31, 2024, approximately 1,285,992 cubic yards have been excavated from the upper portion of the Upper Ash Pond and either beneficiated or transferred to the existing Fossil Fuel Combustion Products Management Facility on Company-owned, non-contiguous property nearby ("Reymet Landfill"). In 2024, the Company excavated 348,562 cubic yards of ash from the Upper Ash Pond. The undisturbed side slopes of the Upper Ash Pond remain stabilized with a vegetative cover while the upper portions of the pond that have been partially excavated have a welded geomembrane rain cover installed.

17. Through December 31, 2024, approximately 1,252,702 cubic yards have been excavated from the Lower Ash Pond and transferred to the Reymet Landfill. Contact water from the Lower Ash Pond is being sent to the water treatment system. However, the majority of the western portion of the Lower Ash Pond remains covered with a temporary, welded geomembrane rain cover to allow for the continued management of non-contact stormwater under the station's Industrial Stormwater General Permit, allowing for a more cost-effective solution for water management.

18. To support the CCR excavation project, in 2024, WesTech treated 163,929,015 gallons of contact water sent to the water treatment system in compliance with the station's Virginia Pollutant Discharge Elimination System ("VPDES") Permit. Additionally, the Company obtained the Certificate to Operate ("CTO") from the VDEQ on December 4, 2024, for the southern half of Phase 3 (referred to as Phase 3 South) of the Reymet Landfill.

19. With respect to beneficiation, the overall Project remains on schedule. Saiia made significant progress on the excavation of the Upper Ash Pond and the Lower Ash Pond in 2024. Holcim also began beneficiating CCR material in 2024 and will continue until scheduled completion in Q1 2033. In 2024, 188,587 cubic yards of CCR material was sent to Holcim to be beneficiated.

20. The total estimated cost for the Chesterfield Power Station has not changed since the previous Rider filing update, and remains approximately \$2.32 billion. An explanation of notable budget variances has been incorporated into Company Witness Adkins's Extraordinarily Sensitive Schedule 3.

C. Possum Point Power Station

21. Company Witness Adkins further provides the status of construction for the CCR removal project at the Possum Point Power Station. The Company continues to work towards a plan to remove the CCR from Pond D and store it in an on-site landfill that will be constructed once all permitting is obtained.

22. As reported in the last annual update filing, in January 2023 the Company executed a contract for the construction of the water treatment system to treat contact water during the excavation of Pond D. Construction began on the water treatment system on February 14, 2024, and it is anticipated that construction will be completed in Q4 2025.

23. With respect to project timeline, following approval of all permit applications, the initial landfill construction is scheduled to start in Q4 2026 and is expected to be completed in Q4 2028. The approximately one-year shift in schedule is due to the delay in the on-going solid waste permitting. CCR excavation and hauling is expected to begin in Q4 2031.

24. As directed in the 2023 Final Order⁶ and in compliance with Va. Code § 10.1-1402.05, in coordination with the Prince William County Service Authority, the Company has identified forty-six residential parcels that are not served by a municipal water supply within a one-mile buffer of the proposed facility boundary. The Company has contracted with a consultant, Dewberry Engineers, Inc. (“Dewberry”), to develop an engineering and drawing package that will be used for constructing a new water line system for the Cherry Hill area. The Company has conducted meetings and calls with affected residents and continues to work with all applicable stakeholders including Prince William County, the Virginia Department of Transportation (“VDOT”), and Prince William Water (formerly known as the Prince William County Service Authority). The Company is working to identify the easements necessary to execute the Project, and the teams continue to collaborate well as the engineering work is being completed.

25. The engineering design construction package is expected to be completed in Q3 2025, and construction is expected to begin in Q2 2026 pending full easement acquisition. At this early stage of the Project, the design is approximately 30% complete, which is preliminary in nature. Based on this preliminary design, Dewberry has provided a Class III engineering cost estimate of \$13.92 million dollars. The solid waste permitting efforts for the Possum Point CCR

⁶ 2023 Final Order at 3.

Project have not been delayed due to compliance with Va. Code § 10.1-1402.05. Solid waste permitting will continue in parallel with the Prince William County water line project.

26. The total estimated cost for the Possum Point Power Station CCR Project has not changed since the previous Rider filing and remains approximately \$500.9 million. The Company will report on any cost changes resulting from further engineering development of the Prince William County water line project in future Rider CCR update proceedings when such information is available. An explanation of notable budget variances has been incorporated into Company Witness Adkins's Extraordinarily Sensitive Schedule 3.

D. Chesapeake Energy Center

27. Lastly, Company Witness Adkins provides the status of construction for the CCR removal and beneficiation project at Chesapeake Energy Center. As noted in the previous filing, the Company obtained bids as part of a second RFP process that began in late 2022 to beneficiate CCR at the station. As part of that process, the Company determined that it would not be cost effective to beneficiate large volumes of CCR from the Chesapeake Energy Center and began investigating plans to limit the Chesapeake Energy Center beneficiation work to a smaller amount of the remaining ash at the facility.

28. The Company intends to beneficiate only the CCR material in the Bottom Ash Pond ("BAP") as opposed to the entire amount at the site. This equates to approximately 40,000 cubic yards of CCR material that is planned to be beneficiated. The Company anticipates issuing a beneficiation RFP for work at Chesapeake in Q3 2026 and intends to begin the beneficiation work in Q1 2027, with a projected completion date for the beneficiation work in Q3 2027. Based on an assessment of the Company's overall CCR removal and beneficiation efforts across multiple power stations, the Company currently estimates that the remainder of the CCR

activities (landfill and historical pond), excavation, and hauling are expected to begin in Q4 2031 and be completed in Q4 2033.

29. The total estimated cost for the Chesapeake Energy Center CCR Project has not changed since the previous Rider filing, and remains approximately \$623.5 million. An explanation of notable budget variances has been incorporated into Company Witness Adkins's Extraordinarily Sensitive Schedule 3.

ACCOUNTING UPDATE

30. For the period prior to February 28, 2024, the Company is utilizing the approved ROE of 9.35%, which is the Company's authorized ROE as set by the Commission in Case No. PUR-2021-00058. For the period including February 28, 2024 and beyond, the revenue requirement is calculated using a 9.7% ROE, which is the Company's authorized ROE as set by the Commission in Case No. PUR-2023-00101. The ROE determined by the Commission in the Company's pending 2025 biennial review proceeding will be applicable to Rider CCR as of the date of the Final Order in that case.

31. The revenue requirement calculation for the continuation of the Rider CCR RAC is described in detail in Company Witness Kathryn M. Richmond's direct testimony.

32. The Company is proposing a rate year of January 1, 2026 through December 31, 2026 ("Rate Year"). This is an adjustment to the rate year approved for Rider CCR in Case No. PUR-2024-00029 of December 1, 2024 to November 30, 2025 in order to better align with current internal accounting methods for the CCR program and to streamline reporting requirements. As the rate year for the existing Rider CCR ends November 30, 2025, the Company is requesting to extend the currently-approved rate for one additional month through December 31, 2025, the date immediately preceding the start of the new proposed Rate Year for

Rider CCR. Any revenue requirement impacts resulting from the change in rate year will be accounted for in the true-up of calendar year 2025 in Rider CCR.

33. The Projected Cost Recovery Factor includes the projected monthly cash expenditures attributable to the CCR Projects and financing costs on the unamortized balance of the Under/Over Recovery of Actual Costs during 2024. The Projected Cost Recovery Factor revenue requirement totals \$223,193,090 for Virginia Jurisdictional customers in this case.

34. The Actual Cost True-Up Factor will credit to, or recover from, customers any over/under collection of costs from the most recently completed calendar year. Actual revenues during calendar year 2024 are compared to actual costs incurred during 2024. Any difference in these amounts becomes the Actual Cost True-Up Factor either credited to, or recovered from, customers through the total revenue requirement requested for recovery during the Rate Year in this 2025 Annual Update. The Actual Cost True-Up Factor revenue requirement for the CCR Projects totals \$(57,230,871) for the Virginia Jurisdictional customers in this case.

35. The total revenue requirement requested for recovery in this Rider CCR for the Rate Year beginning January 1, 2025 is \$165,962,219.

RATE DESIGN UPDATE

36. Rider CCR identifies the uniform rate in cents per kilowatt-hour that will apply to each Company rate schedule or special contract approved by the Commission pursuant to Va. Code § 56-235.2. If approved as proposed, Rider CCR would be effective for usage on and after January 1, 2025.

37. Consistent with the Company's 2024 Annual Update, the Company continues to allocate Rider CCR costs on an energy basis using a Factor 3 Non-bypassable allocation methodology, as approved by the Commission in the 2021 Final Order.

38. As presented in Company Witness William J. Caffall's testimony, the implementation of the proposed Rider CCR on December 1, 2024 will incrementally increase the typical residential customer's monthly bill, based on 1,000 kWh per month, by \$0.59. Typical monthly bill impacts for customers receiving service on Residential Schedule 1, General Service Schedules GS-1, GS-2, GS-3, and GS-4, and Church Schedule 5C are provided to present the proposed Rider CCR at several representative levels of consumption or demand.

**SUPPORTING TESTIMONY, FILING SCHEDULE 46, AND LIMITED REQUEST FOR
WAIVER OF FILING SCHEDULE 46 REQUIREMENTS**

39. In support of this 2025 Annual Update, Dominion Energy Virginia presents the pre-filed direct testimony and exhibits of the following witnesses: Spencer B. Adkins, Kathryn M. Richmond, and William J. Caffall.

A. Filing Schedules 3, 4, 5, and 8

40. Rule 60 of the Rate Case Rules provides that an application filed pursuant to Subsection A 5 "shall include Schedule 46 as identified and described in 20 VAC 5-204-90, which shall be submitted with the utility's direct testimony. Additionally, applications requiring an overall cost of capital shall include Schedules 3, 4, 5, and 8." As noted below, the Company is seeking a waiver of With this Petition, the Company files the following filing schedules:

- A. Filing Schedule 8, sponsored by Company Witness Richmond, provides information regarding the Company's cost of capital.
- B. Company Witness Adkins sponsors Filing Schedule 46A, consisting of Statements 1 through 6. Filing Schedule 46A, Statement 1, provides a schedule summarizing all projected/actual costs, by type of cost and year, associated with the CCR Projects. Filing Schedule 46A, Statement 2, provides a schedule of all projected/actual costs, by type of

cost and month/year, associated with the CCR Project at the Bremo Power Station. Filing Schedule 46A, Statement 3, provides a schedule of all projected/actual costs, by type of cost and month/year associated with the CCR Project at the Chesterfield Power Station. Filing Schedule 46A, Statement 4, provides a schedule of all projected/actual costs, by type of cost and month/year associated with the CCR Project at the Possum Point Power Station. Filing Schedule 46A, Statement 5, provides a schedule of all projected/actual costs, by type of cost and month/year associated with the CCR Project at the Chesapeake Energy Center. Filing Schedule 46A, Statement 6, provides key documents supporting the projected and actual costs sought for recovery through the rate adjustment clause.

- C. Company Witness Richmond sponsors Filing Schedule 46B, consisting of Statements 1 through 3. Filing Schedule 46B, Statement 1, provides the annual revenue requirement calculation for the rate year ending December 31, 2026. Filing Schedule 46B, Statement 2, provides the projected annual revenue requirement over the duration of the RAC. Filing Schedule 46B, Statement 3 provides the detailed support by each Power Station in support of Statement 2.
- D. Company Witness Caffall sponsors Filing Schedule 46C, consisting of Statements 1 and 2. Filing Schedule 46C, Statement 1, provides detailed information relative to the Company's methodology for allocating the revenue requirement and the development of a uniform charge per kWh. Filing Schedule 46C, Statement 2, provides the long-term annual revenue requirement by class over the duration of the RAC.

C. Limited Request for Waiver of Filing Schedule 46 Requirements

41. The Company, for good cause shown and pursuant to 20 VAC 5-204-10 E, additionally respectfully requests that the Commission waive, in part, the requirement under Rule 60 to file Filing Schedules 3 through 5. After consultation with Commission Staff, and in the

interest of judicial economy, the Company is submitting Filing Schedule 8 for the 2024 year-end capital structure. To the extent necessary, the Company requests a waiver of the requirement to file Filing Schedules 3 through 5 for the year-end 2024 capital structure, as those will be reviewed by the Commission in the Company's pending 2025 biennial review proceeding. This request for waiver is consistent with the Commission's recent order granting a similar limited waiver.⁷

42. The Company, for good cause shown and pursuant to 20 VAC 5-204-10 E, additionally respectfully requests that the Commission waive, in part, the requirements under Rules 60 and 90 of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials. Specifically, the Rate Case Rules require the Company to provide key documents, including economic analyses, contracts, studies, investigations, results from requests for proposals, and cost benefit analyses that support projected costs proposed to be recovered via the rate adjustment clause. The supporting documentation responsive to this requirement is voluminous and not easily reviewed in hard copy (paper) format. Accordingly, the Company seeks waiver of the requirement to file 12 hard copies of this information. Instead, the Company proposes to provide this documentation to Commission Staff and any other future case participants in electronic format and provide the Commission with one hard copy and three electronic copies on compact discs. The Company will make the electronic documents available via an e-room contemporaneously with this filing, with immediate access available to Commission Staff. This request is consistent with the Commission's recent orders granting

⁷ *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause designated Rider SMR under §§ 56-585.1:14 and 56-585.1 of the Code of Virginia and related requests*, Case No. PUR-2024-00205, Order for Notice and Hearing (Dec. 2, 2024).

similar limited waivers.⁸ Should the Commission deny this request, the Company asks for a reasonable allowance of time to print the requisite filing copies of this material and submit it to the Commission prior to the Company's application being deemed incomplete.

REQUEST FOR CONFIDENTIAL TREATMENT AND ADDITIONAL PROTECTIVE TREATMENT OF EXTRAORDINARILY SENSITIVE INFORMATION

43. The Company's Petition contains confidential and extraordinarily sensitive information, as designated therein. Because portions of the Company's Petition contain such confidential and extraordinarily sensitive information, in compliance with Rule 10 F and Rule 170, 20 VAC 5-204-10 F and 5 VAC 5-20-170, this filing is accompanied by a separate Motion for Entry of a Protective Order and Additional Protective Treatment, including a Proposed Protective Order, filed contemporaneously with this Petition.

COMPLIANCE WITH RULE 10 OF THE RATE CASE RULES

44. The Company's 2025 Annual Update for approval of Rider E complies with the requirements contained in Rule 10 of the Rate Case Rules. In accordance with Rule 10 A, Dominion Energy Virginia filed with the Commission on December 19, 2024, the Company's notice of intent to file this Petition under Va. Code § 56-585.1 A 5 e. Copies of this Petition, to the extent required by Rule 10 J, along with the additional information required by Rule 10 J, have been served upon the persons addressed in that Rule. A complete copy of this Petition has been served upon the Office of the Attorney General's Division of Consumer Counsel in conformity with Rule 10 J. Also included with and following this Petition, pursuant to Rule 10, is a table of contents of this filing, including exhibits and schedules.

⁸ *Petition of Virginia Electric and Power Company For revision of rate adjustment clause: Rider E, for the recovery of costs incurred to comply with state and federal environmental regulations pursuant to § 56-585.1 A 5 e of the Code of Virginia*, Case No. PUR-2024-00013, Order for Notice and Hearing at Ordering Paragraph (19) (Feb. 16, 2024).

WHEREFORE, Dominion Energy Virginia respectfully requests that the Commission (1) approve the proposed Rider CCR under Va. Code § 56-585.1 A 5 e subject to future Rider CCR proceedings and true-ups, effective for usage on and after January 1, 2026; (2) approve the proposed revenue requirement, cost allocation, rate design, and accounting treatment for the CCR Projects for the Rate Year January 1, 2026 through December 31, 2026; (3) grant the Company's requested waiver as to portions of Filing Schedules 3-5 and 46; and (4) grant such other and further relief as it deems just and proper.

Respectfully submitted,

VIRGINIA ELECTRIC AND POWER COMPANY

PETITION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2025-00063

For revision of rate adjustment clause: Rider CCR,
for the recovery of costs incurred to comply
with § 10.1-1402.03 of the Code of Virginia,
pursuant to Code § 56-585.1 A 5 e

ORDER FOR NOTICE AND HEARING

On April 4, 2025, pursuant to § 56-585.1 A 5 e of the Code of Virginia (“Code”), Virginia Electric and Power Company (“Dominion” or “Company”) filed a petition (“Petition”) with the State Corporation Commission (“Commission”) for an annual update with respect to its coal combustion residuals (“CCR”) rate adjustment clause, designated Rider CCR, to recover costs incurred to comply with the requirements of Virginia Senate Bill 1355,¹ codified as Code § 10.1-1402.03.²

On October 26, 2021, by its Order Approving Rate Adjustment Clause in Case No. PUR-2021-00045 (“2021 Order”), the Commission approved the Company’s request for approval of Rider CCR, to recover costs associated with certain environmental projects involving CCR removal (collectively, “Projects”) at the Company’s Bremo Power Station, Chesterfield

¹ 2019 Va. Acts ch. 651.

² Petition at 1. Pursuant to Code § 56-585.1 A 7, the Commission must enter a final order on the Petition not more than eight months after the date of filing of such Petition.

Power Station, Possum Point Power Station, and Chesapeake Energy Center (collectively, the “Power Stations”).³ On November 4, 2024, by its Final Order issued in Case No.

PUR-2024-00029 (“2024 Rider CCR Proceeding”), the Commission approved the most recent annual update to Rider CCR.⁴

Dominion states that it is filing this annual update to inform the Commission of the status of CCR removal at the Power Stations and to provide the proposed cost allocation, rate design, and accounting treatment for service rendered during a proposed rate year commencing January 1, 2026 and extending through December 31, 2026 (“Rate Year”) as related to proposed Rider CCR.⁵ The Company states that this would be an adjustment to the rate year approved for Rider CCR in the 2024 Rider CCR Proceeding of December 1, 2024 to November 30, 2025, to better align with the Company’s current internal accounting methods for Rider CCR and to streamline reporting requirements.⁶ As the rate year for existing Rider CCR ends November 30, 2025, the Company requests to extend the currently-approved rate for one additional month through December 31, 2025, the date immediately preceding the start of the new proposed Rate Year for Rider CCR, with any revenue requirement impacts resulting from the change in rate year accounted for in the Rider CCR true-up for calendar year 2025.⁷

³ *Petition of Virginia Electric and Power Company, For approval of a rate adjustment clause, designated Rider CCR, for the recovery of costs incurred to comply with § 10.1-1402.03 of the Code of Virginia, pursuant to Virginia Code § 56-585.1 A 5 e*, Case No. PUR-2021-00045, 2021 S.C.C. Ann. Rept. 428, Order Approving Rate Adjustment Clause (Oct. 26, 2021); Petition at 4.

⁴ *Petition of Virginia Electric and Power Company, For revision of rate adjustment clause: Rider CCR, for the recovery of costs incurred to comply with § 10.1-1402.03 of the Code of Virginia, pursuant to Code § 56-585.1 A 5 e*, Case No. PUR-2024-00029, Doc. Con. Cen. No. 24110079, Final Order at 5 (Nov. 4, 2024); Petition at 5.

⁵ Petition at 5.

⁶ *Id.* at 11.

⁷ *Id.* at 11-12.

The Company states that the two components of the revenue requirement proposed in this proceeding are the Projected Cost Recovery Factor and the Actual Cost True-Up Factor.⁸ The Company requests a Projected Cost Recovery Factor revenue requirement of \$223,193,090, and an Actual Cost True-Up Factor revenue requirement of \$(57,230,871).⁹ Thus, the Company requests a total revenue requirement for Rider CCR for the Rate Year of \$165,962,219.¹⁰

Dominion asserts that, consistent with the Company's 2024 Rider CCR Proceeding, the Company continues to allocate Rider CCR costs on an energy basis using a Factor 3 non-bypassable allocation methodology, as approved by the Commission in the 2021 Order.¹¹ If the revised Rider CCR for the Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to Dominion, implementation of its revised Rider CCR on January 1, 2026, would increase the monthly bill of a residential customer using 1,000 kilowatt hours per month by approximately \$0.59.¹²

Dominion also requests a limited waiver, in part, of the following requirements pursuant to Rule 10 E of the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings of Investor-Owned Electric Utilities¹³ ("Rate Case Rules"): (i) Rule 60 of the Rate Case Rules, with respect to Filing Schedules 3 through 5, for the year-end 2024 capital structure, as those will be reviewed by the Commission in the Company's pending biennial

¹³ Petition at 14-16. *See* 20 VAC 5-204-5 *et seq.*

review proceeding;¹⁴ and (ii) Rules 60 and 90 of the Rate Case Rules with respect to paper copies of certain Filing Schedule 46 materials (collectively, “Waiver Requests”). The Company states that Rule 90 requires an applicant to provide certain information, including key documents supporting the projected and actual costs recovered through the rate adjustment clause, such as economic analyses, contracts, studies, investigations, results from requests for proposals, and cost/benefit analyses.¹⁵ According to Dominion, the supporting documentation responsive to this requirement is voluminous and not easily reviewed in hard copy (paper) format, and therefore the Company seeks waiver of the requirement to file 12 hard copies of the information.¹⁶ Instead, the Company proposes to: (i) provide the Commission with one hard copy and three electronic copies on compact discs, which were included with the filing, and (ii) provide the documentation to Commission Staff (“Staff”) and any future case participants in electronic format.¹⁷

Finally, in conjunction with the filing of its Petition on April 4, 2025, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Order and Additional Protective Treatment (“Motion for Protective Ruling”) and a proposed protective order concerning the use of confidential and extraordinarily sensitive information in this proceeding.

¹⁴ Petition at 14-15. See *Application of Virginia Electric and Power Company, For a 2025 biennial review of the rates, terms and conditions for the provision of generation, distribution and transmission services pursuant to § 56-585.1 A of the Code of Virginia*, Case No. PUR-2025-00058, Doc. Con. Cen. No. 250350121 (Application) (filed Mar. 31, 2025).

¹⁵ Rule 90, Schedule 46 instructions, § (c) (1) (iii).

¹⁶ Petition at 15.

¹⁷ *Id.*

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; Dominion should provide public notice of its Petition; hearings should be scheduled for the purpose of receiving testimony from public witnesses and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition and to participate as respondents in this proceeding; and the Staff should be directed to investigate the Petition and file testimony and exhibits containing its findings and recommendations thereon. We also find that a Hearing Examiner should be appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations.

Further, based on the particular facts of this case, we find that Dominion's Waiver Requests should be granted. Additionally, we find that Dominion's request to extend the current rate for Rider CCR for one month, through December 31, 2025, should be granted.

To promote administrative efficiency and timely service of filings upon participants, the Commission will, among other things, direct the electronic filing of testimony and pleadings unless they contain confidential information, and require electronic service on parties to this proceeding.

Accordingly, IT IS ORDERED THAT:

- (1) This matter is docketed and assigned Case No. PUR-2025-00063.
- (2) All pleadings, briefs, or other documents required to be served in this matter should be submitted electronically to the extent authorized by Rule 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice and Procedure ("Rules of Practice").¹⁸

¹⁸ 5 VAC 5-20-10 *et seq.*

Confidential and Extraordinarily Sensitive Information shall not be submitted electronically and should comply with 5 VAC 5-20-170, *Confidential information*, of the Rules of Practice. Any person seeking to hand deliver and physically file or submit any pleading or other document shall contact the Clerk's Office Document Control Center at (804) 371-9838 to arrange the delivery.

(3) Pursuant to 5 VAC 5-20-140, *Filing and service*, of the Rules of Practice, the Commission directs that service on parties and the Staff in this matter shall be accomplished by electronic means. Concerning Confidential or Extraordinarily Sensitive Information, parties and the Staff are instructed to work together to agree upon the manner in which documents containing such information shall be served upon one another, to the extent practicable, in an electronically protected manner, even if such information is unable to be filed in the Office of the Clerk, so that no party or the Staff is impeded from preparing its case.

(4) As provided by § 12.1-31 of the Code and Rule 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Commission's Rules of Practice, a Hearing Examiner is appointed to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling, and to file a final report. A copy of each filing made with the Commission's Clerk's Office in this matter shall also be sent electronically to the Office of the Hearing Examiners.¹⁹

(5) The Commission schedules a telephonic hearing for the receipt of testimony from public witnesses on the Petition, as follows:

- (a) The portion of the hearing for the receipt of testimony from public witnesses on the Petition shall be convened telephonically on September 18, 2025, at 10 a.m.

¹⁹ Such electronic copies shall be sent to: OHEParalegals@scc.virginia.gov.

- (b) To promote fairness for all public witnesses, each witness will be allotted five minutes to provide testimony.
- (c) On or before September 11, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in two ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141 to register.
- (d) Beginning at 10 a.m. on September 18, 2025, the Hearing Examiner appointed to this case will telephone sequentially each person who has signed up to testify as provided above.
- (e) This public witness portion of the hearing will be webcast at scc.virginia.gov/case-information/webcasting.

(6) The evidentiary portion of the hearing shall be convened at 10 a.m. on September 18, 2025, or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive testimony and evidence of the Company, any respondents, and Staff on the Petition.

(7) An electronic copy of the public version of the Company's Petition may be obtained by submitting a written request to counsel for the Company: Elaine S. Ryan, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or eryan@mcguirewoods.com. Interested persons also may download unofficial copies from the Commission's website: scc.virginia.gov/case-information.

(8) On or before May 22, 2025, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC OF PETITION BY
 VIRGINIA ELECTRIC AND POWER COMPANY
 FOR REVISION OF A RATE ADJUSTMENT CLAUSE,
 DESIGNATED RIDER CCR, FOR THE RATE YEAR
 COMMENCING JANUARY 1, 2026
CASE NO. PUR-2025-00063

On April 4, 2025, pursuant to § 56-585.1 A 5 e of the Code of Virginia (“Code”), Virginia Electric and Power Company (“Dominion” or “Company”) filed a petition (“Petition”) with the State Corporation Commission (“Commission”) for an annual update with respect to its coal combustion residuals (“CCR”) rate adjustment clause, designated Rider CCR, to recover costs incurred to comply with the requirements of Virginia Senate Bill 1355, codified as Code § 10.1-1402.03.

On October 26, 2021, by its Order Approving Rate Adjustment Clause in Case No. PUR-2021-00045 (“2021 Order”), the Commission approved the Company’s request for approval of Rider CCR, to recover costs associated with certain environmental projects involving CCR removal (collectively, “Projects”) at the Company’s Bremo Power Station, Chesterfield Power Station, Possum Point Power Station, and Chesapeake Energy Center (collectively, the “Power Stations”). On November 4, 2024, by its Final Order issued in Case No. PUR-2024-00029 (“2024 Rider CCR Proceeding”), the Commission approved the most recent annual update to Rider CCR.

Dominion states that it is filing this annual update to inform the Commission of the status of CCR removal at the Power Stations and to provide the proposed cost allocation, rate design, and accounting treatment for service rendered during a proposed rate year commencing January 1, 2026, and extending through December 31, 2026 (“Rate Year”) as related to proposed Rider CCR. The Company states that this would be an adjustment to the rate year approved for Rider CCR in the 2024 Rider CCR Proceeding of December 1, 2024, to November 30, 2025, to better align with the Company’s current internal accounting methods for Rider CCR and to streamline reporting requirements. As the rate year for existing Rider CCR ends November 30, 2025, the Company requests to extend the currently-approved rate for one additional month through December 31, 2025, the date immediately preceding the start of the new proposed Rate Year for Rider CCR, with any revenue requirement impacts resulting from the change in rate year accounted for in the Rider CCR true-up for calendar year 2025.

The Company states that the two components of the revenue requirement proposed in this proceeding are the Projected Cost Recovery Factor and the Actual Cost True-Up Factor. The Company requests a Projected Cost Recovery Factor revenue requirement of \$223,193,090, and an Actual Cost True-Up Factor revenue requirement of \$(57,230,871). Thus, the Company requests a total revenue requirement for Rider CCR for the Rate Year of \$165,962,219.

Dominion asserts that, consistent with the Company's 2024 Rider CCR Proceeding, the Company continues to allocate Rider CCR costs on an energy basis using a Factor 3 non-bypassable allocation methodology, as approved by the Commission in the 2021 Order.

If the revised Rider CCR for the Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to Dominion, implementation of its revised Rider CCR on January 1, 2026, would increase the monthly bill of a residential customer using 1,000 kilowatt hours per month by approximately \$0.59.

Interested persons are encouraged to review the Company's Petition, testimony and supporting exhibits for additional details concerning this matter.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Petition and supporting documents and thus may adopt rates that differ from those appearing in the Company's Petition and supporting documents.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled a public hearing on Dominion's Petition. On September 18, 2025, at 10 a.m., the Hearing Examiner will hold a telephonic portion of the hearing, for the purpose of receiving the testimony of public witnesses. On or before September 11, 2025, any person desiring to offer testimony as a public witness shall provide to the Commission: (a) your name, and (b) the telephone number that you wish the Commission to call during the hearing to receive your testimony. This information may be provided to the Commission in two ways: (i) by filling out a form on the Commission's website at scc.virginia.gov/case-information/webcasting; or (ii) by calling (804) 371-9141 to register. This public witness hearing will be webcast at scc.virginia.gov/case-information/webcasting.

On September 18, 2025, at 10 a.m., or at the conclusion of the public witness portion of the hearing, whichever is later, in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, the Hearing Examiner will convene a hearing to receive testimony and evidence offered by the Company, respondents, and the Commission's Staff on the Petition.

To promote administrative efficiency and timely service of filings upon participants, the Commission has directed the electronic filing of testimony and pleadings, unless they contain confidential information, and has required electronic service on parties to this proceeding.

Electronic copies of the public version of the Petition may be obtained by submitting a written request to counsel for the Company: Elaine S. Ryan, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219, or eryan@mcguirewoods.com. Interested persons also may download unofficial copies from the Commission's website: [scc.virginia.gov/case-information](https://www.scc.virginia.gov/case-information).

On or before September 11, 2025, any interested person may submit comments on the Petition electronically by following the instructions on the Commission's website: <https://www.scc.virginia.gov/case-information/submit-public-comments>. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00063.

On or before July 10, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at: [scc.virginia.gov/clk/efiling](https://www.scc.virginia.gov/clk/efiling). Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed above. Such notice of participation shall include the email addresses of such parties or their counsel, if available. A copy of the notice of participation as a respondent also must be served electronically on counsel for the Company, any other respondents, and the Commission's Staff. Pursuant to 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.* ("Rules of Practice"), any notice of participation shall set forth: (i) a precise

statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00063.

On or before August 7, 2025, each respondent may file electronically with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address listed above. Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Commission's Staff, the Company, and all other respondents simultaneous with their filing. In all filings, respondents shall comply with the Commission's Rules of Practice, as modified by the Commission's Order for Notice and Hearing, including, but not limited to: 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00063.

Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified by the Commission's Order for Notice and Hearing, all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

The Commission's Rules of Practice, the Commission's Order for Notice and Hearing, and the public version of the Petition and other documents filed in this case may be viewed on the Commission's website at: scc.virginia.gov/case-information.

VIRGINIA ELECTRIC AND POWER COMPANY

(9) The Company shall serve each official listed in 20 VAC 5-204-10 J 1 as provided by 20 VAC 5-204-10 J 2.

(10) On or before June 5, 2025, the Company shall file proof of the notice and service required by Ordering Paragraphs (8) and (9), including the name, title, address, and email

address (if applicable) of each official served, with the Clerk of the State Corporation Commission by filing electronically at [scc.virginia.gov/clk/efiling](https://www.scc.virginia.gov/clk/efiling).

(11) On or before September 11, 2025, any interested person may submit written comments on the Petition by following the instructions found on the Commission's website: <https://www.scc.virginia.gov/case-information/submit-public-comments>. Those unable, as a practical matter, to submit comments electronically may file such comments by U.S. mail to the Clerk of the State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. All comments shall refer to Case No. PUR-2025-00063.

(12) On or before July 10, 2025, any person or entity wishing to participate as a respondent in this proceeding may do so by filing a notice of participation with the Clerk of the Commission at [scc.virginia.gov/clk/efiling](https://www.scc.virginia.gov/clk/efiling). Those unable, as a practical matter, to file a notice of participation electronically may file such notice by U.S. mail to the Clerk of the Commission at the address listed in Ordering Paragraph (11). Such notice of participation shall include the email addresses of such parties or their counsel, if available. The respondent simultaneously shall serve a copy of the notice of participation electronically on counsel to the Company, Staff, and all other respondents. Pursuant to Rule 5 VAC 5-20-80 B, *Participation as a respondent*, of the Commission's Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Any organization, corporation, or government body participating as a respondent must be represented by counsel as required by 5 VAC 5-20-30, *Counsel*, of the Rules of Practice. All filings shall refer to Case No. PUR-2025-00063.

(13) Within five (5) business days of receipt of a notice of participation as a respondent, the Company shall serve a copy of the public version of the Petition on the respondent, unless it has already been provided to the respondent.

(14) On or before August 7, 2025, each respondent may file with the Clerk of the Commission at scc.virginia.gov/clk/efiling any testimony and exhibits by which the respondent expects to establish its case. Any respondent unable, as a practical matter, to file testimony and exhibits electronically may file such by U.S. mail to the Clerk of the Commission at the address in Ordering Paragraph (11). Each witness's testimony shall include a summary not to exceed one page. All testimony and exhibits shall be served electronically on the Staff, the Company, and all other respondents simultaneous with their filing. In all filings, the respondent shall comply with the Commission's Rules of Practice, including 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*. All filings shall refer to Case No. PUR-2025-00063.

(15) On or before August 21, 2025, the Staff shall investigate the Petition and file with the Clerk of the Commission its testimony and exhibits concerning the Petition, and each Staff witness's testimony shall include a summary not to exceed one page. A copy thereof shall be served electronically on counsel to the Company and all respondents.

(16) On or before September 4, 2025, Dominion shall file with the Clerk of the Commission any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page. The Company shall serve a copy of the rebuttal testimony and exhibits electronically on the Staff and all respondents.

(17) Any documents filed in paper form with the Office of the Clerk of the Commission in this docket may use both sides of the paper. In all other respects, except as modified herein,

all filings shall comply fully with the requirements of 5 VAC 5-20-150, *Copies and format*, of the Commission's Rules of Practice.

(18) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) calendar days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney if the interrogatory or request for production is directed to the Staff.²⁰ Except as modified above, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(19) Dominion's Waiver Requests are granted as set forth herein.

(20) Dominion's request to extend the current rate for Rider CCR for one additional month through December 31, 2025, is granted. Any revenue requirement impacts resulting from the change in rate year shall be accounted for in the Rider CCR true-up for calendar year 2025.

(21) This matter is continued.

A COPY hereof shall be sent electronically by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the Commission.

²⁰ The assigned Staff attorney is identified on the Commission's website: scc.virginia.gov/case-information, by clicking "Docket Search," clicking "Search by Case Information," and entering the case number, PUR-2025-00063, in the appropriate box.

**VIRGINIA ELECTRIC AND POWER COMPANY'S
BIENNIAL REVIEW APPLICATION
PURSUANT TO VA. CODE § 56-585.1 A**

Pursuant to § 56-585.1 A of the Code of Virginia ("Va. Code") and the State Corporation Commission of Virginia's ("Commission") Rules Governing Utility Rate Applications and Annual Informational Filings ("Rate Case Rules") 20 VAC 5-204-10, *et seq.*, Virginia Electric and Power Company ("Dominion Energy Virginia" or the "Company"), by counsel, hereby submits its 2025 biennial review application (the Company's "2025 Biennial Review Application" or "Application") (as to the Commission proceeding, the "2025 Biennial Review"). In support of its 2025 Biennial Review Application, Dominion Energy Virginia respectfully shows the following:

LEGAL BASIS FOR FILING AND INTRODUCTION

1. During the 2023 Virginia General Assembly regular session, the legislature adopted legislation enacted as Chapter 775 of the 2023 Acts of Assembly (the "Act"), which significantly modified the review process for the Company's rates for generation and distribution services ("base rates"). Among other things, the Act returned the Commonwealth's incumbent electric utilities to more frequent, biennial reviews of base rates, prospectively eliminated the earnings "collar" of 70 basis points above and below the authorized ROE, and immediately

increased the percentage of any available past earnings that are to be refunded to customers from 70% to 85-100%. The Act further established that prospective base rate setting will be based solely on the forward-looking cost of service, with no prerequisites to an increase or reduction to rates in the review process that may have existed previously. Finally, the Act established a performance incentive measure applicable to biennial review proceedings commencing in 2024 and beyond:

The Commission may increase or decrease the utility's combined rate of return for generation and distribution services by up to 50 basis points based on factors that may include reliability, generating plant performance, customer service, and operating efficiency of a utility. Any such adjustment to the combined rate of return for generation and distribution services shall include consideration of nationally recognized standards determined by the Commission to be appropriate for such purposes.¹

2. The Commission has initiated a proceeding to review and determine the appropriate protocols and standards applicable to implementing any such performance-based adjustments as directed by the statute, which remains pending.² By its October 21, 2024 Order in that case, the found that “the public interest would be better served to implement the to-be-developed protocols and standards for utility biennial reviews filed on or after January 1, 2027.” Pursuant to Enactment Clause 5 of the Act “until such standards and protocols are applicable, the Commission shall have the authority, consistent with its precedent for incumbent electric utilities prior to the enactment of Chapters 888 and 933 of the Acts of Assembly of 2007, to increase or decrease the utility's combined rate of return based on the Commission's consideration of the utility's performance.”

¹ Va. Code § 56-585.1 A 2 c.

² *Commonwealth of Virginia, ex rel. State Corporation Commission Ex Parte: In the matter concerning implementing performance-based adjustments to combined rates of return under §§ 56-585.1 A 2 c and 56-585.8 E of the Code of Virginia*, Case No. PUR-2023-00210, Order Establishing Proceeding (Dec. 12, 2023).

3. Pursuant to Va. Code § 56-585.1 A, as amended, and the Commission's Rate Case Rules, this biennial review proceeding presents three principal issues for the Commission's determination: (1) a review of the Company's cost of service and earnings for the historic periods 2023 and 2024 (the "earnings test"); (2) how the Company's base rates should be adjusted for the upcoming rate periods January 1, 2026 – December 31, 2026 (the "2026 Rate Year") and January 1, 2027 – December 31, 2027 (the "2027 Rate Year") (collectively, "the Rate Years"); and (3) any proposed changes to the Company's cost allocation, rate design, tariff offerings, or Terms and Conditions of Service ("T&Cs"). As part of the going-forward cost of service, the Commission also must determine the Company's prospective fair rate of return on common equity ("ROE").

4. Over the historic 2023-2024 biennial period, the Company has continued to deliver on its mission to provide safe, reliable, affordable, and increasingly clean energy to customers. The Company's generation fleet has provided significant value to customers, achieving excellent performance by all relevant metrics and across all generator types. The Company has also maintained strong reliability performance, delivering uninterrupted electric service 99.98% of the time throughout the year. In addition, the Company has made ongoing investments to improve and modernize the customer experience, and continued its commitment to the core value of investing in and partnering with the many communities and constituencies it serves.

5. From a financial perspective, the results of the earnings test show that the Company fell substantially short in recovering its cost of service and a fair rate of return over the 2023-2024 combined test periods (the "biennial review period"). The Company earned a return of 7.77%, as compared to its authorized ROE of 9.70%, translating into over \$350 million

of unrecovered costs. A continued path of “under-earning” is unsustainable for the Company to continue to meet the needs of its customers and make cost-beneficial investments on their behalf.

6. This case also is filed against a backdrop of significant demand growth—the highest levels in decades—in the Company’s service territory, both currently and projected in the future. Reliability of electric service, with particular attention to resource adequacy under both normal and extreme operating conditions, is a critical focus for the Company.

7. The revenue requirement presented in this case is necessary to afford the Company the opportunity to recover its cost to serve customers and a fair rate of return. In order to meet its growing load obligations and ensure continued safe, adequate, and reliable service to all of its customers, the Company must make significant additional capital investments. These incremental investments in the Company’s distribution and generation systems are a principal driver of the need to seek a base rate increase at this time. Other factors outside of purchased capacity expense that are driving the revenue requirement are largely beyond the control of the Company, including increases in the costs of goods and labor. Such inflationary trends are being experienced by other utilities across the country.

8. In sum, excluding capacity expense, the Company’s necessary base rate revenue requirement increase for the 2026 Rate Year is \$458 million and for the 2027 Rate Year it is an incremental \$173 million. The current average residential bill for the typical customer consuming 1000 kWh of electricity per month is \$140.65. If the base rate changes are approved as requested, the bill increase on January 1, 2026, would be \$8.51, with an incremental increase on January 1, 2027 of \$2.00. Based on the current bill, these figures represent a 6.1% increase for 2026 and an incremental 1.3% increase in 2027.

9. The revenue requirement incorporates the Company's requested ROE determination of 10.4%. This figure is at the lower end of the Company's estimated cost of equity range of 10.3 – 11.6%. While the analysis supports an ROE higher within that range, the Company is requesting a 10.4% ROE in the interest of rate affordability. For the same reason, while it would be justified, the Company is not formally requesting an ROE performance adjustment.

10. The Company remains committed to maintaining affordable and fair rates for all customers and customer classes while reasonably mitigating against financial risks to them. To that end, the Company is proposing a bundle of cost allocation, rate design, and T&Cs changes primarily designed to address the changing profile of its high demand customer base, including data center customers. In addition, the Company is proposing to shift recovery of purchased capacity expense from base rates to the Company's fuel factor, effective January 1, 2026, in order to reduce volatility and minimize the potential for over- or -under-recovery of these costs.

11. In summary, the Company's biennial review application and the requested revenue requirement reflect the investments and operating costs necessary to deliver on its obligation and mission to provide safe, reliable, affordable, and increasingly clean energy to customers. The financial health of the utility and the need for a constructive regulatory environment are crucial to enabling the necessary and cost-effective investments that will benefit the Company's customers in the long run.

GENERAL INFORMATION

12. Dominion Energy Virginia is a public service corporation organized under the laws of the Commonwealth of Virginia furnishing electric service to the public within its certificated service territory. The Company also supplies electric service to non-jurisdictional

customers in Virginia and to the public in portions of North Carolina. The Company is engaged in the business of generating, transmitting, distributing, and selling electric power and energy to the public for compensation. The Company is also a public utility under the Federal Power Act, and certain of its operations are subject to the jurisdiction of the Federal Energy Regulatory Commission. The Company is an operating subsidiary of Dominion Energy, Inc.

13. The Company's name and post office address are:

Virginia Electric and Power Company
600 East Canal Street
Richmond, Virginia 23219

14. The names, post office addresses, and telephone numbers of the attorneys for the Company are:

LOAD GROWTH AND MEETING THE NEED FOR ADEQUATE AND RELIABLE SERVICE

15. Dominion Energy Virginia provides electric service to over 2.7 million customers, representing over five million individuals, businesses, and other entities, throughout many regions of Virginia. The Company's service territory includes the major population centers of the Commonwealth and many critical state and federal military and other governmental facilities, along with their supporting industries. Over the past several years, the Commonwealth has become the number one location in the world for investment by the data center industry, with approximately 70% of international internet traffic routed through Virginia. Just like the provision of electricity, data storage has become an essential service for consumers, and the nerve center for this activity is in the Company's service territory and the broader Dominion Energy Virginia transmission zone ("DOM Zone").

16. The pace of high load customer additions in this sector for the Company, and the size of those additions, has increased dramatically in recent years, as Company Witness Stan Blackwell further describes. Demand is also rising due to transportation and other electrification trends and economic development more generally. All told, the Company's 2024 IRP load forecast projects a coincident peak compounded annual growth rate ("CAGR") of 3.0% between 2025 and 2039 for Dominion Energy Virginia's service territory ("DOM LSE"), while the Company's grid operator PJM Interconnection, LLC ("PJM") projects a 4.8% CAGR for the DOM Zone over this period in their 2024 load forecast.

17. Particularly given these historic growth trends, the Company will need to continue to substantially invest in its generation, transmission, and distribution infrastructure in order to reliably meet the needs of all of its customers going forward. Importantly, reliability includes the responsibility to provide adequate resources necessary for electric service, under both normal

and extreme operating conditions. The Company is acutely aware of the challenges posed by rapidly increasing demand and looming resource adequacy concerns, and is proactively addressing these challenges not only through continued excellence in its operations, but through a combination of prudent investments to optimize the existing generation fleet.

18. Company Witness Cedric F. Green discusses such investments in uprates and modernization at four of its existing gas-fired generation units in order to provide needed incremental capacity to serve customers in the future and to improve these units' reliability, as well as other investments to improve reliability and ensure regulatory compliance at the Company's Mount Storm and Bath County facilities. Company Witness Locke addresses the Company's incremental investments in various reliability-driven projects and substation improvements at a distribution system level, as well as the capital needs to connect an increasing number of new high load customers. These investments are essential to maintain reliability and ensure that the Company remains well-equipped to serve our customers in the face of growing demand.

OPERATIONAL PERFORMANCE AND CUSTOMER SERVICE

19. The Company has demonstrated excellent operational performance and attention to the customer experience in carrying out its public service obligation over the biennial review period. As Company Witness Green testifies, the Company's diverse generation fleet has maintained a high level of system reliability, efficiency, and unit generating performance as measured by all major metrics. When the Company's diverse and balanced portfolio of generation facilities runs effectively and efficiently, customers are ensured of reliable service and avoid more costly alternatives to serve.

20. Company Witness Locke explains how the Company's systematic investment in

prudent programs and practices to ensure distribution reliability have resulted in customers receiving uninterrupted electric service 99.98% of the time throughout the year, and they experience prompt restoration of service when inevitable outages occur.

21. Finally, Company Witness Utibe O. Bassey describes the Company's ongoing investment in improving and modernizing the customer experience, as well as the Company's continued commitment to the core value of investing in and partnering with the many communities and constituencies the Company serves.

AFFORDABLE AND FAIR RATES

22. The Company is requesting a base rate increase in this proceeding. The Company is mindful of the economic pressures on customers and the need to maintain rates that are cost-effective and a good value for them. Many elements of the Company's cost of service that are creating rate pressure are beyond the Company's control, and all are necessary to serve.

23. To promote rate certainty and stability, the Company is seeking Commission approval, in connection with this case and the concurrently filed annual fuel factor proceeding, to shift the cost recovery of purchased capacity expense from base rates to its fuel rider. This expense is a "pass-through" item which is based on the results of a PJM auction process that has recently demonstrated great volatility, as Company Witness William A. Coyle explains. Excluding projected increases in those capacity costs over the upcoming rate periods, the Company's requested base generation and distribution revenue increase for the 2026 Rate Year is \$458 million and for the 2027 Rate Year it is an incremental \$173 million. The current average residential bill for the typical customer consuming 1000 kWh of electricity per month is \$140.65. If the base rate changes are approved as requested, the bill increase on January 1, 2026, would be \$8.51, with an incremental increase on January 1, 2027 of \$2.00. Based on the current

bill, these figures represent a 6.1% increase for 2026 and an incremental 1.3% increase in 2027.

24. If approved by the Commission, the requested rate adjustment will constitute the Company's first base rate increase since 1992—a period of over 33 years. Base rates were reduced in 1999 and 2019. More recently, in 2023, the Company's customers were the beneficiaries of an effective \$350 million annual rate reduction as a result of the legislatively mandated "roll-in" of certain rate adjustment clause ("RAC") costs to base rates, with no corresponding base rate increase. This "roll-in" resulted in a typical residential customer bill reduction of approximately \$6.75 per month.

25. The capital investments in the Company's generation and distribution assets required to ensure safe, adequate, and reliable service are the largest single driver of the revenue requirement, excluding capacity expense. More generally, the Company has been affected by persistent inflationary trends in the cost of goods and labor, as well as increases in employee-related costs, including pension expense. The Company has among the lowest Operations and Maintenance ("O&M") and General and Administrative ("G&A") expense ratios among its utility peers, and will continue to seek out cost efficiencies. But the Company is not immune to the macroeconomic trends that are affecting the Company's cost of service.

26. Over the biennial review period, customers' rates have remained extremely competitive relative to regional and national benchmarks. As of March 1, 2025, the Company's typical residential rate remains 13.75% below the national average. Since July 2008, the Company's rates have increased at a compound average rate of less than 1.65%, which is lower than the general rate of inflation of 2.25% over that period. In addition, between January 2015 and January 2025, the Company's typical residential rate increased at a compound annual growth rate of approximately 1.91%, while the general rate of inflation over the same period was 3.12%.

The customer rate pressures which the Company is currently experiencing due to supply constraints, the need to invest in new infrastructure, and commodity and other cost increases, likewise are affecting many other utilities throughout PJM and across the country.

**HIGH LOAD CUSTOMER PACKAGE, OTHER TARIFF CHANGES, AND
CAPACITY COST RECOVERY PROPOSAL**

27. As detailed in and supported by the testimony of Company Witnesses Stan Blackwell, Paul B. Haynes, Robert E. Miller, and Steven W. Wishart, the Company is proposing a bundle of cost allocation, rate design, and T&Cs changes in this proceeding, which are primarily designed to address the changing profile of the Company's High Load (defined as contracted or measured demand of 25 MW or greater) customer base. These changes will apply to most of the Company's customers in the growing data center segment, but are not directed exclusively at this subset of customers.

28. First, the Company is recommending the creation of a new customer class—the GS-5 class—as of January 1, 2027, for existing and new customers with a measured or contracted demand of 25 MW or greater along with a measured or expected load factor of at least 75%. This GS-5 class is expected to include 131 current data center accounts and 8 non-data center accounts. From a cost allocation standpoint, as detailed in the testimony of Company Witness Miller, the Company has determined that the High Load customers, including data centers, are currently “paying their fair share” of system costs, a finding which is consistent with the conclusion of the recent analysis conducted by the Virginia Joint Legislative Audit and Review Commission (“JLARC”). However, the High Load and high load factor sub-group does have a different cost causation profile from lower usage large general service customers. Creating a separate GS-5 class will allow more transparency going forward to align the principles of cost causation and cost recovery as the GS-5 class grows, both in terms of number

of customers and as a share of system resource requirements and energy consumption.

29. Second, to mitigate against the risk of costs caused by High Load Customers being spread to other customers (“stranded costs”), the Company is enhancing and expanding its tariff provisions consistent with the concerns and recommendations expressed in the JLARC Report. The Company is recommending that the Commission approve provisions in applicable large general service rate schedules (including Rate Schedules 6, 6-TS, GS-3, GS-4, and Schedule 10), along with market-based Rate Schedules MBR and SCR, which provide for minimum demand charges with respect to any High Load customer, data center or otherwise. Those customers will now be required to pay demand charges that reflect the higher of their actual demand or the applicable minimum percentage of their contracted demand. The minimum percentages will be 85% for the transmission and distribution functions, and 60% for the generation function. In addition, the Company is recommending changes to the T&Cs that address: i) a minimum 14-year contract term (a four-year ramp period + 10 years) for new High Load customers; ii) new deposit and credit (collateral) requirements for these customers; and iii) provisions with respect to potential capacity reassignments and exit fees, as explained by Company Witness Blackwell. These terms are intended to shift the financial risk of non-performance of obligations to the High Load customers and away from the utility and the remainder of its customer base.

30. As Company Witnesses Baine, Wishart, and Blackwell testify, these new provisions applicable to the High Load customers, including data centers, which will become effective, if approved by the Commission, as of January 1, 2027, are not intended to discourage development or create barriers to entry for these industries, which are beneficial to the Commonwealth and to the Company’s customers. Properly managed, High Load customers

promote long-term rate affordability and efficient use of utility system assets. Rather, this proposal is intended to balance those benefits of High Load customers with provisions to ensure continuing fair, reasonable and non-discriminatory rates for all customer classes as well as prudent protection against financial risk, particularly given the magnitude of investment required to serve the High Load customer segment.

31. The Company is also requesting that the Commission re-open Rate Schedule MBR (Market-Based Rates) and allow subscriptions to that rate schedule beyond its previously established 400 MW cap, as described in Company Witness Timothy P. Stuller's testimony. Schedule MBR allows customers over 5 MW in measured demand to access a market-based rate tariff and provides an important natural hedging function against changes in fuel costs that greatly benefits the non-MBR customers when market rates move higher. This is particularly significant given the recent price spikes that the Company is witnessing in the PJM capacity markets.

32. Finally, as discussed in Company Witness Baine's testimony, the Company is also proposing to shift recovery of capacity expense from base rates to the fuel factor. Contemporaneously with this filing, the Company is filing its fuel factor Application in Case No. PUR-2025-00059 and is seeking approval therein to change the Definitional Framework for the Recovery of Fuel Expenses in order to move capacity expense recovery from base rates to the fuel factor, effective January 1, 2026.³ This change in the best interests of customers to reduce volatility and minimize the potential for over- or under-recovery of these costs. If the Commission approves the Company's request, then no capacity expense recovery will be built into base rates going forward as a result of this proceeding. Company Witness J. Scott Gaskill

³ *Application of Virginia Electric and Power Company, To revise its fuel factor pursuant to Va. Code § 56-249.6, Case No. PUR-2025-00059 (filed Mar. 31, 2025).*

discusses this and other aspects of the proposal in the fuel factor proceeding.

33. In that regard, moving capacity expense recovery to the fuel factor will also promote greater near-term affordability for our customers. If the Company's request is approved, then the typical residential customer's monthly bill impact associated with capacity expense through the current fuel factor period would be \$1.98, which in the near term will assist with affordability by recovering six months of cost of over the fuel year versus a full year in base rates. By contrast, if capacity expense remains in base rates, the necessary monthly increase would be an incremental \$6.22 as of January 1, 2026, for a total bill increase at that time of \$14.73, versus \$8.51 under the Company's requested recovery parameters.
